

# **Hidden Billionaire Chapter 1036 - Borrowing Permissions**

## **C1036 Borrowing Permissions**

The moment this news came out, Wu Tian immediately acted as if he was facing a great enemy.

He immediately became nervous.

Wu Tian didn't expect the opponent to have such an ingenious method.

Wu Tian, on the other hand, became the assistant of Lee Zhan. If it weren't for the foreign films and TV productions that Wu Tian brought in, the domestic entertainment company wouldn't have been suddenly suppressed to such an extent.

The key point was that Lee Zhan was indeed an experienced person. He was very decisive when making a move, and he was even willing to buy a company with slightly more prospects without hesitation.

As for those who were slightly weaker, they were said to have already begun negotiations for the acquisition.

His speed and efficiency were still as though he had long since prepared for this.

Wu Tian felt that there must be some tricks involved in this, wasn't it too obvious for the opponent to do this?

"The more I look at them, the more I feel that these people have other motives."

Wu Tian was deeply moved. Since it was like this, they had to make a plan in advance to deal with it.

"President Wu, you mean, we were used by this Lee Zhan?" Loong Yun's reaction was as quick as ever.

Wu Zaibin stared at Wu Tian and Loong Yun with his eyes wide open. He asked in disbelief, "No, if we do that, won't they pay too much of a price? And it doesn't seem like they need to injure our Huang Elder Sister Lan ..."

However, although this hypothesis seemed to have some meaning, it was still unclear when it came to Huang Lan.

"Right, has the information been investigated yet? Who was it that wanted to hurt Huang Lan!? "

Wu Tian immediately shifted his gaze to Loong Yun. She was in charge of gathering information in this area.

"We investigated the vicinity, but the surrounding surveillance cameras did not leave any traces of the incident, so we were unable to find any clues. Now we can only expand the search area!"

Loong Yun felt helpless about this. Honestly speaking, although they had investigated, their efficiency was not very high.

"We can't go on like this. Let's inform Sunn Hongsheng, let the police enter the scene, and tell them all the information we have!" Wu Tian knew that he couldn't rely on himself now, so he pulled the police in as well.

Although the case of the disappearance of the body was still an unsolved case, it was precisely because of this that the distance between Wu Group Corporation and the police was getting closer and closer.

Plus, Wu Tian had even donated the building to the police station. Of course, his matters would be treated as important matters now.

Soon, the police hurried over. Sunn Hongsheng frowned and didn't say anything after he knew about this.

In this period of time, he did not even sleep well. Every day, he busied himself in various places.

The authorities had asked them to solve the body loss case as quickly as possible, but they had yet to find any useful clues.

In fact, it was only right that they couldn't find the culprit. No matter how hard the police tried, they would never be able to find the genetic modification worker that was behind this.

"We'll do our best to investigate this matter. However, we have limited manpower right now ..."

It wasn't that Sunn Hongsheng didn't want to solve the case, but he was starting to run out of energy.

Seeing how troubled he was, Wu Tian opened his mouth. He wanted to say something, but he felt that he was not qualified to say it.

"Officer Sun, I have a suggestion. What do you think?" Seeing the two of them like this, Loong Yun knew she had to think of a way to solve this problem.

She stood up on her own accord.

"How so?"

"We have enough Security Team, but we don't have the authority to investigate. How about this, you send one or two officers with us to investigate. This way, we can solve the problem of lack of manpower, and we don't have the authority to do so as we please. "

This was indeed a good idea. Sunn Hongsheng did not have to spare any energy to deal with this problem. At the same time, Wu Tian and the others could get what they wanted.

Honestly speaking, Sunn Hongsheng was not an idiot. He knew what Wu Tian and the others wanted.

"Alright, I can agree to that, but you must not cause any trouble for me, because doing so is actually in violation of the rules. I don't want to be punished because of this!"

Sunn Hongsheng simply turned a blind eye. As long as he didn't make a big deal out of it, Wu Tian could do whatever he wanted.

He just wanted the same authority as the police. If he wanted it, he would have to give it to him.

"Oh right, I helped you. See if it's in that case. Give me some clues."

Sunn Hongsheng turned around and began to negotiate.

"We don't have any good clues for now, but I don't think it'll be easy to find the corpses."

Wu Tian didn't want to hide anything, but this body had already been thrown into the sea.

When Zhang Zerui told them to snatch the corpses, they immediately dealt with it.

Without the biggest evidence, Zhang Zerui's murder naturally could not be proven.

"It seems like you still need to hide something from me. However, since you're unwilling to tell me, I won't force you." Sunn Hongsheng sighed. Seeing that he had nothing to do, he left soon after.

Wu Tian immediately started arranging the investigation.

"If the monitoring system for the nearby streets doesn't work, then investigate the shops on the streets and the driving recorder of the parked cars nearby!" In short, as long as it's possible, find them all for me! "

This time, Wu Tian was determined to find out everything about Huang Lan.

Of course, just investigating wasn't enough. The truth was important, but at the same time, revenge was also important.

"Wu Zaibin, let me give you a mission. Hurry up and go to the trading market and give me a large amount of shares in Yingdi Entertainment Companies. Remember, don't let them find out that we did it."

Wu Zaibin was stunned, wasn't this helping Yingdi Entertainment.

"President Wu, Lee Zhan is really buying the company now. We are buying their shares at a high point right now."

This was equivalent to supplying the opponent with bullets.

"Just do as I say!" Wu Tian didn't explain too much, he had to use extreme methods in times of emergency.

His opponent definitely wouldn't have thought that he would do such a thing. Only then would he be able to avoid his opponent's scheme.

"Loong Yun, prepare a car for me. I want to go to the Chamber of Commerce."

Speaking of which, Wu Tian hadn't been to this Chamber of Commerce for a long time.

## **Hidden Billionaire Chapter 1037 - Powerless**

### **C1037 Powerless**

Speaking of which, Wu Tian hadn't been to this Chamber of Commerce for a long time.

Ever since he defeated Chief Executive Commerce Chamber Chairman, Chang Zairong, the position of Commerce Chamber Chairman had fallen into the hands of Guan Ruonan.

There was no need to talk about the relationship between Wu Tian and Guan Ruonan. If not for Wu Tian's help, Guan Ruonan would still be the president of the China Chamber of Commerce.

As of now, Guan Ruonan was rarely seen in public.

She probably did not expect that Wu Tian would suddenly come to visit.

After she received the news, she rushed down from upstairs and prepared to welcome Wu Tian in the hall.

"President Wu, why are you here today? I don't usually see your figure, so I thought you might have forgotten about us."

The mature aura on Guan Ruonan's body was really attractive.

"Where did you say that? How could I forget about Sister Guan? This time, I really came to find you for some matters."

Wu Tian looked outside at the hall, but it wasn't a good place to talk, so he gestured for her to bring him to the conference room for a chat.

Guan Ruonan brought Wu Tian and Loong Yun directly to her office and served them a fresh cup of tea.

Wu Tian's ability to make tea was undeniably the best. He had never tasted green tea that served better business than Guan Ruonan.

"Now, what's so difficult about President Wu? If you need any help, feel free to mention it."

Guan Ruonan could not believe that President Wu, who could call upon the wind and summon the rain, would encounter a situation where she alone could not solve the problem.

"I wonder if you have heard anything about Yingdi Entertainment recently?"

Wu Tian said faintly. The reason he came to the Main Chamber of Commerce this time was to borrow their power.

Guan Ruonan looked at the ceiling and thought for a moment. Then, she turned around and went back to rummage through the newspaper.

"Now that you mention it, I really do remember that quite a few recent purchase cases are being done by Yingdi Entertainment. What, could this have something to do with you? "

"What company did he buy? It means nothing to me, but I do have a feud with this Yingdi Entertainment."

Wu Tian did not hesitate to say whatever he wanted to say.

Guan Ruonan immediately frowned, but she didn't expect it to be like this.

"Then what do you want to do, President Wu?"

"It's simple. I hope you can bring a lawsuit against him!"

If Wu Tian personally did this, it would obviously lead to conflict and even anger the entire public, so Wu Tian wanted his Wu Group company to leave.

"You mean to start an antitrust investigation?"

Guan Ruonan wasn't an idiot. With the things that happened before and after, she could roughly guess what Wu Tian was thinking.

"Smart! Now that he has a monopoly position in this industry and now he is buying up other companies in the same industry, if this isn't a monopoly then what is it? "

Wu Tian smiled faintly. This was only a trouble he gave this Yingdi Entertainment, there were other tricks behind it.

Guan Ruonan nodded. If it was really as Wu Tian said, then she could indeed start the plan. There wouldn't be any problems with it.

"Alright, I'll bring this up with the Chamber of Commerce right away. I estimate that I'll encounter a lot of resistance!"

But it wasn't just her, the president, who said anything. She was just like a person who suggested opinions. The real implementation would require the approval of the several people in charge of the Chamber of Commerce.

"This will depend on you. If you can do this, it will be very helpful to me. At that time, I will definitely give you a generous gift. "

Wu Tian was full of anticipation. Of course, this was just the beginning, but it was also a very important charge.

"I will do my best, but come to think of it, this Yingdi Entertainment company is not listed in our main chamber of commerce. If they ignore us, to be honest, I don't have any other way."

Guan Ruonan laughed bitterly. Ever since Chang Zairong fell, the position of the China Chamber of Commerce plummeted.

Quite a few member companies had left, and only a few hundred of them were still members.

Compared to the grand occasion of over a thousand families, it was nothing.

Wu Tian had never really cared about this before. Now that he heard Guan Ruonan mention it, he realized it was actually a little troublesome.

"Didn't you recruit some new members?"

Guan Ruonan shook her head. How could it be that easy?

"Of course I've tried, but very few companies are willing to join in. It can also be said that most of the members who joined the main chamber of commerce back then were out for Chang Zairong's sake. "

Speaking up to here, Guan Ruonan had a helpless expression, because it was obvious that there was an obvious gap between her and Chang Zairong.

Everyone didn't want to make their flaws appear like this, but Guan Ruonan had no other choice.

"About this, let me help you think of a way. You don't need to be too anxious, things will eventually be resolved."

Wu Tian scratched his head. Asking Guan Ruonan to do something like this was not a good idea. If she had no real power, wouldn't it be a waste of his help to her?

Although Wu Tian was still very willing to help Guan Ruonan from a human point of view, he still had to consider the benefits of reality.

"Don't worry, I'm already used to it. However, if I'm not successful in this matter, President Wu, don't be angry. It's just that I'm not good enough."

Guan Ruonan forced a smile on her face, but she had to agree to this matter first. As for how things would develop in the future, it all depended on the outcome.

After leaving the chamber of commerce, Wu Tian was not elated because he found that the game that he had been expecting did not go smoothly.

"President Wu, I feel that just from the Main Chamber of Commerce alone, we might not be able to get past this road. Shouldn't we make some preparations?"

Loong Yun could feel Wu Tian's worry. If she couldn't complete this task well, the money they invested in the stock market would be like lifting a stone to smash one's own foot.

"Yes, you're right, but what else can we do?"

Wu Tian nodded his head in frustration. He agreed with Loong Yun's words, but he didn't have any better ideas on what to do next.

"Let me recommend you a course of action. Remember that prosecutor who came to our company before? It may be time to get in touch with them. "

## **Hidden Billionaire Chapter 1038 - Stronger**

### **C1038 Stronger**

Prosecutor?

Hearing these three words, Wu Tian quickly searched his mind for memories about these three words.

He quickly recalled that Wu Group company had received a report that a government inspection department had sent a prosecutor to conduct an investigation.

On the other hand, the female prosecutor that Loong Yun mentioned seemed to be called Li Muxian.

She looked pretty good. She was kind and had a decent attitude. If he asked her for help on this matter, it might actually work.

"You are a genius! I really don't need to worry about anything with you by my side! " Wu Tian immediately felt that there was hope for success in this matter. He was so happy that he asked Loong Yun to bring him to find her immediately.

"I just don't know if we have any suitable reason ..."

Loong Yun wasn't too excited about this. She just wanted to make a suggestion, but it was hard to say if they were really willing to accept the case.

"Is there any other reason? Antimonopoly! Their procuratorial department should take the initiative to investigate these antitrust cases! If it really doesn't work, then our company will send him an investigation request! "

Wu Tian said indifferently. He had been dealing with government departments for a long time and was familiar with them.

They must have a duty to do in this area. However, this duty didn't mean that the other party was aware of it, or that they were willing to take the initiative to investigate this matter.

But if a case is reported, the prosecutor's office is required to verify the contents of the case, and if that's the case, then an antitrust investigation will have to be initiated.

And this time, the reason Yingdi Entertainment could be purchased on such a large scale was clearly one of the most important characteristics of this time, that no one dared to report Lee Zhan.

Not to mention that Lee Zhan now had another open reason, which was to consolidate the influence of the entertainment circle and fight against the foreign capital group led by Wu Tian.

This was probably the main reason why he was able to buy large scale small businesses. Under such a banner, any company that was close to the entertainment circle would not dare to say a word of disapproval.

At this moment, Wu Tian was the biggest enemy of the entertainment circle. Everyone had a common enemy and always wanted to push down Wu Tian as their target.

The two didn't talk much on the way, and soon they arrived at the prosecutor's office.

At this point in time, the prosecution department was still as busy as ever.

Many people came out and went in. Wu Tian and the others didn't know where Li Muxian was, so they asked along the way.

Finally, he found a small office in the depths of this type of office building.

"It seems like she's specifically targeting people like us."

Wu Tian looked at the number outside the office, smiled, and knocked on the door.

"I'll open the door now!"

A crisp voice came from inside. Very quickly, Li Muxian opened the door.

She looked at the two people in front of her with astonishment. The faces of these two people were just too familiar to her.

"Wu Tian, why did you come?"

Li Muxian's mouth was agape. Ever since their mission that day ended, the two of them had never seen each other again.

To be honest, Li Muxian didn't talk to Wu Tian too many times when she was at Wu Group company.

"Division Chief Lee, how have you been? I really have something to say to you today."

Wu Tian also went straight to the point. He knew Li Muxian's character, she liked to speak straightforwardly.

"Then come in first." Li Muxian didn't have any tea, so of course she poured some mineral water for the two. She sat on the side and took out a small notebook, as if she was prepared to record everything down.

"It's like this ... Our company wants to file an antitrust investigation! "

Li Muxian wasn't surprised by Wu Tian's words. While she was writing it down in her notebook, she lowered her head and asked, "Then, who do you want to report as the monopoly?"

"Yingdi Entertainment."

These four words slowly came out from Wu Tian's mouth.

Li Muxian suddenly raised her head and looked at Wu Tian in disbelief.

"Yingdi Entertainment? You want to apply for an investigation into their antitrust? "

"That's right!"

Li Muxian's expression was a little strange as she closed her book.

"It's like this. I'm afraid you don't know, this Yingdi Entertainment is currently cooperating with our government and is working on the integration of the entertainment industry ..."

Wu Tian was stunned as he did not know about this. He immediately looked at Loong Yun and found that she was also shocked.

From the looks of it, they must have hidden this matter very well and intentionally hidden it from them.

"Wait! What was going on? How come I haven't heard anything at all? "

Li Muxian sighed, and continued, "You don't know, it's only right, I only got the news from some special sources. Within the S City, there should not be many people who would know about it. "

"I advise you to forget about it. This application will definitely not be accepted."

Li Mu Xian did not know what to say, but judging from her current situation, the culture department would definitely not let go of an opportunity like Yingdi Entertainment.

"Dammit, this Lee Zhan ..."

Wu Tian suddenly felt a bit upset. He didn't expect Li Wei to have thought of all sorts of preparations.

By tying himself to the government, it would be useless even if he wanted to investigate his antitrust activities.

"Right now, I'm afraid that S City is an entertainment project, and the person leading the investment is Yingdi Entertainment. There is also a company, let me see what it is called."

No wonder, so this matter was related to real estate. As long as it was related to real estate, then the amount of capital inside was definitely not a small amount.

Wu Tian suddenly seemed to understand something. If his opponent took the initiative to look for trouble with him, then it was not for no reason.

Thinking of this, could it be that he had already become the opponent's target?

"The other company is called Pulitzer Corporation. It seems to be a foreign company."

Li Muxian didn't know about the feud between Wu Tian and the two companies, so she was curious about the huge change in Wu Tian's expression.

"So that's how it is!" Wu Tian's expression started to turn dark. He said why did he seem to be one step slower in everything he did during this period.

So it was the Pritt consortium's Zhang Zerui who was messing around here. Zhang Zerui had fought with him so many times, he must have known what he was up to.

As of now, the reason why Lee Zhan did not reveal any flaws was probably because of Zhang Zerui's reminder.

After hearing this news, Wu Tian felt that there was nothing left to say.

## **Hidden Billionaire Chapter 1039 - Free**

### **C1039 Free**

After hearing this news, Wu Tian felt that there was nothing left to say.

"Division Chief Lee, I've disturbed you this time. If there's anything else, I'll come again to see you."

After saying that, Wu Tian didn't stay there any longer and turned around to leave with Loong Yun.

At this time, Li Muxian seemed to have thought of something and quickly stopped Wu Tian.

"Wait a moment!"

She turned around and went back, not knowing what she was going to get. She quickly took out a document.

"This item is my gift to you. It's not illegal as it hasn't become an official project document yet. However, I guess you will be able to see something from it."

Wu Tian casually received the item. When he held it in his hand, he realized that it was actually a business plan for the project that was just mentioned.

"Where did you get it? Will it really not affect you?"

Li Muxian smiled faintly, "You don't have to worry about that, I have my ways."

She wasn't joking, it was this project document that was completely different from the procuratorial department that Li Muxian worked in.

Furthermore, it was just as Li Muxian had said, this document was not the final version, so it was not confidential.

"Thank you so much!"

Wu Tian quickly thanked her. Since there were so many people around, he wasn't suitable to stay here and watch as well. Thus, he and Loong Yun returned to the Flower Island quickly.

The two of them carefully studied the document.

It turned out that Lee Zhan had been planning this entertainment industry project since two months ago.

He saw a plot of land near the Flower Island and secretly bought all of it.

However, if he wanted to develop this piece of land, he would need an extremely large amount of funds.

So he pulled Zhang Zerui of the Pritt consortium. The two of them thought that this project would definitely make money, but with just the two of them, there was still a huge gap in funding.

In this case, the project book was published.

"They actually want to start a 5 billion - dollar project..."

Wu Tian sighed. It was clear how ambitious his opponent was.

He himself had been so engrossed in the development of high technology that he had completely overlooked his opponent's small actions under his nose.

"President Wu, they actually said that. Why must they fight against us?"

Loong Yun couldn't understand this question. Honestly speaking, this project did not have any major conflicts with Wu Group Corporation.

Although the two sides were stuck together, it didn't affect him much.

"Look at that project book, he has already cooperated with the Civil Affairs Bureau and even received a financial allocation. I'm afraid I think they wanted these things for nothing."

Now, Zhang Zerui definitely owed a lot of money, so he had to find a place to fill up this gap.

As for the fat sheep that they had set their eyes on, other than Wu Group Corporation, which had a huge amount of companies, the only other company that could attract their attention was the government.

"President Wu, could it be ..."

Loong Yun's eyes were filled with shock and astonishment. Even if he had let her guess, she wouldn't dare to think like this.

This Zhang Zerui actually planned to take the government's money ... Wasn't this way too audacious?

"I'm afraid that's the case. What's strange is that I can see through it. Could it be that the people from the Civic Affairs Bureau can't see through it?"

Wu Tian felt very strange, but should he remind them about this?

The key point was that if this matter allowed them to succeed, the opponent might find a scapegoat to fill the hole.

Right now, the perfect scapegoat was Wu Tian.

They just had to take away all the government funds and use an excuse to blame all of it on Wu Tian's Wu Group company. They said it was because of its great competitiveness, causing this project to completely fail.

At that time, even the government would not be able to say anything. After all, investing in a business was a loss and a gain.

But if that was the case, then the hundreds of billions of dollars would fall into the hands of Zhang Zerui and Lee Zhan. Wu Tian might even be looked down upon by others, even if he had nothing to do with this matter.

"Then why are we throwing money into the stock market? Isn't it just a waste of money, it's exactly what the enemy wants."

Loong Yun started to worry about this problem. Previously, Wu Tian had spent almost 1 billion.

And now, Wu Tian was also worried about this matter.

"That's right ..."

Wu Tian's original plan was for Yingdi Entertainment to buy these small businesses as soon as possible, so that they could integrate the entire industry faster. This way, Yingdi Entertainment's share price would continue to rise.

At the top, Wu Tian tried to figure out a way to sell the stock and then put in an antitrust proposal, a perfect combination.

However, from what he had heard from Li Muxian, this set of fist techniques was useless.

There was no point in hitting the opponent.

"It's too late to take the money back. Since that's the case, we might as well take a gamble!"

At this moment, Wu Tian looked out of the window. The past few days had been dark and gloomy, and from time to time, it would be windy and rainy.

But at this moment, in the distance, within the dense dark clouds, there was a spot of light. It seemed to be the only gap in the dark clouds.

"Loong Yun, go and find a few department heads. We're going to have some big ruckus this time."

At this moment, Wu Tian felt a surge of excitement in his body. He hadn't felt such a feeling for a long time.

As the Wu Group company became more and more powerful, Wu Tian clearly felt that there was no one around him that was able to fight against him anymore.

This kind of feeling made him very bored. And now, it finally made him feel a little threatened. How could this not make Wu Tian feel excited?

Loong Yun nodded and immediately walked out.

The gathering of staff was very quick, most of these people were currently working inside the Flower Island.

Wu Tian looked down at the group of people sitting below him. They were all elite soldiers, and he immediately regained a lot of confidence as he was a bit worried.

"Everyone, you should be aware of the latest news. The Yingdi Entertainment is currently fighting against our company."

Wu Tian revealed a smile towards the audience.

"Originally, this matter didn't have much to do with your departments, but now I have an idea. We need to gather the power of the entire company to support Hualong Movie."

## **Hidden Billionaire Chapter 1040 - Planning**

### **C1040 Planning**

Now that things had gotten to this point, Wu Tian was starting to realize that no matter what he did, he might not be able to stop his opponent's progress.

This time, Lee Zhan and the others not only came prepared, but they had also planned for a long time.

Wu Tian actually wanted to do something, but there was a limit to what he could do. After all, he was not the opponent's real target.

Listening to Wu Tian's speech, the people in charge of the departments below the stage were also very excited. However, since everyone was present, the matter started to become a bit more complicated.

The first to feel strange was Zhao Yaqian from the game department.

"President Wu, may I ask what our department in charge of gaming can do?"

In fact, she wasn't the only one who had this question. Other departments such as the Space Shuttle Department, as well as the Kaleidoscope's research department, the matter with Hualong Movie didn't seem to have much to do with them.

Wu Tian had a smile on his face, he didn't have much of a reaction to their questions.

"Such a simple question, do you all not understand?"

Wu Tian knocked on the table, but his tone was still rather friendly.

"It's very simple. We'll make some connections inside the game to watch our movies, give us some equipment or decorate or something like that. This sort of game has already been played like a flower for dozens of years, how could you not know?"

Zhao Yaqian knew all of this, but she also had her own difficulties.

"What the game follows is the player self-management. We are already trying to prevent the game from affecting the player's specific behavior too much. If such an event were to happen, wouldn't that affect our planning? "

This little girl would never back down in front of her own principles.

Wu Tian didn't expect that his suggestion would be refuted like this the moment it was put forward. He started to feel annoyed.

If it was in the past, I really wouldn't care. This doesn't count as being a matter of the life and death of our Wu Group company, but it is true that the survival of our Hualong Movie is at a critical moment. You can't think about it, this time it has nothing to do with you, so I won't care about anything.

His words were like needles, and they hurt to hear them.

However, he still had to continue listening. At this point in time, if there was any disunity within the group, then it would all be useless.

"Alright, I understand. We will do our best to cooperate." Zhao Yaqian had nothing else to say. When the game had just begun, the Hualong Movie had also given them a great deal of publicity.

There had to be a way to return the favor, right?

Seeing that Wu Tian might really be a bit angry this time, the remaining people didn't dare to say anything anymore. They all expressed their agreement, but some of them were still evasive. This point was very clear in Wu Tian's eyes.

When the meeting was dissolved, Wu Tian specifically stopped Loong Yun and Yu Naixin.

"You two, keep an eye on them. If anyone is incompetent or disobeys me, report it to me. I want them to resign!"

There was no longer any anger on Wu Tian's face, but anyone could tell that he was really angry this time.

"Don't worry, President Wu. I guarantee that there won't be any problems!" Yu Naixin was the CEO of the company. If anything happened to her, she would bear the brunt of the responsibility. Therefore, she was the most active at this time.

"You and I are more at ease. Loong Yun, keep an eye on them."

After Wu Tian told them about this matter, he led his men to quickly monitor the changes in the stock market outside.

Due to the massive purchase of Yingdi Entertainment, the capital of the outside world seemed to be optimistic about his company's development. They started to buy his stocks one by one, and all of a sudden, the stock price Wu Tian bought previously rose by 50%.

If Wu Tian was Lee Zhan, he would probably wake up laughing even in his dreams.

Just like this, it's not enough. Wu Tian started to constantly add more chips to his inventory. In the past few days, Wu Tian had invested almost 50 billion yuan into the company.

After the Yingdi Entertainment and Wu Group had been facing each other, the price of the Yingdi Entertainment had already risen by nearly ten days in a row.

It even became a myth in the stock market.

Many people also started to follow the flow and buy shares in Yingdi Entertainment.

The movements outside, at this time, were more or less done. All the entertainment companies that Yingdi Entertainment could purchase were basically all in his pocket.

Over a thousand celebrities of all sizes in the country were basically under Lee Zhan's jurisdiction.

Although he was the previous emperor of the entertainment circle, but now, Lee Zhan had ascended to a higher level and almost became the God of entertainment circle.

Wu Zaibin had been busy with the stock market, and now he felt that the price was getting closer to the ceiling.

He rushed over to find Wu Tian. They couldn't continue to buy like this.

At this time, Wu Tian was playing games leisurely in his office.

Beside him was Huang Lan, who had just left the hospital.

Huang Lan had been in a bad mood recently, so Wu Tian had thought of many ways to make her happy.

"President Wu ..." Wu Zaibin didn't want to disturb the two of them at first, but since it was an urgent matter, Wu Zaibin couldn't care less about it now.

"What is it?"

Wu Tian turned his head and spoke to Wu Zaibin. His eyes even squeezed towards him.

Wu Zaibin didn't know what Wu Tian meant by that, so he pondered for a long time.

"It's like this. There's something I need you to take care of in the company. It's urgent!"

Wu Zaibin immediately understood what had happened when he saw Huang Lan tightly grabbing onto Wu Tian's arm and refusing to let go. It was probably because she didn't want Wu Tian to leave her side.

"Is that so? Why didn't you say so earlier? Can't you wait any longer?!" At this time, Wu Tian also stood up along with Wu Zaibin's words.

However, before he could stand up straight, he was pulled back down by Huang Lan.

"No, I won't let you leave me!"

At this moment, Huang Lan no longer had the domineering aura she had when she was a celebrity. Instead, she looked like a little girl.

The accident had left a lot of shadow on her, so she didn't want Wu Tian to leave her side at all.
