

## Hidden Billionaire Chapter 1171 - Face the Enemy

C1171 Face the Enemy

Wu Tian took a deep breath. It was obvious who these people were after.

Previously, when Wu Tian was at Britain, he destroyed Brilliant Company in a single breath.

If they were going to take revenge, the first to suffer the consequences would definitely be Wu Tian.

There was no need to think about this, Wu Tian was also mentally prepared for it.

However, he never would have thought that his opponent's revenge would come so quickly. His opponent had recovered his vitality so quickly.

"Don't tell me that there's more than just Brilliant Company in this company that's involved in the transformation ..."

Wu Tian felt a huge pressure, but at this moment, he had no better choice.

"I'm afraid so. There are still some loopholes in our intelligence network. If we had investigated this matter earlier, we should have taken care of them all."

Tieh Jun was also a bit emotional, but this was a difficult matter.

After all, they had been moving within the Britain back then. At someone else's home ground, wanting to capture everyone else's biological and chemical transformation was an almost impossible task.

"Then we did not intercept them. Are there no warships at sea?"

"They're too fast, we're already pretty good to be able to find traces of them!"

Tieh Jun couldn't do anything about this. If the army's warships were useful, he wouldn't need to go to Wu Tian.

"Alright, I understand ..."

Wu Tian slowly closed his eyes. At this moment, he was starting to worry.

This time, there were 50 biochemical reformers. With this scale, could Wu Tian handle them? There was actually a lot of doubt in his heart as well.

Bio-transformation people were different from normal people, and also different from people like Wu Tian, who had gone through training.

They are using genetic engineering, and even biomedical technology, to maximize the transformation of the human body. Thus, it could obtain a strength that was far faster than humans, and even had some super powers that ordinary people couldn't have.

Number one and Erniu were two of the most typical examples.

The speed of # 1 could even exceed the speed of a fighter, to a certain extent. It was impossible for a human eye to capture it.

On the other hand, although Erniu didn't have a powerful body, she could directly read other people's consciousness and communicate with them in her mind.

The abilities of these two were very special, but they were also abnormally strong. If used properly, they would be able to display an enormous advantage.

But at the same time, Wu Tian also deeply felt the difficulties they faced this time.

Every biochemical reformer was an extremely troublesome existence, and this time around, the opponent had put in fifty of them ...

It was like a monstrous flood. Wu Tian felt like he was about to be submerged. He didn't even have any hope of solving this problem.

"Don't worry. This time around, we will rely on my people. Since we have the advantage of the home ground, it should not be too much of a problem to capture them. Although there may be some sacrifices ..."

Tieh Jun's expression also started to darken. After all, they were his soldiers and his subordinates. Watching them get injured or even sacrificed, as the main officer, he would definitely feel very upset.

However, for the sake of protecting more people and for the sake of protecting other civilians, this was something that they, as soldiers, had to do.

This responsibility was borne by Tieh Jun. He had done his best, but he realized that he was still unable to achieve perfection.

Since he had no other choice, he could only look for Wu Tian for help.

In the entire S City, perhaps only Wu Tian had the ability to find the positions of these biochemical reformers.

"I understand. Rest assured, I will definitely spare no effort to help you."

Wu Tian nodded. Coincidentally, their company had scout satellites to use, so finding these biochemical reformers shouldn't be a problem.

After several upgrades, this reconnaissance satellite had become very powerful.

To a certain extent, it could even monitor the movement of people in and out of the S City.

He was monitoring all the people outside, their faces, and their identities from time to time.

And with this, they were able to determine which people came to the S City for the first time and which people stayed there for a long time.

During this time, the police's crime rate had risen sharply, thanks in large part to the reconnaissance system.

Right now, these fifty biochemical reformers had intruded into the S City and happened to fall into Wu Tian's hands. This scout satellite of his should be able to play a huge role.

"With your words, I am relieved. Luo Huaicheng and the others are already leading their troops to search everywhere. I hope you can give them some guidance."

Wu Tian nodded. He immediately turned around and went to arrange this matter.

At this time, the Security Team had already started to move as well. Whether it was the Wu Group Building or the Flower Island Building, the security at these two locations had already risen to the maximum level.

Wu Tian requested for them to be on alert. Fortunately, they had made some plans to deal with these biochemical reformers, so the movement of the Security Team was carried out in an orderly manner.

Wu Tian himself also stayed in the data monitoring lobby 24 hours a day, looking at the real-time data displayed on the big screen.

Tieh Jun was also looking at the screens with a serious expression. He was both impressed and envious at the same time.

If only their army had something like this, why hadn't he known it before?

After this matter was over, Tieh Jun had decided that he must find a way to get this set of equipment from Wu Tian.

Their military's technology was clearly better than Wu Tian's. Whether it was the satellite or the rocket, they were already very mature.

However, their digitized system was very backward, and even Tieh Jun had to admit that. It seemed that they needed to hand over these systems to Wu Tian and the others.

"President Wu, the results of the investigation are out, we found out that it was the first time over three thousand people came to S City, they wore an obvious foreigner's face, about three hundred of them, through our police data, about two hundred and eighty people have normal procedures."

Wei Jiaming quickly walked over with a statistical report. His blabbering at least brought him some good news.

Tieh Jun's face was full of gratification. From the looks of it, it had only been less than two hours and the system had already found almost twenty people.

"Quick, can you locate these twenty people?!"

Tieh Jun was so excited that he couldn't wait any longer.

## **Hidden Billionaire Chapter 1172 - The Enemy be in the Dark**

C1172 The Enemy be in the Dark

Wei Jiaming looked at Tieh Jun's military uniform and the rank on it and immediately knew that this was a super powerful person.

Thus, without Wu Tian asking, he immediately replied: "No problem. Actually, we already located their coordinates. We can update them at any time."

With that, the technician immediately displayed the positions of the 20 people on the map.

Tieh Jun took out his cellphone and immediately dialed Luo Huaicheng's number.

Wu Tian stood at the side with his arms crossed as he looked at everything in front of him. Finding twenty people was not a small achievement, but there were still thirty people who had not been found.

The characteristics of these twenty people were more obvious, so they were easier to find, and they often appeared outside.

If they were caught, the remaining thirty people would definitely know that their whereabouts had already been exposed. It would be even more difficult to capture them later on.

With such a system, it would be impossible to take care of all these people in one fell swoop.

"Wait a moment, Tieh Jun, wait a moment." "Tell Captain Luo not to attack first."

"Why?"

Tieh Jun was stunned for a moment. The enemy was right in front of him. If he didn't seize this opportunity, then he might not be able to find such an opportunity in the future.

"We haven't found the rest yet. If we rashly make a move, I think we might cause a counterattack ..."

Wu Tian said worriedly. It would be fine if the enemy was targeting him, but if these biochemical reformers were targeting civilians, then no one would dare to bear the consequences.

Once these people launch an attack, they can cause a large number of civilian deaths and injuries in a very short period of time.

"This ..." At this moment, Tieh Jun slapped his forehead. He had also lost his mind from the rush of emotions. As soon as Wu Tian said this, he immediately reacted.

They really couldn't rush it, but they should still wait.

"But time waits for no man!" Tieh Jun stomped his feet in anxiety, but he still kept his phone.

"Let's wait a little longer."

Wu Tian took the initiative to comfort Tieh Jun, his heart also began to become more anxious. He knew that these people would be hard to find. If they wanted to hide, it would be easy to hide their tracks in this city of tens of millions of people.

"Wei Jiaming, do we have any other methods?"

Facing Wu Tian's question, Wei Jiaming immediately started thinking. However, there weren't many methods that they could use.

"We can only activate our own underlings to slowly investigate ..."

At this time, Wei Jiaming cautiously looked at Tieh Jun and was a little hesitant to speak.

Seeing Wei Jiaming like this, Wu Tian quickly waved his hand to tell him not to worry about what he had to say.

"It's like this, we can ask Yin Rumeng's people to go ask around. The people from the underground powers are scattered across the entire S City, and they are also the people who understand the local situation the best. If they are asked to investigate, they might be able to do so much more carefully than the police. "

Wei Jiaming's meaning wasn't unreasonable.

The police were the ones who knew the local situation best. But because they have too few people, they still have to run a metropolis. Although they had such thoughts, they did not have the ability to realize them.

That was the reason why there were some underground powers in some places. To some extent, they had taken on part of the responsibility of the police.

Whether it was for the sake of public security or to protect the interests of the local people, these underground powers had to some extent, and occasionally had some positive effects.

For example, if you wanted to find someone at this time, these underground powers would have a much clearer understanding of the situation than the police.

Tieh Jun immediately knew what was going on when he heard that. He wasn't an idiot.

"Now we can't care about the rules. Tell your people to move quickly! If the police find out, don't be afraid. Just say that I arranged it. "

In the face of a great enemy, sometimes boring rules had to be abandoned. Using the best solution was what mattered the most to them right now.

Wu Tian nodded at Wei Jiaming, hinting for him to quickly go and arrange this matter.

What followed was a long wait. Due to the pressure from the police earlier, their numbers had plummeted. Therefore, it was not easy for them to check out the situation.

Wu Tian and Tieh Jun stayed in the monitoring center. Other than sleeping and eating, they kept an eye on this place 24 hours a day.

At this moment, Sunn Hongsheng ran over in a hurry. From the looks of it, something bad seemed to have happened.

"President Wu, are you there?"

Sunn Hongsheng pushed open the door of the monitoring center and shouted towards the inside.

Wu Tian turned around and saw that it was this guy. He waved at him to signal for him to be quiet.

"Lower your voice ..."

Tieh Jun was sleeping on a chair beside him. He was too old after all, he couldn't stand guard here for too long, and it was easier for him to get tired.

At this moment, Wu Tian wanted to ask him to rest as soon as possible, because Wu Tian had a little respect for him.

"Who is this ..." Sunn Hongsheng looked at the old man who was sleeping soundly. Originally, he wanted to ask about this matter, but when he saw Tieh Jun's military uniform and rank, he immediately shut his mouth.

He knew what he should ask and what he shouldn't ask.

"What's wrong?"

"Something big has happened! In a small shanty on the east side of the city, five people were killed! The scene was too tragic. I wanted to borrow your system to investigate if there were any people moving around. "

Sunn Hongsheng gritted his teeth as he spoke. To make an old policeman like him so angry, one could imagine how tragic it would be ...

Wu Tian immediately frowned. When he heard that there was a criminal case, his first reaction was those 50 biochemical reformers.

The probability of them being the suspects was very high. If they were unable to find these people as soon as possible and catch all of them in one go, there would only be more and more cases like this.

"I know, but the system is investigating something else, so I can't give it to you for the time being."

Wu Tian knew how many lines there were on Sunn Hongsheng's side, but the things here were very important, so he couldn't step back.

"Just let me use it for a while, I'll return it to you right after my investigation."

Sunn Hongsheng still wanted to fight for it, but at this moment, he received another call. After he hung up, Sunn Hongsheng's expression became even more unsightly.

"In a residential building in the western part of the city, someone reported that they discovered a suspicious looking person. After they chased after him, that person instantly disappeared without a trace. Following that, there was an intense fire in that building — close to a dozen houses had been burnt ..."

## **Hidden Billionaire Chapter 1173 - Carry out Heavy Responsibilities**

C1173 Carry out Heavy Responsibilities

No one would have thought that things would become so troublesome.

It's just a murder case up ahead. Although the police thought that the matter was rather serious, they did not expect such a strong case to occur so soon.

"Think about it. If you're willing, contact me as soon as possible!" Sunn Hongsheng didn't care that much and just left after saying that.

The police didn't have much time left. He had to find a way to solve this case as soon as possible.

Wu Tian frowned at this moment. Things were not going to be easy to deal with now.

They could not afford to delay any longer. The longer this event went on, the more disadvantageous it became for them.

Furthermore, the other party's actions clearly meant that he wanted to make things difficult for Wu Tian and the others.

"What happened to you? I think I just heard something! " At this time, Tieh Jun quickly got up. He was too worried right now and couldn't even sleep well.

Wu Tian's expression was very ugly, he didn't know what to do now either.

"Something's happened. They're killing people in the city now ..."

"What!" Tieh Jun instantly opened his eyes wide. This was what they were afraid of, but in the end, whatever they were afraid of really came!

He quickly put on his coat, looking very nervous.

Wu Tian looked at Tieh Jun as if he was going to do something and stopped him at the market.

"Director Tie, you can't give the order right now! Aren't we going to waste all our efforts!"

How could he not understand Wu Tian's meaning? However, since the other party had become so arrogant, Tieh Jun felt that if he were to continue acting like this, then he had to think of something quickly.

"But we can't just watch them do that! I can't take this any longer! " At this moment, Tieh Jun's eyes became watery.

He pointed to the distant city and felt his heart ache.

"Those who were killed were all commoners who had nothing to do with this matter! They had never done anything wrong! I will definitely make them pay with their blood! "

As Tieh Jun spoke, he took out his phone and was about to contact Luo Huaicheng to start the operation.

Wu Tian also felt very uncomfortable. After all, they weren't cold-blooded people when it came to this kind of thing, how could they not have any feelings in their hearts?

It was just a matter of now. It was very likely that the problem could not be solved, but the result was that even more serious problems arose.

"Director Tie, we haven't finished investigating the information. If we act now, the remaining people will be very hard to find!" Wu Tian tried his best to persuade him. Sense was important, but at a time like this, one had to be more careful.

At times like these, one should be more calm. Being overwhelmed by emotions would only make matters worse.

"But, what do you think we should do? We can't just wait like this!" Tieh Jun smashed the table in hatred. He knew what was important and what was not, but the pressure was too great.

If it was anyone else, it would be difficult to bear, especially a big leader like Tieh Jun.

If this matter got out of hand, not only would he not take responsibility for it, he would also feel apologetic in his heart.

"If possible, Director Tie, why don't you let me handle this matter. Give me two days, and I will think of a way to catch all of these people! "

Wu Tian saw that the situation was not easy to handle, so he decided to just take care of it himself.

He didn't have a solution right now. He was mainly afraid that Tieh Jun wouldn't be able to bear the pressure. If he failed, all of their previous efforts would be in vain.

"But ..." Tieh Jun was a bit hesitant, but it was obvious that this proposal was quite attractive to him.

"Chairman Tie, you don't have to worry. I'm not just making this up, you don't have to worry. I will do my best to deal with it. Moreover, I will need your full cooperation. "

Wu Tian patted his chest. At this time, he had to make sure that he was unperturbed and unperturbed. Only by being calm and collected could Tieh Jun and the others calm down.

At this moment, Tieh Jun, who was originally determined, suddenly cried. He had lived for such a long time and he had seen all sorts of people. However, at this time, not many people could take the initiative to take over Tieh Jun's burden.

The more he thought about it, the more Tieh Jun felt touched. It was easy to be touched by someone who was old, but it was also because of this that it made people feel that it was so rare.

"I'm really sorry, we're already generals ..." For the first time, Tieh Jun felt that he was useless, but he was more pleased with himself. Being green above blue was the best comfort for him.

"Look at what you're saying." Although Wu Tian had a smile on his face, he was mentally increasing his brain's speed to the limit.

The current situation was not easy to resolve, especially with the enemy in the shadows and scattered throughout such a large city. Finding them among tens of millions of people was easier said than done!

"Do you have any good ideas?"

"Now we have to pool all our resources, the police, the army, the surveillance on the streets, my satellite, everything we can use, we have to use them all!"

Wu Tian immediately said. Things could only be resolved like this.

"Alright, don't worry. I'll communicate with the leaders of S City right now! With my level, they probably won't be able to say anything! " How could Tieh Jun disagree with Wu Tian's request? As long as it could help him solve this issue, he could agree to any condition he wanted.

Seeing how straightforward Tieh Jun was, Wu Tian suddenly felt that this was a good opportunity. If he was going to perform well, he would have to gain some benefits.

He was also worrying about this matter, and now that there seemed to be a good breakthrough, Wu Tian felt that he should make good use of it.

"Director Tie, when this matter is over, you have to agree to a few of my requests."

Hearing Wu Tian's words, Tieh Jun also laughed. This guy even knows to start asking a sky-high price at this time.

"Alright, alright, I'll listen to you! As long as you can handle this matter well, as long as your demands are not too excessive, I will agree to any of them! "

Tieh Jun was also straightforward. With his guarantee, Wu Tian felt much better.

The only thing left to do was to find a way to catch all fifty bastards.

Under Tieh Jun's command, the Flower Island quickly gathered a large number of people.

Although the police were in a hurry to deal with their case, they still sent out a large group of police officers led by Sunn Hongsheng.

Although they didn't know what kind of situation it was, even a fool could tell that things wouldn't be that simple.

## **Hidden Billionaire Chapter 1174 - Motivate the Masses**

C1174 Motivate the Masses

Under Tieh Jun's command, the Flower Island quickly gathered a large number of people.

Although the police were in a hurry to deal with their case, they still sent out a large group of police officers led by Sunn Hongsheng.

Although they didn't know what kind of situation it was, even a fool could tell that things wouldn't be that simple.

The representative of the military was Luo Huaicheng, the special forces under his command. He was already prepared at the beginning and could move anytime.

In addition to these two groups of people's accidents, Wu Tian also specially gathered Yin Rumeng, the local chamber of commerce, and even some of the directors of the basic resident committees.

It was fortunate that Flower Island's meeting room was large enough. Otherwise, with the size of nearly a thousand people, it would be difficult to find a place to put them down.

After everyone had gathered, Wu Tian looked at the audience and cleared his throat.

"I believe that everyone present must be very curious in their hearts. They must be thinking why I would appear here. However, you don't have to worry that I will immediately help you solve the doubts in your hearts. "

Wu Tian clapped his hands as he spoke and turned on the projection beside him.

His actions were a bit clumsy because it was usually Loong Yun who dealt with these things, so Wu Tian didn't use it often.

The people below were chattering among themselves. They had different opinions on why they were here this time.

Among them, Sunn Hongsheng and the others frowned. They just wanted to end this so-called meeting as soon as possible.

"First of all, I have to tell everyone that some people might not even know that something has happened to our S City." Wu Tian was silent for a moment before he slowly told Sunn Hongsheng the result. At the same time, he nodded at Sunn Hongsheng, signaling him to go on stage.

"As for the rest, let Officer Sun introduce them to you."

Sunn Hongsheng didn't think that there would be such a scene, but he still went up on stage resolutely. How could he refuse to do such a thing? Moreover, everyone present was familiar with some basic situations regarding S City, especially those aunties who lived with them.

They knew everyone in their area, so if they sent out the internet to help solve this case, they would definitely be able to provide a large amount of clues.

"Since the day before yesterday, there have been three murders and two incidents of arson in our S City! The number of casualties had reached as high as 30 people! As far as we know, the suspects are not one or two, but a gang of gangsters. "

Sunn Hongsheng gritted his teeth as he spoke. The thought of this made the roots of his teeth itch. This was because one or two of the families had encountered a massacre.

No matter who saw that scene, they would not feel good about it.

The people below immediately turned silent. Whoever heard this probably wouldn't feel comfortable in their hearts.

Especially those grandpas and grandpas, their ears were already soft to begin with. Sunn Hongsheng briefly introduced the case and the scene of the crime. These people were already sobbing.

"I know that everyone must be feeling very sad right now. Actually, it's the same for me as well. I just hope that we can solve this case as soon as possible! So if you can give me any clues! Please don't hide it! "

Sunn Hongsheng saw such a harmonious scene on the stage and he sighed in his heart. Initially, he was still brooding over Wu Tian's unwillingness to give up the satellite resources to him. However, that desire had long disappeared from his mind.

Without Wu Tian's words, he wouldn't even have the chance to speak of this case.

"Okay, Officer Sun, you may leave first. Captain Luo, you have to speak next."

Wu Tian saw that his emotions were brewing, it was about time to tell them the truth.

At this moment, Luo Huaicheng immediately stood up, put on his military cap and walked towards the VIP stage step by step.

The crowd's voices immediately dissipated and their gazes focused on Luo Huaicheng.

For a soldier to appear here meant that many people were already beginning to doubt their intentions.

They actually knew very well that this matter was probably not that simple.

It was not normal for there to be so many violent cases occurring within the next two to three days. Now that there was an army, it was highly likely that there were terrorists from outside ...

"I will not elaborate further on the incident that has occurred. Actually, our military had already detected a group of people three days ago. They numbered around 50 people! Smuggling from the sea to the S City. "

"According to our investigations, if nothing unexpected happens, these people should be spies from the Britain. These cases, if not, should at least be caused by them! So I'm here to beg everyone to cooperate with us as much as possible. The reason why we don't take up the net right now is because if we can't catch all fifty of them at the same time, it could cause even more terrible cases. "

Luo Huaicheng spoke very simply. He didn't tell them the whole truth, but it was enough to have an effect.

The people below, not only the elders and aunts of the residential committee, but also the police, they never thought that there would be such a thing behind all this.

However, this was also a good thing. They immediately knew the severity of this matter and how much help their actions would bring to this matter.

"So, I hope that you can help us as soon as possible. If you discover any suspicious people within your jurisdiction, especially strangers, they might not all have foreign faces, and they may not all not know how to speak our language of China. However, there must be some special characteristics on their bodies that are different from us."

"Wipe your eyes open!"

At this time, Wu Tian took over Luo Huaicheng's conversation. His purpose for hosting this meeting was completely out of the question.

To put it bluntly, everyone had to work together to complete this task. Although these fifty people were large in number, they were destined to fall into the vast sea of the People's War and not be able to create any big waves.

"Alright!"

Suddenly, a grandpa below the stage waved his arm and stood up as he shouted excitedly!

"I am the head of the community where the murder occurred! I wondered who could have done such a thing, but it turned out to be a spy from abroad! If you don't mind, I'll definitely help you guys investigate this matter! "

Under the leadership of this old man, everyone immediately started cheering with high morale.

## **Hidden Billionaire Chapter 1175 - Have Made Some Progress**

C1175 Have Made Some Progress

This time, Tieh Jun didn't say anything. He stood under the stage and looked at the whole venue.

He nodded with a gratified expression. He probably didn't expect such a scene to occur.

Tieh Jun was more positive about Wu Tian. Wu Tian on the stage was now in high spirits, just like he was back then.

With Wu Tian's help, this matter suddenly didn't seem so scary anymore. It didn't seem like it was that complicated to deal with.

The meeting ended quickly, but it was not as if nothing had been left behind.

There were thousands of them, so they couldn't all stay here. Thus, some of them were not very old, so they decided to set up a temporary command center in the conference room.

The other board directors would report back to them in time, and the people here would work with the military police to determine whether the information was useful or not.

Such a linkage control mechanism was completed very quickly. Since the equipment was already prepared and Wu Tian could provide food and shelter, there was no need to worry.

The most important thing was that this place was probably the safest place in the S City. Even if the fifty people here pierced through the heavens, it would be very difficult for them to charge into the Flower Island.

The arrangement of the automatic firearms here, as well as some defensive weapons, had long since been densely packed.

Wu Tian and the others had already made preparations in order to prevent such things from happening. Therefore, they continuously strengthened their defense in these areas.

Of course, these actions were carried out in top secret. Wu Tian was a little worried that these resident committee grandpas and grandpas would leak out and their efforts would be in vain.

However, Tieh Jun patted his shoulder to reassure Wu Tian.

"Don't be afraid, these people, they know what's important and what they should do. Unlike you youngsters, these seniors are the ones who truly value our country. They can even give up on themselves! "

Tieh Jun said emotionally. He was also of the same age as Ye Zichen, so he understood more about the thoughts of his peers.

With Tieh Jun's promise, Wu Tian felt more at ease and decided to leave these matters to these people for the time being.

Soon, Wu Tian's idea had already worked.

As the resident committees of the various communities in S City had already been mobilized, and it was a secret mobilization as well, there were countless people who saw some mysterious figures. They began to take photos and videos, and so on and on.

Or someone had reported their location. Then, Wu Tian's team confirmed the information through the reconnaissance satellite.

In less than a day, they had already found more than a dozen people.

Counting the ones previously found, there were only a dozen left out of the fifty.

If they were to think about it at this speed, they might really be able to find traces of everyone according to Wu Tian's words within two days.

However, Wu Tian never expected that after the initial explosion ended, their hearts suddenly stopped.

When there were only ten people left, they couldn't find anything ...

Wu Tian immediately frowned when he heard the news. This situation was not good, but there were only ten people left.

If properly used, these ten people could even break the heavens of S City.

Sunn Hongsheng looked anxious. He had been keeping an eye on the situation and the progress, so he was the clearest of everyone.

"I'm afraid it won't work. Our system should have reached its limit!"

Although he didn't want to say it, it was the truth and Sunn Hongsheng couldn't stop himself from doing so.

"Is there no other way? Should we activate the residential committee in the suburbs? Maybe they're hiding in the suburbs!"

Wu Tian frowned. Based on the current situation, the longer the time dragged on, the more disadvantageous it was for them.

It had been almost five days since they first appeared. During these five days, everyone was extremely nervous, afraid that they would hear news of the victim.

And the other party had indeed done the same. In the past few days, they had not stopped attacking and killing people, and even though most of the information had been covered up by the police, everyone's heart still became anxious.

As the saying goes, if good things don't go out, bad things will spread far and wide. After all, the murders that happened in the past few days had already spread like wildfire.

Everyone began to suspect the security of S City. Many people were nervous, and they even had to bring some weapons to defend themselves when they went out.

Although it was good to say that they were on high alert, it did not have any effect on their safety.

The reason for that was because those fifty biochemical reformers were not something that could be defended against with simple weapons.

In front of them, these ordinary commoners were like ants. As long as they casually extended their hands and moved their feet, they would be able to crush them to death.

"This won't solve the problem. In fact, we still have to figure out the purpose of these people!"

Sunn Hongsheng had calmed down. He knew it was useless to be in a hurry, especially when dealing with such a serious case.

"Their purpose?"

Wu Tian was stunned for a moment. Speaking of which, he didn't really think about these questions. He just vaguely guessed that these people were probably here for him.

"Why don't we change positions and think about what we would do if we were them? What would be the best thing for us?"

Following the lead of Sunn Hongsheng's words, Wu Tian began to seriously consider this matter.

If he was a biochemical reformer, then it was very clear that Wu Tian was the biggest enemy.

This was because Wu Tian was their greatest enemy. If not for Wu Tian's Brilliant Company, there wouldn't have been such a heavy casualty in the underground base.

Although Wu Tian didn't know much about the follow-up news, he vaguely heard a bit. It was said that not a single person from that underground base had managed to escape alive.

They obviously wouldn't let go of such a deep grudge. It was only a matter of time before they came to take revenge on Wu Tian.

"If it's me, I'll wait in the shadows and hide. I'll have to see when he'll make a mistake!"

Wu Tian muttered to himself. He was suddenly inspired by his own words, because if that was the case, then everything he did had suddenly become clear.

"Is it because I didn't expose any flaws that they were able to deliberately cause some trouble?"

Wu Tian grabbed Sunn Hongsheng and said excitedly.

Sunn Hongsheng sighed and nodded his head.
