## **C1009 Elder Sister Xing's Attention**

They needed to keep this a secret. They could not let anyone else find out.

One more person knowing about this would increase the risk of their identities being exposed.

If it was really as Wu Tian and the others had guessed, then this Brilliant Company was related to those Biochemical Man. If Wu Tian and the others exposed their identities, they would die for sure.

Azure Dragon was the quickest to react as he was also the person closest to the door. Without saying anything, he quickly ran to the door and blocked it with his body.

"Who?"

"It's me, Elder Sister Hsing. I'm here to take a look at your work."

Elder Sister Hsing's voice came from inside, but Azure Dragon still didn't let her pass and continued to obstruct her. He turned around to take a look. At this time, Wu Tian and Loong Yun were packing their bags.

Azure Dragon only opened the door after the two of them were done cleaning up. He let Elder Sister Hsing in.

Elder Sister Hsing was curious about what these people were here to do. Why weren't they letting others come and see?

"Um, I don't mind what you guys are doing here, but I do have one thing to clarify, and that can't affect my business." Elder Sister Hsing's eyes roamed around the rooftop as she spoke. She was obviously trying to find out what Wu Tian and the others were hiding.

However, when she came up, Wu Tian and the others had already packed up those things that could easily be seen.

"Elder Sister Hsing, you don't have to worry about that. We are absolutely honest here. You should trust us on this."

Wu Tian signaled Azure Dragon with his eyes, signaling him to move away. He was afraid that this guy would not be able to control his emotions and hurt Elder Sister Hsing.

Their current statuses could only be maintained with Elder Sister Hsing's help.

Wu Tian would rather lower himself at this moment than to cause trouble.

"Hmm, I believe in what you're saying. But since you're saying it in such a flowery manner, if you've caused me any trouble, I'll tell you guys that I won't wipe your butts clean ..."

When Elder Sister Hsing said this, she didn't look like she was joking. However, Wu Tian and the others weren't idiots. They wouldn't be frightened by her words.

Seeing Elder Sister Hsing leave, Azure Dragon purposely stayed in the stairwell for a while to ensure that no one came up. Only then did he feel relieved.

"This guy scared me!" Wu Tian rubbed his chest. Just now, he thought their actions had been exposed.

For the rest of the day, they began a lengthy surveillance operation on top of the building. Staring at an image and then doing nothing is not something an average person can sustain for long.

However, the two of them held on for a long time, several hours.

However, this Brilliant Company basically did not have any special personnel appearing, and no matter how one looked at it, it was just a construction company.

They didn't even notice some suspicious personnel.

Until the evening, Wu Tian rubbed his eyes and decided to stand up and go down from here.

"Let's go back. We can't stay here any longer." Elder Sister Hsing's voice had already sounded out from downstairs, and the other employees were now holding their own mops and things like that in their hands as they headed downstairs.

Wu Tian and the others joined the group and also went downstairs calmly.

When they got downstairs, Elder Sister Hsing didn't say anything. She just gave everyone a salary, which seemed to be a few dozen yuan ...

Wu Tian didn't know much about the local prices, but he did know a bit about this exchange rate. Elder Sister Hsing obviously didn't give them a salary that was suitable for their job.

"We'll stop here for today. You guys can go back first, the bus is already waiting for you." Elder Sister Hsing shouted loudly and called for everyone to get on the car. Even Wu Tian and the others got on the car.

But this time, Elder Sister Hsing didn't get in the car with them. Wu Tian and the others didn't take this to heart. Right now, their biggest thought was to quickly go back to the hotel to have a good rest.

On the way, he also wanted to see if there were any movements from the Brilliant Company.

Actually, this time they only installed a camera on the same building. According to the pre-planned plan, Wu Tian and the others wanted to do this on at least two or three buildings.

However, based on the current situation, it was not certain if he could do it later.

On the way back, Loong Yun's tablet computer suddenly emitted an alarm.

She curiously turned on her laptop and saw a rather fat figure appear on the rooftop.

With one look, he knew who it was. Other than Elder Sister Hsing, there wouldn't be anyone else.

"President Wu ..." Loong Yun quickly showed this scene to Wu Tian. She didn't know what to say anymore.

The few of them did not think much of Elder Sister Hsing, but she did not stay idle at all. She had probably already set her eyes on the rooftop where Wu Tian and the others were and planned to see what the hell they were up to.

Although this matter had nothing to do with Elder Sister Hsing, this guy's way of doing things would clearly pose a huge threat to Wu Tian and the others.

Seeing that, Azure Dragon immediately clenched his fist and fiercely said: "President Wu, just let me handle this woman. I guarantee that no one will be able to find her corpse!"

Azure Dragon wasn't joking when he said this, it was just that Wu Tian rolled his eyes at him and didn't know what to say.

"Let's see what she wants to do first. If it doesn't affect us, then we shouldn't act rashly for the time being." Wu Tian felt that it would be better for them not to cause trouble at the moment.

At this moment, Elder Sister Hsing didn't seem to find anything strange on the rooftop. Although there were some doubts on her face, she still turned around and left. Only then did Loong Yun and the others heave a sigh of relief.

"I didn't expect this guy to be so smart, no wonder she's so strong." Wu Tian also started to admire Elder Sister Hsing a little. She really had some skills.

Furthermore, no matter what they did in the future, they would have to hide from this Elder Sister Hsing.

## **Hidden Billionaire Chapter 1010 - Underground Anomaly**

### **C1010 Underground Anomaly**

If Sister Xing were to discover their movements, she would definitely think of ways to cause trouble for them.

Therefore, Wu Tian's strategy for dealing with such a difficult character was very simple. He had to avoid her.

On this day, Wu Tian basically did not discover anything useful.

The next day, they spent another boring day on the roof. He did not discover anything related to Brilliant Company.

Only a few people went in and out of the Brilliant Company, but there was nothing else.

However, when Wu Tian and the others were monitoring the Brilliant Company, Wu Tian specially asked Richard about it and found out that the Brilliant Company had carried out many more transactions of FTC in the past two days.

Moreover, if it was converted into money, it was said that the amount had already broken through 1 billion.

It was impossible for such a large scale to be so calm.

Sometimes, Wu Tian even started to suspect if he had found the wrong place.

He hadn't found anything useful in this place for days.

Elder Sister Hsing, who had been very interested in them, hadn't reappeared yet, and it had to be said to be a pretty good situation.

The three of them were starting to get impatient, as the situation had progressed to a standstill.

"I'm going downstairs to buy a pack of cigarettes ..." Azure Dragon said as he prepared to go downstairs. Wu Tian and the others waved their hands, indicating that Azure Dragon should do as he pleased.

Azure Dragon walked down the stairs happily. However, he didn't notice that there was a pair of eyes staring at him as he left near a shadow on the stairs.

As soon as he left, the slightly plump figure quickly went upstairs, sneaking to the top floor like a thief.

Since Wu Tian and Loong Yun were already used to having guards on the other side, they didn't pay much attention to the matter on the staircase.

They were still standing by the wall as they continued observing the Brilliant Company, and at this time, Elder Sister Hsing was nearing unceasingly towards them.

She didn't know what Wu Tian and the others were doing, but it was obvious that they were here for a purpose.

When Elder Sister Hsing took a closer look, she noticed that Wu Tian and co. seemed to be looking at a company. It seemed like they were monitoring them.

The experienced and knowledgeable Elder Sister Hsing immediately knew what Wu Tian and the others were doing. They were definitely commercial spies!

She smiled and quietly walked down from the rooftop again. She didn't attract Wu Tian and the others' attention the whole time.

On the other side, Azure Dragon went downstairs. He looked around and didn't find any store that sold cigarettes. Also, the entire street was filled with eagle language, so Azure Dragon couldn't understand it at all.

However, he would not back down just like that. Azure Dragon began to stroll along the street. He planned to go to every store to ask, as he could always buy a pack of cigarettes.

After walking not too far, even he himself did not notice that he had actually arrived near the Brilliant Company.

There was a vending machine on this side of the wall, and he trotted over it, stuffing money into it to buy cigarettes.

However, Azure Dragon suddenly felt that something was wrong under his feet. It felt like an earthquake.

If it wasn't for Azure Dragon's sharp senses, ordinary people wouldn't have noticed this issue.

He looked around and found that the surrounding buildings didn't seem to be moving at all, which meant that only the ground under his feet was not right.

Azure Dragon did not stay too long at this place. He clearly saw that he was near Brilliant Company, so he bought a cigarette and immediately left.

Returning to the rooftop, Azure Dragon quickly said what he had discovered.

"Vibrate?" Loong Yun was confused. What did this mean?

Azure Dragon nodded. He couldn't get the feeling wrong. It was as if someone was continuously hammering on the wall.

"Wrong, this vibration is very light. If I don't pay attention, I definitely won't be able to feel it."

Wu Tian turned his gaze back to Brilliant Company and looked at them weirdly.

At this moment, a food truck drove past, and someone came out of the company to unload the goods.

The amount of supplies they had brought down this time was almost enough for their company's members to eat for a year.

This strange phenomenon immediately piqued Wu Tian's curiosity, because it was obvious that something was wrong.

"Look, isn't there something wrong with the food they're eating? There are too many of them, and they're not easy to keep either. If they don't eat them for a long time, they'll break down."

All of a sudden, Wu Tian felt that they had found some important information, but they did not understand it yet.

"If this is connected to the matter Azure Dragon mentioned..." Does this mean that they are not the only ones here? " Loong Yun, on the other hand, felt enlightened.

She turned the infrared camera in a different direction and aimed it at Brilliant Company. At this time, she clearly saw that the people who were moving the food did not move them to the company's building, but to the underground.

The range of detection was limited, so they could only see the people disappearing from the horizon one by one.

When the three of them saw this scene, they were immediately enlightened!

"If we had observed them closely, we might have known that they had underground facilities!"

Wu Tian was very helpless and said with a wry smile. No one thought that things would turn out this way. From start to finish, they were only one step away from the truth.

"President Wu, there's no use in continuing to observe here. Let's move on." When Loong Yun said this, she had already started packing up their things.

The three of them quickly packed up and prepared to go downstairs, but at this moment, Elder Sister Hsing suddenly rushed over and blocked their path.

"Ladies and gentlemen, where are you planning to go?"

Wu Tian's expression did not change at all and he frowned, but it quickly relaxed.

"Isn't this Elder Sister Hsing? Our work up there is almost done. Don't you want to go downstairs to rest?"

Elder Sister Hsing had a fake smile on her face. She looked exactly like a scoundrel.

"Is that so? Haha, that's fine. You can leave, but ..."

Hearing Elder Sister Hsing's words, Wu Tian turned around and looked at her.

"But what?"

"What you guys did on the roof, you can't really think that no one will know, right? I never thought that you all would use me! "

Elder Sister Hsing narrowed her eyes all of a sudden and finally said what was in her heart.

## **Hidden Billionaire Chapter 1011 - Threat**

### **C1011 Threat**

Now that things had come to this, Wu Tian and the others finally knew what Elder Sister Hsing was planning.

To put it bluntly, they wanted to use this opportunity to ruthlessly entrap Wu Tian and the others. Their threat was very obvious, and basically, they didn't need to say anything more.

Before Wu Tian could say anything, Azure Dragon had already stood in front of him. He started to move his feet and fists, making "ka ka" sounds after just a slight movement. It was terrifying to listen to, let alone the size of his body.

"What are you doing? Let me tell you, I, Elder Sister Hsing, have been in this area for who knows how many years. How many times have I seen a fool like you? Do you think that you can beat me up?" Elder Sister Hsing wasn't the least bit scared. On the contrary, she was sneering.

Wu Tian revealed a smile at this time and walked over to pull Azure Dragon behind him. He was not angry about this.

"Elder Sister Hsing, I think there must be some kind of misunderstanding between us. Let's not rush and discuss everything."

Anyway, he would first stabilize the guy and then see what she was up to.

"Kid, you're sensible. I'm not trying to make things difficult for you guys, no matter which company's spy you are from, it actually has nothing to do with me. "But you guys are borrowing my identity to do this kind of thing, I'm the only one who carries the risk!"

As expected, Elder Sister Hsing bullied the strong and feared the weak. When she saw Wu Tian speak kindly, her attitude started to soften.

"What do you mean?"

"It's very simple. Let me take this risk. You should also indicate that if my business is ruined because of your actions, you all can just leave. However, you all cannot let me take this dumb loss!"

Elder Sister Hsing said slowly, her eyes constantly sweeping Wu Tian's body.

Hearing him say that, Wu Tian immediately understood what this guy was trying to do. Calmly, she took out another bank card from her clothes.

"There are five million in this bank card. I wonder if it can be used as our deposit?"

Wu Tian passed the card over with a smile. The aggressive Elder Sister Hsing from before had now changed her face.

Her face was full of smiles, making it hard to tell that she was just coercing Wu Tian and the others.

"Why didn't you say so earlier. However, this little bit of money is not enough. You must know that in terms of Britain, the level of consumption is very high."

'Greed is not enough to swallow an elephant ', Wu Tian saw this woman asking him for more money, and this was the first sentence he thought of in his mind.

However, in order to hide their identities and settle the matter, Wu Tian still summoned up his courage and took out another bank card.

Anyway, money wasn't very important to him, so solving the problem was the most important.

"I'm sorry for my thoughtlessness, this bank card has ten million..."

When Elder Sister Hsing heard this, she immediately snatched the bank card and turned to leave.

"Alright, since you're so sincere, then do whatever you want. I definitely won't say anything."

This guy acted good once he got the money, not bothering with Wu Tian and the others at all.

Azure Dragon looked at her leaving figure and picked up the stick on the side, wanting to follow her. He had never suffered such injustice before. She actually wanted money from them. She was simply courting her own life.

"Azure Dragon, don't worry about her!"

Wu Tian said coldly. Right now, the most important thing for them to do was to deal with Brilliant Company and find out what exactly they were doing.

As for this woman, to tell the truth, a rascal like her is of no value at all. Worrying about her is just a waste of one's brain cells.

"But, President Wu, she's bullying us too much. She really thinks we're made of mud!"

Azure Dragon was a bit unhappy. He could accept that the enemy was stronger than him, but he could not accept that someone looked down on him and looked down on Wu Tian.

"Alright, alright, have you forgotten what Old Master Chu said when we came here? He said that Britain is a commercial country, and they only talk about benefits!"

Wu Tian had been mentally prepared from the very beginning. However, he didn't expect that Elder Sister Hsing would do something much worse than what he had imagined.

They were clearly China people, but this guy only dared to lay a hand on them.

Even Wu Tian and the others were scammed, and they already gave her money to bribe her. If she didn't do that, who knows what she would do this week.

"That's right, wait until we deal with Brilliant Company, then we can easily take care of this woman with just a finger."

At this time, Loong Yun also joined in on Azure Dragon's persuasion. Azure Dragon had no choice but to pinch his nose and accept it when he saw his companions saying so.

The three of them temporarily put this matter aside and prepared to properly consider how to study the Brilliant Company.

He had already found clear evidence to prove that there was some sort of facility in the Brilliant Company basement. If not, why would they transport so much food inside?

There must be a lot of people inside. If he wanted to find out more about the details, he would have to find a way to sneak in.

Wu Tian and the other two sneakily observed from afar. After thinking for a while, they still couldn't come up with a good idea, because their faces were the biggest obstacle.

"If only Elder Sister Hsing could take over their company's work ..."

Wu Tian muttered to himself. The only identity they could take advantage of was Elder Sister Hsing's cleaning team. This identity was very safe.

However, what had just happened between them and Elder Sister Hsing, to be honest, neither of them was willing to pay any attention to this woman.

"I think she said before that she didn't have much work to do these past few days ..."

Loong Yun recalled for a moment and said, "If so, it's very likely that she's already committed the act of destroying the bridge after crossing the river."

She stopped her business early, so no matter what Wu Tian did, it couldn't be blamed on her.

"Since it's like this ..."

Wu Tian pulled his chin as an idea suddenly flashed across his mind.

"Why don't we create a condition for her ..."

Loong Yun and Azure Dragon looked at Wu Tian doubtfully. They didn't know what Wu Tian was up to.

But at night, they knew what Wu Tian wanted to do.

The three of them each carried a huge vat of dirty stuff. What was inside the vats were paint and dirty water. In short, whatever looked dirty was difficult to deal with and what was inside the vats.

Taking advantage of the dark and windy night, when there were few people in the surroundings, Wu Tian and Azure Dragon each carried a bucket of water, and with bent legs, they slipped near the Brilliant Company.

## **Hidden Billionaire Chapter 1012 - No Conditions to Create the Conditions**

### **C1012 No Conditions to Create the Conditions**

Didn't your company need cleaning? I'll dirty it for you right now, so you won't be able to avoid cleaning it even if you want to.

Wu Tian's solution was very simple and crude. Although it was not very humane, even to the point of being bad, he couldn't care that much in order to achieve their goals.

The two of them immediately went their separate ways, with one going to the side, and then continuously sprinkled the same thing on the Brilliant Company walls.

Fortunately, the company seemed to be very satisfied with their security and did not have much control over the buildings on the ground.

There weren't many people on duty at night, and their surveillance cameras were already under Loong Yun's control, so there was no way to record Wu Tian's actions.

Very quickly, the three of them finished their masterpieces. The originally bright and beautiful Brilliant Company had already turned into the appearance of a shabby house that was as if it had just walked out of a slum.

If you didn't know, you'd think this place was occupied by a homeless person...

When the sun rose on the second day, many people who saw the Brilliant Company in such a state walked away from it while covering their mouths and noses with their hands.

At this time, Elder Sister Hsing was holding a large amount of money and talking happily in her residence. This was the first time she saw so much money, so she didn't expect to be able to earn this much just by talking.

"This money is so easy to earn. I feel like I'll never be able to spend it all my life!"

Elder Sister Hsing thought back to Wu Tian and the others' expressions and found it funny. Actually, she wasn't that confident back then, but she could tell that she had grasped their weaknesses. That was a real weakness for them.

If that was the case, she would go and threaten them if she wanted money in the future. Didn't they become her special ATM?

It was at this moment that Elder Sister Hsing's phone suddenly rang, interrupting her self-entertainment.

"Who is it?"

Elder Sister Hsing's attitude was clearly not good at the start. Right now, she didn't need to see anyone's expression or conduct their actions.

"It's like this, I want to invite you to come and clean up our company ... I don't know who did it last night, but they made our company's walls dirty... "

Hearing the voice from the other side of the phone, Elder Sister Hsing realized that a customer had come to visit.

"No, we're on vacation right now ..."

The current Elder Sister Hsing didn't want to work at all, so she wanted to reject this matter without saying a word.

"No no no, we are willing to pay a higher price! At least we are a company, how is it proper for the walls to be stained like this, I beg of you. "

They began to plead, since the closest team they could find was only Elder Sister Hsing's team.

"Really? Then I want the price to be three times, that's not too much! "You need to know that we're on vacation!"

Elder Sister Hsing thought that since it was like this, she had a chance to raise the price, so she decided to raise the price.

"Alright, alright, alright!" He did not bargain with Elder Sister Hsing and just hung up the phone. Then, he called all the money he had.

Seeing that he had actually already paid her, Elder Sister Hsing had no choice but to say something and start organizing her men.

Originally, she didn't want to call Wu Tian and co. over. After all, she couldn't manage these people anymore after receiving their money.

But after thinking about it, Elder Sister Hsing still decided to tell them about it. As for whether they would come or not, that would depend on them.

And all of the developments were pretty much what Wu Tian and the others expected. The three of them excitedly took their tools and were the first to arrive at the meeting place.

Elder Sister Hsing didn't know what was going on as she watched the three of them get so excited. She was wondering if there was something wrong with their brains.

"Well, now that we have a new mission... Go to the Brilliant Company and clean up! "

Elder Sister Hsing looked at the people below and gave them a simple assignment. When it was Wu Tian and the others' turn, she started to hesitate. Then, she turned around and walked away without saying anything ...

Wu Tian, Loong Yun, and the others looked at each other. They did not know what Elder Sister Hsing meant by that, so they quickly chased after her.

"You sent them all a mission, why didn't you arrange one with us?"

"What are you guys trying to do? "If I don't give you a mission, then do whatever you want ..."

Elder Sister Hsing waved her hand. Right now, she didn't want to worry about such a messy matter. The pile of money to protect her at home was the most important.

"Since you said so, I am relieved!"

Wu Tian was waiting for these words. Since they could move freely, then they could also move within the Brilliant Company.

Because this time, the Brilliant Company was planning on doing an omnidirectional cleaning from the inside out.

It was likely that they would very rarely let outsiders in, so many of the cleaner people were very excited, and many people were very curious about what was inside the Brilliant Company.

However, if they were to really go, it would instead cause them to feel very disappointed.

Because their company was very simple, everything was very ordinary, just something a construction company should have.

There weren't many people, but cleaning seemed to be quite simple.

Soon, the Spring Festival began. Wu Tian, Loong Yun and the other two started to look for an underground entrance from the first floor without a change in expression.

At the beginning, they had seen the people carrying the food disappear from the first floor. However, they had no idea where they had come from.

They definitely wouldn't brazenly put such a passage in front of Wu Tian and the others.

However, it was a good time for them to find this place while they were cleaning up.

The three of them quickly searched everywhere, but the people from Brilliant Company were staring at them closely, so Wu Tian did not dare to move too quickly.

All they could do was pretend to clean and touch here and there.

As long as they had this piece of cloth in their hands, they felt that doing these things was completely reasonable.

After tossing and turning for the better part of the day, Wu Tian and Loong Yun still could not find any clues. The three of them were preparing to meet up, but at this moment, Azure Dragon seemed to have found something, and ran over with an unusual expression.

"What's wrong?"

Wu Tian quickly asked when he saw that his expression wasn't right.

"I seem to know something. I found a bit of blood over there ..."

Azure Dragon looked around vigilantly to make sure no one was listening in on their conversation, then he said that.
