#### Chapter 1697: Ten Steps To Kill A God

"Time is tight, stop drinking."

Celestial Venerable Yun and Qin Mu's sides were filled with empty wine jars, and there was only one jar left untouched. Celestial Venerable Yun smiled and said, "It's hard for existences like us to get drunk. You need to stop Hall Master Spirit Official. After all, he's split into thirty, so it won't be easy to get rid of him. This jar of celebratory wine will remain here. You and I, whoever returns first will drink this jar of celebratory wine!"

"Alright!"

Qin Mu also knew he couldn't delay. He stood up and said with a smile, "This jar of wine is the celebratory wine. Whoever returns here first will have the right to drink it!"

He turned to leave.

The moment he turned around, Celestial Venerable Yun felt a faint aura in his shadow. It was Shang Jun who had left Qin Mu's shadow and was hiding in it. It was hard to detect under normal circumstances. It was Shang Jun who had intentionally let out a slight ripple to signal his arrival.

Celestial Venerable Yun looked down at the battlefields below. The battlefields around Carefree Village were bustling with activity. Eternal Peace's reinforcements and supplies were continuously being sent here through the teleportation gate. Carefree Village was in charge of the rulers of the 33 heavens, and they all led their troops into the battlefield. Among the four great heavenly teachers, only Woodcutter was left to control the entire situation and unleash his wisdom to the fullest!

Because Celestial Venerable Yue, Celestial Venerable Yun, Qin Mu, and the rest were overseeing Carefree Village, Martial Arts Heavenly Teacher led the martial arts practitioners of Bullfighting Heaven into battle and didn't protect Woodcutter Wen Tiange.

Celestial Venerable Yun's gaze flickered. Spirit Official Hall Master's first battle was also the most dangerous one, and that was Carefree Village!

Carefree Village was the closest, so the first place he would reach would definitely be Carefree Village's battlefield. He would hunt down the four great heavenly kings of Carefree Village, Founding Emperor Yiyue, Elder Qing Huang, Sakra Buddha, Mingdu Heavenly King Tian Shu!

Other than that, he also had to hunt down the four great heavenly teachers of Carefree Village, Wen Tiange, Yan Yunxi, Guan Cha, and Han Tang!

Carefree Village was in chaos and without a leader. Even with Eternal Peace's heavy weapons and countless gods and devils, there was no one to deploy them. It was hard for them to escape death.

The second place that Hall Master Ling Guan's ancient god clone reached was the South Sea battlefield. South Sea battlefield had South Deity Vermillion Bird, Crimson Light Two Emperors, First Ancestor Human Emperor, and Red Deity Qi Xiayu.

Next was Heavenly Yin World, hunting Goddess of Heavenly Yin!

Meanwhile, Heaven Duke and Earth Count who lived behind Supreme Emperor Heaven were the fourth places he had to go.

The Youdu where Little Earth Count Qin Fengqing was at was the fifth place he wanted to go!

Next were the two Black Tortoise Deities that had just descended from the northern border and Wei Suifeng, who was in charge of the northern border.

The next target was Dao Ancestor of Dao Sect and the Brahma King of Buddhism!

The ones closest to the Dao Sect were Emperor Yanfeng of Eternal Peace's capital city, as well as Virtuous Earth Sovereign Gongsun Yan. Next were Jiang Baigui of the East Sea and the recently revived East Deity Qing Long.

After the east sea, Hall Master Ling Guan arrived at West Earth. West Deity White Tiger had descended there, and eradicating West Deity and Heavenly Teacher Yue Tingge was his goal!

After that was the dragon qilin, the lord of the beast world, and finally, Xu Shenghua, who was under the world tree of the ancestral court!

What Qin Mu wanted to do was to reach these places in the shortest time possible and kill the ancient god clone of Hall Master Ling Guan!

The Hall Master of the Spirit Official Hall had achieved four lifetimes of Dao, three Dao Fruits, and one Dao Flower. He cultivated the Dao Realm system of Miluo Palace and the system of using strength to achieve Dao, four types of Dao.

His corporeal body was split into thirty portions, transforming into thirty strongest ancient gods. They could be considered top-notch Celestial Venerables!

The techniques he cultivated were countless, and he had cultivated numerous Great Daos. The paths, skills, and divine arts that the thirty ancient gods had mastered would probably never be repeated!

No matter if it was Celestial Venerable Yun or Shang Jun, they couldn't see through the Great Dao divine art that his ancient god clone had mastered in the shortest time and kill him.

The fastest person in this world was the ancient god, South Deity Zhu Que, who controlled the Dao Fire Ancestral Land. However, South Deity was no longer an ancient god, and the Dao Fire Ancestral Land was now under Eternal Peace's control.

Celestial Venerable Yue's Extreme Void wasn't fast, but folded space, giving people the illusion that she was extremely fast.

Cripple was third in speed, and his speed was so fast that he could disregard space.

Next was the teleportation divine art and the Spirit Energy Mutual Shift of different worlds.

On the other hand, Qin Mu was the only existence that had the strength of multiple families. Spirit Energy Mutual Shift was even created by him and the black tiger god when they were young.

Therefore, he was the only one who could intercept and kill the thirty clones of the Spirit Official Hall Master. Even so, there was a high chance that the rescue would fail.

Celestial Venerable Yun looked at the battlefield around Carefree Village. On those battlefields, there were a few short and incomparably intense divine arts fluctuations. There were eight of them!

Eight short divine art waves might not be eye-catching in the vast battlefield, but the shock they gave Celestial Venerables was incomparable. Even strong practitioners on Emperor's Throne couldn't feel how terrifying the power contained in these eight short divine art waves was, but it was extremely terrifying for Celestial Venerables!

Celestial Venerable Yue, Lang Wo, Celestial Venerable You, Taishi, and Lan Yutian were all alarmed as they looked towards the battlefield. At the same time, on the side of the celestial heavens, the expressions of the two ancient gods of taiji, Ancestral God King, Celestial Venerable Xu, Mistress Yuanmu, and even Celestial Emperor Hao and Tai Chu changed drastically as they looked towards the battlefield.

Emperor Hao Tian even transformed into a woman and was controlled by the second young master. He looked at the situation on the battlefield.

The eight divine arts came from different directions and belonged to the seven war zones. Compared to the Supreme Emperor Heaven where Wen Tiange was observing the battle, the time between the eight divine arts was very short. There was only one short breath!

Eight breaths later, the dust settled!

Celestial Venerable Yun looked at the eight locations and saw eight peculiar-looking ancient gods lying on the battlefield. The ancient god in front of Wen Tiange had yet to fall, and his corpse was tilting to the side, about to fall.

Not far away from Wen Tiange, there was a flow of light that came from teleportation divine arts and the void divine arts. In the flow of light, there was actually a huge footprint that didn't disappear when stepping on the light!

"Celestial Venerable Mu."

Celestial Venerable Yun picked up the unopened jar of wine and opened it. He raised his head to drink it.

"I'll drink this celebratory wine first. Who do you think will come back first to drink this wine? I hope you can see this empty wine jar when you return and mistake me for returning alive."

He drank the celebratory wine in one gulp and wiped the wine off the corner of his mouth. He smiled and said, "You are too smart, you are skilled in breaking through situations and breaking through calamities. I know that I can't hide such a small trick from you, but you are also a human. No matter how smart you are, if there's even the slightest hope, you will carry that hope and think of things that are better."

He put down the empty wine jar and walked down the Grand Pure Land. He stretched out his palm, and the Tai Chu Emperor Sword flew over. The Great Overarching Consciousness Heaven followed his movements.

His gaze landed on the sky above the main camp of the celestial heavens. Over there, the two Great Overarching Heavens were also moving. Taiji, Ancestral God King, Celestial Venerable Xu, and the other existences were also launching an all-out attack. Almost all of the gods and devils of the celestial heavens were mobilized!

He even saw Mistress Yuanmu's Ruins of End in the sky!

Ancestral God King's army of Xuandu flew past Carefree Village and headed towards Eternal Peace. In Youdu of the Primordial Realm, the devil gods and monsters from Youdu flooded over like a flood!

Celestial Venerable Yun took a deep breath, and divine light shone in his eyes. "Second Young Master, Celestial Venerable Hao, today, I will make sure you will never forget me! The shadow of this battle will forever be imprinted in your Dao hearts!"

Eternal Peace Southern Border, Jade Cliff Pass.

Crimson Light and South Deity looked at the three ancient gods that had suddenly appeared with grave expressions. The three ancient gods gave off an extremely terrifying feeling, like Heaven Duke and Earth Count at their peak. However, Heaven Duke and Earth Count were already dead, and after

they were reborn, they became lifeforms after the beginning. They could also be called half-gods.

Other than them, were there any other powerful ancient gods in this world?

South Deity's expression changed drastically, and she immediately said, "Yan'er, Qin Wu, Red Deity, leave quickly. I'll stop them!"

She walked out alone to face the three peculiar-looking ancient gods. Without turning her head, she said, "Yan'er, if you see Bai Yujing after you go back, tell her that she has won. Mother... I might not be able to leave. Crimson Emperor, Crimson Emperor, you guys go too!"

Yan'er was at a loss, and Crimson Emperor said in a low voice, "Zhu Yan'er, we have to leave this place. It's too dangerous here!"

The two of them had supported Crimson Light Era for over a hundred thousand years, and Light Emperor was a ruthless person who had almost attacked the celestial heavens. If he hadn't died, Crimson Light and Emperor would have been existences like the ten Celestial Venerables.

With their keen eyesight, they immediately saw the extraordinary points of these three ancient gods!

Right at this moment, another voice suddenly sounded out. "Which one is Red Deity Qi Xiayu? I searched for a moment in the South Sea, but I still couldn't find this Red Deity... So it's here! Dao Friend Qi, Miluo Palace Spirit Official, greetings."

Red Deity Qi Xiayu turned around and saw another ancient god that was as red as blood walking over from the southern sea. The corners of her eyes couldn't help twitching, and she gave a long cry. She transformed into her nine-headed phoenix body and prepared herself for battle.

"Little friend, there's no need to be nervous."

The blood-colored ancient god said with a smile, "The difference between you and me is too great. You will die very quickly, and there will be no pain. Celestial Venerable Hao invited me to make a move. Other than letting me kill you, he also wants to destroy your soul so that the seventh young master can't revive you. To me, this is easy."

Suddenly, another voice came over and laughed. "Is Human Emperor Qin Wu here?"

First Ancestor Human Emperor endured the pain and looked towards the source of the voice. He saw an ancient god with a green face and sharp teeth walking over like a Youdu ghost king. The gaze of that ancient god landed on his face, and he said with a smile, "You are Human Emperor Qin Wu, how nice. I have been searching all the way, and I didn't expect to see little friend here. Emperor Hao Tian has invited me to kill you."

Village Chief and the rest stood up silently and stood in front of First Ancestor who was the most injured.

"Everyone, there's no need for this."

The five of them looked at each other and said in unison, "Killing you guys is as easy as lifting a finger for me. It's just that Celestial Emperor Hao is cautious and invited our five great clones to deal with one person each. Actually, one clone is enough. Even if Dao friend South Deity wants to escape, she won't be able to."

The despair in South Deity's heart grew even stronger. Dao fire blazed around her as she shouted, "Yan'er, from today onwards, Bai Yujing is your mother! Go—"

She rose into the air, and the Vermillion Bird Spirit appeared. Dao fire warped space and pounced towards the five ancient gods with incomparable valor!

The five peculiar-looking ancient gods looked at each other and smiled. They shook their heads and said, "Pitiful, a moth flying into the fire, seeking its own death. How can you guys contend against the paths, skills, and divine arts of the Miluo Palace?"

The Great Dao around one of the ancient gods was like fire as he raised his hand to face South Deity. An incomparably terrifying pressure came over, and the distorted space of the Vermillion Bird Soul was sealed. South Deity's magic power was also sealed, and she was fixed in the air!

The Dao runes of the Dao fire that came from the ancient god's body were stronger and deeper than hers. They restrained her and made her unable to resist.

South Deity's heart was calm. She only had one last thought left. "Silly girl, run..."

The ancient god smiled and killed him.

At the same time, the other four ancient gods took a step forward and walked towards Crimson Light and Red Deity Qi Xiayu and First Ancestor Human Emperor!

A suffocating despair filled the Jade Cliff Pass. Yan'er suddenly shouted and pounced forward.

Boom!

Space suddenly exploded, and a fist passed through the back of the ancient god's head, which was fixed in place to kill South Deity.

The five fingers of the fist opened up, and the five Connate Great Daos of Tai Yi, Tai Shi, Tai Su, and Tai Chi burst forth from the five fingers, splitting the ancient god into pieces!

Qin Mu's body crashed out of the space, turning the body of the ancient god into fine powder. It shattered into fine powder and transformed into streams of chaotic qi that dispersed.

South Deity's red clothes fluttered in the wind, and the Dao fire floated behind her. She looked at this sight in disbelief!

Qin Mu didn't say a word. The vertical eye at the heart of his brows opened up, and the primordial divine light shot out from his eyes, piercing through the head of another ancient god. Using his right hand as a sword, he slashed horizontally, splitting open the sky with one strike!

Heaven Capital Heaven Splitting Writing!

When the sword slashed over, the corporeal body of the third ancient god exploded. It was as if heaven and earth were being split apart as it transformed into a world that was slowly rising in the Jade Cliff Pass!

Qin Mu raised his left hand and pointed. The primordial finger burst forth, and the ancient god that was walking towards First Ancestor had just leaped up

when his body was pierced through by the primordial finger and nailed to the jade cliff!

The ancient god that was rushing towards Red Deity Qi Xiayu was furious. He turned around and escaped into the South Sea. Qin Mu took a step forward, and a huge hole was blasted through Jade Cliff Pass. The sea surface split open, revealing a deep seabed. That was the terrifying destructive power caused by the two of them moving quickly!

Hundreds of thousands of miles away from the southern sea, it was as if a planet had crashed into the sea, causing the surface of the sea to explode. The waves and tsunamis formed rushed towards the coastline of Eternal Peace!

"Seventh young master!" A Dao voice reverberated endlessly in the sky above the southern sea.

South Deity, Crimson Light, and the rest had yet to come back to their senses when they saw Qin Mu flying back and sprinting towards Jade Cliff Pass!

He pressed down with both hands, and the tsunami was forcefully flattened. Light flashed around his body, and he suddenly vanished before crashing into Jade Cliff Pass!

In Jade Cliff Pass, bricks fell from the majestic city walls. It was a huge human-shaped hole that Qin Mu had smashed open.

On the wall of the inner city wall, the ancient god that Qin Mu and Hong Mengyi had designated dead fell off the wall and slowly slid down. He sat on the ground with his head hanging down.

Bang.

A soft sound rang out, and the corporeal body of the ancient god suddenly shattered like sand, turning into a lump of purple vital qi that slowly dissipated.

Yan'er flew to South Deity's side and immediately checked her injuries.

South Deity was bewildered. She suddenly remembered something and hurriedly said, "Yan'er, Bai Yujing isn't your mother. You're my biological daughter! If you dare to recognize a thief as your mother, I won't beat you to death!"

## Chapter 1698: Celestial Venerable Yun Breaks The Situation

It was hard to say if the most important part of this battle was on Qin Mu's side or Carefree Village's side. Because no matter which side lost, Eternal Peace and the Primordial Realm would fall.

When Celestial Venerable Yun walked down Carefree Village, Celestial Venerable Yue, Divine King Lang Wo, Celestial Venerable You, Tai Shi, and Lan Yutian each welcomed their opponents.

Celestial Venerable Yue and Divine King Lang Wo flew up to block Ancestral God King, who was trying to fly over Carefree Village to lead the Xuandu Sun Guardian to attack Eternal Peace. Celestial Venerable You then clashed with Celestial Venerable Xu, who had killed his way into the Primordial Realm's Youdu. Tai Shi blocked the two ancient gods of Taiji with ease. The three of them took out their accompanying treasures and tried their best to persuade each other.

As for Lan Yutian, he went up to Mistress Yuanmu in a daze, making people's hearts jump.

Celestial Venerable Yun walked towards Celestial Emperor Hao.

Celestial Venerables and those who had achieved the Dao walked in the sky, and below them was a torrent of gods and devils that spread out from three sides of Carefree Village. The battlefield even extended to Supreme Emperor Heaven, and the flames of war ignited everywhere!

This time, the attacks of the celestial heavens were extremely terrifying, and they used all their strength. Even with Wen Tiange dispatching the entire situation, Yan Yunxi, Guan Cha, and Han Tang taking charge of one side, and even with the opening emperor Yi Yue personally taking charge, the flames of war still reached Carefree Village when the three celestial heavens' masters attacked together!

Celestial Venerable Yun ignored all of this and went to welcome Celestial Emperor Hao.

Emperor Hao Tian was currently a man, and Second Young Master was only surprised that Qin Mu had killed the eight ancient god clones of Hall Master Ling Guan in such a short time, so he came out to take a look. However, she wasn't interested in the battle of Carefree Village, so she gave her body to Emperor Hao Tian.

"Yun, you are just a defeated opponent."

Celestial Emperor Hao's gaze landed on Celestial Venerable Yun's face, and he moved his gaze away from Celestial Venerable Yun's face. He looked towards the topmost level of Carefree Village, the Grand Pure Land, and said leisurely, "What a delicate trap. Hall Master Ling Guan's corporeal body has already transformed into an ancient god, and he can send his clones to kill the leaders of Carefree Village, Eternal Peace, Heavenly Yin, Buddha Realm, Dao Sect, and Beast Realm. This is a necessary attack to save him. Celestial Venerable Mu has a weakness, and that is that he values kinship and friendship too much. I saw his weakness a long time ago. As long as he has a weakness, he's not invincible."

He smiled and said, "Regardless of whether Spirit Official Hall Master is able to kill the cornerstones of Eternal Peace, my strategy has already been achieved. That is to make the sentimental Celestial Venerable Mu have no choice but to leave Carefree Village to rescue them. If he isn't in Carefree Village, Carefree Village won't be able to stop me and my army. This battle, Carefree Village will be at peace."

Celestial Venerable Yun said indifferently, "Celestial Venerable Hao, you forgot that I'm still here."

"You also have a weakness, Celestial Venerable Yun."

Behind Emperor Hao Tian, Tai Chu slowly walked over. Emperor Hao Tian was calm and composed as he said, "Brother Yun, your weakness is to endure ruthlessly. If you are heartless, it's hard to gain the loyalty of others. Enduring silently means giving in. I used this weakness of yours to defeat you during the Dragon Han Era. You won't be able to receive the help of Celestial Venerable Huo, Lang Xuan, Ancestral God King, Celestial Venerable Gong, Heavenly Lady Qiang, and the rest. I know how to get along with them and form a community of interests with them. If you endure silently, it means that you will choose to give in and give up more benefits in order to achieve your goal. That's why I can slowly take away the power of the Heaven Alliance that

you have worked so hard to manage, seizing the power of the Heaven Alliance, and excluding you."

Emperor Hao Tian smiled. "Are you convinced?"

Celestial Venerable Yun revealed a smile and shook his head. "I've never submitted."

Emperor Hao Tian chuckled and said, "Grand Imperial Sire, he's left it for you. Brother Yun, may I trouble you to make way? I want to take a look at Celestial Venerable Qin's palace and have a seat."

Tai Chu walked forward. Behind him, in the Grand Overarching Qi Celestial Heavens, branches swayed as he walked towards Celestial Venerable Yun.

Celestial Venerable Yun still stood in front of him and Celestial Emperor Hao. Celestial Emperor Hao frowned and laughed. "Brother Yun, are you planning to stop me and the Grand Imperial Sire at the same time?"

At that moment, Tai Chu suddenly stopped and looked at his shadow and Celestial Venerable Yun's shadow.

Ancestral God King and countless Sun Guardians flew over the sky of Carefree Village. There were huge suns in the sky, and the sunlight was extremely sinister. Even the celestial river was boiling from the heat!

Because there were too many suns in the sky, they had no shadows. However, Tai Chu found that he had a shadow with Celestial Venerable Yun, and their shadows were connected.

The corners of Tai Chu's eyes twitched. When he stretched out his hand to pull out his sword, the Connate Qi erupted!

Right at this moment, a knife light shone from the shadow. It went up from Tai Chu's crotch and raised the knife!

Chi—

Tai Chu was split into two!

Shang Jun's body appeared, and he cleaved apart the corporeal body of Tai Chu with a knife. The knife light then rained down like rain, slicing the two halves of the corporeal body of the Tai Chu into pieces!

Back then, Tai Chu corporeal body was the corporeal body of the ancient Celestial Emperor, and it was known as the strongest corporeal body. Now, it was chopped into countless pieces by Shang Jun's knife light!

What Shang Jun had shattered wasn't only Tai Chu's corporeal body, but also his primordial spirit!

As an existence that achieved the Dao through killing, Shang Jun's first move was a peerless killing move. Even an existence like Tai Chu who had achieved the Dao could not defend against it!

Shang Jun's figure rushed out from the fluttering pieces of flesh in the sky and headed straight for the Dao Tree of the Connate Qi at the Great Overarching Heaven of Tai Chu. In his murderous aura, it was even stronger than the murderous aura of the billions of gods and devils in the battlefield of Carefree Village, causing people to tremble in fear!

On the Dao Tree of Tai Chu, the Dao Flower revolved, and the qi of the First Heaven burst forth. Boundless Dao might welcomed Shang Jun!

At the same time, the corporeal body and primordial spirit of Tai Chu that had been sliced into countless pieces suddenly dissipated, transforming into an innate one qi that fused together to form a corporeal body and primordial spirit.

Chi—

The knife light was breathtaking as it split open the Dao flower and the Dao Tree. Shang Jun coldly slashed with force, and the stump and roots of the Dao Tree, along with the Grand Qi Celestial Heavens, were forcefully split apart!

"Very good."

The voice of Tai Chu came from behind him. "As an assassin that has achieved the path, you are very remarkable. However, you have immersed yourself in the path of slaughter, so you don't have an understanding of the five precelestial Dao. The Dao of Tai Chu among the five great universes is separated into one qi and consciousness. No matter if it's the corporeal body, primordial spirit, or even one qi of the Great Overarching Heaven, including the Dao Tree, Dao Flower, and Dao Fruit, they are all precelestial one qi!"

Shang Jun turned around.

Tai Chu stood in front of him, and behind him, the Dao Tree of Tai Chu suddenly dispersed, transforming into the Connate Qi . Next, the Qi gathered again and transformed into the Dao Tree. The Dao Flower also hung on the tree.

The shattered Grand Overarching Qi Celestial Heavens also transformed into Connate Qi before reappearing again.

Behind Tai Chu's head, numerous celestial palaces formed the Great Celestial Heavens, and there were seventy-two throne halls protecting it. His gaze landed on Shang Jun, and he said indifferently, "After all, you aren't Celestial Venerable Mu. Celestial Venerable Mu was able to plot against me, injure my Great Dao, and severely injure me. As for you, you know nothing about the Dao of Tai Chu and the Connate Qi. You are just a machine that only knows how to kill. Shang Jun, you can't do anything to me."

Shang Jun lowered his palm and retracted his murderous aura. His gaze landed on Tai Chu.

Tai Chu's heart tightened. The place that Shang Jun was looking at was the Dao injury that Qin Mu had left for him during the fight for East Deity Qing Long's soul!

"I have indeed never killed a Tai Chu's Dao and Connate Qi."

Shang Jun said dryly, "I want to give it a try."

Tai Chu's pupils contracted, and he had no choice but to focus all of his attention on fighting back.

If Shang Jun made a move again, he would definitely target the Dao injury that Qin Mu had left for him!

'Luckily, this assassin can no longer hide! He's inferior to me in a head-on clash!' Tai Chu thought to himself.

Celestial Emperor Hao frowned and turned his head to look at Tai Chu. He then retracted his gaze and said with a smile, "Brother Yun, looks like you do have some tricks up your sleeve. It's a pity that you walk the path of upper, middle and lower schemes. If you fight me, you will definitely die!"

Celestial Venerable Yun smiled and said, "Actually, I'm helping Brother Hao achieve his aim. Brother Hao, you have cultivated One Qi Great Overarching Heaven, and Tai Chu has also cultivated One Qi Great Overarching Heaven. I, on the other hand, have inherited the Grand Emperor's consciousness Great Overarching Heaven. When the consciousness Great Overarching Heaven and One Qi Great Overarching Heaven merge, it will be the complete Tai Chu Dao!"

His left hand formed a sword seal and gently caressed the Tai Chu Emperor Sword. The Tai Chu Origin Stone at the heart of his brows gave off a faint glow as he said with a smile, "By merging the Great Overarching Heaven and the Great Overarching Consciousness Heaven together, you can achieve the Tai Chu Dao in one go! The power of Tai Chu Dao is only inferior to that of the Tai Yi Dao, and you are invincible in this universe! This is why the ancient god, Tai Chu, has always fought with me. As long as he can achieve the Tai Chu Dao, he can make you abdicate and continue to be your illegitimate son. Brother Hao, you also have one qi of the Great Overarching Heaven."

Emperor Hao Tian's eyes lit up. "You have moved my heart. Brother Yun, you have indeed moved my heart. Grand Imperial Sire is still a schemer. If he succeeds, it will indeed be troublesome for me."

His Grand Overarching Qi Celestial Heavens floated over, and he said with a smile, "After I achieve the Tai Chu Dao, I will definitely bury Brother Yun in glory!"

"That's easy." Celestial Venerable Yun smiled happily.

Boom!

Their Great Overarching Heavens collided!

When these two Great Overarching Heavens met, it was like a golden wind and jade dew, dry wood and blazing fire. The moment they came into contact, they began to merge!

At the same time, the celestial heavens behind Emperor Hao Tian's head swayed. Thirty-six celestial palaces and seventy-two throne halls stood tall. Not only that, there was also a Purple Firmament Palace that shone brightly!

This Purple Firmament Hall was dazzling and far surpassed the Numinous Sky Hall that others had refined. It was a projection that the fourth young

master, Purple Firmament, had given to Emperor Hao Tian, and it contained extremely powerful power!

His magic power far surpassed Celestial Venerable Yun's!

Celestial Emperor Hao shook his sleeves, and precious halls from the Jade Capital of the ancestral court flew out to suppress Celestial Venerable Yun's Great Overarching Consciousness Heaven, suppressing its power!

Victory was already in his grasp!

Emperor Hao Tian was the first to attack. His moves and divine arts were wide open, showing the power of using strength to achieve the Dao. He didn't need to counter Celestial Venerable Yun's moves. His magic power was too strong, and he could completely crush Celestial Venerable Yun with his power!

Celestial Venerable Yun, on the other hand, was much more careful. He used everything he had to execute the paths, skills, and divine arts. At the same time, the power of the Tai Chu Emperor Sword in his hand was pushed to the extreme!

His moves changed even more, but he was still forced to retreat under Emperor Hao Tian's attacks!

Not only that, but the Grand Overarching Consciousness Heaven was also suppressed by the Grand Overarching Qi Heaven, and it was ceaselessly being devoured. Emperor Hao Tian felt that his cultivation were ceaselessly improving, and he felt even more delighted.

He would have a complete victory in this battle!

Chi!

Celestial Venerable Yun stabbed forward with his sword, and Founding Emperor's 33 heavens of the sword path were no inferior to Founding Emperor Qin Ye in terms of exquisiteness. In addition to the power of the Tai Chu Emperor Sword, the power of this sword was multiplied!

Emperor Hao Tian laughed loudly. He shattered the thirty-three heavens of the sword path with one punch and clamped the tip of the Sword of Tai Chu with two fingers!

Celestial Venerable Yun tried his best to stab forward, but the Tai Chu Emperor Sword didn't move. Celestial Emperor Hao's two fingers didn't move either. He smiled and said, "Brother Yun, you should go on your way."

He held onto the Tai Chu Emperor Sword and pushed it forward. The sword hilt crashed into Celestial Venerable Yun's chest, breaking a few ribs and stabbing into his chest!

At that moment, Celestial Venerable Yun revealed a smile. The Tai Chu Origin Stone in the heart of his brows lit up countless times, and his violent consciousness rushed into the heart of Celestial Emperor Hao's brows!

"Little Doll."

Celestial Emperor Hao's head was slightly dizzy, but he soon recovered and chuckled. However, at the moment he was in a daze, Celestial Venerable Yun did everything he could to execute the divine art. It was the supreme consciousness realm!

The supreme consciousness realm exploded and froze everything, buying Celestial Venerable Yun some time!

"Red rope buckle!"

He allowed the Tai Chu Emperor Sword to pass through his chest, and his hands quickly formed seals, aiming for the heart of Celestial Emperor Hao's brows!

Emperor Hao Tian was caught off guard. Just as the red rope was about to reach the heart of his brows, his appearance and body started to change rapidly. From a man to a woman, from Emperor Hao to a second young master!

"Teacher specially created a divine art to deal with me!"

Second Young Master Wuji let out a shrill cry of anger. Before Celestial Venerable Yun's red rope divine art could reach the heart of her brows, it was broken by her terrifying power!

Blood and flesh flew out from Celestial Venerable Yun's palm, turning into white bones!

The second young master was stunned. "It's not a red knot?"

She was extremely fearful of the red knot and felt that it was a divine art that the master of Miluo Palace had specially created to kill her. When she saw Celestial Venerable Yun use it, she was furious and seized Celestial Emperor Hao's body without any explanation. She planned to kill Celestial Venerable Yun personally.

However, this red rope buckle was superficial and had no substance. Before it could touch her, it was broken by her aura.

The white bones transformed from Celestial Venerable Yun's hands had already reached her, and the divine art hidden under the red rope suddenly burst forth!

"Unchanging divine art!"

This divine art didn't have any power and passed through Second Young Master's body. Second Young Master was slightly stunned and flicked the tip of the Sword of Absolute Beginning.

Celestial Venerable Yun flew backward and was nailed to his Dao Tree.

The second young master touched his body and didn't find any abnormalities.

Celestial Venerable Yun grabbed the blade of the sword and pulled out the Tai Chu Emperor Sword forcefully. He then collapsed to the ground.

"I'm best at imitating and learning. The divine art of red knots and buckles is too profound for me to learn and I can only imitate its shape. However, I can learn most of the unchanging divine art."

Celestial Venerable Yun supported himself with the Tai Chu Emperor Sword and slowly got up. He looked up at the second young master and grinned. "Second young master, Celestial Venerable Mu has invited me to send you on your way!"

"You?" The second young master sneered.

"Me?"

Celestial Venerable Yun straightened his back and stretched his hand into his chest. He took out a few ribs that had been stabbed into his heart and threw

them on the ground. He said indifferently, "With this Tai Chu Grand Overarching Heaven formed by the combination of the Qi Grand Overarching Heaven and consciousness Grand Overarching Heaven, as well as..."

With a wave of his sleeve, the ancestral court halls that were suppressing the Great Overarching Consciousness Heaven flew out and were swept away by his sleeve!

"And the ultimate void that specializes in breaking the path of the Ruins of End!"

Yun Tian stomped his feet in respect, and the two Great Overarching Heavens flew into the Ultimate Void. The cold and lonely wind blew, colliding violently with the hot and silent wind around the second young master!

## Chapter 1699: Wrong Side

The second young master's expression changed slightly, and she immediately planned to retreat behind the curtains and let Celestial Emperor Hao control this body.

She had seized one of Celestial Emperor Hao's two Dao clones. The three young masters and four young masters of the Mi Luo Palace were worried that if she separated from Celestial Emperor Hao, they would release her true body, so they sealed her in his body.

Even so, Second Young Master was still stronger than Emperor Hao Tian. He would frequently appear and push Emperor Hao Tian's primordial spirit and consciousness aside. She could also let Emperor Hao Tian control her corporeal body at any time.

Just as Celestial Venerable Yun had said, the Ultimate Void countered her Great Dao of the Ruins of End. Therefore, it was the best decision to let Celestial Emperor Hao deal with Celestial Venerable Yun.

As long as Emperor Hao Tian came out, he could take back his Grand Overarching Qi Celestial Heavens. At that time, the Grand Overarching Qi Celestial Heavens would merge with the Grand Overarching Consciousness Celestial Heavens, and Celestial Venerable Yun definitely wouldn't be able to compete with Emperor Hao Tian.

However...

There was a problem this time.

When Second Young Master tried to switch places with Emperor Hao Tian, the unchanging divine art hidden in her body suddenly exploded with power, preventing her from switching places with Emperor Hao Tian!

No matter how she tried, it was the same!

The second young master was astonished. He raised his head to look at Celestial Venerable Yun in front of him and asked suspiciously, "You risked your life just now and used a fake red rope to tie me up. It was to lure me out and use the unchanging divine art to seal Celestial Emperor Hao. Was that all for now?"

Celestial Venerable Yun moved the Tai Chu Emperor Sword and smiled. "This is my strategy."

The fusion between Grand Overarching Qi Celestial Heavens and Grand Overarching Consciousness Celestial Heavens continued. As the fusion deepened, his cultivation and Dao skills also advanced by leaps and bounds. The power of the Tai Chu Emperor Sword in his hand was also increasing!

As long as the two Great Overarching Heavens fused and became the Great Overarching Era of Absolute Beginning, it would be equivalent to him directly seizing Celestial Emperor Hao's cultivation and helping him achieve the Great Dao of Tai Chu, becoming the strongest existence in this world in one fell swoop!

Previously, he had no chance of winning against the second young master. Now, he had a 10% chance of winning.

If the two Great Overarching Heavens merged completely, he would have a seventy percent chance of winning!

Victory was decided by the details!

Emperor Hao Tian was indeed an incomparably terrifying opponent. However, because he had defeated Celestial Venerable Yun once in the past, he had the mentality of a victor. In addition, his cultivation was much higher than Celestial Venerable Yun's, which resulted in his negligence and contempt.

There was nothing wrong with Emperor Hao Tian's move. The mistake was underestimating the enemy. He had underestimated Celestial Venerable Yun, which gave Celestial Venerable Yun a chance to make use of Second Young Master's weakness to lure her out with the red rope knot, and then use the unchanging divine art to seal Emperor Hao Tian.

Since Emperor Hao Tian couldn't come out, it was possible for Celestial Venerable Yun to seize the Grand Overarching Qi Celestial Heavens and cultivate the Tai Chu Great Overarching Celestial Heavens. He would have a chance of winning against the second young master, even if his chances of winning weren't high!

Second Young Master no longer tried to switch to Celestial Emperor Hao and said, "This is the divine art of a Blasphemer, it's indeed extraordinary. Your scheme is also outstanding. The Ultimate Void and the Dao of the Ruins of End are indeed incompatible. If you pull me into the Ultimate Void, you can also use the Ultimate Void to obliterate me. It's a pity that you have forgotten my identity."

Her expression was calm as she said indifferently, "I'm the second young master of Miluo Palace. Any young master is an existence that has reached the pinnacle in a certain area after learning teacher's paths, skills, and divine arts. Compared to the paths, skills, and divine arts of Miluo Palace, you so-called Celestial Venerables and so-called Dao achievers are still barbarians in the primitive forest."

She walked towards Celestial Venerable Yun, her face filled with a fanaticism that could destroy everything. "How pitiful. You must have come to kill me with the determination to die. You schemed for a long time before coming up with this idea. You felt that you had a slight chance of winning, that you could stall for time and merge the two Tai Chus of the Great Overarching Heaven into the path, that you would have a chance of killing me."

The aura on her body suddenly changed, and the primordial qi emerged from her body. The cold wind and the heat wind in her body were continuously melting away, erasing her cultivation. Now, the appearance of primordial qi caused this trend to slow down and even show signs of stopping!

Celestial Venerable Yun's pupils contracted.

"What a pitiful look. Even though I don't agree with teacher's philosophy, teacher's paths, skills, and divine arts are indeed profound, so I learned from him very seriously and comprehended a lot."

Second Young Master Wuji looked at his expression and laughed softly, striking at his confidence and belief. She said leisurely, "You felt that you had some chance of winning earlier, but now you don't have any chance at all? What a pitiful person. Even if you used your life to exchange for my death, it would only be killing one of my clones. It wouldn't affect my main body at all. Furthermore, you can't kill me at all. You spent your entire life's wisdom, wanting to achieve the Dao, wanting to transcend, yet you abandoned everything to kill me. Yet, it's actually so laughable. Such a pitiful person, let me end your humble life!"

She brazenly attacked!

"Dao friend Taiji, no matter what, we are still the five precelestial and are of the same breath. Why must we kill our own people?"

Carefree Village's Crimson Light and Sun Heaven. The people of Carefree Village had already moved out and headed for Eternal Peace. The 33 heavens were all empty, and only empty god cities were left. The armies of the god cities also slaughtered their way to the heavens below, fighting a bloody battle with the celestial heavens.

At this moment, in Crimson Light and Sun Heaven, the bodies of the two ancient gods of Taiji fused together and transformed into an incomparably huge ancient god that stood upright between Heaven and Earth. Above their heads were the sun, moon, and stars. The taiji sand table had already transformed into a huge divine weapon, and under their control, boundless power burst forth!

The land of Harmony Sun Heaven was lifted up, and the mountains were crushed into dust to strengthen the power of the sand table.

The one fighting with the ancient god of taiji was a little fatty who was rolling around rapidly in the sand. Sometimes, he would collide fiercely with the ancient god of taiji, causing his skin and flesh to split open. Sometimes, the Green Destiny Mirror behind his head would shine brightly, transforming him into Green Destiny to avoid the attacks of the ancient god of taiji.

The two ancient gods of Taiji couldn't do anything to him.

"Fellow Daoists, we are of the same breath!" The little fatty attacked them ruthlessly.

The two ancient gods of taiji were also angered. They mobilized all their cultivation, and the taiji sand table suddenly transformed into the 28 heavens. It was as if 28 taiji diagrams were laid out one after another, overlapping each other under their snake tails. They shouted, "Taishi, you are shameless. You say that we are of the same breath and branch, but you are using all kinds of ruthless moves to call out to us! You don't know the big picture, and you can't see the situation. Forget it, we will fight to the death with you today! Do you dare to enter our taiji diagram?"

Tai Shi stopped and carefully examined the taiji diagram of the 28 heavens. He said with a smile, "Dao friends, are you walking the path of Dao Realm achieving the Dao? Dao Realm achieving the Dao was created by Founding Emperor, and you don't forget to dig wells when you eat water. You have received benefits from Founding Emperor Qin Ye, yet you came to kill his Carefree Village. You Bastard!"

The ancient god of Taiji split into two, transforming into Celestial Venerable Tai Yang and Celestial Venerable Tai Yin. Celestial Venerable Tai Yang's face flushed red with shame. Celestial Venerable Tai Yin sneered and said, "It's useless to talk about that! Do you dare to come in?"

Taishi walked into the 28 heavens with his short legs and smiled. "Why wouldn't I dare? I would like to see how brilliant both of you are when you enter the path with the mortal world!"

At the same time, the world barrier of Heavenly Yin World was suddenly broken. A huge Jade Pavilion of the ancestral court smashed the barrier of Heavenly Yin World and appeared on the surface of the sea. The army of the celestial heavens continuously flew up from the Jade Pavilion and invaded Heavenly Yin World.

Heavenly Yin World was the territory of Eternal Peace, and many people of Eternal Peace lived there. They built a unique civilization that belonged to Heavenly Yin World and cultivated the paths, skills, and divine arts of Heavenly Yin World.

Ever since the great war broke out, the people were plunged into misery and suffering, and the heavens were destroyed one after another. Countless souls turned into black sand, and Heavenly Yin World became larger. Now,

Heavenly Yin World had become the largest heaven that was attached to the Primordial Realm!

The sea of heavenly yin had also expanded by dozens of times, but when the Jade Pool of the ancestral court descended, it suppressed the sea of heavenly yin to the point that no waves could be seen.

Countless gods and devils of the celestial heavens stepped on the sea surface and rushed towards the land of Heavenly Yin World!

This invasion could be said to be the first time the celestial heavens had stepped into Eternal Peace's territory!

Goddess of Heavenly Yin stretched her hand out to grab the sea and shook it forcefully. The sea surface instantly trembled violently, and the gods and devils of the celestial heavens at the front were suddenly swallowed by the sea.

However, the power of the Jade Pool of the Ancestral Court was simply too strong. The generals of the celestial heavens on the Jade Pavilion led numerous gods to execute the Jade Pool together, instantly suppressing the trembling sea surface. When Goddess of Heavenly Yin tried to lift the sea surface again, she couldn't do so.

"I don't want my divine art to become a weapon to kill all living things..."

Goddess of Heavenly Yin's body trembled, and she suddenly remembered how Qin Mu had asked her for an Emperor's Throne technique back then. He had said that she would face this kind of situation sooner or later, and she had to make a choice then.

Now, she had to make a choice.

She turned back to look at the god cities of Heavenly Yin World. There were only a few gods and devils in those god cities, but behind the cities were the living beings of Heavenly Yin World.

Among them were people of Eternal Peace, but many of them were personally created by her, personally enlightening and molding the souls of all living beings!

She was their mother, their heavenly mother!

Goddess of Heavenly Yin turned her head back, and tears flowed down her face. Her paths, skills, and divine arts burst forth, and the army of gods and devils from the celestial heavens that rushed towards her and Heavenly Yin World's Divine City suddenly rolled in the eyes, ears, mouth, and nose of all the gods and devils. Their primordial spirits shattered, transforming into black soul sand that merged into the heaven and earth of Heavenly Yin World!

This trend was like a plague, heading straight for the Ancestral Court Jade Pavilion. All gods and devils had no way of resisting the terrifying power of Heavenly Yin World's Dao technique!

The bodies of the gods and devils quickly became empty shells without souls or spirits. Their corpses sank into the sea of Heavenly Yin!

Goddess of Heavenly Yin felt pain in her heart, and she couldn't bear to see it. Even though she was an ancient god of Heavenly Yin World, she had only killed one person since she was reborn, and that was Son of Heaven Yin.

When facing other creatures, she had never been able to do anything. However, this time, she had no choice but to take action.

There were simply too many gods and devils in the celestial heavens, and there weren't many gods and devils in Heavenly Yin World. There was no way for her to fight back. She had to ensure the safety of her people!

The Jade Pavilion of the ancestral court shone brightly, and the main general guarding it executed the power of the Jade Pavilion to clash head-on with Goddess of Heavenly Yin's divine art. Before the power of Goddess of Heavenly Yin's strike could reach the Jade Pool of the ancestral court, it was broken!

'Goddess of Heavenly Yin, your Dao is truly boundless!'

On the Jade Pool of the Ancestral Court, the army of the celestial heavens formed a formation. Duke Ming, Duke Li, Duke Yu, Duke Suo, and the rest of the seven dukes took a step forward. Duke Li praised, "His Majesty has ordered us to come to Flat Sky Yin World. If we want to take down Goddess, we will probably suffer heavy casualties. Luckily, we don't have to fight to the death with Goddess in this battle."

Just as he said that, he suddenly heard a loud bang. An ancient god landed on the Jade Pool of the Ancestral Court, and his entire body was pitch black.

He slowly stood up and looked at Goddess of Heavenly Yin across the sea. His voice trembled, and ripples spread across the surface of the sea. "Spirit Official pays his respects to Goddess of Heavenly Yin. Goddess, don't blame me. If you want to blame someone, you can only blame Goddess for standing in the wrong team..."

Swoosh—

A peculiar air-splitting sound rang out as a figure passed through the Jade Pavilion. The pitch-black ancient god and that figure vanished without a trace!

Boom!

Heavenly Yin World shook violently, and everyone hurriedly looked over. They were shocked to see a huge hole in the sky above Heavenly Yin World. The ancient god called Spirit Official had split into pieces and fell from the sky. The pieces of his corpse fell into the sea, raising huge waves.

## Chapter 1700: Hunting Spirit Officials

"Who is this spirit official?"

Goddess of Heavenly Yin was slightly at a loss. The spirit official had suddenly appeared, and he looked very powerful and terrifying. However, he had suddenly died for no reason, leaving her at a loss. "This person looks very strong, who killed him?"

She quickly threw this strange incident to the side and focused on the Seven Duke armies of the celestial heavens that had slaughtered their way into Heavenly Yin World.

The seven dukes of the celestial heavens were the oldest strong practitioners of the Emperor's Throne, and they were also the seven strong practitioners of the Emperor's Throne that were rarely replaced. They could be said to be the seven elders of the celestial heavens, and they had contributed greatly to the Dragon Han Era!

They were in charge of the seven politics of the celestial heavens, and they were extremely powerful—political, military, law, fire, baleful prison, water

prison, and age. Even without that spirit official, just the seven dukes were hard to deal with, let alone the Jade Pool of the ancestral court!

"Heavenly Yin World can't fall into the hands of the celestial heavens. Otherwise, if they release the black sand and turn it into starved ghosts, the entire Eternal Peace and even the Primordial Realm will become the Great Ruins!"

The battle of Heavenly Yin officially began!

In the Grand Pure Land of Carefree Village, Lan Yutian sat beside Mistress Yuanmu in boredom. Mistress Yuanmu seemed to have met with some problem. She was still laughing and talking to him when she suddenly fell into a daze and didn't move for a long time.

After a moment, Mistress Yuanmu woke up and continued the previous topic. She giggled and said, "Who would have thought that the handsome and heroic Celestial Venerable Yu of the past would become a little fatty? My sister will definitely be very sad to see you."

Lan Yutian raised his head and rolled his eyes at her. He threw the small stone in his hand out. "You are no longer fat. Yuanmu, your men have plotted against you."

Mistress Yuanmu asked curiously, "My people plotted against you? Why didn't I know?"

"You will always be in a daze. When you are in a daze, you will forget about it."

Lan Yutian said seriously, "When you came to find me just now, in a short period of time, your mind had already wandered twice! Every time your mind wandered for a short period of time, you would wake up in 12.3 seconds."

Mistress Yuanmu blinked. She didn't feel her mind wandering at all.

Lan Yutian propped up his chin and pondered, "You should have been hit by someone else's divine art. If I wanted to kill you, I would definitely be able to kill you. However, I also felt a strange power being sealed in your body. If I killed you, I would release that power. At that time, I definitely wouldn't be able to beat you. Even if I surrounded you, I wouldn't be able to beat you."

When Mistress Yuanmu saw him squatting on the ground with a fierce gaze, she was about to make her move when Lan Yutian said, "As long as you have the intention to kill, you will become absent-minded. I think you must have been hit by my brother's reincarnation divine art. Every time you have the intention to kill, you will reincarnate once. I wonder if my guess is right."

He raised his head, and Mistress Yuanmu had a fierce look in her eyes. However, she stood there motionlessly, clearly in a daze.

"Right, right? As long as I enter your consciousness to take a look, I'll know!"

Lan Yutian's consciousness fluctuated and entered Mistress Yuanmu's consciousness with a whoosh. After a moment, he came to the sea of consciousness of Mistress Yuanmu and looked around in astonishment.

Mistress Yuanmu didn't reincarnate once when she wanted to kill as he had expected. Instead, she reincarnated nine hundred and sixty times!

Not only that, he also saw Celestial Empress' consciousness hiding in the depths of the sea of consciousness. It was like a pitch black hole hidden under the sea, growing stronger!

Obviously, the danger he sensed came from this!

If he killed Yuanmu, Celestial Empress would be released and unable to be suppressed!

Therefore, Yuanmu definitely couldn't move, or else he would release Celestial Empress!

Yuanmu was a method created by someone to suppress Celestial Empress!

And that person was definitely Qin Mu!

The reason why Mistress Yuanmu had reincarnated time again was probably because Celestial Empress was too strong. Qin Mu couldn't completely suppress her, and a flaw appeared in his reincarnation divine art.

Lan Yutian retracted his consciousness and widened his eyes. After a moment, he muttered, "My brother is really ruthless... His Dao of Reincarnation has already reached an inconceivable level. I can't understand it."

Mistress Yuanmu was no longer a danger to him, but the divine art of reincarnation that Qin Mu had left behind would be worn down by Celestial Empress sooner or later. When that time came, Celestial Empress would completely merge with Mistress Yuanmu and become the true goddess of the Ruins of End. She would be able to slaughter everyone in her way, and it would be extremely dangerous!

Lan Yutian propped up his chin and pondered. "However, my brother can scheme against Celestial Empress and cause her to be stuck in a situation. Every time she gets stuck, I'm not in danger. In that case, why don't I think about how to plant other divine arts in Celestial Empress' body? Even if Celestial Empress escapes in the future, there won't be that much danger..."

He racked his brains and racked his brains. The land in the Grand Pure Land was truly as its name suggested, and it was very peaceful. On the other hand, the battles in the other heavens of Carefree Village became even more intense.

However, in the Primordial Realm Youdu that overlapped with Carefree Village and Eternal Peace, Celestial Venerable You fought Celestial Venerable Xu, and the battle was also abnormally intense.

Fengdu couldn't hold on any longer. King Yama had led the ghost gods of Fengdu to fight the monsters and devil gods of Youdu, and they had already invaded the god cities of Fengdu. King Yama had abandoned several god cities to defend the eighth god city, but Fengdu only had nine god cities!

The eighth god city was also in imminent danger. Under the attacks of countless Youdu monsters and devil gods, the entire god city was riddled with holes, and the street battles had become abnormally close.

As more monsters and devil gods flooded over, King Yama had no choice but to give up on the eighth god city.

Right at this moment, Heavenly King Tian Shu killed his way into Youdu and led numerous devil gods that cultivated the devil path to assist him, temporarily slowing down the pressure on Fengdu.

On the other side of the battlefield, Celestial Venerable You transformed into a youth. He raised the Life and Death Book, held a lantern in his hand, and stepped on a paper boat as he fought with Celestial Venerable Xu, who was holding the Nether River Whip!

Both of them used their primordial spirits to be vast, and the power of their primordial spirits was extremely strong. They gave it their all in the boundless Primordial Realm Youdu, the long whip, the huge river, the golden light of the Life and Death Book, and the lantern dancing in the air. With every step, they crossed thousands of mountains and rivers!

Celestial Venerable You's primordial spirit was slightly stronger. Over the years, he had tried to unleash his strengths to the extreme, trying his best to achieve the path of primordial spirit. The power of his primordial spirit became stronger.

However, Celestial Venerable Xu had the advantage of having a strong corporeal body. Furthermore, after refining Earth Count's corporeal body and obtaining the incomplete Great Dao of Youdu, his magic power had improved by leaps and bounds. With the guidance of Hall Master Ling Guan for over a decade, his improvement was godly!

The battle between the two of them was brilliant and varied. Youdu's Dao had always been weird and treacherous, and in their hands, the strangeness of Youdu was even more vividly displayed.

Suddenly, the two of them slaughtered their way to the hinterlands of Eternal Peace. From afar, they saw six incomparably huge heavenly wheels revolving around a majestic figure. It was Qin Fengqing.

Little Earth Count Qin Fengqing closed his eyes tightly, and the eye in the heart of his brows opened up to maintain the Primordial Realm's Youdu.

If Youdu invaded and he didn't maintain the Primordial Realm's Youdu, the devil gods and monsters in Youdu wouldn't have rushed into the Primordial Realm's Youdu. Instead, they would have ascended to the world of the living and killed their way into Eternal Peace. It would have definitely caused a bloody massacre!

His six arms opened up, and the six heavenly wheels revolved around him continuously. His gaze shone on the heavenly wheels continuously, and all kinds of magnificent runes flashed and changed on them, causing the Great Dao of Youdu in the Primordial Realm to change.

Strange Dao sounds came from the heavenly wheels, and in the battlefield that surrounded Carefree Village, the souls of gods and devils that had died in battle flew over continuously, guided by the six heavenly wheels.

In fact, even the other worlds and heavens were faintly affected by the six heavenly wheels.

Celestial Venerable Xu's heart trembled when he saw Qin Fengqing. He swung the Nether River Whip with force, and the Nether River surged forth, heading straight for Qin Fengqing!

As long as he heavily injured Qin Fengqing and destroyed his body, he would immediately be in Youdu. Once the Primordial Realm's Youdu was shattered, the Youdu monsters would be able to invade Eternal Peace and turn Eternal Peace into hell on earth!

"Dream on!"

Celestial Venerable You stood in front of the long whip, and his corporeal body was shattered by it. He transformed into countless Celestial Venerables that flew away on paper boats. His primordial spirit leaped up and struck Celestial Venerable Xu's primordial spirit out of his body!

Both of them couldn't do anything to each other in a short period of time. They stabilized their formations and stared at each other cautiously.

Suddenly, devil qi rolled over, and a devil god with the head of a bull descended from the sky. With a thud, he landed in the Primordial Realm's Youdu in front of Qin Fengqing.

That devil god looked like Earth Count, but he was slightly different. However, he also had a vertical eye on the heart of his brows. He looked around and his gaze landed on Qin Fengqing who was in the six heavenly wheels. "Dao friend Qin Fengqing, Spirit Official pays his respects..."

Bang!

The ancient god that looked like Earth Count suddenly exploded, and the power of the Heavenly Dao filled the air, causing Celestial Venerable You and Celestial Venerable Xu to be bewildered. The ancient god that looked like Earth Count was extremely powerful. He was first killed by a terrifying power, and then he was wiped out by the power of the Heavenly Dao!

The two of them hurriedly looked over and saw a teleportation light carrying a human figure as it sprinted away. The speed was so fast that it left a deep black mark in the Primordial Realm's Youdu!

Next, that figure leaped out from the Primordial Realm's Youdu and vanished!

Celestial Venerable Xu and Celestial Venerable You retracted their gazes. They were astonished, but they had to determine the winner of this battle. They couldn't afford to be distracted.

At the same time that Qin Mu leaped out of the Primordial Realm's Youdu, the expression of the spirit official and ancient god clone that was rushing towards the northern borders changed drastically. Sensing the death of his ancient god clone from Carefree Village and South Sea's Jade Cliff Pass, his heart couldn't help but skip a beat.

His speed was too fast, and the distance was too far. Every ancient god clone was an individual, and only now did he sense the death of the other clones.

"Only the seventh young master has the speed to kill my thirteen clones in such a short time!"

At the same time, the spirit official and ancient god clones that were rushing to Great Thunderclap Monastery also sensed the death of the twelve clones. Because Heavenly Yin World and the Primordial Realm were independent worlds, he couldn't sense them.

"Seventh young master is attacking me, his speed is so fast!"

At this moment, the other two ancient gods had already seen Heaven Duke and Ah Chou. The two of them were looking up at Ancestral God King who was fighting Celestial Venerable Yue and Lang Wo in the sky. Heaven Duke and Ah Chou were ready to launch a sneak attack!

As they rushed to Eternal Peace Dao Sect, the faces of the spirit officials and ancient gods in the capital city and the Primordial Tree also changed drastically. The death of their clones couldn't escape their senses.

However, Qin Mu's speed was too fast, and his reaction speed couldn't keep up with Qin Mu's speed. This resulted in a peculiar sight that happened in the blink of an eye.

'Seventh young master is chasing after my clone at such a speed. His body and magic power might not be able to withstand it! However, even so, it's hard for my clone to be his match.'

'He found me because I was too ostentatious, but if I hid my tracks, he would run back and forth for his life if he couldn't find me!'

"If he kills me at this speed, he will soon vomit blood from exhaustion!"

The ancient god clones immediately retracted their auras and moved stealthily.

Under Great Thunderclap Monastery, the ancient spirit official transformed into a big monk and walked up Mount Meru at a leisurely pace.

Mount Meru's Great Thunderclap Monastery was where the buddhas that entered the world resided, and Zhan Kong Rulai was guarding this place. Above Great Thunderclap Monastery was the twentieth heaven of the Buddha Realm, and the twentieth heaven was where Brahma Buddha resided.

At the same time, Heaven Duke and Ah Chou prepared to launch a sneak attack on Ancestral God King while the other two ancient gods prepared to kill them!

Boom!

Qin Mu leaped out from the Primordial Realm's Youdu and appeared in front of Heaven Duke and Ah Chou!

The expressions of the two ancient gods changed drastically, and they escaped in different directions!

Buzz—

Qin Mu's consciousness burst forth and attacked the brains of the two ancient gods. Layers and layers of divine arts of reincarnation spread out, and it was like another six heavenly wheels spinning, trapping the two ancient gods within.

The expression of the ancient god monk who was currently climbing the mountain changed drastically as he felt two more clones disappearing!
