

## Her Mates Her Protectors Chapter 06

Writer'

POV

As Lennox watched Chesney take his dick into her mouth, he couldn't help but exclaim in ecstasy; he couldn't believe it. He has never been aroused this way. No girl has ever turned him on so much

As she rolled her tongue around his head, he couldn't help the groan that slipped through his lips. "Ohhh gosshh." Her mouth was so warm and wet, and the way she easily rolled her tongue around his shaft was damn sexy.

Lennox didn't know what to do with his hands, so he slowly took them to her hair and left it there.

Chesney moved her tongue around his dick, keeping both hands strongly wrapped around him as she did. After licking his dick for some time, she returned to sucking it, taking almost half of his length into her small mouth while steadily stroking the part her mouth couldn't reach. It amazed him how she was able to do that. How she is able to take care of his cock so well

She is amazing. This was not his first time being in this position, but it was his first time reaching cloud nine. He couldn't believe he'd be able to feel so much ecstasy from this,

As Chesney bobbed her head up and down his massive length, it didn't take long before Lennox felt his orgasm build up.

I'm going to cum. I'm going to cum, Lennox groaned out the words, but Chesney didn't say a word and just kept going, but this time she went faster.

Bobbing her head up and down his length, sucking him like he was some Lollipop. When the pressure became unbearable, Lennox took over from her. He started thrusting in and out of her mouth very fast, pumping her mouth and hitting the back of her throat, and when he felt his seed was about to pour into her mouth, he forcefully pulled away from her and turned away. He released his hot cum on the floor and heaved in relief when he felt his dick softening up.

He has been hard for a few hours now, and he was glad that he was finally able to get a release. He slowly tucked his dick into his shorts and turned to face Chesney.

When he saw that she was still on her knees, he rushed to help her to her feet before covering her body with the shirt she left on the floor.

Thank you. He planted a soft kiss on her forehead in appreciation before taking a step back. "I must here, then I might give in to pressure."

continue to stay

"You can leave," Chesney allowed and watched as he hurried out of the house. The moment he stepped, London came behind her.

"Where do you want it to be?" His sudden question surprised her, she turned to look at him, briefly wiping her mouth to get rid of any stain that might remain there. Although Lennox had not been released into her mouth, she had tasted and swallowed his cum. She liked the taste. It was a bit salty, but she liked the taste of his cum and wished that he had released it into her mouth instead.

He got close to her and stopped. "You need to choose your position," he stared at her as he said.

My position, Chesney thought as she swept her eyes around the house. Her eyes moved across the room and stopped on the dining table.

"There, she pointed to the dining table.

There?" He pointed, looking surprised.

"Yes, I want it there," she replied.

"Okay," with one swift move, Chesney found herself hanging over London's shoulder. He had picked her up like she weighed nothing.

He carried her over to the dining table and slowly laid her there before spreading her legs open. He balanced himself between her legs and settled his eyes on her throbbing pussy. Her pussy was dripping so much with her juice. It was so attractive: she was so beautiful down there.

You. You've never been touched down here," he said, moving his gaze to her and watching as she shook her head shyly.

"I get shy and uncomfortable when a guy tries to penetrate," she plied shyly

"Hmm, London hummed his satisfaction as he worked his fingers to her dripping cunt. Take it slow on you as it's your first, London promised as he leaned down and slowly tasted her. The moment London's tongue touched her privates, Chesney twisted and cried out loudly as the shock spread over her body.

“Moon goddess! That was so good. Do it again,” she begged, looking at London with pleading eyes. Pleased by her reaction, London took his mouth to her clitoral area and pressed his cold tongue on it in the way that had Chesney twisting all over

“Ohh, more. I need more Please!”

Upon her repeated cries, London decided to get into business. He positioned himself properly between her spread legs, held her slit open with his fingers, and started tonguing her pussy, licking and swallowing all of her pussy juice

“Ohhhh, Chesney tried to bite back the moan that came out of her throat but was unable to. She liked the way he kept pressing his tongue down on her. Twisting and rolling his tongue in and out of her pussyhole.

London didn't stop sucking and tonguing her pussyhole even as Chesney's cries grew. He continued licking and sucking her. only stopping when Chesney had her first release.

London didn't give her time to recover from her first release before he resumed his assault. He added a finger into her wet pussyhole and started fucking her.

He added a second finger and then a third. As he fucked her at a slow pace, Chesney closed her eyes and tightened her grip on the table as London rode out her orgasm. It was unbelievable; she never imagined to be in this position with a male like London. She had given up on finding a mate already. How is this happening?

Chesney gasped and opened her eyes when she felt her orgasm drawing near. She leaned closer to him this as an opportunity to kiss her. He took his free hand to her neck and brought her close to him belatedly, kissing her in a very slow manner that got Chesney angry.

London took

his lips with

She needed him to move fast; her orgasm was close, but because of his slow pace, it was hard to have a release. She wrapped an arm around his neck and disengaged from the kiss, then she took her free hand down to where his fingers were busy assaulting her. She forced him to stop, then she took charge. She positioned his fingers in a way that made it possible for her to sit comfortably on it.

She sat on his fingers and started moving on it. She was slow at first, but when she got used to it, she increased her pace and started moving very fast. Bucking her hips back and forth as she sought her second release through his fingers

London didn't say a word but watched as Chesney rode his fingers, moaning and gasping as she did, and it didn't take time for her to cum, releasing her sweet juice all over his hand. She slowly moved away from London and collapsed to the table.

"The heat has subsided for now, it'll be up in the next few hours. By that time, I'll be ready to have your dick buried inside me, Chesney mumbled the words tiredly before closing her eyes

A few minutes later, London and Lennox sat on both sides of Chesney's bed as they watched her sleep. As she slept peacefully, her long, dark lashes fanned against her eyes. They still couldn't believe it. They had almost given up hope on finding their mate, but then she suddenly appeared before them in the woods. It still felt like a dream to them, and they

unt to leave her side, didn't want t

London let out a sigh and looked at Lennox. "Did you find out?"

Yes, it's as we suspected. She's a loner, Lennox answered.

London exhaled again. "Do you think shir'll be happy once she learns of our identity! I mean, since she's a loge not be too pleased."

"We'll tell her then watch how she reacts to the news, Lennox replied.

She might

"What if she rejects us after learning who we really are? London's question caused Lennox to snap his head up.

"Shut up! Don't ever think that way, you know how hard it was to find her. Don't ever entertain such thoughts," Lennox groaned

d let out yer

London lowered his gaze to Chesney's face and let i to escape us."

yet another sigh, "Let's get her pregnant. That way, she won't be able
