

Her Seven LBG 711

Chapter 711

Things were very different this time because Hanson's condition had never been so critical.

"Hanson is very concerned about his daily diet. How did his stomach problem arise?" Liam frowned, thinking this was unusual.

"I've already checked, and there's nothing suspicious. I'm afraid we won't be able to make a decision until the inspection results are released."

Vania, on the other hand, was certain that this incident was inextricably linked to Eddie.

"Continue to dispatch investigators. There must be clues if it is an accident." Liam also sought assistance from his subordinates.

"Thank you, Liam," she thanked him politely.

"I'm here to help you," he responded.

Vania simply didn't know what to say in response to his words at the time, so all she could do was smile and say, "Thank you."

At this precise moment, her seven babies appeared in the hospital.

"Can you please let me in to see Daddy?" Lily inquired as she approached Vania.

Vania was naturally confident in Lily's medical skills, so she nodded and said, "Let the nurse take you to change your clothes, but be cautious."

"Okay."

James and Jack, on the other hand, were going through the company's surveillance tape on the laptop.

They were intensely focused on every detail.

"What did you find out?" Bryan sat down next to them and watched the videos with them.

"Hold on. There's something fishy about this secretary," Jacob announced abruptly.

What about the secretary? Everyone was puzzled.

"Her expression is strange," he added as he observed the scene on playback.

"Is there any problem?" Bryan asked, not seeing any difference. Everything appeared normal to him.

"She was clearly hesitant to open the fridge. A professional secretary would never do something like this," Jacob elaborated.

"Then, let's start looking into this secretary," Bryan said, immediately enlightened by Jacob's explanation.

"Let's avoid acting rashly. We should wait for the medical results from April first," Liam suggested.

"Okay." Vania nodded, agreeing that this method was feasible.

Chapter 712

"Yes."

Hanson was well aware of the situation. When he saw Vania's nervous expression, he took her hand in

his own. "Don't be alarmed. I'm all right now."

He couldn't feel any pain anymore right now.

Vania kept her heartache hidden because she didn't want him to realize how serious it was this time.

However, he understood everything. "Our relationship is improving, so Eddie is bound to be jealous. I'm afraid that this poison..." he said as he pursed his lips and reluctantly looked at Vania.

Vania immediately pressed her lips against his before he could finish his sentence. She was feeling his breath with desire.

"Don't be silly. Lily has already gone to develop the antidote for you, and you will be healed soon."

"I believe in our daughter," Hanson said, nodding.

"Have a good rest now, and I'll take care of the rest."

Vania had already devised a strategy.

"I also have faith in my wife." Hanson would believe anything as long as she did it.

The two looked at each other and exchanged a friendly smile. After a short while, Hanson fell into a drowsy sleep.

His body was still a little weak, and he needed to cultivate by sleeping.

Linda, whom Vania had dispatched to investigate the situation, had already returned at this point. "Have you discovered anything new about the secretary?"

"Yes. I discovered that she had a large sum of money being transferred into her account three days ago."

"However, we have not been able to track down the source of this payment." Linda stated truthfully.

"What about my babies?" Vania frowned; she was surprised that Eddie had been so observant this time.

"It appears that Eddie gave it his all this time, and the little young masters have yet to discover the source as well."

"He's figured out how to be clever now." Vania scowled. "Beware of this secretary. Everyone involved must keep Hanson's situation private. I'm curious to see what they'll do next."

"I have already done so. Boss, I believe there is another person we need to pay attention to," Linda reminded Vania after nodding.

Chapter 713

"Darling, it smells lovely," Hanson said as he approached Vania, who was in the kitchen, and gave her a back hug. He seemed to be referring to the dishes.

Vania leaned in close and smiled softly. His complexion was brighter, indicating that he felt better.

"Please take a seat and wait for me." He was a nuisance in the kitchen.

"Okay."

Hanson nodded and walked over to the dining table. People who didn't know the situation would never guess he was sick because he looked so healthy.

He no longer had negative reactions or side effects after receiving treatments from Lily and April.

Furthermore, he had received a good night's sleep, so his body was back to normal.

"Please feed me, darling." Hanson made a bold request as his demeanor suggested that he was under the weather.

Vania couldn't help but reprimand him when she saw his arrogant expression. "I think you can do it on your own."

He was thinking about taking advantage of her at the time.

"I'm afraid I can't." Hanson refused, claiming his situation was serious and he couldn't do anything.

He had become the incarnation of Black Jade, as if a gust of wind could knock him over.

"Would you like me to feed you mouth-to-mouth?" Vania spoke slowly and deliberately in front of Hanson.

"Of course, if my wife wants to do it, I'm not going to say no." He was eager to try this feeding method because he had never done so before.

"But I don't want to do it. Do it yourself," she rejected with a smile.

Adults had to complete tasks on their own.

Chapter 714

He should not have gone too far. Now, he wouldn't even have the chance to be spoon-fed by Vania.

"I believe you're in good shape now, and you shouldn't have any trouble eating on your own," Vania said casually.

Furthermore, there was only a small amount of porridge left, and she was relieved that Hanson could do it all by himself.

"Okay." He had no choice but to finish the meal with tears in his eyes.

Hanson became concerned when he finished his meal and noticed that Vania hadn't finished eating and said, "Darling, let me feed you."

He could feed his wife mouth-to-mouth if she couldn't do so.

At this thought, Hanson regained his energy and dashed out of the hospital bed.

"Slow down," Vania advised as she was concerned by Hanson's quick movements.

On the other hand, he didn't believe there was any physical issue, so he brought the prepared porridge to Vania, saying, "Darling, you haven't eaten yet." Allow me to feed you."

When Vania saw his wicked smile, she twitched the corners of her mouth and said, "I better do it myself."

She didn't want to be a burden to the sick. Furthermore, she suspected Hanson of being involved in a "conspiracy."

"I'm delighted to serve you, darling." He sat across from her with a smile on his face, after which the spoon was in front of her.

"I'll do it myself. I don't want to bully the sick."

Vania reached for the spoon in Hanson's hand, but he avoided it, saying, "This is fine. Actually, I have a little secret to tell you," he said mysteriously.

"Huh? So, why don't you go ahead and do it?" she inquired, her brow furrowed. Hmph! I can't believe he's keeping things from me.

He then began to lay out some ground rules. "Let me finish feeding you first, and then I'll talk."

Haha. He's started to learn how to bargain. He appears to be fine now. Vania opened her mouth to drink the porridge from the spoon, but Hanson dodged it once more.

Chapter 715

All of a sudden, the secret that Hanson had mentioned earlier came through Vania's mind. So, she patted him and asked, "What's the secret you said just now?"

"Oh." Hanson opened his eyes and looked at her. "Actually, I wasn't poisoned today."

What? Her eyes widened when she heard that. She sat up straight, stiff from his embrace, and stared at him. It was obvious that she didn't know whether what he said was the truth. If he wasn't poisoned, why is he in the hospital now? Is this a delusion?

Noticing her confusion, he pulled the puzzled Vania back into his arms and explained, "I just so happened to pass by when Miss Rowland placed the coffee into the fridge. I have a meeting today, so I didn't order coffee, but she sent me a cup all of a sudden. From there, I knew something was going on,

so I just played along."

It's really Miss Rowland! After understanding everything, Vania looked at Hanson and asked, "If that's the case, then why didn't April see it from the examination?"

"I've hinted to him, but he was just too concerned about me at that time, so he didn't notice it." Hanson had a proud face.

"Hey! Be serious." She pushed him a little and continued saying, "But we're really in sync. We have the same thought."

"My wife, as expected." The delighted Hanson wanted to ask for a kiss but was pushed away again by Vania.

"What about Lily?" The little girl suddenly came to her mind.

"That brilliant girl is just like you. She understood everything with just a little hint." He just gave Lily a look, and she already understood what was going on. Then again, the drug manufacturing was real.

On the other hand, when Eddie received Hanson's news, a proud smile tugged on his devilish face. "Good job."

Standing by his side, Brandon felt good too. "What should we do next, Young Master Eddie?"

At that moment, Eddie's face became even more devilish. "We can't let the assistant live. You think of a way to get rid of her." How could he be at ease with such leverage on him?

Although he had promised Miss Rowland a wealthy life for the rest of her life, what he actually meant was a wealthy life in the other world.

Chapter 716

That poison was the result of many years of research. Even the Great Chemist wouldn't be able to detoxify it, or else Hanson wouldn't experience the episode this time either.

With his brows snapped together, Eddie waved his hand, indicating that Brandon should stop talking and leave.

Immediately, Brandon kept quiet and quickly left the room.

...

On the other hand, Hanson had already blocked all the news about him, so no one knew what his condition was now.

His company was still operating as usual without any negative news. And the staff of his company was as usual as well, not spreading any rumors.

However, it was totally different on the internet. The netizens were taking their guesses and thought that Hanson was involved in an accident. All of a sudden, they started to feel bad for Vania.

'Pity President Greyson and her young children. How did President Luke get involved in the accident? Candle emoji.'

'There's been no news about President Luke for so long. I think something bad really happened. Candle emoji.'

No one knew from whom this news started spreading, but Vania and Hanson's Twitter were filled with candle emojis at once.

Fortunately, there were still some who were rational. Their comments stood out from the candles.

'Aren't you guys afraid that President Luke will return someday later after saying such things?'

'There's no official news yet, but the rumor is just spreading like wildfire. I really hope that President Luke can remediate these unscrupulous netizens.'

But these rational comments were lost in the candles within seconds.

At this moment, Hanson had been transferred secretly back home. Looking at the comments on the internet, he really wanted to prove himself, but it was still not time yet. So, he could only use this strength, which he had no place to let off on his little wife.

Chapter 717

The benefits right in front of Hanson's were more important. If worse came to worst, he could just pretend to be sick again.

Having made up his mind, he looked at Vania as he calculated his next step.

Hah, this man. Vania chuckled in her mind. "All right, then you'll have to keep your promise." Then, she waved her phone. "Sorry, I accidentally pressed the 'record' button."

With evidence in her hands, she knew he wouldn't dare to make up lies again.

Vania had already seen through Hanson's plots, so she had prepared everything beforehand.

However, Hanson quickly swiped Vania's phone from her. Then, he navigated to the recordings folder. There were no recordings in sight.

"Deceiving me, eh?" Smiling, Hanson slipped Vania's phone into his pocket.

Vania wasn't worried in the least as she smiled evilly. "I didn't say I was recording on that phone."

Vania had two phones.

Hanson immediately realized that he was tricked. He grabbed Vania and pulled her into his tight embrace. "Then I'll have to be a man who doesn't keep his promise."

With that, he hastily sealed Vania's mouth.

Vania struggled for a bit and dodged him. "Get up. I still have to go shower." She was about to find an excuse to dodge Hanson, but she never thought she was falling right into his arms.

Hanson's eyes immediately lit up as he nodded enthusiastically. "Then I'll go with you, darling. I'll help you shower."

The great President Luke had now turned into an enthusiastic scrubber. He hastened to the bathroom and filled up the hot water, then he stood at the door with a towel in hand, beckoning to Vania. "Come, come."

Seeing that cringe scene, Vania almost thought she had traveled back in time.

She really didn't have the guts to see Hanson like this.

If she posted Hanson's current look onto the net, the internet would probably explode.

Vania had gossip in her mind, but Hanson was completely oblivious as he continued waving at Vania.
"Come quick, darling."

Chapter 718

With a swift fling of her hand, Vania shut the door and locked it. She did it with such skill and grace, and there was not a smidge of hesitation in her actions.

Seeing the tightly shut door, Vania clapped her hands gleefully. Then, she purred to Hanson, who was standing outside. "Oh, Great President Luke, I'm afraid you'll have to wait outside for a while. Oh, right, if you can't wait that long, you can go sleep in the guest room."

Obviously, she had no desire to open the door for Hanson tonight.

Meanwhile, Hanson, who was shut out, stared at the door in front of him in shock. He was pushed out by Vania? Just like that, without any warning?

This is too sudden!

Hanson rubbed his nose because he never thought that he would come to this one day. In an attempt to salvage the situation, he reached out and pushed at the door, but just as expected, he was already locked out of the room.

By the looks of it, he would have to spend quite some energy if he wanted to go back in.

Just then, the six babies passed by Hanson in a leisurely manner, wearing sneering expressions.

Daddy is finally chased out by Mommy, they thought gleefully, Serves him right for bullying Mommy.

"Daddy, are you rethinking your life choices?" the six boys asked smilingly.

Hanson was at a loss for words. Fine, even the children are making fun of me.

He was already plotting his revenge. Tonight, he would make sure Vania experienced the consequences of bullying her own husband.

Hanson said indifferently, "I'm playing a game with your mommy. Why don't you check on your sister?"

The six boys didn't want to expose Hanson's lie, so they just nodded and moved past him.

Seeing his sons leave, Hanson looked at the door and smiled a meaningful smile.

His wife had truly underestimated him. Such a simple lock couldn't have stopped him. However, it wouldn't be appropriate to cause a ruckus at night, so he gave up on breaking the door.

Hanson strode out the door then.

His and Vania's master bedroom was on the second floor, and there was a balcony at the front that led straight to the bedroom.

Chapter 719

Saying that he could manage his own meals, Hanson deliberately moved his body to get closer to Vania.

"Ah... Don't!" Vania screamed again and again. Fortunately, the sound insulation of their room was good; otherwise, the little children would think there was a burglar.

Hanson ignored the screaming Vania. Instead, he picked her up and put her in the bathtub and, at the same time, made a shush gesture to her. "Don't shout. You'll affect Lily's medicine-making session."

This room was well soundproofed, so no one could hear Vania's screams even if they were standing at the door. How could it affect her daughter in the furthest room? It was just nonsense.

Vania was dissatisfied. "As long as you don't touch me, I won't shout."

Isn't his sudden appearance in the bathroom that caused me to be frightened?

"Darling, you are too sensitive. What is there to be afraid of for us to take a bath together?" Hanson asked with a bold expression. However, Vania was different; she was not as thick-skinned as Hanson.

Her face, which was already red from the temperature in the bathroom, turned even redder now as if it could drip blood. She looked especially charming in this warm and misty bathtub, like a tempting apple.

Looking at the scene in front of him, Hanson could no longer control himself, and he hurriedly said to Vania, "Darling, let me practice on you."

Later, Vania's screams were all drowned in the sound of water.

But compared to Hanson and Vania's romance, Yvonne seemed a little lonely abroad. She was living in the villa Thomas had prepared for her, and her life was the same as before, but she couldn't be happy and kept staring out the window in a daze.

Benjamin and Jasmine had already come to accompany her. Seeing her so lonely, Jasmine couldn't bear it and teared up. "Yvonne, don't be sad. I'm talking to your brother, and he'll arrange for you to go back."

It was not difficult to give Yvonne a new identity, and Jasmine obviously had her own thoughts.

As soon as Yvonne heard that she was going back, she became interested. "Do we still have a chance to go back?"

If there was a chance to go back, why would she be brought out, and why was she still here now?

Chapter 720

Brandon reported, "The secretary did see Hanson drinking the coffee with her own eyes. Moreover, the people we arranged to be in the hospital had also determined that Hanson was indeed seriously ill. He entered the ward and never came out again."

Hearing this, Eddie had another suspicion in his heart and felt suddenly that things were not going well. At least from Brandon's description, I know that we still have control.

"In that case, why haven't we gotten any news yet?" Eddie's face turned stony, after which he stared at Brandon, waiting for his answer.

Brandon was also struck silent by him and suddenly felt the seriousness of the matter. "Young Master Eddie, I will send someone to investigate the matter immediately."

"Your reaction is too late, isn't it?" Eddie was very dissatisfied with Brandon's current reaction. If this went on, he wouldn't be able to get any news, so wouldn't he lose?

"Young Master Eddie, I am willing to be punished." Brandon took the initiative to admit his mistake and wanted to lessen Eddie's anger.

Their punishments were really corporal punishment. One set of caning was enough for him to lie on the bed for a week.

Eddie snorted coldly. "What happened to that secretary?" His tone was obviously a little furious, and he didn't want to hear any unexpected news.

Brandon said immediately, "She has been dealt with."

"In what way?"

"An accident. Her death was designed as a traffic accident on the day she got off work."

"Did you leave any tracks?" Eddie was truly a little worried about Brandon's work now.

"Don't worry, Young Master Eddie. There aren't any tracks, and her family will no longer pursue it." Brandon thought that he had done nothing wrong.

"Okay then." Eddie pondered for a while. "It's not suitable to stay here for a long time, so you should quickly arrange another place."

They had to be guarded against some things. It had been years since he was involved in the shady business; hence, he knew when to back off and go forward.

"Young Master Eddie, do you need me to add some more staff?" Brandon asked worriedly.

"Not for now. Go and receive the punishment." Eddie closed his eyes and waved his hand.

"Yes, sir."

...

At Haling Villa, Lily was making medicine, and the whole family was watching her. Out of nowhere, she stopped the movements in her hands and looked at the eight pairs of eyes in front of her. "I'm a little flustered to be watched like this."

Why does it feel like they're watching a criminal?
