

Hidden Billionaire Chapter 1186 - They Rush at the Enemy

C1186 They Rush at the Enemy

The scene before his eyes made Wu Tian feel as if they were samurai warriors.

They were dressed in clothes and held swords in their hands.

Wasn't this the soldier from the ancient battlefield?

Thinking of this, Wu Tian's blood started to boil. Which boy didn't have fantasies about being the great general that fought in front of the battle?

Now, Wu Tian realized that his wish had actually come true.

Their group of people had already formed a formation. Although there weren't many people, it still gave off the feeling of a magnificent army.

The Biochemical Man opposite of them saw their actions and seemed to be laughing at them.

These people had their arms crossed, either on their waists or holding their stomachs while laughing.

Wu Tian wasn't affected by their actions, he just continued to busy himself with his stuff.

His equipment was ready and he could fight to the death at any moment.

The distance between the two sides was about two hundred meters. Once they started running, it wouldn't even take twenty seconds to reach the other side.

This distance and process was actually not that long. After 20 seconds, it would be a battle between blood and steel.

"Brothers, are you ready?!"

At this time, Wu Tian waved his arm. No matter what, he must have enough momentum!

As he took the lead, the special forces members below immediately started shouting out loud. Their voices were constantly transmitted throughout the entire underground base.

Like a wave, it swept towards the Biochemical Man. Hearing the commotion, Wu Tian smiled, then suddenly pulled out a sword from his waist.

This sword was specially made for him. It was designed according to Wu Tian's favorite style and touch.

Honestly speaking, Wu Tian didn't think he was good at using this weapon because it had never been trained.

However, the Grand Dao was the simplest, and all methods of attack would become the same in the end.

As long as he could kill his opponent, with his strength and speed, even if he did not have any tricks up his sleeve, he would be able to achieve such a goal.

Wu Tian grasped the sword in his hand and charged forward with a chop.

"Charge!"

Following the order, Luo Huaicheng followed closely behind. Although he was the captain of Special Team, his training in cold weapons had never fallen behind.

He'd even frequently won some placings in the military.

Therefore, with the help of the exoskeleton Battle Mecha, Luo Huaicheng had absolute confidence that he could defeat the enemy in front of him. In other words, he was even eager to give it a try.

What happened before was just a small matter to Luo Huaicheng, it did not make him feel that the blood in his veins was boiling.

The rest of the team members formed a triangular formation behind them, with Wu Tian at the tip of the triangle. He would be the first to insert a sharp knife into the enemy's body.

Biochemical Man seemed to have never seen such a formation before, so they did not have any effective reactions.

Normally speaking, if they encountered such a stage of charging, dispersing between each other was equivalent to courting death.

These people were separated by two or three meters, and the five or six of them were like a net with a huge hole in it. Anyone who saw them would think that this thing was leaking air.

At the same time, they wouldn't be able to block Wu Tian's charge.

As if provoked by them, some among the Biochemical Man started to shout and rush towards Wu Tian and the others.

However, there were some who stayed where they were and didn't move. Their eyes were always on the exoskeleton Battle Mechas on Wu Tian and the rest. This thing was quite novel and they had never seen it before.

The leader, who looked like a tank, rushed in front of Wu Tian.

His arms were as thick as trees, and each step sent a tremor through the ground.

The 'thank you' feeling was like an elephant, but his speed was not very slow. When he charged forward, he was like a rhinoceros running at full speed, even if it was a tank in front of him, he would not hesitate to overturn it.

When this man charged forward, he lowered his head and bent over with his arms crossed in front of his chest, as if he was prepared to defend against the impact.

Wu Tian immediately made a gesture, and a crack appeared in the middle of their charging formation.

This kind of person couldn't just go head to head with him. He was definitely good at defense, so charging straight at him wouldn't benefit them in any way.

Since he couldn't afford to provoke them, he might as well hide.

Wu Tian and the others directly bypassed this person and broke through to the back. Of course, it wasn't that he didn't care about this family.

There were still some special forces at the back that specialized in aiming their weapons at such people.

With ejector in hand, they sprayed out a few iron nets at the burly man.

The sturdy Biochemical Man who thought he was not afraid of swords, spears and sticks immediately became weak under the high voltage attacks and knelt on the ground.

The iron net continued to emit high-intensity electric currents, pinning the strong man to the ground, making him unable to move. However, he continued to struggle with all his might. However, it seemed to be of no use.

Wu Tian didn't have the mood to care about this guy. All of his eyes were on these people in front of him.

These Biochemical Man were actually interested in Wu Tian and the others. Seeing Wu Tian rushing in front of them, a somewhat elegant Biochemical Man walked out.

When he walked, it was as if he was stepping on a cat as he walked lightly. Carefully looking at the sword hanging by his waist, he could see that it was very light.

This suggestion was a product from the West. It had a dazzling sword blade, as well as exquisite and ancient patterns engraved on it, as well as a needle-like silver sheen.

He still unsheathed his sword in a gentleman's manner, and then bowed with his hand on his chest.

Wu Tian grinned. This was the first time he saw someone who had so many things to do during a battle. That person had done a good job with the ceremony, but he didn't know if that person was powerful or not.

However, from the looks of it, he seemed to specialize in weapons, and could very possibly be an expert in Western Swords.

Therefore, Wu Tian's technique was naturally very mature. If Wu Tian wanted to give his opponent a painful blow, he had to deal with the opponent in one move.

He wanted to let them know that Wu Tian and the others were not to be trifled with.

After making up their minds, Wu Tian and Luo Huaicheng signaled with their eyes.

What he meant was to let Luo Huaicheng and the others go elsewhere to deal with the others, while the guy in front of him would be dealt with by Wu Tian alone.

Luo Huaicheng was a bit worried, but thinking that Wu Tian was the strongest amongst them and also the one with the most voice, he obediently shut his mouth and listened to Wu Tian's commands.

Hidden Billionaire Chapter 1187 - Got It

C1187 Got It

Wu Tian quickly bumped into the enemy in front of him. The weapon in his hand chopped towards the enemy's head at the best opportunity.

Actually, Wu Tian himself didn't know much about the use of the sword in his hand. He relied more on instinct, and also some moves he learned from movies and TV dramas.

The other party was not a fool, let alone a little rascal. Wu Tian's attacking posture had too many flaws. The opponent even slightly twisted his body and dodged Wu Tian's sword attack.

Then, this Biochemical Man's sword, which was attached to Wu Tian's weapon, quickly flew over from his blade, aiming straight at Wu Tian's sword holding palm.

Seeing that, Wu Tian immediately raised his sword to block his attack.

However, the opponent immediately changed his move. Then, he moved closer and kicked Wu Tian's stomach.

Wu Tian grunted and retreated two steps. He took a deep breath. Luckily he had the exoskeleton mecha to support his stomach, so it did not have much of an impact.

However, the opponent in front of him was too nimble and agile. Wu Tian's own skills were also lacking. He was simply unable to keep up with the opponent's speed.

Since that was the case, he could only use his own strength to solve the problem.

Wu Tian immediately activated his exoskeleton Battle Mecha, and his body shot out like a cannonball.

It was moving in a straight line so fast that the other party did not even have time to react before Wu Tian was right in front of him.

This time, Wu Tian didn't wave the sword in his hand. Instead, he grabbed the sword in front of his chest and thrust it towards his opponent.

He thought that by relying on his own strength and speed, even if he had to pierce through a metal board, it would still be pierced through.

However, although Wu Tian did not react to the Biochemical Man that Wu Tian was fighting, it instinctively twisted its body and forced Wu Tian's sword to pass through the gaps in his body.

At the same time, he picked up the sword in his hand and rushed towards Wu Tian's face.

This place was unprotected. Wu Tian started to think that this would make it easier to observe, so he didn't wear a helmet.

However, this became Wu Tian's biggest weakness.

Suddenly, Wu Tian's life was in danger. His charge was too fast, it was too difficult for him to dodge.

If he were to directly charge at it, his opponent's sword would stab him in the face and pierce through his skull.

Wu Tian didn't want to see himself dying in such a way... Thus, he had to think of a way to survive.

However, the huge inertia and impact made it hard for Wu Tian to make any changes. At this critical moment, although Wu Tian was helpless, he could only do it. He quickly let go of his sword.

Then he punched at the enemy.

His hands were protected by the exoskeleton Battle Mecha, so he could only place his safety on the protective armour on his body.

Although its body wasn't particularly heavy, its strength and hardness were very high. Wu Tian's clothes were different from the others', there was a large amount of metal inside.

With a ding sound, a burst of sparks appeared on Wu Tian's fist.

He could clearly feel that his fist had been pierced by something, but it was only in this state.

However, he was still a little surprised. The opponent's sword was also much tougher than Wu Tian had imagined. It was actually able to pierce through his armor.

The fist was originally the hardest part of the exoskeleton armor on his body, but it was not a good thing for the enemy to break through this place so easily.

Compared to Wu Tian, the other party was even more surprised.

This was because after that sound just now, his opponent's sword had been broken into several pieces by the immense impact.

Presumably, the material used by the other party was also top tier, but he was still no match for Wu Tian.

While the opponent was still in a daze, Wu Tian quickly grabbed his sword again and tried to take the opponent's life.

The Biochemical Man just noticed Wu Tian's actions at this time, but it was too late.

Under Wu Tian's control, the tip of the sword instantly slashed across the man's throat. Wu Tian's original movements immediately became stagnant.

The next moment, blood gushed out from the man's neck.

Wu Tian quickly dodged to the side. He didn't want his body to get dirty by the blood.

After spending so much effort, the result was still the same. Wu Tian succeeded.

However, he waved his hand. Just now, he didn't feel it, but at this moment, Wu Tian clearly felt a little pain in his hand. It seemed that the sword just now didn't simply pierce Wu Tian's fist.

However, right now, he didn't have the time to check it out, so he could only brace himself and continue fighting.

Luo Huaicheng and the others also seemed to be doing quite well. He was fighting with a girl, and that guy was pressing her down step by step. He used his own skills to force her into a corner, and together with his two or three companions, he began to attack her.

Because they were all special forces soldiers that they had trained together, the coordination between them could be said to be superb.

Even if his physical fitness was far inferior to that of his opponent, he could still reach half a kilogram of eight taels. At least they were not at a disadvantage.

Wu Tian let out a long sigh. It seemed that this operation was finally going to succeed.

He quickly opened up the communication and asked Tieh Jun who was in the command room: "And the Biochemical Man never appeared? We have to quickly think of a way to eliminate them in one fell swoop! "

"There are still a few people outside, and there seem to be a few more people hiding in the city of S City. They haven't come out yet."

Tieh Jun said seriously. This meant that it was good news to eliminate so many enemies in front of him. However, it was not a good thing for them to have these few remaining people who would never come out.

"Dammit ..."

Wu Tian cursed, but at this moment, he could only accept the reality in front of him.

They had to eliminate the enemy before they could think of anything else.

After saying that, he once again grabbed his sword and strode toward the nearest enemy.

This person's face seemed to be filled with fear. He wanted to run for his life, but there was nowhere to run to behind him.

"Run! This guy wants to catch us all in one fell swoop! We've been schemed against!"

The Biochemical Man was running away while shouting at its companion. Wu Tian was surprised to hear it, he spoke in English, but the content was what Wu Tian was thinking.

"Stop, you still want to run?"

Without saying anything, Wu Tian immediately chased and landed a punch on the man's back, knocking him down onto the ground.

Hidden Billionaire Chapter 1188 - Struggle for Body

C1188 Struggle for Body

The Biochemical Man rolled and crawled on the ground like a dog that had lost its family.

Seeing this, Wu Tian couldn't help but recall the scene of them flaunting their power. They really did take turns.

These people had never thought that they would encounter such a situation. Perhaps they were quite confident in their strength, but in the face of immense strength and numbers, their individual strength and excellence were no longer an advantage.

It could even be said that the price to performance ratio was very low. Wu Tian and the others only used some machines and equipment as well as weapons to flatten the gap between these Biochemical Man.

Although they only managed to catch up, with their hundreds of men, even a single spit would be enough to drown them.

"I beg of you, don't kill me. I don't want to be killed by you. Do whatever you want me to do ..."

The Biochemical Man rolled and crawled on the ground while begging Wu Tian for mercy.

Wu Tian didn't say anything and didn't reply. He just looked at the person in front of him with a smile and pressed closer towards him step by step.

"I'm really begging you, let me go, I will be useful to you."

As the Biochemical Man spoke, it began to cry, sounding very heartbreaking. However, Wu Tian knew that this was just a cover.

Before he finished, Wu Tian suddenly felt dizzy and his body stopped moving. Furthermore, there was a voice that seemed to be saying something in his head. However, the more Wu Tian wanted to listen, the more he couldn't hear clearly.

Seeing that Wu Tian had suddenly stopped, the Biochemical Man in front of him immediately crawled up and ran away in panic.

Wu Tian suddenly remembered that the Biochemical Man had not displayed any special features. He immediately realized that the Biochemical Man might have done this on purpose.

Thinking of this, Wu Tian sneered. He stretched out his hand to pinch his thigh, letting the pain wake him up.

Next, he took out his weapon and started chasing the man.

The Biochemical Man that was running away was very surprised to see Wu Tian chasing again. He probably did not expect Wu Tian to be able to break through his control in such a short period of time.

"Don't come over, turn around!"

The Biochemical Man cried out and waved its hand towards Wu Tian, making a strange pose. Wu Tian originally did not think much of it. He felt that it was just a struggle before his death.

But the body he did not expect actually followed his plan. Wu Tian almost tripped on himself when he turned around.

This time, Wu Tian was completely enraged. He never thought that there would be someone who could control his body. He was clearly still conscious, whatever he was ...

This Biochemical Man's abilities seemed to be a little scary, at this moment, Wu Tian's mind was filled with these thoughts.

In the blink of an eye, Erniu seemed to make sense. Since someone like her could listen to other people's thoughts, she definitely had some ability to control other people's thoughts.

This was probably the case with the Biochemical Man in front of him.

Thinking about this, Wu Tian started to compete with this Biochemical Man for control of his body. He wanted to use brute force, but he found that it was the most difficult thing in the world to compete with him.

However, it wasn't like Wu Tian had no other choice. Although he lost control of his limbs, his brain and the rest of his head could still be used freely.

Biochemical Man controlled Wu Tian's hand and raised the sword in his hand. He took a pose of suicide, then tried to stab the sword down with all his might.

However, the movement suddenly stopped halfway, the Biochemical Man stared wide-eyed in disbelief.

However, Wu Tian was full of smiles. This was indeed his doing.

The Biochemical Man could not believe it, so it waved its hand a few times, wanting to regain control of Wu Tian's body. However, after doing so, it realized that it did not lose control of Wu Tian, but Wu Tian's body could not move according to his plan.

Biochemical Man s tended to display their strength, but they forgot that Wu Tian was wearing a exoskeleton Battle Mecha.

It had to be known that this exoskeleton Battle Mecha could not only help the human body, but could also be used as a prison to control it.

Although Wu Tian had no way of controlling his settings, he could still control the exoskeleton Battle Mecha through voice transmission and use mechanical strength to resist the body. Unexpectedly, he succeeded.

"Two steps forward."

Wu Tian used his voice to control the exoskeleton Battle Mecha. At this moment, the Biochemical Man was already extremely scared, and there was even some wetness appearing between its legs.

He was actually scared to the point of peeing his pants at this moment ... Wu Tian coldly snorted. Against such an opponent, even if he won, it wouldn't mean much to him.

"Is that all you've got? "It's really not interesting at all."

Wu Tian smiled and walked closer step by step.

When the Biochemical Man saw that all of its resistance had failed, it hurriedly kneeled on the ground.

"Please let me go, I can help you with something ..."

"Do you think I'd believe you?"

Wu Tian felt that this guy treated him like a fool. It could be said that he had an irreconcilable grudge with these biochemical reformers. The Biochemical Man obviously wanted to take Wu Tian's life, so how could Wu Tian have such a hidden trouble by his side?

"I'm not on the same side as them ..." I don't care about the dead, because we're from other bases. "

The Biochemical Man stuttered as it explained. Wu Tian didn't actually say anything, nor did he ask.

However, his answer seemed to be deliberately trying to please Wu Tian.

"Really ..." We were just sent out... We don't even know what to do when we get here. "

Hearing the Biochemical Man's words, Wu Tian quickly answered the communication in the command room, and then passed on these words to Tieh Jun.

This was a good opportunity to find out what was going on with these people.

"Then tell me, where did you come from?"

"I don't know either ..." It's just that one day, we were brought out of the base and sent to a ship. We floated in the sea for more than ten days and then told that we were about to get off. "

The Biochemical Man stuttered, as if he didn't know much.

"Then what is your purpose this time?"

"It seems like he wants us to take revenge on a person, or an organization. This person is called Wu Tian. "That's all we know ..."

WHAT

Hidden Billionaire Chapter 1189 - Tornadoes

C1189 Tornadoes

Hearing this, Wu Tian sneered in his heart. It seemed that it wasn't too different from what he imagined.

However, Wu Tian was still wondering if the guy in front of him should keep him.

However, the Biochemical Man below him could see Wu Tian's worry, so he quickly found an opportunity.

"Master Wu Tian, you can spare my life. I can definitely be of great help to you, just like your Erniu!"

Hearing him suddenly say such words, Wu Tian was shocked.

How did this guy know about Erniu's existence? Wu Tian had never mentioned it, he just thought about it.

Thinking about that, Wu Tian suddenly realized that he probably didn't know about it from any other way, but he could read his consciousness.

Wu Tian's expression and eyes immediately became unfriendly.

The Biochemical Man immediately changed its face and expression to look like it was flattering. Perhaps it felt that Wu Tian would only feel happy if it was like this.

"Lord Wu Tian, my strength will definitely not disappoint. I can do what she can, and I can even be stronger than her. You should know that I can control the others ..."

His words were endless, but Wu Tian started to mutter in his heart.

This guy is a bit dangerous.

Although Wu Tian already knew that Erniu had this ability, it didn't mean that Wu Tian could allow others to easily find out what was on his mind.

In an instant, Wu Tian had decided the life or death of the man in front of him.

"What are you doing?" Of course he knew, the idea in Wu Tian's mind was not defensive at all against this Biochemical Man.

"Now that things have developed to this point, I can't hide it anymore. Sorry, you're finished."

Wu Tian said coldly and reached out to grab the sword. He walked towards the Biochemical Man with an evil grin.

Tieh Jun saw that Wu Tian seemed to be talking here, so he quickly asked if something was wrong.

"Wu Tian, I think this guy is a bit cowardly. Why don't we capture him alive so I can continue interrogating him when I bring him back?" It wasn't surprising that Tieh Jun had such an idea.

After all, after these Biochemical Man removed their threat, they were still a very important experimental subject.

After all, they had a lot of high technology gathered on their bodies. If China could also master these biochemical transformation techniques, then they wouldn't need to worry about the threat that Britain would pose to them in the future.

When Wu Tian heard Tieh Jun's words, he waved the sword in his hand and a wave of blood gushed out. In front of him, the Biochemical Man that was begging for his life was instantly stained with blood.

"Director Tie, you spoke too late, I couldn't stop ..." Wu Tian hurriedly said. His tone seemed to be a little apologetic, but his eyes were incredibly cold.

Seeing the situation, Tieh Jun opened his mouth, but in the end, he didn't say anything. He just let it pass.

Wu Tian naturally wouldn't say anything about this. He didn't accidentally kill someone, but he did it on purpose.

If that Biochemical Man fell into Tieh Jun's hands, Wu Tian didn't dare to imagine what kind of effect it would have.

However, Wu Tian only knew one thing. He definitely could not tolerate the fact that anyone who could think in his head would continue to exist.

This was Wu Tian's greatest threat. If he didn't kill this Biochemical Man, then it was very likely that it would be used against Wu Tian, or against other people.

Wu Tian was trying his best to keep Erniu's existence a top secret. Naturally, he could only hope to take this advantage into his own hands.

Killing that Biochemical Man was, of course, Wu Tian's choice.

However, even if the matter was over, Tieh Jun didn't say anything. Naturally, Wu Tian wouldn't bring it up on his own accord.

That unlucky Biochemical Man also silently lost its life.

The reason for all this was due to Wu Tian thinking that he was smart. If he didn't tell Wu Tian about his ability, or what happened with Erniu, Wu Tian might not have done it at all.

But there was no chance of a second try, just as there would be no resurrection after his death.

Wu Tian sized up the other Biochemical Man with a cold gaze. They were losing as if they were a landslide and had lost all will to fight.

After losing so many times, the pride in their hearts was about to crumble.

His originally proud and strong body and special abilities, in front of a huge number of soldiers like Wu Tian, he did not have any advantage at all.

Occasionally, there would be a few who could fight with Luo Huaicheng, but they were still unable to withstand the onslaught.

The battle lasted for half an hour. In the end, one Biochemical Man surrendered and all the others died.

This result could be said to be a complete victory, but there were still quite a few casualties. It was said that more than twenty Special Team personnel had been injured or even killed.

However, Luo Huaicheng was already very satisfied with the result of their battle.

"The situation right now is very good. I suggest that we quickly catch all of the people outside!"

"We'll listen to you!"

Tieh Jun agreed without a second word. Wu Tian's request was also reasonable.

Now that their morale was high, it would be a waste if they didn't take advantage of it.

After receiving the order, Wu Tian rushed out with his men. When the Biochemical Man outside heard the news, their first reaction was not to fight, but to run away.

They weren't idiots. Seeing so many of their comrades fall at this place, they knew that they wouldn't be able to deal with Wu Tian's group.

Thus, at this very moment, the only motivation these people had was to escape.

Unfortunately, this time they met Wu Tian. Regarding their possible escape, Wu Tian was already prepared.

These Biochemical Man were very meticulous and even separated different routes in order to escape. They thought that Wu Tian and the others would have no choice but to spread the medical records in their hands.

But in reality, Wu Tian had long since arranged for Security Team to be specifically followed.

Once these people spread out, the Security Team s would immediately encircle them. They could deal with one of them and use iron webs with high voltage electric currents to capture each and every one of the Biochemical Man.

The battle outside ended very quickly. They didn't even have a proper fight with Wu Tian and the others, and they were all captured alive.

Hidden Billionaire Chapter 1190 - Sea Needle Catcher

C1190 Sea Needle Catcher

At first, everyone thought that there would be a century old war and that there would be a lot of casualties on their side. However, based on the current statistics, it seemed to be acceptable.

When the new day's sun arrived, the horizon had already returned to its former tranquility.

Actually, quite a few people in the S City had seen the huge fireball and the sound of explosion yesterday.

But soon, the weather department came out to clarify that there had been an accident at one of the factories, but fortunately, there had been no casualties.

Thus, Wu Tian and the others' activities were easily covered up. This kind of thing definitely could not be casually known by the common people.

However, Wu Tian and Tieh Jun did not relax because there were still a few people who had hidden themselves and never showed their faces.

Wu Tian and the others put in a lot of effort, but they couldn't find them because it was too hard to find them.

They were like stones sinking into the ocean, and after sneaking into the S City, they could no longer be found.

While everyone was celebrating, Wu Tian's and Tieh Jun's face were heavy. They sat worriedly in the combat command room, looking at the bright spots on the big screen.

Su Cancan and Luo Huaicheng were each leading a team and heading to an area where enemies might appear.

These pieces of information were all provided by the resident committee grandpas and grandpas. However, Wu Tian and the others had already checked a lot these past two days, but they still couldn't find any news on those few people.

Whether they succeeded or not, they could only rely on this method to obtain the results.

"How are you doing? Have we reached the designated location? "

Wu Tian asked worriedly.

While they had been waiting for a day or two, there had been close to ten consecutive cases of murder.

The related cases were being broadcasted continuously on television, but in reality, nothing happened to Wu Tian and the others. What was going on with these cases?

This was the revenge that the Biochemical Man had taken against Wu Tian and the others. However, the targets of these people's revenge were those ordinary people who were completely unaware of what they had done, and did not even know what they had done.

"Don't jabber on there!"

Su Cancan's voice sounded impatient from the communicator. Her tone made Wu Tian feel very close to her.

Indeed, the same tone made him feel at ease. This showed that Su Cancan's condition was no different from usual.

"How many are left?"

At this moment, Tieh Jun rubbed his temples. He hadn't had a good rest for the past few days. It was as if his hair had turned white overnight. He seemed to be in low spirits.

Wu Tian could see him like this, but there was no other way around it. Tieh Jun was the person in charge of this incident, and he had to deal with it well.

With so many casualties, the pressure on Tieh Jun was getting heavier and heavier, almost causing him to lose his breath.

"5. Only 5 are left! "

Wu Tian clenched his teeth fiercely. They still haven't found any of the five people yet.

This matter was stuck in their throats like a fish bone, making Wu Tian, Steel Village and the others unable to sleep or eat.

"Can it be that you want me to mobilize the masses?" Tieh Jun was almost out of options. The neighborhood committee's grandpas and grandpas were spinning continuously as they tried to help Tieh Jun find these five people.

However, these people did not have any useful clues, so one could imagine how difficult it was to find these Biochemical Man.

"No, if I do that, it will cause a huge panic ..." Wu Tian immediately rejected it. The reason why they kept hiding was because they couldn't let too many people know about this. Otherwise, it would be even more difficult to find those five people.

This was because no one could guarantee what kind of mentality and thoughts ordinary people would have when they learned that there was such a thing as a biochemical reformer.

Perhaps there were people who would worship them and even help them.

Don't underestimate the stupidity of normal people. This was something that they would definitely do.

The two of them chatted while Su Cancan reported back on her actions.

"We've already broken through and entered. It's said that there's no one in that suspicious room."

Su Cancan's tone wasn't too good, probably because she had some disagreements with Wu Tian.

Perhaps he thought that Wu Tian had used a random piece of information to scare Su Cancan over.

"Damn it!"

Wu Tian was very unhappy. He marked this spot on the map with a cross. Actually, there weren't many similar points. There were only 50 or so on the map. The rest had already been searched by them over a hundred times.

The footprints of Su Cancan, Luo Huaicheng and the rest of the search teams were all over the entire S City, and various kinds of rumors were starting to spread around the room.

The police were also under a lot of pressure. Sun Hongsheng couldn't wait to visit them for a dozen times a day because he wanted to be able to get the information as soon as possible so that he could catch them and settle the case.

"We can't go on like this. Even if we look for him for a year, I'm afraid it might not be effective." Wu Tian felt that at this rate, it would only be a waste of time and energy.

They had spent so much effort to find these five people, but they still couldn't find them. Rather than working in such a futile effort, they might as well stop the operation and look for other ways.

"How can that be! As soon as we relax, they'll commit crimes! "

Tieh Jun insisted on not agreeing, but Wu Tian looked at him and sighed.

"There are some things that I don't really want to say, but I have to say them now. Even if we were to search, these people wouldn't stop them from committing the crime. Over the past two days, there have been more than ten murders ... I don't think they're relaxed at all. "

When Wu Tian said this, he glanced at Tieh Jun. This 60-odd year old man was no longer as imposing as before. On the contrary, he was more worried than ever.

"But ..."

Tieh Jun wanted to say something more, but reason told him that Wu Tian's words were reasonable.

If they went down like this, who knew when they would be able to find all five of them.

Instead of this constant stimulus, perhaps it was time to soften their behavior.

"You can go back and rest for a while. I will be responsible for this. I will come up with a solution. I will be responsible for any compensation if anything happens."

Wu Tian said this not only to reassure Tieh Jun, but also to let him rest first. A long period of nervousness was a huge pressure on anyone's body.

Tieh Jun looked at Wu Tian and finally nodded in agreement.

"Alright, I'll leave it to you for now."
