

Tales of Herding Gods Chapter 1136-1140

Chapter 1136 The Great Formation Picture of Dragon Mountain

“You’re the real beauty killer, Imperial Preceptor. Son of Heaven Yin pales in comparison to you!”

Emperor Yanfeng felt some sympathy when he saw how disheartened and disappointed Yan Yunxi was. However, the dominant feeling in his heart was admiration. Admiration for Eternal Peace’s former imperial preceptor, Jiang Baigui.

He was always honest towards ladies. In Eternal Peace, he was determined to become a saint and had no thoughts towards love and pleasure. He even thought of it as a burden.

If not for his forced gift of marriage and the guidance of Qin Mu, Jiang Baigui would probably still be single today.

He had that kind of power and ability.

Jiang Baigui was a devoted person. He was fine when not in love, but when he was, he would become extremely loyal. Even though Yan Yunxi was smarter and prettier than his wife, he didn’t take it to heart at all.

This was why his wife felt relaxed about him leaving Eternal Peace.

One sentence from Jiang Baigui annihilated Yan Yunxi’s hope in a cruel manner.

Jiang Baigui bowed and said to Yan Yunxi, “Uncle, since I’m worth an army of a million gods and devils, should there be a calamity in Eternal Peace, I hope you’ll help with said army.”

Yan Yunxi nodded silently with a pale expression.

Jiang Baigui straightened himself and solemnly said, “Thus, Uncle, you can go and prepare with Divine King Lang Wo and Founding Emperor.”

Yan Yunxi left.

At the same time, they heard a lazy voice from below, which said, “You’re really powerful, Little Brother.”

Jiang Baigui and Emperor Yanfeng looked down from the tower and saw a large man in shabby clothes sunbathing at the bottom. He leisurely caught the fleas on his body while constantly laughing as if he was mentally unstable.

Emperor Yanfeng’s gaze flashed as he whispered, “When did this beggar come? He looks crazy. I didn’t detect him at all. Heavenly Teacher Zi Xi is a great master, and she failed to detect him too!”

Jiang Baigui leaped down from the tower and stood in front of him with his hands behind his back. He leisurely said, "Of course I'm powerful."

The madman caught fleas while looking up at him, then laughed. "Disciple of Woodcutter Wen Tiange? As expected, you speak with haughtiness in your tone."

He stood up and put one of the fleas into his mouth, which crackled, then spat it out and said, "Even Wen Tiange isn't so haughty in front of me, for he lost to me. All of the four great heavenly teachers attacking you are wise. You might not be able to beat them even by working together with Zi Xi."

Jiang Baigui leisurely said, "They're old and outdated. I'll counter them in formations."

"However, their power is overwhelming."

The madman laughed and said, "How many do you have in Carefree Village? How many masters of creation are there? How many battles can you withstand? You'll soon run out of soldiers. You are fighting thousands of worlds with the masters of creation and Carefree Village! You can't win."

Jiang Baigui frowned.

The madman laughed. "Aren't you very good? Woodcutter Wen Tiange is already haughty enough, yet you're haughtier."

Jiang Baigui said with humility, "I'm not the most powerful of Eternal Peace. I have a brother who's always better than me in the same realm. However, compared to others, who are triangles, I'm a straight line."

The madman was stunned. It took awhile for him to understand. He continued, "I'm talking about wisdom, not power."

"I see."

Jiang Baigui said, "In terms of wisdom, my second brother would have to flatter me. He's not as smart as me. Compared to me, he's missing a vertical straight line."

The madman laughed and leisurely said, "Then we shall compete. I'll lay the formation, and you'll break it. If you can, I'll help you against the four great heavenly teachers. If you can't, I'll watch you die."

Jiang Baigui's eyebrows were raised as he asked, "Who might you be?"

The madman lost all of his craziness as he straightened his body. With an imposing posture and an awe-inspiring voice, he replied, "The previous number one heavenly master of the celestial heavens, Yue Tingge of the Dao Sect! The current four great heavenly teachers of the celestial heavens lost to me! The four great heavenly teachers of Founding Emperor—Fisherman, Woodcutter, Farmer, and Scholar—lost to me as well, in both might and wisdom!"

Jiang Baigui was moved as he pleaded, "The previous imperial preceptor of Eternal Peace, Jiang Baigui, hereby asks for your guidance!"

Yue Tingge's aura was aggressive as he used his vital qi to display his formation. They formed models of soldiers and treasures which he used to line up his formation.

The formation was special, as it surprisingly resembled the form of the number one treasure, the Glassy Sky Pagoda. It was split into 28 heavens with various treasures in each heaven. Soldiers and formations were deployed around the treasures. Not much, but they were able to become one with the treasures to form thousands of picturesque formations.

In addition, each formation of Yue Tingge's was different. There were thousands of different formations formed from thousands of treasures. Each one of those formations became one with the treasures!

Even more terrifyingly, he used few people, yet each formation's structure was able to unite the formation with people and treasures in a tight manner. It was easy to defend yet hard to attack!

Yue Tingge finished his formation and solemnly said, "This formation is called the Great Formation Picture of Dragon Mountain. It was restored and illustrated by the number two heavenly master, Shang Pinying, who went crazy for thousands of years after being defeated by secluded formation master Dragon Mountain Sanren. Shang Pinying called forth all the wise men of the world to try and break it. Nobody could break it after hundreds of thousands of years. I did it, which gave me the title of the number one heavenly master of the celestial heavens."

Eternal Peace Imperial Preceptor looked at the formation formed by the Glassy Sky Pagoda and shuddered. 'Many of the formation skills of this formation were researched during Eternal Peace's reform! Who is this Dragon Mountain Sanren of the past?'

In the great formation picture of the Glassy Sky Pagoda, there were too many of Eternal Peace's formations. Three people stood out as having the highest attainments in formations in Eternal Peace. One of them was the previous imperial preceptor, Jiang Baigui. The other two were God Eyes Blind of Disabled Elderly Village and West Earth Formation Master He Yiyi.

They pioneered many different formation skills and formations, entering the path with changes in formations.

Besides the three of them, there were also General of Heavenly Strategies, Qin Jian, as well as Qin Baoyue, who was famous for his killing formations, and Situ Xiu Leqing, who became famous for laying formations via the might of heaven and earth. There was also Grand General of the White Horse, Quan Wuding, who was famous for his battle formations. They all had their own specialties.

The formations used in Dragon Mountain Sanren's great formation picture largely contained formation pictures of Eternal Peace!

Other formations were variations of those from Eternal Peace's reform, but more intricate. It was just that there were thousands of other formation skills that Jiang Baigui had never seen before. Still, breaking it wasn't too difficult for him.

When he examined it, he couldn't help but admire this Dragon Mountain Sanren. The formation was actually a combination of thousands of formations and formation skills. In combination, they formed a giant killing formation!

Thousands of formations working together to become one complete formation!

Yue Tingge coughed and reminded him, "Jiang Baigui, the order of these 28 heavens can be changed at any time!"

Jiang Baigui's heart shuddered as he slowly nodded and said, "It's indeed powerful. No wonder it held up against wise men of the world for hundreds of thousands of years!"

However, he could still see how the one who laid the formation did it in a hasty manner. That Dragon Mountain Sanren could have made it more intricate, but there were many flaws due to what seemed to be a lack of energy in laying formations.

He was right. Qin Mu's consciousness at that point was heavily injured by the Grand Emperor. He was groggy and barely conscious, which caused a lot of flaws in his formation.

Besides, he laid it via the dragon qilin, which granted him the title of the number one heavenly master. However, because of this, there were many shortcomings in the formation.

The most terrifying thing about the Great Formation Picture of Dragon Mountain was how the 28 heavens could change their order at any time, which would cause previous efforts to break it to be wasted!

That was because by changing their order, one could erase another's prior efforts!

"Eternal Peace Heavenly Master, how many men do you need to break it?" Yue Tingge asked.

Jiang Baigui thought in silence before replying, "Five hundred thousand."

Yue Tingge was stunned. He used a million to break it.

Chapter 1137 Founding Emperor Visits the Celestial Heavens

Jiang Baigui morphed into 500,000 gods and devils with his own vital qi while Yue Tingge was in control of the great formation picture of Dragon Mountain Sanren. He used various formations and waited for him to break it.

It was a formation picture that nobody had broken in the hundreds of thousands of years since the Dragon Han Era. Every heavenly master knew about it. Yue Tingge became famous worldwide because he broke it. As such, he was conferred the title of the number one heavenly master of the celestial heavens!

He personally took control of the formation picture and used dazzling arrays of formations. If one wasn't intelligent enough, they could become dizzy from looking at it for one moment and find it hard to identify things, much less break it.

The army that Jiang Baigui's vital qi morphed into went straight in. He did things differently from Shang Pinying then. Shang Pinying broke every formation he saw steadily and slowly. In comparison, he deployed his army straight to the top of the 28 heavens!

Yue Tingge sighed, for he knew that Jiang Baigui knew the trick to breaking this formation picture instantly.

Yue Tingge took many years to come up with this trick.

At the top laid the heaven ball, which was the ancient god egg of the Glassy Sky Pagoda.

Jiang Baigui used superior might to occupy the areas around it without attacking it. By doing so, he blocked the egg with mirrors to lock it.

He deployed his formation inversely as he moved his army into thousands of different formations in a way that was more delicate than the formations in the Great Formation Picture of Dragon Mountain, which astounded Yue Tingge!

Yue Tingge was stunned!

The core of the thousands of formation skills of the formation picture was the egg. Jiang Baigui concentrated his superior force to attack it quickly and lay down the 28 heavens formation around it, using the egg as the core. By doing so, he became the host and occupied the 28 heavens of the formation picture, allowing him to push out the 28 heavens formation!

As such, his formation picture replaced the Great Formation Picture of Dragon Mountain and became the new 28 heavens formation picture, with the egg as its core!

Yue Tingge could no longer reverse the 28 heavens, as Jiang Baigui occupied it and reversed it. Soon, all the formation skills in it were broken. Not one survived!

Yue Tingge sighed, dissipated his vital qi, and said, "You're a genius. This formation is the great formation picture of Dragon Mountain Sanren. However, this treasure is the number one treasure in the world, the Glassy Sky Pagoda. Yet, you broke it too, using the least amount of men and suffering few casualties. You really are the number one heavenly master of Eternal Peace!"

Jiang Baigui pulled back his vital qi as well, asking, "Heavenly Master Yue, did you use this method too?"

Yue Tingge's pride was shaken as he shook his head with his hands behind his back. He disappointingly replied with an outpour of aura, "I didn't. After I entered the Heaven Ball, I used the method of nailing wedges. I nailed them into the 28 heavens one by one to limit the changes. I used a million men to break it and suffered heavy casualties..."

He recovered, smiled, and asked, "You said your brother is superior in everything except intelligence. This claim sounds familiar to me. Who might your brother be?"

Jiang Baigui replied, "Heavenly Master Yue, you probably haven't heard of him before, for he is Celestial Venerable Mu."

Yue Tingge was startled. He recovered and laughed. "So, it's him! This fellow is very haughty and acts like he's the second greatest after the heavens! I've disliked him for a long time!"

He nodded with glory overflowing on his face. "He's stronger in everything else. His speech is so infuriating that you can be suffocated by it! Yet, he's not as intelligent as us!"

Jiang Baigui nodded too, feeling the same way.

They smiled at each other, for they knew that they had found their bosom friend. They both had the pleasure of looking down at and crushing Qin Mu with their intelligence.

The celestial heavens.

Qin Mu walked out of the Spirit Energy Mutual Shift Bridge and thought, 'I wonder how the battle at the Great Void is going. Can Founding Emperor and Lang Wo defend against the onslaught of the celestial heavens?'

He was unnerved.

The cooperation between Carefree Village and the Paramita World's masters of creation was spurred on by him. He had also planned the inciting of Carefree Village's bloodthirst, as well as the re-ignition of Carefree Village's reform via refining weapons in the Great Void.

If, however, the celestial heavens gathered a very large army of the celestial heavens, they might not be able to hold on.

He looked around and saw that the celestial heavens had become way more empty than usual. Although the celestial heavens was vast and boundless, there were many gods and devils that resided there, which caused the place to be constantly crowded.

Now, almost half of the celestial heavens' forces were mobilized, which made the Celestial Street empty, as fewer people traveled on it.

'It seems that the celestial heavens has gathered its forces to attack the Great Void and prepare for one decisive battle. That's indeed the most time and force efficient method!'

Qin Mu was shaken. The ten Celestial Venerables had to be mobilized to use this method. After all, there were two Celestial Venerable level beings in the Great Void, Founding Emperor and Lang Wo. It was just that he didn't know how many of the ten Celestial Venerables had been mobilized!

'Only if Founding Emperor can withstand it will they be pulled into a stalemate. Only then can the Great Void be used to refine and forge weapons. If they fail, they can only retreat and hold the Void Bridge.'

Qin Mu narrowed his eyes and looked at the Jade Capital in the distance. If the ten Celestial Venerables wanted to get rid of Founding Emperor and Lang Wo with minimal losses, they had to use at least six Celestial Venerables.

It was the only way for a perfect victory.

There had to be two Celestial Venerables guarding and controlling the Celestial Emperor corporeal body in the celestial heavens to prevent an attack from Heaven Duke and Earth Count.

'I don't know how many Celestial Venerables headed for the Great Void...'

He was thinking about it when torrential sword energy was activated in the celestial heavens' chambers of concubines. Qin Mu's heart shuddered as he looked on hastily. He saw a sword light rise into the air from Celestial Emperor's chambers of concubines to form the apparition of the 34 heavens of the sword path, which suppressed the celestial heavens!

The sword light rose into the air, and crackling immediately came from the halls and palaces of the celestial heavens. The palaces and halls cracked open as if they were cut open by a sharp sword!

Loud noises came from Qin Mu's back too. He immediately turned around and saw how the Southern Heavenly Gate of the celestial heavens was sliced neatly into two!

"Founding Emperor Qin Ye has arrived at the Dragon Han Celestial Heavens to pay a visit to Celestial Emperor!"

Founding Emperor's voice came from the chambers of concubines in the Jade Capital. It was grand and loud as it reverberated in everyone's ears.

There was an uproar across the celestial heavens.

Although half of the celestial heavens' forces headed for the Great Void, there were still many people guarding the celestial heavens. The Left and Right Feathered Forest Guards, Left and Right Divine Awe Guards, Left and Right Divine Stratagem Guards, the six imperial guards of the celestial heavens, and thousands of other gods and devils rose into the air to get into formation before rushing towards the chambers of concubines.

Qin Mu immediately rose into the air to get a better view.

"Your awe is unparalleled and unchallenged, Emperor. Yet you choose to hide in the Numinous Sky Hall and not show yourself. Why, Emperor?"

Founding Emperor pulled out the Carefree Sword and gently swung it in the chambers of concubines. Instantly, the sword ripped the void, causing an indefinite expansion of space that separated him from the six imperial guards chasing after him!

They tried their best to fly towards him, yet the space between them expanded, causing them to be unable to get close to Founding Emperor no matter how fast they flew.

Founding Emperor put the Carefree Sword back into its hilt and walked towards the Numinous Sky Hall, saying loudly, "I heard that the ten Celestial Venerables laid a trap and killed you a long time ago, Celestial Emperor. After that, they made a substitute in order to fool everyone."

He walked quickly, yet not hastily, and leisurely said, "If you're real, Emperor, then take a blow from my sword!"

Chapter 1137.1 – Battle of Celestial Venerables

Step by step, Founding Emperor closed in on Numinous Sky Treasured Hall[1] as his aura became stronger. The sword qi that burst forth from his surroundings seemed to split Celestial Heavens into two halves!

He had already arrived beneath Numinous Sky Treasured Hall. His sword is yet to leave its sheath, yet he himself was an incomparably sharp sword.

Spreme sword path, trampling the heavens to meet Celestial Emperor!

Even if ancient god Celestial Emperor does not come out, he will slaughter through Numinous Sky Treasured Hall and take Celestial Emperor's head!

Celestial Heavens was in chaos as countless gods and devils ran around like headless flies. Some were rushing towards Jade Capital's Numinous Sky Treasured Hall, whilst others sought to escape. The rest took advantage of the situation: looting and pillaging around.

The gods and devils who were officials in Celestial Heavens hid in their homes. The wives and family members shivered whilst a god official consoled them. "Everything is alright. It doesn't matter who is Celestial Emperor. As long as Celestial Emperor wants to rule over the myriad heavens, he has no other choice but to use us. Even if Founding Emperor killed Celestial Emperor, he won't harm us."

Because of Founding Emperor's arrival, the Celestial Heaven that used to look orderly like stretched chains fell into chaos just like that. On this day, Celestial Heaven's bright and beautiful exterior was torn apart and what is under was unexpectedly rotten corruption.

Whoosh-

A ray of light flashed past. Celestial Venerable Hao's face was dim as he stood in front of Numinous Sky Treasured Hall. Taking a step forward, he looks at Founding Emperor from above and said coldly, "Qin Ye, you are too impudent."

Founding Emperor held Carefree Sword in his hand and said leisurely, "Celestial Venerable Hao, you plotted to kill Celestial Emperor and steal his authority. You even made a fake Celestial Emperor to guard the place. Am I the impudent one or are you impudent?"

Celestial Venerable Hao's aura bursts forth as multiple Heavenly Palaces leap out from the light wheel behind his head, filling the Celestial Heavens. He said lightly, "Six Celestial Venerables are headed towards the Great Void. The Celestial Heavens appear empty but there are still four Celestial Venerables overseeing it. Qin Ye, you are seeking your own death."

“Four Celestial Venerables overseeing?”

Founding Emperor grasped his sword hilt and said leisurely, “Actually, there’s already more than enough. With us two fighting alone, we can cause havoc across the entirety of Dragon Han Celestial Heavens.”

“Not enough”

Celestial Venerable Xiao walked over from behind him whilst filing her nails. With a smile, she said, “Dao friend Qin, it’s really not enough.”

“It’s still enough.”

A giant claw descended, and a huge void beast appeared in Celestial Emperor’s chamber of concubines. Divine King Lang Wo plainly said, “Now we have four Celestial Venerables. It’s not impossible for this battle to completely destroy Celestial Heavens.”

The corner of Celestial Venerable Xiao’s eye twitched. Suddenly, Heavenly Lady Qiang’s voice rang out, she smiled lazily. “Because I’m only a Heavenly Lady, I’m afraid to show my face and so I didn’t go to the Great Void. I didn’t expect to bump into Celestial Venerable Qin in Celestial Heavens. Who is this sister?”

Divine King Lang Wo stood up high, her sleeves fluttering but she didn’t say anything.

Founding Emperor’s palm moved lightly as half an inch of Carefree Sword is revealed from its sheath. He said leisurely, “Looks like Heaven Duke and Earth Count have gotten their chance.”

Celestial Venerables Qiang, Xiao and Hao were astonished. They immediately understood the meanings of his words.

As long as there were fewer than three Celestial Venerables guarding Celestial Heavens, then these two ancient gods would take action and kill off the Celestial Venerables.

Right now, there were four Celestial Venerables: Hao, Xiao, Qiang and Heavenly Lady Yan in the chamber of concubines. If they sent two Celestial Venerables to stop Founding Emperor and Divine King Lang Wo, then it would be a immense opportunity for Heaven Duke and Earth Count.

After eliminating four Celestial Venerables, the remaining six would have to face an embarrassing disadvantage.

One should know, Founding Emperor Qin Ye was a natural ally of the ancient gods. Back then, Founding Emperor Era was supported by the ancient gods.

The ancient gods groomed Founding Emperor was exactly to help him rival against the Celestial Heavens.

Founding Emperor Qin Ye, with the addition of Divine King Lang Wo, Heaven Duke, Earth Count, Celestial Venerable You, ancient gods three emperors, as well as the Celestial Venerable Yue who was hiding in seclusion, caused the power balance to reverse suddenly.

Although Heaven Duke and Earth Count would be restrained by the Great Dao[2] of their own realms, it was definitely enough to severely injure them!

In the instant that they lost their composure, Founding Emperor suddenly pulled out his sword, and Carefree Sword stabbed towards Celestial Venerable Hao!

He wanted this opportunity!

He did not come to Celestial Heavens to compromise, nor was he here to joke around with the Celestial Venerables.

He was here to destroy it!

He was here to beat Celestial Heavens until they bled. He wanted to beat the Celestial Venerables until they didn't dare to enter the Great Void!

His first move was also his strongest as he unleashed the 34th Heaven of his Sword Path that was based on the 20th basic sword form.

His sword realm expanded and erupted, pressing forward with an indomitable will. As a peerless overlord that founded an era, just this aura alone was rare in a million years, let alone his strength!

In the distance, when Qin Mu saw this sword, his spirits couldn't help rise as he cheered loudly.

The Founding Emperor of today was the Founding Emperor he wanted to see. He was strong, confident, and believed no obstacles can stop him. Any dangers and difficulties would be split apart by his sword!

However, Qin Mu's expression soon changed drastically. He hurriedly smacked the dragon qilin and shouted, "This place is too high, be careful of the sword qi!"

Just as he finished speaking, Celestial Venerable Hao raised his palm and grabbed at Founding Emperor's 34th Sword Path Heaven.

He was like a high and mighty emperor that controlled all the Great Dao in the world. When he reached out with his hand, the myriad Dao of Heaven and Earth were under his rule.

Behind him, the Celestial Palaces overlapped one another, and light shone brightly. Behind his head, the wheels of light were radiant and incomparably bright. The Great Dao in his hands gathered as myriad Dao converged.

That was a pure Precelestial Dao without a single trace of Postcelestial Dao.

As the son of Celestial Emperor and Yuanmu, Celestial Venerable Hao had unparalleled pride and proud bloodline.

His talent was extremely high, and he was Celestial Venerable Hao, who had opened up Six Directions Divine Treasure. The only thing that made him feel inferior was that Celestial Emperor had only given birth to him after reincarnating as a human, meaning his bloodline is half human.

This was the biggest stain in his life.

However, from the strength displayed by all the Celestial Venerables, he was the strongest. Because of his bloodline, he was born with a closer connection to the Dao than the other Celestial Venerables, making it easier for him to cultivate and comprehend the essence of the Great Dao.

Therefore, he had the most Precelestial Dao.

Founding Emperor sword stabbed into his palm, the Sword Path Domain collided with the Myriad Dao Domain. The two's divine arts burst forth, but Celestial Venerable Hao's cultivation was incomparably dense, far surpassing Founding Emperor's. Even Celestial Venerable Huo, who had absorbed South Deity's Great Dao, was still inferior.

His power was tyrannical, and it wasn't only due to the talent of his bloodline. It was also the result of his painstaking cultivation.

There were a total of 28 Celestial Palaces behind him, and this was the highest number among the ten Celestial Venerables. Even Celestial Venerable Xu only had 20, and Celestial Venerable Lang only had 18.

Although they may be hiding their abilities, Celestial Venerable Hao with 28 Celestial Palaces had the most complete Great Celestial Heavens technique.

He was already half a step into the legendary Celestial Heavens Realm!

However, what was terrifying was that when the Sword Path Domain collided with the Myriad Dao Domain, Founding Emperor's sword actually braved all hardships and broke through the Myriad Dao Domain like snapping bamboo. With a whoosh, Celestial Venerable Hao saw the tip of the sword stabbing out from the back of his hand.

Meanwhile, Founding Emperor's body trembled violently, and his Sword Path domain collapsed. The 34 heavens of the Sword Path lost control and shot out in all directions!

A terrifying Sword Path storm seemed to have set off with Numinous Sky Treasured Hall as the centre. With that place as the origin, it expanded in all directions, engulfing everything that passed by!

It was not only the Sword Path Domain, but also the Myriad Dao Domain that was expanding continuously!

Celestial Venerable Hao's Myriad Dao Domain was well prepared, and only now did it reveal its incomparable prestige!

[1] Changed "Numinous Sky Hall" to "Numinous Sky Treasured Hall" for plot reasons in the far future.

[2] In some instances, “Dao” is difficult to translate to “Path” and is instead left in its raw form. I’ll try my best to be consistent on where I use Path and where I use Dao. I’m thinking of using Path for postcelestial and Dao for precelestial.

Chapter 1138 – Great Emperor of the Sword Path

In terms of divine arts, Founding Emperor’s Sword Path was the quickest. He was straightforward and his sword was sharp. However, Celestial Venerable Hao’s divine art was different and its power was only fully unleashed now.

He looked down on Postcelestial Dao which is why he only cultivated Precelestial Dao.

Postcelestial Dao varied greatly but only a few can be cultivated to the apex. For example, Crimson Light Era’s Creation Path and Founding Emperor Era’s Sword Path.

Among them, Founding Emperor’s Sword Path was the pinnacle of pinnacles, achieving the 34th Heaven of the Sword Path.

Even the Path of Creation in Crimson Light Era had never reached the height of the Sword Path.

However, Precelestial Dao is different as it used ancient gods as its template and many people cultivated it. They could comprehend a lot from studying the ancient gods which made it easier to start.

Historically, many Emperor’s Throne practitioners comprehended their own Emperor’s Throne techniques by referencing the ancient gods.

As a Celestial Venerable, it was easy for Celestial Venerable Hao to obtain these techniques. And because of his half-god bloodline, it made learning them much easier for him.

Even though his comprehension towards the Precelestial Dao isn’t as exceptional as Founding Emperor’s 34 heavens, it was still extremely high.

His Myriad Dao Domain erupted, crushing Founding Emperor’s Sword Path Domain.

The storm created by the shattered Sword Path Domain and the Myriad Dao Domain swept the surroundings and destroyed everything. The only place not destroyed are the land behind each Venerable’s body, including Numinous Sky Treasured Hall which is still standing tall behind Celestial Venerable Hao.

Other than that, Jade Capital was almost swept clean!

Celestial Venerable Hao’s face became dim as he looked at the sword wound on his right hand. He said solemnly, “Qin Ye, as the eighth Celestial Venerable of Dragon Han, you are still lacking.”

Founding Emperor wiped away the blood next to his mouth, it was clear that his injuries were not light. He said indifferently, “You had nine hundred thousand more years than me and yet you could only cultivate to this step. Hao, you are old and can’t improve anymore but I’m still in the process of improving.”

His body trembled as a single Sword Celestial Palace appeared from behind him. He said lightly, “That year, Celestial Venerable Mu, together with you, imparted the method of becoming a god to the masses. At the end, you said that Celestial Venerable Yu deduced that there was still a realm higher: Celestial Heavens Realm. However, from my viewpoint, Celestial Heavens Realm is just ruining a masterpiece with crude strokes.[1]”

Celestial Venerable Hao stared at his Sword Celestial Palace, his pupil shrinking suddenly.

Celestial Venerables Qiang’s and Xiao’s gazes landed on his Sword Celestial Palace, their visions filled with doubt.

Founding Emperor was too strong, yet he only had one Celestial Palace. This was almost impossible!

His current strength compared to the current Celestial Venerables is above average.

How can just a single Celestial Palace have such strong strength?

“I only cultivated a single Celestial Palace. I only used forty thousand years to be on par with your so-called ten Celestial Venerables.”

Founding Emperor smiled faintly and said leisurely, “Using 36 Celestial Palaces and 72 Treasured Halls[2] to construct Celestial Heavens. Even if you waste all your energy, you still can’t cultivate it. The Celestial Heavens Realm is just a conjecture of Celestial Venerable Yu. In my opinion, it doesn’t exist. In fact, the God Realm doesn’t exist either. There’s only one realm after the Divine Treasures and that is the Dao Realm! Hao, Qiang, Xiao, you’ve been walking down the wrong path.”

Celestial Venerable Hao snickered, “You’re injured, and your injury is even heavier than mine. What are you saying?”

Celestial Venerable Xiao was in deep thoughts, a slight smile appeared on his face.

Celestial Venerable Qiang knitted her brows and thought hard before shaking her head.

Founding Emperor flicked his sword, a crisp and melodious sound rang out. He leisurely said, “The dead-end following Divine Bridge. Celestial Palace Realm and Celestial Heavens Realm, only Celestial Venerable Yu, after encountering the dead-end of Divine Bridge Realm, had the thought of those two realms. But what if Divine Bridge Realm didn’t exist?”

Divine King Lang Wo blinked and looked at him curiously. Her heart was moved.

Celestial Venerables Qiang, Xiao and Hao were moved even more.

Far away, Qin Mu brought the Dragon Qilin and Yan’er[3] to avoid the torrents caused by the collision between Sword Path and Myriad Dao. When he heard Founding Emperor’s words, his heart trembled greatly.

He knew immediately why Founding Emperor said those words.

What if Divine Bridge Realm didn't exist?

Eternal Peace didn't have the Divine Bridge Realm!

The people of Eternal Peace have replaced their Divine Bridge with Celestial River Divine Treasure!

Celestial River Divine Treasure was created by Xu Shenghua and Qin Mu and it was mainstream in Eternal Peace. Founding Emperor left Carefree Village and travelled through Eternal Peace, and it was obvious that his experiences there moved him greatly, allowing him to once again to join the forefront of reformers!

Qin Mu became excited. The reform of Eternal Peace had once came to a stop after opening Celestial River Divine Treasure and never attempted to alter the cultivation system of Celestial Palaces.

But now, Founding Emperor had taken that step, opening another path and continuing the reform!

He really wanted to hear the opinion of this grandmaster and his explanation of the Dao Realm!

"The so-called God Realm is the Celestial Palace Realm. The Celestial Palace is just a model copying Celestial Heavens, refining fake into real."

Founding Emperor laughed and said, "What if Dragon Han Celestial Heaven is destroyed? If the real didn't exist, than how can the fake? Only the Dao is real, and therefore, there is only the Dao Realm and no Celestial Palace Realm!"

"Presumptuous!"

Celestial Venerable Hao looked gloomy, and said coldly, "Traacherous thoughts"

Celestial Venerable Xiao smiled and said, "Celestial Venerable Hao, it won't hurt to hear what he has to say."

Founding Emperor said, "I have already sensed that there are 36 layers of the Dao Realm, called the thirty-six Heavens. The highest layer is Sword Path Grand Overarching Heaven. Currently, I have already cultivated up to the 34th Heaven."

He glanced at Celestial Venerable Hao, then at Celestial Venerable Qiang and Celestial Venerable Xiao before shifting his gaze to Celestial Venerable Yan, who was hugging a white cat in the distance. He smiled slightly and said, "When I reach the 35th Heaven, Celestial Venerable Hao, our cultivation and strength will be no different. When I reach Sword Path Grand Overarching Heaven, even if you complete Celestial Heavens, you won't be my match."

He gently swung his sword, the blood that was once on the sword has now seeped into the ground forming patches akin to plum blossoms.

"By that time, you ten Celestial Venerables will witness a miracle that has never happened before."

Founding Emperor smiled and said, "A Postcelestial lifeform will become an eternal ancient god of the sword path."

There was a deafening silence.

Celestial Venerable Xiao suddenly said in a seemingly hoarse voice, "You want to become another Grand Emperor, Sword Path Grand Emperor!"

Celestial Venerable Hao's mind quaked, and his eyes revealed his disbelief as his gaze landed upon Founding Emperor.

Celestial Venerable Xiao knew he said something he shouldn't have said but his expression stayed unchanged.

Founding Emperor was amazed and said, "Grand Emperor? Grand Emperor has already reached this step? In that case, he is actually my Dao friend."

Celestial Venerable Xiao faintly smiled and said, "I heard that Grand Emperor is dead but not gone completely because he had already cultivated to Divine Consciousness Grand Overarching Heaven, allowing him to imprint his consciousness onto the Supreme Void forever. Qin Ye, you are also walking this path. However, what makes you more suited is that Grand Emperor's divine consciousness wasn't cultivated by himself but was aided by the sacrificial offering of the masters of creation. His divine consciousness isn't pure and can only be considered half a Divine Consciousness Grand Overarching Heaven."

He praised, "If you achieve this step, you will be the first Postcelestial existence ever to attain the Dao. I have met the masters of creation in the Great Void and travelled the Blood Rust Zone so I know some of Grand Emperor's secrets."

Celestial Venerable Hao's gaze flickered but he did not say anything.

Founding Emperor thoughts wandered off as he said, "This Grand Emperor is worth meeting. However, before that..."

He gaze swept all around and said with a laugh, "Let us destroy Celestial Heaven! Breaking the gods within people's hearts is hard, but it's not hard to break Celestial Heavens!"

Far away, Qin Mu's expression changed slightly and solemnly said, "Go! Quickly leave Celestial Heavens!"

In Jade Capital, terrifying waves erupted. Founding Emperor, Celestial Venerable Hao, Celestial Venerable Xiao, Divine King Lang Wo, and even Celestial Venerable Qiang and Celestial Venerable Yan all attacked at the same time!

At the same time, the sky became incomparably bright whilst the ground of Celestial Heavens seemed to have sunk into an incomparably dark night.

"Heaven Duke!"

“Earth Count!”

Celestial Venerable Qiang and Celestial Venerable Yan’s hearts trembled. They stopped immediately and quickly mobilised their Divine Artifact Celestial Venerable Yu!

Founding Emperor laughed loudly and unleashed his full power!

[1] Literal meaning is “drawing a leg on a snake”

[2] Changed Throne Halls to Treasured Halls as it uses the same characters as Numinous Sky Treasured Hall (also for future plot reasons.)

[3] ‘er is used to call a child. It’s a way of showing affection

Chapter 1139 – Splitting Open Celestial Heavens

Celestial Venerable Qiang and Celestial Venerable Yan were rather anxious. Even if Heaven Duke and Earth Count were bound by the Great Dao of Heaven and Earth, the power they could unleash was still extraordinary. If they didn’t mobilize Divine Artifact Celestial Venerable Yu, they definitely wouldn’t be able to contend at all!

At the same time that Founding Emperor made his move, Divine King Lang Wo also made her move. Vast divine consciousness flooded over and instantly enveloped half of Jade Capital, causing it to enter the space-time created by her divine consciousness.

The Left and Right Feathered Forest Guards, Divine Might, and Divine Strategy had just broken through the space created by Founding Emperor’s sword when they landed in the boundless space and time visualized by her divine consciousness. They were unable to come aid in battle.

The combat power of these six armies[1] was no small matter. When they went out to battle, they could even suppress Emperor’s Throne practitioners. However, when faced with an existence on the level of a Celestial Venerable, they weren’t enough.

While Divine King Lang Wo was trapping the six imperial guards, Celestial Venerable Xiao brazenly attacked her as the void beast leaked backwards into the void.

Divine King Lang Wo’s voice came from the depths of the void. “Xiao, as the disciple of Celestial Venerable Yun, you know too much about Grand Emperor which makes me suspect your identity. Perhaps you are a family with Celestial Venerable Hao, and you are his father.”

Celestial Venerable Xiao’s gaze flickered, and he also rushed into the void.

Even though Celestial Venerable Hao’s Dao heart was stable, he was stunned by her words. He was at a loss when facing Founding Emperor’s sword and hurriedly avoided it.

This was something that had never happened in hundreds of thousands of years.

Ever since Celestial Venerable Yun died, he had never avoided anyone's moves. He had always been the god with the most dense cultivation and the most exquisite divine arts in this world.

However, with his mind in rambles, he had no choice but to avoid Founding Emperor's sword to prevent himself from getting injured.

Celestial Venerable Qiang and Celestial Venerable Yan were also shocked. They looked at one another and were extremely wary of each other.

"Hao, you people have already lost the courage to be pioneers!"

Founding Emperor was full of heroism as his sword pushed Celestial Venerable Hao back. His sword moves were endless like a torrent of sword qi and lightning crisscrossed in Celestial Heavens. The vast Celestial Heavens was like a colourful silk under his sword, and under the cutting of an artisan's shears, it started to split.

Celestial Venerable Hao cannot endure anymore and stopped retreating. He drew a circle with his right hand, and a divine weapon suddenly appeared in his hand.

In Celestial Heavens, everyone knew that Celestial Venerable Hao was proficient in divine arts and always had a distaste for divine weapons, let alone use one.

However, no one knew how much he had hidden.

Back then, there were three people who had ransacked ancient god Celestial Emperor's Clear Sun Hall. One was Celestial Venerable Yun, one was Qin Mu, and the other was him. The three of them split the treasures that the ancient god Celestial Emperor had obtained in Ancestral Court.

Of all the treasures Celestial Venerable Hao had stolen, he gave jade pillar over to Dao Ancestor. It was used to create the jade pillar of Guardian Pavilion. A Tai Sui^[2] was also placed in Divine Creation Artifact^[3] to aid in the construction of Divine Artifact Celestial Venerable Yu but also the divine weapons of the ancient gods Four Emperors.

However, he kept all the other treasures and secretly forged them into his own divine weapons.

At this moment, his right hand drew a circle, and divine weapon appeared that resembled a circular plate. However, the plate immediately split apart, and with a clanging sound, the 36 Great Dao of Yuandu appeared, constructing the Primordial Realm in its most oldest form.

They were the 36 divine weapons: Dragon, Phoenixes, Mountains, Lake, River, Hill, Creek, Cauldron, Pagoda, and other divine weapons of all shapes and sizes!

The power of each of these divine weapons was incomparably tyrannical, and they radiated boundless Dao might. Ant one of them could suppress an entire world!

A divine weapon forged from the most powerful treasure of Ancestral Court was bound to be extraordinary!

The plate splits out again, and with a few clangs, the 49 Heavenly Dao appeared. They were also in the form of the 49 Heavenly Dao treasures: Outline[4], Umbrella, Abyss[5], Pit, Rope, Bamboo, Palace, Gate, Well, and so on!

The plate splits once more and formed the Great Dao of Youdu outside the Heavenly Dao. The 64 divine weapons of Youdu Great Dao were: Talisman, Ship, Mask, Whip, Horn, Eye, Kui[6], Mountain Pass, Lantern, Fire, and so on. They were all different.

The plate split yet again, forming the various stars and constellations in the sky. It was even more complicated and its power was even stronger!

This was his Myriad Dao Heavenly Wheel!

As Founding Emperor's sword stabbed and Celestial Venerable Hao blocked with his hand, terrifying quakes instantly attacked the entire Celestial Heavens!

At this time, Qin Mu and the rest had already rushed out of Southern Heavenly Gate and were far away from Celestial Heavens. Suddenly, a terrifying vibration came from Heaven and Earth and reached their ears. But the sound came from their Dao hearts, as though something collapsed within!

Qin Mu suddenly turned his head back and instantly saw an breath-taking sight.

In Celestial Heavens, incomparably brilliant rays of light rose from the Numinous Sky Treasured Hall like a multicoloured sunrise.

At the same time, gorgeous and vibrant rays of light rose from below Celestial Heavens.

The range of the multicoloured lights grew longer and longer. With Numinous Sky Treasured Hall as the center, it spread towards Eastern Heavenly Gate and Western Heavenly Gate!

Not only that, at the place where the light have reached, Celestial Heavens gave off a world-shaking rumble. The divine palaces and halls have split into two, one after another.

Qin Mu's scalp turned numb when he saw this. This fissure would soon spread to Western Heavenly Gate and Eastern Heaven Gate. At that time, Celestial Heavens would be completely split into two!

The speed at which the multicoloured lights spread was extremely fast, and it was becoming quicker and quicker.

Finally, Western Heavenly Gate shook, and with a loud crack, it split open!

The multicoloured lights arrived at Eastern Heavenly Gate. Right as Eastern Heavenly Gate rumbled and was about to split apart, Celestial Venerable Xiao suddenly appeared, and with a shout, obstructed the splitting of Eastern Heavenly Gate.

Even so, all the gods in the world who had cultivated to God Realm and opened their Celestial Palaces felt a world-shaking tremor in their minds as though something had split open!

Almost simultaneously, they raised their head and looked towards the direction of Celestial Heavens.

Some gods didn't know where celestial Heavens was, but they all looked towards that direction. That was because the sound in their head was coming from the direction of Celestial Heavens!

This loud sound didn't just enter their minds but it also entered their Dao hearts, as though their Dao hearts had split open!

The current Celestial Heavens was like an open mouth that gave people an incomparably absurd feeling.

Celestial Heavens that represented Celestial Emperor's supreme authority had actually split apart just like that!

Founding Emperor laughed loudly and transformed into a sword light escaping far away. His voice came from afar. "Celestial Venerable Hao, today's destruction of Celestial Heavens was all thanks to your help! I'll visit you again another day!"

Celestial Venerable Hao's paused, and he controlled the Myriad Dao Heavenly Wheel to chase after him.

Meanwhile, Celestial Venerable Xiao shouted, "Heavenly Ladies, quickly stabilize Celestial Heavens. Don't let it continue to split! Otherwise, Ancestral Court will appear!"

Celestial Venerable Qiang and Celestial Venerable Yan's expressions changed slightly. They hurriedly flew over and worked together to stop Celestial Heavens from splitting.

Celestial Venerable Xiao quickly melted the broken sides of Celestial Heavens, trying to fuse them together. However, even with his remarkable abilities, it was very difficult for him to restore the Celestial Heavens to its previous state.

After he repaired Celestial Heavens, he saw a huge scar in the sky that looked akin the wound on Celestial Heavens!

Outside Celestial Heavens, Qin Mu's heart throbbed. Without a basis, he intuitively felt that the seal of the Ancestral Court had come loosened!

In the depths of the universe, a boundless tremor traveled here, and a rift suddenly appeared in the darkness.

[1] Not sure why there are 6 armies because I only counted 4.

[2] 太岁 is an archaic name for Jupiter.

[3] It's been too long and I don't remember the name the previous author gave to it. It is the equipment used to manufacture Divine Artifact Celestial Venerable Yu.

[4] 纲 means the guiding rope in a fish net.

[5] 淵 is the same character used in “Ruins of Ends” (which I’ll be changing the translation to “Returning Abyss” for a more literal translation).

[6] 夔 or “Kui” means a one legged mountain demon.

Chapter 1140 – Opening Ancestral Court

Ancestral Court.

Vast and boundless, with ancient divine mountains and treasures scattered everywhere. Any random item is sufficient to make the outside world lose its mind yet this place is extremely desolate. There were only huge void beasts lurking about in this ancient and primordial world: residing, reproducing, killing, and devouring everything in sight.

On this day, all the void beasts suddenly sensed something within their hearts and raised their heads to look towards the sky; a crack has formed in the sky.

Meanwhile in the 19th Void, the void beast mother opened her eyes to gaze at the crack in the sky.

Besides her were densely packed with an absurd amount of void beast eggs, numbering in the ten millions, which filled the entire 19th Void.

“Sha sha sha-”

The bones of the void beast mother trembled while countless void beasts became excited. They rose into the sky and rushed towards the crack.

The crack grew larger and larger until it stopped after reaching a certain size. From Ancestral Court it was now possible to see the bright starry sky and the vibrant world outside.

Like a swarm of locusts, the densely packed void beasts flew towards the crack; a soul-stirring roar came from their mouth. As the first void beast rushed into the crack and tried to fly out of Ancestral Court, its corporeal body suddenly exploded and its flesh melted.

In a frenzy, more and more void beasts threw themselves into the crack. Their bodies bloomed one by one into beautiful flowers made of blood creating a gorgeous sight.

In just a short moment, tens of thousands of void beasts have already died in the crack; their blood dyed the crack scarlet.

From outside, Ancestral Court seemed like a bloody wound inflicted onto the universe.

Suddenly from the depth of the void, the void beast mother let out a low and powerful roar. The other void beasts stopped rushing into the crack and instead sprawled around it: pushing the crack wider with their muscles and claws.

However, this seal was made by the ancient gods gathering all their powers back in the antiquity era. It used the back sides of each world as the seal and wasn’t something that can be broken by them![2]

In Celestial Heavens, Celestial Venerable Xiao's face sunk.

Celestial Heavens was an integral part in sealing Ancestral Court. With only him alone, he cannot complete the seal again, especially when many ancient gods were now dead or injured. Even if this wasn't the case, Heaven Duke and Earth Count would not work together with him again.

With the loosening of Ancestral Court's seal, there was no possibility of fixing it anymore.

The only thing he can do is to prevent the damage spreading further.

However, if Ancestral Court's seal was broken, the people of the world would naturally discover its location, and this buried history would gradually surface in the eyes of the people.

"Other than its history, there's also a great terror: one that can destroy the world. I'm afraid it will leak out from Ancestral Court," he thought to himself.

Almost simultaneously in the Great Void, Celestial Heavens' army of gods and devils also felt that peculiar rumble. The marching army, who were preparing to attack the Great Void, turned their heads to look towards Celestial Heavens.

It is impossible to see Celestial Heavens from the Great Void but they can feel it.

Celestial Venerable Hong's heart stirred slightly, showing a slight smile. He said solemnly, "Celestial Heavens changed. Everyone, this must be caused by Founding Emperor's rebellious attack against Celestial Heavens; not to be left unchecked! I'll head back and take a look."

God Emperor Lang Xuan, Divine King Zu, and the rest couldn't help but be astonished. The Celestial Venerables who were most proactive in attacking the Great Void, apart from Celestial Venerable Huo, was Celestial Venerable Hong. And yet, why was Celestial Venerable Hong so eager to rush back now that they were in the Great Void?

Celestial Venerable Gong said indifferently, "I'll return as well. Dao friend Hong, let's go together."

Celestial Venerable Hong's expression changed slightly; he was not willing to travel together with her. He laughed dryly and suddenly escaped, becoming a beam of light.

Celestial Venerable Gong transformed into a rainbow and followed closely behind.

God Emperor Lang Xuan, Divine King Zu, Celestial Venerable Xu, Celestial Venerable Huo, and the rest looked at each other. God Emperor Lang Xuan coughed and said with a smile, "Dao friend Hong and Dao friend Gong have always been on bad terms with each other. When I first met them, it was when Dao friend Gong was beating Dao friend Hong up badly. If they go together, some trouble might occur on the way; I'll go to help smooth things out between them." After saying that, he also left.

Divine King Zu hurriedly shouted, "They don't even recognise their own families once they start fighting. If it's only Dao friend Lang Xuang, I'm afraid he cannot stop them. I'll go and help!"

Celestial Venerable Xu frowned and looked towards Celestial Venerable Huo, “Celestial Venerable Hong and Celestial Venerable Gong have mysterious origins, whilst Lang Xuan and Divine King Zu have ancient origins: existing since the Ancient Primordial Era and have survived until now. The four of them left because they know many secrets. Celestial Venerable Qin is definitely not the only one who attacked Celestial Heavens. Celestial Venerable Huo, why did you not choose to return?”

Celestial Venerable Huo said gently, “If you don’t leave, how can I leave?”

Celestial Venerable Xu said coldly, “I have no interest in you.”

Celestial Venerable Huo walked side by side with her and said with a smile, “Among the ten Celestial Venerables of Celestial Heavens, the only pure Celestial Venerables are you and I. Grand Emperor and Celestial Emperor are hidden among them, with other ancient lifeforms hidden about. It is hard to distinguish who is truthful and who is deceitful. If you and I become allies, we can advantage and retreat together, increasing our chances at victory.”

Celestial Venerable Xu stopped her footsteps and replied with a smile that wasn’t a smile, “Celestial Venerable Huo, aren’t you always a part of Celestial Venerable Huo’s faction? Aren’t you afraid that Celestial Venerable Hao will know about your words?”

With a stern face, Celestial Venerable Huo said, “I admire you. If we can get along, Celestial Venerable will only think more highly of me. Even if you’re half god, you’re still half human.”

Celestial Venerable Xu sneered and continued to move forward. “I’m a half god. What I don’t understand is that you’re clearly a human Celestial Venerable, yet you are more concerned about stifling the human race’s power more than anyone else. Those years, when you besieged Celestial Venerable Yun, when you killed Light Emperor, you also sent your main troops. When you killed Celestial Venerable Yue and Celestial Venerable Ling, when you eliminated High Emperor, you were also at the forefront. Against you’re own race, you have been too harsh.”

Celestial Venerable Huo had a solemn expression as he said in a sunken voice, “For the future of the human race, I had no choice but to take action. They are incapable of revolting against Celestial Heavens, against ancient gods, against the Great Dao of Heaven and Earth. They struggled for the lives of the human race, when in reality, it is impossible! It is impossible for the human race to win; they have to submit to stronger power to survive.”

He looked into the distance with a deep gaze, “For their own selfishness, they wanted to sacrifice the lives of our entire human race. I’ve asked the people under my jurisdiction, and everyone is living very well: no one wants to revolt! People who walk different paths cannot work together. Even if it’s a precious friend of the past, I won’t show mercy and let them trample on my human race!”

Celestial Venerable Xu shot a glance at him and said, “And that’s why you are also concerned about the trip to the Great Void. You are the first to come in order to kill Celestial Venerable Qin and exterminate Carefree Village.”

Flames cracked behind Celestial Venerable Huo’s head, turning into a wheel of light. “He is fishing for fame. I cannot let him drag my human race into the land of eternal damnation![1] If he joins forces with

the ancient gods, it's destined to be a path of no return; he will only become a dog raised by the ancient gods! If he manages to succeed, the human race will become dogs like him; they will not be able to live their current lives! I have tried to convince him, but he's too stubborn. If that's the case, let me end his sinful life so that he can't make any more mistakes!"

Celestial Venerable Xu couldn't resist asking, "What about Celestial Venerable Mu?"

Celestial Venerable Huo was puzzled.

"Back then, when Celestial Venerable Mu went to the celestial heavens, there were three Celestial Venerables protecting him in Jade Pool. You were one of them, right?"

Celestial Venerable Xu sneered and said, "You are also two-faced; you say one thing, yet you mean another."

Celestial Venerable Huo shook his head and said, "You're wrong. Among the ten Celestial Venerables, I disdain him the most. I can't even tolerate a speck of his existence."

He clasped his hands behind his back, "Celestial Venerable Mu is even more of a troublemaker than Qin Ye; his words and actions are far more bewitching. If he continues, the human race would be doomed! For the future of the human race, I will naturally be the first to kill him. Furthermore, Hao and I are friends, why would I betray Hao to save him? I wasn't among the three Celestial Venerables that saved him that day."

Shaking his head, he continued, "If the human race wants to survive, we have to eradicate these rebels and traitors, not leaving a single one alive! My heart aches every time I see those people of Eternal Peace being bewitched by these rebels. Isn't it good to just be alive? Such a pity, I had a chance to kill him in the Great Void but I was muddle-headed for a moment. It was because he had saved me that I could escape from the Supreme Divine Consciousness Domain two hundred years ago, and so I didn't kill him."

He said indifferently, "However, at South Extremities^[3], he committed a heinous crime and severed ties with me. I won't have such worries the next time I kill him."

"Your heart is in good faith, but you are too harsh on your own race," Celestial Venerable Xu said with a smile.

Suddenly, her expression changed, and she raised her hand to stop the army of Celestial Heavens. She sneered and said, "You actually built Youdu here! How impudent, a brat dares to be Earth Count here! Where's your respect? Come out!"

[1] The literal meaning is "the land of unrepeated myriad calamities"

[2] So according to the author (in the notes after the story has finished), he said that the world of TOHG isn't flat. There was someone who made a pretty accurate map of the world on some Chinese forum but I have never found it to this date. If anyone found it, please email me and I'll embed it onto one of the latter chapters. ☺

[3] I don't remember what the previous translator gave this word. It's the land of South Deity. The machine translator liked the term "South Pole" but they're a separate heaven compared to Yuandu (I don't understand how TOHG geography works T.T)
