Chapter 301 mountain village

As a person from ancient times and someone of high status, he understood the importance of a family more than Cai Xiaolian and Gu Nian.

If she wanted to give her daughter a stronger backing, she could only rely on her own family.

After three months of getting along, Gu shouxin had a better understanding of the Gu family. He was willing to contribute to the Gu family.

Gu Xin's act of secretly helping Gu Nian out this time made the time travel Trio very pleased.

Although they wanted to treat Gu Xin well when they first came and found out about what happened to her in her previous life, Gu Xin's thoughtfulness made them feel that it was worth it. Gu Xin was worth it.

.....

The next day, after their morning exercise, the family of four went to the old house to drive a carriage and set off to look for a human broker to look after the manor.

There were three villages in total, and they were not far from the village at the fork. After looking around for a day, Gu Nian chose Shanli village.

This mountain village was just like its name. Deep in the mountains, it was the village of a high scholar surnamed Feng in the prefecture. He had fallen ill and had found many doctors, but none of them could cure him. Later, a sorcerer suggested that he should recuperate in a quiet and sparsely populated place for a few years and even pointed out the most suitable location for him.

High scholar Feng had chosen to be in the deep mountains.

Now, high scholar Feng's family was moving south, so the things here naturally had to be dealt with.

The reason why Gu Xin's family valued this place was very simple. This place was the closest to their village, but there was no one around the manor.

It was good that there were no people around. When the time came, they would buy some people to guard the manor, and their family could plant more crops that could not be seen for the time being.

Gu shouxin also observed the surrounding terrain and combined it with the geographical record of Taoyuan County that he had seen before. He should be able to come here from the back mountain of the village at the crossroads.

The manor had 180 mu of land. There was a house in it, which was about three mu. The rest was all land. After high scholar Feng recovered and left, he would regularly send people here to take care of it. Therefore, there was no wasteland in the manor, but there were no crops in the first month of the lunar year.

The original price was 1800 taels, but the Gu family didn't want to go to the Yamen to sign the contract recently, so they spent 50 taels to get the broker to handle this matter.

The broker had his own connections in the Yamen, and he didn't necessarily need to get the approval of the county Magistrate to do the deed.

After making his decision, Gu shouxin paid a deposit of one thousand taels. When he got the land deed, he would pay the remaining eight hundred and fifty taels.

Gu Nian had a rough idea of the manor after walking around it once. He drew a rough picture of the manor when he returned.

"Niannian, list all the things you need. I'll design them for you, and then let your Grandpa yang and fourth uncle type them out." Cai Xiaolian said after looking at the rough terrain.

"Mother, we still need to build houses. This Manor is too big. We can live in the house built by high scholar Feng when we go there, but the people who buy it will need a house. It's best if we buy a family of a few, not one. "In this area, I'll draw it to build a house." Gu Nian explained his plan to Cai Xiaolian one by one.

"Hmm, you decide. By the way, after we buy them, why don't we build a small workshop and choose a few from the buyers to make more washing and protection sets? Your father said that we should be able to get to the village from the back mountain. At that time, it will be more convenient for us to separate." Cai Xiaolian nodded.

"Build an extra row of houses." At this moment, Gu shouxin and Gu shouxin came in.

Chapter 302 That is merit

"Dad, we're planning to buy a house. It's not convenient for the family to get along with each other if we buy a house in this row." Cai Xiaolian said.

"Buy some clever boys and girls and put them there to train for two or three years. Didn't you want to open a big restaurant in the future? Can we train people two years in advance?" Gu shouxin laughed.

"This is good! It was completely possible. Dad, you choose the people, I'll design the place with niannian." Cai Xiaolian's eyes lit up as she nodded.

That's right, she had almost forgotten that nine thousand years old was going to be an official. He couldn't wait until he was in a high position to find a capable and credible person. He had to cultivate them early so that he wouldn't panic.

"Then what should I do?" Gu Xin blinked and asked.

It can't be that all of you have things to do and I don't!

"Xinxin, when father and Zhou Yuan go to town to get the seeds in a few days, you'll be responsible for planting the seeds in our old house. These few years, father and mother will be busy with the matters of the village." Gu Nian said.

Gu shouxin and Cai Xiaolian also felt that this arrangement was feasible.

They just had to water the seeds and plant them in the morning. They would see what they were when they got home at night.

"By the way, I thought about it last night. The Jade beads in Xinxin's hands will melt when they come into contact with water. Let's collect ten of them every day in a ceramic jar. If we can't use them all, we can store them and use them in the manor. What do you guys think?" Gu shouxin said.

The three of them nodded.

Gu Xin counted with her fingers, " we need one pill in the well every day. We need one pill in grandpa's medicine jar. The four of us need four pills a day. We still have four pills left.

Xinxin, you take one pill a day. The three of us can take one pill a day and make a pot of tea every day. Cai Xiaolian said.

"Ah? Then I'd like to drink tea with you." Gu Xin expressed that she wanted to advance and retreat together. Since everyone knew that she had jade beads, how could she eat one for herself and let her parents and sister eat less?

Since she insisted on drinking tea with everyone, the transmigrated trio had no choice but to go along with her wishes.

.....

The next day after they settled down, the family went to the land behind the house to dig potatoes.

It wasn't very big, but it was edible. The family only dug up a small piece of the back, half of it in the basket, and the other half was brought to the old house.

"This is what you planted in the winter?" The old couple asked as they looked at the potatoes that were still covered in mud.

"Yes, Grandpa. His parents said that they were going to make a potato feast for lunch, so they called grandma Xiao and Zhou Yuan over to eat together. I'll do it!" Gu Nian said.

"It wasn't easy to plant it, so I'd better keep it as a seed! In the past, Lord Zhou had very few successes in planting these." Grandpa Gu said.

"Grandpa, we have to eat! Even if we don't eat it, old Zhou will find someone to taste it! Grandpa, let's work together and make a big meal, okay?" Gu Nian said coyly.

hehehehe, good, good, Grandpa will cooperate with niannian and have a big meal! Grandpa Gu still doted on his grandchildren.

"I'm the first person to eat this! Dad, niannian, you guys worked together to make this thing, so don't call it a potato! He was called Grand-grandson bean! It was more appropriate! The second brother said that with a hoe, a long line of soil could be dug out, and the yield would be high! If it's delicious, the Imperial court will definitely promote it. This is merit, and if you die, you can go to heaven and be listed as an immortal!" Uncle Gu said on a whim.

Chapter 303 eat it raw

"Pfft! Uncle, what do you call this? Grandparent-grandchild bean? "Hahahaha!" Gu Nian laughed hysterically.

The potatoes are called Grand-grandson beans, the shredded potato is called Grand-grandson shredded meat, the potato ribs are called Grand-grandson ribs, and the mashed potatoes are called Grand-grandson mud.

Oh no, I can't, I can't.

"Hey, what are you laughing at? I'm doing this for your good! Think about it, if this thing was delicious and the production was so high, people would ask why it was called grandparent-grandchild bean if it was called this. Then, you and your grandfather will become famous, right? The entire great Zhou will know about the two of you! When the God in heaven knew about it, he thought, 'hey, those two mortals are not bad. They have such a good reputation. Why don't we wait for them to die and summon them to heaven to be the God of Cooking?'" Uncle Gu was thinking further and further away.

Grandma Gu rolled her eyes at him and said, 'boss, get out! It's the new year, who are you trying to curse?'

Uncle Gu said aggrievedly, 'mother, I said that father and niannian will be Immortals in the future!' That wasn't death, that was attaining Dao and becoming immortal! How awe-inspiring!'

Grandma Gu picked up a potato and tossed it around. She looked at uncle Gu. 'Are you going to get lost?'

Uncle Gu scratched his head and said in a silly manner, ' "Aiya! I didn't even hug my youngest son today. Aiyo, my little ninren, you must be missing your father! I'll be leaving first!"

"Bah! What was this! Can it be eaten? What's that smell? Sister-in-law, niannian, what kind of poison are you using? Oh no, I have to go to aunt Xiao's place to see if this thing will give me a stomachache!" After uncle Gu left, Madam Zhang, who was curled up in front of the kitchen door, spat and said angrily.

Everyone looked over and saw that she was still holding a potato that she had taken a bite of.

Raw potatoes, uncooked.

"Big boss's family, is the Gu family short of you to eat or drink? It was as if he hadn't eaten in 800 years. Are you the reincarnation of a Hungry Ghost?" Grandma Gu scolded her angrily.

"Mother, the sweet potatoes in the field are all eaten like this! Carrots could also be plucked and eaten. Didn't they also come from the ground? How can you blame me! It's all because of the strange things that second brother and the others planted. Father, mother, please don't eat it. Really, what if it's poisonous? Aiyo, I can't take it anymore, my stomach hurts. I must be poisoned, I have to go find aunt Xiao!" Seeing that grandma Gu's expression was not right, Zhang Shi held her stomach and ran away.

Both Cai Xiaolian and Gu Nian were speechless at Mrs. Zhang's behavior. How could she eat raw potatoes?

Grandpa, grandma, let me tell you a secret. Actually, we've already eaten this. Xinxin and I secretly dug up a few and burned them. Father and mother also ate them. They were very delicious. Moreover, it was eaten before the new year, so there was definitely no poison. So, you can rest assured! However, don't tell grandma Xiao and Zhou Yuan about this!" In order to reassure the old couple, Gu Nian lied.

“Don’t do such things in the future! It’s fine to let the animals eat it first, then I’ll eat it myself! If there’s something wrong with this thing and you two sisters eat it rashly, what if something happens?” Grandma Gu said disapprovingly.

“Hehe, I got it, grandma. I’ll feed the chicken first in the future. Can we do it now, grandma?” Gu Nian chuckled.

“Do it! I’ll help you start the fire.” Grandma Gu nodded.

Therefore, Gu Nian peeled the skin, Grandpa Gu tidied up the meat, and Cai Xiaolian helped to pick some vegetables.

She did not plan to make a main course for this meal. She planned to use potato patties instead.

Chapter 304 a mu and three cents of land

Potato cake, shredded potato with pickled pepper, stewed spare ribs with potato, potato slices with chili, potato vegetable soup, and a volcanic potato paste.

Although there were only six dishes, as long as there were enough portions, everyone would definitely be full.

He peeled the potatoes from the spine, then sliced them into slices, shredded them, or cut them into knife-shaped pieces. After he was done, he soaked them in water.

For example, when the potato cakes and mashed potatoes were cooked, they would be placed in the pot to steam.

For the potato and vegetable soup, the potatoes had to be cut into pieces.

There were a total of 11 people in the family. Including grandma Xiao and Lu Zheng, there were 13 people. Gu Nian planned to have 10 people each, mainly because the Gu family had huge appetites.

She had also prepared enough of the other dishes.

However, Gu Nian still felt that it was not enough. She asked fourth uncle Gu to dig a few more nests with a hoe. She then boiled the potatoes and ate them with some seasoning.

.....

On the lunch table, there were six large plates of potato-related dishes, and dozens of boiled potatoes in the pot.

“This pancake is not bad!” Grandpa Gu said with a smile as he ate a pancake.

“Oh my, this thing is completely different from eating it raw! It’s delicious!” Zhang Shi first ate the boiled one. She only took a small bite, then said a few words and began to eat one in a few bites.

as expected of the grandparent-grandchild beans. They’re so delicious! Uncle Gu also ate boiled food. After he finished eating, he began to pick up the potato ribs.

“Brother ah Yuan, second uncle said that all the potatoes in the field belong to your family. Can you sell us some? It’s so delicious!” Gu en asked Lu Yang as he ate quickly. He had eaten all the food.

en 'Zi, these potatoes are going to be used as seeds, just the ones in our field. Let's plant them one batch after another, so that we can have more seeds and not lack food. Gu Xin said.

"Xinxin is right. If he didn't have the seeds after he finished eating, he wouldn't be able to eat them. The potato itself is a seed, right?" Grandpa Gu looked at Lu Zheng as he spoke.

"Yes, that's what I gave second uncle. Previously, granduncle had people plant it in the Four Seasons of spring, summer, autumn, and winter, but it didn't grow. It rotted in the ground, and there were only two bags left. I gave second uncle one bag, and granduncle still has another bag." Lu Zheng nodded and said, "this spring plowing, I'm going to learn how to grow potatoes from second uncle and aunt Lian. There's also Golden Rice and red potatoes."

"Leave this to me. I'm just afraid that you're too used to living in the city and can't do farm work!" Cai Xiaolian laughed.

In the vegetable field of the old house, they had already planted corn and sweet potatoes. Cai Xiaolian, who was a rich young lady in her previous life, now knew how to grow sweet potatoes and corn.

"Aunt Lian, don't look down on me. I've already told grandma that I'll go with you to explore the wasteland in two days. Isn't there a rule that states that the land you open up must be signed by the Yamen? I don't have any land in the village, so second uncle and aunt Lian must give me one mu and three parts of it!" Lu Zheng said with a smile.

"Don't joke around. Ah Yuan, you're old Zhou's grandnephew. Do you think our small piece of land is of any use to you?" Zhang Shi immediately retorted as she still had something in her mouth.

If not for the fact that Lu Zheng was three years younger than Gu Hui, she would have wanted Lu Zheng to be her son-in-law.

"Big brother's family, you're wrong. Old Wang and old Zhou have grandchildren. How could they give such things to their distant relatives?" Grandma Xiao almost called him an old bastard.

Chapter 305 Your first aunt, she

"Aiyo, aunt Xiao, don't look down on me just because I'm a village woman. I heard that after Master Zhou's daughter died, his high-ranking son-in-law remarried. I don't know how Master Zhou's grandchildren have been raised. He had never heard of them coming to visit old master Zhou! Old Zhou was such a pitiful old man! Last year, it was ah Yuan who had accompanied him for thirty nights! That's why, Yuan, listen to me, please old master Zhou, and maybe the entire Zhou clan town will be yours in the future!" Zhang Shi said.

Grandma Xiao,"Yingluo."

Who said that my granddaughter didn't come to see me and that old bastard?

"Aunt Zhang, I'm only farming for my granduncle," Lu Zheng replied.

Zhang Shi continued to persuade him,"young man, don't say that about yourself." Juan Zi has high hopes for you. You definitely have the ability to obtain the Zhou clan town. I'll help you pray so that old Zhou's grandchildren will forget about him. Then you can take the opportunity to please old Zhou. Work hard!"

Lu Zheng did not know whether to laugh or cry. He did not know how to answer.

The three transmigrators and the Gu family's old couple, who knew the truth, looked at Zhang Shi speechlessly.

"Wife, don't misguide other people's children!" Uncle Gu was gnawing on a piece of pork rib when his mouth was finally free. He said righteously, "ah Yuan, don't listen to my son's mother. Listen to me. You can treat old master Zhou well. After all, he is a very pitiful old man. However, don't covet his family property."

"Why?" Zhang Shi tilted her head and asked.

Lu Zheng also looked at uncle Gu curiously.

"Because it's not Zhou Yuan's!" Uncle Gu replied. The family business that old master Zhou had earned should belong to miss Zhou. Miss Zhou had died young, so it should belong to miss Zhou's son and daughter. For example, if father gives me ten mu of land in the future, you and I will be dead, Huihui and sisi will be married, Enzi and ninren will not be with father and mother, and father and mother's distant nephews will come to our village to get these ten mu of land? Wife, what are you doing? Do you feel at ease being a ghost?"

Zhang Shi immediately said, "why?!" Why should we give our things to others? If anyone dares to steal my child's things, I won't let them off even if I become a ghost!"

Uncle Gu, "then isn't it settled?" You let a little fellow like ah Yuan Rob the things of miss Zhou's children. Even if miss Zhou becomes a ghost, she won't let ah Yuan off! Such a handsome young man, who knew what he would look like if he was haunted by a ghost! I don't want our village to lose a pretty boy!"

Everyone, "hehe."

How could this be a reason?

Grandma Xiao and Lu Zheng didn't know whether to laugh or cry. This was also the first time that grandma Xiao didn't feel so depressed when she heard someone talk about her daughter who had died young.

"Uncle, are there really ghosts?" Gu Xin asked fearfully. Gu Si was obviously scared too.

"Of course!" Uncle Gu looked at the two girls sitting together with a serious expression and said sternly, "this ghost actually depends on the person. In a family like ours, where most of the people are good-looking, as long as you don't provoke those ghosts, they won't appear. So, Xinxin, sisi, you two have to work hard to look good and don't provoke ghosts. Then, the ghosts naturally won't appear."

"En!" The two girls nodded firmly.

"Then uncle, are you saying that people who are not good looking are easily haunted by ghosts?" Gu nianxiao asked.

"Of course!" Uncle Gu glanced at Zhang Shi as he spoke. Under Zhang Shi's baffled gaze, he said, "your aunt doesn't dare to go to the outhouse at night. She has shouted at least seven times, 'ah, there's a ghost!' This kind of thing has never happened to anyone with the surname Gu."

Chapter 306 The sorrowful back

"Gu shouren!" Zhang Shi was once again angered by uncle Gu.

Is there such a way to mock people?

Ever since she married into the Gu family, she had been criticizing her for her looks. She was not ugly, so what was wrong with that?

Didn't she take a fancy to uncle Gu because he was the good-looking young man in the village, and his biological children would definitely be better looking?

wife, don't deny it. Ask sister-in-law, aunt Xiao, and ah Yuan. Their surname isn't gu, but they're pretty. Ask them if they've been scared by ghosts. Uncle Gu patted Zhang Shi's back and advised her.

"Boss, you can either get out of here or shut up and eat!" Seeing that Mrs. Zhang was about to make a scene, grandma Gu could only scold her son.

"Al! In this world, it's only a matter of time before it becomes a world where even speaking the truth is wrong!" Uncle Gu let out a deep sigh.

Then, she picked up a large bowl, picked up a few potato pancakes, a few ribs, and a few boiled potatoes, and carried them to the door to squat down and eat.

The people in the room didn't know what to say when they saw her sad back.

Zhang Shi was particularly aggrieved, but her mother-in-law had already scolded her and she was still making a fuss. She would probably be scolded and chased out as well.

"Alright, alright, let's eat. Why aren't you guys enthusiastic about such delicious potatoes?" Grandpa Gu smiled and asked everyone to continue eating.

.....

In the afternoon, Lu Zheng brought Gu shouxin and the half-slung bag of potatoes to town.

On the way, Lu Zheng couldn't help but talk to Gu shouxin about uncle Gu. "Second uncle, first uncle's words are very pertinent!"

"Which sentence?" Gu shouxin raised his eyebrows.

That cheap brother of his had a lot to say, and most of his words were quite pertinent as long as you weren't the target of his criticism.

"So many words. For example, the saying that it was wrong to tell the truth in this world sooner or later. In fact, this world has been like this for a long time." Lu Zheng said with a smile.

"In this world, there are still many things that are not up to one's expectations. We commoners may not even have the right to speak sometimes! But this is also relative. Perhaps even an Emperor has to consider the reactions of his ministers before saying something, and sometimes he is also controlled by his ministers." Gu shouxin sighed.

"Second uncle's comprehension is quite deep!" Lu Zheng raised his eyebrows. Could it be that the current Gu shouxin was once an Emperor before he became Gu shouxin?

"I didn't really comprehend much, I just read some history books. Compared to the emperors in the history books who were controlled by the ministers, I prefer the ministers who controlled the Emperor. Since ancient times, there have been very few people like this. If they can do this, then it's not within my previous words. They have no opposition, they only have absolute, absolute power!" Gu shouxin said again.

Lu Zheng was stunned. Not an Emperor, but a powerful official. How could he be a powerful official with absolute power?

It seemed that master liaowu was right. The more people who had Xinxin's characteristics were found, the greater the strength of change.

Gu shouxin was definitely a figure close to the Emperor.

What about Cai Xiaolian and Gu Nian?

Gu shouxin looked at the stunned Lu Zheng and laughed. Brat, you're trying to trick me. Then I'll be more vague, you can guess it yourself!

"You really have no interest in the Zhou family's assets?" Gu shouxin was bored and also came to set a trap for Lu Zheng.

It all depends on how you answer. One day, you'll fall from grace. Let's see if you dare to lie now.

"What do you think, second uncle? Second uncle, do you think I'm that kind of person?" Lu Zheng asked.

Gu shouxin, "yo, you're good!"

Chapter 307 What do you think?

"What kind of person do you think I am?" Gu shouxin laughed.

Lu Zheng was stunned for a moment before he laughed. "Hahahaha, second uncle's words are really interesting. It's getting more and more interesting. In the past, I had eyes but did not recognize Mt. Tai and did not know that second Shu had hidden it deeply. In the future, please second Shu give me more guidance."

Gu shouxin smiled. Seeing that the carriage was about to enter the town, he didn't answer.

The distance between the crossroads Village and the Zhou town was not far. It was closer than going to Taoyuan County. If you went in the direction of the Zhou town, you would reach the capital of Qingzhou. However, it would take about eight hours to get there by carriage. Therefore, the people of the Crossroads Village would not go to the capital if there was nothing important.

Zhou town was named after the Zhou family, and the Zhou family's house was quite big. When Gu shouxin followed Lu Zheng in, he couldn't help but think of his former self.

In the past, he had lived alone in such a large house.

Thinking about it, old master Zhou was quite pitiful. His wife was not accompanying her, his daughter was gone, and his grandson was by his side, but he could not tell anyone.

"Yuanyuan, you're back! This must be shouxin's nephew! Quickly come in and sit!" Old Zhou was a fair and chubby old man. When he saw the two of them, he had a smile on his face.

Gu shouxin thought, "you called your nephew just like that?" Aren't you afraid I'll ask my mother? Then, aunt Xiao would be angry that you exposed your relationship and come to town to Cut You Down?

"Old Zhou." Gu shouxin complained in his heart, but his performance was still normal.

"Why are you calling me master? I'm about the same age as your parents, so you can just call me uncle. Yuanyuan lives with his grandmother at the three-way junction and you guys have been taking care of her. Aren't you being too polite by calling him uncle?" The White and chubby old man was very cute when he pretended to be angry.

"Alright, uncle Zhou." Gu shouxin laughed.

"That's more like it! Sit, sit, have some tea and snacks first. You must be tired from the journey." Old master Zhou instantly smiled and warmly invited Gu shouxin to drink tea.

Gu shouxin: "uncle Zhou, our village is actually quite close to the town. It'll only take half an hour.

It couldn't be considered as hurrying.

Lord Zhou nodded in agreement. "Don't you need half an hour? How nice it would be if I was in the town, or in other words, how nice it would be if I was in your village! Half an hour! Half an hour!"

Lu Zheng's mouth twitched. He could tell that his grandfather did not think that the village at the crossroads was far from the Zhou family town, but he felt that he was far from his grandmother.

He didn't understand. His grandmother used to live in Taoyuan County, which was further away from the Zhou clan town. How did he endure it for more than ten years?

Gu shouxin didn't know how to reply, so he could only take a cup of tea and drink some water to cover up his embarrassment.

It was said that this fat old man had a good relationship with his cheap parents when they were young. Because of Lu Zheng's mother, aunt Xiao left the Zhou family, and the fat old man did not dare to look for his cheap parents.

He couldn't imagine what it was like when this rich and fat old man was with his father, a noble and upright old man from the countryside. What did they talk about?

"Granduncle, these are the potatoes that second uncle and aunt Lian's family grew. Take a look." Lu Zheng placed the basket of potatoes in front of old Zhou and interrupted his melancholy.

"I really planted it! Aiyo, this head isn't small. I think it will grow bigger." Lord Zhou came back to his senses and asked in surprise.

He didn't expect the second son of the Gu family to be good at studying in the past. Now that he had stopped studying, he could even farm!

Chapter 308 So that's how it is

Old master Zhou knew uncle Gu and Gu shouxin. The original owner, Gu shouxin, had been numbed by alcohol and gambling over the years. Other than these two things, there was only his white moonlight in his mind. He did not remember things as clearly as uncle Gu did when he was young.

Therefore, when Gu Nian said that Lu Zheng's mother was the daughter of the town's old master Zhou, Gu shouxin did not find any information about the Zhou family in the original owner's memory.

If it was uncle Gu, he would definitely remember.

Uncle Gu still remembered Lu Zheng's mother when she was young. Back then, grandma Xiao and grandma Gu were on good terms. Lu Zheng's mother, Zhou roujia, was four years older than uncle Gu. Uncle Gu liked to play with pretty girls when they were young.

When Zhou roujia got married at sixteen, uncle Gu was only twelve and Gu shouxin was ten.

Not long after Lu Zheng was born, Zhou roujia passed away from illness. Grandma Xiao fell out with old master Zhou, and the Gu family never had any contact with old master Zhou again.

In Gu shouxin's eyes, old Zhou had lost his wife and daughter, leaving only his granddaughter and grandson in the capital. He was a very pitiful old man.

uncle Zhou, we only dug out a bag and left half a bag for us to eat at home. We brought the other half for you to see. We haven't dug out the rest. Gu shouxin replied.

"Shouxin, can you tell me what kind of crops you are?" Lord Zhou asked.

my daughter said that there weren't many seeds, but one of the seeds you gave us had some sprouts. We cut it along the sprouts, then cultivated it for a while before planting it in the ground. Gu shouxin answered truthfully. This planting was to be promoted, and there was nothing to hide.

"So it's like this! No wonder, no wonder! Your daughter is so smart!" Old Zhou suddenly understood and smacked his head.

When he asked the people in his Manor to plant it, he directly pressed down on one of them. He even complained that the bud was not good-looking and had someone break it off. No wonder it couldn't grow out!

"Then, then what about the red potato and Golden Rice? Have you guys grown it?" Lord Zhou asked.

"It hasn't gone underground yet. It looks like it can be preserved, so I plan to go underground after the first month. My wife said that she had seen the Golden Rice before. It wasn't on the ground or underground, but on a pole. As for the red potato, she called it sweet potato. It grew underground like potatoes. So, we're planning to mate." Gu shouxin said.

"She's seen it too! Where is he?" Lord Zhou asked in surprise.

These three seeds were obtained by him last year and bought from a foreigner. Shouxin's wife had probably seen the foreigner last year and even knew his name. Could it be that shouxin's wife knew the foreign language?

“The two of them have met outside, but I can’t tell where exactly. Uncle Zhou should have heard of my disgraceful acts from a few years ago. I’m really ashamed of my wife and daughter!” Gu shouxin said, embarrassed.

“So that’s how it is!” Old master Zhou nodded. Seeing Gu shouxin’s expression, he asked again, “shouxin, you really didn’t do anything in the past. Tell me the truth, are you still thinking about that Xie jiaoniang?”

Gu shouxin was stunned.

Old master Zhou saw that he was in a daze and felt a little resentful. “Do you know what your mother did for you? That xie jiao’s husband’s family was chased out of Zhou clan town by your mother alone. A few years ago, Xie jiaoniang lost her husband and was chased out by her husband’s family with her daughter. She wanted to blame you and you almost fell for it. You can’t still be thinking about Xie jiaoniang, right?”

Chapter 309 Gu shouxin’s past (1)

“Uncle Zhou, what did my mother do in the past?” Gu shouxin was shocked. He had no memory of this at all!

the Zhou clan town is only so big. You’re the only one who doesn’t know about this. Many people know about it! Old Zhou began to talk about the events of the past.

The original owner, Gu shouxin’s Bai yueguang, Xie jiaoniang, lived up to her name. She was the first beauty in the town and played the zither well. Many young men of the right age liked her very much, including the original owner, Gu shouxin.

Originally, Xie jiaoniang also had that kind of intention towards Gu shouxin. When Gu shouxin was young, he was good at studying and inherited his parents’ looks, so his looks could be considered one of the best.

After this, Gu shouxin thought that the two were in love with each other, so he put in all his effort in studying and striving to get a good reputation as soon as possible so that he could marry Xie jiaonian.

However, before that exam, the matter of Xie jiaoniang discussing marriage with the Huang family had spread.

Gu shouxin was anxious and went to find Xie jiaoniang. When he finally saw her, Xie jiaoniang wiped her tears to show that she had no choice. Gu shouxin was in pain and immediately went to confront the young master of the Huang family.

In the end, the Huang family’s young master humiliated Gu shouxin and asked him, a country bumpkin, what right did he have to covet a beauty?

At that time, Gu shouxin was full of vigor. He was a good student and felt that he would not be mediocre. Therefore, he was not convinced and wanted to compete with young master Huang.

Young master Huang directly ordered someone to hit Gu shouxin.

Every time Gu shouxin met Xie jiaoniang, she would cry and say that she had no choice and that it was her parents’ order. She also said that the Huang family was rich and that her family was just a small

family that she couldn't afford to offend. She even told Gu shouxin that even if she got married in this life, her heart would still be filled with brother Xin.

Gu shouxin felt that the Xie family was forced by the Huang family, so he often went to find trouble with young master Huang.

Young master Huang was patient and finally beat Gu shouxin up until he had to lie in bed for a month.

Seeing her son being beaten up, grandma Gu naturally couldn't stand it. After checking, she felt that her son deserved it. He was being coaxed by a little girl, so she didn't go out to help. She felt that this could train her proud son. She planned to wait until her son could get out of bed, and then find a chance to let him see Xie jiaonian's true colors.

Unfortunately, Gu shouxin didn't take good care of himself. He didn't know who he heard from, but the Xie and Huang families were going to hold a wedding. His legs hadn't recovered yet, so he sneaked away in the middle of the night and went to the Huang family to make a scene.

This time, Gu shouxin had been beaten half to death and thrown out of the city. Xie jiaonian found out about it and secretly brought her servant girls to find him. She also said some things that made Gu shouxin worried about her, and it just so happened that grandma Gu, who had found out that Gu shouxin was missing and had come out to look for her, heard it.

In front of Gu shouxin, grandma Gu questioned Xie jiaonian whether the marriage between the Xie and Huang families was forced by the Huang family or if the daughter of the Xie family was willing.

Xie jiaonian definitely wouldn't admit it, but at this time, Gu shouxin also believed in Xie jiaonian.

Grandma Gu was so angry that she wanted to kill her stupid son on the spot.

Gu shouxin even asked grandma Gu for help, asking grandma Gu to propose marriage to the Xie family before the wedding between the Xie and Huang families.

Grandma Gu was naturally unwilling, so she carried Gu shouxin back. Before she left, she warned Xie jiaonian to stay at home after getting married and not to provoke Gu shouxin again.

Tears streamed down Xie jiaonian's face as she expressed her true feelings for Gu shouxin. She was really forced to do this, and once again expressed that she only had Gu shouxin in her heart.

Chapter 310 Gu shouxin's past 2

Gu shouxin, who was carried home, was very touched. After being carried home, he began to play all kinds of tricks.

She wanted to go on a hunger strike, commit suicide, and force Grandpa and Grandma Gu to go to the Xie family to propose marriage.

The old couple had investigated Xie jiaonian's personality thoroughly. They knew that this matter was originally Xie jiaonian's own love for Rong Hua. She couldn't wait for Gu shouxin to pass the Imperial examinations and successfully seduce young master Huang. So, how could she go and propose marriage?

Grandma Gu was too lazy to talk nonsense with Gu shouxin, but Grandpa Gu was soft-hearted and patiently explained to Gu shouxin what kind of person Xie jiaoniang was.

Unfortunately, Gu shouxin, who was immersed in great love, would not believe it. At that moment, because of Xie jiaoniang, he began to hate his own parents.

Three days before Xie jiaoniang's wedding, Grandpa Gu was seriously ill. Grandma Gu took Grandpa Gu to the county to see a doctor, and that young master Huang brought people to see Gu shouxin.

At that time, only the pregnant Zhang Shi and the two-year-old fourth uncle Gu were at home. Gu Lin had followed uncle Gu up the mountain to carry firewood.

Young master Huang stood at Gu shouxin's door and ruthlessly humiliated Gu shouxin and his family.

The pregnant Zhang Shi and the two-year-old fourth uncle Gu couldn't do anything. They could only watch helplessly as young master Huang left. Gu shouxin picked up a sickle and cut his own wrist. Fourth uncle Gu directly fainted from fear. Zhang Shi grabbed a handful of plant ash and wiped it on Gu shouxin's wrist. She then ran to the nearest family to help with her pregnant belly.

Gu shouxin was sent to the medicine shop in town, which was opened by the Zhou family. Old master Zhou happened to be listening to the manager's report in the shop. Seeing that it was Gu shouxin, he asked the physician in charge to give him the best medicine.

Gu shouxin managed to keep his life. After he woke up, he kept coughing up blood. When he realized that he was in town, he ran away again to find Xie jiaonian. Xie jiaonian still had the same attitude. 'Brother Xin, I love you. It's a pity that we're not fated to be together. Brother Xin, go home and recuperate. Forget about me in the future!' Brother Xin, I won't forget you. If brother Xin is willing, Jiaojiao is also willing to give herself to brother Xin.

Xie jiaonian immediately took off her outer clothes. She was certain that Gu shouxin was seriously injured and couldn't do anything to her.

However, this scene was seen by young master Huang. Young master Huang was angry, and Xie jiaoniang said that Gu shouxin forced her to do it. Young master Huang asked his men to beat Gu shouxin half to death and throw him into the mass grave.

Gu shouxin didn't go home until Xie Huang and Xie Ming got married. Grandma Gu also looked for him for two days. In the end, it was old master Zhou's men who found him at the mass grave.

On the second day of Xie and Huang's wedding, grandma Gu came to the door with an axe.

She killed all the livestock raised in the Huang family's courtyard, and beat young master Huang and Xie jiaoniang half to death.

Old master Huang wanted to report this to the authorities, but grandma Gu wasn't afraid at all. She immediately picked old master Huang up and threatened that if he had any intention of reporting this to the authorities, she would go all out and exterminate his entire family.

Old master Huang was so scared that he peed his pants and begged for mercy.

Grandma GU only had one request, and that was to see them move out of the Zhou family town with her own eyes.

Just like that, on the second night after the Huang family married their daughter-in-law, the entire family, including the servants, disappeared.

Grandma Gu didn't kill anyone. At that time, everyone knew that old master Zhou's daughter married a high-ranking official in the capital. Even the county Magistrate of Taoyuan County gave her face and no one died. Even if the Huang family reported it to the government, the Yamen didn't pursue grandma Gu. As the county Magistrate changed every three years, the matter was left unsettled. However, Gu shouxin didn't know about this.
