C1013 Deep Tiger Acupoint

There were traces of blood in this place, and it wasn't particularly small, so it immediately attracted Wu Tian's attention.

It must have had something to do with their underground facility.

"Don't be in such a hurry, explain it clearly!"

Wu Tian let him calm down first, while he pulled Azure Dragon into a corner.

"It's like this. I was wiping that vent just now. It was a bit dirty inside, so I went in to take a look ..." I found dried blood on both sides of the vent. "

Azure Dragon lowered his voice and said softly. This matter did indeed sound quite scary, but Azure Dragon seemed to be a bit excited instead.

Knowing all of this meant that they had a way out.

"So that's how it is ..." Could that vent be related to the ground? "

Wu Tian crossed his arms and started to think about this problem. No matter what, they only have this clue, so they can only start with this clue.

From the very beginning, Wu Tian had suspected that the Brilliant Company had something to do with the Biochemical Man. The task given to Wu Tian by Tieh Jun, the leader of the special forces in the military, was for him to investigate exactly what kind of organization this Biochemical Man belonged to.

After Wu Tian had investigated these things properly, he would be able to complete the mission.

"You guys stay here and watch. I'll take a look!"

Wu Tian thought about it and decided to check it out himself.

When Azure Dragon heard that, he was immediately scared and quickly pulled Wu Tian back.

"No way, President Wu, it's too dangerous for you to go alone!" I'll go with you! "

Azure Dragon had originally planned to go down alone, but taking into account that Wu Tian was the type to keep his word, he decided to take him into consideration as well. This way, Wu Tian could accept the consequences more easily.

"What are you doing here? I can handle this alone!"

Wu Tian shook his head. The more people were involved in this operation, the more likely they would be discovered, especially as there were people from Brilliant Company who were patrolling the place.

Besides, if they left Loong Yun alone, it would be too dangerous.

"But, what if you encounter danger ..."

Azure Dragon was still unwilling to do so. In his eyes, protecting Wu Tian's safety was his greatest responsibility and duty!

Wu Tian smiled at Azure Dragon, a trace of light flashing through his white teeth.

"Don't worry, I'm not an idiot! If anything happens, I will immediately ask for your help. Moreover, if possible, I will not alert them.

Wu Tian was also very conservative in his thinking. He didn't want to put himself in any danger. In this situation, he didn't know what was going on, but he had to be very careful.

Hearing Wu Tian's determination, Azure Dragon didn't have anything else to say, so he could only nod in agreement.

Soon, Wu Tian was ready. While no one was paying attention, he crept into the ventilation duct.

Azure Dragon quickly installed the obstruction net of the vent again and pretended to wipe it on the spot.

It was also at this time that people from the Brilliant Company happened to pass by. After looking at their surroundings, they realized that there were no abnormalities, and so they left.

Azure Dragon and Loong Yun's hearts were under a lot of pressure. They were in the enemy's territory and they were actually doing such a dangerous thing. It had to be said that they were too daring.

There was a lot of pressure on the people outside, and the pressure on Wu Tian inside the ventilation duct was also not small.

It was only then that he realized the terrible situation in this ventilation duct was far more serious than he had imagined.

The further down he went, the more bloodstains he saw on the pipe. He also didn't know what these bloodstains were left behind ... All in all, it was very scary.

Wu Tian braced himself and continued to climb. He didn't know how long he had climbed for and estimated that he was about dozens of meters away. Finally, he felt like he had touched a flat surface.

A firm feeling under his feet indicated that he had reached the bottom.

Wu Tian quickly changed his direction because in front of him was a fork in the road. The ventilation duct started to extend in three directions.

He didn't know which one to pick, so he randomly chose and crawled over.

At this point, Wu Tian was very careful with every movement. He was afraid that he would make any noise.

Even his breathing was as gentle as it could be. In short, safety was his primary goal.

Soon, Wu Tian seemed to hear some talking sounds and footsteps coming from underneath him.

He found an empty spot and looked outside, only then was he able to clearly see what was going on inside this underground facility.

It turned out that there was a huge plaza in the basement, with many jars in the middle. White people in white coats were walking back and forth, seemingly very busy.

This place looks like a scientific base... Wu Tian had seen this scene often in various movies, and it was usually created by the villains to study the human body.

Could this place be one of the places where the Biochemical Man study?

Wu Tian began to doubt this point, because no matter how he looked at it, it looked very similar.

In order to let himself see more clearly, Wu Tian continued to climb along the ventilation duct. Finally, he found a glass jar nearby and looked inside.

Unexpectedly, there was a human body floating inside. There were all kinds of tubes connected to his body. A group of people wearing protective suit were holding a book and chattering to the experimental body in the jar.

They seem to be working on this thing...

Wu Tian felt that this was enough as evidence, but he still didn't see any finished product like the ones they saw on the first floor.

Wu Tian decided to go deeper as he felt it would not be easy for him to come here.

After passing through this large square, there was a very strict security tunnel at the back. Going through it required one to go through several large security checks.

And the thickness of the gate is measured in meters... This door was not designed to stop ordinary people.

Wu Tian was grateful that he was on the ceiling, so he skipped the security check and guards and walked deeper in step by step.

After passing through this area, Wu Tian was suddenly enlightened and he discovered a shocking scene.

This was because at the back, there was a living area. However, there were large cages that separated this area from the others.

Inside the cage, there were many people who looked like soldiers, constantly whipping the others ...

It seems to be forcing them to do some testing or training in this way.

Hidden Billionaire Chapter 1014 - Meeting on a Narrow Path

C1014 Meeting on a Narrow Path

Wu Tian was excited because he felt that he was only one step away from the truth.

If nothing unexpected happened when he got here, Wu Tian could already conclude that all these Biochemical Man came from here.

In other words, Brilliant Company was a private, biochemical company that specialized in the production of genes that would transform humans ...

If this matter was spread out, the entire world would be in an uproar.

However, if it was really like that, then Wu Tian didn't need to think about it.

After observing for a while, Wu Tian decided to continue walking forward without stopping. However, after he crawled for a bit, he suddenly felt that something in front of him was blocking his path.

Wu Tian looked up and was scared out of his wits ... Because in front of him, a pair of big eyes were staring at Wu Tian with vigor.

He had been discovered!

Wu Tian quickly covered his mouth. If he shouted at this place, it would be impossible for him to escape this place alive.

After the initial surprise, Wu Tian finally calmed down a bit. He realized that this person was lying inside the ventilation duct like him, but she didn't say anything or make any sound.

There wasn't even any expression on his face. He just stared at Wu Tian in confusion.

Wu Tian sized up this person. She wasn't very old, only around ten years old. Her long hair made him unable to distinguish between men and women.

Looking at her body, Wu Tian was shocked. There were wounds everywhere, and some of them were even bleeding.

Could it be that the bloodstains on the ventilation duct were left behind by her?

Wu Tian started to suspect this, but he didn't know what to do now that he was found.

Continue moving forward? It would definitely not work. She was stuck in the ventilation duct, so Wu Tian had no way to get through.

Thus, he could only retreat. Wu Tian made up his mind and started to move slowly towards the back.

Wu Tian didn't dare to make any big moves, so he stared at the person in front of him who didn't know what he was doing. He was afraid that she might explode.

After all, Wu Tian didn't know which side she was on. If she was someone from this base, then he was her enemy.

However, she didn't inform the security personnel just because she noticed Wu Tian. Instead, she didn't do anything and just silently looked at Wu Tian from that place.

Of course, Wu Tian couldn't care so much. He quickly pulled back a distance and turned around to crawl back.

Not long after he left, a voice suddenly appeared in Wu Tian's mind.

"Save me!"

It was a girl's voice. At first, Wu Tian thought he was hallucinating, but then he carefully listened to no one nearby.

Thus, Wu Tian ignored him and continued walking.

However, the voice sounded again, sounding very pitiful.

"Save me!"

Wu Tian felt goosebumps all over his body. He turned his head around in confusion and found that the person was looking at him with pleading eyes.

Could it be that the voice he heard in his mind came from her?

Wu Tian smacked his lips and found it hard to believe. How could that be possible? She didn't open her mouth, but Wu Tian could still hear her voice. This voice didn't seem to come from his ears, but directly appeared in his mind.

Could it be that he was too tired ... He was hallucinating as well.

"Please save me from this place ..."

As this voice resounded in her mind, the person in front of her crossed his hands together, tears flowing from her eyes.

Wu Tian was now sure that this person was talking to him, although he didn't know how she did it.

"Who the hell are you?"

Wu Tian opened his mouth, but his voice didn't come out. Instead, he thought of this line in his mind.

He wanted to conduct a test to see if she could communicate with him in this way.

"I'm experiment number 762. One month ago, I escaped from here ..."

As expected, a girl's voice appeared in Wu Tian's mind, confirming his guess.

This person could communicate with Wu Tian through a method similar to telepathic communication.

If it was like this, things would be much easier.

"So she escaped from this place ..." Wu Tian was also very emotional. In that case, this little girl should be about the same as Number One, they were also the victims.

However, this little girl was definitely in a worse condition than Number One. Just looking at the wounds on her body made one unable to hold back their tears.

"Gently crawl over and be careful not to make any noise! I'll think of a way to get you out of here! "

Wu Tian was pretty sure that she wasn't a threat to him, so he started to show his good will.

"No, my leg is stuck here."

She helplessly shook her head. It seemed that it was for this reason that she was motionless.

Wu Tian scratched his head and sighed. Since there was a problem, he had to think of a way to solve it.

He crawled over step by step and approached the girl to check her feet.

It turned out to be exactly what she had said. Her feet were stuck in a crack, and the twisted metal had already pressed down on the area she was stuck in until it was red and swollen.

If this went on, her body would probably die from this.

"Endure it, I'll save you!"

Wu Tian said in his mind. Then, he used his hands to cover her feet and tried to open a gap for her to reach out.

However, in this kind of environment, it was hard to use any strength, and one had to make some noise.

Wu Tian had really used all of his strength. One must know that he had practiced it before, he had already mastered the Alien Fist.

Wu Tian's strength wasn't something that an ordinary person could compare with. Although he couldn't compare with these people, it was still an exaggeration to say that Wu Tian's strength was on par with them.

After a series of torments, the two finally managed to pull her foot out of the crack.

However, Wu Tian was too busy watching her feet that he didn't notice that after the two of them took out their feet, the girl crashed into the ventilation duct wall due to excessive force.

A loud crash was heard...

Hidden Billionaire Chapter 1015 - Escape

C1015 Escape

When he heard the noise. Wu Tian only had one thought in his heart.

This is bad!

They were definitely going to be found out this time. Wu Tian even started to hold his breath, afraid that everyone's eyes would fall on the ventilation duct they were in the next second.

However, his worries didn't seem to have come true. The surroundings were still the same as before, with curses, screams, and all sorts of other sounds interweaving together.

However, no one had noticed what was happening over there.

"That scared me to death ..." Wu Tian quickly supported his chest and heaved a sigh of relief.

"What are you waiting for?"

The girl's voice sounded in Wu Tian's head again, and he realized that they were going to run away.

"Leave now. Follow behind me. Do not make a sound!"

Wu Tian replied worriedly. To be honest, he was afraid that this little girl behind them would not cooperate. If they were to be exposed, both of them would be finished.

"..."

The girl didn't say anything as she felt Wu Tian's thoughts. She carefully crawled behind Wu Tian. Although they didn't move very fast, the progress was pretty good.

Along the way, Wu Tian was very happy. He kept guessing who the girl behind him was and what she was planning to do.

If I save her, then I'll have to take her with me.

However, this place was at the Britain, if Wu Tian wanted to bring her back, would he have to find a way to get her a passport or something. Wu Tian had never done this kind of thing before. It seemed like he needed to talk it over with Loong Yun.

They didn't know if it was the heavens taking care of them, but nothing had happened along the way. It was very peaceful, and there were a few times when Wu Tian was so nervous that he bumped into something and made some noises, but still, no one noticed them.

"President Wu is back!" Azure Dragon, who had been keeping watch near the vent, immediately noticed Wu Tian's movement and quickly called Loong Yun over.

The two of them dragged Wu Tian out from inside.

"Are you alright? No one noticed!"

Azure Dragon patted the dust on Wu Tian's body with concern. However, based on the current situation, his situation shouldn't be a problem.

If there was a problem with that, the crowd would have already started bustling with noise and excitement.

"I'm fine! There's still one more left! "

Wu Tian sat on the ground and quickly took a few breaths. The ventilation duct was dirty and crowded, so he couldn't stay there alone. He really didn't know how little girl managed to stay there.

"There's more?" Loong Yun was stunned for a moment. She started to have doubts as to what the hell was going on with President Wu ...

The two of them quickly looked towards the opening of the ventilation duct and saw a pair of big eyes staring at them.

Just like Wu Tian at the beginning, the two of them were also shocked and jumped a step back.

"Don't you guys scare the little ghost, she is not an enemy ..." At least, not now. "

Wu Tian had an expression that said "I knew it". He waved at the two of them, signaling them to calm down.

Hearing Wu Tian's words, Azure Dragon and Loong Yun quickly went over and pulled the girl out as well.

Only after coming out did everyone clearly see the wounds on the girl's body.

One had to admit that this was truly shocking. Many of the wounds on her skin were caused by whips, and there were even cuts made by knives. Her body was like a piece of flesh, allowing people to freely unleash what they want on her.

"This ..." Loong Yun didn't know what to do. She looked at Wu Tian. This girl didn't have any clothes on her, only some pitiful pieces of cloth covering up her important parts.

Fortunately, there were no other people in this place. If anyone saw her, it would be troublesome.

"Go find something for her to wear! We have to think of a way to get her out of here, so let's end this mission first! "

Wu Tian made his decision very quickly. There must be a lot of room for him to dig on this girl. Whether it was information or something.

Moreover, there was another thing that Wu Tian cared a lot about. She basically didn't use her mouth to talk. She only used her mind to communicate with Wu Tian ... It sounded like a sci-fi movie, Wu Tian couldn't digest this at the moment.

Hearing Wu Tian's arrangement, Loong Yun immediately started to take action.

"You guys, go over there and help!" When everyone's attention was focused on this girl, no one noticed a person from the Brilliant Company walk over.

He saw Wu Tian and the others had been staying here for a long time and came over to urge them to work, but instead, he saw a girl, who was covered in blood and was not wearing any clothes, standing in between them. Behind the girl, the opening of the ventilation duct was still opened.

He instantly opened his eyes and mouth wide, not knowing what to say anymore.

At this time, Wu Tian was very quick and gave Azure Dragon, who was the closest to him, a look.

Azure Dragon understood tacitly, before this person could make a sound, he quickly walked up, covered his mouth with his hand, and hugged his neck from behind. With a little force, he could hear the sound of this person's neck breaking.

Next, he dragged the corpse over.

Since someone had died, they naturally could not stay here any longer. Wu Tian and Azure Dragon worked together to force the guy into the ventilation duct, then covered it with a lid.

Loong Yun found a cart and hid the girl inside it. The three of them calmly pushed the cart out of the Brilliant Company as if nothing had happened.

No one noticed their movements throughout the entire process. It could be said that they were extremely calm and unhurried.

Once outside, they no longer hid anything. They quickly took off their clothes and ran for several blocks with the girl.

"President Wu, what should we do next?"

Loong Yun was panting heavily because of her anxiety. She was beginning to feel out of breath.

"Running like this isn't a big deal. They might find out in an hour or two that we're gone, and their employees are gone."

Time was not enough for them. Wu Tian also realized this. Originally, he wanted to slowly prepare and leave the United States, but now it seemed like it wouldn't work.

Hidden Billionaire Chapter 1016 - Shedding of Cicada

C1016 Shedding of Cicada

He looked at Loong Yun, since that was the case, they had to think of other ways to leave the Britain.

"Take a look and see if there are any ships leaving. We won't make it to the airport in time!"

This area was not too far from the seaside, so it would only take him ten minutes by car to get there.

Loong Yun immediately understood Wu Tian's meaning. She quickly started to contact Security Team, telling them to quickly investigate this information.

The girl was already dressed. However, the few of them still appeared to be in a sorry state. Looking at them like this would make people feel that they were some kind of criminals or something.

"We need to change our clothes quickly, or else the cops will come over and interrogate us after we've walked a few streets." Azure Dragon was a very experienced veteran in this area.

"Azure Dragon is right, if we run like this, we probably won't last half an hour." As Wu Tie was speaking, he seemed to hear a burst of shouting coming from the direction of Brilliant Company. If he wasn't mistaken, the other party should have already discovered that something was amiss with Wu Tian and the others.

Seeing quite a number of men in black searching for them, Wu Tian couldn't care less at this time. He looked at a clothing store on the street and rushed in with a few people.

"Hello, sir." Just as the employee walked up to ask, Wu Tian took the initiative to greet him.

"Give us a set of clothes, and I'll pay three times the price!"

Originally, the manager wanted to kick them out when he saw that the three people in the lead were foreigners and were dirty.

However, after hearing Wu Tian's words, he immediately realized that he had come across a big deal this time.

"Alright sir, no problem, please come this way!"

The manager asked the employee to lead them to the VIP lounge at the back. Then, he personally picked out a few clothes and brought them in.

When he walked into the VIP lounge, he did not forget to tell the employee, "You guys pretend you didn't see this, you know what to do!"

The manager was over 40 years old and had been working in this industry for many years. He had seen all kinds of people. Seeing Wu Tian and the others like this, he knew that they must have gotten into some sort of trouble.

However, he did not care about that. The only thing the manager cared about was earning money, which was three times the price, and he was not picky about anything. They bought so many clothes, which was a huge deal and was much more valuable than justice.

Within a short period of time, the men in black had started searching from house to house. Naturally, they would not let this clothing store go.

"Did you see three people?"

The man in black described it immediately. But in fact, he didn't know what Wu Tian and the others looked like either. To these Britain people, most of them were similar in terms of looks.

With the instructions from the manager in front of them, the employees all knew how to answer and shook their heads.

The black-clothed man looked around and felt that he could not see the figures of these three people. Thus, he gave up on searching this place.

If he knew that Wu Tian and the others were sitting in the locker room near him, his mood would probably explode.

"Sir, are you satisfied with these clothes? Do you need to choose a few more? "

The manager helped Wu Tian and the others dress up again, and even ingeniously put on some makeup. This way, they wouldn't be recognized even if they brazenly walked out.

"Not bad, I'm very satisfied, especially with your service attitude. I'll give you 100 points!"

Wu Tian didn't expect the manager to be so cooperative. It was far beyond his expectations. It seemed that what they called a businessman's thinking wasn't all a bad thing.

At the very least, he could be used by Wu Tian in this situation.

"That's good! "However, this price ..." The manager rubbed his hands and revealed an ambiguous smile. Of course, Wu Tian understood what he meant very well.

"This bank card is for you. There should be 200 thousand in it. I think it should be enough to buy these clothes. If it's not enough, I can give you more."

Without saying anything, Wu Tian directly handed over a bank card. He realized that it was really useful to have so many bank cards with him.

"Enough, enough, it's definitely enough!" In fact, even if the price of these clothes was three times the original price, it would only amount to tens of thousands of yuan.

Wu Tian didn't even haggle with the price and directly sent out two hundred thousand, which surprised the manager quite a bit and made him feel flattered.

"If there is anything else you need my help with, feel free to mention it!" The manager patted his chest. He was already treating Wu Tian as the god of wealth.

Wu Tian thought for a while. There were a lot of men in black searching outside. It would be difficult for them to escape in this state. If this person wanted to show off, then he should give him the chance.

"Don't even mention it, there really is one! Is there any way you can get us to the port? "

The manager looked outside the window vigilantly and ran to Wu Tian's ear. He lowered his voice and said, "Sir, I really have a plan, but I might have to make it difficult for you guys."

Wu Tiandong was overjoyed. He was really lucky to run into such a reliable clothing store manager this time.

"Enough, no need to say anything. As long as you can bring us safely to the port, I will give you another hundred thousand!" As the saying goes, there will always be brave men after being highly rewarded. Hearing Wu Tian's words, the manager immediately went to prepare.

Soon, he called Wu Tian and the others to the back of the store. They walked out through the back door of the clothing store. It was a transport car for the clothing store.

Although it looked a little old, the space inside was quite large. The manager went over and opened the back door of the car.

"Mister and Madam, I'm afraid you will have to suffer a little here. We often go to the port to pick up the goods, and we have already familiarized ourselves with the people coming and going. They probably won't investigate us."

The reason the manager was so confident was because he was prepared. Wu Tian didn't doubt this at all and directly jumped on without moving.

Although Loong Yun and Azure Dragon were still a little worried, they had no choice but to follow after Wu Tian when they saw that he had already set such an example. The little girl was much more straightforward than the two of them. It could be said that she would do whatever Wu Tian did.

As the car pulled away, they began to race toward the harbor.
