

Hidden Billionaire Chapter 11 - Role Model for the Entire Class -

C11 Role Model for the Entire Class

In Mu Ran's old class, her students payed full attention to her lessons, and no one dared make a mistake.

Wu Tian also studied seriously, as he loved to listen to Teacher Gao's lessons.

But because he had been reading until late last night, he had not slept well. Halfway through the class, he fell asleep on the desk.

After falling asleep, he had a nightmare. He dreamed that his investment had failed, that he had spent all the three hundred million that his grandfather had given him, and that he was disqualified from inheriting the hundreds of billions in assets of his family.

"Grandfather, give me another chance, I'll definitely be able to do it ..."

In his nightmare, Wu Tian screamed at the top of his lungs, hoping that his grandpa would give him another chance. He wasn't willing to lose just like that.

His shout attracted the attention of all the students.

When they saw Wu Tian sleeping soundly on the desk, everyone was shocked.

They didn't expect Wu Tian to be so daring as to doze off in Teacher Gao's classroom and still talk in his sleep. Was he tired of living?

"Cough, cough!"

Wu Tian's sleep talking naturally alarmed Mu Ran. She coughed heavily and shouted, "Wu Tian!"

"Grandfather, I'm sure I can do it. Give me another chance and I won't let you down." Wu Tian was not woken up by Teacher Gao's shout and continued talking in his sleep.

Mu Ran threw the chalk in her hand on the table as her face turned dark. This was the first time she saw a student who dared to sleep in her class. She couldn't wake him up.

Her eyes turned cold as she slowly walked towards Wu Tian. Her entire body was filled with anger.

The atmosphere in the classroom was tense to the extreme. The students had never seen Teacher Gao so angry before. Their hearts felt as if they had been pressed down by a heavy stone.

At the same time, everyone could not help but feel sympathy for Wu Tian. This time, Wu Tian was sleeping soundly during Teacher Gao's lesson. Presumably, the consequences would be very serious.

Jiang Wan and Sunn Xiaohao couldn't help but be secretly anxious. They wanted to warn Wu Tian, but it was too late.

On the other hand, Zhao Yang could not help but gloat secretly. He could not wait to see Wu Tian be tortured to death by Teacher Gao.

"Wu Tian, wake up." Under the attentive gazes of the students, Mu Ran walked over and gave Wu Tian a push.

Wu Tian woke up with a start and realized that it was just a nightmare.

Fortunately, it was just a nightmare. If he really failed his investments and lost the right to inherit his family's property, then he would be done for.

He had just let out a sigh of relief when he noticed Mu Ran's cannibal eyes staring at him. His expression tensed up as he hastily greeted her, "Good evening, Teacher Gao!"

"Haha ..."

Upon hearing this, a few of the students couldn't hold back their laughter any longer and burst out laughing.

Mu Ran slapped on the table angrily and scolded Wu Tian, "Wu Tian, what do you think you're doing treating my class as if it were your dorm room? Good evening. Do you know what time it is?"

"Ten in the morning." Wu Tian swallowed his saliva and lowered his head like a child who had done something wrong.

He had been reading and thinking about his future investments last night, so he hadn't slept well. That's why he fell asleep during Teacher Gao's lesson.

"It's only ten in the morning, and you're already sleeping. Where did you go last night?"

"I ..."

"Stand up." Mu Ran didn't even give Wu Tian a chance to explain. She put her hands behind her back and said, "I'll ask you two questions now. If you can't answer them, then you will have to wash the toilet at noon."

"Yes!" Wu Tian nodded with a depressed expression.

"First question, what is strategy management?" Mu Ran glared at Wu Tian and asked coldly.

When these words were spoken, the expressions of the students became strange.

They had never learned strategic management before, so when Teacher Gao asked this question, it was obviously to make things difficult for Wu Tian.

Zhao Yang, on the other hand, looked extremely excited. It seemed like Teacher Gao wanted to embarrass Wu Tian in front of everyone by asking such a difficult question.

Just when everyone thought that Wu Tian wouldn't be able to answer, Wu Tian slowly said, "Strategic management refers to the overall and long-term development direction, goals, tasks and policies of an enterprise or organization for a certain period of time ..."

Wu Tian spoke clearly and earnestly answered the teacher's question.

Coincidentally, the books he was reading last night were on strategic management, which was why he could answer this question so well.

After hearing the answer, the students were all very surprised. They didn't expect Wu Tian to be able to answer what they didn't know before.

Mu Ran was also very surprised. Originally, she was trying to make things difficult for Wu Tian, but she did not expect Student Wu's reply to be so accurate.

She was slightly taken aback before she asked the second question. "What's the difference between strategic and financial investments?"

"Strategic investments are longer than financial investments and are riskier and more professional due to a combination of cost and market considerations ..."

Wu Tian thought about it seriously in his head. He sorted out what he had learned in the books last night.

Only now did he realize that his grandfather's advice to him to study those management books was very useful.

Silence filled the classroom. Everyone's eyes lit up as they looked at Wu Tian.

Mu Ran's expression was clearly astonished. She did not expect Wu Tian to be able to answer the questions that he was supposed to not know how to answer. His answers were accurate without the slightest error.

"Very good answers."

Mu Ran's anger turned into joy as she could not help but clap.

Under the lead of Teacher Gao, the students all raised their hands and clapped. They couldn't help but applaud Wu Tian's performance.

All of a sudden, Wu Tian became the role model of the class and was praised by the students and teacher.

Zhao Yang originally wanted to see Wu Tian make a fool of himself, but after waiting for a long time, he only saw Wu Tian shine in the class.

Wu Tian was obviously dozing off in class and talking in his sleep, but in the end, not only did he not get scolded, he even got praised. How outrageous.

Unwilling to give up, Zhao Yang stood up and reminded the teacher, "Teacher Gao, Wu Tian was sleeping in your class just now."

"Student Wu usually works hard, so it's understandable for him to get sleepy occasionally," Mu Ran spoke up for Wu Tian.

This was the first time Teacher Gao had helped a student who had made a mistake.

"But ..."

Seeing that Teacher Gao was defending Wu Tian like this, Zhao Yang was momentarily speechless. Just as he was about to sit down, Mu Ran spoke up, "Student Zhao, let me ask you a simple question. What are the types of strategic investments?"

"I don't know."

Zhao Yang clenched his teeth as he drooped his head dejectedly.

He had never learned this kind of knowledge before. Not to mention that he didn't know the answer, even 95% of the students in the class didn't know the answer.

"See, this is the difference." Mu Ran stared at Zhao Yang for a few seconds before her gaze finally fell on Wu Tian. "I hope everyone doesn't learn from Zhao Yang and instead learn more from Wu Tian. He is our role model."

She led the applause again.

The classroom was once again filled with thunderous applause.

Zhao Yang clenched his fists and gritted his teeth. He had never felt as ashamed as he did today.

It was Wu Tian who was obviously napping in class, but in the end, this brat was praised, while he was mocked.
