

Hidden Billionaire Chapter 1005 - A Fortuitous Encounter on the Plane

C1005 A Fortuitous Encounter on the Plane

As a plane soared into the sky from S City's airport, Wu Tian also brought Loong Yun and the others and left China.

It was Azure Dragon's first time going abroad, so he seemed a bit excited. Plus, they bought first-class cabins, so he still felt that it wasn't right and was a bit nervous.

"President Wu, do we really not need to bring Security Team with us this time?" Loong Yun was still a little worried. After all, they had already seen the battle level of the Biochemical Man before.

With their level of skill, dealing with ordinary people was not a problem, but if they wanted to deal with Biochemical Man, they would definitely be losers.

Wu Tian rubbed his temples. How could he not know about this? However, that was all Wu Tian could do.

"Forget about Security Team, they're too eye-catching. This time we're doing it in secret, we can't let the enemies know."

Hearing Wu Tian's words, Loong Yun didn't say anything else, and quickly lowered her head to gather information regarding Britain.

"These few days, I carefully investigated in detail. That Brilliant Company has camouflaged me to perfection, I can't find any flaws at all. I don't even have any overseas accounts related to them."

For the first time, Loong Yun felt that she had met a tough opponent.

"That's normal, because they might not trade with cash. In any case, we don't need to rush." Wu Tian had also anticipated that the enemy's preparation in this area would be far beyond their imagination.

If he didn't go to that place personally, he probably wouldn't be able to find anything useful.

Their voices weren't loud, but Wu Tian didn't try to avoid them. There weren't many people in this first class cabin. If they were to be so secretive, it would cause the people beside them to become suspicious.

At this moment, a Caucasian man stared at Wu Tian for a long time. He seemed to know Wu Tian and slowly walked towards him while holding his glass of wine.

"Sir, may I ask if you are Mr. Wu Tian?"

Wu Tian looked at the white man in front of him, holding a glass of wine and being polite to him.

"It's me." Wu Tian quickly also picked up the glass of wine beside him and toasted with him. At the same time, he started to size up the man.

To be honest, Wu Tian really felt like he had never seen him before. He didn't know why this person would come and find him.

"I was really lucky to be able to meet Mr. Wu Tian here!" This person spoke in China with a very heavy accent. As he held the cup, he looked very excited, as if he was a big star or something.

Wu Tian felt a bit awkward when he saw the other party's exaggerated look. Ye Zichen looked at Loong Yun and asked her what she meant by that.

"I don't know. You can be considered famous now. It is normal for people to know your identity and even have some admiration for you."

Loong Yun, on the other hand, didn't have much of a reaction to this. She even thought it was very normal.

"That... Excuse me, may I ask why you are looking for me? " Wu Tian saw that he couldn't get any good suggestions from others, so he asked this person directly.

"Right, right, it's like this. Mr. Wu Tian, this is my name card." With that, this person took out a name card from his pocket. His name and the company's name were clearly written on the card.

"Richard Liu? vs Capital Corporation? "Could it be that you ..." Seeing this name, Wu Tian looked at the person in front of him in disbelief. Previously, he didn't pay much attention to it, but after looking at it carefully, it seemed like he really was someone from the China.

Richard smirked and said shyly: "I'm a hybrid, my mother is a China person, and my father is a Britain person. Right now, I am working on a transaction management company. The business that I am involved with is the FTC that you are promoting. "

Hearing that, Wu Tian finally put down the worry in his heart. He had been suspecting that this guy was here to spy on his enemies.

From the looks of it, he was just a simple admirer, just as Loong Yun had said.

"It's nice to meet you. Maybe we can cooperate in the future when we have the chance."

Richard and Wu Tian shook hands, and then he asked, "Oh right, President Wu, are you guys going to the Britain as well? If there's anything I can do to help, just ask me. "

Wu Tian nodded. Although he did not know if such a thing would happen, he still felt moved by Richard's words. There was someone genuinely willing to help him, and from a certain point of view, this was a blessing.

"No problem. When the time comes, we might really have a chance to meet again." Both sides laughed, and then continued talking about the FTC s.

Since Wu Tian didn't have anything to do, it would be rather boring if he didn't say anything on the plane.

"Recently, many companies in Britain have started to use FTC. Using this method to avoid a lot of taxes can be said to be very useful."

Wu Tian really didn't expect it to develop so fast abroad. He had always thought that this thing was rather small in number after all.

"Isn't it impossible to track this FTC? Doesn't that mean that your government has no solution at all? How can he stand there and watch so much tax go to waste? "

Wu Tian felt that this sort of thing was impossible to happen because he heard that the tax officials of Britain were the strongest in the world. As long as it was a tax evasion they determined, they would definitely not let it go.

Richard smiled. It seems they have their own countermeasure.

"Of course, the tax officials are keeping a close eye on this, so all these companies have a special way of doing business, which is to entrust the transaction. They do not deal with the FTC themselves, but keep this thing in our company, and use our company to purchase and settle the accounts. "In that case, the tax officials will not be able to track them down and will only come here to supervise."

Richard knew all this because it was his job.

"So that's how it is ..." Wu Tian seemed to be deep in thought. If what Richard said was true, then he had an idea.

He raised his eyes, looked at Richard seriously, and said, "Well, I have a request. I hope you can help me."

Hidden Billionaire Chapter 1006 - Brilliant Corporation

C1006 Brilliant Corporation

Richard was flattered. He didn't think that he could really help Wu Tian.

"President Wu, feel free to speak! I definitely will not hesitate! " Richard was even more excited than Wu Tian.

This was his idol. How could he refuse something like this when the idol had told him that he hoped to be of help?

"Actually, this request is somewhat inappropriate. However, I still hope to get an answer from you!" Wu Tian didn't say it directly, but he had prepared him mentally.

At this time, Richard still had not figured out what Wu Tian was going to do, but he was already feeling nervous.

"Alright!" He still agreed. Although the reputation of a merchant was very important, sometimes the situation had to be taken into account.

Wu Tian looked around vigilantly. After he was sure that no one was paying attention to the two of them, he quietly said to Richard, "It's like this, I want to investigate whether a company has made any transactions at your place."

Richard, who had been a little nervous, relaxed. He thought it was something big.

"So that's what you wanted to ask?" You don't have to worry about this. Although we keep it a secret from the outside world, our own companies that are involved in this industry are all open to each other and won't hide it. "It's very simple. I can look it up for you right now."

Richard did not hesitate and returned to his seat. He opened his laptop and tapped on it a few times.

At this time, Loong Yun also came over. She was also looking forward to finding out what the results were.

"Brilliant Company right? I got it!" Richard's speed was extremely fast. He was able to find the results in a few moments.

Soon after, a bunch of trading records appeared on the computer screen.

"So many? Loong Yun looked on in surprise. There were more than a thousand records on it, and each transaction was extremely huge. Even the lowest would be in the tens of millions.

She had investigated for a long time but still could not find any clues about them, but now she had finally discovered their weak point.

"As expected!" Wu Tian gritted his teeth. Luckily, he met Richard here by mistake. Otherwise, he would have to spend a lot of effort just to know about this.

The most important thing was that even though the Brilliant Company used FTC s, he did not know anything about them. Although they did not have a way to track the FTC, there was still a way to solve this problem.

Wu Tian's company could locate any FTC. As long as the FTC was exchanged with the cash, they could immediately know where it was and when it was done.

If they could use the FTC well, they could also get a lot of business information.

"This company's transactions are quite frequent ..." Richard did not think it was a big company. However, he didn't know what Wu Tian wanted to do with this.

"Thank you, really, thank you." After getting what he wanted, Wu Tian quickly thanked Richard and returned to his seat.

He and Loong Yun looked at each other. Now, the two of them were basically certain that there was something wrong with this Brilliant Company.

Loong Yun had asked for a copy of the transaction records, which clearly recorded the transactions of Brilliant Company and other businesses.

After some observation, she discovered that more and more of the trading targets were all biomedical companies of Britain.

Combining with those Biochemical Man ... Loong Yun suddenly had a bold idea.

"President Wu, I'm afraid this company is..."

Wu Tian knew what she was going to say, but it wasn't convenient for them to communicate on the plane. After all, there were outsiders nearby.

He quickly waved his hand. "I know, my guess is pretty much the same as yours. Since it's like this, we have to investigate this even more clearly this time."

Not only would these things not scare Wu Tian, it would only strengthen his conviction.

The first thing Wu Tian did after getting off the plane was to look for Old Master Chu.

Wu Tian thought that they could trust Old Master. After all, they had worked together and Old Master was very rich.

Old Master Chu was a bit surprised by Wu Tian's sudden visit, but he still welcomed him happily.

"Why did you come? You should have told me in advance so that I could be prepared to welcome you."

Although Old Master Chu said this, he still treated Wu Tian to a sumptuous meal.

"Old Master Chu, there's no need for that. I came this time because I have something that I want to ask of you. Because I have a task to accomplish. "

Wu Tian did not pretend to be mysterious. Instead, he directly said that he was here to investigate the matter regarding Zhang Zerui.

Old Master Chu was not surprised by Wu Tian's words.

"No problem. If you need any help, I will do my best to help you."

With these words of theirs, things were much easier. Wu Tian quickly took out Zhang Zerui's itinerary.

"This is what we found out. We don't have any doubts as to what he went to do, but this company ..." Saying that, Wu Tian pointed to the name of Brilliant Company.

"Brilliant Company?" Old Master Chu muttered, but in his mind, there was nothing related to this company. "I've never heard of it ..."

Wu Tian nodded. The reason why this company made people feel that it was powerful was because it was too low-key.

"It's normal that you don't know, because after our investigation, it appeared to be a small construction company. But we don't think Zhang Zerui can go to such a company, so there must be something wrong here. "

Hearing Wu Tian's words, Old Master Chu hurriedly looked a few more times, and even looked carefully at where the Brilliant Company was located.

"It's in the New Gold Mountain. I've been to this area before, and it's where the wealthiest people live. It's called Rose Garden. It looks like this company has a very deep base. "

Although Old Master Chu didn't know much, but with just a little bit of inquiry, he had already gotten this much result. It was already very impressive.

Actually, Loong Yun had already investigated all these in the morning, but she didn't think there was anything important about it.

Hidden Billionaire Chapter 1007 - Disguised Identity

C1007 Disguised Identity

Actually, Loong Yun had already investigated all these in the morning, but she didn't think that it was important.

"Old Master, is there something special about this?"

Old Master Chu looked at their puzzled expressions and smiled. Indeed, young people were young people, and without these foundations, it would be a little lacking.

"You probably don't know about this. Look at the location of this company, at the edge of the rose garden. But don't underestimate him. Do you know what this place means? This rose garden began to develop slowly from this small area. Almost a hundred years or so. "

Old Master Chu talked nonstop. He was really willing to tell what he knew to the two young men in front of him.

"Do you mean that the closer they are to this place, the deeper their qualifications are?" Wu Tian's reaction was quick and he got Old Master Chu's praise in his eyes.

"That's right, that's what I mean. It seems like this company is not simple. The land here is basically not for sale, so the owners of this company probably have powerful backgrounds. Are you sure you want to investigate them?"

At this time, Old Master Chu's tone became heavy. He had been up and down in the Britain Market for many years, so he was familiar with the environment of this place.

He knew that the situation of the Britain was in chaos, hence he said such worried words.

"Of course, Old Master. When we came, we were already mentally prepared."

Wu Tian answered without hesitation.

Old Master Chu was very excited when he heard Wu Tian's words. After so many years, it was rare for him to see such a ambitious young man.

"Good!" "Since you're so brave, I can't be cowardly. If there's anything you need me for, just say it!"

Old Master Chu patted his chest, giving Wu Tian a big guarantee.

"Thank you so much, but I still have a question. I don't know how to get close to this company right now."

Wu Tian said embarrassedly. If he had a way, then there was no need to trouble Old Master Chu.

"Haha, looks like it's time for me to leave!" Saying so, Old Master Chu turned around and walked to the desk. He took out the letter, wrote a letter, and handed it over to Wu Tian.

The signature was another person Wu Tian didn't know. It seemed to be a letter of introduction.

"How about this, you guys go to the New Gold Mountain first. I have an old friend who specializes in the business of the rose garden area. If you go there, perhaps you can find some opportunities."

Old Master Chu's network of people showed his superiority at this moment.

If Wu Tian didn't ask for help, who knew when he would be able to reach this stage with just his own hard work.

"Thank you so much!" Wu Tian and Loong Yun were very happy to know someone like Old Master Chu.

"Go, but you must be careful. Britain is a very pure business nation, and there are some things that you can't use your China to think about."

Before they left, Old Master Chu even gave these words to Wu Tian.

After exiting, Wu Tian noticed that it was getting late, so he took a few people to find a hotel.

Originally, Loong Yun wanted to book a luxury hotel for Wu Tian, but Wu Tian rejected her offer. He chose a small hotel that looked very ordinary.

He said such a place would suit him.

However, there seemed to be a lot of people staying in this small hotel. They were gathered together in groups of three or five, and it was unknown what they were talking about.

When Wu Tian passed by and saw how serious their expressions were, he listened for a while out of curiosity.

They seemed to have come to collect their debt, but Wu Tian didn't hear it too clearly.

Right now, he didn't have the energy to meddle in other people's business. After all, this place was Old Master Chu's chassis, so he naturally had a way to deal with it.

The next day, Wu Tian did not waste any time, and the three of them directly flew to New Jinshan City.

This city was a huge city in Britain.

It is very famous all over the world, high-rise buildings and heavy traffic.

Although S City was also very luxurious, compared to a place like the New Gold Mountain, they were still lacking a little in terms of their foundation. After all, this was a large city with a hundred years of history, so their strength was still worthy of praise.

Wu Tian and the others followed the address given by Old Master Chu and found the acquaintance.

So this place was a cleaning company, no wonder Old Master Chu would say that.

From the looks of it, it really did look like this. However, this job was a bit too low-class.

The boss of this cleaning company was a woman. When she saw Wu Tian and the others, she was very cautious and treated him like a bad guy.

"In other words, you were sent by Elder Chu. Since that's the case, I will definitely help you. However, don't be happy too early!"

The woman was called Elder Sister Hsing. She was fat, but she did not have a good temper.

Although she had such a temper, she had still been doing business here for more than ten years, and she was also well-liked by the local companies.

"That's great, thank you so much!" Wu Tian quickly thanked them and the three of them received a set of work clothes.

"This is your clothes. From today onwards, you will be following our cleaning team!" If anyone asks, you are my new employees! You can't speak Eagle! And you don't talk to the white men! Do you hear me! "

Elder Sister Hsing's words were firm and powerful.

"Rest assured, we will definitely not cause any trouble for you!" Wu Tian smiled, and at the same time, he took out a bank card from his pocket.

Seeing Wu Tian's actions, Elder Sister Hsing immediately squinted her eyes and a smile appeared on her face.

"What are you doing ..."

"Such a small gift, please accept it." Wu Tian finally understood the meaning behind Old Master Chu's words. Since they were asking her to do something, they had to give her some benefits.

As expected, when he just gave out this gift, Elder Sister Hsing's attitude towards Wu Tian and the other two improved a lot.

Hidden Billionaire Chapter 1008 - Sky Platform Monitoring

C1008 Sky Platform Monitoring

Azure Dragon looked at the figure of Elder Sister Hsing leaving and felt quite annoyed.

"President Wu, I don't think we need to give her money!"

Azure Dragon actually had a lot of opinions about her vile attitude.

"With a trash like her, I can defeat ten people by myself. She's too arrogant!" Azure Dragon was in a bad mood as he spat towards the direction Elder Sister Hsing left.

"Enough, stop causing trouble here." Loong Yun looked at Azure Dragon who was playing here and rolled her eyes at him. She felt that he had only four limbs and no brain.

Simply put, it wouldn't be of much help, and it might even bring about some trouble.

"The two of you, stop quarreling. Since we're here, it's better for us to be more honest and conceal our identities!"

Wu Tian, on the other hand, did not care much about these things. After all, he had experienced hardships before, and when he did not return to the Wu Family, he was not doing well either.

According to Elder Sister Hsing's arrangement, they would have a job to do in the afternoon. This district of the Rose Garden wasn't small, but the houses here weren't very tall. They all looked very ancient, so cleaning them was very troublesome.

To be honest, Wu Tian hadn't done this kind of thing for a long time, and now he felt like he was about to lose his footing.

Every day, he would eat, drink, and have fun before arranging some tasks. Actually, he didn't exercise his body much. If it wasn't for the fact that he had built up quite a bit of foundation from before, he probably wouldn't be as healthy as he was now.

According to Elder Sister Hsing's arrangement, they seemed to be heading to a relatively large company this time, so the number of cleaning personnel was more than 20 people.

"All of you be careful, this is our regular customer. After you go, don't talk or ask about anything. If you don't know anything, just come here and ask me!"

Elder Sister Hsing kept her word on these matters and was very domineering to the people below. This made Azure Dragon very unhappy. He wanted to stand up and argue with her as if he couldn't accept it.

Luckily, with Wu Tian's help, he forcefully suppressed Azure Dragon. Otherwise, this fellow would surely cause a ruckus.

With the order given, they quickly moved in a group towards their destination.

"Where is the Brilliant Company?" Wu Tian sat on an old bus and kept looking out of the window.

Loong Yun had investigated a lot of information about this area and was familiar with the map.

"It seems to be in a direction closer to the side. I think it should be in that direction!"

While they were chattering, Elder Sister Hsing heard their conversation and the woman got angry. She glared at the back of the bus and was about to start cursing.

She wanted to see who was so unintelligent, but she didn't say anything when she saw it was Wu Tian and the others. Elder Sister Hsing thought of the bank card that Wu Tian gave her and her lips moved, but in the end, she still didn't say anything.

Soon, after arriving at the building, everyone went to accept some tools before being pulled to a building. It was said that this time, they were going to clean up the building.

Wu Tian and the others had already mentally prepared themselves, so they didn't say anything. Azure Dragon was unhappy though. However, for Wu Tian's sake, he still pinched his nose and accepted it.

Now that the tasks were assigned, Wu Tian and the others didn't have much work to do. Elder Sister Hsing could probably guess what else they had to do, so she simply assigned Wu Tian and the other two to the top floor.

Basically, no one would go there, so no one would be able to find out what they were doing there.

"At least this old woman is sensible. She knows how to give us conditions like this." Otherwise, I will teach her a lesson! "

Azure Dragon saw that there was no one nearby and just threw everything away. Although he was meticulous in other things, he was not interested in this at all.

"Loong Yun, take a look at this place and see if you can directly see that Brilliant Company!" At this time, Wu Tian didn't have the mood to care about Azure Dragon complaining at that place. He pointed to a building not far away and said to Loong Yun.

That building was the Brilliant Company that Wu Tian and the others were thinking about earlier. Loong Yun nodded and placed the briefcase they brought onto the ground and opened it.

She took out a few cameras and antennas.

She carefully installed it in a few places on the roof and then aimed it at the Brilliant Company.

"I've already installed the surveillance, but they only have a power supply that can last for a week."

They didn't have much time.

"In other words, our mission is quite tight." Wu Tian frowned. The reason he came to Britain this time, was to complete his plan for ten days to half a month.

However, the longer this dragged on, the better it might not be for him.

"You're not in a hurry, we can't rush these things. It seems like we can stay in this building for three days anyway. We can also observe these three days." Loong Yun was rather open-minded about this matter.

While she was speaking, she had already unfurled all the equipment she brought.

These cameras and the like could be remotely connected to her tablet computer. She could see very clearly to the Brilliant Tower.

Because most of their satellites were focused on the S City, when it came to the Britain, Wu Tian and the others had no way of counting on their satellites.

"There don't seem to be many people in this company. What are they investing so much for?" At this moment, Loong Yun had already analyzed the camera's image, so Wu Tian hurried over to check when he heard her.

Not only was there a live image on the screen, but there was also an infrared image, which was installed to see into the interior of their company.

"There doesn't seem to be anything special about it ..." Loong Yun looked left and right, feeling that this was just an ordinary construction company.

"Don't be anxious. Since they have been preparing for a long time, their identities will not be revealed so it is normal for us to not be able to find any loopholes."

Wu Tian lightly patted Loong Yun's shoulder, hinting her to continue observing.

As soon as his voice fell, the door to the rooftop suddenly rang. The three of them felt as if they had been electrocuted, and their hairs stood on end.
