

## Haywire 81

### Chapter 81 was effective

After spending so much time together, Gu Nian's cooking skills were recognized by the whole family! This threat was still effective. Gu Shouxin immediately changed his words. "That Brat is not good enough for my nian nian!" Cai Xiaolian also nodded. "Yes, yes. My Nian Nian can cut vegetables and cook with a kitchen knife, and she can also fight monsters with her hands. That Brat is not good enough!" Gu Xin looked at her father and then at her mother. Finally, she looked at Gu Nian and said in a dilemma, "But sister, I think Young Master Zhou is quite good-looking and his kung fu is not bad. Sister, next year you will..." "Gu Xin!" Gu Nian interrupted before anyone could finish. "You're not used to not bullying you recently, are you? If you say anything else, I might not let you eat in the future. I'll drive you to Grandpa and Grandma's house to have dinner with aunt!" Gu Xin obediently shut her mouth and shook her head. "That's a good girl!" Gu Nian immediately laughed again. She then touched the little pinch on Gu Xin's head and said, "Xin Xin, let me tell you, your future brother-in-law must be handsome and handsome. He must be at least a top scholar!" Gu Nian felt that no matter how much she studied in the modern world, she would still be able to get a phd. Even though she had yet to graduate, she still had to have high expectations for her partner. When it came to marriage, it was all about being of equal status. She wasn't referring to wealth and status, but to knowledge. Even if women in this world couldn't take part in the imperial examinations, it didn't stop her from finding a cultured person. She wasn't against getting married. She wasn't against it at all. If she met the right person at the right age, it would be a matter of time before she got married. In her opinion, she could get married at the age of 15, but her opinion was that after 20, she would have to be at least 18. She couldn't be any lower. "Yes, yes, I believe in You, Sister. I'm sure you can find a best scholar, brother-in-law! Sister, is the best scholar the best in school?" Gu Xin nodded sincerely and asked. "More or less! And you, Xin Xin! Don't listen to those sister-in-law and aunties in the village gossiping. They're leading you astray. How Old Are You? You're already starting to randomly pick up couples!" Gu Nian nodded and instructed. Gu Xin pursed her lips. She did not quite agree with Gu Nianzhi's words. "Sister, I'm eleven years old this year. I'm not young anymore. I'm going to turn from a little girl into a big girl!" "Yes, yes, yes. Our Xin Xin is going to turn into a big girl! But big girls can't listen to gossip! They can't talk like them, understand?" Gu Nianzhi said. "I'll follow sister from now on! I'll go wherever sister goes. I'll listen to whatever sister listens to!" Gu Xin hugged Gu Nianzhi's arm and leaned on her shoulder. She was a very obedient child, but her family had ignored her in the past. Grandpa and Grandma Gu would still reason with her even if her family did not care about her, so she had not learned anything bad yet. When the family got home and opened the door, Gu Nian ran to the well and threw a jade bead into the well while she was washing her hands. Their family was going to start a business and needed to use chili, so they had to let the Chili grow up quickly. She had already decided that she would throw an extra jade bead every day in the future. That way, she would only be able to harvest it in three days. Would that make it a two-day harvest? "Xin Xin, are you going to your grandparents' place?" Gu Shouxin asked after he had moved everything in. "Yes! Father, wait for me!" Gu Xin quickly wiped her hands and followed. Cai Xiaolian and Gu Nian were at home preparing dinner. "Second brother, mother was just about to ask me to call you over! Someone in the village just saw you coming back." As soon as they left the house, they ran into Gu Laosi.

## Chapter 82 a neat family

"Is it because of the Zhou family who came this morning?" Gu Shouxin asked. "Isn't that right? Second Brother, how did you know? They went to the county to look for you?" Gu Laosu was stunned and then asked in surprise. "I happened to meet Young Master Zhou. Let's go. We'll talk when we get there!" Gu Shouxin explained briefly. "Where are second sister-in-law and Nian Nian? Mother wants you to come over for dinner." Gu Laosu looked into the house. "Xin Xin, go and call your mother and sister to stop working. Let's go to Grandpa and Grandma's house to eat." Gu Shouxin patted Gu Xin on the head and said. "Oh!" Gu Xin obediently went in and called for them. Soon, mother and daughter came out together. They closed the door and went to the old house. They had been delayed in the county town for a long time. It was the end of Shenshi now. They had two meals in San Cha Kou Village, in the morning and in the afternoon. Usually, the old house had already eaten by this time. They had specially asked Gu Laosu to come and call for people. It was probably prepared for their family. Therefore, Gu Shouxin did not refuse. Zhang Shi was in confinement. Gu Hui had already brought her food into the house. In the central room of the old house, the whole family of the Gu family was present. It was a rare occasion this year that the whole family was present. "Father, mother, the young master of the Zhou family has already told me about the land... What do you think?" Gu Shouxin told Lu Zheng what the sorcerer had said, and then asked for the opinions of the two elders. "Sorcerer? This master Zhou is the same. Now he even has to let the sorcerer look at the direction of the land?" Grandma GU obviously did not believe in these things. After staying in the village for a lifetime, this was the first time she had heard of a family who needed someone to look at the direction of their land. "Mother, Master Zhou is rich. I think he has his eyes on the land behind Second Brother's house. If you want to rent it, then rent it to him! Anyway, there are no crops to grow in this winter!" Gu Shouren said. "Although the land deed was not given to you when your family was given out, it was given to you when it should be given to you. If you want to rent it, then rent it! "But this land can not be sold. The land deed is still in our hands. "When the fourth brother gets married and settles down his own home, I'll give you and your brothers a new deed," grandma Gu said after thinking for a while, "Yes," she said. After rejecting the offer in the morning, she had thought about this problem. She could only rent it, not sell it. If one day her second son became a scoundrel again, at least he still had land. He wouldn't starve his wife and daughter to death. "That's good. When Young Master Zhou comes over tomorrow, I will ask him to come over to my mother's side to sign the contract. The Zhou family is a big family, so they won't lie to us." Gu Shouxin nodded and said. "Second brother, have you seen what young master Zhou wants to grow? What does it look like? Can we go and grow it?" Gu Shouren was quite curious about this. Other than his strength, he was best at farming. Therefore, he was very interested in the crops of the Zhou family. He remembered that after the chilies were discovered by the imperial court, he was the first person in his village to plant the chilies. He also fell in love with farming at that time, so he had a great sense of achievement. "I really don't know about this. But Big Brother, Young Master Zhou will come tomorrow. You can go and see for yourself." Gu Shouxin shook his head and said. "We've finished talking about this land. Second Brother, how was your trip to the county today? Did you sell that dregs of sea pepper?" Grandpa Gu asked worriedly. "Dad, we sold it. We even have a long-term partnership with the county's restaurants. And that cake. From now on, our family of four doesn't have to set up a stall anymore," Gu Shouxin replied.

## Chapter 83: You're welcome

Gu Shouxin recounted the incident of selling the dregs of sea pepper. "Xin Xin, come, calculate for Grandpa. How much money can your family earn from selling this dregs of sea pepper this month?" Grandpa Gu was surprised after hearing this. After he calmed down, he gave his granddaughter another chance to calculate. "Four hundred Wen per catty. One hundred catty is forty taels of silver. Once every three days, ten times a month, that's four hundred taels. Isn't that right, Grandpa?" Gu Xin put down her chopsticks and answered crisply. "Yes, yes, yes. Xin Xin is really amazing. You've got it right." Grandpa Gu smiled. "Once every three days, one hundred catties at a time. Even if you only have fifty catties of sea pepper in a hundred catties, you still need five hundred catties of sea pepper in a month. Where do you get sea pepper from?" Grandma Gu immediately thought of the question and asked with a frown. Cai Xiaolian and Gu Nianzhi both looked at Gu Shouxin, wanting to see how he would answer. The family had not yet decided on what to say about the source of the pepper. They had not expected that they would have to sign the contract with the restaurant directly today. Gu Xin lowered her head and ate her rice. She was not used to lying to her grandparents. Unlike her parents and sister, they would definitely be able to tell that she was lying in an instant. Therefore, the best solution was not to speak. "Mother, we have our own sources for the sea pepper. Don't worry about it. There are still a lot of sea pepper in the jar at home, enough for two deliveries. There were some sea pepper in the yard before, we plucked them all and made them into dregs of sea pepper." Gu Shouxin had thought about this question just now, therefore, his answer did not falter at all. The parents in the host's memory were not as easy to fool as the brothers. "You and your wife still have some benefits from your laziness this time!" Did you say that you bought chili from the South Prefecture? The weather there was good, and there was such a thing all year round. But the price was not cheap either, and you sold it to the restaurant at this price? Can you make money from it?" Grandma Gu thought that the couple was too lazy to tidy up the vegetable garden, that was why she picked up this bargain. She believed Gu Shouxin's words, but at the same time, she was worried about the problem of the source of the goods. "Mom, there's no problem with this. If we can't find the source of the goods or feel that it's too expensive, we can directly ask the restaurant to provide the raw materials. We'll do it and charge some processing fees. Anyway, I won't do a loss-making business with my son," Gu Shouxin said with a smile, he said. It made him very happy to have a wife and daughter in his new life. Similarly, he was also very happy to have such sensible parents and brothers. It was as if what was missing in his previous life had been made up for in this life. "Second uncle, you might as well sell the recipe directly to that restaurant. You Don't have to go to the trouble of finding chili and grinding rice and noodles," said Gu Hui from the large house. "Sister Huihui, you don't understand. It's a loss to sell directly. If the price is high, people won't buy it. If it's low, we won't sell it," said Gu Nianzhi. "You don't do embroidery anymore? Second Uncle Wants to study, and second aunt often goes out to chat with others. Don't tell me you're planning to let Xinxin make this dregs of sea pepper all by herself?" Gu Hui said bluntly. She had long disliked the second wife and her family of three. She had always felt sorry for Gu Xinxin, and had often made fun of Gu Nianzhi. "I don't do embroidery anymore! That's more eye-catching than cooking food. Sister Huihui, be honest, the food I make tastes better, and the embroidery looks better?" Gu Nianzhi wasn't angry at Gu Hui's attitude at all, and asked with a smile.

Chapter 84 is all like me

"Niannian is right! This embroidery work is very eye-catching. However, Huihui is also right. If your father wants to study, your third mother will also have a hard time doing this. Find a compromise method to try. Since you can sell the formula without losing anything, your third mother will also have an easier time," grandpa GU said. Cai Xiaolian and Gu Nian looked at each other. The old man seemed to have a point! "Why don't we let Gu Hui and Gu Si help the three of you?" Grandma Gu asked with a frown. She was a tough-talking but soft-hearted person. She had made a prompt decision to chase her second son and his family away. Now that she saw that the three B \* stars of her family were getting better, she was thinking of them. "No need, no need!" Cai Xiaolian quickly waved her hand. "Mom, this sister-in-law is in confinement and has a lot on her plate. If Huihui and Sisi go to help us, won't the work of this family fall to You Alone?" "Father, mother, we'll talk about this when we're too busy!" Gu Shouxin also said. It was true that their family had a magical vegetable field, and it was not convenient for others to know about it at the moment. "Second uncle, second aunt, you're not afraid that Gu Sisi and I will learn this method, right?" Gu Hui looked at Cai Xiaolian and said jokingly. Although she called her second uncle and second aunt, this sentence was mainly aimed at Cai Xiaolian. Cai Xiaolian smiled and said, "Isn't that right? This is the recipe that our Nian Nian worked so hard to come up with!" Although the original owner was hateful, Gu Hui was too impolite. It was all a joke anyway, so she continued. "Gu Hui!" Grandma Gu frowned and looked at Gu Hui. Her voice was a little cold. Gu Si, who had always been invisible, was so frightened that she put down her chopsticks. She held her breath and tried her best to reduce her presence. "I understand. Second Uncle, second aunt, I'm sorry! I was just joking. I was just worried that you guys wouldn't change your ways, and Gu Nianzhi. In the end, you'll be so tired that you'll be like Xin Xin. If I make you angry, I'll apologize to you!" Gu Hui was glared at by Grandma Gu, she obediently apologized. "Yes, yes, yes. Second Brother, second sister, don't be angry! You know my eldest daughter, she's just as stubborn as yours. She says everything and can't hold back her words. She's just like me. Come, come, eat, eat, Eat!" Gu Shouren laughed. The transmigrator trio: What do you mean she's just like you? Your Daughter is just like you. Why should I (my daughter) be like you? Cai Xiaolian and Gu Shouxin had memories. They knew that their eldest brother was simple-minded. He spoke like this. Gu Nianzhi had no memories. She had been killed by this uncle! Weren't you afraid that 9,000 years old would kill her brother with a knife? "Eldest brother, although your eldest daughter is just as stubborn. But not all of them are like you. Huihui is the same as you. Her words can kill people. Niannian is like second brother. Do you remember second brother when he was young? Niannian's temper is just like second brother when he was young!" Gu Lao si said with a smile. "Yes, yes, fourth uncle. Sister looks like father. She is good-looking!" Gu Xin nodded and said. "So you mean that she is not good-looking if she looks like Mother?" Cai Xiaolian asked with a smile. "No, no! My eyes and eyebrows look like my father's and I look energetic. My face looks like my mother's. Sister-in-law Yumei said that my sister's face is oval, the standard face of a beauty," Gu Xin shook her head quickly and said seriously. "So, Xin Xin, do you think you look like your father or your mother?" Gu Laosu was full now and had time to play with Gu Xin.

Chapter 85 had another small meeting

Gu Shouxin and his family had dinner at the old house. After chatting with the two elders for a while, they went home. In the end, they didn't ask Gu Hui and Gu Si for help. They planned to continue working on the recipe themselves. As for selling the recipe, they didn't have such plans at the moment. No matter what, it would take some time. The ingredients for the dregs of sea pepper were simple.

There was no guarantee that other people would be able to make it. Taking advantage of the fact that they were making some money now, they could sell the recipe before other people could make it. That way, they wouldn't lose out. Their family had a plot of land that could grow crops in three days. It would be a waste if they did not use it. After all, the steps of making dregs were simple. When they got home, the family of four first stayed in the central room to count their debts for the day. After making arrangements for the next day, they went to wash up and go to bed. Almost after Gu Xin fell asleep, the transmigrator trio went to the kitchen for a small meeting. "Father, mother, that Gu Hui has a prejudice against us three!" Gu Nian's first sentence was this. "It's okay, time will tell. Huihui is a good child, but she's too straightforward. She can't bear to see the attitudes of the previous three towards Xin Xin! Your mother and I are better off. We're elders, so she can take it easy. As for you, she might fire at you at any moment." Gu Shouxin finished his sentence, there was a hint of schadenfreude in his tone. "TSK! I'm not afraid of her! Xin Xin said that she would go up the mountain and fight some small animals, so she must be quite skilled. I'll just find an opportunity to beat her into submission!" Gu Nianzhi raised her chin and said arrogantly. There was no relationship that could not be resolved by one fight. If one fight was not enough, then two fights would be enough. "My Daughter! I really suspect that your brother bought your previous education for you because of his status. You're a fighting maniac, how do you look like a straight-a student?" Cai Xiaolian looked at Gu Nianzhi with a complicated expression. "No way! I took the exam myself. Forget it, you guys don't understand. When I use my knowledge to benefit you guys one day, please don't say you admire me," Gu Nianzhi explained. It wasn't as if no one had suspected this sort of thing before. It was mainly because she knew too much, and was a straight-a student. If it wasn't for the fact that they had all traveled back in time to become one family, she wouldn't have bothered to explain! "Alright, let's get down to business. How are we going to negotiate when Zhou Yuan brings his men over tomorrow? It looks like you guys know what crops he has!" Gu Shouxin said. "Dad, didn't you have sweet potatoes, potatoes, and corn in your time?" Gu Nianzhi asked. "What things? Crops? Food?" Gu Shouxin frowned. "Of course! Father, these three things were found by the male protagonist's grandfather, Zhou Yuan's great-uncle. They were presented to the Emperor and were rewarded by the emperor. Only then did the young male protagonist return to the capital." "These three things are crops that can be used as staple food to fill one's stomach. The per-mu yield is extremely high. The per-mu yield of potatoes and sweet potatoes can reach more than 3,000 jin, and the per-mu yield of corn can also reach more than 1,000 jin." "You should know how much credit it would be to offer these crops! The male protagonist's grandfather only has one daughter, which is the male protagonist's mother. Now that she's dead, won't his grandfather give all the glory to his own grandson?" Gu Nianzhi updated the plot for Gu Shouxin and told him about these three crops. "There's actually such a high yield crop?" Gu Shouxin was shocked for a moment, and then said enviously, "This is really great Zhou's blessing! If I were the emperor of Great Zhou, I would definitely give the male protagonist's grandfather a title of uncle, not to mention a title of Lord and Minister."

Chapter 86-can you bear to part with it

When he was 9,000 years old, if he could find a few high-yielding crops, even if the nobles and nobles opposed him, the people would probably support him! "I said 9,000 years old, don't think so much. If you can't go back, you can't be your 9,000 years old. I don't believe that you still want to be 9,000 years old after coming here?" Cai Xiaolian joked when she saw Gu Shouxin's envious face. "You're willing to part with it?" Gu Shouxin knew that Cai Xiaolian was joking, so he didn't get angry and asked in return.

Cai Xiaolian was stunned, and spat in her heart, then she said calmly, "What's there to be reluctant about? If there really is a day, you can also protect US mother and daughter. As for me, I already have the silver. Once I have the money and status, the young Langjun will naturally come looking for me. What's there to be reluctant about?" "PFFT!" Gu Nian couldn't help laughing. Gu Shouxin glanced at her. She waved her hand. "Father, mother, even though I was already in my twenties before I came to Great Zhou, I already know what I should know. But here I am only fourteen, and I have yet to reach marriageable age. Why Don't you guys go back to the room later and cover yourself with the blanket? No matter in the past or now, I still treat myself like a child who has yet to grow up." "Okay, I'll go back to my room and have a good talk with your mother under the covers!" Gu Shouxin emphasized the words "Under the covers". Cai Xiaolian raised her eyebrows. Who was afraid of whom? We'll each have a blanket. "Father, mother, sister, why aren't you sleeping?" Suddenly, the kitchen door was pushed open and a little head popped out. "Why is Xinxin Awake? Come in quickly, it's cold outside!" Gu Shouxin quickly got up and went forward to lead his little daughter to the kitchen. Cai Xiaolian and Gu Nian looked at each other and smiled. 9,000 years old was definitely uncomfortable. Could it be that their xinxin could not walk herself? Running away! Definitely running away! "Why is Xinxin Awake? Did she wake up at night? Why didn't she bring an oil lamp?" Cai Xiaolian pulled the child to her side and sat down. She tidied up her clothes for her, then grabbed her little hand and stretched it towards the fire. "I just didn't fall asleep. I heard some noises outside and thought you guys woke up at night. In the end, you guys didn't come back, so I came out to take a look," Gu Xin said. "We couldn't sleep either. We were discussing what to do with the vegetable plot at home. What do you think, Xinxin?" Gu Shouxin felt that since Gu Xin had come out, the whole family could discuss it as long as they didn't mention the three of them transmigrating. "Vegetable, vegetable plot! HMM, I don't know either." Gu Xin bit her lip and shook her head in confusion. Whenever she lied, she would bite her lower lip. Unfortunately, the original owner of the three-dimensional travel group did not care about her and did not know about her habit. Only her grandparents in the old mansion knew about it. "Why don't we just tell them everything? We Can't keep this secret forever. The most important thing is that our family doesn't know what's going on with this plot." Gu Nian suggested. "Your grandparents are reasonable people. It doesn't matter if the people from the old mansion tell us. "I'm just worried about your aunt. She's still in confinement, but once she's out and about, won't the whole village know about this?" Cai Xiaolian did not object to Gu Nian's suggestion, but she also did not agree. "Yes, yes. We can't tell aunt. Otherwise, she'll come to our house every day to pick vegetables and send them to the Zhang Family! Zhang Dahu and Zhang Xiaohu are both bad kids. We won't let them eat our food," Gu Xin said with a pout. She had become more lively in the past few days. She also liked to tell her family about her preferences. She didn't even realize it herself.

## Chapter 87: Toilet Paper

The Zhang Dahu and Zhang Xiaohu that Gu Xin was talking about were the two sons of the eldest son of the Gu family, the eldest son of the Zhang family. The Zhang family of the Zhang family was also from San Cha Kou village. These two boys often bullied Gu Xin, and the Gu Xin in the past had never gone home to complain. "Okay, then we won't tell aunt, but we'll tell Grandpa and Grandma! But, Xinxin, don't tell them either. Wait until Father finds a suitable opportunity to tell Grandpa and Grandma, Okay?" Gu Shouxin said. "Yes, yes.". "Father, young master Zhou's family wants to use the land behind our Yanggou to grow crops. Why don't we ask him to give us the seeds, and we'll help him grow them!"

"This way, we can also see what the crops look like when they grow!" Gu Xin suggested. "This definitely won't work. But, we can ask them to send some seeds to us, and we'll grow them in the vegetable field ourselves." Cai Xiaolian directly denied Gu Xin's suggestion and said. "OH." Gu Xin did not argue and obediently listened to her parents and sister. "Your mother is right. We can ask them to send us some seeds, and we can try it out in our own vegetable field. But, when the Zhou family comes tomorrow, we have to find an explanation for what happened in the vegetable field," Gu Shouxin said. "Why don't we just leave it like this in the field? Just say that Xin Xin and I don't know what season we have! Besides, other than cucumbers, pumpkins, and chilies, everything else is normal!" Gu Nian said. "That's right, that's right! Dad, Mom, we didn't know why at first! Anyway, we just threw the seeds down, and it grew back! We're not lying!" Gu Xinxin added. "Her dad, the kids are right. Besides, the Zhou family only rents the land behind our Yanggou to plant. They don't come to our house every day. Once they've planted it, they might send people to check on the situation from time to time. They won't come to our yard every time." Cai Xiaolian thought for a moment, "Okay!". "Fine! We'll fight back when the time comes! Even if we die, we'll just casually sow some seeds. I don't know if they'll grow back." Gu Shouxin thought about it and decided that this was the only way. "It was always like this!" The mother-daughter trio said in unison. Gu Shouxin: "... Your tone and gaze seem to have something to do with me. Don't accuse me wrongly! "Ouch, my stomach hurts. Nian Nian, let's go to the toilet with me!" Cai Xiaolian suddenly wanted to go to the toilet. The mother and daughter lit another oil lamp and went to the toilet together. Gu Shouxin and Gu Xin sat by the fire and chatted. "It stinks!" Gu Nian, who was holding the oil lamp outside, couldn't help but say when she heard the noise inside. "Hey, you little girl, you make it sound like your poop is fragrant!" Cai Xiaolian said in a bad mood. "Hehe, come over and smell it when I Poop Tomorrow Morning!" Gu Nianzhi giggled. "Oh, and you're a highly educated person! Why are you talking like that?" Cai Xiaolian said. "You make it sound like highly educated people don't poop. You're not some otherworldly fairy!" Gu Nianzhi said. "Okay, stop it! Nian nian, I've always been suspicious of you as a phd student. Look, why don't you do something so I won't be suspicious?" Cai Xiaolian said as she held the thing she was wiping. "Mother, don't provoke me! Just tell me what you want!" Gu Nianzhi felt that she had gained some understanding of Cai Xiaolian after spending the past few days with her. "Toilet paper! Make me some soft toilet paper!" Cai Xiaolian said.

#### Chapter 88 self-made toilet paper

"Everything else has been fine since we've been here. It's just that it's not convenient to go to the toilet!" "I was just thinking about a video I watched a while ago. An old farmer made his own toilet paper at home. It doesn't use electricity at all. It's purely handmade. Although it's not as good as the ones sold in the supermarket or used for writing, it's perfectly fine to use it to go to the toilet," Cai Xiaolian continued. "No electricity? Then what was used?" Gu Nianzhi asked. "I think there was a windmill on the roof, and the windmill was stopped. There were shredders, filters, and compactors. They were all windmills that relied on the roof. The materials were leaves, branches, and stalks. As for the specifics, I don't know. "How about it, My Daughter? Even the villagers who farm the land can make it. Can You, a phd student, Do It?" Cai Xiaolian had already settled the matter, she came out of the toilet and asked. Gu Nianzhi took two steps back, she pondered for a moment. "I'll get up tomorrow and think about the principles behind it. It's possible to convert wind energy into kinetic energy, but it's not that easy to produce a crusher, a filter, and a roller. I'll give it a try!" "Okay! As long as you say so!" Cai Xiaolian smiled. The mother and daughter returned to the kitchen and saw that Gu Xin was already

yawning. The family of four covered the sparks with dust and went to sleep. After that, no one got up again. .. Early the next morning. The vegetables in the garden had all matured. Gu Nian was preparing breakfast in the kitchen while the other three picked the Chili. The chili was picked. After rinsing it with water, it was placed in the back gutters to dry. At night, it could be chopped up and put into jars.

“Father, mother, Xin Xin, I have something to discuss with you guys,” Gu Nianzhi said solemnly during breakfast. Seeing that she was quite serious, the other three did not touch their chopsticks. They all looked at her. “It’s about this cake. If shopkeeper Cheng is interested, why don’t we sell him the recipe for the cake?” “We’ll make the dregs and peppers ourselves. We’ll talk about it after a while.” “The main thing is that it takes too much effort to make the egg whites. Father has to study, right? I also have some things to think about. We have to maximize our profits. We can’t just rely on making the cake to make money,” Gu Nianzhi said. She had made this decision after careful consideration last night. Didn’t Cai Xiaolian ask her to make paper last night? She didn’t have any ready-made paper shredders, compactors, or filters, but she had to tinker with them herself. As for the paper, she had to use it every day, and the whole family had to go to the toilet every day, especially after taking a dump. She was really not used to using it here. “The cake is indeed not as convenient as the dregs of sea pepper. What niannian said makes sense!” Gu Shouxin thought for a while and said. “Niannian, are you going to try what I Said Last Night?” Cai Xiaolian’s eyes lit up and said. “Sister, I’ll help you with whatever you do!” Gu Xin gave Gu Nian a big smile. “What did the two of you talk about last night?” Gu Shouxin asked curiously. “It’s just toilet paper. Mother said...” Gu Nian was about to explain when Cai Xiaolian interrupted her. “Ahem, her father, we’ll know when Niannian can make it, won’t we?” Cai Xiaolian was concerned about Gu Xin. After all, she had always used toilet chips. If she suddenly said she wasn’t used to it, the little girl would definitely have doubts. Gu Shouxin immediately understood. Last night, the two of them went to the toilet together. He did not know what they had said at that time. Toilet paper seemed to be related to cleaning oneself after going to the toilet.

## Chapter 89: Inconvenient Places

Thinking of this, Gu Shouxin felt a little uncomfortable. In his previous life, he had indeed lived the life of a farmer. After a farmer went to the toilet, they used toilet chips. After he entered the palace, he no longer used that thing. After that, he became nine thousand years old, and even more so, he did not know how to use it. He had always used cloth, silk, silk, and sometimes paper. These were not things that an ordinary family could use. No one in Sancha village could afford them anyway. He looked at Gu Nian in surprise. Could it be that his eldest daughter knew how to make paper? Making paper was not easy. Otherwise, it was impossible for so many people to not be able to read. Just as he was about to ask, there was a knock on the door. “You’re here so soon?” Gu Shouxin muttered and got up to open the door. In the end, it was not the Zhou family, but shopkeeper Cheng from the county restaurant. Shopkeeper Cheng came in person. A driver, a waiter, and shopkeeper Cheng came in a total of three people. Hearing that the family was having breakfast, shopkeeper Cheng followed them to the kitchen. “Oh, it’s shopkeeper Cheng! Have you eaten?” Cai Xiaolian got up to greet him with a professional smile of a businessman. “Yes, I have. Miss Cai and the two ladies don’t have to worry about me. You can continue eating. I’m here to deliver milk to miss gu!” Shopkeeper Cheng said with a smile. He had already known Cai Xiaolian’s surname yesterday, so he did not call her miss gu anymore. “Milk? Is there milk? Is It Fresh?” Gu Nianzhi asked. “Yes, it’s fresh. The main manor just happened to have a cow giving birth, so I brought someone to pick some up this morning. I don’t know if it’s enough,” shopkeeper Cheng said.

"Manager Cheng, sit down and eat some too! My Niannian's cooking is quite good." Gu Shouxin invited manager Cheng to eat with him. It was difficult to decline such a kind offer. Although it was steamed buns with porridge and cucumbers, manager Cheng did sit down and eat it together, perhaps it was because of the dregs of sea pepper and cake from yesterday. The steamed buns were stuffed with turnip meat and were seasoned with ginger, green onions, and other spices. They tasted very good. Shopkeeper Cheng could eat three of them after breakfast. After breakfast, Cai Xiaolian washed the dishes with Gu Xin. Gu Shouxin and Gu Nian took shopkeeper Cheng to see the milk. "Yesterday, not long after you left, the owner came over with his grandchildren. Young Master Sun and Miss Sun liked the cake very much. I was thinking about what Miss Gu had said about the taste of the cake after adding milk. "So, the owner asked me to come over this morning," manager Cheng explained. "That's true. This milk is also fresh. Because it's fresh, it won't last long, so we have to make it now," Gu Nian said. "Then Miss Gu, Why don't you make some to taste? The owner said that as long as the taste is not worse than yesterday's, we'll buy it all. Is it convenient?" Manager Cheng asked with a smile. Gu Nianzhi looked at Gu Shouxin. "Brother Gu, Miss Gu, I happen to be on my way to the Zhou family town. You guys stay at home and work. I should be able to do a good job when I'm Done! I'll just take it with me when the time comes." Shopkeeper Cheng was very understanding, this was something that other people earned money for. He couldn't just stand here and watch, right. Besides, he had something to do anyway. "Sure! You can pick it up after noon!" Gu Nianzhi nodded. "That would be great. Then I won't bother you anymore. Goodbye!" Shopkeeper Cheng left immediately. The father and daughter walked him out. When they passed by the vegetable garden, shopkeeper Cheng took a look at the vegetable garden.

Chapter 90: The plot had not changed

"The food at brother Gu's house is quite good," manager Cheng said in surprise. There were such juicy cucumbers and pumpkins in this season? "The third of them cooked it at home. It's quite good," Gu Shouxin said calmly. "Well, Lady Cai and the two miss gu are really skillful," manager Cheng praised but didn't say anything else. After sending manager Cheng Away, Gu Shouxin went to get the egg whites. When the first pot of cake was steamed, Lu Zheng came over with second butler he and Lucky. In the entire Zhou family, only Master Zhou, the head butler and second Butler plus lucky knew Lu Zheng's identity. The other servants really thought that Lu Zheng was master Zhou's distant grandnephew. "It smells so good!" Lucky couldn't help but say when he was invited into the courtyard. In the end, he was glared at by Second Butler he and obediently moved the goods without looking into the kitchen. "Young Master Zhou, Butler he, my wife and my daughter are thinking about eating some food. If you don't mind, why don't you try some?" Gu Shouxin was very generous. The other party had several thousand Jin of grain seeds in their hands! After inviting him into the hall, Gu Shouxin went to the kitchen to inform Cai Xiaolian. Not long after, Cai Xiaolian came over with a cake and tea. Gu Shouxin had bought the tea when he went to Yuzhou city last time, so it could be used to entertain people. "I was wondering why it looked so familiar. It's you guys!" Seeing Cai Xiaolian appear and the cake in her hand, Butler he came to a realization. "How come the Butler knows us?" Gu Shouxin asked. "When I went to the red bean shop to buy pastries, I bought your cake there," second butler he said. "I see. No wonder the second Butler looks familiar to me!" Gu Shouxin said with a smile. "In that case, young master Zhou and Butler he, please try it. Let's see how the taste of the cake is after we add new ingredients to our house," Cai Xiaolian put down the things and said. "Then junior won't stand on ceremony!" Lu Zheng took a piece of cake and tasted it. "En, not bad, not bad. There's a milky fragrance in it, but it's not fishy. It's fragrant, sweet, and

delicious, sweet but not greasy! Young master, when we go back later, buy some back! Master should like it very much."After second housekeeper he tasted it, he said. "Buy what? In a while, we'll wrap it up and you guys can take it away. Young Master Zhou really helped our house yesterday."Cai Xiaolian waved her hand and said very generously. "Thank you, Auntie Lian!"Lu Zheng thanked her. "Young master, you've moved in!"At this moment, Lucky wiped his sweat and ran in. "Uncle Gu, Auntie Lian, come and take a look. These are the crops I mentioned. Take a look."Lu Zheng walked to the three sacks and opened them. Cai Xiaolian went over and took a look. Yes, it was indeed those three things. The plot of the book had not changed. This thing was still found by the Master of the Zhou family. "I wonder if Young Master Zhou intends to rent my family's land and let people grow it, or...?"Gu Shouxin looked at Cai Xiaolian and asked after getting a positive nod. "Uncle Gu, do you have any good suggestions?"Lu Zheng asked. "I have an idea here. It depends on whether young master Zhou is willing,"gu shouxin said. "Uncle Gu, say it,"Lu Zheng asked. "The Warlock Master Zhou found said that he would plant it on our land, but he didn't say who would plant it. It could be your own people, or it could be someone else. "What I'm thinking is that the piece of land behind my house is only about three acres, and young master Zhou didn't bring many seeds. Why Don't you just leave it to us to take care of it?"Gu Shouxin said.
