

Chapter 328

Explicit contents

Talon's P.O.V.

I still can't believe Xandros stripped me of my title or that he handed the Pack over to his Cousins.

I thought I had raised my Sons to be like me, to want the power they deserve and to demand respect from the people around us. Ayden figured that out after I took care of a small hiccup in my plans for my Sons.

Xandros was more difficult to get a grip on, I was never able to read him and in recent years I had thought that I had made him in the man I wanted him to be. Did he prove me wrong on that part, he not only took my Pack from me, he also helped Tali in setting me up.

My biggest confusion concerns my Daughter, she played her part so sweetly and innocently. Roger and I never saw the trap closing until it was too late. When she ordered me to sit down, I couldn't stop my body from reacting and when she was able to avoid Eva's attack I knew there was more to her than I had known.

We were taken to a prison owned by the Council and we were lead in to a huge open space with in the middle four cages. No walls, just bars that surrounded us on all sides.

They put Eva and me in cells across from one and other, we can't reach each other and I know that I will never be allowed to touch her again. Roger is in the cage to my left, his cell is connected to mine and he is pacing his cell.

There is some sort of boardwalk all around the space and Guards are watching us from up there. One of them has been staring daggers at Roger ever since they brought us in, but he hasn't spoken a word.

The door opens and I see that Roger stops dead in his tracks, while his head snaps towards the door. Two Guards walk in with a woman hanging between them, Roger roars as they come closer and one of them grabs the woman by her hair, lifting her head.

"Fuck." I mutter, it is Roger's Sister and she looks like a mess. She is butt naked and I can see healing and fresh wounds all over her body. They did a real number on her and I wonder who the hell she pissed off.

"Camden sends his regards." The Guard says as he is looking at Roger and an ear-deafening roar erupts from his mouth. They toss her in to the cell and make their way up the boardwalk. One of the Guards quietly talks to the one staring at Roger and a smirk crosses his face.

One by one the other Guards all disappear, until he is the only one left and the ice cold look in his eyes doesn't predict much good.

He slowly makes his way down the stairs closest to him and his eyes never leave Roger, I start to feel anxious by the way he prowls towards Roger. Roger doesn't see him coming as his eyes are fixed on his Sister, that is until the Guard blocks his view.

"Hello, Roger." He growls and I hear Roger whisper a name I have not heard in a very long time "Kijani?" He chuckles as he looks at Sofia over his shoulder.

Kijani used to be Roger's Beta until the day Roger killed his first chosen Mate. I always wondered if Kijani's Mate survived the brutal attack, but the way he is looking at Roger tells me that she didn't and that he is about to get even.

"Looks like they had some fun with Sofia. She doesn't look that pretty anymore, does she?" He asks, but he doesn't wait for an answer as he walks over to her cage. "What do you think Camden did to her, when she was released in to his custody?"

He looks at Roger and so do I, Roger told me that she had rejected her fated Mate for King Duncan and that his name was Camden. Oh, Fuck. She really pissed off the wrong guy.

Roger's P.O.V.

I am going to kill whoever is responsible for the way Sofia looks and no one will stop me.

I want to hold her and tell her that she will be fine. I want to clean her body and cover her with my shirt, to keep those Guards from staring at her naked figure.

Someone is blocking my view on Sofia and as I look up, I see the last person I thought I would ever see again and I whisper "Kijani?" The look in his eyes tells me an answer I have been wanting for a long time and I can feel that the worst is still to come as he looks over his shoulder at Sofia.

He is staring at her, waiting for me to answer his question and for a moment I am at a loss for words. I feel relief as he tells me that Camden only beat the crap out of her, that they left her without her clothes and without any comfort.

He opens her cage, walks in and crouches down next to her as she is starting to regain consciousness. She looks up at him and I see that she recognizes him, she smiles at him and whispers his name.

"Hello, Sofia. Did you enjoy your time in the dungeons at the Palace? Did you enjoy your time with Camden?" He asks her and I see fear running over her face.

She tries to back away from him, but he grabs her hair and pulls her towards him. "Did your Brother tell you what he did to Amyah? Did he ever tell you in what kind of shape I found my Mate?"

Sofia knows what happened, because she had asked me where Kijani was the first time she came to visit me after that day. So she nods her head.

He grabs her by the throat and slams her up against the bars, her back is towards me. I can't see the look on her face, but I can see Kijani and the look on his face is pure evil.

I want to yell at the other Guards to get him away from her, but as I look around I see that there are no Guards left. Talon tells me they left, before Kijani came down the stairs and I fear for my Sister's life.

It is as if he knows what went through my mind, because he says "Don't worry, Roger. Unlike my Mate, your Sister will survive. Just as Camden ordered." Before I can respond, he pushes her up higher against the bars and slams his fist in to her stomach just as he releases her.

She tries to crawl away from him, but he puts his boot down on her back and pushes her to the floor. He looks me dead in the eye as he pulls down his zipper and pulls out his cock.

He grabs her hair again, pulling her in to a standing position and whispers "Think you can handle me? I have a lot of pant up aggression and you will be on the receiving end, Bitch." I know that pleading with him will do no good, so I just say "I will make you pay for this, Kijani."

He turns Sofia around and with his hand around her throat he pushes her up against the bars again. She tries to fight him, but he is too strong for her and I hear her scream as I see him force his cock in to her ass.

He slowly forces his cock in and I know from experience that this is very painful for a female. He keeps pushing as Sofia begs him to stop, but he doesn't just like I didn't stop when his Mate begged me to stop.

I see his cock sliding in, deeper and deeper and soon he bottoms out whispering "Now the fun starts." He pulls his cock out slowly and slams it back in hard, he pulls out slowly and starts repeating his actions.

Sofia keeps screaming and begging, but it is falling on deaf man's ears and suddenly he pulls out, forcing his cock down her throat as he comes. He keeps his cock gliding in and out of her mouth until he is rock-hard again and then he starts all over again. Repeating this for I don't know how long.
