

Hidden Billionaire Chapter 1001 - Sudden Attacks

C1001 Sudden Attacks

Xia Kejun quickly pulled out her gun and called for backup.

Wu Tian also curled up his body, and said to # 1: "Protect yourself well! You must not go with them! "

Number 1 was very important to Wu Tian, so he definitely couldn't let it go that easily. He also couldn't let his companions take him away.

The people outside also seemed to realize that the person inside the car had noticed their identities, so they suddenly took action. That person knocked down the driver with one punch and ran towards the car.

Xia Kejun quickly jumped into the driver's seat. She wanted to quickly drive away from this place.

But before she could start the car, the white man punched the glass in the driver's seat. If Xia Kejun hadn't dodged fast enough, the punch would have hit her on the head.

"Be careful!"

Wu Tian exclaimed. When the enemy saw that his attack failed, he immediately threw out a second punch. However, there was nowhere for Xia Kejun to hide. At this critical moment, Wu Tian quickly grabbed her clothes.

Wu Tian pulled Xia Kejun towards him and saved her life in this way.

No one would have thought that this enemy was so powerful. The door was covered by a steel plate, and in front of his fist, this steel plate wasn't much different from a piece of paper.

"Get out of the car!"

Xia Kejun hurriedly said. If they stayed in the car, they were suicidal. Fortunately, there were no people around, and basically no one paid much attention to this place. Otherwise, it was very likely that there would be even greater damage.

Wu Tian and Xia Kejun quickly opened the car door and got off from the back seat.

Xia Kejun took out her pistol at the first moment and stood guard at the side with a professional posture.

"Quickly bring Number One with you!" At the same time, the security personnel on top of the car behind also rushed down and ran over to provide support.

Wu Tian also knew that it would be useless for him to rush up right now, so he quickly pulled # 1 and prepared to escape in the other direction.

Perhaps sensing their goal, the enemy bypassed the defensive line formed by Xia Kejun and the others and charged towards Wu Tian and the others.

However, the guns in Xia Kejun's hands were not for show. And every soldier was a brave warrior.

Although that enemy was fast, he was unable to make a breakthrough in such a short period of time.

However, the enemy didn't seem to be in a hurry. It was as if he was having fun with Xia Kejun and the others.

Wu Tian quickly pulled # 1 and ran into an alley on the side. He planned to hide somewhere nearby before going to call for help.

However, just when Wu Tian picked up his phone, a figure suddenly appeared in front of him. The figure was tall and big, blocking out the sunlight. Wu Tian clearly felt the scene in front of him go black.

He slowly raised his head and looked up. He saw a tall and big white man, who was as strong as a mountain, standing in front of him with an evil grin on his face.

The muscles all over his body were as hard as granite, and he looked like a statue. His every move was filled with great power, as if a wall could be seen with a slight push.

Wu Tian started attacking this person subconsciously without saying anything. However, when his fist landed on this person's body, it was as if he was attacking a mountain. He simply didn't move at all.

"How could this be ..."

Wu Tian muttered. He felt that the enemy's speed should not be too fast, so after one attack failed, he immediately jumped to the back, wanting to dodge.

However, before Wu Tian landed on the ground, he felt a gust of wind behind his ears.

He turned around and saw another enemy striking back at him with a stick.

Wu Tian quickly bent down and dodged the attack. All of this happened too fast. In just a split-second, Wu Tian was attacked twice.

Fortunately, he had practiced Alien Fist. Otherwise, he would not have been able to gain any advantage in this situation.

Their teamwork could be said to be flawless. If it was any other person, they would have died just now.

Wu Tian hurriedly got up after dodging the attack. He looked behind him and was slightly relieved to find that the enemy had not done anything to Number 1.

He immediately shifted his gaze to the two enemies in front of him. The two enemies' auras were very gentle. The power that the two of them had exploded forth was no longer something that humans could possess.

The two of them seemed to have stopped. Wu Tian was still confused, but then he knew what was going on. When Wu Tian was attacked earlier, Number 1 charged towards the enemy at the first possible moment.

These two were his companions before, but now, he was willing to come and help his enemy, Wu Tian.

Wu Tian saw that number one was being controlled by those people. Before them, Number 1's original speed didn't even have the ability to resist.

"Let him go!" Wu Tian let out a loud roar and suddenly felt his Qi and blood surge up. The various Alien Fist techniques he had previously practiced began appearing in his mind.

He wasn't a weakling. Seeing that Number One was working so hard, Wu Tian couldn't care less. He couldn't let his hard work go to waste.

Wu Tian roared and jumped up from the ground. He charged at one of the enemies and wanted to make him let go of Number 1.

However, the enemy was not anxious at all. He grabbed Number 1's neck with one hand and swung his other hand towards Wu Tian, easily blocking his attack.

Wu Tian wanted to struggle again, but the other enemy quickly came up and knocked Wu Tian down to the ground. Although his Alien Fist skill was already very powerful, it was useless in the face of such absolute strength.

"You all ..." Wu Tian tried to prop himself up from the ground, but the attack just now was enough to make his whole body ache.

Just by moving a few times, Wu Tian could already feel the piercing pain from his chest.

Maybe it was a fracture, Wu Tian suddenly felt a chill in his heart. He had suffered such heavy injuries at this time, how was he going to save Number One later on?

Thinking about Number 1 risking his life to save him, Wu Tian suddenly became full of courage again. He ignored his pain and stood up again.

His body swayed back and forth. However, although he looked weak, he gave off a gaze that others could not ignore.

Hidden Billionaire Chapter 1002 - Successful Arrest

C1002 Successful Arrest

If the enemy thought Wu Tian would give in like that, then they were truly underestimating him.

He staggered towards # 1 step by step. The enemy did not stop Wu Tian. The enemy probably felt that since Wu Tian had already become like this, he should not be a threat.

However, Wu Tian didn't think that way. There was a dagger hidden in his sleeve. When he came out, he was more cautious and prepared in advance. He never thought that it would actually come in handy one day.

The two enemies there seemed to be looking at Wu Tian with mockery. Although Number 1 was in their hands, he still tried his best to kick them.

However, his strength was of no harm to these two.

Wu Tian was already very close to that person and the distance between them was only two meters. Wu Tian could almost hear the sound of his heavy breathing.

Wu Tian was like a poisonous snake that had been preparing for a long time. He suddenly started to go berserk, and with a speed hard to notice, he slashed at the enemy's throat.

At such a close distance, even if the enemy's reaction was extraordinarily fast, it would still be impossible for them to dodge this blade.

There was a gust of wind in the alley, blowing up the leaves on the ground. Suddenly, something flashed in the air, followed by a crisp sound.

A dagger with a broken edge fell to the ground. Wu Tian was looking at the scene in disbelief where the sound came from.

When he attacked, the knife actually felt as if it had hit an iron plate. Not only did the edge not enter, even the dagger was cut into two halves by the immense impact.

While Wu Tian was shocked, the enemy wasn't idle. He punched Wu Tian in the chest. Wu Tian felt his chest tighten and his vision began to darken.

He was suddenly unable to move and heavily fell to the ground.

Before he landed on the ground, Wu Tian had already fainted in the air. Just as the two were about to leave, gunshots came from all directions.

A group of special forces wearing military uniforms rushed out, the weapons in their hands continuously pointing towards the two of them. They even brought out the electric shock guns that were used to capture this 11 Devils previously.

These two overweeningly strong men were actually powerless in the face of this kind of weapon. They immediately fell to the ground, a huge contrast from the leisurely manner they had when they were fighting against Wu Tian.

"Quick, let's see if there's anyone else!"

Luo Huaicheng's voice came from the side. However, he didn't expect to see Wu Tian unconscious on the ground.

He quickly ran over to check on Wu Tian. After confirming that he was still alive, he let out a breath of relief and ordered a few people to take him away for treatment.

As for those few genetic warriors, they were all captured and placed in specially crafted cages. Even number one received the same treatment and was not spared.

Xia Kejun's situation wasn't much better than Wu Tian's. Their weapons weren't of much use to the enemy, but luckily, Xia Kejun was strong enough to hold on until Luo Huaicheng arrived.

"We caught a total of four!" Luo Huaicheng counted the number of people. They were quite satisfied with this result and it even exceeded their expectations.

Xia Kejun breathed heavily as she looked at the mess. This place was still quite a distance away from their military base. If they continued to rush over, the road ahead would be even more dangerous.

"Let's return, to the Flower Island!"

"You're not going to the base?" Luo Huaicheng was a little surprised, but looking at Xia Kejun's expression, it seemed like she didn't just say it out loud.

"That place is convenient for our defense, we can go there!"

This was the truth. Every time they stayed here for a period of time, the danger they would face would increase. On land, the enemies could attack them at any time.

However, if they were in Flower Island, there was no need to worry. They could calmly focus on defending, and even if a seagull flew in the sky, they could still detect it.

"Yes, sir!" Luo Huaicheng quickly replied respectfully, indicating that he accepted the order. Very quickly, these captives were sent back to Flower Island via the same route.

Loong Yun had already prepared an empty space for them when she received the news. However, what worried her was that Wu Tian was injured again.

"I'm sorry, I also didn't expect that the enemy would actually make a move on the way ..." Xia Kejun looked at Loong Yun embarrassedly. She took Wu Tian away, so it should be Xia Kejun's responsibility now that this happened.

"It's fine. If only I had sent you a message earlier." Loong Yun also felt a bit ashamed. If her speed had been a bit faster, they might have been able to avoid those people.

After the two of them comforted each other for a while, Xia Kejun hurried to send the enemies into the underground facilities.

Originally, it had only been designed to hold four people at once. Now, four people had to be locked in at once, which made it very crowded.

Luo Huaicheng kept making plans, but he couldn't come up with a good plan.

They did not dare to lock them up together, as they had witnessed their might before.

"What are you doing here? Hurry up, if they wake up then they won't be easy to deal with!" Xia Kejun seemed to be in a hurry. No one knew when those people would wake up.

Luo Huaicheng wiped the sweat off his forehead. He is a very powerful commander, but he is not a civil engineer, so he doesn't have any good ideas on this matter.

"I'm not sure what kind of supplies they have here, but the soldiers should hurry up and build a few prisons!" The walls of these prisons were more than two meters long. Moreover, they were made up of steel cement and steel plates that were tens of centimeters thick.

This amount of work was not something that could be done in a short period of time. Xia Kejun and the others were feeling anxious and anxious.

"What should we do?" Xia Kejun was so anxious that tears were about to flow. Loong Yun, who had been watching from the side all this time, walked over at this moment.

"How about I help you guys?"

Xia Kejun looked gratefully at Loong Yun. She really didn't think that this girl would be able to bring them anything.

"Thank you so much, but what we need here is ..."

However, before Xia Kejun could finish her sentence, Loong Yun had already walked over and began to instruct them methodically to gather the materials needed for Flower Island and deliver them to this place urgently.

Hidden Billionaire Chapter 1003 - Special Response Group

C1003 Special Response Group

As for how to wake those people up, Xia Kejun thought of a way to get the military doctors to give them tranquilizers. Once they showed signs of waking up, they would be given an injection.

However, this method was slowly beginning to lose its effect. These people were very resistant to drugs, and the effects of these tranquilizers were getting worse and worse every time.

In the end, it was Loong Yun who found Su Cancan and Wudu Sect's people and applied some of their own poison, causing them to sleep like dead pigs, unable to move at all.

At this time, Wu Tian had undergone another operation, so he was fine now.

There were only a few broken ribs on his chest. Luckily, his heart was not injured, otherwise even ten Loong Zaiian wouldn't be able to save him.

When Wu Tian woke up, a bunch of people were in his ward.

"Who are they?" Wu Tian asked curiously as he saw several figures that he had never seen before.

Loong Yun whispered in his ear, "These are people from the military. They are conducting research underground."

Wu Tian nodded. Although he did not know what happened after he fainted, he was not an idiot. Since he came back alive and was still lying in Flower Island's ward, he must have been saved.

Xia Kejun and the rest must have thought of a way to subdue those people.

"Mr Wu, you've finally woken up. Let me introduce you. These people are the high ranking representatives of our military." Xia Kejun didn't say anything unnecessary. Seeing that Wu Tian had the ability to think clearly, she immediately started introducing these people to him.

Wu Tian listened to their introductions and nodded slightly towards the old men. He was showing his respect, but he wasn't that happy about it anymore.

"That... "Why are you looking for me?"

President Wu, our military has imprisoned all of these enemies in your Flower Island, but don't worry, this is only a temporary expropriation.

Xia Kejun gave a simple explanation, which made Wu Tian feel slightly relieved.

"It doesn't matter. However, since you all are acting in such a serious manner, I feel that you must have something to say to me."

Wu Tian smiled. He struggled for a while and wanted to get up to do it, but just by moving his body, his chest already hurt.

"You're really clear about this." Xia Kejun nodded towards Loong Yun. The two of them brought out those who had nothing to do with them, leaving Wu Tian and a few old men to discuss things inside.

"Young man, you're not bad ah, to have such great ability at such a young age!" "An old man who looked like a tough guy with a loud and clear voice looked at Wu Tian and praised him. His face was full of smiles.

Wu Tian felt happy that he was rarely praised like this.

"You're exaggerating a bit. It's not that exaggerated."

"We are the heads of the Special Response Team from the military. When we received this news, we were also very shocked. What is even more shocking is that after we investigated you, we found out what happened to you. "

Old Master, who claimed to be the team leader, spoke confidently. His eyes were looking at Wu Tian as if he was going to treat him as his own son.

"Me? "What's so shocking about me ..."

Wu Tian was a bit confused. He always remembered that he was relatively honest and usually kept a low profile.

"Do you know who these mysterious people are? Let me tell you this, a few years ago, we already received news from overseas that the Britain had developed this kind of biological warrior. I didn't expect you to find out and even caught one! Do you know how great a contribution this is? "

Wu Tian didn't have any other thoughts after listening for a long time. However, when he heard the word "credit", his eyes started to shine.

"Since I am so brave, shouldn't the country give me some rewards or something like that? After all, I am already slightly injured ..."

Wu Tian immediately put on an appearance of being wronged, making these few old men laugh.

Let me introduce myself. My name is Tieh Jun, you can just call me Leader Tieh from now on. As for the other positions, don't go into them for now. Team leader Tieh Jun smiled and did not directly answer Wu Tian. However, his actions had already made it clear that this matter would not fall into the hands of Wu Tian.

Naturally, the military would not let Wu Tian suffer a loss. After all, Wu Tian had done a great deed.

"Leader Tieh, then do you have something to say to me?" After he was overjoyed, Wu Tian started to focus his attention on this matter.

When Tieh Jun heard this, he stopped smiling and the atmosphere in the room became serious.

"It's like this. We, the military, have always wanted to investigate this organization. However, with our identity, it's not really appropriate for us to do such a thing. It's easy to cause an international dispute, but now the situation has changed and you are the perfect candidate. "

Tieh Jun was a straightforward person.

Wu Tian immediately understood after hearing that. To put it bluntly, they needed him to do something that they couldn't do for the special task force.

"This... "I'm actually just a merchant. To be honest, I'm probably not qualified to do this sort of thing ..." Wu Tian quickly refused. Although he felt that this mission was a great honor, but this kind of situation still made him more or less uncomfortable.

It was not his business. He felt that there was no need to risk his life, and he could not put his company and himself in danger because of this matter.

He had a lot of people to take care of, so Wu Tian knew that he must not get into trouble.

"Don't be in such a hurry to refuse, we won't send you a mission so easily. Besides, we won't let you do it for nothing!" "As far as I know, your spaceflight company hasn't been carrying out many missions lately. Is it because your technology is lacking?"

Tieh Jun wasn't anxious at all. They had plenty of chips in their hands, so they could play one by one.

Sure enough, when Wu Tian heard his words, he immediately started to waver.

The matter with the space company had indeed troubled Wu Tian for a long time. His skill level had been stagnant the entire time, and if it wasn't for these troubles, Wu Tian wouldn't have kept the Zhixing Technology Company in his heart.

Hidden Billionaire Chapter 1004 - Condition

C1004 Condition

Seeing Wu Tian's eyes start to flicker, Tieh Jun knew that his conditions were a huge attraction for him.

However, he didn't intend to use this little bit of profit to send Wu Tian away. Before, he even promised Wu Tian a reward.

"Also, I heard that the relationship between you and that genetic modification guy, # 1, seems to be pretty good. If you are willing to agree to my request, I am willing to represent the military to say that you will keep this person here."

With that, Tieh Jun squinted at Wu Tian, he was looking forward to Wu Tian's next reaction.

If it was the condition before, Wu Tian could still think about it a little, but after he said the condition for # 1, Wu Tian didn't have any room for rejection.

No matter what, # 1 had saved Wu Tian before, even though it wasn't successful. Moreover, Wu Tian also felt that # 1 was a plastic talent. If he were to hand it to the military for research, it was very likely that this child would be ruined.

"Alright, but I have a condition!"

Wu Tian gritted his teeth and agreed to this matter. No matter what, he had to take down Number 1 first.

"Alright, go ahead."

Tieh Jun was also very magnanimous and put on a nonchalant attitude. It was as if no matter what request Wu Tian made, he would agree to it without hesitation.

"I can only agree to do three things for you. We can decide what kind of relationship we'll have in the future."

Wu Tian had left a path for him to retreat. He knew that once he had a relationship with these people, it was very likely that he would sink deeper into the abyss.

To be frank, it was a very good result for Wu Tian.

"You brat ..." Tieh Jun also did not expect Wu Tian to say that. He was stunned for a moment, but then he laughed.

"I'm not wrong, you're a talent!"

Although he didn't know why Tieh Jun suddenly started to praise him, Wu Tian felt that this should be good news.

"I agree with your request!"

Tieh Jun agreed readily. The others exchanged glances. Although they felt this matter was a bit incomprehensible, they still agreed with Tieh Jun.

"With your words, I'm relieved."

Wu Tian finally let go of a heavy burden in his heart. Now, he, his company and # 1 should be safe.

"In the future, you can continue to study here. If you find any good biotechnologies, we will also buy them from you."

Before he left, Tieh Jun left behind this sentence, which gave Wu Tian a lot of green light.

Wu Tian had originally planned to do so, but he wasn't sure if doing such a thing would violate the law. Since Tieh Jun had already said so, then Wu Tian could confidently and boldly do this task.

Watching the leaders leave, Xia Kejun quickly returned to Wu Tian's ward after sending them off.

"What did you say just now?"

Wu Tian looked at Xia Kejun's expression and found it funny. This guy was obviously serious, but why was he still gossiping so much?

"What do you think?"

"I don't have time to guess! There are still a lot of things waiting for me! "

Xia Kejun didn't want to joke around with Wu Tian.

"Our conversation is all confidential, so I can't tell you!"

Wu Tian said in a mysterious manner. Previously, he had also thought that he might be able to say something like that one day. He had not expected that his dream would actually come true.

"If you don't want to tell me, I will find out even if you don't want to!"

Xia Kejun did not waste her breath on Wu Tian and was too lazy to argue with him. She turned around and left.

However, just before she left, she happened to meet Loong Yun and her companion at the door. Xia Kejun was extremely courteous to Loong Yun, and the two of them exchanged a mutual nod.

Seeing that there was no one else in the room, Loong Yun quickly walked to Wu Tian's side.

"President Wu, I've entrusted some companies with Britain to investigate Zhang Zerui's previous trip to Britain."

Wu Tian quickly read the document Loong Yun handed to him.

"He has been to several places, including BMD Corporation. We suspected before that he might have some connection with Zhang Zerui, but now it seems that we have no doubt about that."

Wu Tian nodded. This was within his expectations. If they didn't have such a relationship, then there was no need for BMD to go against Wu Tian.

Of course, he got Zhang Zerui's suggestion for him to dare to do this. However, that was also good. It allowed Wu Tian to clearly see who was his enemy and who was his friend.

Just this point was not enough. Loong Yun took out a few more documents.

"This is one of the big consortia that he has been to. I don't think it's a big deal. I just care a lot about one of them."

Loong Yun pointed to an inconspicuous place on the map as she spoke.

"Brilliant Company?"

Wu Tian felt that this place was nothing to make a fuss about, but when he thought about it again, it was precisely this place that was mediocre and Zhang Zerui was also here, which was why they should pay attention to it.

"That's right, I investigated this company. Their official background is also a folk background. They are all just ordinary construction companies. There's nothing special about them, but I feel that there must be something wrong here."

Loong Yun continued talking. The more she spoke, the stranger it made him feel.

Wu Tian frowned. He was starting to have some doubts. After putting these things together, Wu Tian realized that nothing was isolated.

Putting everything aside, just the mysterious Biochemical Man in front of him, what were they planning to do by Wu Tian's side?

When the corpses were lost, Number One and the others had already arrived at the China. In other words, at that time, these people would have already been prepared.

And then, BMD invested heavily in Zhang Zerui, reversing the negative impact that Wu Tian had on him.

Looking at all of these, it seemed like the other party was playing a big game of chess. In this game, the one in charge of the chess piece was not him, Wu Tian, but Zhang Zerui.

Thinking about that, Wu Tian took a deep breath. He didn't think that things would turn out like this, it was way beyond his imagination.

"Loong Yun, don't spread this. Also, think of a way to investigate this Brilliant Company. I want to see what Zhang Zerui is up to."

Wu Tian sighed. Originally, he wanted to stay at China, but looking at the current situation, he had to go to Britain in order to clarify these matters.
