

## Heart Stealer Young Master Bo #Chapter 51 - Read Heart Stealer Young Master Bo Chapter 51

51 I thought of someone who might have a way

Ning City Hospital.

The resuscitation in the first-class Ward was endless. The head of the Shi family, one of the top tycoons in the imperial capital, was in critical condition. The hospital had gathered all its power for a consultation and discussion, but in the end, there was no solution.

Shi qingqiao gripped her phone tightly.

He would look at the messages every once in a while and wait anxiously for the reply from the pure world Pavilion. Now, he could only hope that Shi qinglan would send him a message as soon as possible so that she could see his grandfather for the last time ...

“Swish-”

A message alert sounded on his phone.

Shi qingqiao immediately checked the phone, but she only received two cold words without any reason. not picking up.

The man’s dark eyes darkened.

He pursed his lips tightly and leaned his tall body against the White wall of the hospital corridor. He looked up at the ward with the emergency light on.

young master, Sir can’t really ...

Ji Lin was so nervous that his forehead was covered in sweat. He anxiously paced back and forth, looking at Shi qingyao at a loss.

Shi Qing closed his eyes in a daze and did not speak.

Now that the pure world Pavilion was not willing to accept his order, Bo Li Cheng ignored him, and his own intelligence network could not find any information about Shi qinglan, as if someone had deliberately hidden it.

“Grandpa ... Is there really no other way?” Shi qingxuan’s Adam’s apple moved slightly, and his voice was a little hoarse.

He slowly opened his eyes. Perhaps it was because he had been in the hospital for too long, he looked tired and his eyes were bloodshot.

Miss Liu is from the Medical Research Institute. If even she says there's no way, I'm afraid ... Ji Lin didn't continue.

The Miss Liu He was referring to was Liu Wanshuang, who had lost her parents a few years ago and was entrusted to the Shi family.

Her facial features resembled Shi Qinglan's mother's, and her talent in the field of medicine resembled Shi Qinglan's father's. That was why Shi Fu had agreed to keep her by his side for the time being.

There are still many top doctors in the Medical Research Institute. There will definitely be a way. Shi Qingyun's eyes drooped slightly. He clenched an empty fist and pressed it against his forehead. The air around him was cold and dispirited.

How could Ji Lin not wish for this to happen?

His eyes were full of vicissitudes of life as he sighed.

The hospital's corridor fell into silence. Only the sound of people being rescued could be heard from the ward, as well as Liu Wanshuang's helpless sobbing.

Shi Qingxuan's brows furrowed slightly. Just as he was thinking of a way to contact the Medical Research Institute, Ji Lin's eyes suddenly lit up. Young Master, I thought of someone who might have a solution.

"Who is it?" Shi Qingyun's eyes narrowed.

Ji Lin looked at him in high spirits. You've met her before. I roughly know where to find her.

..

Ji City High School.

Shen Ruxue quickly won over everyone's sympathy. It was as if Shi Qinglan's near-death at the fire had been forgotten in an instant. Instead, the focus was on the arsonist's misfortune and grief ...

Ruxue, you have to hurry up with Tianluo's lessons. If you have any problems, you can come to me anytime.

After class, Liao Hongmei walked to Shen Ruxue's desk and patted her shoulder. I believe in you.

Shen ruxue's eyes were red from crying during class.

She raised her pitiful eyes and sniffed. thank you, teacher. I won't affect my studies.

Liao Hongmei smiled with relief. I know that you've always been. good child, unlike some people ... You can't keep up with your grades and only know how to drag others down every day."

As she spoke, she glanced at Shi qinglan coldly.

However, the girl didn't care about her at all. Liao Hongmei's eyes were still fixed on Shen ruxue. next week is the first mock exam of the college entrance examination. It's the city-wide joint examination. You have to work hard.

52 Miss godly doctor, please save our master

Shen ruxue pursed her red lips and looked at Shi qinglan.

Her red eyes finally showed some determination. She nodded and said softly, " I won't let you down, teacher.

"That's good." Liao Hongmei looked at her with admiration.

Shen ruxue was the top student of the third year of high school. Although she was still far from being the city's top scorer, she was also a young talent of Capital University like Xu Cheng. Naturally, she was given high expectations.

Jiang Zhi glanced at the teacher and student who he didn't like.

He pursed his lips disinterestedly. so what if you're good at your studies? our sister Qing was only able to get first place because she kept a low profile. Be careful, she might scare you to death with her skills.

Shi qinglan was speechless.

She glanced at Jiang Zhi from the corner of her eyes and tapped the table twice with her fingertips. the first mock exam for the college entrance examination next week? " she asked nonchalantly.

Jiang Zhi nodded his head vigorously. the city-wide joint examination.

His smile was as bright as a sunflower, and his eyes seemed to be shining. sister Qing, are you going to show me what you're made of? "

Shi qinglan's Red lips twitched slightly, as if she was thinking.

There was a fountain pen between her Jade-like fingers. She leaned lazily on the chair and spun the pen in a charming manner, but she exuded the aura of a Big Boss. I'll consider it.

Jiang Zhi rubbed his little hands together discreetly.

He mumbled to himself, "sister Qing, although I believe in your intelligence, you've missed quite a lot of classes after all. It should be difficult for you to surpass Shen Ruxue and Xu Cheng. They're both super smart students, but it shouldn't be a problem for you to get into the top ten, right?"

Upon hearing this, LAN Chu suddenly poked his head forward.

She blinked her bright almond-shaped eyes and looked at Jiang Zhi in disdain. Sister Qing doesn't care about the top ten. If you want to take the exam, you should be the city's top scorer!

"Yes." Shi Qinglan responded slowly.

Jiang Zhi froze for a moment. He had wanted to despise LAN Chu, but he did not expect Shi Qinglan to answer him directly. Sister Qing, what do you mean by 'mm'? Who are you answering?"

Shi Qinglan gave him a sidelong glance and did not say anything else.

She did skip classes and exams a lot, but she had learned all the high school knowledge a few years ago. Although she hadn't touched the college entrance examination papers, Xu Cheng's IQ shouldn't be her match, right?

After all, this child was so stupid ...

"Of course he'll answer me!" LAN Chu patted his chest and looked at Jiang Zhi proudly.

She then extended her wrist in front of Shi Qinglan. There was an exquisite sapphire and diamond bracelet on her wrist. Sister Qing, do you think I look good in this bracelet?"

The girl's almond-shaped eyes shone with excitement and happiness.

Jiang Zhi scoffed coldly. f \* ck, which pretty boy gave it to you? and it's even a Sapphire? are you playing with a random toy?"

"So what if it's from a street stall! I'd be happy to buy it from a street stall!" LAN Chu was like a pufferfish, glaring at him with her large almond eyes.

Shi Qinglan's eyes were filled with a faint light.

She took a quick glance and quickly recognized the extraordinariness of the bracelet. It was obviously not a cheap product, but a family heirloom Sapphire given to her daughter-in-law by the Bai family in the imperial capital ...

"You look good in it." brother Jiang is blind, " she said.

"Sister Qing!" Jiang Zhi looked at her in disbelief.

The two of them had been arguing the entire day over this bracelet. Shi qinglan, who couldn't stand the noise, immediately sneaked out of the classroom after school.

She finally got rid of their chattering, but just as she reached the school gate, a familiar and weathered figure anxiously blocked her way.

"Miss godly doctor!" Ji Lin's steps were hurried, and he looked at the girl with sincere eyes. please save our master!

53 Don't call me brother, I only have one sister

Shi qinglan's brows furrowed slightly as she looked up at him.

Ji Lin's eyes were a faint greenish-gray color. He looked extremely tired, and his entire person seemed to have experienced many vicissitudes of life compared to the last time they had met.

"You're asking me to save your master?"

Shi qinglan's Red lips parted slightly, her eyes cold and emotionless.

Since Shi qingxun was the young master of their family, that old man must be the head of the Shi financial magnate, Shi Fu.

"Yes." Ji Lin nodded. miss godly doctor, our master is dying. The hospital can't do anything about it ...

Hearing this, Shi qinglan's Red lips curled up slightly.

She chuckled and glanced at the signboard of Ji City High School. you know that I'm just a high school student. Since the hospital said that there's no way to save me, how can I possibly save you? "

Ji Lin wasn't dejected by these words.

He looked up with his old eyes, but his firm and trusting eyes were full of spirit. I've been by Sir's side for so many years, and I've never been wrong in my judgment of people.

Although his first meeting with Shi qinglan had been a coincidence and he had not investigated her out of courtesy, Ji Lin had already noticed her abnormality during the first aid.

miss godly doctor, you were able to confirm my husband's illness and even the duration of his illness when you took his pulse last time. You're also very skilled in CPR. He's definitely not an ordinary high school student.

Ji Lin analyzed with confidence.

The Shi financial magnate used to be a wealthy family in the medical field. Shi Fu and his son, Shi Hongqi, were both famous medical professors when they were young. Ji Lin had been by his side, so he knew a little about medicine.

He knew that a person who could obtain this information so accurately just by feeling the pulse was by no means an ordinary doctor.

"So, when you said that you don't know anything about CPR and that you were afraid that you would cause trouble because you don't understand the doctor's words, you were lying to me?"

Shi qinglan's Red lips curved slightly. Her voice was cold but she did not blame him. She felt that the old man was indeed smart.

Ji Lin was embarrassed. miss godly doctor ...

"It's fine. I don't blame you for this, but since you've already seen things so clearly, I can't just leave you to die."

Shi qinglan pursed her red lips and said, " let's talk about the remuneration first. I have never done anything selfless.

It just so happened that she wanted to get her lost tafey stone necklace back, and she was afraid that she would not have enough money, so she had to make some.

"You can ask for any reward you want!" Ji Lin's eyes lit up instantly, and he respectfully invited Shi qinglan to the car.

..

Ning City Hospital.

Shi Fu's life was barely saved, but his heart was already on the verge of failure and his vital signs were not stable. He was on the verge of death every second.

"Grandpa Shi, you have to wake up ..."

Liu wanshuang lay by the bed and cried for a long time. She cried so much that her voice was hoarse and her eyes were red.

“Can you just shut up?” Shi qingxuan’s cold lips parted slightly.

He was a little irritated by the crying. He held an unlit cigarette between his cold white fingers and frowned coldly.

Liu wanshuang was slightly startled. She bit her lip, ” brother Yi ...

“I’ve told you many times, don’t call me big brother.”

Shi qingxuan’s eyes narrowed. His voice was extremely cold, and his aura was cold and arrogant. I only have one younger sister.

Liu wanshuang bit her lips unwillingly and looked at the old man on the bed with tears in her eyes.

She had worked so hard in the Shi family for so long in order to gain recognition and replace the missing daughter ...

However, not only did the Shi financial magnate not adopt her, but Shi qingqiao did not even allow her to call him ‘brother’. Why?

54 I’m from the Medical Research Institute, do you believe me?

Liu wanshuang’s eyes were filled with unwillingness.

She was filled with resentment when she suddenly heard footsteps from the corridor, and the door of the ward was pushed open.

“Young master, I’ve found the person.”

Ji Lin walked into the ward in high spirits and smiled with joy. this miss godly doctor will definitely have a way.

Upon hearing this, Shi qingqiao glanced sideways.

He didn’t expect Ji Lin to really bring the miracle doctor, but when he saw the girl, he suddenly turned around. LAN. er ...

When Liu wanshuang heard Shi qingxun’s low voice, she immediately stood up and looked at Shi qinglan, her body slightly stiff.

How could there be someone who resembled Shi Qingyun’s mother more than her ...

“Who is she?” Liu wanshuang instantly became alert.

The wrinkles at the corners of Ji Lin’s eyes were filled with a smile. miss Liu, this is miss godly Doctor Who saved Sir by the roadside last time. I specially invited him to take a look at Sir’s illness.

Hearing this, Liu wanshuang’s brows furrowed.

She sized Shi qinglan up in an extremely unfriendly manner. a godly doctor? ”

Shi qinglan’s eyes flickered with a cold light, as if she did not take her seriously.

“I’ll take a look at the patient first.” Her red lips parted slightly, and she walked past the person in front of her without looking at him.

Shi qingqiao was still rejoicing over their reunion.

Even though Shi qinglan did not even look at him, her heart, which had been silent for a long time, was still beating faster with excitement.

“Butler Ji, where did this miracle doctor come from?”

Liu wanshuang ran to Ji Lin’s side and held his arm, shaking it coquettishly, ” you’re still wearing your high school uniform. I don’t think you even know where your heart is. Can you really treat a patient? ”

The smile on Ji Lin’s face faded.

However, he still looked at Liu wanshuang in a somewhat friendly manner and politely replied, ” miss Liu, you can’t judge a book by its cover.

Liu wanshuang bit her lips so hard that they turned white.

Back then, she had been temporarily placed in the care of the Shi family because she looked like the CEO’s wife and had similar medical talent to the CEO. Now, this girl had appeared ...

“A stethoscope.”

Just as Liu wanshuang was worrying for nothing, Shi qinglan’s cold and indifferent voice suddenly called her back to her senses.

She crossed her arms in front of her chest. aren’t you a godly doctor? you don’t even have your own stethoscope, and you still want to borrow it from me? ”

Hearing this, Shi qinglan’s brows furrowed.

She tilted her head slightly and glanced at Liu wanshuang, " I don't really want to use your stethoscope either. It's dirty.

"You ..." Liu wanshuang glared at him in exasperation.

However, Shi qingxiao suddenly opened her mouth and said, " wait a moment. I'll go and get a sterilized one from the doctor.

"I'll have to trouble you, master Sheng." Shi qinglan retracted her gaze.

She glanced at Shi Fu's monitor and said, " I also need all his medical records, including the surgical records and imaging materials.

"I'll go get it for you." Ji Lin also left without another word.

Liu wanshuang looked at the two's back in disbelief. Her sense of danger became even stronger. She felt that some things had already gone out of her control because of this high school student in front of her!

"Where on earth are you from, you swindler!"

Taking advantage of the fact that there were only the two of them in the ward, Liu wanshuang's spoiled temper flared up, " I heard about you saving grandfather. It's only CPR, and you dare to call yourself a divine doctor? "

Shi qinglan leaned against the wall lazily.

She sized up Liu wanshuang and naturally noticed that she was wearing a white coat. Her red lips slightly curled up, " if I say that I'm from the Medical Research Institute, would you believe me? "

55 Don't misunderstand, she's not my sister

Liu wanshuang felt as if she had just heard the funniest joke in the world.

She smiled sarcastically and said, " unfortunately, I'm a member of the Medical Research Institute. I'm also the youngest in our Institute. I've never heard of any high school students.

Upon hearing this, Shi qinglan's eyes were filled with a faint ripple.

She re-examined Liu wanshuang and racked her brains, but she still couldn't remember such a character, " you're from the Medical Research Institute? "

"Yup," Liu wanshuang arrogantly lifted her chin, "so don't even think about pretending in front of me. I will expose you in front of Butler Ji and my brother.

Shi qinglan's Red lips twitched, and she did not take it to heart.

She took out her phone and dialed a number. She sent a message. is there a person with the surname Liu in the Medical Research Institute? ”

“I think there is one. Her name is Liu wanshuang. She just entered the Medical Research Institute not long ago. Please consider kangkang!” The message came back very quickly.

Shi qinglan glanced at it and closed the chat.

She also sent a message to Bo Zhicheng, saying that she had something to do after school and would be home a little late.

“Brother Yi, you're back!”

Liu wanshuang's coy and coquettish voice suddenly sounded. She was so overbearing just a moment ago, but now, she was smiling at the man.

Shi qingxuan looked at him coldly, his deep and cold eyes filled with displeasure. how many times do I have to tell you? I've never acknowledged you as my sister.

Liu wanshuang's face turned pale.

She had deliberately shouted that in front of Shi qinglan to show off her status in the Shi family. However, she had not expected that Shi qingxun would not give her any face, even in front of outsiders!

“LAN 'er, I ...”

The cold light in Shi qingshang's dark eyes dimmed. He pursed his thin lips, as if he was learning how to be gentle, so he softened his tone. don't misunderstand. She's not my sister.

Shi qinglan's eyes were indifferent as she sized him up.

She could not help but find it funny. what does it have to do with me whether she's your sister or not? Master Sheng doesn't need to explain this.”

Upon hearing this, Shi Qing's eyes darkened.

His pale fingers were a little cold. He looked at Shi qinglan deeply, a bitter feeling growing in his heart. He curled his lips into a self-deprecating smile, then handed the item over. stethoscope.

“Thank you,” she said. Shi qinglan nodded gently.

She hung the stethoscope on her ear and sat by his bed to listen to his heart sounds. The medical records were soon sent over.

After going through Shi Fu's medical record, Shi qinglan closed the document and put it aside. what did the hospital in ning city say? "

The atmosphere in the ward suddenly turned heavy, as if it was evening. The silence and cold silence had already answered Shi qinglan's question.

Ji Lin looked at the bed worriedly. miss godly doctor, do you think my master has any other way ...

"What can she do?"

Liu wanshuang pretended to roll her eyes, " housekeeper Ji, don't be fooled by this doctor. So many experts have come up with a solution, she's just a high school student ...

Shi qingxuan shot her a cold look.

When Liu wanshuang met his ice-cold gaze, fear rose in her heart and she immediately looked away.

"I'm just telling the truth ..."

She mumbled in a low voice, still acting like a spoiled child. if this so-called divine doctor really had a way, the Medical Research Institute would have had her a long time ago. But I've never heard of her.

Before Shi qinglan could reveal her identity, Liu wanshuang had already taken the initiative to seal her mouth. This was to prevent Ji Lin from believing her unconditionally if she were to reveal it first.

56 You don't deserve to be a part of the Shi family

The lamp that Ji Lin had managed to light up with great difficulty was instantly extinguished.

He had just had hope, but it was met with despair again. He seemed to have aged a lot, and the wrinkles between his brows no longer had a smile.

"It's true that anyone dares to call themselves a doctor now."

Liu wanshuang crossed her arms in front of her chest and looked down at Shi qinglan, " hey, I said that you previously pretended to be a miracle doctor to save someone and extorted a lot of money from Butler Ji, right? "

She felt that her eyes could see through everything.

I see that your school uniform is the most ordinary. Your shoes and school bag don't have any branded labels. I guess your parents don't have money to support you, so they can only buy you these Street goods? "

I've seen a lot of people like you. You're just too short on money, so you impersonated a divine doctor and scammed people all over the place, just to ...

"Have you said enough?"

Shi qingxiao's brows were tightly knitted together. His expression was extremely cold, and his cold and aloof aura burst out instantly.

Liu wanshuang's words had almost stepped on his bottom line.

Losing Shi qinglan when he was a child was the most guilty thing in his life, and now an outsider was saying it like that ...

He looked at her with cold eyes, " Liu wanshuang, not all girls are like you, eyeing the Shi family with ulterior motives!

Hearing this, Liu wanshuang looked at him in disbelief.

She was embarrassed as if her thoughts had been exposed. She explained in a panic, " brother Rong, I didn't ...

"I'll remind you for the last time."

Shi qingxuan's eyes narrowed. don't call me brother. You're not worthy of being a member of the Shi family!

Liu wanshuang staggered back a step.

She clenched her fists tightly and looked at Shi qinglan with eyes full of hatred. She felt that it was the appearance of this girl in front of her that had made Shi qingqiao angry at her!

"Do you still want to be cured or not?"

Shi qinglan's brows furrowed slightly, and her cold eyes revealed a hint of impatience. if you want to argue, go out and argue. The patient can hear you in her current state, and her condition will be affected.

Shi qingxiao immediately fell silent.

He looked at Liu wanshuang coldly and then nervously looked at Shi qinglan, “. ‘m sorry, it was my fault ...

The man pursed his lips, as if he was afraid that she would be unhappy.

Ji Lin was focused on Shi Fu's illness and didn't notice his young master's abnormal behavior. However, when Liu wanshuang saw this, her heart burned with jealousy.

“The patient's condition is indeed quite serious.”

Shi qinglan's Red lips parted slightly. however, when I did a basic examination on him just now, I found that he has a strong will to live. The patient must have some unfulfilled wishes.

She was just casually mentioning it and wasn't curious about what it was.

Shi qingxuan's ink-black eyes brightened instantly. She rushed in front of the girl and held her wrist in agitation. you mean ... she said. There's still a way?”

Ji Lin also looked up at Shi qinglan.

Then, he noticed Shi Qingyun's unusual actions.

Shi qinglan lowered her eyes and glanced at the hand that was grabbing her. Her wrist moved slightly, but she could not break free. master Sheng.

She reminded him coldly.

Shi qingyao's body stiffened, his eyelashes casting a faint shadow. He slowly let go of the girl's hand. I'm sorry.

The hands hanging on both sides of his body gently clenched into empty fists. He looked up at his sister who could not recognize him. His heart suddenly felt as if it was being pricked by needles, and he was a little overwhelmed ...

“Don't tell me you can really cure it.” Liu wanshuang said in disdain.

Shi qinglan took off her stethoscope and said, ” there is a chance of success, but the difficulty of the surgery is very high.

“Swish-”

Liu wanshuang couldn't help but sneer, ” the difficulty of the surgery is indeed very high. Even in the Medical Research Institute, only our most mysterious heir can guarantee the success rate. What's the use of your words? Can you do this surgery too?”

57 Just because I can remove you from the Research Institute

Shi Qingyun and Ji Lin were also waiting for her answer.

Although her sister had left her for 15 years, Shi Qingyun was inexplicably certain that she would definitely have a solution. Moreover, their father had medical talent ...

He was still wondering who he had inherited this talent from.

Shi qinglan pursed her red lips. She thought for a moment and said, " I can be the chief surgeon for this operation. I guarantee a 100% success rate.

"A hundred percent?"

Liu wanshuang looked at her as if she was watching a joke, " godly doctor, forgive me for being direct, but in our medical field, no one can guarantee that their surgery's success rate is 100%!

Shi qinglan's lips curled up slightly.

There seemed to be a faint smile on her lips, and her delicate and bright eyes were full of confidence. She raised her pretty face slightly and slowly said two words, " I can.

Liu wanshuang looked at her in shock.

Although she didn't dare to believe it, and she didn't want to believe it from the bottom of her heart, the light emitted by the girl's body was so dazzling that it couldn't be hidden.

"But I have two conditions."

Shi qinglan opened her mouth again. Her voice was naturally charming, but at this moment, there was still a sense of conviction in it.

"Go ahead," Shi qingxuan's eyes were burning as he looked at her.

The smile on the girl's lips gradually bloomed in her eyes. She looked at Liu wanshuang provocatively, "this person has no right to be in my operating room.

"Alright," he said. He replied in a deep voice without thinking.

However, Liu wanshuang's eyes widened and she said sternly, "I'm the youngest doctor in the world's top Medical Research Institute. What role do you have? on what basis do you say I'm not qualified?"

She had never been so humiliated.

Liu wanshuang had displayed an extremely high level of medical talent since she was a child. Her path to the Medical Research Institute was even smoother. At the very least, she had never suffered any setbacks in the field of medicine!

“You asked me ... On what basis?”

Shi qinglan’s eyes drooped slightly. She nonchalantly walked closer to Liu wanshuang, then leaned over and pressed her face against Liu wanshuang’S. just because I can remove you from the Medical Research Institute at any time.

He couldn’t be the heir for nothing.

He should have the right to fire low-level members, right?

“You ...” Liu wanshuang gritted her teeth.

However, their words could only be heard by each other. stop pretending. You don’t even exist in the Medical Research Institute!

Shi qinglan turned around lazily and charmingly.

She couldn’t be bothered with Liu wanshuang and smiled, ” I will find another assistant to partner with me. But if this person insists on entering the operating room, then master Sheng will have to find someone else.

Liu wanshuang’s sense of danger grew even stronger.

She stomped her feet anxiously. master Sheng, Butler Ji, you can’t let her do whatever she wants. She’s taking Grandpa Shi’s life as a joke!

“I’m willing to believe in miss godly doctor.”

Ji Lin didn’t even have time to think. In fact, he didn’t know why, but when he first saw Shi qinglan, he felt a sense of familiarity, so much so that he had never doubted this little girl.

Shi Qing nodded. I’ll do as you say.

“You guys ...” Liu wanshuang tightly bit her lips.

She really couldn’t figure out what was so good about this girl. At most, she was beautiful, and her every move was Foxy, which made the two of them so fascinated that she could even make such a hasty decision for surgery.

“The surgery is scheduled for this weekend.”

Shi qinglan took Shi Fu's medical record and jotted down a string of numbers on it before passing it to Ji Lin. this is my contact information. You can contact me at any time if anything happens to the patient.

But her contact information was snatched away by Shi qingxun.

Ji Lin looked at his young master with a dumbfounded expression.

58 Do you know the name of the godly doctor?

Shi qingxiao clutched the medical record tightly.

His grandfather's medical information wasn't important at all. What was important was that he finally had his sister's contact information!

Shi qinglan pursed her red lips slightly. She looked down at the wrinkled medical record and suddenly remembered the two white list bounty orders that Shi qingqiao and the pure world Pavilion had issued ...

She felt a chill down her spine and ran away. master Sheng, if there's nothing else, I'll go home first.

"I'll send you." Shi qingxun immediately caught up to him.

Shi qinglan massaged her brows, feeling a slight headache. master Sheng, you don't have to worry about me. I'm not used to sitting in luxury cars.

However, Shi qingxun did not give up. She was like a shadow that could not be shaken off. if you feel uncomfortable, I can accompany you on the bus or subway ...

Shi qinglan stopped in her tracks when she heard that.

She turned to look at Shi Qingyun and gave him a fake smile. master Sheng, what do you want? "

This was the second difficult man she had met in her life.

She couldn't beat up the Shi financial magnate in the capital directly, or she would definitely beat him first as a form of respect. She wouldn't talk nonsense if she could.

"I ..." Shi qingxun's Adam's apple moved.

He looked at the girl with a deep gaze. He was obviously hesitating, not knowing how to tell her.

The person in front of him was clearly his biological sister who was related to him by blood, but she didn't know him and even avoided him like the plague. If he told her the truth, she might be scared away.

The man's voice was slightly hoarse. If my sister was still by my side, she would be the same age as you.

Shi Qinglan's eyes flickered with emotion.

She did not know why, but when she heard Shi Qingyun's words, she could not help but feel a little sad.

However, she smiled charmingly. Master Sheng, your sister is still waiting for you in the ward. She might be angry with you.

"She's not my sister!" Shi Qingyao's voice was tense.

His handsome face was still cold and hard, but at this moment, there was a sense of helplessness between his brows. She was only sent here by an old friend of my grandfather. No one has ever acknowledged her as a member of the Shi family. I ...

Master Sheng, you really don't have to explain the Shi family to me. If you know too much about the secrets of the rich, you'll be killed.

Shi Qinglan touched her neck gently.

She could not understand why Shi Qingyun was explaining all this to her. Why did he check the crescent birthmark on her right butterfly bone and all the information about her ...

"Master Sheng, please wait." She smiled politely at the man.

Shi Qing stared at the girl's back in silence. Even after she disappeared into the crowd, he did not look away. His long and narrow eyes were gradually dyed with a faint red ...

LAN 'er, if you knew I was your brother, would you still acknowledge me? " He felt bitter in his heart and laughed at himself.

After standing outside the hospital for a long time, Shi Qingyao finally made her way to the top-class Ward. Along the corridor, she ran into Butler Ji.

"Young master."

Ji Lin was pacing along the corridor. When he saw Shi Qingxiao return, he hurried over. You and that miss miracle doctor ...

Shi Qing's thin lips pursed into a line.

He was silent for a long time. His cold and white fingers took out a box of cigarettes from his suit. He took out one and wanted to light it, but when he looked up, he realized that he was still in the hospital, so he could only hold it between his fingers.

"Butler Ji, do you know the name of miss godly doctor?"

Shi qingshang leaned against the White wall of the hospital corridor. At this moment, he looked a little dejected, as if he had just suffered a setback.

Ji Lin had asked before, but he didn't get an answer. He shook his head.

Seeing this, Shi qingxuan lowered his eyes and smiled.

His usually cold eyes were gradually filled with a smile. His lips curled up slightly, and the words that he said were full of affection. her name is Shi qinglan ...

Hearing this, Ji Lin was stunned.

59 The godly doctor is the little Miss!

Ji Lin's voice trembled with excitement. little master, you mean ... Miss godly doctor is the little Miss!"

Shi Qing nodded, his dark eyes filled with determination.

Although he did not have any direct evidence, he was already certain in his heart. Grandpa, you can do a paternity test after you wake up.

"I should do one." Ji Lin's aged eyes once again burst with light. Sir will definitely be very happy!

At this moment, Liu wanshuang was about to go get a cup of hot water.

She had just reached the door of the ward when she suddenly heard Ji Lin and Shi Qingyun's conversation. Her heart couldn't help but tighten.

"Shi qinglan?" Liu wanshuang opened her eyes in shock.

She clutched the glass of water in her hand tightly and held the wall with her other hand to prevent herself from falling.

She had been wondering why that girl looked so much like Shi Qingyun's mother!

So ... She was the missing daughter of the Shi financial magnate?

"Since you've been missing for so many years, you should just stay outside! Why did you come back to snatch it from me!" Liu wanshuang gritted her teeth.

A flash of jealousy and anger appeared in her eyes.

It seemed that this person could not be kept alive!

..

Shi qinglan felt a little stomach pain when she left the hospital.

She frowned slightly and stood by the roadside with her hand on her abdomen to call a taxi. She called the Medical Research Institute. this weekend, transfer a few people from the cardiology department to Li city in Huaxia.

boss, you'd rather stay in that small city than return to country A to inherit the Research Institute. The old Dean will go crazy if he finds out!

Shi qinglan's attention was diverted by the pain in her stomach.

She was too lazy to think about such things. She pursed her lips and endured the pain. just don't let that old man come to Ying city.

Upon hearing this, there was a violent protest from the other side of the phone, but Shi qinglan hung up the phone heartlessly and went to the taxi.

In the qinglan waterside Pavilion.

Bo Yucheng sat on the sofa in the living room, his long legs crossed lazily. On his legs was an office laptop, waiting for the girl to return home while he dealt with his emails.

"Crack-"

The villa's door lock suddenly moved.

Bo Yucheng immediately put away the computer and stood up. The girl had just entered the room when she was pulled into a hot embrace. Before she could react, her petite body was wrapped in the man's embrace.

"Why did you come back so late, huh?"

He placed his chin on the top of the girl's hair and gently rubbed it. He closed his eyes and took in the faint fragrance of her hair.

Shi qinglan's face turned pale from the pain in her stomach. She put her arms around the man's waist and said, "the head of the Shi Financial Group is in critical condition. Their Butler asked me for help, so he went to the hospital."

Bo Yucheng chuckled. "what can you help with?"

"I've told you before that I know medicine," Shi qinglan pouted her red lips. She struggled out of his arms and wanted to go upstairs to rest, but before she could leave, he held her hand tightly again.

Bo chicheng's eyes darkened.

His warm palm covered her hand and held it tightly as if he wanted to transfer some warmth. "why are your hands so cold?"

He looked down at the girl, only to find that her delicate and bright face was a little pale and she looked very Haggard.

"Lan Lan, are you feeling uncomfortable?"

Bo Zhicheng's brows furrowed tightly, his dark eyes instantly tinged with a little nervousness, and even his heart felt like it was being tugged at.

Shi qinglan did not know how to answer.

Bo Yucheng's eyes gradually darkened. He secretly counted the time and gently pressed his hand against her forehead. "period?"

"Yes ..." The girl bit her lip and replied in an extremely low voice.

After all, this was a matter of a girl's privacy, and Shi qinglan could not be so generous as to mention it directly.

However, the next second, she felt her feet rise into the air.

"Ah!"

60 Don't force yourself if you're not feeling well

Bo Yucheng immediately picked the girl up by her waist and held her in his arms like a princess. He strode upstairs into the bedroom and wrapped her in the warm blanket to warm her body.

"I don't need to do this ..."

"Be obedient." Bo Zhicheng said in a deep voice, tucking in the corner of the blanket.

Shi qinglan's Obsidian eyes were shining brightly. what if I'm hungry? ”

She hadn't had dinner yet, but she felt much better from her period pain as she lay comfortably in bed.

“Be good and wait, I'll bring it over for you.”

The man was about to get up as he spoke, but Shi qinglan suddenly grabbed his hand and said, ” also, I haven't changed to that ...

Bo Yicheng, ” ...”

He pursed his lips and remained silent for a long time.

In the end, he let the girl go to the bathroom to change, and then brought dinner up to accompany her in the bedroom. He also made some red sugar ginger tea to warm her up. He took good care of her.

I'll help you apply for leave from school. You can rest at home tomorrow. I'll stay at home to accompany you, okay? ”

Bo Li Cheng burrowed into the blanket and gently hugged the girl, helping her warm her body to relieve the pain, even allowing the girl to do whatever she wanted.

He knew that Shi qinglan would suffer from menstrual pain during her period, probably a result of Shen fengzhen's abuse when she was young. However, she had never allowed him to take care of her before ...

“Oh, no need.”

Shi qinglan snuggled in the man's arms, treating him like a warm baby without restraint. the first mock exam is coming up.

Although she was very familiar with the knowledge, she had to at least look at a few sets of college entrance examination papers in the past years to figure out the question type and the way to set the questions.

“I'll have Pi Cheng postpone the exam.”

Bo chicheng fully displayed the attributes of a domineering CEO. In front of beauty, he was really no different from an incapable ruler.

Shi qinglan was speechless.

She looked up and glanced at the man in disdain, obviously not agreeing with his way of doing things. I will take care of myself.

After all, she was a doctor. It was just that her period had come suddenly this time and she didn't have time to boil medicine to recuperate, so the pain was a little severe.

Bo Zhicheng's eyes were deep as he looked at the girl in his arms.

He had long noticed that Shi qinglan had become a little different after the fire. She was more beautiful and dazzling, and at the same time, more independent and confident ...

"Alright, I'll listen to you,"

In the end, Bo Li Cheng still succumbed to her pomegranate skirt, but he was still a little worried. if you're not feeling well, don't force yourself.

Shi qinglan nodded vigorously.

The warm and soft blanket wrapped around her body, and the man's usual cold fragrance lingered in her nose. She fell asleep very quickly, and when she woke up, she felt refreshed and basically full of energy.

..

Shi Fu's surgery was scheduled for Saturday afternoon.

Zuo City High School's discipline was strict. Even on weekends, students had to stay in the school to study by themselves and only leave after they handed in their homework.

Shi qinglan casually passed a few sets of papers to the commissary in charge of studies and prepared to rush to the hospital for surgery.

"Boss, I've transferred the person you wanted to you."

After she left the school, she received a call from the Research Institute. however, it seems that the old principal has also sneaked into ye city.

Shi qinglan was speechless.

She pursed her red lips and fell into silence. After a while, she replied, " forget it. I'll just brush it off.

This time, it was the other party's turn to be silent, but the girl hung up.

Shi qinglan threw her phone into her pocket. She was about to hail a taxi by the roadside, but ...

Just as she looked up, she realized that a car was heading straight for her!
