

Tales of Herding Gods Chapter 1281-1285

Chapter 1281 – Interception At The Valley

In the sky above the black tree, the spirit energy of heaven and earth rushed over frantically towards a valley on the outskirts.

The valley was huge, and it was shaped like a basin. There were mountains stretching into the distance, and Qin Mu was currently standing on top of a mountain. Surrounding him was the divine treasure realm. The celestial river flowed and connected all the worlds, secretly aligning with the geography of the ancestral court.

The divine bow in his hand had already been pulled to the extreme. Countless rays of light surged over and gathered on the tip of the arrow!

The black wood had a hundred thousand black mountains, and the terrain was vast. The spirit energy of heaven and earth surged over, forming a whirlpool of all sizes in the sky above the blasted valley!

Spirit qi and spirit energy were like tornadoes under the whirlpool, but they didn't suck down. Instead, they surged towards Qin Mu and poured into the divine bow.

The power of the divine bow grew stronger, so strong that even Qin Mu couldn't withstand it. The muscles in his arms couldn't help but tremble.

He counted silently in his heart.

The tremors underground grew stronger, shaking the mountains in the valley. As the mountains shook, terrifying divine light spewed out from the ground, and the apparitions rushed into the sky, forming a light screen above the valley!

An abnormally loud and clear sound of slaughter came from the screen. The sound of battle shook the sky, and one could faintly see countless incomparably powerful figures fighting and competing within the screen.

It was the projection of the previous universe!

This mine belonged to the outermost circle of the World Tree, which meant that the projections of these strong practitioners came from the previous universe and were the memories of the World Tree.

Qin Mu turned a deaf ear and ignored him. His gaze was still fixed on the roots of the World Tree.

Over there, the World Tree's thick roots spewed out even more intense light, and it actually gave off a grand sound like a surging tide crashing into a cliff. The sound of waves crashing could be heard!

The light projected onto the cliff behind the roots, and a figure could be seen walking out from the light. It got closer, becoming clearer!

That figure was originally very small, but as he took a step forward, it actually became larger, as if it was going to walk out from the stone wall!

He didn't have his right arm, and his walking posture was a little unnatural. He should be the strong practitioner from the previous universe who had his arm broken by Apothecary Mute and the rest during the day!

However, at that time, his body had no flesh and blood, only bones. Now, he had actually grown flesh and blood!

However, what was strange was that even though he had skin and flesh, from afar, he looked like a dried corpse that had been dried up by the sun. He was extremely thin!

Suddenly, that person stretched his hand forward, and his skinny palm actually pierced through the cliff!

The cliff was the black mountain, and the black mountain was part of the World Tree's growth cycle!

He wanted to crawl from the Yggdrasill, from the past to the present, from the destroyed universe!

Just as his palm passed through the cliff, Qin Mu counted from one to ten!

Thud—

An arrow cry rang out, and the divine bow trembled violently. The arrow on Qin Mu's bow flew out!

The instant the arrow shot out, the muscles in Qin Mu's entire body trembled violently, and his bones almost crumbled from the vibration. The arrow light sliced through the space in front of him and instantly reached the cliff!

The arrow pierced through the six-fingered palm and shot into the cliff with incomparably terrifying power, nailing the skinny figure and sending him flying backward.

Soon, his figure on the cliff turned into a small black dot and flew away!

Next, his figure vanished from the cliff, and a furious roar rang out, causing Qin Mu's ears to ring as his qi and blood churned!

After the roar, the divine light in the sky suddenly fell back and returned to the valley like a tide, disappearing into the mountains.

The basin instantly fell silent.

Qin Mu panted heavily. This arrow had almost exhausted all of his cultivation, and his magic power could only release one arrow. He didn't have enough power to fire a second arrow.

Suddenly, Apothecary stood on the dragon qilin's back and appeared in the sky above the valley. He threw down a basket and said with a smile, "Mu'er, I've finished refining some spirit pills. They were made from spirit herbs that were collected from the big black wood. I don't know if they are poisonous, so I'll let you test them! Don't eat them to death!"

Qin Mu caught the basket, and it was filled with spirit pills. The spirit pills were sparkling and translucent, and every spirit pill had a Dao chime.

Qin Mu was moved. Apothecary must have gone back to gather herbs to refine spirit pills. He must have refined so many spirit pills in such a short time for him to use.

He consumed a spirit pill and immediately felt the surging medicinal energy dissolving and his vital qi surging.

Qin Mu immediately executed Overlord Body Three Elixir Technique and walked around the top of the cliff. His speed became faster until his body transformed into a flowing light that circled around the top of the cliff!

His Overlord Body Three Elixir Technique was different from the rest. The best way to cultivate wasn't through meditation, but through exercise.

The medicinal energy in his body had yet to be completely refined, and his vital qi had yet to completely recover. Suddenly, divine light spewed out from the valley once again, and it was even more vast than before!

Qin Mu was astonished. "So fast?"

The egg of Tai Shi suddenly said, "Celestial Venerable Mu, I think we should go somewhere else!"

Qin Mu's heart stirred slightly, and he immediately lifted the egg of Tai Shi into the air, landing on another cliff.

The broken mountain he had chosen earlier was actually the best place to face the split roots of the World Tree. He could easily see everything in the valley.

The cliff they were on was slightly inferior.

Just as he moved to another cliff, the skinny figure appeared on the opposite cliff again. Qin Mu grabbed a bunch of spirit pills and stuffed them into his mouth, immediately bending his bow to count.

Right at this moment, a beam of light shot out from the cliff. With a loud rumble, the broken mountain where Qin Mu had been turned into powder from the violent tremors!

Qin Mu felt his blood run cold.

He had once tested the strength of the broken mountain. Even with his full strength, he was unable to cut the broken mountain. He didn't expect the strong practitioners of the previous universe to shatter the broken mountain with a strike from another universe!

His heart was still palpitating with fear. If it wasn't for the egg of Tai Shi's reminder, he would probably have turned into powder just like that mountain!

"...Eight, nine, ten!"

Qin Mu shot out another arrow!

A furious roar came from the cliff. The strong practitioner who had tried to climb from the previous universe to this era was shot back to his own era by his arrow!

Qin Mu panted heavily and endured the spasms in his muscles. He immediately ran and executed Overlord Body Three Elixir Technique.

When he recovered a little, he immediately moved to another mountain peak.

Tai Shi said, "Celestial Venerable Mu, the height of this mountain is similar to the one just now. It's very dangerous."

Qin Mu's heart stirred slightly. He rose into the sky and brought the egg of Tai Shi to a higher mountain peak.

Boom—

The abnormalities in the valley reappeared, and a fan-shaped rainbow light suddenly shone from the cliff, flattening the mountains in the surroundings!

The mountain Qin Mu was on was severed in half!

"Thud!"

Qin Mu shot out an arrow and shot that terrifying existence back to his era!

An incomparably furious voice came from the cliff as it roared continuously. It was obvious that it was abnormally furious.

"Dao Brother Tai Shi, you are truly experienced!"

Qin Mu couldn't help exclaiming in admiration, "What's the next step?"

Chapter 1282 – Joining Forces

The mountain range in the valley had been shaved by that terrifying existence, and the next attack would probably be even sharper.

"Where's your lantern?"

Tai Shi said, "That existence's cultivation is extremely terrifying. His next attack will be even more ruthless and will cover the entire valley. There's no place for you in this valley, only that lantern can be hidden."

Qin Mu acknowledged and took out Celestial Venerable Yue's lantern, hanging it on a cliff.

Indeed, with this lantern, no matter how that terrifying existence attacked, it couldn't hit Qin Mu's body.

In the valley, Qin Mu shot out arrow after arrow, forcing that terrifying existence back to his era again. Even with Apothecary's spirit pills, he still couldn't hold on.

The skin on his arms exploded, and all the muscles in his body were almost shattered by the recoil from the arrow. His bones cracked again!

Every time he raised his divine bow, he felt his muscles trembling and his bones groaning.

He was practically persisting with his own willpower!

Tai Shi's egg also sensed that Qin Mu's condition was very bad, and it was secretly anxious. 'Why isn't Dao Brother Tai Yi here yet? Didn't he say he was coming?'

He was muddle-headed as he gritted his teeth to endure.

Finally, he was so tired that he couldn't lift the divine bow anymore. His legs went limp, and he almost knelt on the ground.

Qin Mu held onto the bow and struggled to stand up. The medicinal energy of the spirit pills in his body was currently being activated, but his body had already reached its limit. His primordial spirit was also muddle-headed, and his circulation of vital qi through Overlord Body Three Elixir Technique was also very sluggish.

He panted heavily and took a break before standing up again.

"Mu'er, let us do it!"

First Ancestor Human Emperor led the past human emperors over, and Qi Kang helped him to the side. First Ancestor took the divine bow from his hands and said solemnly, "Blind just now... Blind helped us design a formation that could combine our power and gather it into one body. We have practiced for a long time, so pulling this bow shouldn't be a problem."

Qin Mu sat down and saw the dragon qilin rushing over with Apothecary. Apothecary put down a huge pill furnace with a thud and said solemnly, "Don't worry about getting injured, I'm here! As long as there's a piece of meat left, I can save all of you!"

Qin Mu's heart warmed, and he smiled at them, speechless.

First Ancestor and the past human emperors laughed loudly and laid down their formations. Everyone took their places, with First Ancestor as the leader.

First Ancestor raised his right arm and pulled the bow with all his might!

The past human emperors shouted in unison, and the celestial palaces behind them leaped out. Everyone's primordial spirits stood in the celestial palaces, either on the Jade Pavilion or in the halls!

None of the celestial palaces were repeated!

Qin Mu's eyes lit up when he saw this, and he muttered, "Maybe after I finish eating Disabled Elderly Village, I can still eat the human emperor of the older generation..."

First Ancestor Human Emperor's celestial palace also appeared on its own. The celestial palaces of the past human emperors were magnificent. They were connected together, and the Great Dao interweaved with each other. It was actually going to form a grand occasion of the celestial heavens!

Qin Mu's heart trembled violently. This was a formation that Blind had created. The formation wasn't to set up formations for everyone's movement techniques, but to set up formations according to the techniques of the past human emperors, and to set up formations according to their celestial palaces!

Blind's formation was to fuse their celestial palaces together to form a celestial heavens!

The past human emperors each had their own strengths. With over thirty human emperors and First Ancestor, it was enough to form a system of the great celestial heavens!

Of course, Blind's current formation was still very rough in Qin Mu's eyes. However, it had just taken shape, and there were still many problems to solve.

However, this kind of formation had already started to show its beginning and end. In the future, if it was continuously perfected, it would definitely evolve into a unique formation that had never been seen before!

At that time, Blind would be worthy of being the number one in formation skills!

First Ancestor Human Emperor shouted and shot out an arrow. The skinny figure in the cliff had just stretched out his palm when he was shot back!

However, the past human emperors had also suffered the backlash from the divine bow. Their qi and blood churned from the tremors, and crackling sounds came from their bodies. Human Emperor Lan Po and the rest had weaker corporeal bodies, and their skin had even exploded from the impact of the divine bow, causing blood to flow out from the corners of their mouths.

Qin Mu was so powerful, yet he couldn't withstand it, let alone them.

Apothecary swam around quickly and handed spirit pills and miraculous medicines to everyone. He said solemnly, "Don't worry, he won't die. You guys hurry up and activate the medicinal energy, prepare for the next attack!"

Everyone silently refined the medicinal energy and waited for the second confrontation.

They had originally seen how easy it was for Qin Mu to force back the skinny figure in the stone wall, but only when they truly got started did they know how terrifying the pressure Qin Mu was enduring was.

Soon after, divine light rushed into the heavens in this valley, becoming even more terrifying!

First Ancestor Human Emperor led the past human emperors to pull the divine bow again to intercept that terrifying existence, shooting him back into his era again.

Finally, the past human emperors couldn't hold on anymore and collapsed one after another. Even First Ancestor Human Emperor couldn't hold on.

Jiang Yunjian led many juniors over and bowed. "Godfather, let us try."

Qin Mu shook his head and stood up shakily. He said indifferently, "Yunjian, even though you guys are very strong, when facing such an existence, you guys don't have any strength at all. Go down."

Jiang Yunjian and the rest had ashamed expressions. Qin Mu recovered some strength and was about to pull the divine bow back when Apothecary suddenly said with a smile, "Mu'er, let us be the ones to deal with such an existence. You are also a junior, it's time for us old fellows to make a move."

Qin Mu raised his eyebrows and was about to speak when Blind and Mute walked over from the left and right. Apothecary followed them.

The three of them gathered together and lowered their heads to discuss.

Blind frowned and said, "Will it work? If I had Butcher's knife or Village Chief's sword, I would be at ease. With just Mute's hammer, I feel it's very difficult."

Mute was furious and sneered. "In terms of cultivation, no matter if it's a butcher or a sword user, they are inferior to me!"

"But their attack power far surpasses yours."

Blind showed no mercy and said, "Your forging celestial palace isn't as effective as Sword Celestial Palace and Knife Celestial Palace."

Apothecary said, "With my celestial palace of healing, your celestial palace of formations can be tested."

The three of them walked forward and came to the cliff. Apothecary's celestial palace appeared and took out all kinds of herbs. His primordial spirit was three thousand yards tall in the celestial palace, and he used the entire celestial palace as a pill furnace. He let the herbs he had found from the ancestral court fly around the celestial palace, and the medicinal energy interweaved.

After a moment, Apothecary finished refining the spirit medicine and smeared it on the stone wall. "As long as he's still a living being and not a manifestation of the Great Dao, he must fall for it! When his

palm passed through the stone wall, the mechanism was destroyed, but his body couldn't sense it. This is the best time for you guys to chop off his hand! Blind, can you find the flaw in his palm?"

Blind's divine eyes lit up, and he said indifferently, "We have to find it no matter what! Long Tuo, we only have one chance!"

On his waist, Divine Spear Long Tuo flew up, and the black dragon trembled.

"The most crucial point is still Mute. Your hammer must shatter the bones of Blind's hand the instant he breaks his palm!"

Apothecary said ruthlessly, "He doesn't have hands, so even if he barges in, we can kill him together! First Ancestor, Yan'er, Fatty Dragon, if he really barges in, let's do it together!"

Everyone's blood boiled as they acknowledged.

The dragon qilin also put away the Glassy Sky Pagoda and carried it into the valley, ready to attack at any time.

A sigh came from the egg of Tai Shi, and the ancient god muttered, "This bunch of greenhorns don't know how terrifying that existence is... Why hasn't Dao Brother Tai Yi come yet?"

Chapter 1283 – Tai Shi Strikes

Tai Shi waited anxiously in the egg. The round egg spun around, but there was no trace of Tai Yi. He thought to himself, 'Isn't he here to help? Should I slip...'

Apothecary and the rest were full of confidence and felt that they could fight against that strong practitioner from the previous universe. However, he knew how terrifying that person was.

When that person's divine bow landed in Qin Mu's hands, it could actually burst forth with the power of an Emperor's Throne treasure. The standard of Qin Mu's magic power was equivalent to that of a god on the Jade Capital Realm. Qin Mu's battle power was superior in his divine arts, paths, and skills, but his magic power wasn't at the level of Numinous Sky.

In other words, with the magic power of the Jade Capital Realm, the power of the divine bow could be raised to the level of an Emperor's Throne treasure. One could imagine how astonishing the full power of the divine bow would be when it exploded!

As the owner of the divine bow, how terrifying was the strength of the person?

Even if such an existence lost both of his arms, he would still be far from what everyone could match when he entered the valley. He would only be slaughtered!

Not even if they added the Tai Shi in the egg!

Although the egg of Tai Shi wanted to slip away, on second thought, it had nowhere to go in this world.

The Tai Shi Mine landed in Heavenly Lady Yan's hands, and the gate of the ancestral court was blocked by the ten Celestial Venerables. He couldn't even fly out of the ancestral court.

He was just an egg, where could he run to?

If he ran around, he might even be caught and eaten by those bastard void beasts.

Qin Mu had saved him from Clear Sun Hall, but wasn't the outside world a bigger cage?

Furthermore, if the strong practitioners of the previous universe ran out, could he really escape from this world?

Those prehistoric strong practitioners would probably be the first to get rid of the five precelestial and the other ancient gods!

"Tai Yi transcended, but it stayed here. It must have sensed the responsibility of us the Five Ancient Gods..."

He quieted down and had no intention of taking the chance to escape.

The phenomenon appeared again.

The existence from the previous universe was getting closer to the cliff. The instant his palm broke through the cliff, his skin started to fester, revealing his white bones.

However, the person in the cliff didn't sense Apothecary's poison. His arm was still stretched out.

Apothecary's poison had corroded the veins of his skin, the structure of his flesh, and invaded his bones. The intensity of this poison was something that even Qin Mu had never seen before.

Apothecary had indeed walked down an unprecedented path in the path of medicine!

Finally, one arm of the existence from the previous universe was completely stretched out. This arm that was stretched out had already turned into white bones.

"Attack!"

Apothecary gave a shout, and Blind's tiny body trembled violently. Formation Celestial Palace appeared behind him, and a celestial river flowed out from it, piercing through the other divine treasures like a dragon coiling around his body!

Buzz—

Countless magnificent formation markings spread out in all directions with him as the center, and they were incomparably gorgeous. With the celestial palace as the starting point, those formation markings

spread out layer after layer, and in a short period of time, they transformed into thirteen layers of formations of the heavens that affected the spirit energy of heaven and earth.

As a formation grandmaster, one couldn't use one's own cultivation as a benchmark to measure one's martial power. Formation grandmasters could make use of the right time and place to unleash even greater power!

Blind's attainments in formation skills had already surpassed Yan Yunxi unknowingly. Compared to the number one formation master of the celestial heavens, Han Tianjun, his formation skills weren't inferior at all. He even surpassed him in formation path!

After all, he had already reached the border of using formations to construct the celestial heavens!

"Long Tuo!"

Blind held the Black Dragon Divine Spear, and the thirteen heavens formation around him suddenly stood up. His eyes became incomparably bright as he looked at the arm through the thirteen heavens.

The black dragon divine spear in his hand moved and stabbed forward!

The dragon's roar reverberated throughout the valley!

Blind attacked with all his strength, and Divine Spear Long Tuo was as fast as the wind and lightning. In an instant, he had stabbed countless times. Ding, ding, ding, ding. He stabbed frantically at all parts of the skeleton arm.

With a series of cracking sounds, fine cracks appeared on the surface of the skeleton arm!

Even though Blind had mobilized the thirteenth heaven's formation and attracted the support of the spirit qi of heaven and earth, his aura was decreasing rapidly as he struck.

The decrease in his aura was terrifying!

At the same time, Mute gave a shout, and thunder exploded from the valley. It was deafening, and even the black trees and the hundred thousand black mountains could be heard clearly. The sound of thunder reverberated back and forth between the mountains.

In the valley, it was as if a sun was slowly rising, becoming brighter.

That was Mute's forging celestial palace, and it had blazing fire. In the blazing light, Mute's primordial spirit expanded from the celestial palace, and his body grew larger.

Meanwhile, Mute's corporeal body also expanded at the same time. He was originally an old blacksmith that looked like he had experienced the vicissitudes of life, but now his muscles were ferocious and his corporeal body was strong. His corporeal body and primordial spirit gradually overlapped!

In the flames, the giant raised his huge hammer, and the blazing firepower that was like the sun actually flowed into his huge hammer!

Mute smashed his hammer down, using microscopic forging and macroscopic forging!

Who said that blacksmiths could only forge?

Not only could Mute forge, he could also use incomparably violent methods to destroy other people's divine weapons!

For forging, he was a great master. For destroying divine weapons, he was also a great master!

His forging celestial palace was complete, and to others, he was a walking human-shaped weapon!

Destroying a divine weapon was even harder than destroying a corporeal body. Under his hammer, there was nothing that couldn't be broken!

Boom—

When his hammer landed, that arm instantly shattered, and countless shattered bones flew in all directions. Following that, the shattered bones continued to shatter under his terrifying strike. It was as though there were countless invisible giants wielding iron hammers, meticulously smashing every particle of the shattered bones!

The hammer landed on the ground, and the valley shook violently.

Mute raised his hammer and revealed a delighted expression. At the same time, Apothecary and Blind couldn't help smiling.

They had finally succeeded!

However, the next moment, their smiles froze on their faces.

Even though the skinny figure on the cliff had both his arms broken, he was still walking forward. His face and one leg had already stepped out of the cliff!

That face revealed an incomparably furious expression, and it started to fester. That was the effect of Apothecary's poison.

The leg he took out from the stone wall was also festering, revealing white bones. Apothecary's poison was too fierce. Not only did it attack the corporeal body and destroy the bodily functions, but it was also targeted at his cultivation, causing the Great Dao he had cultivated to disintegrate. The Dao chains broke, the Dao markings disintegrated, and the runes split into tiny particles that couldn't be separated.

However, his abilities were too strong, and his face soon stopped festering. The poison on his leg was also forced out of his body.

Blind tried his best to stab Divine Spear Long Tuo into the ground, and formation markings burst forth. He pulled out Long Tuo and pulled Apothecary back with one hand while Mute also retreated.

At the same time, Yan'er carried Celestial Venerable Yue's lantern and walked past them, activating the power of the lantern.

The dragon qilin spun the Glassy Sky Pagoda, and the heavens of the pagoda opened up. The dazzling treasures in the heavens were like stars that gradually lit up.

The heavens rose and swept up everyone in the valley.

The eyes of that skinny figure became incomparably bright. His head had already left the stone wall, and the shadow of a bow appeared on the stone wall behind him.

The shadow pulled back the bow and arrow. Even though it was a shadow, it gave off a heaven overflowing power!

Chapter 1284 – Arrival

The power of the lantern in Yan'er's hand burst forth, and a string of light parted to the side.

The lantern left her hand and floated in the air. Yan'er shook her body and transformed into a dragon sparrow. She stretched out her sharp claws to grab the light strings and flapped her wings to fly backward, but the lantern remained where it was.

Bang!

Light strings shot forward, and clear zither notes rang out, shaking the entire valley.

The instant the zither strings rang out, the sound of the bowstring vibrating also came over. An arrow light flew out from the stone wall like a rainbow and passed through the lantern like lightning.

The sun in the lantern immediately exploded, and blazing flames instantly turned the lantern into ashes. The space divine art contained in Celestial Venerable Yue's treasure was completely obliterated.

When the fireballs collided with each other, the light threads sliced through the flames and reached the neck of the skinny body.

The eyes of that skinny figure shone, and two rays of light were like two sharp arrows. One of them sliced right at the center of the string of light, and the string of light split into two. It flew past the two sides of his neck, leaving behind two trails of blood that nearly severed his neck.

The divine light in the other eye chased after the dragon sparrow that Yan'er had transformed into. When it reached Yan'er's back, the dragon sparrow flapped its wings and flew up, but it couldn't dodge in time.

At this moment, the 28 heavens of the Glassy Sky Pagoda expanded and included the Dragon Sparrow into the first heaven.

The dragon qilin mobilized the heavens with all his might, changing the order of the various heavens with all his might. He made the dragon sparrow move continuously to avoid that terrifying arrow light.

Thud, thud, thud!

The arrow light pierced through the heavens and whistled through the air. It actually pierced through the 28 heavens and shot out into the sky, leaving a bright trail in the dark night sky.

The dragon qilin let out a sigh of relief, and cold sweat rolled down his forehead.

At this moment, First Ancestor Human Emperor, Jiang Yunjian, and the rest had already been turned around by him. Their bodies landed on the great treasures one by one, and everyone released their remaining magic power to activate them.

Within the Glassy Sky Pagoda, numerous treasures gradually lit up like stars.

The Glassy Sky Pagoda was the number one treasure in the world. Even though it didn't have the Tai Su egg, it had been reforged and redesigned by Blind and Mute, and its formations were even more intricate than before.

However, redesigning and forging this supreme treasure required an extremely long time. Blind and Mute had yet to complete it.

Furthermore, there weren't many gods in the big black wood, and it was hard for everyone's cultivation to unleash the power of this supreme treasure to its maximum. This was the biggest disadvantage.

Qin Mu was also swept up by the Glassy Sky Pagoda and landed on a supreme treasure. He pulled the divine bow open, but the divine bow actually leaped uncontrollably in his hand, wanting to fly out of his hand and return to his master.

Qin Mu was astonished and used all his strength to suppress the divine bow.

"I've finally escaped from that shattered universe!"

That armless skinny figure looked up at the sky, and his incomparably vast consciousness shook space and time, allowing everyone present to clearly understand his thoughts.

"Fresh air, fresh heaven and earth, fresh life, there's no aura of aging and death!"

He was terrifyingly thin, like a completely dehydrated person. There was no blood flowing under his dry skin, only dried muscles sticking to his bones.

When he walked, his body made cracking sounds as if his tendons were breaking.

"My era is too ancient, so ancient that it has lost all life."

“The particles that form the substance are disintegrating and collapsing. The Great Dao that forms order is collapsing and losing its vitality. The calamity that destroys everything, it destroys everything. This place will become the place for me to start anew!”

...

The dragon qilin ignored his sigh and used the 28 heavens of the Glassy Sky Pagoda to cover him. He planned to absorb him into the heavens and gather the power of the treasures in the heavens to refine and kill him.

However, when the heavens passed by the person’s body, the skinny figure didn’t move at all. The 28 heavens couldn’t absorb him at all.

The dragon qilin was astonished. This was the first time he had met such a terrifying existence, and he had no idea what to do.

First Ancestor and the rest utilized the treasures in the Green Sky Pagoda, and the power of the treasures burst forth as they attacked the skinny figure!

The skinny figure had no hands, and his body was also extremely withered. His qi and blood were completely gone, yet he remained calm in the face of this world-shaking attack.

“My blood has to start flowing again. My body has to start recovering.”

“In order to resist the great calamity of destruction, I have exhausted too much of my strength. I need to replenish my strength!”

The skinny figure opened his mouth. His mouth was wider than his head and bigger than his head. He took a deep breath in the face of the terrifying attack from the 28 heavens, and the attacks whistled towards his mouth!

Boom boom boom—

Muffled sounds came from his stomach, and his stomach suddenly bulged, contracted, and bulged again. After a dozen times, it finally calmed down.

On the other hand, some blood qi had also recovered from his face.

Everyone in the Glassy Sky Pagoda felt a chill in their hearts. They could deal with this strong practitioner from the previous universe when he was in the stone wall, but after he walked out, they couldn’t!

His power had reached an inconceivable level. He could even devour the precious treasures of the Glassy Sky Pagoda to replenish his energy!

“I need more qi and blood!”

The consciousness of that skinny figure surged out, and he suddenly opened his mouth to suck in a long breath. In the valley, everyone's primordial spirits wavered, and their primordial spirits were almost sucked out of their bodies!

Everyone stabilized their primordial spirits to resist the terrifying suction force, but their qi and blood flew out uncontrollably!

Qin Mu said loudly, "Use Heavenly Devil Creation Technique to seal your hundred apertures!"

Many experts of the younger generation immediately executed Heavenly Devil Creation Technique, and their fingers moved quickly to seal their qi and blood. However, their qi and blood were sealed, and their cultivation couldn't withstand it. They were pulled up by the suction force and involuntarily flew out into the sky.

The dragon qilin hurriedly activated the Glassy Sky Pagoda and turned the various heavens around, leaving these people in a fluster.

The other experts of the older generation, such as Blind, Apothecary, and First Ancestor, had never cultivated Heavenly Saint Cult's Heavenly Devil Creation Technique. Their qi and blood lost control and flowed out rapidly. The qi and blood above their heads spewed out like long arcs as they were sucked up by the skinny figure!

Qin Mu had a grim expression as he grabbed onto the divine bow tightly. He flew around the various heavens and used Heavenly Devil Creation Technique to seal First Ancestor and the rest to prevent their qi and blood from flowing out.

However, before he could seal the qi and blood of the experts of the older generation, the younger generation couldn't withstand it and their seals exploded one after another, causing their qi and blood to surge violently.

Qin Mu couldn't help feeling a hint of despair. 'Didn't Dao Brother Tai Yi say he was coming? Why isn't he here yet?'

At that moment, he suddenly saw the egg of Tai Shi being sucked up by the suction force and flying out of the Glassy Sky Pagoda.

The ancient god egg seemed to be unable to withstand the long inhalation of the skinny figure, and it couldn't help but fall into the mouth of the skinny figure!

Qin Mu gave chase, but he was still a step too late. The Tai Shi egg fell into the mouth of the skinny figure, but it was too big. It was stuck in the man's throat and couldn't be swallowed.

The skinny figure didn't mind. The qi of Tai Shi in the egg flew away and was swallowed by the skinny figure.

The energy in the egg of Tai Shi was much more than he had imagined, and it frantically surged into his body.

Only then did the skinny figure realize that something was wrong. He couldn't refine and absorb the Taishi Qi coming from the egg!

"Celestial Venerable Mu, the Dao of Taishi, the combination of yin and yang, mixing together to form one, forming from one, having form but no substance."

An obscure voice came from the egg of Tai Shi. "Taking yin and yang to transform into taiji! Why aren't you attacking?"

Chapter 1285 – Not Helping Is Helping

Qin Mu's heart stirred when he heard that. He flew down from the 28 heavens of the Glassy Sky Pagoda. As he fell diagonally, the eye in the heart of his brows opened up.

The Tai Shi Origin Stone in the vertical eye was activated. At the same time, countless runes lit up on the Tai Shi Egg and shone on the Tai Shi Divine Stone with a hum as it spun.

The pupil in the heart of his brows immediately turned black and white, spinning furiously.

Buzz—

A black and white light intertwined, and a pillar of light descended from the sky, shining diagonally at the throat of the skinny figure.

When this beam of light shone down, the skinny figure's throat was immediately petrified. The beam of light moved, and wherever it passed, his body was actually rapidly petrified!

Qin Mu flew over diagonally, and when his feet touched the ground, the eye in the heart of his brows had already shone on him from head to toe!

The skinny figure was transformed into a stone statue and didn't move.

Everyone in the Glassy Sky Pagoda instantly felt relaxed. The terrifying suction force vanished, and their qi and blood stopped flowing.

Jiang Yunjian and the other experts of the younger generation fell from the sky and fell to the ground, unable to get up for a moment.

First Ancestor, Yan'er, and the rest also had lingering fears.

Qin Mu's body didn't stop moving as he circled around the stone statue. His third eye's black and white eyes intertwined and shone on every part of his body to strengthen the petrification effect.

Whoosh—

He raised his hand, and the stone statue flew up. Qin Mu raised his head, and his vertical eye shone on the soles of the stone statue's feet.

Dong, the stone statue landed on the ground, and Qin Mu continued to roam around without missing a single corner.

"Enough, enough! Celestial Venerable Mu, you can stop now!"

Tai Shi's voice came from the egg, and he shouted, "His body is completely petrified, and even his primordial spirit is petrified. There's no need to shine anymore! Quickly think of a way to get me out!"

Qin Mu's footsteps stopped, and he let out a sigh of relief. His entire body had almost collapsed to the ground, so he simply lay on the ground and panted.

It was too dangerous just now. If the egg of Tai Shi hadn't been swallowed by the skinny figure and allowed him to absorb the qi of Tai Shi from the egg, Qin Mu and the rest wouldn't have had a chance to win.

The Dao of Tai Shi and the Dao of Taiji had solved the biggest crisis of the black wood!

"Celestial Venerable Mu, quickly save me. I think I'm stuck in his throat."

From the throat of the stone statue came the muffled voice of the Tai Shi from the egg. "This stone statue is too hard, I can't move. Celestial Venerable Mu? Celestial Venerable Mu, are you still there... You didn't abandon me and run away, did you?"

Yan'er quickly rushed over and transformed into a dragon sparrow. She stretched her claws into the mouth of the stone statue and dug out. After some time, she finally managed to dig out the egg of Tai Shi.

The Tai Shi egg landed on the ground and rolled for two rounds. Only when it realized that it was fine did it relax. "That was close, that was close! It's a pity that I lost a portion of my Tai Shi qi. Celestial Venerable Mu, you have to compensate me!"

Qin Mu laid there and continued to pant. This was the first time he felt so exhausted that he wanted to die.

The egg of Tai Shi stood beside him.

The sky turned white. The night was finally over.

Everyone was relieved when they saw this. They sat on the ground one by one, either lying down or leaning on each other or on the rocks. They were too tired.

The night passed in a soul-stirring manner.

Qin Mu recovered some strength and stood up shakily. After walking around the stone statue with its mouth wide open for a few weeks, he realized that the stone statue was perfectly fine. Only then was he completely at ease.

“Dao Brother Tai Yi still hasn’t come...” Qin Mu was slightly disappointed.

“If you believe in him, you might as well believe in Taiji, that fellow who doesn’t know what he’s talking about.”

Tai Shi said, “He must be shivering somewhere.”

Qin Mu broke into laughter and shook his head. Apothecary was busy treating everyone’s injuries, and everyone finally recovered.

That night was too dangerous. They still had lingering fears when they recalled it.

They climbed out of the valley, and when the sunlight shone on them, it was actually so bright and beautiful that it intoxicated them.

“It’s good to be alive,” Mute sighed ruefully with his eyes narrowed.

Qin Mu looked into the distance and saw a few huge black mountains splitting open, giving off pure white gas. A youth carrying a bucket was rushing over.

His face turned black, and he walked forward. The youth put down the bucket and said with a smile, “Celestial Venerable Mu, good night? Now, you should know what’s buried under this black tree, right?”

Qin Mu stood beside him and was silent for a moment before saying, “Dao brother said he was coming to assist.”

“I only said I wanted to help, I didn’t say I would do it myself.”

The youth took out the willow branch from the bucket and sprinkled water on the cracked black mountain. “I’m cheering for you guys from above, and I’m also helping.”

Qin Mu was speechless from anger. Just as he was about to speak, he saw the cracked black mountain slowly closing up.

“The best way to help you is not to help you repel the strong practitioners of the previous universe, but to help you realize who the enemy you are facing is. If you occupy the big black wood and become its owner, you will have to face all of this.”

The youth, Tai Yi, said as he splashed water, “If you don’t even realize this, how can you help me stop the invasion of these prehistoric monsters? There are extremely powerful existences among them that can even create void beasts and send them here. They are unscrupulous in order to enter this universe. If you can’t even pass the small test last night, then you have no right to occupy this place.”

He handed the bucket and willow branch to Qin Mu and said with a smile that was yet not a smile, "Celestial Venerable Mu, master of the hundred thousand black mountains, your mountain has split open, so repair it yourself."

Qin Mu took the bucket and willow branch and followed his example, sprinkling them into the cracks of the black mountain. There was a terrifying sight in the cracks of the black mountain. It was as if some terrifying creature was crawling out from inside, leaving behind the marks left behind by its sharp claws.

"There's another reason why I didn't show up last night."

The youth, Tai Yi, guided him on how to sprinkle the water in the bucket to repair the black mountain while continuing, "That's Dao Friend Tai Shi. Dao Friend Tai Shi has been suppressed by Tai Chu for so many years after all. His mind is no longer pure. The person he admires the most isn't me, but the Tai Chu that suppressed him."

Qin Mu listened quietly.

"He wants to become another Tai Chu, the ruler of the entire universe."

The youth Tai Yi said, "The conversation he had with Tai Su in the heart of your brows was actually about how to extricate yourself from your grasp, how to take back your mine, and how to work together to control the world in the future. They even discussed how Tai Su would become the emperor and the empress."

Qin Mu stopped and thought about it. He said with a smile, "That's how it should be. I've been guessing what he and Tai Su had discussed and have long prepared for the worst."

The youth said easily, "If I had helped you last night, would Taishi have helped you?"

Qin Mu was stunned and looked into the distance. The egg of Tai Shi was placed on a mountain by Yan'er, who liked to take care of people. The diligent dragon sparrow was searching for tree branches and leaves in all directions, planning to build a bird's nest for the egg and then squat on it to hatch it.

Qin Mu couldn't help shaking his head and laughing.

"The current Tai Shi is no longer the Tai Shi that escaped the suppression of the Tai Chu. He is slowly being influenced by you."

The youth said too easily, "This is a good thing. He has already realized that this universe has nurtured him and given him his duty. The desire and ambition in his heart are gradually fading. Look, he's very peaceful now."

Qin Mu looked over and saw that the egg of Tai Shi had slipped away secretly when Yan'er didn't see it. It was then caught by the diligent Yan'er and stuffed back into the nest.

"If I help you, Tai Shu will become another Celestial Emperor Tai Chu. When he comes into being in the future, he will be even more evil than Tai Chu!"

The youth said indifferently, "That's why I chose to help you."
