

Hidden Billionaire Chapter 1091 - Fundamental Solutions

C1091 Fundamental Solutions

When Wu Tian heard this, he immediately threw the teacup in his hand.

The teacup fell to the ground and shattered into fragments. They scattered all over the place.

His actions scared the two people beside him, and they saw Wu Tian staring at Yu Naixin in disbelief.

"Ask them again. Are they sure they are going to close the contract. Also, tell them that we have a contract with him. If they want to close the contract, then prepare to breach the contract."

Wu Tian said while grinding his teeth. He never would have thought that he would cause this crisis to fall on his head so quickly.

It seemed like this time, Wu Tian shouldn't even think about getting away unscathed. Even if he didn't want to get involved in this mess, there would be people who would deliberately dirty Wu Tian.

"I've already told them about President Wu, but they still decided to cut off their relationship with us."

Yu Naixin's hands were trembling as she took out a form from her robes.

"They even paid the penalty fee ..."

"It's clear that you want to fight me head on."

Wu Tian took the order and tore it into pieces.

He called Loong Yun over. This matter definitely couldn't be let go of here.

"Hurry up and investigate why these manufacturers stopped selling to us, then report back to me as soon as possible."

After saying that, he turned his attention back to Wu Zaibin.

"Our Kaleidoscope sales will stop for now, tell the market that we need to wait for a while, and then immediately find a new factory! If it doesn't work, we can buy this factory and make it ourselves! "

Finding the supplier to supply him with goods was such a price. There were always all sorts of messy things happening, and other people's grasp of it wasn't stable yet.

"Don't worry, President Wu!"

Wu Zaibin patted his chest. In a situation like this, everyone had to focus on their experiences to deal with it.

Wu Tian didn't seem to feel reassured at all.

"Right, if we don't have any goods at home, we can contact the foreign countries. Even if the price is a bit higher, it doesn't matter."

In short, Kaleidoscope sales should not be stopped in the strict sense of the word. This way, people would have great doubts about their production capacity.

The reason was that the sales of Kaleidoscope had been increasing, but the market share was still quite low.

He hadn't really made it into the thousands of households. From the time he started having a fever until now, he had only sold it for a few tens of millions.

Compared to hard currency such as mobile phones and television sets, the gap was too big.

After a series of orders, Wu Zaibin and the other executives immediately started to take action.

Wu Zaiyao also started to agitate for the public on the internet, but this time it was not to attack any side, but to explain to everyone that there was a problem with the Kaleidoscope's supply.

In short, to be honest about all this may make the customer feel satisfied. After all, it was better to let them find a reason than to stop selling for no reason.

Wu Tian was actually a bit anxious. He could probably guess why such a thing happened.

There weren't many people who were going against Wu Tian. He was one of the people from Yingdi Entertainment, but now that he got away with the money, there was no need for him to mess with him.

As for the remaining people, the film and television circles were too busy to come over to cause trouble for Wu Tian. Only those few old rivals were the only clear examples of Zhang Zerui.

This guy's companies and consortia were all foreign capital, and they had a lot of capital. They had always regarded Wu Tian as a thorn in their side.

To him, doing such a thing really wasn't much.

Very soon, Loong Yun had investigated the background thoroughly. Actually, it was very simple. As long as she went to check, she would be able to find out immediately.

"President Wu, your guess is correct."

Loong Yun said as she handed over the investigation report.

"These supplier have all been bought by the Pulitzer consortium, or have been taken a large amount of shares by the Pulitzer consortium."

Wu Tian sighed. What he feared came true.

"Looks like we have to contract the entire industry chain up and down ..."

Wu Tian actually didn't want to do this because many industries were tedious and unprofitable for him.

Most importantly, if he were to contract all of the upstream and downstream industries, then no one would be able to earn money.

At that time, Wu Tian would only be under more pressure than he would be under.

"That's what they did... Where did the money come from? "

Wu Tian was very curious. The Pulitzer Corporation had spent a lot of money previously, so it was impossible for them to do this sort of thing with money.

Besides, Zhang Zerui of Pulitzer consortium couldn't possibly take all the money that the film and television industry garden had invested into the project. He definitely had to share it with Wu Tie.

Even if he added in the money, he could only buy a few companies, but now he broke Wu Tian's supplier. This wasn't something that could be done with money, it would at least cost over a hundred billion.

"We don't know about that, but Pulitzer Corporation is leading the investigation into the stock market right now. It seems like they have a lot of money with them."

Loong Yun was not entirely sure about this. They had too much money and they could have gotten it from outside.

"Since that's the case, we have to think of a way to deal with it. We'll deal with the problem of the supplier first."

Wu Tian scratched his head. He would have to think about the rest later. Right now, he couldn't care less about his butt.

The situation in the S City began to worsen. A large number of factories had failed, and some had even been cut off, resulting in countless unemployed people appearing on the streets.

This area was very large. Every time Wu Tian went out, he would see countless people wandering around on the street.

They have no jobs, and naturally no income or source of income.

Wu Tian could even hear the occurrence of a lot of criminal cases on television every day. All of these were caused by the economic crisis.

Therefore, modern society was not one of those areas where one could go out on their own. Everything was inextricably linked. If they interweaved with each other, no one would be able to do it by themselves.

These days went on for several days, and the situation became worse and worse.

Even an ordinary old lady could feel that her life was facing a huge challenge, not to mention Wu Tian.

With such a large scale economic crisis, affecting thousands of families was a very scary thing.

Hidden Billionaire Chapter 1092 - The Situation Is Very Unstable

C1092 The Situation Is Very Unstable

These days went on for several days, and the situation became worse and worse.

An ordinary old man could feel that his life was facing a huge challenge, not to mention Wu Tian.

With such a large scale economic crisis, affecting thousands of families was a very scary thing.

Nowadays, the streets are full of job-seekers, one company after another that has gone out of business.

Even many of the companies that were doing well in the past were affected by this time.

At that moment, not only the internet, but also the public opinion, had a great hatred and indignation towards this matter. This resentment quickly spread to their hatred and criticism of the culprit.

That's right, their target was the Yingdi Entertainment company that had caused all of this, but what was strange was that Lee Zhan had never appeared.

Even the police started their investigation, but they couldn't find any trace of Lee Zhan. This matter became an unsolved case.

It was just that no one knew who led the charge, and some people even began to blame Wu Group Corporation for all of this.

They thought that if Wu Tian didn't deliberately oppose Yingdi Entertainment, they might not have sold the company to Yingdi Entertainment, and naturally wouldn't have suffered such a severe economic shock.

Wu Tian heard this and just snorted.

It's really funny, what does this have to do with me? Actually, Wu Tian is also a victim.

Wu Tian specially instructed his men to be careful at any time because there might be some people starting to stir up trouble because of this.

On that day, Wu Tian got up as usual. However, he found that there was someone waiting for him outside the door.

When he opened the door to take a look, it was Azure Dragon. This was indeed strange.

Azure Dragon, the big guy, was actually waiting outside Wu Tian's door. Was something big going to happen?

However, this idea was immediately rejected by Wu Tian as it was impossible. If something really happened, Azure Dragon definitely wouldn't be so indifferent.

"What's wrong?" Wu Tian hurriedly put on his own clothes and opened the door, letting Azure Dragon in.

However, he wasn't alone and brought Yin Rumeng with him.

Such a combination made Wu Tian even more curious, and he knew that they definitely had something to say.

"There is indeed something. Let her speak."

Azure Dragon pointed at Yin Rumeng and gave the chance to her.

Wu Tian took a glance at Yin Rumeng and noticed that she had a dejected look. It seemed that she was in a hurry to come out.

However, his clothes were not dirty. It was likely that he had not been through any fighting.

Seeing this, he felt slightly more at ease. At the very least, it meant that no one was attacking them.

"What is it? You all look so mysterious, yet you want me to guess the riddle when you wake up so early in the morning?"

"President Wu, the situation isn't right now. A large group of underground powers appeared on S City. Now that they are beginning to take over territory everywhere, should we also take action? "

Yin Rumeng licked her lips. It was as though she had returned to the bloody days from before.

Although the dark forces of S City had become extinct after the severe beating, only Yin Rumeng's group remained.

But now, due to the economic downturn, the underground forces have come back to life and are growing very fast.

In just a few days, many different factions had appeared, and they had even begun to divide up the area of influence.

As one of the best among them, as well as an elder, Yin Rumeng naturally did not wish to see herself being abandoned by these people.

Wu Tian immediately understood what was going on, but he still needed to think about it carefully.

"Don't worry, let me think."

If not, these underground powers could become a new time bomb that could explode at any time.

However, if Wu Tian were to interfere, then all the effort that he put in to get Yin Rumeng's group off the hook would have been in vain.

After thinking about it, Wu Tian decided to give Sunn Hongsheng a call first. This guy is related to the professionals, and he specifically suppressed the dark forces.

If there was going to be a wave of fierce fighting on his side, then Wu Tian felt that he wouldn't have to participate in this.

Only after a long time and a few calls did the other party pick up the phone.

"Officer Sun, you seem rather busy?" "Why is it taking so long to answer the phone ..."

"It's President Wu. I'm really busy right now, so I don't have time to talk to you about anything else. Is there anything important? If not, I'll have to hang up quickly."

Wu Tian did not expect Sunn Hongsheng to be so busy. He quickly said, "Of course there is. It's like this. Quite a few underground powers have appeared. What kind of operation are you guys going to take?"

Sunn Hongsheng was stunned for a moment. He didn't expect Wu Tian to ask such a straightforward question.

"Normally, we would have to deal with it. However, we don't have the energy to do so right now. There are so many cases on my hands, so we don't have the time to do so."

Sunn Hongsheng was also helpless, but the news that came out made Wu Tian realize a lot.

To put it bluntly, Sunn Hongsheng was very busy. As long as nothing bad happened, he probably wouldn't take the initiative to deal with these underground powers.

In other words, Wu Tian and the others could naturally do whatever they wanted. As long as they didn't reveal any flaws, Sunn Hongsheng wouldn't say anything.

"I finished the call as well, but you guys heard it."

Wu Tian pointed at the phone and then shifted his gaze to Yin Rumeng.

"How about this, this is what you want to hand over to yourselves. If it really threatens your safety, then do what you have to do. As for this territory, I don't think anyone would dare to come to my territory to collect protection fees, right? "

Wu Tian laughed. He was no longer the same person from before. Naturally, he wasn't so afraid of these basements anymore.

If they wanted to collect protection fees, they could come, but they wouldn't be able to reach the Flower Island.

"That's true."

Azure Dragon was also happy. An important reason they built Flower Island was for safety, these people couldn't even get to the shore, so how could they collect protection fees?

Yin Rumeng nodded slightly. She seemed to understand what Wu Tian meant.

"Then I'll continue to run my clubhouse, but if they come over and cause trouble, then I won't be soft-hearted."

"Of course, you can do whatever you want."

For this, Wu Tian agreed to it painfully.

Hidden Billionaire Chapter 1093 - Severity of the Situation Escalated

C1093 Severity of the Situation Escalated

However, the two of them had only left for less than half a day, something that Wu Tian thought would never happen happened.

Flower Island were indeed not attacked by others, but the Wu Group Building was still attacked.

This building was in the center of the city, so it was impossible for it to escape.

In the end, in broad daylight, the glass on the first floor of Wu Group Building was smashed into pieces.

When this news reached Wu Tian's ears, it made him extremely angry.

He quickly got up from the sofa, opened his phone and started to summon Su Cancan. To tell the truth, with such a huge incident occurring, she, as the head of the security department, naturally had to shoulder some of the responsibility.

However, it was a huge challenge if he wanted to be accountable to Su Cancan.

When she received Wu Tian's call, Su Cancan still had an unhappy expression. She probably thought that Wu Tian had woken her up from her beautiful dream.

"If you have something to say, hurry up and say it. It's best if there's something important, otherwise ..."

Seeing that she was still so aggressive, Wu Tian's anger died down first.

"You're still asking me what happened, don't you know that someone is currently smashing Wu Group Building apart?"

Wu Tian said in annoyance. On the other side, even his hands were trembling in anger when he saw the message that the Wu Group Building had sent back in time.

The last time such a situation had occurred, it had been the Red Gang who had come over to cause trouble. It was just that the Red Gang had paid a very heavy price that time.

Now that such a situation had suddenly occurred, could it be that they wanted to recreate the scene at that time?

Su Cancan's face was as cold as ice. She picked up her phone and looked at it for a moment before hanging up Wu Tian's phone.

She should get up right away and deal with it. She should have realized that she didn't get the news earlier than Wu Tian. It was a real humiliation.

Of course, Wu Tian couldn't sit still any longer. After putting on his clothes, he called Azure Dragon over, and the two of them decided to take a look.

After all, the Wu Group Building was a very important property. Wu Tian couldn't just watch as his property was destroyed.

Now that the police were extremely busy, public security had deteriorated to a certain extent.

If they were allowed to continue on like this, who knew what kind of messed up behavior these mob would perform.

"President Wu, should we call the police first?"

Azure Dragon said as he drove. With his identity, saying something like that really made people feel like they didn't know whether to laugh or cry.

"Now, even if we call the police, when will they come?" Wu Tian did not have much hope for this, "Forget it, let's just send someone to chase these people away earlier."

If he had to suffer a loss, he would do so. In any case, he would treat it as spending money to get rid of the calamity.

Fortunately, these people only harmed the first floor and did not go up.

Just as they were on the way to the Wu Group Tower, helicopters kept flying from the Flower Island, bringing along a large number of Security Team personnel as they sped away.

Needless to say, Su Cancan's underlings had already made their move. At this moment, Su Cancan was probably fuming with rage as well.

Because she never would have thought that she would be despised by Wu Tian one day. Su Cancan wanted nothing more than to kill all of these thugs and vent her anger.

It was only after arriving at the crime scene that Wu Tian's body trembled in anger.

The scene he saw on the monitor compared to the real scene, was really too shocking.

The first floor of Wu Group was already in tatters. Not only was the glass shattered, even the tiles on the outside had been smashed into pieces.

The equipment inside had long since been emptied by others. Desks, chairs and the like were scattered all over the place. There was even a fire in some areas.

The surrounding onlookers did not come to stop him. They even coldly looked on from the sidelines, pointing at this place from afar.

The thugs inside were still in a frenzy. They were not satisfied with fighting on the first floor, and were currently trying to find a way to run upstairs.

And upstairs was where Hua Long entertained them with their work. The higher they went, the greater the share of property there would be.

If those studios had been attacked, the outcome would not have been so simple.

"tmd ..." Wu Tian clenched his fist. His fingers felt like they were going to bleed.

Since when did he get bullied like this? Thinking about this, Wu Tian felt really bad.

"President Wu, this is not the end! None of them should even think of escaping! "

Azure Dragon was about to call Yin Rumeng. Using violence to deal with violence was the best choice for him. It was also the only way Azure Dragon could think of.

Although Wu Tian was very angry at the moment, he knew that a large-scale fight here was not a good thing.

After all, the surrounding people were all watching, and they weren't blind.

"Wait, wait!"

Wu Tian stopped Azure Dragon because he saw that the Security Team had landed on top of the building.

They would be able to get to the inside of the building very soon. At that time, with Security Team s blocking the way, these people would definitely not be able to create any big waves.

"We have to think of a way to know who arranged this. It's impossible that no one is planning this!"

Wu Tian's face was full of malice, he thought that there was no doubt about that. It was impossible for ordinary bandits to do such a thing. At most, they would only try to take some things and smash some places.

And they really wanted to draw their anger up the stairs. There must be someone plotting this matter. Only by doing so could they stir up Hua Long Entertainment's core.

The studio was their lifeblood. Many entertainment programs were produced here. If these places were destroyed, Wu Tian's Seafood TV would cause a lot of trouble.

After all, the program could not be stopped at will, which would result in a huge loss of staff.

Thinking of this, Azure Dragon also understood what Wu Tian meant.

"Then, are we not in a hurry now?"

Wu Tian nodded. He once again returned to the car, but his eyes were staring at the Wu Group Building.

"Wait and see what they do."

It was at this moment that Wu Tian's phone suddenly rang. He saw that it was from Su Cancan. This was really strange. Su Cancan had almost never called her before.

Could it be that something troublesome had happened?

"What's wrong?" Wu Tian picked up the phone and his heart was covered with a layer of haze.

"The thugs kidnapped one of our men and are now demanding a ransom from us."

Hidden Billionaire Chapter 1094 - Request for Ransom

C1094 Request for Ransom

Wu Tian would never have thought that the enemy would be able to do something like this ...

He asked again into the phone in disbelief.

"Say again, they kidnapped our men now?"

Su Cancan repeated what she said just now. This was probably why she called Wu Tian on her own accord.

To think that these thugs were so quick, they had already occupied the upper floors.

According to Su Cancan, the other party even had weapons in her hands. Now, she treated the employees of Hua Long Entertainment as hostages and surrounded them in one of the floors.

"They are now demanding ransom and delivery within an hour, or the building will be blown up."

"They are really bold. Where are your people? Forcefully break through! "

Wu Tian had never liked being threatened, so when someone pointed a gun at his head, he was most likely trying to find a way to break their hand.

If he gave in to the enemy out of fear, then he could only be bullied again and again by the enemy. They will make the most of it.

At this moment, Su Cancan was a little worried because she could hear the sound of an explosion coming from her side.

Wu Tian quickly looked up and found that on the middle and high floor, a window had been blown open and pieces of glass had been thrown out. Huge clouds of smoke and flames were spreading out from the window.

"What's going on?"

"We were trying to force our way in just now, but they detonated an explosive. Now all of the Security Team members have stopped moving!"

Su Cancan didn't dare to move recklessly. After all, if the enemy really attacked the hostages, it would be a big problem then.

"Stop it for now!" Don't move for now! "Connect my phone with them!"

Wu Tian realized that something was wrong. It might not be as simple as he thought.

These people were vicious, and their moves were very decisive. Wu Tian was getting more and more sure that his guess was correct. There must be someone behind all of them.

As for who was the mastermind, Wu Tian was too lazy to think about it. The only people that could oppose Wu Tian were those few people.

However, these things weren't the most important right now. The most important thing to do was to find a way to quickly resolve the current difficulties.

The staff are innocent and must not be implicated in this matter.

Su Cancan's actions were quick, and the call was immediately connected to Wu Tian's phone.

A voice with some accent came from inside.

"You are Wu Tian? "Hahahaha, looks like us brothers have made the right bet this time!"

Hearing this voice, Wu Tian immediately felt a wave of disgust. He felt like there was nothing to say, he just didn't want to see these people.

"Cut the crap. Tell me your conditions!"

Wu Tian coughed twice. At this moment, he had to forcefully suppress the anger in his heart.

"President Wu is quite sensible, but since that's the case, we brothers shouldn't waste any more time. I want you to pay us two billion in ransom! "Otherwise, your subordinates might ..."

My god, these people are asking for an exorbitant price and they're asking for 2 billion in cash!

Wu Tian immediately frowned when he heard this. What bullsh * t, when did he, Wu Tian, become like this, to be threatened with a ransom of 2 billion.

"Are you kidding? Don't you think that's a bit exaggerated? "

"How can that be? My great boss Wu Tian, your company is famous throughout the country. Not to mention 2 billion, even 20 billion isn't a big deal for you."

The enemy seemed to have confirmed that Wu Tian would accept and was planning to increase the amount.

Plus, he didn't plan to give Wu Tian any chance to catch his breath. After finalizing this sum of money, he firmly decided to not change his mind.

"By the way, let's warn you to withdraw your people and not let us discover any unusual movements. Let me tell you, our bombs have already been planted all over the building. Worse comes to worse, everyone will die together. As for these few hundred employees, I'm afraid that they will suffer for it. "

As he spoke, the sound of him hanging up came from the phone, but the enemy still hung up.

Wu Tian slowly put down his phone with a sullen face. Azure Dragon, who was listening to the whole conversation, was breathing heavily.

"President Wu, these people are too arrogant!"

Azure Dragon wanted to get off the car, but when his hand just touched the door, Wu Tian immediately stopped him.

"Stand there, where are you going?"

"President Wu, we can't let others bully us like this, right? I don't believe that these people are made of iron! "

Azure Dragon rolled up his sleeves and wanted to charge forward. He wasn't afraid of death, but he also didn't want Wu Tian to be looked down upon!

"Come back here right now, we can't deal with this like this, it will get us into big trouble."

Although Wu Tian was also very angry, but at this moment, he still kept a basic sense of reason. It was impossible to do things like this.

"But President Wu, what are we going to do about this? We can't just let them control us like this."

At this moment, Azure Dragon was so angry that he started to stutter.

Wu Tian's face was as calm as water. He took a few deep breaths and started to calm down.

"Don't worry, don't worry, let me think."

Then he gently closed his eyes.

Azure Dragon looked at Wu Tian anxiously from outside the car, he didn't know what kind of decision Wu Tian would make.

However, Azure Dragon was already prepared. If he wanted to attack, he would be the first one to charge out.

"Azure Dragon, inform Loong Yun to prepare 2 billion in cash immediately!"

At this moment, Wu Tian finally opened his eyes slowly. However, Azure Dragon was very surprised by what he said.

In his impression, Wu Tian Jue was not that easy to compromise with. Yet, at this time, he actually lowered his head and admitted defeat?

"President Wu, how can this work!"

Azure Dragon was flustered and exasperated. He pointed at the exploded room above and even started trembling when he spoke.

"Look at the situation above, they have already done this to us. Why should we pay a ransom to them?!" "I say we should kill all of these thugs!"

"Have you forgotten we have hostages? There were hundreds of people up there! If you don't want to live, then do they? "

Wu Tian's face darkened. It wasn't like he didn't know these things, it was just that at this moment, he had to make a choice.

The choice Wu Tian made was also very simple. He wanted to give up on the money, but he needed people.

Hidden Billionaire Chapter 1095 - Rising Prices

C1095 Rising Prices

These employees are not that easy to find, and they have put in a great deal of effort at the Dragon Tattooed Fish.

In this period of time, every employee was either advancing or regressing together with the company, how could Wu Tian abandon them?

It wasn't that Azure Dragon didn't know about this logic, it was just that he wasn't willing to accept it in such a short period of time.

At this moment, Wu Tian ignored him. He ran to the side and picked up the phone to talk to them.

"I will prepare the funds right now, but you must ensure the safety of my people!"

"It seems like President Wu is quite reasonable. However, after some discussion between us brothers, we have too many people, over a hundred people will split the 2 billion, and not even one person will get one hundred million. Isn't that a bit too much of a loss?"

A sound that made one feel nauseous when they listened to it sounded like it was piercing their ears at that very moment.

The thing that Wu Tian was worried about the most happened. They started to raise the price directly.

"Tell me, how much do you want? This is our last discussion. "

Wu Tianqiang suppressed the anger in his heart. He had been played around with it five or three times like this. If it was anyone else, he would not feel so good about it.

"We brothers don't have much. We only have 100 million. We have 90 plus people here. Even if it's 10 billion, you still have an hour!"

He hung up again. At this moment, Wu Tian was holding the phone with his hand. He was shaking because of his excessive force and tensed muscles.

He turned his head and stared at Azure Dragon as he said word by word, "Tell Loong Yun to prepare 10 billion, they called the price."

After saying that, Wu Tian turned his gaze back to the Wu Group Tower. Originally, if they only wanted two billion, he would have paid the money and they would have released his people. Wu Tian felt that he could let this matter go.

Although two billion was indeed a lot, Wu Tian still felt that it was worth it to use this money to buy the lives of his employees.

However, their sudden increase in price, and the five times increase, made Wu Tian unable to stand it.

The employee's life was still priceless, but his dignity could not be violated like this.

Could it be that everyone thought that Wu Group company was a big spender and that everyone would come to cause trouble for them in the future?

Once this opening was made, it would be a truly dangerous thing for these employees in the future.

Who knows if anyone will try to follow the example of these thugs and threaten Wu Tian?

Thinking of this, Wu Tian slowly walked to Azure Dragon's side, patted on his shoulder and gave him a new order.

"Go to Flower Island and find Number One and Erniu! I want them to use it urgently! "

Azure Dragon looked at the Wu Group Tower reluctantly. He really wanted to contribute his own power here.

However, he had to follow Wu Tian's orders. Although he was reluctant to part with them, he still obeyed Wu Tian's request and drove away.

Since things had come to this, Wu Tian felt that there was no need for him to hide anymore.

He quickly notified Sunn Hongsheng, but when he heard the news, he immediately fell silent.

Sunn Hongsheng didn't say too much, he just hung up silently and didn't say when he would come over.

At this moment, he should be about to go crazy.

The police force alone was not enough. According to the thugs, there were nearly a hundred of them, which was not something that an average cop could handle.

Wu Tian thought for a while before finding a new target, Luo Huaicheng.

He was the official Special Team officer, if this matter could be passed on to him, it might be easily resolved.

After all, this kind of Special Team would usually train them how to target terrorists. Wouldn't it make it easier for them to rescue all of their hostages if they mobilized their people?

Thinking of this, Wu Tian quickly took action. He immediately called Luo Huaicheng and told him what had happened.

He nodded his head in agreement without a second word, saying that he wanted to report to his superior.

However, Luo Huaicheng called back within a few minutes and told him that they would leave immediately.

Wu Tian finally got some good news, and he felt relieved inside.

With support, things would be much easier to deal with. The police were the first to arrive at the scene, and the number of people that came was not just 10 or 20 people.

The only thing they could do was to be cautious and seal off the surroundings of the Wu Group Building.

After all, it was very easy to encounter other threats at this time. If they let the masses get hurt, it would be a real problem for them.

Following the arrival of Luo Huaicheng and the others, a large group of journalists also rushed over. When they heard that there was big news here, especially that it was from Wu Tian's Wu Group Building, they immediately felt that there were articles to be done.

It had to be known that Wu Tian had once offended this group of people. Therefore, they would definitely go all out if they had a chance like this now.

"Audience friends, this is a front-line journalist! The one in front of you is the Wu Group Building. It is said that at this very moment, the entire building has been occupied by angry masses.

Hearing the words of the reporters beside him, Wu Tian was immediately enraged.

This guy's ass is way too crooked. These thugs have even set up a bomb, yet they still call them angry people?

What did Wu Tian do to make him a heartless boss?

"All of you, scram to the side!"

Thinking about that, Wu Tian instantly became furious. He angrily walked to the reporter's side, pointed at his nose and shouted.

"Ladies and gentlemen, please take a look. This is the boss we were talking about. No wonder this happened ..."

The reporter didn't just stay, he pointed the camera at Wu Tian instead.

Seeing this scene, Wu Tian picked up a stick from the side and walked directly to the side of the camera without saying anything. He smashed the camera with a swing of his stick.

"What are you doing!"

The reporter immediately shouted loudly. He didn't expect Wu Tian to actually make a move.

"I told you to scram! Don't let me say it a second time! "

"Police, police, they're smashing my stuff!"

The reporter waved at Sunn Hongsheng and the others in the distance. He probably felt that as long as he was a reporter, he could do whatever he wanted.

Sunn Hongsheng walked over and looked at him coldly. He knew what the problem was without asking.

To a certain extent, these reporters would sometimes seek their own deaths, but they couldn't be blamed on others.

"Right now, this is the perimeter of the security, you have trespassed into it without permission, we can't guarantee your safety!"

Sunn Hongsheng left after throwing that sentence. The reporters and photographers looked at each other in dismay. They knew that they had kicked a steel plate this time and left dejectedly.
