

## Tales of Herding Gods Chapter 1301-1305

### Chapter 1301 – One Qi Of The Ruins Of End

The faces of the four sacred gods twitched as they looked at Qin Mu who had suddenly appeared. Their gazes were slightly dazed.

Mother Earth suddenly couldn't hold back her anger and smacked down with her palm. Magnetic force burst forth, and her palm could crush stars!

"No!" Heaven Duke and Earth Count shouted in unison.

However, it was already too late.

When Mother Earth's palm landed on Qin Mu's body, it actually passed through his body. Qin Mu walked on the back of her hand, and Mother Earth looked at the back of her hand in a daze, not knowing what to do.

"Celestial Venerable Mu, you are acting mysterious again!"

Ancestral God King was also suddenly furious. He was even more furious after being hit. The power of the Heavenly Dao treasures exploded in the sky and bombarded Qin Mu!

Qin Mu 'arrogantly' walked past his Xuandu world, looking down on everyone and looking down on everyone. It was truly unbearable for him!

The moment he made his move, Heaven Duke revealed a smile and said in delight, "My unfilial son has revealed a flaw!"

Lava Earth Count and Mother Earth didn't have any temper from being beaten up by Ancestral God King, so they couldn't help being delighted. However, Heaven Duke's next sentence made their hearts turn cold. "Let's run! Follow me!"

Heaven Duke suddenly exerted his strength, and rays of starlight gathered in his eyes. He shot through Xuandu World with a thud, creating a huge hole. The three of them escaped in a panic.

Suddenly, the Xuandu world shook. The incarnations of the Heavenly Dao in the celestial palace behind Ancestral God King rose and attacked the three of them.

Heaven Duke, Earth Count, and Mother Earth fought with all their might. At the same time, the treasures of Ancestral God King's Heavenly Dao struck Qin Mu one after another, splitting the ground and turning it into lava that evaporated!

Qin Mu, on the other hand, seemed to feel nothing as he walked on the lava.

Ancestral God King was furious. He suddenly abandoned Qin Mu and turned to attack Heaven Duke, Earth Count, and Mother Earth, who had just escaped from the Xuandu world. He sneered. "I can't do anything to Celestial Venerable Mu, but I can't do anything to you guys?"

He suddenly retracted his Heavenly Dao Incarnation, ensuring his abilities. He beat Heaven Duke, Earth Count, and Mother Earth until they vomited blood.

At this moment, Qin Mu leisurely walked out of the unbreakable Xuandu world and left in front of them.

Heaven Duke and Earth Count protected Mother Earth as they ran. When they saw Qin Mu from afar, they were slightly stunned. "Son of Qin seems to have taken the wrong path... That's right, he was still affected by our divine arts and unknowingly deviated from the path!"

However, they couldn't care less about Qin Mu. They fought Ancestral God King with all their might, but they could only take a beating.

"Mother Earth can't die!"

Heaven Duke shouted loudly, "Borrow strength from the main body!"

Above his head, vast amounts of starlight gathered into a river. It was like a galaxy descending from the sky and pouring into his body.

At the same time, Earth Count borrowed power from his body. The Great Dao of Youdu gathered and merged with the devil qi, pouring into his body.

Both of their abilities rose drastically, but they were still no match for Ancestral God King and were forced to retreat.

The four of them fought fiercely on the plateau of the ancestral court, beating it into a plain and turning it into a basin. Qin Mu walked around the basin and circled around it.

Heaven Duke and Earth Count were secretly worried about his safety, but what was weird was that Qin Mu wasn't affected by their divine arts at all. He was still safe and sound.

"He is comprehending an incomparably marvelous Great Dao. This state of entering the path allows him to avoid the power of our divine arts!"

Earth Count instantly came to a realization and sent a voice transmission to Heaven Duke. "When he wakes up from the state of entering the path, he will be free from this untouchable state. At that time, he will be severely injured even if he doesn't die!"

Heaven Duke instantly came to a realization. Qin Mu's state of entering the path seemed to be compatible with the Great Dao. This realm was extremely high, but when he was released from the state of entering the path, he was no longer invincible.

That was the most dangerous moment for Qin Mu!

“I’ll forge a path out of this basin and let him leave!”

Heaven Duke waved his hand, and the mountains around the basin suddenly split open, revealing a huge valley. Qin Mu walked to the front of the tunnel, but his footsteps didn’t stop as he walked out.

Heaven Duke and Earth Count secretly let out sighs of relief. Suddenly, Mother Earth clasped her hands, and the huge valley instantly closed up, trapping Qin Mu in the center.

Heaven Duke and Earth Count were furious. “Mother Earth is so careless! She always wanted the life of Son of Qin, and our efforts to save her were in vain!”

The next moment, they saw Qin Mu actually passing through the mountain and walking forward peacefully. However, this time, Qin Mu’s destination was completely messed up.

He was getting further away from the battlefield of Heaven Duke, Earth Count, Mother Earth, and Ancestral God King. He gradually came to the desert in the east of the ancestral court. Black sand filled the sky, and the strong wind blew everything into ashes.

The last time, Qin Mu had the Glassy Sky Pagoda to protect him, allowing him to pass through the desert safely.

And this time, he barged in, and the black desert sand passed through his body as if it didn’t touch anything.

Qin Mu walked calmly to the center of the desert and came to the front of the taiji mine.

The ancient gods in the taiji mine were astonished, and they secretly looked over. ‘Why is this fellow here? Could he have known that I tricked him into going to the black wood to die and come here to take revenge? Or could he have known about my secret plan with Tai Su to get rid of me?’

However, what puzzled him was that Qin Mu passed through the mine and walked aimlessly into the white desert.

The ancient god in the taiji mine was in a daze. “This fellow, he has gone mad from walking from the pure yin qi into the pure yang qi and crossing the Yin Yang Star Domain...”

The taiji mine seemed to be in the black and white desert, but when they were far away from the desert, what they saw was a dazzling star field that was black and white like the taiji diagram!

Qin Mu passed through the incomparably dangerous Yin Yang Star Domain just like that, making the ancient gods in the mine cry out weirdly.

He walked out of the taiji mine, and at this moment, his comprehension of the Taishi Dao increased even more. They flooded into his mind!

Qin Mu couldn’t help but let out a long howl. The howl was like a line that rose straight into the clouds, shaking the sky until the seals of the ancient gods appeared, revealing the backs of the worlds!

His Spirit Embryo Divine Treasure roared as it swirled around him. With one hand holding up the heavens and the other covering the earth, he executed the four-faced god and executed the four heaven and earth imprints.

After that, his divine art changed, and the second heaven of his divine art was executed. It transformed into the Black Heaven Earth Sect, and a towering Black Heaven Earth Sect connected the heaven and earth, Youdu, and Xuandu.

Qin Mu moved with the flow. The celestial river flowed in the divine treasure realm, and he observed the four poles of the celestial river, transforming it into the third heaven of divine arts.

Next, his consciousness burst forth, and he held up a Great Overarching Heaven in one hand. It was the fourth heaven of the divine art, Great Overarching Heaven.

He plucked the flower with his two fingers, and the petals were gorgeous. The petals fell, and purple qi filled the sky.

He entered the transformation of the great divine art in one move, and the sixth heaven Youdu chased the souls away. The seventh heaven, Primordial Jade Altar, erected Xuandu, and the eighth heaven, Paramita Divine Boat, crossed.

The eighth heaven of the divine art was executed, and Qin Mu's body broke through the void as though he was standing on a Paramita Ark. He crossed layers of void and instantly reached the twenty-eighth void. He then broke through the twenty-ninth void and arrived at the thirtieth void.

He traveled in the void for a long time, crossing an unimaginable distance from the ancestral court before gradually slowing down.

However, his move was executed smoothly.

"Nine Transformations, wait for a look, the sound of a dream returns!"

A buddha voice rang out, and he actually entered the path in his dream. In an instant, his comprehension transformed into the ninth heaven of his divine art, the ninth heaven of his dream realm!

The nine layers of the dream realm lasted for an eternity, but in reality, it only lasted for an instant. He woke up from the dream realm and pointed at the sky and painted the earth. His divine arts scattered, and the tenth heaven of the divine arts was executed accordingly.

Unchanging Heaven and Earth Will!

Next was the twelfth heaven, the life of the Ruins of End!

In the thirtieth void, Qin Mu soared into the sky and allowed his emotions to flow freely, executing all his comprehensions over the years.

“Unchanging Will Of Heaven And Earth, the life of the Ruins of End! I shall forget everything, and the Great Dao shall be the ancestral court!”

Everything and everything became the thirteenth heaven of his divine art, and the ancestral court became the fourteenth!

“Hidden Creation!”

He combined the path of creation into one and transformed it into a great divine art. His creation divine art was like a huge bell, and with a bell chime, the divine beauty of creation was accompanied by the lingering charm of the ancestral court, giving birth to all things.

“The path of consciousness goes first!”

On the other hand, the fifteenth heaven of his divine art used consciousness as the path. It was an ancient ancestral court, and the forebears were ignorant. Even though the creation of heaven and earth was complete, they didn’t comprehend the paths, skills, and divine arts.

At this moment, consciousness was the first to be created. The masters of creation’s forebears used consciousness to create things, and this move of his gave off the boundless feeling of the primordial era.

“Yet the Dragon Han fights!”

Qin Mu executed the divine arts one after another, and it was as if he had stepped into the Dragon Han Era from the wild primordial era. When the Dragon Han Era clashed, the paths, skills, and divine arts were like a hundred flowers blooming in unison. Even though they were beautiful and magnificent, they were filled with bloody battles!

“The Crimson Light Divine Body is extinct, The High Emperor’s Human Path is complete!”

When these two forms of great divine arts were executed, Qin Mu’s primordial spirit and corporeal body grew stronger, and he ran amok in the thirtieth void. With three heads and six arms, he was like a giant that could split heaven and earth.

On the other hand, the success of the High Emperor Human Dao was the philosophy that the lives of the High Emperor were greater than the heavens. The heroes of the human race had to bear hardship and endure calamities to advance forward with difficulty. They had to fight against heaven and earth, fight against injustice, refuse to admit defeat, and never giving up. The spirit of never surrendering was all in this move.

“Opening The Empress’s Heavenly Road, Eternal Peace Empire will fight for it!”

He was full of heroism. The path from the Postcelestial Dao of the Founding Emperor Era, the calamity of Eternal Peace, and the struggle had all become the divine art in his hands.

He stood in the thirtieth void, and it was as if he was standing at the highest point in the world. He executed the divine art that encompassed the great spirit of the era, and everything went smoothly.

When this great divine art was executed, Qin Mu's unrestrained divine art, aura, and aura suddenly became restrained.

His divine art became obscure, and his palm moved slowly. His Dao runes also became scattered. He had created so many great divine arts consecutively, allowing his divine arts to enter the path and reach the 21st heaven. It had basically exhausted all of his accumulation over the years.

However, he still had feelings to express and his own opinions to sort out.

His divine arts were executed slower, and the divine arts that contained the Tai Su Dao were gradually executed. Next, he tried to create the paths of taiji and the paths of Tai Shi.

"Tai Su opens a primordial flower, Taiji transforms into Yin and Yang!"

"Tai Shi questioning the blooming spring!"

When Qin Mu executed the last move, he suddenly felt empty in his mind. His divine arts, paths, and skills couldn't continue, and he immediately woke up from the state of entering the Dao.

He was in the thirtieth void, and he woke up at this moment. Instantly, a powerful force from the void came crushing over, and Qin Mu's corporeal body started to fade into the void. His corporeal body crumbled.

He made a prompt decision and immediately escaped from the thirtieth void!

This was the first time he had gone so deep into the void, and he was puzzled. 'Strange, why did I come here? The thirtieth void isn't a place I can reach...'

He quickly retreated to the twenty-ninth void. The power of the void was still incomparably strong, making his corporeal body unable to withstand it.

If he still had the Tai Chu Origin Stone in the past, his consciousness could barely reach this place. However, he couldn't stay here for long. Without the Tai Chu Origin Stone, the strength of his consciousness was far inferior to before. It was impossible for him to reach such a dangerous place!

If he was sober, he definitely wouldn't have taken such a risk and risked his life to venture into such a high void. When he was in a state of comprehension, he didn't have so many worries.

The instant he retreated from the thirtieth void to the twenty-ninth void, he raised his head and tried to see a deeper void. However, he couldn't see anything, and he couldn't help feeling a little regretful.

"I wonder what the Ultimate Void has..."

He retreated from the 29th void to the 28th void, and only then did he feel slightly better. However, the 28th void was the limit of his consciousness, and his corporeal body wasn't that strong.

Without the Tai Chu Origin Stone, his consciousness and corporeal body were greatly weakened.

Qin Mu retreated from the layers of void. When he reached the twenty-third void, the damage to his corporeal body was finally reduced to the freezing point.

He couldn't help but wipe away his cold sweat. It was simply too dangerous for him to come to the thirtieth void in a daze.

Now that the danger was gone, he immediately began to reflect on what he had gained when he entered the path.

Ever since he was inspired by Xu Shenghua to enter the Dao and comprehended the ninth heaven of the divine art, the Virtual Stage of Tai Chi, his accumulation had become more profound. His understanding of the Dao of Taiji, the Dao of Tai Su, the Dao of Tai Shi, and the Dao of Tai Chu had also become more exquisite.

His understanding of the primordial era, Dragon Han, Crimson Light, High Emperor, and Founding Emperor Era also increased. In the end, no matter if it was history or his understanding of the Dao, they all became his unique divine art when he entered the path.

"From the ninth heaven of divine arts to the twenty-fourth heaven of divine arts in one go, it can be said that my cultivation in the Dao Realm has directly reached the twenty-fourth heaven."

Qin Mu couldn't help sighing ruefully. The benefits that the Grand Primordium Origin Stone had brought him were simply too great.

However, the final three heavens weren't complete.

Tai Su opens a primordial flower!

Taiji transforms into Yin and Yang!

Tai Shi questioning the blooming spring!

His accumulation in the third heaven wasn't enough to reach the perfect third heaven. All three great divine arts were incomplete.

In reality, when he created these three great divine arts, he had already felt that it was extremely difficult. He didn't have any knowledge to use, but at that time, he was in the midst of comprehending the Dao. He was like an arrow on a bowstring and had no choice but to release it.

This third heaven divine art was more powerful than the previous one. He still needed to continue perfecting and refining it. Otherwise, it would have a huge impact on whether he could reach the 36th heaven in the future.

He strolled leisurely in the void and walked towards the direction of the big black wood. As he waved his hands, he executed his divine arts one by one to admire the divine arts he had created.

'I wonder which realm is the twenty-four heavens of the Dao Realm equivalent to the system of divine treasures and celestial palaces?'

He was very curious in his heart. Compared to the system of divine treasures and celestial palaces, there were many ambiguous areas in the realm, making it hard to differentiate battle power.

“What’s strange is that the gods and devils that cultivate the system of the celestial palaces can also cultivate the Dao Realm. This is equivalent to adding two realms together. For example, Founding Emperor’s realm is the Celestial Palace Realm, while his Dao Realm has reached the thirty-fourth heaven. He’s already an existence that can contend with Celestial Venerables.”

The system of divine treasures and celestial palaces focused on magic power, while the system of Dao Realm focused on comprehension of Dao. The two complemented each other perfectly.

This was Founding Emperor’s reform and development of the system of divine treasures and celestial palaces. His contribution was so great that it wasn’t inferior to Celestial Venerable Yu’s!

“Unfortunately, it’s all outdated.”

Qin Mu shrugged his shoulders. In the future, the truly powerful ones would be the Great Ancestral Court’s Dao system that Lan Yutian had founded. The celestial palace system and the Dao Realm system would be a part of it!

“And now, it is the most glorious era of the divine treasures, celestial palaces, and the system of the Dao Realm. It’s also the final resounding ending! When Lan Yutian succeeds, a grand revolution will sweep through everything like a flood and overthrow everything!”

Qin Mu looked down, and the majestic mountains and rivers of the ancestral court came into view. ‘In that case, what should I do with Lan Yutian and Celestial Venerable Yu? Should I find his broken soul and turn it into Celestial Venerable Yu...’

At this moment, he saw ten thousand beasts galloping in the ancestral court, and it was extremely lively. Ancestral God King was beating up Heaven Duke, Earth Count, and Mother Earth.

“Why are they fighting?”

Qin Mu was bewildered and decided to ignore it. His gaze landed on the seventeenth void, where the dragon qilin and the void beast mother were trembling.

In great void, founding emperor imparted his dao realm system to Lan Yuntian. The two of them talked for a long time, and this dao discussion brought great gains to carefree village and the creator on the other shore.

Even though founding emperor imparted the Dao realm that Lan Yuntian had created himself, Lan Yuntian made inferences from one example and benefited him greatly.

Founding Emperor personally opened the doors of the three rooms at the end of the Void Bridge and sent Lan Yutian and his followers into eternal peace. “Dao brother, we’ll meet again in the future.”

“Dao brother, please wait.” Lan Yutian bade farewell to him.

Founding Emperor stood in front of the door quietly and returned after a long while.

His four great heavenly masters and Four Great Heavenly Kings had been waiting at the bridge for a long time, saint woodcutter asked, “Your Majesty, I have been listening to your majesty and Lan Yutian discuss the dao these days, and I have gained quite a lot. “I suddenly have a terrifying thought. In the future, even if we overthrow the Heaven Court, as long as Lan Yutian achieves the Dao, we gods will be the rulers of the old days. The Old Gods of the old days will be overthrown by the New Gods.”

The founding emperor nodded and smiled. “Then, has the Great Heavenly Master lost the courage and determination to change?”

Saint woodcutter was slightly startled, he bowed and said, “Heaven’s pavilion is worried about gains and losses. Thank you for Your Reminder, your majesty. “Lan Yutian is already on the path of a saint. What I can’t do, I shouldn’t hinder him. Instead, I should hope that he can do it and even help him do it as soon as possible

“In the future, perhaps LAN Yutian will become the first saint.”

The founding emperor held the hilt of the carefree sword and touched the veins on the scabbard with his thumb, he said, “The carefree sword was created in the past to build a carefree village, but after discussing dao with him, I suddenly realized that this sword isn’t a carefree village. Instead, it wants me to rely on this sword to fight for the human race and all living things, so that the human race can have no worries.”

He smiled and said, “After discussing Dao with him, the 35th Heaven of My Sword Dao is gradually becoming clear. “Heaven Pavilion, you don’t need to belittle yourself. Your 360 acquired Great Dao are for the millions of years of Great Dao in the founding emperor era. “The reason why you are called a saint is precisely because you have planned for the millions of years of Great Dao in the founding emperor era. “You have lofty aspirations. It’s my incompetence that can’t protect the founding emperor era for millions of years.”

“The general situation is not with me. Founding emperor can not be blamed.”

Saint woodcutter said, “The defeat back then will be earned back today!”

Lan Yutian led five thousand disciples to eternal peace and looked around to distinguish the path. However, the gods that followed him all knew that even if this teacher of his could distinguish the path, he would still get lost.

“Where is teacher planning to go?” A goddess asked.

“I don’t know,” Lan Yutian said happily.

Everyone fell silent. A few gods left secretly.

Lan Yutian smiled and said, “Just follow your instincts. I can feel someone waiting for me in front.”

Everyone was skeptical. After walking for a few days, they saw the great thunderclap temple and the reclining Buddha on the thunderclap temple from afar.

The reclining Buddha was surrounded by Buddhist light and was in a deep sleep. The Buddhist light connected with Mount Meru in the 20 heavens of the Buddhist world and went straight to the Brahma realm at the top of the mountain.

Tens of thousands of buddhas and Bodhisattvas sat in the reclining Buddha’s Dreamland and concentrated on comprehending. Their Buddhist names were widely heard, and the sound of Buddhist chanting was vast and mighty.

The reclining Buddha was very eye-catching. The body of the reclining Buddha was that of a demonic ape, and his physique was extremely huge. He was snoring in his sleep, and the black fur on his body was vibrating, like the wind blowing in a Black Forest, rising and falling unsteadily.

The primordial spirit of the Reclining Buddha was incomparably holy and solemn, like a demon or a human. However, he was actually a Buddha.

Everyone looked up at the huge Buddha. After a moment, Lan Yutian shook his head and said, “He’s not the one waiting for me. Let’s continue walking.”

They walked for another dozen days and trekked through mountains and rivers. From Afar, they could see the Spirit Energy Mutual Shift Bridge of eternal peace. There were ships and ships coming in and out of the bridge.

When they came to the bottom of the spirit energy mutual shift bridge, they saw a group of people tearing it apart. A young Daoist was tugging at the sleeves of a handsome god, "Xu Shenghua, you can't leave! That treasure is only barely worth refining, and you want to leave. Leaving us to work hard, it's easy for you!"

The handsome man called Xu Shenghua tried to break free, he said helplessly, "I have already sorted out the blueprints given by Cult Master Qin. You can refine it according to the blueprints. The rest of the matters are trivial. How could I possibly stay here for fifty years? I still have to go to the ancestral court. Cult master has long told me that there are good things there!"

However, Lan Yutian also recognized that Daoist. His name was Lin Xuan, and he was the Dao Master of Dao sect. For some unknown reason, he had quarreled with Xu Shenghua.

"You've left. I don't know how many years have passed since you left. Your daughter, Xu Mengqing, is probably about to reach the age of marriage. When you come back, you can even carry a grandchild!"

Lan Yutian also recognized the person who spoke. He was an immortal from Little Jade Capital. His name was Wang Muran, and he was known as immortal Wang. His abilities were also extremely high.

Xu Shenghua said, "Immortal Wang, don't think about my lady."

Immortal Wang smiled and said, "You should be worried about Cult Master Qin! Be careful that he takes advantage of your absence to seduce your lady's soul away!"

"I've never been worried about him aging. Fellow Daoists, I have to go to the ancestral court. The cult master has already asked me to go! I've always had a feeling that that place is the key to my path of Dao."

Xu Shenghua broke free from Lin Xuan and bowed. "Everyone, I understand your good intentions, but are you going to stop me from achieving my path? You Can't beat me."

Everyone could only stop him and say, "You ran off to have fun, leaving us here to suffer. Forget it, forget it. We Can't beat you anyway. Just Go."

Xu Shenghua got up. At this time, he saw Lan Yutian and said in surprise, "Brother Lan, are you lost again?"

Lan Yutian nodded repeatedly and smiled. "I met you last time, brother Xu. I'll have to trouble you this time."

Xu Shenghua thought for a moment and said, "I'm going to the ancestral court. Do you want to go?"

"Yes!"

"Then come with me."

Xu Shenghua waved his hand and said seriously, "Gentlemen, if you stop me again, you will really beat me up."

Everyone dispersed in a hubbub.

Xu Shenghua led Lan Yutian to the psionic mutual shift bridge. He looked at the five thousand gods behind him and was surprised, but he did not ask further, he said, "These days, I have been hindered by all kinds of trivial matters, and I have been unable to go to the ancestral court. Now that I think about it, it is not those trivial matters that have hindered me, but that I am waiting for you. "It seems that the path of cultivation for you and me is in the ancestral court."

Lan Yutian said, "I have the same feeling. I feel that you are waiting for me. This should be a very wondrous journey."

The five thousand gods followed them into spirit energy mutual shift bridge. After a long while, they walked out from the sacrificial altar at the other end and were greeted by the seal of ten heavenly venerates.

"Teacher, there's a seal here and a hole there. There's no seal!" Someone shouted.

The entrance of the ancestral court had been blasted out by Qin Mu when he had activated the power of the primordial mine.

Xu Shenghua and Lan Yutian took a look, and Xu Shenghua shook his head. "It's too far, I don't know how long it will take to reach the entrance. This crack is closer, so just walk in from here."

“There are eleven types of seals here, and one of them was left behind by my brother.”

Lan Yutian sized him up and said, “It’s not difficult to break his seal.”

Xu Shenghua also sized him up and nodded. “It’s indeed not difficult to break his seal. Let’s go.”

The two of them brought the five thousand gods in and walked into the seal that Qin Mu had left behind.

In the ancestral court, Qin Mu came to the seventeenth void and asked in bewilderment, “Pi, what are you guys afraid of?”

“Cult master, Supreme Emperor Is Here!”The Dragon Qilin said with trepidation.

He had been busy recently and had forgotten to ask for a monthly pass for recommendation. He had only been able to take a break when he returned home recently, and he suddenly noticed that God Shepherd’s diary had an additional alliance master of silver. He was ashamed and had never had the time to thank him! Thank you nineteen for not selling wine, thank you dao brother for the silver reward!

### **Chapter 1302, the descent of Supreme Emperor**

“Supreme Emperor has arrived?”

Qin Mu was slightly stunned and smiled. “Are you afraid that Supreme Emperor will snatch away the Void Mother Beast and take control of all the Void Beasts?”

The dragon qilin nodded repeatedly, “I was just about to attack the ancestral god King’s treasure delivery fleet, but when I saw him, I immediately fled. I didn’t expect to feel a divine consciousness that was as vast as a sea of smoke chasing after me, and I almost controlled the Void Beast. Only then did I control the void Beast to dodge and escape from the layers of void, only then did I manage to shake off that divine consciousness.”

Qin Mu pondered it for a moment and asked, “You are saying that you controlled the void beast to shake off that divine consciousness?”

The dragon qilin nodded.

“Then that person isn’t Supreme Emperor.”

Qin Mu pondered it over. “Supreme Emperor’s divine consciousness is the strongest divine consciousness in history. If he wanted to take back the Void Mother Beast, even if God King Lang here and I joined hands, we wouldn’t be able to protect it, let alone you.”

The Dragon Qilin was puzzled. “That person’s divine consciousness was incomparably strong. When I controlled the Void Mother Beast, the Void Mother Beast controlled tens of thousands of void beasts and cried out at the same time. Even if the divine consciousness of so many void beasts were added together, they wouldn’t be able to fight against that person and would collapse at the touch. How could such a strong divine consciousness not be supreme emperor?”

Qin Mu shook his head. “Even if that person’s divine consciousness was so strong, it was still far inferior to Supreme Emperor. “Now that Supreme Emperor has already obtained a portion of primordial stones, the strength of his divine consciousness is something that even the combined divine consciousness of ten heavenly venerates wouldn’t be able to contend against, let alone tens of thousands of void beasts!” “I know who the person who made the move is, but I didn’t expect him to not stay in the celestial heavens and come here as well.”

He revealed a strange expression.

The Dragon Qilin was puzzled.

“The son of heavenly venerate gong and heavenly emperor of Primordial Heavens, divine emperor Lang Xuan, has already arrived at the ancestral court.”

Qin Mu walked around and sized up the void mother beast beside him, “As the god King of creators and the son of Heavenly Emperor of Primordial Heavens, Divine Emperor Lang Xuan’s divine consciousness attainments can not be underestimated,” he said. “The reason he came here should be for this void Mother Beast. “Lang Xuan is the most ancient god Emperor after all, and he also has the bloodline of Heavenly Emperor. He naturally isn’t willing to be under heavenly venerate vast heaven.”

He raised his head, and the eyes of the void mother rolled up. It bared its teeth at him, revealing its mouth full of sharp teeth.

Qin Mu didn’t mind it, “Heavenly venerate vast heaven has suffered heavy injuries, so this is a great opportunity for divine Emperor Lang Xuan!” Lang Xuan’s cultivation and abilities were naturally inferior

to heavenly venerate vast heaven, but if he controlled the void mother, he would also control all the races of the Void Beasts. "This power is too terrifying!"

He said firmly, "With the void mother, he is the strongest power in this world. Only Long Xiao can contend with him! "His goal is to subdue the void beasts and head to the dark side of the ancestral court to subdue Long Xiao! "At that time, he would have two heavenly venerates supporting him. How could the other heavenly venerates not be convinced?"

The dragon qilin let out a sigh of relief and said, "Luckily, the void mother beast wasn't snatched away by divine Emperor Lang Xuan..."

Qin Mu smiled slightly. "Long Pi, you have indeed grown up, and you have done well. "The void mother beast is indeed extremely important. Since Lang Xuan has already come to the ancestral court and a huge hole has been blasted open, it means that the void beasts can leave the ancestral court. "I'll arrange a mission for you. Bring all the void beasts out of the ancestral court and head to Great Void!"

The Dragon Qilin was astonished and probed, "Cult master wants me to lead the Void Beasts to fight against the Heavenly Court in Great Void?"

Qin Mu nodded and said, "With the void Beast Army, the Heavenly Court's army isn't your match at all! However, you have to be careful when mobilizing the void beasts. After all, Divine Emperor Lang Xuan is a heavenly venerate and is extremely powerful. Be careful that he doesn't notice anything strange."

He walked around the Void Mother Beast and pondered for a moment before saying, "Pass the Order of the Void Mother Beast and gather the Void Beasts in the sixteenth void. When the time comes, we will rush out together. I expect that Divine Emperor Langxuan won't be able to react in time!"

The dragon qilin acknowledged and said, "I'll get the Void Mother Beast to gather the void beasts while I have to make a trip to the Hundred Thousand Sacred Mountains to fetch Yan 'er."

Qin Mu smiled. "That's natural."

The dragon qilin lowered his head and looked at his claws.

"Long pi has grown up."

Qin Mu sighed ruefully and brought him away from the seventeenth void to the hundred thousand Black Mountains of the great black wood. In the seventeenth void, the void mother kept shaking the bone mountains on its body and let out strange howls to gather the void beasts in the ancestral court.

Qin Mu and the Dragon Qilin had just walked out of the void when the Dragon Qilin's expression suddenly changed drastically. He cried out, "Cult master, I can't sense the Void Mother Anymore!"

"Don't scream."

Qin Mu's expression didn't change as he said with a smile, "Continue walking forward. When we reach the great black wood, we'll be safe."

The Dragon Qilin was puzzled, but the smile on Qin Mu's face didn't decrease. He said softly, "Supreme Emperor is watching us."

The Dragon Qilin's hair stood on end, and his heart was filled with fear.

"The one chasing you is divine emperor Lang Xuan, but Supreme Emperor has also arrived. "The cultivation of divine consciousness of divine emperor Lang Xuan should be above mine, but it's slightly weaker than Divine King Lang this. If he really chased you, you and the Void Mother Beast wouldn't be able to escape, and the seventeenth void wouldn't be safe either. "There's only one possibility for you guys to be able to escape."

The smile on Qin Mu's face was very bright, and he looked very pure, "That's because there's an existence with stronger divine consciousness that interfered with divine emperor Langxuan's divine consciousness!" He said unhurriedly! "There's only supreme emperor in the world who has such a method and doesn't disturb langxuan, not even divine king Zhang. "Supreme Emperor was alarmed by Long Xiao, so he came to the ancestral court."

The Dragon Qilin was about to use his divine consciousness to talk to him when Qin Mu smiled. "Don't use your divine consciousness. If you do, Supreme Emperor will notice you. Now that he has obtained the primordial stone, his divine consciousness is unfathomable."

The Dragon Qilin opened his mouth to reveal a smile and said in a muffled voice, "Cult master, you mean to say that Supreme Emperor has always been by my side?"

Qin Mu smiled and his smile was a little stiff. "He was by our side just now."

The Dragon Qilin wanted to shiver, but he didn't dare to do so. He whispered, "Then the Void Mother Beast..."

"It was controlled by him long ago."

Qin Mu couldn't help rubbing his stiff smile, he continued to laugh. "Even if he controls the Void Mother Beast with his abilities, you wouldn't notice anything wrong and still think that you are the one controlling the Void Mother Beast. "And the analysis I gave just now wasn't for you to listen to, but for him. "After Supreme Emperor controls the Void Mother Beast, he will use the Void Mother Beast to seduce Divine Emperor Lang Xuan. He will first heavily injure this strong enemy and then subdue long Xiao alone!"

Just as the dragon qilin was about to speak, he suddenly laughed loudly. "Celestial Emperor Mu is indeed worthy of being Celestial Emperor Mu. He can see things clearly! Using the mother beast to tempt Lang Xuan and heavily injure Lang Xuan is indeed a good idea! Thank you —"

Qin Mu's expression changed drastically and he cried out, "Supreme Emperor? You have been by our side all this time?"

Whoosh —

A gust of divine consciousness stirred up a hurricane and whistled into the distance. Supreme Emperor's voice came over and he chuckled. "I'll spare you, Brat, but you won't be able to discover me, right? On account of you giving me an idea this time, I'll spare your lives!"

The Dragon Qilin's face was ashen, and his limbs were trembling. He said in a trembling voice, "Cult master..."

Qin Mu didn't say a word and rushed forward with a black face. The dragon qilin trembled in fear and immediately followed after him.

In front, the great black wood was in sight. Qin Mu finally let out a sigh of relief and revealed a smile. "If supreme emperor dares to touch divine emperor Lang Xuan, how can the ancestor God King sit still? Therefore, this is definitely an outcome where both sides suffer heavy losses!"

The Dragon Qilin was stunned and opened his mouth wide. He stammered, "Cult master, the idea that you came up with just now..."

“The current ancestral court is no longer Supreme Emperor’s world.”

Qin Mu said indifferently, “If he goes to plot against Lang Xuan, he will definitely suffer a great calamity. Furthermore, Heavenly Duke and Earth count are also in the ancestral court, how can we tolerate him?”

The Dragon Qilin’s mind went blank, and he said in a muffled voice, “Cult master, I suddenly feel that I’m still a child. I’m not an adult yet, so you should just call me fatty dragon...”

### **Chapter 1304, Lang Xuan ambushing the Void Beasts**

Finally, they walked into the range of the Azure Heaven glazed tiles, and Qin Mu let out a long sigh, “There’s no need to belittle yourself. These old martial artists were only born earlier than us and have experienced more things in the world, so they might not be smarter than us. If the longer they live, the smarter they become, then the bastard would have long ruled the world.”

The Dragon Qilin couldn’t help laughing. “Cult master, the bastard isn’t the species with the longest lifespan.”

Qin Mu smiled. “The one with the longest lifespan is the ancient god, but haven’t I killed many of them? “It’s obvious that living longer doesn’t make you smarter. “In fact, what’s terrifying is that living longer will make you rely more and more on experience to do things instead of your own brain. “When you fall into experience, it would be dangerous.”

The Dragon Qilin felt that these words were gold and jade, so he memorized them carefully. “Perhaps it can be used in my human rearing scriptures...”

“If Supreme Emperor is heavily injured this time, can I take back primordial stone?”

Qin Mu blinked and touched the beard on his chin. The Beard was stubborn and would grow back no matter how hard he pulled it out.

‘If I take back the original stone, wouldn’t the original stone i gave Celestial Venerable Xiao Be Wasted? However, the primordial stone is indeed very tempting...’

At that moment, Xu Shenghua, Lan Yutian, and the rest passed through the crack in the sky and finally arrived at the ancestral court.

'what a treasure land!'

Everyone looked around and couldn't help exclaiming in admiration. This place was even more like the celestial court. There were Divine Mountains made of divine gold, rivers made of Sunflower Water, white clouds gathered from Spirit Qi, and raindrops formed from Spirit Qi.

The soil on the ground was the resting soil, and it could grow on its own. A piece of resting soil could turn into a piece of land.

Those mountains were continuous and undulating like divine dragons in all kinds of postures. If there was a genius like dragon rearing sovereign, he could slightly change the geography and turn the mountains into true dragons.

There were also plants in the mountains and fields. They were lush and verdant, and all kinds of spirit flowers and rare plants were rare in the outside world.

And those giant beasts walking in the mountains and flying in the Clouds and mist were even more unbelievable.

"No wonder the cult master has always let me come here."

Xu Shenghua couldn't help but exclaim in admiration, he muttered, "There are too many treasures here. The natural patterns on those giant beasts contain profound principles. If one grasps them, one's achievements will definitely be extraordinary. "The movements of the mountains and rivers, the heavenly materials and earthly treasures. This is clearly the land of di Xing!"

Lan Yutian sensed the great dao here and muttered, "This will be the land of my path..."

Xu Shenghua also nodded. "I also sensed it. This will be the land of my path."

The two looked at each other. Lan Yutian led five thousand gods and walked down from the sky, following his senses, he said, "I can sense that there are five kinds of strange great dao here. They are abnormally strong, and they are related to my dao, skills, and Divine Arts."

Xu Shenghua sensed carefully and praised, "Brother Lan's aptitude still surpasses mine. My senses are not as clear as yours, but I can barely sense the five kinds of great dao auras."

The group followed the two of them and walked slowly, trekking through mountains and rivers. Along the way, they saw countless heavenly materials and earthly treasures, which dazzled them.

Some gods were affected by the treasures and stopped to search for treasures. When they found the treasures, they saw that Lan Yutian, Xu Shenghua, and the others had already left without a trace.

As they walked, the number of gods behind them became fewer and fewer, leaving only three thousand people. They continued to follow them relentlessly.

But it was also strange that when some giant beasts met them, they actually joined the ranks of followers.

When Lan Yutian and Xu Shenghua stopped to Talk About Dao Arts and divine arts, these immemorial giant beasts actually sat down and listened.

Some gods intended to drive these giant beasts away, but Xu Shenghua stopped them and said, "All things have spirits, all things have dao, and all things can cultivate."

Lan Yutian's senses were even more sensitive, and Xu Shenghua sighed in admiration. They walked for dozens of days, and finally came to a piece of the primal chaos sea.

This primal chaos sea was filled with incomparably ancient primal chaos qi. It was incomparably heavy, and it could transform into anything. It was extremely dangerous. Even the giant beasts of the ancestral court did not dare to set foot in this place.

Xu Shenghua looked around, shook his head, and said, "The Great Dao here has dissipated. Only the aura remains."

Lan Yutian shook his head and said, "It hasn't dissipated. The Great Dao has always been there. It's just that someone has used the Great Dao here to become a dao. After he became a dao, his realm was too high and he no longer needed this place, so he left."

At this moment, the sky suddenly turned dark. Everyone raised their heads and saw countless six-legged behemoths spread their two pairs of wings and glide through the sky.

Those behemoths were slightly larger than the other behemoths. The patterns on their bodies were extremely strange. When they flew in the sky, they formed groups and filled up the sky.

No one had ever seen such a spectacular scene. They all raised their heads and looked around.

Xu Shenghua muttered, "Cult Master Qin once taught me a few types of void patterns, saying that they contain a kind of great dao of the void. Those patterns and the patterns on the bodies of these behemoths are like... Yes, these are void beasts!"

He had just said these words when the behemoths near the chaotic sea suddenly seemed to have been disturbed, and they all fled in all directions. Even the few behemoths that were following Lan Yutian were trembling in fear at this moment, prostrating on the ground, they seemed to be planning to hide themselves.

Xu Shenghua, Lan Yutian, and the rest didn't know much about the void beasts, but the other huge beasts knew how terrifying they were. The void beasts could be said to be the natural enemies of all the huge beasts, and with so many of them roaming around, they could really wash everything with blood!

However, what was strange was that the Void Beasts in the sky ignored the huge beasts that were running down and instead ran in the same direction. That was the other hole in the sky of the ancestral court!

There were two holes in the sky. One was because founding emperor had cleaved open the heaven with his sword, and the other was because Qin Mu had triggered the riots in the supreme beginning mineral vein and blasted a huge round hole in the seal of the gods.

The Void Beasts went straight for the huge round hole.

Just as countless void beasts were rushing towards the huge hole, the sky suddenly shook violently. An incomparably huge round eye stretched out from the void, squeezing the sky until it continuously cracked.

The other void beasts all fled, making space for themselves.

Following that, the huge eye poked out, slowly revealing an even larger void beast head.

Boom —

The Sky Shook, and a claw that was several times thicker than a mountain range poked out from the void. It rubbed against the air, causing lightning, thunder, and fire to Scurry in the sky.

Boom Boom Boom —

The six claws of the giant beast stretched out from the void, and its complete body descended. It was none other than the Void Mother Beast!

This void Mother Beast was the Void Mother Beast that the Dragon Qilin had controlled in the past, but it had now returned to Supreme Emperor's control.

Countless void beasts surrounded the void mother beast and hugged it as they flew toward the entrance of the ancestral court. From the looks of it, they were planning to escape from the ancestral court!

"How could the Void Beasts escape? Could there be creatures even more terrifying than them here?" Xu Shenghua was bewildered. He had heard many legends about the void beasts from Qin Mu.

At that moment, a huge wheel of divine light rose and blocked half of the sky. That Wheel of divine light whizzed around, and in front of it was the face of God Emperor Lang Xuan.

That face had a smile on it.

"The Void Mother Beast belongs to me!"

God Emperor Lang Xuan's divine consciousness burst forth and he laughed loudly. "The race of the Void Beasts will also fall into my control!"

Xu Shenghua, Lan Yutian, and the others were dumbfounded. Xu Shenghua's expression changed and he said hurriedly, "Let's Go! Even a wisp of celestial venerable's power is enough to crush us!"

Just as they were about to leave the chaotic sea, a figure suddenly rose from the chaotic sea. It was a white-haired old man with a cane in one hand and a bucket in the other, he chuckled and said, "Fellow Daoists, you won't be able to hide from the Battle of the heavenly venerates in time. You'd better come to my place to hide for a while."

## Chapter 1305, one finger of divine essence

Xu Shenghua and Lan Yutian bowed to the white-haired old man to express their gratitude.

The white-haired old man raised his walking stick and gently pushed it. The Sea of chaos cracked open, revealing a path. The two quickly led the three thousand gods and beasts into the Sea of chaos. The chaotic Qi on both sides was like cliffs, extremely steep and terrifying.

If this chaotic Qi pressed down, they would be crushed into pieces and assimilated by the Chaos!

When they walked into the sea, the white-haired old man stuck his crutch into the ground and said, "My place is rather shabby. I originally had a place to stay, but when heavenly venerable mu arrived, it collapsed."

Xu Shenghua said in surprise, "Cult Master Qin has been here before? He tore down your place?"

The white-haired elder was helpless, he said, "Isn't That So?" When he saw that I had placed the eggshell here, he thought that I didn't want it anymore, so he took it away by himself. However, he didn't know that the reason why I left the eggshell behind was to rely on the eggshell to stabilize this mineral vein. After he took away the eggshell, this place collapsed and turned into a chaotic sea."

Lan Yutian said with a smile, "It's my brother's style. How should I address you, Elder?"

"Everyone calls me Tai Yi."

The white-haired elder smiled. "The Battle of the heavenly venerables is about to begin."

Xu Shenghua's heart trembled. Those with the word Tai before their names were all amazing old monsters. Tai Di and Tai Chu were both figures that had existed since the primordial age!

For the others, even the oldest ancient gods did not have the word Tai in their names. Earth count, Heavenly Duke, and earth mother did not have the word Tai.

This old man was called Tai Yi. He was probably from the same era as absolute beginning and supreme emperor. Perhaps he was even more ancient!

Lan Yutian didn't think as much as he did. They raised their heads and saw Divine Emperor Lang Xuan's soul consciousness rushing toward the void beasts that were protected by countless void beasts. Countless void beasts opened their eyes and opened their ferocious mouths, they let out ear-piercing cries and attacked his spiritual sense!

But how powerful was divine emperor Lang Xuan's spiritual sense?

His spiritual sense was vast and mighty. As he swept around, countless void beasts instantly lost their minds and fell from the sky like rain!

Divine Emperor Lang Xuan was worthy of being a heavenly venerate. He only used his spiritual sense but did not use his magic power. He made these extremely powerful void Beasts' strange abilities completely useless.

Celestial Emperor Lang Xuan's spiritual sense came directly in front of the Void Mother Beast. His spiritual sense was as deep as the sea and surged into the Void Mother Beast's brain.

Celestial Emperor Lang Xuan smiled. "Junior, you were lucky last time and escaped. Now you have no way to escape."

"Is that so?"

The terrifying spiritual sense hidden in the void Mother Beast's brain exploded and destroyed celestial emperor Lang Xuan's spiritual sense in an instant. In the next moment, this spiritual sense gushed out from the Void Mother Beast's brain and shot back at Celestial Emperor Lang Xuan!

Divine Emperor Lang Xuan's expression changed drastically. The strength of the surging divine sense even surpassed his own. He immediately understood who the master of the Void mother was!

"This void mother is already under the control of Supreme Emperor! The last time I met the void mother, its master was still the mount of Celestial Master Mu, but now it has become Supreme Emperor!"

His reaction speed could not be described as slow. Immediately, his divine sense formed a defensive formation. At the same time, heavenly palaces leaped out behind him and connected to form a heavenly court!

He mobilized his mana and at this moment, his mana turned into defensive runes. The runes formed dao patterns and wrapped around his body.

“Innate one qi!”

He inherited the bloodline of heavenly monarch absolute beginning. The innate one qi unified all the great daos in his heavenly palaces and formed a whole, greatly increasing his defensive power!

In terms of bloodline, he was the best bloodline in the world. He had the creator god King’s and heavenly monarch absolute beginning’s bloodlines at the same time. He took care of both the Divine Sense Dao and the innate one qi in the absolute beginning Dao at the same time!

Compared to heavenly venerate hao, he was even more perfect!

However, the Divine Sense Dao and the connate one Qi were not unified in his body. If he could unify them and form a complete Primordial Dao, he would surpass heavenly venerate Hao and become the leader of the ten heavenly venerates!

However, heavenly venerate Hao was in fact the leader of the ten heavenly venerates. He was the rightful ruler of the Heaven Court and enjoyed more resources. Meanwhile, Divine Emperor Langxuan was only one of the ten heavenly venerates. He did not show off his power.

Even so, there was not much difference between the ten heavenly venerates.

He unleashed his full power at this moment. The number of heavenly palaces behind him continued to increase, from eighteen to thirty-four, forming a great heavenly court!

However, before his aura reached its peak, Emperor Tai’s fist had already landed on his face.

Monarch Tai’s attacks were simple and brutal. In the primordial era, he was the strongest monarch and there was no need for any fancy divine sense skills. His fist was the strongest weapon!

Celestial Emperor Lang Xuan’s face twisted and exploded. His head flew backward and his body was like a piece of paper that was folded into a right angle.

Monarch Tai, who had obtained the primordial primordial stone, was unbelievably strong. Even a terrifying existence like celestial emperor Lang Xuan's body could not withstand a single blow from him!

Just as Celestial Emperor Lang Xuan's body bent, the great heavenly court's Abhijna burst out. The Innate Yi Qi, along with a terrifying divine sense, slammed into Monarch Tai's body.

It was his Yuan Shen Yi Qi mantra!

His entire life's comprehension was all in the Yuan Shen Yi Qi mantra.

To all the demigods, he was indeed the Yuan Shen, the first demigod, the most ancient Yuan Shen!

The Immortal Soul One Qi mantra had unified 34 monarch-level techniques. It was extremely powerful, tough, and ferocious. He knew very well that the supreme emperor had the upper hand. No matter how hard he tried to defend, he would fall into a passive position, he would lose his advantage and eventually die.

The best way was to attack him and save him. The Supreme Emperor would fall into a passive position and turn the situation around.

The Supreme Emperor's huge body covered half of the sky, and a mocking smile appeared on his face. The primordial primordial stone embedded in his forehead shone brightly, and he allowed the attack to land on his body.

His physical body was stronger than when he fought with heavenly venerate clear. Under the attack of the Supreme Emperor, his body only swayed for a moment. In the next moment, his palm landed on the neck of the Supreme Emperor.

Celestial Emperor Lang Xuan's neck cracked open and his head was almost chopped off!

At the same time, Celestial Emperor Lang Xuan's Yuan Shen rose up from the Great Heavenly Court. He stood guard in the Great Heavenly Court and pointed with his finger.

The finger flew out like a stream of light and gathered all the innate dao contained in the 34 heavenly palaces. The light emitted from the tip of the finger was tens of thousands of times brighter than the sun!

This finger came out of nowhere and even monarch Tai was caught off guard. Ding! The finger hit monarch Tai's forehead and it was the absolute beginning raw stone!

Monarch Tai's mind went blank and the raw stone was cracked open by his strike.

There was nothing wrong with monarch Tai's forehead but there was a huge hole on the back of his head. The bright light shone with a blood-red light and illuminated the sky!

"You have fused celestial king Gong Fu's Dao with absolute beginning's Dao? As expected of their son."

Supreme Emperor condensed the shattered raw stone. The raw stone was reassembled and restored to its original state. It was still embedded in the center of his brows, he praised, "If Gong Fu's son and I were still alive, he would definitely not be inferior to you. You only know this move, right, Langxuan? That's why you can die."

In the Sea of chaos, Tai Yi was calm. He explained to the puzzled crowd, "Gong Fu is the wife of the Supreme Emperor. The Supreme Emperor killed Gong Fu's clansmen. In order to take revenge on him, Gong Fu fell in love with the Heavenly Emperor, Tai Chu, and gave birth to divine emperor Lang Xuan."

Everyone was stunned.

Tai Yi said unhurriedly, "At that time, Tai Chu was not the heavenly emperor. In name, he was the Supreme Emperor's foster son. The affair between the adopted son and the godmother was also a sensational event in the primordial age. Therefore, Tai Chu later killed Gong Fu to prevent his dark past from being known by others."
