

Hidden Billionaire Chapter 1071 - A Crumpled Letter

C1071 A Crumpled Letter

When Hee Wenjia left Director General Wang's office, the two of them had already signed the contract.

Although the amount did not meet Zhang Zerui's expectations, it was still as high as 150 billion yuan.

In other words, the Bureau of Culture would promise to invest 15 billion yuan into their project for the film and television industry, and the operation and construction of this project would be left to Yingdi Entertainment Corporation.

Anyone could tell that Director General Wang was ambitious, but there were still people who gave their opinions on this matter.

After all, the success of Wu Tian and the others had proven that it was unavoidable to network.

And investing in the construction of such a large-scale film and television industrial park, it gave the feeling that they were going against the trend.

However, the director of the Cultural Bureau of Director General Wang city, under his forceful push, this matter was still approved.

The news didn't spread on a particularly large scale in the newspapers, and the only piece of information was just a tiny piece of news.

However, such a small piece of news was still known by Wu Tian.

Wu Tian looked at the palm-sized piece of news in the newspaper and frowned slightly.

"Looks like they still have to continue with their project ..."

Wu Tian originally thought that this matter was going to end in failure, but who would have thought that the other side did something to bring him back to life.

Furthermore, the Cultural Bureau had promised to invest 150 billion yuan into the hands of Zhang Zerui, Lee Zhan and the others.

"It seems like this Cultural Bureau is not so clear-headed. Don't they even understand such a simple matter?"

Loong Yun didn't try to hide her contempt for the director of the Cultural Affairs Bureau. Fortunately, it was said in their company that there wasn't much to say if it was heard by others.

Wu Tian waved his hand and thought for a moment. Then, he said four words: "It's chaotic when you care."

It could be said that these four words perfectly matched Director General Wang's state of mind.

He had placed too much importance on this matter, so he was no longer able to think and view it seriously. Making such a decision was naturally within reason, and it was not hard to understand.

"President Wu, then this matter doesn't have much to do with us anymore. Anyway, we have already withdrawn ourselves from the stock market."

Loong Yun wasn't worried at all. No matter how much money they had scammed, it wouldn't have much to do with them.

"That is true, but where did the money from the Bureau of Culture come from? Isn't it the tax we have to pay! "

It wasn't that Wu Tian felt sorry for the money, he just didn't want Zhang Zerui and the others to take the money to strengthen themselves.

Moreover, if such a huge amount of waste was spread out, then he, as the director of S City, would definitely be removed from his job.

Just think of it as a kind reminder. Wu Tian thought about it and decided to write a letter to Director General Wang.

There are fewer and fewer people who write letters these days, and even this act is more symbolic than practical.

"Loong Yun, take this letter to the Cultural Bureau and give it to the director."

Wu Tian wrote some of his opinions into this letter. As for whether the bureau chief would read the letter or not, or whether he would accept Wu Tian's opinion, it was not something Wu Tian could control.

"I think you're overdoing it." Loong Yun took over the phone line, but she still said that Wu Tian was wasting his time doing what he did.

Wu Tian shrugged his shoulders, "Let me try my best. Whether I succeed or not, it all depends on the luck of the heavens."

The letter that carried Wu Tian's advice quickly appeared in Director General Wang's office.

The secretary looked at the signature on the letter and fell into deep thought. He started to wonder whether he should hand the letter to Director General Wang or not.

Because Director General Wang was completely focused on the project of the film and television industries, he didn't seem to have any big thoughts about other things.

Moreover, the signature on this letter came from the boss of Wu Group company, Wu Tian.

This was the sworn enemy of Yingdi Entertainment, if he were to give this letter to Director General Wang, it would be equivalent to making Director General Wang lose face.

The more he thought about it, the more conflicted he felt.

At that moment, Director General Wang pushed open the door and walked in. He glanced at the secretary and noticed that his face was as wrinkled as a bitter gourd.

"What's the matter with you? Eating Huang Lian? "

Director General Wang was in a good mood recently. On one hand, his wish had finally been fulfilled. On the other hand, the city seemed to take this as an evaluation. If the project was done well, Director General Wang might be promoted.

"The director has a letter for you."

After thinking about it for a while, the secretary decided to hand the letter over. As for Director General Wang, it had nothing to do with him whether he saw it or not.

"A letter?"

Director General Wang received the letter and directly opened it without looking at the signature.

There were very few people who wrote letters these days, and Director General Wang was also very curious about it.

When he opened it, he found that it was written by Wu Tian. There was a huge article written everywhere to the effect that Zhang Zerui and Lee Zhan were working together to deceive the Cultural Bureau.

This was indeed the truth, and what Wu Tian said was the truth.

It was a pity that Director General Wang crumpled the letter into a ball and threw it into the wastebasket with a smile after reading it.

"It's a trick, don't bother with it."

Director General Wang smiled. He didn't take this to heart and went back to his job.

The secretary looked at his back, then looked at the crumpled up letter and picked it up when Director General Wang wasn't paying attention.

He sneaked a look at the contents and his face turned pale.

If this was true, then their Cultural Affairs Bureau would be in for a terrible time. This was not a small number. A hundred and fifty billion yuan, the vast majority of it was contributed by the S City Finance Department.

If they lost all of this money, the Finance Department would first make things difficult for them, and the S City government would probably send people to pursue them.

Thinking of this scene, goosebumps appeared all over the secretary's body. He did not want his job to be ruined.

Besides, Director General Wang was stubborn and would not listen to anyone. If things continued like this, it would only be a matter of time before something went wrong.

After some thought, the secretary fixed his gaze on Wu Tian's signature. He was determined to see this man.

Since Director General Wang didn't have much interest in what Wu Tian said, Wu Tian didn't have the mood to remind him of this.

In any case, he had already done everything he could. When there was a problem, it would be Director General Wang's doing.

Hidden Billionaire Chapter 1072 - The Sudden Appearance of the Military

C1072 The Sudden Appearance of the Military

Since Director General Wang didn't have much interest in what Wu Tian said, Wu Tian didn't have the mood to remind him of this.

In any case, he had already done all that he could, so if there were any problems, it would be his business.

The Flower Island began to return to its former tranquility. Seeing nothing happen, Wu Tian felt that it was rather beautiful in his heart.

In the end, not even two days later, Tieh Jun and a few hundred soldiers suddenly descended onto the Flower Island in helicopters. Furthermore, they immediately prepared to control the Flower Island the moment they came out.

Su Cancan immediately sounded the alarm for the entire Flower Island, mobilizing everyone.

Ordinary employees were told this was an exercise, so they dropped what they were doing and began to hide in the dugouts.

Wu Tian was resting in his room, but when he heard the noise, he was immediately awakened from his sleep.

"What's wrong?" Wu Tian quickly called Loong Yun.

At this time, Loong Yun was also confused. She only knew that someone had appeared in the Flower Island and seemed to be taking control of their forces.

"I don't know what's going on. It's the army. They're taking over our control room right now."

"What?" Wu Tian was completely shocked. His relationship with the military was pretty good, how did such a thing happen all of a sudden?

He dressed quickly, then hurried out.

Just inside the corridor, he ran into Captain Luo Huaicheng.

"What's going on? I heard that you guys are taking over my Flower Island right now." Wu Tian was still the same as before, walking towards Luo Huaicheng amiably, wanting to ask him.

However, Luo Huaicheng had a straight face as he blocked Wu Tian's path.

"Wu Tian, you are suspected of hiding important military information!"

"What?" Wu Tian was confused again.

Since when did he have access to military intelligence? Wu Tian couldn't understand what Luo Huaicheng was saying at all.

"Please come with us. Captain Tie is waiting for you outside!" Luo Huaicheng looked around and when he was sure there were no other people around, he moved closer to Wu Tian and whispered in his ear, "You're in big trouble!"

Wu Tian was in disbelief. He had been being honest during this period of time, how did he end up in trouble? Something didn't seem right about this.

"Why do I not know at all? Tell me, what happened to Tieh Jun this time?"

Luo Huaicheng's gaze was pitiful as he sighed and shook his head.

"Let me tell you something. There seems to be a problem with the operation. He's angry now, so he might want to cut you open. If you have any weakness, I advise you to prepare for it as soon as possible."

After talking so much, Luo Huaicheng knew that that was all he could tell Wu Tian, so he quickly led him outside.

As Wu Tian walked, he pondered in his mind what in the world had offended Tieh Jun. But after thinking about it again and again, it seemed to be Erniu.

He brought Erniu back, but he didn't tell Tieh Jun because he was afraid that Tieh Jun would take Erniu away.

Did Tieh Jun already know about this? Wu Tian felt that this might actually be possible. After all, when they were investigating the spies, Wu Tian also found out that there was Tieh Jun's spies constantly investigating the Flower Island.

However, at that time, Wu Tian felt that it was necessary for him to remain open to Tieh Jun, so he didn't put this matter to heart.

From the looks of it, Tieh Jun should have known about Erniu's existence. However, Tieh Jun did not know about Erniu's special ability, which made others suspicious of it.

Wu Tian also quickly saw Tieh Jun, who was brimming with killing intent.

His mood right now was really bad. He didn't look good. When he saw Wu Tian in the past, he was basically smiling.

"Isn't that Leader Tieh? How do you have the time to come to my place?" Wu Tian quickly went up to greet him. Since he already knew that the old fellow was in a bad mood, he tried his best to coax him first.

Tieh Jun glanced at Wu Tian coldly, making him speechless. To be honest, Wu Tian felt like he was in court right now. Tieh Jun seemed to be deciding how to deal with Wu Tian.

"Tell me, what have you done?" Tieh Jun's voice was still calm, but there was a hint of anger in his tone.

Wu Tian swallowed his saliva and looked around to see that he was surrounded by soldiers from the military.

"Don't you already know what you should know? With Leader Tieh's personality, you must have known something before coming to my place."

"You're lying!"

Tieh Jun suddenly scolded loudly, which gave Wu Tian a fright.

"I'm asking you, do you know why I'm here?"

Wu Tian seemed very innocent. He wasn't Erniu, so how could he know what others were thinking?

"This... Don't you feel that it's a bit too much of a problem, you can do whatever you want, even if you come to my Flower Island to shit a bit, I have nothing to say. "

From Wu Tian's words, it was clear that he was against this old man. Even though Tieh Jun was powerful and had strength, Wu Tian would not show him any respect when it was time to ignore him.

"Fine, I won't waste any more words with you. Hand over little girl who you brought back from the Britain!" This time, Tieh Jun was no longer hiding anything. He came to take Erniu away.

"What? You want to take her away? No, the reason I'm not willing to tell you about her is because I'm afraid you'll take her away!" Wu Tian immediately shook his head like a rattle drum. No matter what, he wasn't willing to agree to this request.

However, Wu Tian's disagreement didn't seem to change anything.

Because at this moment, Wu Tian was watching Luo Huaicheng lead a few men to drag Erniu out from the base.

Erniu was trying to find a way to struggle, but there were a few strong men by her side. In their eyes, her struggles were futile.

"Release her!" Wu Tian saw this scene. He couldn't help but shout at Tieh Jun.

Tieh Jun was shocked. He had never thought that Wu Tian would dare to scold him. He was too daring.

"You don't need to speak any more nonsense, I will definitely take this woman with me!" Without saying anything further, Tieh Jun waved his hand and Luo Huaicheng started to carry Erniu onto the helicopter.

Saying that, they turned around and were about to leave. How could Wu Tian allow them to leave just like that? He quickly rushed up and stopped Tieh Jun.

Hidden Billionaire Chapter 1073 - Snatch

C1073 Snatch

Tieh Jun glanced at Wu Tian coldly. At this moment, he only felt that it was funny.

"You want to stop me?" With that, the guard on the side pointed the barrel of the gun at Wu Tian's head, instantly forming a huge pressure.

Wu Tian wasn't an idiot. He knew that if he fought head on with Tieh Jun, there would be almost no benefits. He quickly raised his hand to show that he had no ill intentions towards him.

Seeing that Wu Tian could understand the general situation, Tieh Jun waved his hand and dismissed the guards.

He walked step by step to Wu Tian's side and helped him straighten his collar.

"I will definitely take him away. I won't hold you accountable for your actions this time, but don't think that this matter is over."

Tieh Jun's words were like a rock that struck Wu Tian's heart heavily. In fact, it was just a few words after breaking it apart.

He will definitely take the person away. As for Wu Tian wanting to keep him, in short, it is impossible.

Just as they were about to board the plane and leave, the Security Team s suddenly rushed out.

They also had guns in their hands. Under Su Cancan's lead, they blocked the path between the soldiers and the helicopter.

The two sides instantly confronted each other with guns.

Not only did Tieh Jun not feel threatened, he also sneered.

His subordinates were all soldiers who had experienced hundreds of battles. Although their Security Team were also made up of retired soldiers, their origin was relatively more ordinary.

And Tieh Jun's subordinates all had real Special Team, so this rank was already a lot higher. If they really did fight, it wasn't certain who would win and who wouldn't.

Security Team staff were few in number, and their weapons were poor. They basically did not hold any advantage.

And Tieh Jun's side not only had the advantage in numbers, even their firepower had far surpassed Security Team.

"Let go of Wu Tian!"

Su Cancan shouted into a microphone from a distance. She was not afraid just because Tieh Jun and the others appeared. On the contrary, this guy was a madman that could attack anyone at any time.

"Is this your companion?" According to my investigation, she seems to be your fiancée, and so is she now. "

Tieh Jun suddenly took out a cigarette from his pocket and lit it up. His soldiers had already let go of Wu Tian.

Although Wu Tian and Su Cancan normally wouldn't be much to deal with, at this moment, Wu Tian was actually quite grateful to her.

This woman was quite reliable at the critical moment. Just this point was enough to earn Wu Tian's greatest respect.

"What are you trying to do?"

Wu Tian felt that it was strange. If Tieh Jun had known about Erniu's existence in the morning, then why did he only come to ask for her now? It had already been one to two months.

"What do I want? This is a military secret and you have no right to know it! The only thing you can do is cooperate with my actions! "

Tieh Jun was once again speaking in an official tone. If it was an ordinary person who replied to this, there would be no other way.

"You have to give me a reason, or else I won't agree with you taking Erniu away!" Wu Tian was not a fool. He also had his own principles. Although Tieh Jun was a senior military official, he couldn't represent the truth.

Did he have to be right?

It was the first time Tieh Jun was said to this extent, and he suddenly felt like laughing. If he were a few decades younger, he would have definitely become good friends with Wu Tian.

This was because Wu Tian was very similar to himself in the past.

"Well, don't you want to know the truth? I tell you the price of knowing the truth. " Saying that, Tieh Jun took out his gun and pointed it at Wu Tian's forehead.

"Do you still want to know? I can tell you everything, but in exchange you'll get a bullet right after you hear it. "

Tieh Jun wasn't joking when he said this, he could really do what he said. Although Wu Tian was very powerful and very useful to the country, he was not in a bad state without Wu Tian.

So even if he really killed Wu Tian, so what? So the one who was in trouble was only Wu Tian himself.

"Not only should I know, I will not let you kill me! Do you think my life is something that can be taken away from me? "

Wu Tian was not to be outdone. Instead, he took the initiative to hold his head up against the muzzle. He stared at Tieh Jun. Now, what the two of them were competing with was momentum.

Whoever loses in terms of momentum would lose in terms of what happens next.

"You can kill me, but you need to be prepared. Don't worry, my subordinates definitely won't let you off easily."

Wu Tian was very confident in this matter. Not only Su Cancan's, but also the likes of Azure Dragon and Loong Yun. They were not random people.

At that moment, Tieh Jun's eyes were staring at Wu Tian with a serious expression. He suddenly felt a sliver of regret because to be honest, he really didn't dare to shoot.

To Tieh Jun, Wu Tian's threat was not a big deal.

He regretted it because Tieh Jun felt that Wu Tian was a talent. It was just too similar to the him of the past. He saw Tieh Jun himself when he saw Wu Tian.

If Tieh Jun shot, did that also mean that he was opposed to the him of the past?

How could a man shoot himself? Therefore, Tieh Jun put the gun down.

"I found out that you not only have a good mouth, but also a pair of good eyes."

Tieh Jun kept his gun, but he didn't lose. His momentum was still as strong as ever. Even if he didn't have a gun, he could still do it!

"I will take him away. You better take care of yourself."

Tieh Jun was too lazy to argue with Wu Tian anymore. He didn't want to argue with him anymore, this sentence was an ultimatum to Wu Tian.

Wu Tian rushed forward and stopped in front of Tieh Jun. He stared at Tieh Jun word by word and said, "If you want to take her away, then you can take her away with me! I can't watch you do such a cruel experiment with him. "

This time, it was Tieh Jun's turn to be suspicious. When did they perform such a cruel experiment on these genetic warriors?

"I don't know what you're thinking, but are you sure?"

Wu Tian nodded heavily. He wasn't joking. If he couldn't personally verify this with his own eyes, he didn't believe that Tieh Jun would properly protect Erniu.

"Alright, then come with us!"

Tieh Jun was stunned for a long time before he finally choked out a sentence. The soldiers beside him immediately grabbed Wu Tian and brought him to the helicopter.

Su Cancan didn't know what to do at this time. Originally, she only wanted to stop them from taking Erniu's with them, but now, they even took Wu Tian with them?

However, it seemed like Wu Tian was the one who asked for it, so what was she going to do about it?

Hidden Billionaire Chapter 1074 - Special Agent Team Lost Connection

C1074 Special Agent Team Lost Connection

Security Team were quickly withdrawn, they knew that there was no point in continuing to obstruct them, their firepower was not even worth mentioning in front of the military.

In less than a minute, his side would be completely wiped out.

As for Wu Tian and Erniu, they were, after all, transported directly to that secret military base by helicopter at this very moment.

Due to the fact that it was a secret, Wu Tian's eyes were blindfolded. He didn't know how much time had passed, nor did he know where he had gone to.

When he could see the outside, he found himself in a military base.

The guards of this place were extremely strict. There were soldiers wearing military uniforms patrolling the area.

Tieh Jun waved at Wu Tian and called him over.

"Didn't you want to see it? Now, I've brought you here."

Tieh Jun pointed at the military base and a door opened in front of them.

Wu Tian looked inside and found that it was full of equipment. He couldn't tell what they were, but they looked very spectacular.

At this moment, Erniu was still struggling nonstop. It had taken quite a few soldiers to hold her down.

Wu Tian couldn't bear to see her in such pain, so the soldiers that walked over said, "Let him go, she won't run away with me."

The soldiers were skeptical. They didn't know if Wu Tian was telling the truth or not, but if they let her go, the responsibility of Erniu's escape would surely fall on their heads.

Tieh Jun nodded at the soldiers before letting go of Erniu.

After Erniu regained her freedom, she rushed to Wu Tian's side, tightly grabbing onto his clothes and refusing to let go no matter what.

It was obvious that she was truly frightened.

"Go in. You'll know when we get there."

Tieh Jun didn't say much and just led the way.

The base had a lot of medical equipment, and some doctors in white coats were walking back and forth.

The room next door was a transparent window that allowed one to see what was going on inside as they passed through the corridor.

Quite a few doctors were testing the bodies of the biochemical warriors, but none of them were harmful.

Those people were lying on the bed, and the doctor was using all sorts of instruments to compare them to ordinary people.

And where did their power and special abilities come from?

Wu Tian didn't see any obvious actions that could cause harm to people.

"You've finished reading it now?" "Do you still think we'll hurt her?"

Wu Tian stammered, but he could not answer Tieh Jun's question.

"That's not certain ... In case you show me only the surface. "

Wu Tian grimaced, unwilling to admit his mistake. Tieh Jun laughed. The Army likes people like that, has their principles, and can stick to them.

"Don't worry, we're not idiots. If we have to do damage to every single person, then wouldn't we only be able to do it once?"

These words made sense. These genetic warriors knew that it was not easy. If they were killed, it would be a true waste.

"Then why did you release Number 1?"

Wu Tian had this doubt from the beginning. He just felt that if Tieh Jun could give up on number 1, then he could also give up on Erniu.

"I don't think it's necessary because I think you're more important than Number One."

Tieh Jun did not hide it at all. He knew who was more important and who was less important.

"Come, I'll show you something."

With that, Tieh Jun pulled Wu Tian into a small room. In the middle was a row of tables and chairs, which looked like a small meeting room.

A projector was hung on the ceiling, so Tieh Jun turned it on.

The others had been chased out, leaving only Wu Tian, Tieh Jun, and Erniu.

Very soon, the screen appeared on the wall. It was a row of military men tidying up their equipment.

Although he didn't know what these people were going to do, Wu Tian was sure that they were going on a mission.

Tieh Jun's figure also appeared on the screen. He seemed to be mobilizing these people before the battle.

"This is our special task force. Two days ago, I sent them on a secret mission, but when they arrived, they lost contact and there was no response."

Tieh Jun's expression became serious. It could be seen that this was a huge blow to him.

"Could it be ..."

Wu Tian had a bold guess. He could almost feel why Tieh Jun reacted so violently to this matter.

Most likely, the target of their special forces would be the Brilliant Company base ...

"That's right!" I have indeed sent them to destroy this so called Brilliant Company. "

Tieh Jun admitted it directly.

"Heavens, what are you doing? Send them to die? Do you know what kind of place that is!?"

Wu Tian felt that this matter was outrageous. Tieh Jun even made this decision without discussing it with him.

It had to be known that Wu Tian had reported all the reports he had given. The number of Biochemical Man below, at least several hundred. Just with the numbers of ten or twenty, wanting to destroy this base was simply a pipe dream.

"They are also very powerful experts, don't underestimate this special forces team! I can send them there for this reason, but they have completely lost contact with me. I don't even know if they are alive or dead ... "

This was what really made Tieh Jun's heart clench. Even if he was given a piece of news saying that this secret service team had been completely wiped out, Tieh Jun would still accept it more.

But if there was no news, people would just keep guessing.

As a result, people go crazy.

Thinking up to this point, Wu Tian probably understood what was going on.

His eyes rolled a few times as he looked at Tieh Jun and suddenly said, "I want to make a deal with you."

"Trade?" Tieh Jun was at a loss. At this moment, what right did Wu Tian have to trade with him, what could he trade with him?

Wu Tian nodded and confirmed the two words.

"I will help you investigate this matter. However, you must let Erniu off the hook. And you will never ask again about her. "

Tieh Jun looked at Wu Tian with a grave expression. He probably didn't know whether he should trust Wu Tian or not at this moment.

Hidden Billionaire Chapter 1075 - Reinvestigation

C1075 Reinvestigation

Tieh Jun looked at Wu Tian with a grave expression. He probably didn't know whether he should trust Wu Tian or not at this moment.

However, this temptation was too great for him. After weighing the pros and cons, Tieh Jun finally agreed to Wu Tian's request.

"I'm willing to help you make this deal!" Tieh Jun nodded and agreed to this matter. The reason why he grabbed Erniu so urgently was because he wanted to ask her about the base's details.

He wanted to know if there was anything else they didn't know, and then he wanted to see if he could rescue the team of agents.

Since Wu Tian was willing to volunteer himself, that would be for the best. He could do a lot less.

However, time was too tight, Wu Tian didn't even have time to return to the Flower Island, and directly brought Erniu on the plane to England.

It all happened so fast that Erniu still couldn't understand it. However, she didn't need to understand anything. She only needed to tightly grab onto Wu Tian's clothes.

With Wu Tian around, she was safe. Erniu knew this better than anyone else.

"I must have scared you just now, but it doesn't matter now. With me here, they won't bully you anymore!"

Wu Tian patted Erniu's head in pity. This little guy was really cute. No matter who looked at her, they couldn't help but feel sorry for her.

Erniu happily hugged Wu Tian's arm and rubbed it, just like a kitten.

After a few hours on the plane, the two of them once again set foot quietly on British soil.

However, as soon as Wu Tian landed and opened his phone, he found that he received a call.

The key point was that this phone number made Wu Tian feel weird. It was Old Master Chu who had called.

After some thought, Wu Tian pulled Erniu to a corner and answered the call.

"I'm Wu Tian."

"Thank God, I've finally managed to get in touch with you! You're in England? Do you want me to come and pick you up? "

Old Master Chu was very passionate, to the point that Wu Tian felt strange. He didn't ask Old Master Chu for help, but why did he contact him?

"I have a place to go, so I won't trouble you."

Since Old Master Chu had also helped him a lot, Wu Tian couldn't refuse him directly.

Old Master Chu still did not give up and continued to promote his plan to Wu Tian:
"Quickly tell me where you are and I'll send someone to pick you up. It just so happens that I have something to tell you these few days. The two of us will eat together as we talk. "

Wu Tian felt that this matter was a bit strange. Old Master Chu actually didn't seem like such a person. Although their relationship wasn't bad, it probably wasn't to this extent.

However, due to Old Master Chu being too passionate, Wu Tian knew that if he didn't comply with Old Master Chu, Old Master Chu definitely wouldn't hang up the phone.

He looked at a coffee shop not far from the road and told Old Master Chu the location of the coffee shop.

The two quickly hung up the phone, but Wu Tian didn't go to the coffee shop. Instead, he found a very hidden spot to observe.

As expected, in less than two minutes, a group of black-clothed men suddenly jumped out from nearby.

They were wearing the same clothes as the group of people who were chasing Wu Tian. It seemed like Wu Tian's worries had come true.

"Just as I expected!"

Wu Tian pounded the ground fiercely. Looking at the situation, Old Master Chu should be on the same side as the people from Brilliant Company.

Although he didn't know if Old Master Chu's intentions were good or bad, he was afraid that he couldn't trust anyone in the UK right now.

His first priority right now was to find a place to rest before thinking of a way to head to Brilliant Company's base.

Although the man in black didn't find Wu Tian, they immediately started to investigate nearby. This was because they could still continue to track Wu Tian's cell phone's signal.

However, when they went through a few blocks in a row, they found that the call signal was coming from the river. A few men in black clothing leaned against the railing and looked into the river, they found a paper box floating on the river, while Wu Tian's phone was floating in the box ...

Of course, this little trick couldn't be hidden from Wu Tian's eyes. When he saw the man in black, he immediately realized that his phone was no longer safe, so he quickly did this little trick.

He had already left that place with Erniu and was currently buying a new phone in a phone shop.

Wu Tian had changed into a new set of clothes, and almost no one could recognize his brand-new appearance.

"Remember, the two of us better not reveal our identities here! If anyone wants to capture us, you have to tell me as soon as possible! "

Wu Tian instructed Erniu carefully. It was only then did he realize that it was really convenient to communicate with the people in their minds.

If they had something important to say, they could say it directly in their minds without worrying about being overheard.

Erniu nodded heavily, indicating that she was completely under Wu Tian's command.

The disguise was only the beginning. Wu Tian also bought a used car, the two of them can't just walk on their feet.

It's not always convenient to take public transportation.

Just as the black-clothed men were searching the entire city for the two of them, Wu Tian and Erniu had already swaggered into the vicinity of Brilliant Company.

They had no intention of hiding anything. They just directly entered in broad daylight.

Instead, no one had searched for them in this place — perhaps this only confirmed the truth: the most dangerous place was the safest place.

The enemies probably wouldn't think that Wu Tian would directly choose to go to their base this time.

Brilliant Company seemed very normal on the surface, but everything seemed to be so peaceful.

The current Brilliant Company was not much different from normal.

"This is so strange, didn't they say they sent people here to destroy it ..." Wu Tian muttered in the car in the distance. He couldn't understand why there weren't any traces left behind.

Could it be that those people from the secret service had disappeared into thin air? This was obviously impossible.

While he was guessing, Erniu suddenly pulled on Wu Tian's clothes.

"Someone is in great pain ..." She tried her best to explain as she pointed to the ground.

Wu Tian looked at Erniu, then looked at Brilliant Company.

"You mean to say, someone in their underground facility is in great pain right now? Are they members of the secret service? "

Wu Tian was pleasantly surprised. He didn't expect Erniu to be so useful! It was the right decision for him to bring her to this place.
