

## Heart Stealer Young Master Bo #Chapter 61 - Read Heart Stealer Young Master Bo Chapter 61

61 Who sent you here?

Shi qinglan's beautiful eyes opened slightly, and she immediately dodged.

The car immediately came to a sudden stop by the side of the road. A few assassins with tattoos jumped down and followed her fiercely. They took out daggers and stabbed at the girl!

Shi qinglan's eyes were cold. She alertly took a step to the side, then reached out to grab the wrist of the man holding the dagger and twisted it. who sent you here? "

The killer obviously didn't expect her to be so skilled.

A sharp glint flashed in his eyes as he mustered all his strength to break free from the girl's grasp and ruthlessly stabbed at her again with the dagger!

"You want to kill me?"

Shi qinglan's Red lips curled up slightly. She glanced at the assassins who had surrounded her. that depends on whether you have the life to do so.

As soon as her voice fell, a slender leg suddenly kicked the killer to the side. After kicking the dagger to the ground, she turned around and raised her leg to kick the abdomen of the killer who was about to attack her from behind.

"I'll give you one more chance. Who sent you?"

Shi qinglan squinted her charming eyes slightly. Her usually charming eyes now had a cold glint to them, and there was even a hint of murderous intent and warning in them.

But no matter what, the killers gritted their teeth.

They got up and attacked Shi qinglan again. Some of the assassins even took out a pistol with a silencer.

"Bang!"

The muffled sound of a gunshot suddenly rang in his ears.

Shi qinglan did not expect them to bring such weapons. Her eyes turned even colder as she saw the bullet coming towards her chest. She immediately turned around to avoid it.

The hair draped over her shoulders swirled in a sharp arc in the air as she moved.

“Creak-”

The bullet was too fast. Even though Shi qinglan managed to Dodge it in time, it still grazed her arm, leaving a bloody mark on her fair arm.

Shi qinglan covered the wound on her arm and looked up slowly. Her hair was slightly messy in front of her. Her delicate and charming face was slightly cold, and there was anger in her eyes.

even the assassin organizations in continent S have always been clear about black and white. When did they start taking on such orders? ”

She had the intelligence network of the pure world Pavilion and was quite familiar with the organizations of various continents. Naturally, she could recognize the tattoo on the Assassin’s body!

“She actually knows about continent s?” The assassins looked at each other.

The leader’s gaze changed as he looked at Shi qinglan. He became more vigilant and felt that she was not to be trifled with. let’s retreat first!

Hall master, but she knows our identity ...

The killer known as the hall master gritted his teeth. we’re no match for her if we keep fighting like this. Let’s find a chance to talk about it!

The hall leader ordered, and the killers immediately jumped into the car and sped away.

Shi qinglan had no intention of giving chase after her injured arm. She squinted her eyes and secretly noted down the license plate number of the car. She bought some bandages from the nearby pharmacy and bandaged her wound before hailing a taxi.

..

Ning City Hospital.

Liu wanshuang was so nervous that her palms started to sweat. She paced back and forth in the ward, waiting for the hired assassins ‘reply, but there was no news. She was worried that something might have happened.

“Du, du, du-”

There was a knock on the door.

The director of the cardiology department walked in and said, " Mr. Shi's preoperative examination results show that there are no problems. The operating theater is ready. We can start at any time.

The medical team in Pi City Hospital had long heard that the Shi financial magnate had hired a godly Doctor Who claimed that Shi Fu's recovery rate was 100%.

They did not believe it, but they were also curious, so they organized all the doctors in the Department who were not on shift today to come and observe.

62 The Dean of the Medical Research Institute is here!

Ji Lin had been waiting for Shi Qinglan, but she had not arrived. Not even the assistant she had invited had arrived.

He was worried. young master, this ...

Shi Qingyun's expression was dark and cold. His ink-black eyes were unfathomable, making it impossible to guess what he was thinking at the moment.

"Let's wait a little longer," His cold lips parted slightly.

The man clutched his phone tightly. He looked down at the countless missed calls in his call record, and his eyes gradually darkened.

Time passed by ...

The ward was enveloped in a cold and gloomy atmosphere. The entire Department was a little restless, and many doctors were getting impatient.

"Master Xiao, when will that divine doctor come?"

Director Zhou from the cardiology department bit the bullet and rushed him. there are still many doctors here who are waiting to observe ...

Shi Qingxiao pursed his thin lips into a thin line.

Before he could reply, Liu Wanshuang said sarcastically, " she's just a high school student who pretended to be a godly doctor to scam others. If she really wants to undergo surgery, she'll definitely be afraid that the truth will be revealed and would have run away long ago.

"What?" Director Zhou couldn't believe it. miss Liu, you're saying that the godly doctor is only a high school student? "

Liu Wanshuang's eyes flashed with pride. She arrogantly raised her head, " yes, she ...

However, before she could finish her sentence, a sweet voice slowly rang out. who said I ran away? ”

Shi qinglan walked into the ward.

The girl’s hair was tied up, and a few strands of hair stuck to her ears. She was wearing a white coat over her school uniform, which concealed the childishness and innocence of a high school student. She exuded an aura that could not be ignored.

“You ...” Liu wanshuang’s face turned pale.

She staggered back, unable to believe that Shi qinglan had come! Did those assassins fail?

“Master Sheng, the surgery can start at any time.”

Shi qinglan’s Red lips curled up slightly, and her charming eyes moved. She looked at Liu wanshuang with a smile, ” miss Liu, I’m afraid I’ll have to disappoint you today.

Even though all the powers in the world were coveting her.

However, she had hidden her identity very well, and no one believed that this Big Boss was a high school student. Thus, there was no reason for her to come to Zuo City High School to kill him. The only possibility was that it was Liu wanshuang ...

“What are you saying, miss godly doctor?”

Liu wanshuang’s face was still pale. She forced a smile, ” I’m really looking forward to this surgery. I want to observe.

Shi qinglan looked at her with a sweet smile. really? ”

She did not know why, but when her eyes met Shi qinglan’s, Liu wanshuang’s heart was filled with fear and panic. It was as if those bright and charming eyes could see through her!

“Of course I am.” Liu wanshuang steadied her mind.

She gently clenched her fist to control her emotions. but, may I know where the assistant that the godly doctor has hired is? ”

Shi qinglan’s Red lips curled up slightly, and she looked at them with a half-smile. I don’t have an assistant. I can do it by myself.

Liu wanshuang hated this confident look of hers.

She sneered contemptuously. I'm afraid the godly doctor doesn't know that this kind of difficult surgery requires a very good assistant and an anesthetist. Who's going to be responsible if something happens?"

Hearing this, director Zhou could not help but worry.

He frowned slightly and looked at Shi qinglan, "this ... Miss godly doctor, it's not that I don't trust your medical skills, it's just that the difficulty of the operation is very high, even I can't guarantee it."

"If you really can't find an assistant, why don't I transfer a few doctors from the Department to the operating table to help you ..."

"No need," Shi qinglan's eyes drooped slightly, and there was a certain glint in her eyes. either you trust me, or you find someone else. If anything goes wrong with the operation, I have a guarantor too. He'll be here in a while.

"Guarantor? Who do you think you can find to vouch for you?"

But before Liu wanshuang could finish her words, a commotion could be heard from the corridor.

A doctor rushed over in a hurry. MA ... Director! The president of A country's Medical Research Institute is here!"

63 I just wanted to watch the big boss's surgery

Director Zhou's expression changed instantly.

After expressing his apologies, he was ready to go and welcome them, but he didn't expect that Jiang boning from the old hospital would walk into the ward first.

"Old man Jiang!" Director Zhou looked at the old man in shock.

He had thought that the doctor was seeing things. After all, the Dean of the Medical Research Institute was a character that could only be seen from a distance. How could he have come to Ying city without any warning?

Jiang boning stood with his hands behind his back and confirmed the ward number.

He then asked politely and respectfully, "may I ask ... Is there a patient with heart disease here preparing for surgery?"

Director Zhou was quite frightened by his posture.

He immediately smiled and said, "elder Jiang, how could I trouble you with such a small operation? why didn't you tell me in advance that you were coming? I should have gone to pick you up personally ..."

Liu wanshuang didn't expect the old principal to personally visit her.

She nervously held the corner of her white coat and stood behind director Zhou, looking up at the height that she did not dare to reach ...

"I don't dare, I don't dare."

Jiang boning waved his hands repeatedly and lowered his posture. I just wanted to watch the big boss's surgery. Where is she? "

He eagerly looked into the ward.

Director Zhou was instantly stunned. Xin ... To admire the surgery?"

The possibility of the old director of the world's top Medical Research Institute asking him to be the chief surgeon was almost zero. Now, he actually came to a small city like Ying city in person just to admire someone else's surgery?

"Elder Jiang, you must be joking ..." Director Zhou did not believe him.

Shi qingxuan narrowed her eyes as she sized up Jiang boning, then turned her head to look at the girl who wasn't surprised at all. She was even playing with her phone with her eyes lowered. She could almost guess whose masterpiece this was.

Just as the atmosphere in the ward was a little strange, a lazy voice rang out. you're late.

Hearing this, Jiang boning's eyes instantly lit up.

He pushed away director Zhou and Liu wanshuang, who were in the way, and walked over to Shi qinglan as if he had seen a treasure, " who knew that the traffic in China would be so crowded? I've never been to such a small city before.

"You're still late," Shi qinglan's eyelids flickered.

She nonchalantly threw her phone into her pocket and lazily leaned against the wall. She seemed a little out of place among the other people who had straightened their backs and respectfully welcomed Jiang boning.

Liu wanshuang's eyes flashed with hatred.

She furrowed her brows tightly. Shi qinglan, it's fine if you're usually arrogant and despotic, but this is the Dean of our Medical Research Institute. How dare you speak to him like that!

Upon hearing this, Shi qingxiao's sharp eyes swept over.

When did Liu wanshuang know that her name was Shi qinglan?

"Who are you?" Jiang boning's smile instantly disappeared. He frowned and glanced at Liu wanshuang unhappily.

What did it have to do with her that he was having a good chat with little LAN?

Liu wanshuang immediately hid all her ill intentions.

She nervously tidied up her white coat, her palms full of cold sweat. She said respectfully, "Hello. Dean Jiang, I'm. new member of the Research Institute this year ...

Jiang boning sized him up with a frown.

That slightly aged face fell, as if he was disdainful of something. the supervisor's eyes are not very good.

Liu wanshuang's expression instantly froze.

She didn't understand why Jiang boning was so dissatisfied with her when they first met. She forced a smile and said, "Dean Jiang, they all say that I'm the youngest member of the Medical Research Institute ...

Although she appeared respectful, Liu wanshuang's tone still revealed a hint of arrogance.

She wanted to say that even if her medical skills were not the best, she did have extremely high talent and the capital of her youth. She wanted to use this to win the attention of the director.

64 Little LAN is the heir of the Research Institute

Jiang boning was still looking at Liu wanshuang with disdain.

His tightly furrowed brows did not relax at all. After a long silence, he asked, "the youngest? How old are you?"

"I'm twenty this year." Liu wanshuang raised her head with confidence.

Jiang boning gradually revealed an expression that was difficult to express in a few words.

He slowly turned his head to look at Shi qinglan beside him, only to see that she had taken out her phone again and was playing with it nonchalantly, as if she did not care about these things at all.

“You’re still chatting? are you planning to cancel the surgery?”

Shi qinglan’s Red lips curved up slightly. She raised her eyes and looked at these people, her phone circling in her fingers.

Jiang boning quivered and instantly shut up.

He had finally gotten news of Feng qinglan, sneaked out of the Research Institute, and ran to ning city to catch her. It just so happened that she was going to be the chief surgeon. How could he miss such a God-level performance in the medical field!

“You sneaked out on your own?”

Shi qinglan raised her pretty face slightly. When she looked at Jiang boning, she was charming and charming, as if she didn’t see him as a character at all. She even looked at him with disdain.

“LAN girl, look at what you’re saying. What do you mean by sneaking out! If you weren’t so scared, would I come to this remote little city?” Jiang boning was embarrassed, but he didn’t dare to get angry.

Hearing this, Liu wanshuang widened her eyes in shock.

Her entire back was a little stiff, and she looked at Jiang boning on the altar in confusion. If she hadn’t heard wrong ...

Dean Jiang was calling Shi qinglan ‘little girl LAN’?

“Then let’s start as soon as possible.” Shi qinglan’s brows furrowed.

She raised her hand and unconsciously touched her arm. She didn’t even have time to carefully treat her wound. After all, she didn’t want Liu wanshuang to know that she was injured, and Liu wanshuang didn’t like to be late.

However, the wound could get infected easily if it was covered for too long. She just wanted to end the operation as soon as possible.

Jiang boning glanced at her with both disdain and indulgence, his eyes looking a little coquettish. this little girl is so young, but she's so impatient! Wait, there are still a few more people."

"There are more?" Shi qinglan looked at him suspiciously.

The little old man took out his phone and pulled a long face. He took out his WeChat and made a video call. Many familiar faces of the experts appeared on the phone screen!

"This ... This, this ..." Director Zhou's scalp went numb.

He looked at the doctors on the screen in shock, and he was so scared that he almost fell to the ground.

The world's top anesthetist, the world's top cardiovascular experts, and even the foreign Honorary Director of the most famous hospital in A country were all video-connected ...

"Miss Shi!" They greeted Shi qinglan respectfully and asked cautiously, " do you think we're qualified to watch your surgery through a long-distance connection? "

Department Director Zhou's foot slipped and he almost fell.

If it wasn't for Ji Lin supporting him, he would've probably already fallen on his butt.

"I'll reluctantly allow it." Shi qinglan glanced at him from the corner of her eyes.

Director Zhou's legs went soft again. He looked at the situation in front of him in confusion and felt a little confused.

In her eyes, these big shots were at most forced?

Shi qinglan was too lazy to explain. She tidied her white coat with her slender fingers and said, " get ready for surgery.

"Good, good, good." The big shots were instantly excited.

They had never dreamed that they would be lucky enough to witness Shi qinglan's surgery one day. This was enough for them to brag about it in the medical field for the rest of their lives!

young master, what's going on ...

Ji Lin had yet to react, but from director Zhou's reaction, he could guess that these people were not simple.

But before Shi Qing could open his mouth, Jiang boning suddenly stopped in his tracks. Oh, right, I forgot to introduce him to everyone.

LAN is the successor of our Medical Research Institute. Her medical skills were above mine when she was seventeen. Those were just the tip of the iceberg of her fans. They're not worth mentioning.

After saying that, Jiang boning waved his hand nonchalantly and quickened his pace to catch up with Shi qinglan.

65 The real yingluo is really a godly doctor!

Liu wanshuang was stunned on the spot.

She clenched her fists tightly, her eyes unable to focus due to shock, as if she was still digesting what Jiang boning had just said ...

Shi qinglan was the heir to the Medical Research Institute?

"God ... A godly doctor! Really ... He's really a godly doctor!" Director Zhou looked at Shi qingyao with a numb expression.

He knew that the Shi financial magnate of Beijing was indeed capable, but he did not expect that they would be able to invite someone from the Medical Research Institute, and it was even the most mysterious heir!

He even let so many big shots come and watch ...

"I'm not sure about this." Shi qingxuan's thin lips pursed slightly, and his cold eyes glanced indifferently at Ji Lin.

After all, he was the one who had invited Shi qinglan.

At this moment, Ji Lin was even more dazed. I ... I just went to Pi City High School and randomly picked up a little girl that I like ..."

He didn't expect that this little girl was not only the little Miss who had been missing for many years, but also the heir of the Medical Research Institute!

Director Zhou was speechless.

He looked at the few of them with a complicated expression.

However, after he sorted out his thoughts, he was about to leave in a hurry. I have to go and observe the surgery!

This surgery would definitely cause a sensation in the entire medical field!

Liu wanshuang's nails almost dug into her palm, but she was so numb that she had forgotten the pain. She had long been unable to tell whether she was feeling fear or shock ...

She had done that kind of thing and even said those words!

No, how could Shi qinglan have found out that she was the one who did it?

"Butler Ji, master Sheng, I'm going to watch as well."

Liu wanshuang took a deep breath to calm her emotions. She raised a gentle and polite smile and then quickly left the ward.

Shi qingxiao's deep eyes darkened.

Now, he finally knew who his father had inherited his medical talent from. However, he did not care about Shi qinglan's identity and background. He only wanted to know what she had been through all these years ...

"Ji Lin," Shi qingxuan looked up at the ceiling.

Ji Lin recovered from his shock and looked at his young master.

Shi qingxiao clenched his fists slowly. His Adam's apple bobbed. do you think LAN 'er has been doing well all these years? "

Little Miss is under the protection of the A country Medical Research Institute. She should be living well. Ji Lin guessed.

However, Shi qingxiao's thin lips curled up slightly and slowly revealed a mocking smile. ha ...

However, if Shi qinglan had not gone missing back then, she would have been a little princess who was held in the palm of the top wealthy families, enjoying all kinds of love and honor. Why would she have studied medicine ...

Shi Qingyun felt that his sister, whom he had once doted on so dearly, must have gone through a lot of things that he could not have imagined. Otherwise, she would not have become like this.

When she was young, Ming tianzhen was so cute that people would pity her. Every time she fell, she would cry and beg for her brother to hold her ...

"Young master, let's go and observe the surgery."

Upon hearing Ji Lin's words, Shi qingxuan closed his eyes tiredly. I'll wait outside the operating room.

He did not intend to observe Shi qinglan's appearance during the surgery, for fear that the guilt and heartache would pierce him with a thousand holes.

"Then I'll go with you." Ji Lin didn't plan to go either.

Shi qingxuan said in a low voice, "I'll go and smoke a cigarette first."

As soon as he finished speaking, he walked out of the inpatient building with steady steps. The lingering smoke lingered between his white and slender fingers, and the man in a suit and leather shoes exuded a little dejection.

The cigarette burned out, and Shi qingxuan flicked the ash away.

After he threw the cigarette butt into the trash can, he turned around and waited at the door of the operating room. Time passed by ...

66 Little LAN, are you alright?

The entire Pi City Hospital was in an uproar.

He had heard that a Big Shot in the medical field had come to complete an extremely difficult surgery, and he was going to challenge a 100% recovery rate and zero mistakes in the surgery process!

Even if they were not doctors from the cardiology department, the medical staff from other departments would come and watch when they had time ...

"Tissue scissors,"

Shi qinglan changed into her Surgical Gown and covered half of her delicate face with a surgical mask, revealing only her charming and beautiful eyes, which glowed with confidence and determination.

Her Jade-like slender fingers held a surgical instrument and skillfully operated on the tissues and blood vessels. It did not seem like a boring academic discussion, but a superb performance!

"Establish cardiopulmonary bypass, don't forget to put a sheath on the hepatic vein and insert a tube into the artery."

His calm and clear voice directed the entire operation.

Even though Shi qinglan was the youngest, the aura and sharpness that she exuded made people subconsciously submit to her.

The entire operation went very smoothly ...

Shi qinglan's hand suddenly trembled slightly at the critical step of blocking the ascending aorta. Fortunately, she managed to stabilize her hand in time before she touched the nearby blood vessels.

"Miss Shi?" The assistant doctor was a little surprised.

He had never heard of the heir of the Medical Research Institute making a mistake, even though she stopped in time and did not cause any actual surgery mistakes.

Shi qinglan frowned slightly. She glanced at her left arm, which had been injured by the bullet, and said, "as expected, it still has an effect.

"What?" The assistant doctor followed her gaze.

However, Shi qinglan immediately looked away and handed the aortic dissection forceps to the assistant doctor. you do it.

The assistant doctor took the surgical instrument with some doubt.

"Prepare the heart stopping solution at 4 ° C,"

Shi qinglan covered her arm. The surgery was indeed very difficult. Even though she was confident, she was still sweating cautiously. The cold sweat that was covered by the surgical Gown had seeped into the wound, which was probably infected.

Not only did her arm hurt, but her period pain was also acting up.

She decided not to force herself for the time being. I'm going to take a break.

The team had successfully established the cardiopulmonary bypass, and there was no need for high-level operations for the time being. Shi qinglan handed it over to the other doctors sent in by the hospitals.

Everything was going on as usual.

"Miss Shi, you can stop the cardiopulmonary bypass now."

Shi qinglan lifted her eyelids upon hearing this. The pain in her arm and the pain had not subsided, but she had already rested for a while, so she could control the strength of her hands. yes.

She took the surgical instruments from the assistant.

The assistant doctor looked sideways at Shi qinglan. The mask covered her pale face, but she didn't look too good.

"Miss Shi, are you alright?" He frowned.

"It's alright." After Shi qinglan was sure that she would not make any mistakes, she continued with the next step of the surgery.

No one in the medical field dared to perform such a highly difficult surgery. However, under Shi qinglan's leadership, the surgery was basically completed in less than two hours!

The observation room was filled with exclamations ...

Even Liu wanshuang was going crazy from jealousy because of her talent!

"You can start suturing."

Shi qinglan forced herself to complete the entire operation. The pain on both sides of her body had not lessened, but had instead become more serious. I'll go out first.

The assistant doctor frowned as he watched the girl leave. His intuition told him that something was wrong, but he didn't think too much about it.

Shi qingqiao and Ji Lin were pacing anxiously outside the operating room.

When Shi qinglan finally came out, the girl lifted her hand to take off her medical mask. Her beautiful face was frighteningly pale!

"LAN 'er, you ..."

Shi qingxuan immediately noticed that there was something wrong with her expression.

67 Old man Jiang, how's my sister?

Shi qinglan's face turned pale.

She gently pursed her lips. Her originally tender and red lips were now pale, and a few drops of sweat oozed out of her forehead.

Shi qingshang's brows were tightly knitted together. His usually calm face was filled with panic. LAN 'er, are you feeling unwell? "

"I'm fine," she said. Shi qinglan's eyebrows twitched.

Her voice was extremely soft, and it sounded like she was on the verge of death.

“How can you be fine when you look so pale?”

However, Shi qingxiao picked her up and ordered, “ Ji Lin, go and call the doctor.

Seeing this, Ji Lin was almost flustered and at a loss.

Hearing the young master’s instructions, he immediately went to find the doctor.

Jiang boning had also just come out of the observation room. When he came to the operating area, he saw this scene. what’s going on? ”

Shi qingqiao hugged the girl tightly in her arms.

He looked down at her pale face and frowned. It was rare for him to be unable to stay calm. I ...

“Arrange a ward for me first.”

In the observation room, Jiang boning naturally noticed that she was in a very bad state during the operation. He frowned with some worry and made a prompt decision.

“Alright,” he said. yes! Shi qingqiao replied in a deep voice.

He strode towards the ward with Shi qinglan in his arms and carefully placed her on the bed.

Shi qinglan had no choice but to be held down by Jiang boning for a routine examination. After that, she was put on a drip and fell asleep.

“Elder Jiang, how is my sister?”

Seeing that the girl had fallen asleep, Shi Qingyun deliberately lowered her voice, but her tightly furrowed brows did not relax.

“Younger sister?” Jiang boning’s hand, which was adjusting the drip speed, paused.

He remembered that LAN seemed to be an orphan. When she was young, she was taken away by her adoptive mother from the welfare Institute. He had never heard her mention that she had an older brother.

Jiang boning raised his eyes and sized up Shi qingxuan. Lan’s condition wasn’t good during the operation. It’s highly likely that she suffered from menstrual pain and didn’t rest well. She even has a slight fever.

“Again?” Shi Qingyun caught the keyword.

Jiang boning didn't know much about the situation in Huaxia, so he didn't know that this was master Sheng of the Shi financial magnate and not the family that had adopted her.

He cast a suspicious glance at Shi qingyao, and he was so angry that he threw a little tantrum. that girl LAN has been suffering from cold and menstrual cramps since she was young. Don't tell me that you, as her brother, don't know about it? ”

Upon hearing this, Shi Qing's eyes gradually darkened.

He slowly clenched his fists, choked by Jiang boning's severe question, and didn't know how to answer.

“Also, Lassie Lan's hand should be injured.”

Jiang boning rolled up Shi qinglan's sleeve. When she had made a mistake during the operation just now, he had already suspected that there was something wrong with her hand.

“Why would I?” Shi qingxuan's brows furrowed even more.

However, when he leaned over to take a look, he realized that there was a bloodstain on the girl's fair arm. Her sweat had seeped into the bandages and infected the wound. Fresh blood was also seeping through the bandages.

“How did it end up like this ...”

Jiang boning looked at the wound with heartache and carefully removed the bandage. The mark was not shallow, but it was obviously a new wound that hadn't been treated properly.

He was even more annoyed. she clearly got injured today. As her brother, you don't know? ”

Shi qingxiao pursed his thin lips into a thin line.

His dark eyes were deep and turbid, and the aura he exuded was a little gloomy and cold ...

“It's all my fault for only thinking about teacher.” Ji Lin felt a little guilty. He raised his hand and slapped himself in frustration.

However, at this moment, all the people from the Shi financial magnate were surrounding Shi qinglan, and no one remembered that Shi fugang had been pushed out

of the operating room. No one even cared about him when he was still under observation in the ICU ...

“It’s useless to say all this now.”

Jiang boning was still angry. He wrote a medical record and asked the nurse to put her on a drip. Lan’s hand is precious! If I find out who dares to lay a hand on her ...”

Liu wanshuang suddenly stopped at the door of the ward.

She had already expected that Shi qinglan would not be able to escape unscathed after being hunted down by the assassins hired by continent S, so she had come to take a look ...

He didn’t expect to hear such words!

68 Shi qingyao, I’ll settle this with you at the hospital!

Liu wanshuang nervously clutched the corner of her clothes.

Her face was a little pale, and she bit her lower lip to hide her panic. She forced herself to look calm and ignorant before she walked into the ward.

. Master Sheng, I heard that something happened to miss Shi ...”

Liu wanshuang’s white coat made her look gentle. She worriedly looked into the ward and gently furrowed her brows, ” is the surgery too difficult and tiring? is she okay? ”

Shi qingxuan’s eyes were cold.

His suit and leather shoes made his figure look even more slender, and his angular face revealed a bit of coldness. He looked at Liu wanshuang from the corner of his eyes, ” miss Liu, you’re still pretending? ”

Hearing this, Liu wanshuang’s body slightly swayed.

However, she quickly calmed herself down and looked up at the man calmly. master Sheng, what are you talking about? ”

Jiang boning also looked at Liu wanshuang.

Shi qingxiao’s long and narrow eyes narrowed. He suddenly turned around and closed in on her. when did you know her name? ”

He had only mentioned it to Ji Lin in the corridor.

However, before Shi Fu's surgery, Liu wanshuang had called Shi qinglan by her full name when she questioned her. This made Shi qinglin suspicious.

How could things happen so coincidentally ...

Shi qinglan had not received any calls from him on her way to the hospital. Now that she had found a new injury on her arm, there was a high probability that something had happened during that period of time!

Liu wanshuang had always wanted to be acknowledged by the Shi family. If she knew that her missing daughter had been found, she would have a reason to make a move ...

"I ... Miss Shi said that when she introduced herself."

Liu wanshuang nervously swallowed her saliva and avoided his gaze, "master Sheng, when you and Butler Ji went to help her get the stethoscope and medical records, I had a private chat with her in the ward.

She kept telling herself to stay calm.

The hired assassins in continent s all knew the rules. They would never rat her out, so no one would know that she was the one who did it!

"Is that so?" Shi Qingqi examined Liu wanshuang.

That pair of deep eyes were filled with coldness, and the aura that burst out from his body was also filled with a ghastly cold light!

"Of course it is ..." Liu wanshuang smiled weakly.

Shi Qing's fingers gently rubbed against each other, and his eyes became deeper and deeper. He clearly didn't believe Liu wanshuang's words.

"Du, du, du-"

However, at this moment, there was a sudden knock on the door.

The Big Shot anesthetist from the Medical Research Institute walked into the ward, holding a phone that kept ringing. director Jiang, miss Shi's phone in the changing room has been ringing ...

"Is she alright?" He nervously looked at the girl.

Shi qinglan was their God in the field of medicine. As a senior fangirl, it was a big deal for her to be ill.

"Give me your phone." Shi Qingyun said in a deep voice.

The anesthetist handed the phone to the man. Shi qingxuan lowered his eyes and saw the caller ID-ah-Cheng.

His eyes darkened and he clutched his phone tightly. After some thought, he decided to pick up the call. young master Bo.

Hearing this, Bo Zhicheng's eyes narrowed.

There was a faint chill in his eyes as he said unhappily, " why are you here? Where's Lan Lan?"

Shi qingxuan pursed his thin lips and looked at the girl on the bed.

In the face of Bo Zicheng's questioning, he actually felt a little guilty. she ... Something happened and he's in the hospital."

"Can you repeat that?" Bo Li Cheng suddenly stood up.

His dark eyes darkened instantly. He grabbed his coat from the back of the chair and strode toward the parking lot to hear Shi qingxun's explanation.

Bo Yucheng's expression was frighteningly cold. Shi qingxiao, just you wait. I'll settle this with you at the hospital!

69 Who did this to her arm?

Bo Yicheng sped all the way to the hospital.

No one dared to stop him as he strode into the ward. Even Shi Qingyun consciously gave up her seat to him.

"Lan Lan ..." He held the girl's hand tightly.

Shi qinglan was still unconscious as she was being injected with medicine to stop the pain and reduce the fever. Her delicate face was as white as a porcelain doll, and she was lying on the bed peacefully without any charm or sharpness.

"I'm sorry." Shi Qing pursed his lips tightly.

His eyes were dyed red as he looked at the girl on the bed with guilt and self-blame. He hated himself for not being able to protect his sister even though he had found her ...

She did not know how to explain it to Bo Li Cheng.

“Who did this to her arm?”

Bo Yucheng’s dark eyes were deep and cold. He glanced at the few of them from the corner of his eye, his questioning voice cold and displeased.

Shi Qing remained silent as he looked at Liu wanshuang.

“Master Sheng, why are you looking at me like that? I really don’t know how miss Shi got injured.”

Liu wanshuang pretended to look at him innocently, but in reality, she was already panicking and her heart was trembling.

It was fine if Shi Qingyun suspected her ...

When Shi Fu woke up, she could still pretend to be good and plead for him. Grandpa Shi had raised her by his side for so long, so it was impossible for him to not show any mercy.

But why did thin mist city appear here!

He was the heir of the Bo Financial Group in the imperial capital, the person whom all the young ladies coveted. Why was he also protecting Shi qinglan?

“I didn’t say I doubt you.” Shi qingqiao’s face was tensed up, but his eyes were cold. what are you so nervous about? ”

Liu wanshuang secretly broke out in cold sweat.

She looked at Shi qingxiao with a warm smile, then raised her hand to look at her watch. master Sheng, I have to be on duty this evening. It’s almost time. I’ll take my leave.

Shi Qingyun’s face was cold and he ignored him.

Liu wanshuang took a deep breath and smiled. After greeting everyone in the ward, she turned around and left. The moment she stepped out of the ward, her face instantly turned pale ...

It was as if she had just survived a disaster, which made her heart palpitate with fear.

“I’ve already sent someone to investigate this matter.”

Shi qingxuan’s cold lips parted slightly. no matter who dares to touch LAN ‘er, we, the Shi financial magnate, will never let them off.

Bo Yicheng narrowed his eyes and stared at Shi Qingyun.

His deep eyes were surging with dark waves. After examining her for a long time, he slowly opened his mouth and said, "it better be like this."

Everyone stayed by Shi qinglan's bedside and never left.

Even the big bosses of the Medical Research Institute who couldn't squeeze in were willing to stand and wait in the corridor.

Shi qinglan felt a little dizzy.

The pain was relieved, and her consciousness was gradually restored. Her eyelashes trembled slightly ...

"Lan Lan!" Bo chicheng's heart tightened.

Shi qinglan's brows furrowed slightly. She seemed to hear someone calling her. She opened her eyes slowly, but the familiar smell of disinfectant entered her nostrils. When she opened her eyes, she was once again at the ceiling of the ward!

She immediately sat up vigilantly.

She glanced sideways and saw the needle on the back of her hand. She subconsciously thought that Shen ruxue was drawing her blood, so she pulled it out without hesitation and struggled to get out of bed.

"Lan Lan! Where are you going?"

Bo Yucheng frowned tightly and immediately pulled the girl into his arms. "be good and don't run around. It's me."

Hearing this, Shi qinglan's body stiffened.

She was held in the man's arms, and a few traces of blood slowly flowed down the back of her hand. She looked up at the other people in the ward and suddenly realized that this was the life after her rebirth ...

Shen ruxue hadn't had the time to draw her blood and bone marrow.

She had only fallen asleep during the infusion due to menstrual pain and fever.

70 I'll punish you to go back and inherit the Research Institute if you're disobedient!

Shi qinglan closed her eyes and took a deep breath with lingering fear. She laid in Bo Zhicheng's arms obediently and said, "mm."

The needle was stuck in the back of his hand. It was an infusion, not a blood draw.

Bo Zicheng's large palm gently caressed the girl's back, his voice low but filled with love. with me around, it'll be fine.

He held Shi qinglan in his arms and coaxed her for a long time. After seeing that she had calmed down, he carefully brought her back to the bed and tucked her in. He only took out his hand that was about to be put on an IV drip.

"LAN girl, you've scared this old man crazy."

Jiang boning was as angry as a pufferfish. He pinched the girl's nose in a bad mood and helped her re-insert the needle.

"There shouldn't be any problems with the surgery, right?"

Shi qinglan's Red lips twitched slightly, and she changed the subject arrogantly. how's old master Shi doing now? "

Upon hearing this, the ward fell into silence.

Shi qingqiao and Ji Lin looked at each other. They suddenly remembered that Shi Fu had just finished the operation and had almost forgotten about him ...

"Did something happen after I left the operating room?"

Shi qinglan sensed that the atmosphere was not right. She frowned and almost got up to check on the situation.

However, Shi qingxiao placed a large palm on her shoulder and pulled her back into bed. I think she's fine.

"What do you mean by" should "?" Shi qinglan felt that something was amiss.

She had basically completed the surgery, and only the final suture step was left. Logically, there should not be any mistakes, but the atmosphere here and their expressions were obviously not right ...

Shi Qingyun's face was tense, and he was speechless.

Ji Lin raised his hand and pinched the corner of his eye. that ... We just forgot that Sir had just finished his operation and didn't have time to see him ..."

Shi qinglan showed a suspicious expression.

“Really?” She couldn’t understand why Shi qingxiao and Ji Lin were guarding her bed and had forgotten to look at Shi Fu.

Even if she had done the Shi family a favor, it was not to the extent ...

Jiang boning mumbled, ” no matter what that old man is like, it has nothing to do with you. You’d better lie here obediently and finish your IV drip. Otherwise, I’ll punish you to go back and inherit the Research Institute!

Shi qinglan was speechless.

She immediately lay down obediently and received an infusion. Obviously, she didn’t want to inherit the Research Institute. Jiang boning was quite angry ...

Fortunately, Shi qinglan’s body was fine and she could be discharged after the infusion. Bo Li Cheng sent her back to qinglan waterside Pavilion.

“Be good and lie down to rest. Sleep a little longer, okay?”

Bo Yucheng directly carried her under the blanket. The girl thought that she would be freed, but she did not expect to be covered tightly again.

Shi qinglan pouted her red lips unwillingly.

“Be obedient.” Bo Yucheng bent down and pecked her between her brows. He left the bedroom after coaxing her to sleep.

The moment he stepped out of the room, the deep affection in his eyes disappeared instantly. did you find out anything? ”

Wen mo immediately appeared in front of Bo Li Cheng.

With a cold face, he replied respectfully, ” master Bo, it was a hired assassin from continent S who intercepted and killed them near Zuo City High School.

“Continent s?” Bo Li Cheng’s long and narrow eyes narrowed.

His red lips slowly curved up a little, and he sneered with extreme displeasure. have I been too indulgent with them recently that these people even dare to touch my girl? ”

Wen mo lowered his head. I didn’t manage it well.

“Where are the hired assassins?” Bo chicheng looked up, slowly pinching those long and fair fingers.

The sound of his joints rubbing against each other was like a warning.

Wen mo answered truthfully, " they've been arrested. They're in the dungeon you set up in Ying city.

Upon hearing this, Bo Yucheng's cold lips parted slightly. prepare the car.
