

Heaven 341

Chapter 341: Combined Sneak Attack!

Meanwhile, Jaxon was fighting fiercely, his expression ruthless. Each blow he delivered was filled with murderous intent, trying to kill one of his enemies at least.

Jaxon's two-handed war-hammer spun at his will, slamming onto the shields with explosive sounds one after another. However, his six enemies used two shield-bearers, one archer, and three melee users to deflect and counterattack. Between those melee cultivators were a dagger, a sword, and a spear user.

His darkness, fire, death, and magma-attributed skills flew with each swing, making them retreat. It truly felt like a giant was slamming on their shields.

Each time he slammed onto one of the shields, the dagger user tried to attack his back, but Jaxon's ten wings could move defensively. The sword user tried to slash toward his arms, but Jaxon's terrific physical body lunged with various physical attacks, maintaining him at bay each time he approached.

Worse, even the spear user was unable to damage him seriously as Jaxon used the defensive skills on his difficult-to-block attacks and then relied on his regeneration to keep going.

The archer was trying to shoot multiple powerful arrows toward him, all of them filled with the wind element, yet Jaxon used the wings that weren't focused on the dagger-wielding woman to block.

Jaxon had been held back for a while already, so he was quite angered and yelled. "You vermin! How dare you attack me with such lousy strength!?"

One of the shield users sneered, "You've killed plenty of our brothers and sisters. This is your retribution, Jaxon! You will die here today!"

Jaxon smiled savagely, "Will I?" Then, he charged a powerful attack and slammed it on his shield.

The magma-engulfed hammer created a powerful shockwave that even pushed the other Unification Realm experts.

The one hit directly couldn't maintain his feet on the ground as he felt his arm cracking under pressure. Then, his body shot backward; his eyes were filled with shock. "Was he holding back?"

Jaxon laughed aloud. "Weakling! You will all die as many did before! [Demonic Darkness Devourer]."

A black aura exploded from him, engulfing the five people left around him. The five people felt like acid had fallen on their skin and hissed in pain. However, with a single thought, their elemental coats increased in strength, protecting them from the smog.

The archer immediately used a skill to clear their field of vision. "[Hurricane]."

A strong wind swept the surroundings, dispersing the black smoke and clearing the view. However, this only made clear the disaster that was about to happen.

After the smoke dispersed, the woman using the dagger only saw something getting close to her face. 'Huh?' The others shouted, but even before the sound of their call could reach her, the crunch of her facial bones shattering filled her ears for an instant before everything went silent forever.

With a shower of gore, the Unification Realm expert's head shattered into bits as her headless body tumbled on the ground and slid into the distance.

The other five were shocked, and then their eyes burned with wrath. "I WILL KILL YOU!"

Jaxon laughed aloud as his wings spread widely. "One less useless trash, five more to go!"

Wounds could be seen in every cultivator present, and even though Jaxon seemed badly injured, his wounds were regenerating at a visible pace.

When Jaxon was about to charge, he heard the shout of one of his underlings. He turned his head and saw one Demon Count with a hole in his chest. It was one of the Demon Counts facing two people. Right after, those two joined the five against Jaxon, becoming seven one more time.

These two were quite fresh since that Demon Count wasn't that strong. Therefore, one of them shouted with righteousness, "Jaxon! Surrender your life already! I won't ever forgive you for killing my wife! You must die to allow those that reincarnated to rest comfortably!"

Jaxon calmly flapped his red fleshy wings and floated before those seven cultivators. His words were mocking, and his voice low and rumbling. "A group of human weaklings. You are the fourth group attacking me today, and all the others ended up dead. Why do you think you are special? You will end up the same way as the others did."

The man sneered, "Do you think we've come unprepared!? You've got no chance! You are already doomed! Not only are your underlings tired after battling, but your energy is also beginning to get low! Moreover, we have even more trump cards."

Jaxon smiled evilly and tensed his powerful muscles. Blood flowed like a waterfall from his open wounds, and then it stopped. However, once that blood touched the ground, it began sizzling and melting the rock.

Many couldn't understand what he did, but the man who spoke had an ugly face. Jaxon laughed at his face and said. "There, I expelled the poison coated in your weapons. What other tricks do you have, weakling?"

The man's face became pale, and he stuttered. "How did you know?"

Jaxon's wounds regenerated faster than before as he spoke, "Useless things. Why should I tell you how I did- Huh?"

ROAR! "[Star Dragon Breath]!"

Awoo! "[Wolf Queen's Obliteration]!"

"[Focused Laser Blood Crystal Formation]!"

"[Heaven-Born Flame Explosion]!"

"[Moon Freezing Catastrophe]."

"[Thunder Soul Destruction]!"

"[Nature's Embrace]."

"[Nature Queen's Wrath]."

In that instant, pure destruction engulfed the area.

A white beam surrounded by stars zoomed at barely visible speeds toward Jaxon, the sky changed, and an enormous yellow lightning bolt fell on him; a wide red beam also shot from the same direction as the first one at a similar speed.

Then, the floor burned and exploded in a brilliant scarlet flame explosion; an enormous arrow made of three different colors tore space and reached the middle of the area, exploding and creating a silver whirlwind. The whirlwind spun the previous attacks, increasing the lethality of the events and creating something similar to a fire, ice, and thunder tornado.

Furthermore, a black lightning current surrounded the spinning hurricane of destruction as solid roots attacked the area from all directions.

Finally, all those attacks got enhanced by a green aura that surrounded the place of the catastrophe, making the tornado widen from twenty meters wide to fifty.

Devastation. It was a view that scared all the creatures that witnessed it.

The place where Jaxon was standing was annihilated into oblivion and beyond, creating a crater almost fifty meters deep and hundreds of meters wide.

The attack was so strong that the mere shockwave blasted everyone away from Jaxon's position and injured those weaker than the eighth level of the Mental Nourishing Realm.

Worse, the tornado of energies didn't disperse shortly after, and they were strong enough to lift the soil and the powerful cultivators around it.

If it wasn't because the initial shockwave that had pushed everyone away, who knew how many of them would've been absorbed right into that tornado of pure destruction?

The other group's jaw fell, observing as a group of women and their beasts appeared from the side. The one leading them was a dragon whose body was like a work of art.

Some demons recognized them, and some humans also did. However, right now, they were all too shocked to even speak.

Angel looked at the tornado that was slowly dispersing and asked, "Do you think he is dead?"

Evelyn looked at Angel's breasts and said, "He is not. If he were, the jiggle of your tits would be happier-"

Bang!

Yasenia chuckled without moving her eyes from their attack. Her slightly deep and mellow voice reached them as she asked with amusement. "Did you miss my tail slaps so much? You are triggering me quite a lot lately."

After making beautiful and artistic spins, Evelyn landed on her feet and said with a smile. "It feels refreshing, like a slap of fresh air, I mean, a breeze of fresh air. I missed it more than I would like to."

"Pervert." Said a certain fox.

"Ugh." Evelyn felt it physically.

"Masochistic Pig." Said a certain dommy mommy- *Cough.* Tanned woman looking down on her.

"Ahn~!" Evelyn enjoyed it... Enjoyed? Whatever, she is a lost cause.

"Degenerate!" Exclaimed a blonde cutie, hearing the clear joy in that moan.

"Argh!" This one felt like a punch in the stomach! Their innocent little girl had said that seriously, which hurt the soul!

"He is alive." Commented the platinum-silver-haired Phoenix calmly and ignored their banter.

"How!?" Evelyn's head whipped, and she looked toward Jaxon's position with bewilderment.

Once the giant attack disappeared, he was revealed in the middle below a transparent golden dome. He wasn't more injured than previously, so it was clear that some sort of life-saving treasure had been triggered.

Evelyn snorted, "Cockroach Demon, can't you die the easy way? Do you know how annoying it was to gather those attacks? I had to sit for three minutes! You are not worth that much of our time!"

The humans and demons could feel their lips twitching. 'One of the strongest in the Secret Realm isn't worth three minutes of your time? What are you, the Emperor of the Universe?'

Jaxon's gaze was gloomy as he looked at them. The treasure he used could block even transcendent-level attacks. However, it could only be activated a limited number of times. To think he had to activate it against a bunch of people on the same level was truly a slap to his face.

He snarled as he looked at Yasenia, ignoring Evelyn. "You disgusting Dragon. Did you come here to give me back my shield?" Then, he smiled mockingly and said, "Oh, sorry. You can't speak, right? Is it interesting to be so useless that you can't even communicate?"

Yasenias lifted her eyebrow and transmitted her voice to the air so that everyone could hear her. It was the same mellow and attractive voice she had when she had a human-like body. "A shame, not even those childish remarks can work. I thought you would be more interesting than Gerd, but it seems that you will die as meaninglessly as him."

Jaxon was still inside the golden dome, so he didn't have any haste to flee. "Gerd? You killed that egocentric toy?"

Yasenias smirked, "I did. Are you sad one of your playthings disappeared?"

Jaxon laughed aloud, "Stupid lizard, you may not know it, but you doomed your little friend Lucia."

Yasenias lost her smile and approached the golden dome. "So, how strong is this thing?"

Jaxon taunted, "Strong enough for you not to be able to scratch it."

Yasenias went on her hind legs and extended her right arm. The position was very similar to how she usually held the sword. Then, she whispered, "[Draconic Heart], come to me."

From her claw, a red orb appeared. Then, that red orb released a powerful blue aura that soon solidified and became identical to her previous sword. Moreover, it was scaled to match her current body.

Since she was as big as a tiger, once she stood on her hind legs, she was almost two and a half meters tall. A dragon holding a giant sword was quite an imposing sight.

However, even then, Jaxon was still unfazed. "You won't be able to scratch it, Yasenia. It can block even Transcendent-level attacks."

Yasenia smiled, showing her row of sharp teeth, and said. "I know, but your companions aren't as lucky."

Then, she turned toward the other Demons and pointed upwards. Her sword exploded with golden light as she then lowered it. "[Draconic Noon]."

An enormous golden wave in the form of a dragon flew toward them imposingly.

Their faces changed as they deployed various defensive measures.

BANG!

Most of them were destroyed, but the remaining three Demon Counts could block the zero-charge [Draconic Noon]. However, Yasenia hid [Draconic Heart] inside her again and opened her mouth. "[Sun Dragon Breath]."

ROAR!

Another golden wave shot toward their broken defenses before they could rearm them. The Dragon's breath was extremely swift, and they could only raise their weapons in hopes it would be enough defense.

A golden explosion many times stronger engulfed them, killing all the Demons below the Demon Count realm. Those in the Demon Count realm were heavily injured, their bodies trembling with fear.

Yasenia fell to her four limbs and said, "Finish them."

The Demons turned tail and ran, but before they could even leave the sight of the humans, Andrea and the rest slaughtered them like ants.

It wasn't even a battle when our girls ganged up on three Demon Counts; it was an instant assassination instead.

Yasenia turned toward Jaxon and asked softly. "Quite tragic, isn't it?"

Jaxon's eyes burned with wrath as they looked at Yasenia.

Chapter 342: Jaxon's situation. Andrea's previous partner.

Yasenia looked into Jaxon's angry eyes calmly and maintained her gaze on him. "Did you expect this, Jaxon? I've had to be extremely careful because I had enemies everywhere. All because your annoying Demon Race wants to capture me."

Jaxon sneered, "No matter what happens to the Demons in this Secret Realm, the Sky Continent is doomed. There are already Demon Sovereigns in the continent, individuals much stronger than your mother. I wouldn't be surprised if you find out about her death when you return, Yasenia. Therefore, don't be so overconfident because you gain strength."

Yasenia approached the Golden Dome and asked Angel through a mental transmission. "Baby, surround him with formations. I don't want him to escape."

Meanwhile, she spoke to him. "I'm curious, Jaxon. Do you know why your race is so focused on my mother? It appears like they've been targeting me and powers associated with my mom since the beginning."

Jaxon smirked, "Well, from what I've heard, there is a senior that could very well be your father."

BANG!

Yasenia's claw slammed onto the golden barrier, and her eyes thinned. "Jaxon, don't provoke me with those things." Then, her tone became cold, "My mother is mine. Did I make that clear? And those that will have their filthy eyes on her will die, no matter which power they belong to."

Jaxon's face became solemn as he felt pressured even though he was inside the Golden Dome. Yasenia looked at the group of forty humans, and her gaze landed on a particular short woman with brown hair.

That woman felt a chill as those golden eyes clearly locked onto her, and she felt a bad feeling rise in her heart.

When Yasenia's gaze returned to Jaxon, her gaze moved to Andrea as a sinister look crossed her eyes. 'What right did the woman she abandoned to be happy? Why could that disgusting deformed creature be able to build a relationship? She should have rotted with regret for deceiving me!'

Andrea was also looking at Jaxon, trying to prevent anything bad from happening, so she didn't see those eyes that looked at her so nastily. In Andrea's mind, she was an insignificant person, after all. Therefore, she didn't even glance her way.

Yasenia asked curiously, "Are the Tang and Long families allies with your Demon faction?"

Jaxon snorted, "Why should I tell you? Do you think you've got me cornered or something?"

Yasenia laughed, "Cornered? No, of course not. You are utterly trapped like an insect. A sad person that thinks he is the stronger, yet here you are, hiding behind a treasure made to protect you from seniors."

Jaxon's face fell, but Yasenia ignored it and continued speaking. "Do you know how much I care about your life and death? I really don't care about it. You are just a talentless person that is bound to be overcome by me."

Jaxon smashed his fist against the Golden Dome, creating a loud sound, and shouted. "Shut up!"

Then, he said coldly. "You know nothing and don't understand what kind of powers you are facing, yet you are so confident and arrogant. Even if you catch me here, you can't truly kill me. I can wait here until the Secret Realm ends, and then you will die."

Yasenia asked, "The Demons did something, right? They have tampered with the portal one way or another."

Jaxon was initially surprised, but he smiled right after. "So you know that you are going to die. Is that why you are so fearless?"

She looked into his eyes for a while, and a smile spread on her lips. "Pawn."

Jaxon's face sank as he glared at Yasenia.

Yasenia laughed, "So you are just a sacrificial pawn. A useless piece in the board that is bound to die. No... You are not even something like that." Jaxon almost turned off the Dome to fight against Yasenia.

Yasenia, of course, realized that she had struck a nerve, so she dug and twisted. "You were a very proud person the first time we met. You even tried acting before my mother. However, since the letter was lost under your supervision and fell into my mother's hands, letting us know about the Demon Invasion, the other younger generations have stepped all over you, right? Those that come from the Abyss look down on you who grew outside, and after your failure, you have been bullied."

Yasenia guessed that she was hitting the nail on the head since Jaxon's face was morphing with rage. Yasenia laughed aloud, "Poor little Jaxon, were your family included in that bullying as well? Did your relatives suffer? You were very sure that something would happen to Lucia after Gerd's death, so were you speaking out of personal experience?"

"SLUT! I'M GOING TO KILL YOU!"

Yasenia sneered, "I'm waiting. Open the Golden Dome and come kill me, Jaxon." Yasenia walked toward the Dome and leaned on it, looking at Jaxon only two meters apart. "I'm here, poor bullied little demon. I'm here waiting for you to kill me."

Jaxon's eyes were bloodshot as he looked at her. "Since you wished for death so much, I will fulfill it."

The next instant, the Dome disappeared. Yasenia's body began falling forward after losing the support of the protective wall, and Jaxon's hammer was swinging toward her underbelly with terrifying strength and speed.

However, Yasenia was calm as she placed her tail in the most hardened form before the hammer.

Jaxon's hammer swing was similar to a golf swing as it impacted directly with Yasenia's tail.

BOOOM!

Yasenia's feet lost contact with the ground as Jaxon's strength sent her flying backward. Jaxon smiled savagely and was about to follow, only to see the mocking smirk on Yasenia's dragon face as she flew away with only a slight burn on her tail's scales. "Fool."

The next instant, the surroundings lit up with multicolored lights as Angel's cold voice echoed. "Die."

Jaxon was still mid-swing, but there were countless terrifying lasers only a meter away from him. Moreover, they came from multiple directions. Jaxon's face twisted with anger and fear as his spatial ring lit up right before the lasers hit him.

BOOM!

A tremendous explosion rocked the area where Jaxon was before. Angel's attack was extremely powerful, and even Andrea and the rest felt their eyebrows twitch. Those lasers combined were even stronger than Yasenia's dragon breath attack.

Andrea caught Yasenia's flying body as they slowed down slowly. Evelyn asked, "Did you get him?"

Angel frowned and shook her head. "That bad person lived. However, before he used a teleportation talisman, some of my lasers hit him, so he should be heavily injured."

Cecile flew up and looked around. Then, she landed back down and shook her head. "He isn't in the surrounding area."

Yasenia slowly walked back toward them as she said. "Well, I was expecting something like this. Teleportation talismans may be scarce, but he should have at least two or three of them."

Angel pouted, "But I placed spatial lock formations."

Yasenia smirked, "If those talismans are strong enough, it was easy for him to break your formation's restrictions."

Angel harrumphed. "I will make it impossible for them to escape in the future."

Yasenia nodded and caressed her head with her tail, "I'll be waiting for it, baby."

Evelyn sighed, "You even had to act like a spoiled, arrogant bitch to get him out, yet he escaped. What a waste."

Yasenia smiled coldly, "Well, not all of it was an act. Mom is mine, and those who insult her are only worth as plant fertilizer."

Cecile and the others felt the possessiveness in those words and gulped.

Then, they made a silent prayer. 'All those that decided to try your luck with Yasenia's mom. Once she is strong enough, I pray for your safety.'

Kali suddenly blinked, "Speaking of plant fertilizer. Can I use these demons' bodies as such? I have some species inside my ring that need fresh corpses to grow. They are quite picky, and unless they are half-dead or recently dead, they won't eat."

Angel, Cecile, Andrea, and Evelyn felt their fear of this medicine expert grow. 'Plants that need fresh corpses to grow? For what are you using such plants, dear Kali!'

Yasenia nodded calmly, "Sure. Do you need some people from the human group? I can leave them half-dead if you want."

Andrea and the others almost kowtowed, "Mighty dragon, only you could answer something like that!"

The group of humans stiffened. They thought these monstrous women were on their side, but it seemed they were wrong. Kali looked at them and struggled, "Hmm, although useful, I can do without them."

Yasenia turned toward them and looked at Andrea's ex. Then, she smiled and said. "You, the one with the green dress, come forward."

The woman's eyes trembled, and she took a step back. However, in the next second, Yasenia was standing before her. Her heart almost leaped out of her chest. Yasenia said, "Didn't I just speak to you? Why did you take a step back?"

The woman stuttered. "I-I did not offend you. Why are you choosing me?"

Yasenia smirked, "Well, you are my darling Andrea's previous partner, right?"

Her face was drained of color as those golden slit eyes looked at her with amusement.

Yasenia said. "Andrea has spoken to me about what you did to her, what you forced her to accept only for you to keep her secret."

The woman looked toward Andrea and stuttered, "A-Andrea, please help-. Ugh."

Yasenia's tail coiled around her neck and lifted her. Her voice sounded cold and terrifying as she said. "Don't you dare call her by her name, Bai Lian! Do you know that because of you, she grew a Heart demon? The only reason you are not dead is that I want to tell you something."

The woman's terrified eyes looked toward Yasenia as she said. "Thank you."

Everyone was stunned, "Thank you?"

Yasenia smiled and continued, "Thank you for abandoning such a great person and allowing me to find her. Thank you for being stupid and judging her because of her body, unable to see what lay beyond it. Thank you for allowing me to find such a good wife."

Andrea's eyes became tender and misty. She approached them and patted Yasenia's tail. Yasenia looked at her darling and loosened, allowing that woman to fall to the ground.

The woman began coughing and taking deep breaths as she looked upward. "COUGH, COUGH, ugh."

What she saw was the previous terrifying dragon purring as Andrea caressed her head. To her absolute disbelief, she could even notice that lethal tail wagging with happiness because of the scratches!

Andrea turned toward Bai Lian and ignored her face filled with disbelief. "You know. I was always quite insecure in my body. I'm too tall, my body is somewhat muscular, and I even have the two sexes."

Yasenia really wanted to say that she was a perfect sculpture and that many would like to lick every corner of her body, but knowing the situation they were in, she held it back.

Bai Lian's and the other people's eyes widened. Bai Lian said, stuttering. "Y-You, did you just admit to...?"

Andrea smirked, "Yes. I can admit it before anyone without a problem now. Do you know why?"

Andrea looked at Bai Lian's trembling eyes and said, "Because this beautiful dragoness likes me as I am. She takes care of my every need, treats me respectfully, and likes every part of me."

Yasenia nodded, thinking. "What is there not to like? I'm almost unable to hold back pouncing on you every time you smile!"

Andrea sighed as she looked at Bai Lian. "Our relationship wasn't anything like that. After you discovered it, we fought constantly, you didn't let me time for me, and you even used that as leverage to manipulate me. Even then, you told me that you would consider accepting me if I could do all of that. How stupid of me to have followed your spoiled demands for a year straight, thinking things like."

"I can become closer."

"I can change her bad character."

"I don't care about her abuse as long as she loves me back one day."

Yasenia looked at Andrea and rubbed her head on her stomach.

Andrea hugged her with a smile. "I was very silly, right, Yasenia?"

Yasenia smirked, "You were. However, you have me now. No matter how silly, I will take care of you."

Andrea's smile became tender. "Yes, I have you now."

Then, she looked at one of the Unification Realm experts, and he flinched. "You seem to be very close with him, Bai Lian. Doesn't he also have a disgusting thing between his legs?"

Andrea turned toward her and asked with a smile, "Tell me, what is different?"

Chapter 343: Bai Lian's End.

The reason Andrea knew about it was that they had each other Yin and Yang energies, a detail Yasenia had told her a moment earlier.

For someone like our dragoness, discerning something like that was easy and simple. As long as two people had intercourse with each other, Yasenia's [Celestial Yin and Yang Constitution] would be able to discern the mix of energies.

The reason Yasenia told Andrea? Well, this was what she was thinking. 'Little annoying woman, you are finished! You've done the thing that you despised doing with Andrea, and you have no excuses~. Let's see what Andrea thinks of you when you make excuses.'

Well, our dragoness could sometimes be petty like that. In truth, although previous experiences didn't really matter to Yasenia, there was a limit. For example, the first time she knew that Tatyana had plenty of past lovers, she felt conflicted and stifled. How could someone expect loyalty from someone with plenty of past failed romantic relationships? It was not possible.

However, what made her not mind it anymore was that Tatyana's number of lovers was actually not that high. The number of serious relationships she had was actually very few. Of course, because of her age, they were multiple.

However, after Tatyana explained it to her, she knew that her number of real partners was small for someone who had lived as long as her.

It was just a measly nine people.

A senior that is more than one hundred thousand years old has tried to love only nine times. In Yasenia's eyes, that was nothing. It was more than ten-thousands-years per relationship.

It would be not too far off to call Tatyana a virgin in love compared with the majority at her age.

Yasenia also felt compassion for her mother. Since Tatyana was someone that took love extremely seriously, each time those people betrayed her trust, it was as if someone stabbed her heart ruthlessly. Just imagining her silhouette at those times was enough for Yasenia to want to hug Tatyana and hide her in her embrace to protect her from the cold world around her.

Tatyana's tenderness was a fragile treasure that she had to protect. At the smallest push, Yasenia felt that it would break.

That's why she was so against accommodating more people in her harem.

Five women were Tatyana's condition, and Yasenias didn't intend to break that promise unless something unexpected happened that made Tatyana's and her opinion change. That's why Yasenias always said that it would be exceptionally rare for her to increase her Harem numbers.

Yasenias wasn't speaking about sexual partners but real lovers.

Bai Lian's desperate voice returned Yasenias from her deep thoughts. "I-I'm not with him! Believe me, Andrea. I don't know why you suspect that, but it isn't true!"

Andrea looked at her, waiting for her to speak more.

Bai Lian saw Andrea's willingness to listen, so her eyes looked around and then began tearing up, looking soft and pitiable. "A-Actually, I still love you, Andrea. T-The reason I separated from you is that I didn't feel worthy. I wanted you to hate me so that you wouldn't carry any burden. Please, forgive me."

The man's face became ugly, and Yasenias looked at Bai Lian, her eyes flashing with killing intent. However, she restrained her impulse and looked up at Andrea, only to be surprised.

Andrea was looking back at Yasenias with tender eyes and asked softly, "What? Is my love worried?"

Yasenias felt her scaly cheeks heating, and she looked sideways. 'So handsome~! Fuck I want to eat her whole.'

Andrea saw her reaction, and her smile deepened. Then, she looked back at Bai Lian and sighed. "You know, I was expecting you to have grown. However, now I see that you are still the same spoiled and brainless woman."

"B-Brainless? Did you just call me brainless?"

Andrea looked at her coldly and said. "Bai Lian. You will have a chance now. I hope you know how to take it."

Bai Lian didn't know what to say; she had been struck into speechlessness by Andrea's cold face and sudden insult.

Even the day she left her, Andrea still maintained a gentle smile even though her eyes were clearly in pain.

However, those light green eyes that had once looked at her with pampering were now cold, so cold that she started shivering. She felt her chest stuffy as memories of how Andrea treated her nicely crossed her mind.

Andrea opened her mouth to give her that chance Yasenias promised. "All I want from you is one thing. Swear to the Heavens now that you won't use your oath to order me. Then, we can each go our ways."

Bai Lian's eyes widened, and thinking about the plans she had just devised, she shouted instinctively. "Impossible!"

However, the second she said that she wanted to take it back!

The reason?

An enormous pressure descended on her, slamming her onto the ground. She felt like a thousand mountains had fallen on her and her bones began cracking as her body sunk into the hard soil of the Secret Realm.

Then, Yasenia's voice, accompanied by a growl, entered her ears. "Lowly creature, I've wanted to give you a chance to live, but you are poking at my patience again and again. Now, you are refusing to do something as simple as that? You've already devised some shitty plan, right? People like you are the most disgusting, backstabbing people you care about without conscience as long as there are benefits."

Kali snorted, "She reminds me of Alyssa, what a worthless person."

Evelyn nodded, "People like her are truly a pain if left alive."

Angel was about to comment when she closed her mouth out of surprise. "Huh?"

The people in the surroundings had taken out their weapons and pointed them at Yasenia. The previous man had approached and said. "Who do you think you are? We haven't interfered because we thought it was just resolving a small past conflict, but now you want to kill little sister Bai Lian? You are really bold! Our Mountain Peak Sect is not easy to bully!"

Yasenia looked around calmly, and she moved in an instant. Before they could even react, Yasenia's claw was grabbing Bai Lian's head. Then, she said. "Scram, else I will crush her head."

They all stopped as their faces became solemn. The man said with a low voice, "I've heard that the Heavenly Dragoness is someone reasonable, so let's speak."

Yasenia blinked, "You know who I am?"

He nodded, "I was there when you appeared from that black orb."

Angel tilted her head and asked Evelyn beside her. "Evelyn, is he stupid?"

Evelyn let out a small laugh. Then, she patted her head. "I don't know. But it is true that his brain is not working properly."

The man's face twitched. Yasenia muttered, "Well, since they know who I'm, then I have no choice..."

The man asked with a frown. "What are you muttering, Yasenia? Let her go, and we won't have any conflict."

Yasenia asked. "You should know our strength. Why do you insist on protecting her?"

He took a deep breath and said. "Do you think that you can kill and go as you like? We also have our dignity! If you are going to kill her, then you will also have to kill all of us."

However, contrary to his expectations, Yaseia nodded. "Sure."

Then, the world around them changed as hundreds of white sports appeared above her head. Then, Yasenia channeled her energy and commanded. "[Starfall]."

The stars circling in the Galaxy ballooned to five-meter stars and fell toward all the cultivators. Their gazes became terrified as they didn't expect Yasenia to attack directly. They thought that she would give them some face and retreat!

Now it was too late for regret, so they all attacked the falling stars, filling the place above them with numerous attacks.

The attacks collided, and they destroyed plenty of the stars. However, there were only fifty of them against almost four-hundred stars.

The result was predictable.

The sixty remaining stars landed on them and exploded with loud sounds and white explosions.

Screams of pain filled the area.

Yasenia and Andrea had already moved beside the other girls. The results were quite tragic, as only thirty of them remained alive. Yasenia's attack had killed twenty of them!

Then, Yasenia looked at the woman in her claw and smirked. "They've died for you. What a beautiful thing, right? Well, it's time to die."

Bai Lian shouted in her desperation, "Andrea, I order you to save-" Crunch. Yasenia's claw closed, and her head exploded like a watermelon.

Yasenia then said. "Kill the rest."

Cecile and the others disappeared and murdered them all in a matter of seconds. Before the strength of our girls, their strength was truly laughable.

Sierra looked toward Evelyn and said. "Now I know why you told me I will be surprised. They are truly stupid, attacking people stronger than them."

Evelyn looked at Sierra and smirked. "Wouldn't you attack someone stronger to defend me? In truth, it is not that uncommon."

Sierra's blue eyes opened and then relaxed, getting thoughtful.

Kali approached Yasenia and asked, "Why did you kill them all?"

Yasenia looked at her and thought about it. Then, she said. "They seemed to care a lot about Bai Lian. If I killed her and let them live, I would risk creating enemies I don't know about until it is too late. Therefore, I decided to burn the roots before more plants could grow."

Kali looked at Yasenia and asked. "But they were not important enough to become someone significant, right? They are quite weak, and our strength will grow far beyond them in a short while."

Yasenia smiled, "What about their families? Do you think that they wouldn't attack me if they asked for it?"

Kali frowned and then nodded. "You are right. It's just that killing people that have truly done nothing wrong to us didn't feel right. But your logic does hold to an extent."

Yasenia circled Kali and sneaked her head between her legs, making her sit on her back. "Kali. I know that what I did was ruthless. However, you must know that, before any of your safety, not even a million innocent people's lives are enough to deter me from becoming a cruel creature. I won't let any danger go, unlike before. As long as they have bad intentions, they are a threat to all of you and someone I'm willing to kill."

Yasenia felt Cecile's emotions and smiled. "Of course, there are limits. I will kill as long as it brings us less trouble than not killing. In this case, killing them was better for our future safety."

Seeing that they were thoughtful, Yasenia said. "Imagine this. We let them live, and after the Secret Realm, they decide to go to Bai Lian's master. Then the master comes, we fight them, we win, but we let them live again. Out of resentment, the master's elder comes, we fight them, we win, out of humiliation, someone even more powerful comes...."

Yasenia sighed, "The cycle can continue until we face Transcendent Realm experts before we know it. Even if we killed the first master, since they should be important, they wouldn't let the matter rest unless they decided to make an exception. Therefore, I would rather be ruthless, killing forty innocents, and avoid all that trouble."

Kali leaned on Yasenia's neck and nodded. "I understand. It was just that you seemed to have commanded it so lightly that I felt that you did something out of tune."

Yasenia smiled wryly. "I've commanded to kill so many people that I've almost lost respect for life that is unrelated to me. Before, I didn't mind killing. Now I really feel like life is very cheap. The slightest bit of miscalculation, and your life can end before you know it."

Yasenia looked at the sky and sighed, "Our world is very cruel, my loves. We need to be cunning, ruthless, and overbearing to an extent if we want people not to look down on us and bully us. Mom won't be able to save us all the time, so we have to depend on ourselves. It may get dangerous in the future, but I hope that all of you make it through all our calamities. Losing any of you will become a blow I don't know I will be able to bear."

They all looked at Yasenia and felt they had been too complacent after gaining strength.

After entering the Unification Realm and gaining all the treasures they currently had, they felt that they were practically invincible. However, what was Yasenia's choice before an army that they would've been able to kill?

Flee.

Yasenia's choice, even if she had plenty of strength to annihilate them, was to flee. However, it wasn't out of fear, it was a tactic to wait for their enemies to separate and then hunt them one by one.

Evelyn sighed, "To think that I've only now understood why you retreated. Arrogance is truly a silent killer."

Angel was especially affected. After gaining Fu Jing Jing's inheritance, she felt like she would be able to fight whoever she wanted, but Yasenia's words seemed to have slapped some sense back into her.

Remembering how aggressive she had been during the confrontation, she couldn't help but look down guiltily. However, Yasenia's mellow and pleasant voice entered her ears like a melody. "Don't worry, dears. We are strong together. Not only physically strong but also mentally. Together, we can find solutions and avoid disasters. Our family will only grow and prosper, this I promise."

Angel looked up only to see Yasenia looking at her tenderly. Angel's eyes misted as she nodded. "I'll work hard!"

Yasenia shook her head. "Try again."

Angel frowned, but then she opened her eyes and smiled beautifully. "We will work hard!"

Yasenia laughed, "Much better." Angel blushed and smiled shyly.

Yasenia looked across the Volcacion region and said. "Now, dears. Let's find our enemies and kill them. Our hunt is far from over."

They all nodded and put strength in their legs. Then, with an enormous sonic boom, all of them flashed into the distance, traveling hundreds of meters each second.

Chapter 344: Relaxing pause during the hunt.

As they ran across the Volcanic area, they spotted various groups. However, they decided not to bother them. After Jaxon used his spatial Talisman, it was clear that he would be much more cautious.

Therefore, although they were searching for him, they didn't have much hope. As their figures blurred across the land, Evelyn sighed and said. "I don't think we are going to be able to kill him. What a shame."

Cecile shook her head, "Well, we can't be too greedy. We've dealt with Gerd and Andrea's previous partner, so we really don't have that many enemies left. Besides all the Demons we cross, the ones we have to search for are Long Baili and Tang Xian. Do you want to eliminate someone besides those, my love?"

Yasenia thought and actually didn't have enmity with that many people if you grouped Demonic Cultivators and Demons. Yasenia smiled and said, "We've done a good job in not creating that many enemies, so we really don't have that many. However, what about those that were with Gerd in the Tournament? Moreover, since Gerd spoke about Feng Yuan, he might be in the Secret Realm."

Andrea felt doubt and frowned. "Do you really think so? My love, he desecrated the Ritual because of the Demons. No matter what, he should have either died or been imprisoned for life by them. He might even be receiving constant torture."

Yasenia smiled and said. "Who knows? Maybe the Demons helped release him. It shouldn't be that easy when there are people superior to Transcendent Realm Cultivators running around the Sky Continent. He should be a good angry maniac that would try to kill me with whatever method."

Yasenia stopped running, and so did the others. "Excessive confidence is a silent killer. Even if they don't have the strength, who says they don't have treasures that can kill us? I have two of such myself. With them, I can obliterate most of this Secret Realm. Not even the lightning that fell on me would be able to resist it strength-wise."

Angel asked with a frown, "Why didn't you use it?"

Yasenia looked at Angel and asked, "Where did that lightning bolt come from?"

Angel tilted her head, but Kali answered. "Heavenly Tribulation, Angel. Remember that Heaven's "fairness" is proportional to the challenger's strength. If they use external treasures to pass it, it will become stronger. Of course, for normal cultivators, that wouldn't be a problem, and external treasures might help. However, can you imagine what would've happened if Yasenia used those things?"

Angel's face became serious as she nodded. Yasenia licked her cheek, making her exclaim. Yasenia chuckled and said, "Don't worry, baby. Aren't I well and fine?"

Angel hugged Yasenia's head and pouted. "But you were almost killed!"

Evelyn thought, 'More than almost, her body was literally killed. Only her soul remained.' However, she didn't say it aloud because just thinking about the powerful feelings at that time was like a hand squeezing her heart.

The others also looked at Yasenia with worried expressions. 'What will she have to face in her next tribulation?' That was a thought that roamed their minds at that moment.

Yasenia looked at them and could guess why they were so worried. However, she smiled reassuringly and said. "Don't worry. We'll cross those bridges when we reach them. Right now, how about we take a small rest?"

They nodded and moved toward a place with big hills to hide them from normal detection methods.

They all sat on the ground, and Yasenia circled Andrea with her body, resting her head on Andrea's lap. Andrea leaned on the body surrounding hers and sighed comfortably. Yasenia's body emitted energy at all times if she didn't restrain it, and it felt really comfortable. Like the body temperature of your lover for a mortal.

Yasenia looked at Andrea and said softly. "She had it coming. I gave her a chance, but she didn't take it."

Andrea turned and placed Yasenia upside down. Then, she began scratching her belly with a smile. Yasenia purred, and the others couldn't help but approach and participate in the pampering attack.

Andrea looked at her dragoness with a smile and observed the dragon blob she and the others created. A chuckle escaped because Yasenia was really cute right now. Then, she sighed softly and said. "You didn't have to kill her yourself. I could have done it for you. She was my responsibility, after all."

Yasenia snuggled closer and said with a mental transmission as her deep purrs filled the air, "I didn't want to bet on triggering the Heavenly Oath. What if killing her made the Heavens attack you? It wasn't something difficult, so I rather kill her myself."

Andrea nodded and let the matter rest. It was a thing in the past, and Bai Lian was already gone. Therefore, she didn't have to worry about it anymore. Then, she observed the dragoness's belly and lifted an eyebrow as her hand caressed it, "So your low side is golden. It looks really nice, and it is actually very soft and smooth."

Yasenia asked. "Do you like it? Or does it not fit me? I thought my whole body would be like my scales, but my underbelly is different."

Andrea answered, "Very beautiful." The others nodded.

Evelyn said with a strange smile. "To be honest, and I think I speak for all of us, although we don't mind your appearance. I didn't expect to find even this form of yours attractive at a partner level."

Yasenia chuckled, "Really?"

Kali confirmed Evelyn's words. "I mean, no matter what, our aesthetics are more clearly in favor of a human form. However, you are a very beautiful and mysterious-looking dragon, my love. It really attracts the eye in more than one way."

Right after, they saw Yassenia's long tail wag as a smile spread on her lips. Their gazes softened as they looked at Yassenia.

Cecile asked, "What do we do now?"

Yassenia playfully and softly scratched Andrea's face and thought about it. "Since Jaxon will certainly go into hiding, we can forget dealing with him. Let's aim for Long Baidi and Tang Xian. Killing those two will be a big hit for the Tang and Long families. They are practically the hope of the young generation. "

Andrea bit one of her claws and suddenly smirked. "Sure. We will follow what the oldest person in our group says."

Yassenia's eye twitched, annoyed, but she couldn't retort! "I went from being the youngest to the oldest in two weeks. What a low blow."

Angel blinked, "Aren't you the youngest?"

The other's looked at Angel strangely until they realized what they meant. Kali laughed and said, "Right, you are practically a fifteen-day-old baby."

Yassenia liked this even less. 'I feel that if we set my age at fifteen days, it will become troublesome for someone. I don't know why I have this feeling, but it is there. Moreover, I don't like that age!'

Yassenia coughed, "Okay, I'm the oldest at forty-four years old. I prefer this age to the other."

Cecile asked, "Why?"

Yassenia's face became strange, "I mean... If I were truly fifteen days old, you would have to be quite a beast to put a hand on me, right?"

Their faces froze, and then Evelyn said. "Big sister, no, Mommy Yassenia, what should we do next?"

BANG!

Kali observed Evelyn roll away and smirked. "Someone as old and as experienced as you should know the answer. Please answer me." Yassenia's eyebrow twitched, and her tail lashed.

BANG!

Kali landed beside Evelyn, blinking repeatedly. Then, she muttered, "I couldn't even see it coming, yet it doesn't even hurt."

Evelyn at the said looked like a proud parent as she blurted. "Congratulations, Kali. You received your first tail slap." Kali was speechless.

Andrea, Angel, and Cecile laughed at Yassenia's twitching face. Then, they all sat around the belly-up Yassenia and restarted their caresses.

Evelyn asked, "By the way, how are you reaccustoming to us, Yassenia?"

Yassenia turned her neck lazily since she felt comfortable between their arms and said. "After seeing all of you once, I regained most of my slightly blurred feelings. After our first night, I was already

stupidly in love with all of you again. What can I say? My body and soul desire all of you. It is as if you are all imprinted in my very core."

Andrea looked at the dragoness's waist area and didn't see anything. She asked unabashedly, "Where are your genitals, my love? It is all very flat there."

Evelyn nodded with regret, "She is really flat."

Yasenia rolled her eyes. Then, she looked down at her waist area and answered. "Hidden. My scales can part and allow my genitals to be visible when I'm in the mood. I mean, if I had it dangling, it would be quite the weak spot, right?"

As they thought of a sword or something hitting that part, they couldn't help but flinch for her. 'It would really hurt!'

Evelyn asked, "How do you know?"

Yasenia answered as she nuzzled her face on Evelyn's lap. "Do you think I don't know how my body works? Moreover, I've allowed it to happen once. I was also curious, after all."

Cecile moved the hand and approached it toward that area. It was between Yasenia's hind legs, so she, who was seated at her side, could reach it easily.

Yasenia looked at Cecile's hand and couldn't help but ask with a strange face. "What are you doing, my love?"

Cecile saw Yasenia's legs unconsciously opening as her hand caressed that area and laughed softly. "I'm interested. You don't mind, right?"

Yasenia sighed, "I'm beginning to doubt who has the lust problems. Is it me or all of you?"

Kali blinked, "I think your skills are too much for a person not to want to taste them from time to time. That week in the Town made me aware of why the others always seem to wake up soft like cotton."

Yasenia laughed, "Soft like cotton? What does that even mean?"

Kali smirked. "They are like starved beasts that had had their fill."

Andrea snorted with laughter, "I don't want to hear it from you, miss I-lick-Yasenia's-face-full-of-saliva-in-the-mornings."

Kali blushed, and the others chuckled.

Yasenia tilted her head, "But I don't know how it would feel to do it now?"

Evelyn said without shame, "I bet you can obliterate our pussy with your dragon dick."

Yasenia refused to answer, or else she would only feed the fire of pervertedness that was eternally growing inside her dear.

Cecile asked, "By the way, my love. How much time can you hold without sexual relationships? You should have tested it, right?"

Yasenia answered while trying to ignore that mischievous hand that began even pressing. She had to make a conscious effort, or she would really "open" to her!

Yasenia nodded at Cecile's question. "You are correct. I did test it. I can remain without sex and a completely calm head for about a year. After that, I slowly began flirting with other female soldiers even though I wasn't doing it on purpose."

The others listened, their eyes shining with curiosity.

Yasenia said strangely, "Two and a half years in; I was already nearing my limits. More than once, I almost jumped at one woman when she answered my flirts with a hug. However, since I knew how pent-up I was, I resisted until one day, I couldn't hold it anymore. Of course, I had used masturbation for a while now. After all, I had to release the liquid constantly created in my tail's organ."

Evelyn had taken out some cookies and was nibbling on them with the others. Yasenia was stunned. "When did they start eating?"

Evelyn urged, "What happened then? Did you pounce on her like a starving beast and bloated her with your semen?"

Yasenia looked strangely at her. Then, she shook her head. "No. Since I was in that situation, my brain was almost constantly thinking about it. Therefore, I knew that once I began, who knows what could stop me? Since I also wanted to test my sexual capabilities, I moved the small army I controlled then and made ambushes on the enemy ranks."

They stopped playing and listened attentively. Yasenia looked at Kali and said, "Kali, since I wanted to test my limits, I used the enemy females we captured. I don't have to explain how I used them, right?"

Kali shrugged, "They aren't real people. They are just people in the world created by techniques we don't understand. Therefore, you don't have to worry. I can understand that what you did there was let loose of all inhibitions and try everything you could. I bet that this is one of the tamest things you did during your long stay."

Yasenia blinked her reptilian eyes twice and then laughed. "Well, I don't consider it tame. You are right. I won't hold back then."

Chapter 345: Tracking Long Baidi and Tang Xian.

Yasenia explained. "At that time, when I couldn't hold on anymore, I decided to vent my emotions. As I said before, I attacked one of the weaker camps of the enemy country and managed to capture most of them. Our strength surpassed them, so we told them to surrender."

The others listened curiously. Yasenia continued calmly, "I knew the highest authority of that place was female, so that's another reason I attacked them."

"After they surrendered, I picked twenty women, the general, and her right hand from the five hundred prisoners. Then, after placing a sound-canceling formation, I told my subordinates to send them to my tent one by one. I had free time, so I took four days with them to vent my lust."

Yasenia wouldn't explain things in detail since it was quite obvious what happened next. Therefore, she just said the outcome. "Of the twenty enemies, I killed the first twelve, broke the minds of the next seven, and the last two barely remained sane, but they would be addicted to sex for the rest of their lives."

Yasenia looked at them and said, "Of course, those last two were the general of that camp and her right-hand woman."

They couldn't help but gulp. That was quite... Terrible.

Yasenia saw their expressions and said calmly, "I was called the Demon Dragon General for a reason, dears. What I did during my twenty-three years there is worse than most of the things you've probably ever seen. I also found it uncomfortable, but I decided to temper my will as much as I could."

Yasenia sighed, "I wanted to learn how to be ruthless enough for people to fear me and, at the same time, to not lose myself in that cycle of slaughter and evil deeds. Therefore, I went far and above, without holding anything back to see where I would start corrupting."

Evelyn asked after gulping, "Did you use the technique Tatyana gave you on your birthday? That technique to absorb Yin and Yang?"

Yasenia shook her head, "I didn't use it in the first seven and last two. But I did it with the rest."

Andrea asked, shocked. "Wait, you killed people with just sex and without a technique? How?"

Yasenia answered calmly, "Frying their nerves with pure pleasure. I made it so that their nerves would literally die trying to release so many signals. Of course, my Yang energy can seep deep into the mind, so the brain can't just shut off and fall unconscious because I can directly stimulate it."

Angel couldn't help but mutter. "Wow..."

Cecile nodded, "Wow, indeed."

Kali suddenly asked. "Why didn't you use it for the last two? They were the most important, right? Wouldn't it be better if they were dead?"

Yasenia smirked coldly out of habit and said. "They were the leaders of the group we ambushed, so I wanted to use them to help me. They couldn't live without me, so they betrayed their country for me more than once. You see, having someone with influence inside the enemy lines is quite good. Moreover, with my nourishment, they increased their strength fast enough to climb the ranks."

Yasenia chuckled and said. "Even if they were a little rebellious at first, they became good girls after a few sessions under my care. Punishment and reward were administered so that they would be a literal slave to my sexual prowess."

Evelyn felt a strange sadistic aura releasing from Yasenia, and her pants became wet and not of fear. 'Fuck me; she is seductive even in her dragon form. Thankfully, she didn't tell us this story before, or I would have been in trouble... However, I'm jealous; I also want to be trained!'

Even though Evelyn thought as such, even she didn't dare admit something like that. It was very shameful, after all.

Meanwhile, Yasenia's nose twitched, and her head turned toward the rosy-faced Evelyn. Evelyn stiffened as Yasenia sent her a private transmission. "I will also train you later, dear. Don't worry, and wait expectantly for it."

Evelyn pressed her thighs together and gulped. 'I forgot how acute her sense of smell is! She smelled my horniness!'

Anyway, leaving aside a very turned-on Evelyn, their journey continued without any incidents.

After searching high and low for five more days, they finally picked the trail of the Tang and Long heirs. The time that had passed in the secret realm has finally crossed the two months mark!

As soon as Yaseenia managed to pick up a whiff of their aura, it was a matter of time before she could catch them. Yaseenia's sense of smell wasn't only extremely powerful. Her instincts, experiences in hunting groups, and knowledge of the terrain were enough for her to be an extremely fearsome hunter.

If that wasn't enough, there was also Sierra, a Wolf Queen naturally endowed for the hunt, and Cecile.

Cecile had learned under the number one hunter inside Yaseenia's Mortal Maid Division, Clara.

The silver-haired, tanned woman was an expert in everything related to archery, hunting, beasts, and most related knowledge. Although Cecile has only been some months under her teachings, it was enough for the extremely talented Cecile to absorb knowledge like a sponge.

In short, if our girls decided to hunt someone down, good luck escaping!

Only knowing that they were on your trail would give you a chance to escape their pursuit. However, since they didn't realize, Yaseenia and the others traversed the Volcanic area and re-entered the forest area, swiftly approaching them.

With Sierra, Cecile, and Yaseenia at the helm, they followed their scent and other hints and approached their position.

By the time they caught up, two days had gone by.

Fearing that an ambush like the previous one would result in them escaping as Jaxon did, they began hatching a plan once they arrived in the vicinity.

A group of fifteen was walking slowly around the forest. At the helm, a very beautiful woman and a handsome man lead them.

They looked about twenty years old; she wore a graceful white dress, while the man wore a luxurious blue robe.

Tang Xian, the woman, suddenly looked around and whispered. "Brother Baidi, we are in danger."

Long Baidi frowned and looked around. He knew that Tang Xian had one of the most powerful elements, the Fate element, so he didn't dismiss her worries.

"What did you see, Xian'er?"

Tang Xian frowned and said. "I didn't see anything. You know I have the skill [Danger Prevention]. However, I haven't cultivated it to a high level yet. Even then, we could rely on it to avoid the most dangerous places. But now, a very bad feeling crept inside me. It was worse than any other feeling I had had until now."

Long Baidi asked, confused. "Doesn't that skill give you a blurry image of the danger? Can you tell what it is?"

Tang Xian's face became solemn as she said. "That's the main problem, It was more a feeling than a prediction, and when I tried using my fate reading skills to create the image, I felt danger. If I pushed forward and did it, I may have had a backlash."

Long Baidi was surprised since he knew how powerful her Fate element was.

Tang Xian was a rare cultivator who didn't have any other element than Fate. That was extremely rare, even between Fate users. The main reason was that Fate didn't have strong fighting skills, making it difficult for a cultivator to survive and develop. However, since Tang Xian had the luck of being born into the Tang Family, she was able to cultivate it to very high levels.

Long Baidi asked her. "Do you think that other cultivators are targeting us?"

Tang Xian nodded, "That's the most probable. Although this Secret Realm has many dangers, it is relatively safe for Unification Realm cultivators like us. Therefore, someone must be targeting us."

They had been posing as some sacred Holy son and daughter since they appeared in public, so they were quite well received in general. They had very few enemies besides the other noble families.

Long Baidi got thoughtful, "Who do you think it is for them to give you such a bad vibe?"

Tang Xian pondered, "I can only think of a few. Jaxon, Gerd, Isla, the Dragon Princess... Not many more, to be honest."

She listed a total of twelve names, the beast heirs like Laurina included.

Long Baidi frowned, "I would not count the beasts. That leaves us with Gerd and Jaxon. After the face-off, they saw that we had changed sides and supported Isla, so they must have thought we betrayed them. Maybe they are trying to kill us?"

Tang Xian said after thinking, "It probably is Jaxon. Gerd is strong but isn't strong enough to give me this fear."

One of their followers, someone who also was in the Unification realm, asked. "Maybe we are being followed by Yasenias. They are also strong, right?"

He hadn't been with them at that time, so he hadn't experienced Yasenias's aura. He only heard rumors like Yasenias could blow tribulation clouds and things like that. Of course, he treated them as exaggerations, but he also didn't dare underestimate her.

Tang Xian's face became twisted with hatred for a second but relaxed before anyone noticed. Then, she said coldly. "That reptile is not strong enough to make me afraid."

The man wanted to say something, but Tang Xian's piercing gaze stopped him. He just lowered his head and listened to them.

Long Baidi frowned, "We should leave either way. Yasenias has her little fuck toys, and they are quite strong. Jaxon himself is very strong, so we should also be wary."

Tang Xian didn't nod or shake her head, but her feelings about the matter were obvious. Nevertheless, she wouldn't disregard her own feelings, so she said. "Let's go that way; we've gained plenty of items, so we can relax in the town these last days."

However, an enormous pressure fell on them from above before they could leave or move.

All of their eyes opened in shock as they looked upward.

There, a dragon was flapping her wings majestically. Each time her wings moved, they left behind a white glow, as if constellations glowed whenever her body passed.

Her starry-blue scales and the Moon and Sun on her wings were striking and had the mysterious beauty of a night sky full of stars. Those golden eyes that looked at them indifferently made it more than clear who the person flying above them was.

Long Baidi glowered and shouted, "Yasenia! You are too confident appearing here alone!"

Yasenia used her wide spiritual range and communicated with them; her voice was laced with mockery. "Too confident? Even after that event, you keep underestimating me? I thought that you would be a little smarter even if both of you have feces as a brain. It seems that I was wrong."

Tang Xian's attitude became solemn as her tone turned holy and saintly. "Yasenia, you should know that I'm the most powerful Fate Cultivator of the younger generation. However, I fear to tell you that your future is not good."

Yasenia's slit eyes turned toward her, and a smirk appeared on her lips. "Hoh~, I'm curious. Then, Tang Xian, how about you tell me my Fate?"

Tang Xian sighed and said, full of compassion. "I can see your Fate. Now that you've become a beast, you will no longer be allowed to remain beside your loved ones. They will eventually leave you, and you will remain alone. No matter what, a beast is incompatible with humans."

Yasenia slowly descended from the sky, landing only one hundred meters away from them. For Unification realm experts, this distance was basically the melee range.

Yasenia looked at Tang Xian indifferently and said. "You can read my Fate? My dears will leave me?"

Tang Xian smiled and nodded with pity, "Even though we are enemies, I can only warn you. You should cut your ties with them before it is too late and becomes too painful."

The group of fifteen behind them exclaimed, "Holy daughter Tang Xian is benevolent!"

"How could Yasenia fight against someone so pure!? If she dares attack her, my next meal will be dragon meat!"

"Even though Yasenia wants to kill her for being too outstanding, she still warns her! What a compassionate heart!"

Yasenia smiled coldly and said. "You've trained your little dogs quite efficiently. However, your shamelessness is getting too out of hand, don't you think? To say something like, you can read my Fate... I can only laugh."

Tang Xian felt the danger before getting stronger, so she sent a small signal to Long Baidi. However, she still said. "No matter if you find it difficult to accept, you shall cut your ties with them before it is too late!"

From the forest, a cold voice resounded. "What a load of bullshit. Did your Fate skills also see this?"

Then, the surroundings lit up as an enormous glass dome appeared, surrounding almost two kilometers around them. That wasn't all. The surrounding forest seemed to become alive as dozens of Plant lifeforms appeared and surrounded the fifteen-human-group.

Then, from the forest behind Yasenia, Angel and the others walked out, their faces extremely cold. Evelyn sneered. "I bet you didn't see this coming, miss Fate user. However, you don't have to fear getting it wrong again. After I'm done with you, you won't be able even to open that disgusting mouth of yours."

Tang Xian's words had triggered our girls, and they were out for blood!

Chapter 346: Yasenia's group vs Tang Xian's and Long Baidi's group.

Tang Xian's face changed; she had felt that they were in danger, but she hadn't expected them to sneakily build a formation around them. Now, they could be said to be inside Angel's domain.

The eyes of Tang Xian's group landed on Angel, knowing that she was the one setting up this formation. Since they were Long Baidi's and Tang Xian's subordinates, they had information on Yasenia and her wives.

Long Baidi asked, "What is the meaning of this, Yasenia? Tell Angel to destroy this formation and let us go. You will regret it otherwise."

Yasenia walked toward them, unbothered. Her steps were elegant and slow, her dragon body and tail swaying beautifully. "You see, there are some people I want to eradicate, and sadly, you two are on my list."

Yasenia looked at the other fifteen and said. "I recommend not siding with them. As long as you go to the side and don't interrupt us, we will let all of you live."

Tang Xian's expression became dark as she said aloud. "Don't listen to her; she is lying! She wants to deal with the two of us first and then kill all of you when you've lost our support."

The fifteen people listened to Tang Xian and approached their side to fight against Yasenia's group. Since Mirrory and Valeria were not summoned, Yasenia's side had fewer people than them.

Long Baidi looked at Yasenia and sneered. "Yasenia, we are not easy prey. Our subordinates are all in the Unification Realm, not to mention both of us, who are on the second level! You have no chance."

Yasenia looked at him and narrowed her eyes. "We have no chance?"

Then, Yasenia swiped her claw toward them, activating [Moon Dragon Claw].

A phantom claw identical to hers appeared in the sky but many times bigger. The claw was almost fifty meters long, and the energy inside of it was extremely high.

Long Baidi used his darkness and light element to activate a defensive skill. Tang Xian retreated and created distance. Her specialty was ranged attacks using her Fate attribute and a bow.

The others didn't interfere since they wanted to know their gap in strength.

BANG!

Yasenia's casual attack collided with the light and darkness shield, creating a powerful explosion. The defensive skill wobbled as if a big rock was thrown into a lake.

Long Baidi felt like a heavy punch landed on his chest, making him frown and stagger one step back. 'Strong!'

The other fifteen gained solemn expressions as they looked at Long Baidi's defensive skill almost shattering in a single blow. Yasenia said calmly, "Not bad. Your strength is truly extraordinary. A normal Unification Realm expert may have been blasted flying with that hit."

Long Baidi laughed coldly, "If this is all you have, then I can only laugh."

Yasenia smirked. "How could that be my whole strength? Let's see how you deal with this. [Moon Dragon Breath]. ROAR!"

Yasenia opened her mouth and roared, shooting a silver beam toward Long Baidi. Long Baidi's smug face changed as she saw the attack approaching. Then, he used one of his innate skills. "[Dark Light Flash]."

He slashed toward Yasenia's breath attack, and a black light crescent shot speedily toward Yasenia's attack.

BANG!

Both attacks collided, and Long Baidi's attack shattered into countless particles while Yasenia's dragon breath continued forward, weakened. The remaining of Long Baidi's previously set defensive shield received Yasenia's attack head-on, and with another loud explosion, both of them disappeared.

Yasenia smirked. 'He is not bad; I can see why he was nurtured so much.'

Long Baidi exclaimed, "You are not that powerful, after all. I knew that we should've attacked you once we discovered your identity!"

Yasenia blinked, 'I haven't even used a single strengthening skill, and he is already so high and mighty? Hmm, maybe he has no combat experience...'

Tang Xian couldn't hold any longer and raised a pure white bow. Then, she shot more than ten arrows in an instant.

Yasenia saw them coming and moved to the side, trying to dodge, yet the place she escaped to appeared to be where the arrows were actually heading. 'Hmm, Fate-attributed enhanced arrows. They should be difficult to dodge.'

Tang Xian's smile widened for a second. 'Stupid lizard, did you think you could escape my attack?'

However, before Yasenia attacked, ten silver lights flashed from behind her.

Tang Xian's smirk froze, and the other people's eyes widened when those ten silver arrows hit Tang Xian's white arrows with pinpoint accuracy, canceling her attack.

They looked at the aloof Moon Phoenix holding her crystal bow and couldn't help but become extremely wary. How difficult was it to hit arrows in the air with other arrows? Not to mention that these ones were enhanced by the Fate attribute. Cecile's bow skills could only be described as monstrous.

Suddenly, Long Baidi took the chance of Cecile's display of skill to flash beside Yasenia at extremely high speeds and swing his sword toward her throat.

Long Baidi smiled, thinking that his surprise attack was successful. However, when he looked at Yaseenia, a pair of slit golden eyes were directly looking at him extremely calmly. So calm that it looked emotionless.

Long Baidi's spiritual sense caught something coming from the side, and with a twist of his waist, he managed to redirect his attack.

CLANG!

He blocked with the sword, but the impact was tremendous, sending him flying hundreds of meters. Long Baidi looked at his arm and saw that it was trembling because of the collision.

When he looked up, he saw Andrea standing beside Yaseenia in her full body armor, holding her halberd. Andrea's voice was heard next. "Little man, trying to sneak attack her is not very wise. How about we trade some blows?"

Without waiting for Long Baidi's answer, her figure blurred as she appeared before Long Baidi in the next instant. Her halberd was already slashing toward him, wanting to chop him in two from above.

Long Baidi's eyes became murderous as he shouted. "[Dark Light elemental Armor]!"

A black and white armor covered his whole body, and he slashed toward Andrea. His sword was also covered with those colors, and its strength made the air compress and exploded continuously.

Andrea's eyes narrowed below her helmet. "[Descending Solar Strike]."

Her halberd shone with golden light as it released scorching temperatures.

BOOM!

Their attacks collided, and they both took five steps back. Andrea's mouth beneath her helmet curled as she muttered. "Interesting."

However, Yaseenia said. "Darling, let me fight him. I want a somewhat strong opponent to temper myself."

Andrea nodded and retreated. Then, Yaseenia turned toward Cecile and the others. "Cecile, maintain Tang Xian busy or kill her if you can."

"Angel, don't participate in battle; overlook everything and interfere as you see fit."

"Evelyn, Andrea, go fight against the fifteen cultivators. Kali, Sierra, you support them."

"Valeria, Mirrory, do not participate, and let us gain combat experience."

"Ebirah, try helping from a distance, but don't push yourself. It is normal you can't fight at the moment because of your low cultivation, so focus on defense."

All of them nodded and charged toward the others. In a second, the area inside the glass dome covering the sky was filled with countless explosions, attacks, and fighting sounds.

Yaseenia looked toward Long Baidi and smiled. "Well, now it is you and I. How many hits will you be able to resist? [Celestial Dress]."

Yaseenia's already powerful aura ballooned and exploded outwards. Around her, a white, translucent armor with constellation-like patterns hugged her dragon body.

Long Baidi's expression changed when he felt Yasenias monstrous aura. However, he couldn't even open his mouth when his danger bells rang. He slashed to his right instinctually.

However...

BOOM!

He felt as if a mountain had hit his sword, and his body flew backward. He used his spiritual sense at its limits and sensed Yasenias overcoming his flying body and stopping behind him.

His eyes flashed with fright, and with tremendous effort, he twisted his body mid-air to meet Yasenias follow-up attack.

This time, he saw it more clearly as Yasenias tail swung toward him, leaving a starry trail behind it.

BANG!

Sword and tail collided. Right after, the monstrous bodily strength of the Dragon made him flip more than ten times until he slammed into the ground.

Yasenias moved again, and her figure approached Long Baidi. However, a pillar of darkness exploded from Long Baidis landing spot. Yasenias saw a shadow shooting from the small crater and focused her eyes.

Her pupils thinned to lines as she saw Long Baidis skin filled with black artistic tattoos. 'A berserk skill?'

Yasenias swung her claw and met Long Baidis attack.

BOOM!

Another explosion resounded, and Yasenias took two steps back while Long Baidi took ten. Yasenias was honestly impressed. Her current body was as hard as a heaven-ranked treasure, and her strength surpassed normal Unification Realm cultivators by a mile. Her punch would be able to turn them to mush even without using skills.

[Celestial Dress] enhanced everything, including physical strength, so for Long Baidi to be able to move her was impressive.

Yasenias asked. "Is that your trump card?"

However, Long Baidi didn't answer as his eyes were trembling with shock. "H-How did you block that attack!? My current strength is approaching a level five Unification Realm cultivator!"

Yasenias looked at him indifferently and asked again. "Is that your strongest trump card? If so, you have no chance."

Long Baidis face twisted, and he lunged forward at Yasenias again. "I'll kill you!"

Yasenias looked at his approaching figure and said, her voice resounding kilometers around them. "Let's end with the games here. [Empyrean Dragon Authority]."

For Long Baidi, it was as if the sky had fallen on his shoulders.

His figure slammed into the ground as his soul quivered with fear. Yasenias aura was like a hand pressing down on him, and soon, his bones began cracking. "GAHH!"

The other fights stopped at that moment and looked in their direction.

Yasenia slowly walked toward Long Baidi as her aura pressed on him from above.

Although humans didn't feel Bloodline suppression as much as other races, Yasenia's upgraded [Empyrean Dragon Authority] overturned this fact.

When Yasenia activated this skill, her bloodline pressure affected every living being equally.

When the Dragon's authority descended, everyone could only lower their heads before their might. That's why they were called the strongest race. That's why they were able to crush those in the same realm.

The other cultivators would always be at a disadvantage in front of a dragon who had awakened its innate aura!

Yasenia reached Long Baidi and looked down at him. His eyes showed enormous resentment and malice as he glared at her.

As she observed Long Baidi's indignant eyes, she slashed downward with her claw. "Die."

However, before she could kill him, her spiritual sense caught an extremely powerful white arrow flying toward her. Yasenia's danger alarms rang as she felt a threat to her life!

Yasenia's expression became solemn as her aura burst from her, blasting Long Baidi away.

Then, she turned and gathered all her energy in her claw. Following that, she summoned [Draconic Heart] in the form of her claw. Next, she slammed her claw toward the ground. All of this happened in an instant. "[FULL MOON]!"

As soon as Yasenia's claw slammed onto the ground, a silvery explosion covered her and materialized in a fifty-meter dome around her.

Then, the arrow arrived before [Full Moon] and impacted.

BOOOOM!

Cecile's and the other's expressions changed when they saw Yasenia's [Full Moon] exploding into pieces and the arrow barely slowing down.

Yasenia's expression became ferocious, and she roared. A golden beam left her mouth as [Sun Dragon Breath] shot outward."

Yasenia's dragon breath and the arrow met. Like a hand splitting water, Yasenia's dragon breath opened, being split by the arrow. The arrow pierced all the way through and arrived before Yasenia.

Without any other option, Yasenia placed her wings before and used [Celestial Dress] to increase her body defenses to the limit.

BOOOOM!

Their expression changed as they saw Yasenia being blasted away without control. The scales in her body filled with cracks as blood flowed out of her mouth.

BANG!

Her speed was so high that before they could even shout, Yasenia's body smashed against the formation dome and then rebounded, finally landing on the ground. Yasenia groaned, 'Fuck, she almost got me.'

The previous pressure [Empyrean Dragon Authority] exerted diminished a whole lot, allowing most of them to breathe normally again.

However, Cecile and the others turned their angered gaze toward Tang Xian, but instead of an elated expression, there was only shock on Tang Xian's face. "H-How are you alive? My [Fate Ending Arrow] is close to the strength of a high-level Unification Realm expert blow! It is impossible for you to survive it!"

Yasenias slowly stood up, and Kali appeared beside her. Then, she began healing Yasenia with all her skills. Yasenia looked at Tang Xian and narrowed her eyes. "You don't have any more energy. That attack of yours consumed everything..." Yasenia shook her head and said to the others, "I was careless. Kill them all, and be careful. They may have other trump cards, especially Long Baidi."

Then, she lay on the [Flower Bed] below her as Kali's life energy restored her broken body.

Chapter 347: Intense Fight! Their strength.

Cecile felt horrible at the moment. Yasenia's injury was basically her fault for not maintaining Tang Xian occupied. The aura explosion of [Empyrean Dragon Authority] was so strong that it took her attention away from the battle for some seconds.

That amount of time wasn't long, but in a battle like theirs, it gave Tang Xian enough time to prepare her trump card.

Yasenias current body was filled with cracks, and blood seeped from those wounds. She was able to spread the strength evenly across her whole body with extremely good technique, preventing the arrow from piercing her claw. However, the result was as if a bomb exploded inside of her.

Thankfully, her internal organs and other structures were extremely resilient, so Yasenia just needed ten minutes of rest. With the [Flower Bed] and Kali's healing, that time was reduced to less than a minute.

Kali wasn't only healing Yasenia. Every chance she had, she would summon four treants, an archer dryad, and a caster dryad, sending them to the battlefield.

The summons couldn't kill the cultivators by themselves, but it gave Andrea, Evelyn, and Sierra enough breathing room to weave between the attacks of the fifteen Unification Realm cultivators.

Moreover, her supportive [Root Walls], [Entangling Roots], and [Fatal Thorn Field] were extremely effective in the battle against multiple enemies.

With Kali's help, Andrea could approach their ranged attackers and release a barrage of attacks, looking like an imposing War Goddess.

Evelyn used her speed to appear beside those that lost balance after clashing with Andrea's strong attacks, always managing to injure them. Evelyn's spear was like a roaring lightning eastern dragon as she swept, stabbed, slashed, and spun it.

Meanwhile, Sierra used her powerful body and a literal lightning rain to keep five of them in check.

The main reason Andrea and Evelyn could fight against so many Unification Realm cultivators was because of their foundation and equipment.

Yasenia's nourishment was truly like a miracle, and if their enemies' energy was like water, theirs was like mercury.

Moreover, Andrea's [Star Born Searing Flame] and Evelyn's [Storm Roaring Thunder] were extremely powerful. They made their attacks multiple times stronger, showing off the power of Natural Treasures.

Sierra was a beast with the word "Queen" in her bloodline, so she couldn't be weak even if she wanted to. Her bodily strength was naturally above a common beast, and her control over lightning was nearly stronger than that of Evelyn.

Angel was overlooking the battle, shooting Lasers through her dome whenever someone tried to sneak attack one of them. Fighting within Angel's glass dome was extremely frustrating because it really felt like they were being controlled around by her, forcing them to attack with certain patterns.

Her control over formations also let her double-cast and slowly create [Glass Golems], sending them to the battlefield.

Meanwhile, Cecile was fighting against Long Baidi. The main reason was that he was protecting Tang Xian, and Cecile's eyes carried murderous intentions toward her.

Angel thought about attacking Tang Xian with her formations, but since doing so could force them back to a corner too fast. She decided to leave it to Cecile for the moment as she prepared a powerful one-hit one-kill attack.

Long Baidi was somewhat hurt because of the fight against Yasenia. However, the injuries didn't affect his current strength. Even then, the phoenix's continuous attacks didn't leave him the chance to close the gap between them and attack.

Cecile tensed her crystal blue bow. Then, a silver arrow appeared in it, shining powerfully and releasing a bright glow. In the next second, Cecile aimed at Long Baidi and relaxed her hand.

The arrow flew out of the bow with a visible shockwave as her cold, and indifferent voice spread in the surroundings. "[Flashing Moon Arrow]."

Long Baidi's expression changed, and he raised his sword quickly. Then, the arrow hit his sword.

BANG!

Long Baidi felt as if her arm was about to be torn apart by the arrow's strength, and he lost balance. He took tens of steps back until he finally managed to kill the momentum. However, right after that, Cecile's voice reached him again. "[Moon Shredding Shot]."

This attack was much more powerful than the previous one as the silver arrow tore the air with sharp wind blades surrounding it.

The spiral of wind and Moon energy arrived before Long Baidi in the form of an arrow almost in an instant. Long Baidi could only activate one of his trump cards. "[Dark Light Body]!"

Light and darkness exploded in a pillar, creating a protective aura around him. Similar to before, his visible body was covered in tattoos. This time, they were black and white instead of just black.

He swung his blade and met the arrow frontally.

BOOM!

The arrow's power pushed Long Baidi back ten steps, but he maintained his balance. Then, he put strength in his legs and pushed forward, lunging toward Cecile extremely quickly.

However, Cecile smirked as she said. "Haven't you forgotten about someone?"

Long Baidi's eyes opened as he turned swiftly. However, what he managed to see was a ten-meter-wide laser falling on top of Tang Xian and the woman looking up with resentful eyes as if unwilling to fall there.

"Xian'er!"

BOOM!

The laser devoured Tang Xian's spot and then exploded with extreme might. Yasenya looked at the effects, and her lips twitched. 'That's too powerful. It almost approaches that arrow's strength. It is certainly weaker, but not by much.'

The fifteen cultivators got distracted by the enormous explosion and looked over. However, Evelyn, Kali, Cecile, Angel, and Andrea took the chance and sent a barrage of attacks toward them.

The face of five of the fifteen injured Unification Realm cultivators changed as they felt death looming. They tried to dodge or create defensive measures, but it was futile.

Three roots that appeared from the ground squeezed around one of them, and then thorns exploded from them, creating countless holes in him. The thorns then released lethal poison, basically melting him into a puddle not long after.

Another laser fell on another cultivator, slightly weaker but not by much. He was somewhat prepared and created an energy barrier above him. The laser slammed on the barrier, destroying it and slamming on top of the cultivator. He screamed in pain, but the barrier allowed him to live.

However, although he blocked the laser with difficulty and survived, a glass golem jumped from a blind spot and hugged him. The last thing he saw was the multicolored light created by [Golem Explosion].

The third victim was maybe the luckiest since the death was almost instant. Cecile's arrow flashed extremely quickly and pierced the forehead of a female cultivator. She didn't even know what hit her before the light left her eyes.

Andrea's attack was probably the most painful. She basically drowned one of the cultivators in a magma pillar. The pain of being flooded and cooked to death was one of the worst death one could have. Thankfully, the unlucky woman didn't take long to die under Andrea's ruthless attack.

Evelyn used her Thunder Soul to enhance her [Luminous Spear Throw], sending a white spear with black lighting around it toward one of the cultivators. The attack landed on his chest since its speed was similar, if not faster, to Cecile's arrow. The Luminous Spear created a charred hole where his heart previously was, killing him on the spot.

These attacks landed simultaneously and ended the life of five cultivators instantly. Even Sierra couldn't react because she lacked training and cooperation with them.

Long Baidi's eyes almost spat fire because of the rage he felt. However, he took a deep breath and said. "I see that not even fifteen Unification Realm cultivators are enough. However, don't become comfortable. We'll be back-."

BANG!

A golden claw slammed on his back, creating five gashes so deep the bone was visible. Moreover, Long Baidi's body was thrown forward without control, colliding into the ground and spitting blood.

Yasenia's attack had landed squarely on his back, and the monstrous strength of the dragoness had cracked his bones and ruptured his internal organs.

However, Yasenia frowned. 'I felt that my claw boosted by [Draconic Heart] was about to pierce through his defenses. Why did they suddenly become so hard?'

Yasenia didn't take time to think about it and shot toward him, trying not to give him a chance to breathe. 'I have to slash his spatial finger off. Otherwise, I don't know how many Life-saving treasures I will have to go through before I kill him.'

Long Baidi was dizzy from Yasenia's attack. However, he didn't lose time and activated a teleporting talisman of high grade.

Yasenia's speed rose to the limits, and she arrived before him again.

SLASH!

Blood flowed as a body part flew too high up in the air. However, Yasenia's expression was grim because the person before her had disappeared. "He escaped."

Yasenia managed to slash his arm off before he left through the spatial talisman. However, at least she managed to get his spatial ring. Yasenia flashed toward Long Baidi's arm and picked the golden ring from the finger.

As she did so, she turned and looked at the cultivators that were left. There were only three of them remaining. Andrea, Cecile, Kali, Angel, Evelyn, and Sierra assaulted them without mercy, and soon they also fell.

Yasenia moved toward the crater created by Angel's attack on Tang Xian and swept her spiritual sense across it. Yasenia shook her head and sighed. "They are as resilient as cockroaches. She also isn't dead."

Yasenia looked up, and her eyes gained resolution. "If I find any of them, they would have no escaping possibility. We'll have to move relentlessly. Moreover, they are heavily injured, so healing will be difficult, especially for Long Baidi since he doesn't have his spatial ring."

Yasenia allowed her energy to touch Long Baidi's ring, but it was locked with powerful formations. It was normal; her ring also had something similar. Unless Long Baidi were dead, Yasenia would need a powerful Formation Master to unlock it.

Angel and the others arrived at her side, and Yasenia observed them. They all were somewhat weary of the fight, but besides some scratches, they had no injuries. This made her extremely happy. Seeing how strong her dears truly were was a delight that filled our dragoness with the purest of joy.

Yasenia's tail wagged as she asked. "How do you feel after your first real battle together? Before this, they were practically skirmishes. This one had some difficulties, so you should be able to evaluate yourselves properly."

They looked at each other and pondered seriously for a moment. Then, Andrea spoke. "I think we would be able to deal with more than double these numbers. Although we fought mostly without holding back, Angel, Kali, Valeria, and even Mirrory didn't participate. You were also out of combat for a while and didn't even use your Domain, so if we used our trump cards and items, we could fight and kill at least twice as many."

Yasenia lifted her eyebrow, "At least? Then, at most?"

Evelyn spun her spear and pierced it into the ground. "At most? Humph, I would not fear fighting against one hundred cultivators of similar strength to them if we were together."

The others looked Yasenia directly in the eyes and nodded.

Yasenia laughed proudly, "Good! Your estimates are not too far off if we take into account that Unification Realm cultivators are as strong as them. Even if there is a strong cultivator every twenty Unification Realm Cultivators, if we go all out, we don't have to fear fighting even against one hundred of them!"

Then, while all of them were smiling, Yasenia suddenly asked. "So? How many treasures did we get?"

They all looked speechless at the money-grubber expression Yasenia currently had.

Chapter 348: Tang Xian and Long Baidi's situation. The end of the Secret Realm is near!

While Yasenia and the girls counted their spoils, Long Baidi and Tang Xian appeared very far away. They were in the vicinity of the mountain Evelyn was in the past. It was the place they marked for their life-saving treasures to transport them to in case of an emergency.

Since they were the successors of their respective families, they had three life-saving treasures each. A spatial treasure, a defensive treasure, and an attack treasure. In their fight against Yasenia and the others, they consumed everything except Long Baidi's attack treasure.

However, even though their protection treasures activated, they would only activate when the damage was enough to become lethal. That's why Yasenia's attack managed to injure Long Baidi so badly before it activated.

What did this mean for Tang Xian?

Well, at the moment, the woman was screaming like a shrew with a voice laced with pain, anger, and madness. "I am going to kill that beast! My face! My face!! AHH!! I want to eat their flesh!"

The protection treasure and teleportation treasure activated while Angel's attack hit her, so her skin, hair, and robes were burned extremely badly. The result was a deformed face that would make our dear Fox's scars look like small deformities.

She looked horrendous, with her skin melting in some places and bubbling in others. Thankfully or not, depending on which side you were, these wounds weren't enough to kill her. Moreover, Tang Xian still had her spatial ring, so she had some healing treasures with her.

Long Baidi looked at Tang Xian and his face twisted with disgust. Although they were fiancées, he wasn't someone who would support Tang Xian in this situation. The anger from losing his ring and arm, receiving grave wounds, and the rage burning inside him formed an extreme dislike toward Tang Xian. 'Why didn't her attack kill Yaseña? Why was she so stupid and screaming like a shrew? Isn't she a Fate user? Why couldn't she predict all of what happened? Those people she recommended were useless.'

Those thoughts circled inside his head, feeding his ego as he convinced himself that everything that happened was Tang Xian's fault. However, he wasn't incensed enough to snap at Tang Xian yet because he could feel that the protection in his ring wasn't broken yet.

As long as this protection remained, he would be able to recover everything in the future.

He looked at the woman screaming profanities and said with a flat tone. "We've underestimated her because we had the [Demon Golden Nail] with us. However, we've used both of them, and it didn't even protect us fully."

Tang Xian took out a lot of medicinal salves, pills, and incense and smeared them over herself.

After she gulped them down and felt her body healing, she continued screaming like a deranged person.

"Fucking shitty treasures! Aren't they Transcendence Ranked treasures!? Why am I burned? Why could she burn my perfect face!?"

Long Baidi was getting annoyed.

He was already mad about the wounds he received and losing his ring, only to have this woman screaming at him as if he owed her something. "Tang Xian, stop screaming and relax for a second. We-"

"Relax!? How can I relax when they are still alive!? I'm going to send thousands of men to ra-"

Long Baidi's patience snapped, and he shouted. "SHUT UP! So what if we had the treasures!? She slammed us around like ragdolls! Your fucking arrows were so weak they couldn't pierce her scales! Useless! Not even your enhanced attack by the [Ending Fate Arrow] could kill her!"

Tang Xian's eyes opened wide, and her face morphed with rage, making her face even uglier. "HUH!? You dare blame it on me!? How would I be able to shoot when your fucking weak ass couldn't maintain her in place! Moreover, I had that arrogant woman shooting arrows at me constantly! If her pressure didn't slam you to the ground, I wouldn't have been able to use the arrow! If one of us is useless, it is you!"

Long Baidi shouted back. "At least I could fight back against her! On the other side, you were like a leaf in a storm, thrown around by that weak Phoenix as if you were a leaf in a storm."

Then, he sneered. "You should stop speaking and gesturing around, else that disgusting face of yours will become permanent."

If Tang Xian's eyes could spit fire according to her anger, she would have flamethrowers as eyes at that moment. Therefore, she said something she shouldn't have out of pure rage. "You fucking impotent man! You only have a pretty face and a tiny cock! I can only satisfy myself after fucking your friends! So you better shut your mouth and follow behind me like the good dog you are!"

Long Baidi's eyes opened wide, not believing what she had just said. Tang Xian seemed to wake up after seeing Long Baidi's expression, and her heart dropped. However, since she had started, she stupidly went all the way with it.

Her mouth arched in a mocking smile as she said. "Why act so surprised? Did you really think you could satisfy me? You are just a-"

BANG!

Long Baidi's fist met with Tang Xian's healing face, splitting the delicate skin on her face and throwing her away.

Tang Xian didn't expect his punch.

Although Long Baidi was an asshole to others, he actually treated Tang Xian decently. Therefore, this punch was extremely out of character for him.

The woman looked at him with a bewildered expression. 'H-He hit me? W-What?'

Long Baidi's tone was so cold that it would give chills to anyone hearing it. "Go fuck yourself, retarded woman. I will go on my own for the last two weeks. Also, our family alliance will end as long as I gain the title from my father."

Tang Xian reacted and shouted somewhat anxiously. "W-Wait! You can't leave just like that."

However, under her very eyes and extremely injured in both heart and body, Long Baidi used his movement technique and vanished from the spot. He didn't even listen to her excuses. Not that someone would've to listen after their partner put a green hat on them without their consent.

The situation was very different from our dragoness's situation, after all.

In the forest area, our girls were moving around, trying to find more people they had enmity with. However, they didn't seem to have more luck and only found a bunch of stranded Demons.

Their treasure number in the Heaven rank was already in the hundreds. Yasenia couldn't help but sigh. "Truly, the path to becoming rich fast is robbing. How much time would it take to make this with normal means? Not to mention, our resources can only be measured with tens or even hundreds of tons."

Evelyn said it quite bluntly. "We are fucking rich."

They all nodded. Kali commented, "With the new formation, alchemy, and blacksmithing knowledge we take back, the Academy will be able to become much stronger."

Evelyn nodded. "Yes. Sadly, there weren't many techniques in tailoring. But I think I managed to get a lot of nice designs to make clothes in the future."

Yasenia asked because she was quite clueless about Spirit Tailoring knowledge. "Won't you need the designs to have a certain capacity for energy? Tailoring is similar to formations but on clothes, right?"

Evelyn nodded. "Yes, However, although the design is important, the patterns for energy circuits are embedded in the threads, so with enough skill, you don't have to worry too much about the shape of the clothes."

Yasenia looked around and sighed. "It doesn't seem like we will be able to find them again. They must be hiding after our attacks."

Andrea nodded. "No matter how high their ego is, they should've come to terms with the fact that we are quite strong. They must be waiting for the time in the Secret Realm to expire."

Angel commented, "How about we stop? Although I really want to kill them, I rather we spend the rest of our time exploring together. We haven't done so yet..."

They all were startled. It was the truth that, although they'd spent some time in the town together, they still hadn't explored the secret realm together.

Kali asked. "How much time is there left?"

Yasenia trailed in her words, "Four days..."

Then, she got thoughtful.

Killing Jaxon and the Tang and Long Heirs was important. However, It was much harder to find someone once they knew they were being hunted. That's why the first attack was the most important. Sadly, they escaped with their lives because they had powerful life-saving treasures.

Yasenia looked at Angel's face, and her heart softened. "Sure, let's stop. The last four days will be for us. Remember, we have to meet up with your sister and the others, so let's leave the last day for that."

Angel's smile bloomed as she jumped on Yasenia's back. "Thank you! I love you!"

Yasenia chuckled and walked with her on her back. Then, she asked. "So, what do you girls want to do?"

Evelyn began speaking. "I want to fu-"

Bang!

Yasenia looked at the others with a smile that wasn't a smile and asked again. "What do you want to do?"

They looked at Yasenia's swishing tail and gulped. 'Let's make normal proposals.'

Kali said. "How about we catch some fauna and flora for your ring, Yasenia? The ecosystems in your rings are quite desolated, right?"

Yasenia blinked and said. "Wow, that's quite a good idea."

The others nodded. Yasenia turned toward Cecile and asked. "So, my love. You are the expert in fauna. What kind of beasts should we catch?"

Cecile got thoughtful. Meanwhile, Evelyn returned from being slapped away and looked at Yasenia with pleading eyes. "Why can't we do something quickly? You know, just an hour of bam-bam, and we would be satisfied."

Yasenia sighed and said. "We will do so after we exist in the secret realm, dear. I don't feel secure doing something like that after the spectacle I created. I bet that many people are aiming for us. You've also seen the reaction of most groups that recognize us, right? They either try to fight us to make me their contracted beast, or they run away."

Evelyn sighed. Then, she clenched her fist and stated, "Only four days until I taste dragon dick!"

Yasenia almost tripped even when she was a quadrupedal creature. She looked at Evelyn with a surprised face, "Are you that eager?"

Evelyn nodded, "How many humans have the honor of having sex with a dragon in its dragon form!? Your species becomes too big in the adult phase! Just imagining Uncle Tian Long's thing... No wonder the female dragons ran away from him. They didn't want to die..."

The others strangely couldn't refute her crazy ramblings. 'Why are her crazy episodes so logical?'

Sierra had to look to the side, 'I'm sorry for my master being the way she is!'

Anyway, the last four days were quite relaxing. They hunted beasts together and collected many spirit herbs and minerals. They even found various interesting animals that Yasenia pocketed inside her ring because of Cecile's advice.

One was called [Rainbow Caterpillar].

Depending on their diet, the silk they created was different. Moreover, inside Yasenia's ring, they would thrive easily. The best thing was that they didn't feed on spirit plants, so Yasenia's garden was safe from them. Their diet consisted of other insects as their behavior was similar to spiders.

Another was called [Red Honey Bee].

Yasenia was basically immune to their stings, so she approached and directly threw the whole beehive inside with all the bees she was able to catch, the [Red Queen Bee] included.

These bees didn't only create extremely nutritious and powerful Honey, but they would aid Spirit Plants' growth and also become food for the caterpillars.

The third species Cecile recommended was [Soil Enhancement Earthworm]. They would eat the rotting plants and create enough extract to make the already-regulated soil healthier. Moreover, they also fed on insects from time to time, so they could control the population of the [Rainbow Caterpillars].

Inside her ring, in the forest area, Yasenia had plenty of precious spirit herbs, so she couldn't risk having those insects destroy them.

Therefore, she searched for bird species that could control their population further.

On their last day, she finally found something interesting. Cecile told her that they would be perfect because they didn't eat plants, just insects. It was called [Morning Sun Bat].

A special breed of white bats that fed on small creatures. They would regulate the environment without multiplying a lot. Moreover, they could only survive in places where they were the top predator because their reproduction rate was quite low.

Cecile nodded, "With this, your forest inside the ring will not only be auto-sufficient like it was before but also evolve. The evolution potential of these creatures and all the more common ones we added will be enough to make the forest lively without hurting the Spirit Herbs."

Yasenia licked her lips and said, "Your help is appreciated; expect plenty of rewards~."

Cecile scratched her neck and smiled, "I will eagerly wait for them."

Grrr~.

It seems that, no matter how Yasenia changed, her lovely growling and tail wagging would never disappear.

And so, as they bantered and played, the time to return arrived.

Chapter 349: The Portal Opens!

Yasenia and the others were currently walking around in the desert area. They'd already visited all the other regions, so they decided to have a look around on their last day. Yasenia suddenly remembered and asked Angel. "By the way, where are your sister and the others?"

Angel blinked and said. "They are in the desert area too."

Yasenia was surprised. "How so?"

Angel smiled, "I've been telling big sis in which area we are so that we can get together as soon as you tell us."

Yasenia caressed her head with a smile. "Good job, my love. Since you have everything prepared, call them. We will rest for the last hours until the time to go comes."

They moved to an oasis they spotted nearby and lay under the shade of one of the biggest trees. Yasenia made one spin and lay on the ground, leaving a spot between her limbs. Then, she used her tail to grab Angel and place her there. The others sat around them, and Sierra also lay, surrounding them in the middle of her giant twelve-meter-long body. She was like a small white furry hill.

Andrea sighed in comfort and looked at Sierra. "How do you feel, Sierra? Is the temperature in the desert too high for you?"

Sierra shook her head. "It isn't. I've realized that I'm very resistant to different temperatures."

Evelyn leaned on Sierra and was instantly surrounded by her cool fur. "Sigh, your body is so refreshing and comfortable, Sierra. It feels like landing on a very soft and cool mattress."

Sierra laughed gently. "Well, I'm happy you like it, Evelyn. Are we waiting for those people we didn't meet with after the face-off?"

Evelyn nodded. "Yes, they should be here soon. One of them is our close friend, the other is Angel's sister, and I don't know if they are with someone we know."

Sierra nodded and let the wind of the desert blow her fur.

The atmosphere was relaxing and peaceful. After so many days of constant hunting, this moment felt extremely satisfying. Angel lay on top of Yasenia and closed her eyes without falling asleep.

There were some creatures in the area, but none of them approached them. Although they were sitting there relaxed, the aura coming from their group was enough to scare most creatures in the Secret Realm.

Yasenia and the others didn't talk and just enjoyed each other's presence. Kali, Cecile, and Andrea took the chance to groom Yasenia. They caressed her scales, tail, wings, and horns softly.

Our dragoness half-closed her eyes and growled in comfort, letting the time go by.

After one hour of relaxing waiting, they heard people approaching. Yasenia lifted her head from Cecile's lap and looked around. Then, she freed her tail from Kali's arms and used it to poke the half-asleep Angel. "Baby, wake up. Someone is approaching."

Angel whined for a second but soon sat up. However, the pout on her lips was enough to let the World know that she was angry from being bothered by that comfortable position! Yasenia moved her head and licked her cheek. "Once we confirm that they are your sister and the others, you can lay on top of me again."

Angel nodded, and her pout was replaced with a smile. "Okay!"

They all laughed softly and looked at the approaching people.

Thankfully, there weren't any twists or turns, and the nine people that approached were people they knew.

Lidia, Linda, Laurina, and the other four beast leaders appeared in the distance and approached quickly. Moreover, besides those two, there were two more: a red dragon-man and a Blue-feathered Harpy.

Kali remembered who the Harpy was. "Isn't she Gahanna? The Half-step demonic dual cultivator that Yasenia fought in the Tournament?"

Yasenia's face scrunched, making an effort to remember. Then, she exclaimed. "Ah! The one I almost killed?" Kali nodded.

Yasenia asked, "What about the dragon-man?"

Andrea smirked. "He is Argon. He fought against me in the Tournament and defeated me. He is a very skilled and honorable warrior."

Yasenia nodded. "If he managed to beat you, he must be strong."

Lidia was at the front, shouting with excitement. "Munchkin! I can finally meet with you."

Angel stood up and also ran toward Lidia. Soon big sister and little sister entered each other arms in a hug. Lidia began asking "mother" questions like, how did the secret realm go? Are you okay? Did you eat nicely? Were there any problems? Did Yasenia bully you?

Angel chuckled and answered with a happy smile from within her arms. She felt very nice and comfy.

Linda and the other seven approached our group. Yasenia greeted them calmly. "Hello, it has been a while."

They saw how relaxed all of them were, so they nodded and didn't cause a commotion. They just sat around them, and Yasenia lay back on Cecile's lap, resting her wings on Andrea's lap and her tail on Kali's lap.

Linda smiled and said. "You made quite the commotion, Yasenia. I didn't expect to see your birth."

Yasenia turned her head to look at them without leaving Cecile's lap and smirked. Then, she said. "Well, it was quite unexpected even for me. I had the luck to gain the treasure that would let me complete it, and in the middle of being surrounded, I realized what I was missing. Not wanting to lose the momentary enlightenment, I went forward and happened what you all witnessed."

Linda nodded.

Yasenia looked at Laurina and asked with amusement in her voice, "Miss Princess Dragon, you are looking at me quite passionately. Anything you want to say?"

Laurina blushed and coughed. She placed her emerald green hair behind her ear and said. "Well, I was admiring Miss Yasenia's majestic body. It is truly worthy of being the supreme Ancient Beast bloodline. If you didn't already have a mate, I would've tried to mark you...."

Cecile's eyebrow twitched. 'Dangerous woman.'

Yasenia smirked, "Well, I'm very happy with Cecile, so I would like for you to stop similar thoughts. I don't want her to become uncomfortable." Laurina didn't take offense and nodded.

Yasenia saw that she had a good attitude, so she proposed. "How about I call you Laurina, and you call me Yasenia? We are quite close in age, so let's forget about formalities. We can begin as friends since it appears we will often have communications for a while."

Her eyes moved toward the other beast leaders and said. "All of you can also do the same."

They all nodded.

Yasenia's eyes moved toward the naked Harpy and the Dragon-man and asked. "So, why are these two with you?"

Argon stepped forward and said quite loudly. "Miss Yasenia, let me present myself. My name is Argon Firon, and I come from the [Fire Dragon-man] clan! I'm the future patriarch of my species, so I was getting to know our junior leaders when Miss Angel communicated to Miss Lidia to meet. Since I had previous interactions with Miss Andrea, I thought about approaching to greet her. She is one human warrior I respect."

Yasenia looked at him up and down and nodded. "Good bearing, good strength, good personality. Worthy of someone who Andrea admires. Don't be so formal; you can call us by just our names."

Argon smirked, showing off a sharp row of fangs, and nodded. "With pleasure."

Andrea chuckled and said. "Argon, how about a small spar at the side? I've become very strong, so you must be careful."

Argon laughed loudly and took out an enormous three-meter-long club. "I couldn't ask for anything better!"

Yasenia was speechless. "Is that a pillar or a club?" Kali nodded. "It is enormous, and it also looks extremely heavy."

Andrea and Argon moved to the side and began exchanging blows.

Cecile and the others were extremely impressed when their strength was similar. Although Andrea had an advantage, she was also one level higher than Argon, so it could be said that, without using trump cards, their strengths were evenly matched.

Frisk, the [Lightning Quilin] Junior Leader, said, impressed. "I didn't expect his tribe to foster such a talented man. I'm not much stronger than him."

Even Razar, the rash [Mountain Slashing Tiger] junior, nodded. "If he isn't too exhausted, I would also like to fight with him."

Sirae, the [Ice Phoenix] junior leader, said. "It seems that the [Fire Dragon-Men] are going to enter quite a prosperous era."

She was a smart woman, so she knew that a race could climb the ranks quite quickly with a strong leader.

Gorena, the [Island Turtle] leader, was quite a big woman with a muscular body. However, her temperament was calm and relaxed. She smiled gently and said. "That's good. The stronger, the younger generation, the better for Yasenias. We are all her followers, after all."

Yasenias looked at Gahanna, and the woman froze for a second. Yasenias chuckled, "I hope there aren't any bad feelings from the past. How about we also restart as friends?"

Gahanna's eyes widened, and then a beautiful smile spread on her face. "Yes! Thank you, Yasenias!"

Yasenias nodded. Then, she thought for a second and took out eight pairs of communication devices. They had a total of twenty-four pairs, so it wasn't that much. "These are communication devices we made. We can communicate in the future if you want. However, I hope you don't use them rashly. Also, they can't work if they are in spatial rings or if you are in dimensions with spatial fluctuations."

They all took their devices and thanked Yasenias. Yasenias looked at Sirae and asked. "How is Feng Yuan doing?"

Sirae's lips twitched. "He is constantly burning in the prison of our Phoenix race. After one thousand years of punishment, we will execute him."

Yasenias's eyes didn't change, and she nodded. "Good. He is lucky."

The others began sweating. 'Lucky? What is unlucky for this person then!?'

Kali looked at them and commented. "Remember who her mother is, and you'll have your answer."

The cold and elegant face of the Death Empress crossed their minds, and they began sweating cold. 'In fact, he is quite lucky.'

Speaking of Tatyana made Yasenias excited to return. She hadn't seen Tatyana for so long and missed her dearly.

Her warmth, her gentle red eyes, her pampering, her voice, her touch, her scoldings, and her beautiful laugh. She missed everything.

Cecile lowered her head and kissed Yasenias's eyes softly. "Don't worry, my love. We'll see Tatyana soon." Yasenias nodded and snuggled in Kali, Andrea, and Cecile's embrace.

Angel and Lidia had already returned and sat with the others. Then, they all began speaking about their adventures in the Secret Realm.

Time went by quickly, and the hour to return was approaching.

Yasenias's excitement grew, but she also had a strange face. The reason?

Well, her claws weren't even touching the ground at the moment. Andrea, Evelyn, Cecile, Angel, and Kali were hugging the dragon as if she was a plushie. "Hmm, dears? Can you let me down?"

A well-coordinated "No" followed her request.

Yasenia asked weirdly. "Why?"

Angel was hugging Yasenia from between her limbs, so she looked up and said. "I don't want to be separated from you again!" Yasenia sighed.

You have to remember that Yasenia wasn't too big at the moment. She had indeed grown since the day she entered the Unification realm. It could easily be seen compared to before. However, she had gone from a small tiger to a normal tiger in size.

Her tail was longer than her body, and her wings reached almost five meters in wingspan, but they were very retractable and could fold quite nicely.

Even then, when five women latched onto her body tightly, there almost wasn't enough dragon for everyone.

Yasenia laughed, "You can hug me all you want, but how about I hug you? My wings have grown enough to surround most of you."

Another collective "No" followed her statement. They were very comfortable hugging Yasenia as a plush toy.

Although her body was scaled, they discovered that she was very soft when she wasn't combat-ready. The feeling wasn't any worse than hugging her human form. It was just somewhat different.

Of course, one woman complained from time to time, "This would be perfect if you had dragon ti-?"

Bang!

Leaving the woman with a red forehead aside, the others were calmly waiting while feeling Yasenia's smooth scales. Laurina and the others looked at them amusedly. Although they thought of Yasenia as a sacred creature, they wouldn't be stupid enough to intervene in their relationship. They could see that, although Yasenia made a symbolic "struggle," she was letting them do as they wanted.

Angel sighed, "Your scales are so beautiful, Yasenia. It is like they have stars glittering inside."

Andrea nodded, "Your right wing is my favorite. The Sun on the wing looks powerful."

Cecile said, "I think the Moon in the left wing is better. It looks elegant."

Kali also shared her opinion. "I think the golden horns curving like a crown gives her a beautiful, attractive, and authoritative feel."

Evelyn smirked and said, "To be honest, I like her long neck the most. It is very comfortable to cuddle with her neck resting around me. Moreover, scratching her there seems to make our dragoness happy."

Yasenia felt happiness as they described her, and she smiled contentedly, her tail wagging rapidly. The women around blushed, finding her too cute. And the men thought that it was a shame she didn't like males, so a sigh escaped their mouths.

Suddenly, they felt their bodies being pulled by an invisible strength, and they saw a green portal big enough for Sierra to go through the opening in front of them. Evelyn and Andrea asked Sierra and Ebirah if they also sensed it, and the answer was positive.

By the way, Sierra was carrying all of them on her back, and Ebirah was latched with her legs on Andrea's back.

Laurina and the others didn't bother and waited around Sierra.

Like this, all of them were prepared.

Chapter 350: Spatial Tunnel's difficulties. Another World?

After the Green portal appeared in front of them, Yasenias frowned and asked, "Was the portal's color like this? I don't remember it that way."

They all shook their heads. Cecile said with caution. "It is probably like Jaxon told us. The Demon race outside has done something to the portal."

Yasenias sighed, "I was hoping for it to be a lie, but it seems that it wasn't just a scary comment."

Angel proposed. "How about we don't cross it?"

Yasenias shook her head. "If we do so, we'll be trapped here for who knows how much time. Right now, we have to grow stronger, and we've already exhausted most opportunities to do so in the Secret Realm. We need to gain things outside."

Yasenias then said. "Moreover, I want to meet with Mom as soon as possible. I'm willing to take the risk and face whatever the Demons had prepared for us."

They looked at Yasenias's resolved expression and nodded. They knew that no matter the challenges ahead, Yasenias was going to charge forward.

Yasenias saw that they didn't contradict her, so a smile appeared on her face. "Hug Sierra closely. We don't want to leave her behind."

Evelyn and the others crouched with Yasenias and also hugged Sierra by grabbing her fur.

Then, Yasenias said aloud. "Let's go. It's better if we don't delay."

Our dragoness was still being held hostage by the five of them, so she could only order and not walk herself. Sierra obeyed and began walking toward the enormous semi-circular green portal.

Sierra approached the portal, and when she was about to touch it, the portal acted like a mouth and surrounded them.

Yasenias used her spiritual sense and saw that Laurina and the others were walking right behind them, so they were also being surrounded by the portal. Yasenias said aloud. "Maintain your heads calm. Whatever they've prepared, we'll overcome it!"

Then, the rift opened completely and swallowed them.

The green portal shrunk, and soon, it disappeared, leaving nothing behind.

At last, Yasenias and the others left the Secret Realm!

Meanwhile, inside the portal, it was a strange situation. The first time, they felt as if they were traveling at extremely high speeds with a protective bubble around them.

However, that wasn't the case anymore. Yasenia and the others felt the spatial tear and strain on their bodies. It was as if a force was trying to pull them apart from each other and send them who knew where.

Their expression changed, and their cultivation burst out, increasing the control in the space around them. Yasenia was about to say something as the warped surroundings flashed by, but her spiritual sense caught Laurina and the others suddenly being pulled away in different directions. It was so fast that she couldn't even react.

Yasenia's expression changed, "Don't let anyone go! If you really want not to separate, don't hold anything back!"

As soon as Yasenia told them, their eyes became serious and released everything within.

The spatial tunnel they were traveling trembled as their aura shook the place. However, Cecile and the others still felt their grip on Yasenia slowly slipping.

Yasenia looked around, but she couldn't guess when this would end! Therefore, she didn't know what to do for a second.

However, when she felt that Ebirah's legs were about to slip away from Andrea's body, her brain flashed with realization.

Instantly, she extended her claw and moved the energy inside her dantian. The small quantity of Celestial Energy inside her dantian appeared on top of her claw.

The starry blue dot of bright energy was like a star in the Universe. However, its aura spread in the surroundings like an unstoppable tide. Right after the Celestial Energy dot appeared, they all felt their surroundings calm down. The sensation was similar to being inside the protective bubble again, and they looked at Yasenia with smiles. "Good job- Huh?"

Yasenia was extremely new to Celestial Energy, so she didn't really know its strength. Summoning all her Celestial Energy on top of the palm and controlling it was something she shouldn't be able to do yet.

Therefore, to do so, she was using her [Empyrean Galaxy Domain] to trap it and the exhausted [Celestial Pearl]'s influence to calm it and avoid exploding it.

If the environment were calm, she would be able to summon it without problems. However, they were inside a spatial tunnel right now, and she was using it to ward them from the turbulent space.

Yasenia's eyes were red, not because they had changed but because their blood vessels had exploded. Her body was filled with cracks, and her mouth and nose flowed with blood. Yasenia would love to tell them not to worry, but she felt that her limbs would separate from her body the second she lost concentration.

Mirrory said to the scared girls. "Don't be surprised. The fact that she can forcefully control Celestial Energy to create a safe space is impressive. Right now, Yasenia is being affected by the pulling force all of you are receiving at the moment. If this spatial tunnel continues for thirty more seconds, Yasenia's body will be ripped into pieces."

Cecile's eyes widened, and she instantly asked. "Help! How do we help her!?"

Mirrory contemplated for a second, and then she sighed. "Sigh, who told me to open my mouth? Anyway, listen to me. Evelyn, Andrea, summon your Natural Treasures and use their aura to try and compress the Celestial Energy. Cecile, use your connection with Yasenias to channel energy into her; it shouldn't be hard. Kali, use your healing spells to heal Yasenias's body. Valeria, support Kali. Angel, focus inside you and summon me, but control yourself. Remember that if you summon too much of my body, you will literally die."

They all followed her orders instantly.

Andrea's and Evelyn's Natural Treasures pressed on the Celestial energy, and they instantly felt as if something had tried to expand their bodies. Evelyn and Andrea didn't expect such a strong reaction, and they spat a mouthful of blood because of some internal injuries.

The monstrous power of Celestial Energy didn't allow anything to control it. Therefore, them trying to compress it was like a mortal trying to put two magnets together.

However, their eyes were only filled with resolve as they forced themselves to compress it further.

Cecile was hugging Yasenias from behind, so she hugged her closer and used their soul connection to connect with Yasenias's soul. She easily managed to do so because Yasenias had no guard against Cecile.

Cecile's expression changed because she felt that even the powerful soul of the dragoness was about to burst. Cecile instantly flew toward the Dragon soul floating in the air and dove inside it. Then, she released all her energy.

From the outside, it appeared like silver threads were flowing from Cecile toward Yasenias.

With only these two, Yasenias already felt much less pressure. However, she was still suffering.

Kali didn't lose time and summoned and improvised [Flower Bed], covering Yasenias's body with the flowers instead of placing them on the ground. She could do so because Yasenias was bleeding, and the [Flower Bed] could feed on blood. Yasenias's nutritious blood was like a stimulant, and Kali's healing prowess basically multiplied.

Moreover, with Valeria helping, Yasenias felt as if a refreshing spring was seeping inside her, mending the damaged organs, bones, veins, and muscles.

Yasenias finally felt enough relief to be able to speak intermittently. "Don't... Feel... Bad... We will... not separate... and overcome this!"

They nodded with serious faces. After one minute, Angel opened her eyes, and the aura around her multiplied. Her hair changed to a beautiful scarlet red, and her eyes turned a vibrant green. The feeling of strength around her wasn't any smaller than Yasenias's.

Thankfully, there wasn't any air to move with the shockwave, so they didn't feel anything but the pressure it had. Even then, their expression couldn't help but change. 'Strong!'

"[Truth Mirror Summoning]." Angel's silvery voice echoed, and a pristine Mirror appeared behind her. It was small, just one meter long and one meter wide. However, the presence it had was even deeper and stronger than Yasenias's Celestial energy.

The bubble around them was about ten meters in radius. However, after a truly small part of Mirrory's true body appeared, it ballooned and became almost fifty meters in radius. Mirrory's voice

came from nowhere and everywhere at the same time. Unlike other times, this time, it carried a solemn and sacred feeling with it. "Children, you can stop for the moment. However, the second Angel's energy runs out, you must implement what I've told you again."

They all instinctively nodded as if whatever she said couldn't be disobeyed. Yasenia's eyes turned toward Angel, and she smiled. "How do you feel, Baby?"

Angel looked at her own red hair and caught some strands with her small hand. Then, she smiled and said. "Strong! I feel that nobody can beat me!"

Yasenia laughed softly. "That's good. By the way, how is your energy doing?"

Angel's smile froze, and then her eyes widened. "Wow! I'm going to be dry in three minutes."

Their eyes also widened in surprise. Angel's energy reservoir was very deep. She had so much energy that fighting for one day straight wasn't a problem.

Mirrory's voice echoed again. "What did you expect, Angel? Do you think I'm some random thing? With your current strength, you should be able to fight against all of the others present here. You wouldn't win, but you could defend yourself. However, remember that if you use me to attack, unlike just summoning me as you are doing now, your energy will disappear even faster!"

The others almost choked on their own saliva.

Evelyn asked. "Mirrory, how much until we exit the tunnel?"

Mirrory's pondering voice echoed again. "Hmm, normally, spatial transportation is almost instantaneous. However, the longer it lasts, the further we should be going. We should've already left your World at the pace we are going. We should be approaching another one. Returning to your homes will be difficult, children."

Yasenia felt her heart dropping for a second. However, remembering the situation in the Sky Continent, she sighed. "It may have been for the best..."

The others patted the dragoness, knowing what she was thinking.

Valeria closed her eyes and opened them ten seconds later. "We are reaching the end of the tunnel. All of you, prepare yourselves and hug each other again." Valeria rushed inside Kali and disappeared.

Without delay, they all grabbed the dragoness like a shared plushy one more time, not minding the blood around her, and crouched to grab onto Sierra. Mirrory said. "Unsummon me."

Angel didn't disobey or ask and followed her instruction. The small mirror turned into a light streak and sunk into Angel again, returning her hair and eyes to the normal blonde and blue.

The protective bubble around them shrunk extremely fast. However, they existed from the spatial tunnel before they could be affected again by the powerful spatial turbulence.

After a flash of light, they existed the green warped space and were greeted by a beautiful blue sky.

Then, their bodies felt weightless, and the wind blew on their faces.

They looked around, only to see some clouds far in the distance but below them in height.

Sierra feared the worst and looked down. To her horror, they were up in the sky.

Sierra lamented aloud, "T-To think I would die just after leaving that cage... My destiny is truly sad."

Of course, Sierra did not know that even if they fell, the air resistance would slow them enough to land at speeds far slower than what they usually achieve while fighting.

Since the girls were educated in this matter, they were relaxed and looked at the surroundings.

Evelyn laughed aloud, "Don't be so dramatic; we are just falling from... Hmm, at least one hundred kilometers? Moreover, Cecile and Yasenya can fly and float if we want to with the help of energy. Falling from this height is not lethal."

Sierra relaxed after hearing so, so she also looked around.
