

Hidden Billionaire Chapter 1191 - Obstruction Encountered

C1191 Obstruction Encountered

Tieh Jun walked out of the room solemnly. The car was already waiting outside.

Speaking of which, he hadn't been home for a long time. Ever since this incident, Tieh Jun had been planning outside the house and rarely slept.

As soon as he got in the car, Tieh Jun could feel that his mind was starting to get a little dizzy. A strong sense of sleepiness started to sweep towards Tieh Jun.

"Ding dong ding ..."

Just as he was about to fall asleep, Tieh Jun's phone suddenly rang. He took it out tremblingly. When he looked at the contact list, he found that it was his daughter's number.

He hadn't been in contact with his family for the past few days, so his daughter should be worried too.

"What happened? Daddy is going home right now."

Tieh Jun's voice didn't have the usual dignity, but was filled with gentleness. It was no different from the way an ordinary father treats his own child.

"That's good. I can see that things haven't been peaceful recently, so I'm worried ..."

Hearing his daughter's concern over the phone, all the burdens Tieh Jun had were gone.

He thought he might be unable to hold on any longer, but at this moment, Tieh Jun suddenly felt full of energy.

Wasn't he so diligent so that he could protect his daughter and these commoners?

"Don't worry, don't you know who Daddy is? I'll be home very soon. I hope to be able to eat the food you make."

Tieh Jun happily chatted with his daughter for a while before hanging up in a hurry.

He wanted to hurry up and rest in the car so he could talk to his daughter when he got home.

At his age, he was already more and more reluctant to part with his family, unlike when he was young and could still leave his family ruthlessly.

Right now, he would often think about his daughter in his heart. From time to time, he would think about what his daughter was doing now.

It could be said that after his wife passed away, his daughter became Tieh Jun's only hope.

The car was quietly driving along the road. Due to the chaos in the city, very few people were able to get out of their houses.

Especially when the sky was getting dark, the streets were empty. The once prosperous and large city was now like a dead city, empty.

As the car drove forward, a figure suddenly appeared in front of it. The driver quickly stepped on the brakes, almost bumping into this person.

The distance between the car and the man was almost ten centimeters, but fortunately there was no collision between them.

"F * ck!"

The driver cursed. A second ago, when he was driving, there was nothing in front of him. Suddenly, a person walked out from the front of the car.

If he hadn't reacted so quickly, perhaps their car would have collided with this person by now.

"You don't know how to watch the road. You didn't see any cars!"

The driver rolled down the window and cursed at the person in front of the car. No matter who it was, he was probably not in a good mood right now.

The perpetrator did not feel angry at the way the driver scolded him. Instead, he wore a faint smile on his face and there was an unspeakable strange look in his eyes.

He stood very still and still, not showing any obvious features. It could even be said that not being obvious was his greatest feature.

The driver cursed at him. He felt that the man in front of him had a weird temperament. He turned around and looked at Tieh Jun. The boss had already fallen asleep.

He rolled up the window and prepared to go around the guy in reverse so that he wouldn't get in trouble.

Unexpectedly, the person in front of the car also saw the car move. He also moved. Once again, he stood in front of the car and forcefully stopped it.

The driver was shocked. He had never seen such a reckless person ... There was actually someone who was willing to take the initiative and crash into the front of the car ... Is he crazy?

"I don't know what you're going to do, but I advise you to hurry up and get out of my way!"

The driver stopped swearing and spoke to him righteously.

Then he turned the car around again, ready to go around.

But looking at the man's movements, it was clear that he wanted to block their path again.

The driver thought for a while, then decided not to do so and prepared to turn around.

In order to not let this person who had intentionally picked a fight catch up, the driver purposely increased the throttle, thinking that no matter what, his car was faster than a person's speed.

When he turned around, the driver didn't notice there was someone behind the car, so he just turned around and hit something. The driver didn't even have time to react.

Hearing the thumping sound and the car shaking, Tieh Jun, who was sitting in the back seat, was suddenly woken up.

He raised his eyelids blankly and looked ahead.

"What's wrong? Was there a car accident? "

Hearing Tieh Jun's question, the driver was a little nervous at this moment, because he really didn't see that person and directly collided with him with the accelerator ...

Now that the car had stopped on the road, he felt that the man he had hit was lying on his stomach and unable to move.

"I don't know either. I'll go down and take a look ..."

The driver's voice was already trembling. He quickly unbuckled his seat belt and opened the car door to take a look. At this moment, he saw the person lying in front of his car slowly standing up.

His body was very clean. There were no traces of blood, so he must have been uninjured.

The driver heaved a sigh of relief, thinking that he might get into big trouble ... It would be fine if he just bumped into someone, but it wouldn't be good if he got into trouble for Tieh Jun.

After all, the driver was often taken care of by Tieh Jun, so he wasn't willing to give Tieh Jun any trouble.

"Are you alright? I'm really sorry, I really didn't see it!"

The driver hurried over to apologize, but when he saw what the man who had been knocked down looked back, he realized that on the other side of the car stood the same man who had been blocking the car.

It was as if they were carved from the same mold. Although there was a slight difference, one could feel that the two of them were twins.

The driver was a bit confused. He really didn't understand what happened to him.

"Are you guys sick? Why are you guys looking for trouble?"

He was immediately furious. He probably thought that these people thought it was easy to bully them, so they intentionally did so to denounce them.

The driver cursed as he walked to the side of the road and picked up a brick, waving it in his hand.

Hidden Billionaire Chapter 1192 - Unaged Sword

C1192 Unaged Sword

However, the driver's scolding did not last long. Just as he walked in front of that person, the driver's voice suddenly stopped.

Immediately afterwards, he clutched his throat as his body fell to the ground, trembling.

Tieh Jun didn't understand what was happening and quickly moved closer to the window to look. He saw his driver lying at that person's feet, his body continuously twitching and soon stopped moving.

"What's going on ..."

Although this driver was driving for Tieh Jun, he also walked out from the Special Team seriously. Of course, there was nothing to be said about physical fitness. Whether it was in terms of fighting skills or killing skills, they were all top tier existences.

But now, he didn't even make a move and directly fell down. He was like a sheep that had been casually slaughtered without any strength to retaliate.

A huge sense of crisis immediately arose in Tieh Jun's heart. He felt that something was wrong and quickly grabbed the gun at his waist.

During the moment he panicked, the two twins also gathered at the two sides of Tieh Jun's car door. The two of them looked through the car window.

Their dead faces made people feel that they were being extremely cautious. Only God knew how there could be such a person ...

Tieh Jun suddenly had a bad idea. He felt that the two people in front of him were not met by bad luck, but they might have been intentional.

Thinking of this, he hurriedly turned on his communicator and connected to Wu Tian.

Wu Tian was still observing the situation in the combat command room, but he didn't expect to suddenly receive Tieh Jun's message.

However, Tieh Jun didn't say anything. Wu Tian continued to ask about what was going on. The inside was still quiet, but one could hear the sound of breathing.

"Quick, locate Director Tie's position!"

Wu Tian vaguely felt that something was wrong, so he quickly made preparations.

It was at this moment that Tieh Jun suddenly raised the gun in his hand and fired twice at the window.

At such a close distance, Tieh Jun believed that there was no possibility of him making a mistake. When he was young, he was a fast shooter, firing short range pistols at the entire army. No one was faster than him.

Even though he was old, his skills were still as good as ever. Tieh Jun's attack speed was still as fast as lightning.

Just in the blink of an eye, Tieh Jun had already fired two shots in a row, hitting the two enemies separately.

After firing the gun, Tieh Jun opened the car door and kicked. The mysterious man outside the door flew into the air and Tieh Jun immediately ran towards the residential building beside the car.

The street was very cold, the buildings beside had no lights, but Tieh Jun couldn't care less at this moment. He knew that he was in an empty place and he had no chance of winning against the enemy.

Especially since the other party was likely to be a biochemical reformer ... They had an incomparable advantage in physical functions, Tieh Jun knew very well that it was impossible for him to defeat them in this aspect.

"Yes, it's in the south of the city!"

Fortunately, Tieh Jun had contacted Wu Tian, and his position was soon located by Wu Tian.

"Notify the Security Team! Now! Protect Boss Tie all the way home! "

Wu Tian immediately issued an order, but after thinking about it for a moment, he felt that it might be a bit inappropriate, so he decided to put it on.

Tieh Jun couldn't send him a message for no reason. It must have been a situation.

Moreover, under those circumstances, he couldn't even tell Wu Tian about the situation at that time, so it must be very urgent.

At this moment, some noises started to sound out from the communication device ... He quickly hung up. Wu Tian speculated that it must have been blocked, so this matter wasn't that simple.

The helicopter from Security Team took off, and Wu Tian personally led the way, immediately heading to the southern part of S City.

Tieh Jun, on the other hand, hurriedly ran into a residential building. After climbing up a few floors, he knocked on a door beside him with all his might.

I hope the people inside come out and put it in.

After knocking on the door, Tieh Jun was a little worried. What if they hurt the innocent crowd because of him? Thinking about that, Tieh Jun put down the hand that he knocked on the door, clenched his teeth and continued to run up the stairs.

At this time, the two twin Biochemical Man s had already followed Tieh Jun into the building. The two of them were not in a hurry, they were just slowly grinding on the back, not too far away and not too close.

Tieh Jun arrived at the top floor very quickly. He found that the door to the top floor was locked with a big lock.

However, the connection was a bit rusty. Tieh Jun tried it and found that it could actually loosen up. Thus, he backed off a few steps and kicked it.

This kick had a lot of strength, but Tieh Jun never would have thought that this door was much more fragile than he thought it was. Thus, Tieh Jun's kick caused the door to creak open.

He himself also fell to the ground, but unfortunately, there was a rock on the ground that coincidentally hit Tieh Jun's ankle. With a crack, he immediately felt a burning pain.

"Damn it!"

Tieh Jun held the place where he was hit with his right hand and continued to run for his life.

The pain made him realize that he was probably fractured, but he had no choice. He had to keep running.

However, this time, Tieh Jun's speed was greatly reduced. He was definitely not as fast as his two feet when he limped over.

In less than ten seconds, the two twins arrived at the top floor. This time, the three of them appeared on the rooftop.

Tieh Jun saw that he could no longer run away, so he stopped.

He counted the remaining bullets in his hand. Of the twelve bullets, he had used two, leaving only ten.

In other words, Tieh Jun could only use nine attacks at most. The last one was meant for him to use for glory.

Although there seemed to be no such requirement in the army now, Tieh Jun still retained the tradition from when he enlisted.

Leaving the last bullet to himself was an awareness, not a requirement.

At this moment, Tieh Jun had already made up his mind.

He raised his gun and aimed at the two biochemical reformers. The pain on his feet made it hard for him to concentrate, and the heavy breathing made his arms shake. Aiming at this simple task had become difficult for Tieh Jun.

The Biochemical Man walked towards him step by step, and Tieh Jun shot without hesitation.

The bullet struck the Biochemical Man on its head with a bang, causing it to bleed profusely.

Seeing that this shot had an effect, Tieh Jun was overjoyed and immediately pointed the gun towards the other one.

"Halt!"

Hidden Billionaire Chapter 1193 - Fall

C1193 Fall

However, that person acted as if he didn't understand what Tieh Jun was saying and ignored his threats. He continued to walk forward.

Tieh Jun was a bit worried when he saw their expressions.

However, he was not afraid, nor was he a weak person. He immediately pulled the trigger.

The gun in his hand was not for show. The Biochemical Man that fell earlier was still lying on the ground, and that was a living example.

"If you keep going, I'll have to shoot you down!"

Tieh Jun was warning again, but that person ignored his warning again.

Under the circumstances, Tieh Jun didn't hesitate to open fire. With the sound of gunfire, everything went silent again. It was as if nothing had happened.

With the sound of gunfire, the Biochemical Man that was walking towards Tieh Jun fell to the ground.

It was very straightforward, and did not exceed everyone's expectations.

Tieh Jun also let out a long breath. Originally, he was a bit worried, after all, he wasn't sure if these Biochemical Man really had some kind of special ability, but from the looks of the current situation, his worries were unnecessary.

Putting away his spear, Tieh Jun looked at the two Biochemical Man lying on the ground coldly and turned to leave.

However, just when he walked a few meters away, he suddenly heard some movement behind him. Tieh Jun stopped and turned his head around.

He noticed that the two Biochemical Man from before were once again standing behind him, unharmed.

The two of them did not have any difference in their heads. There were no signs of injuries, not even a trace of blood.

Tieh Jun could not believe his eyes. He turned his head to look at the two Biochemical Man and then looked at the ground. There were still some blood stains and white stuff on the ground.

He didn't shoot for nothing just now. The man was shot and bleeding... But shouldn't he be dead?

Tieh Jun had aimed at his head and hit him, so he saw it clearly.

The two of them still walked towards Tieh Jun step by step. Suddenly, the atmosphere became strange.

Tieh Jun immediately took out his gun and pointed it at the two Biochemical Man's heads.

This time, he did not waste any words and shot twice more.

The Biochemical Man fell in front of him again, but this time, Tieh Jun didn't feel relieved.

Because he clearly looked at the two Biochemical Man, and slowly stood up from the ground.

The wounds on their heads were also recovering at a speed visible to the naked eye.

In just a few seconds, the wound had disappeared, and the two Biochemical Man were once again completely unharmed.

Tieh Jun gritted his teeth at this moment. This was the first time he had seen this kind of situation.

Seeing this scene, one couldn't help but wonder if it was a movie scene ... Aren't these two alive? A robot? Or a zombie?

He had clearly smashed their heads with a gun, but they still stood up once again.

Tieh Jun suddenly felt scared as he watched.

He had never seen such a scene before, so it was hard for him to understand what was going on.

"What's going on ..."

Tieh Jun grumbled, then continued to fire as much as he could. There weren't many bullets left in his pistol. If Tieh Jun were to run out of bullets, he would lose his ability to defend himself.

At this moment, he was already in a very bad mood. Sweat continued to pour down from Tieh Jun's forehead.

Soon, Tieh Jun's gunfire stopped because there was only one bullet left in the pistol. This was the bullet that he had planned to leave for himself.

Thinking about this, Tieh Jun put away the gun bitterly. He looked around and found an iron pipe on the ground. Although it was rusted, it looked very sturdy. He picked it up immediately.

This was his only remaining weapon.

Tieh Jun placed the iron pipe in front of his chest and prepared to defend himself, but the two Biochemical Man suddenly increased their speed and started to run.

They charged towards Tieh Jun. The Biochemical Man had a short blade in its hand, and it seemed to be ready to sacrifice its life.

Tieh Jun was good at using guns, but he was also good at using these close combat weapons.

He picked up the iron rod in his hand and started fighting with the short sword of the Biochemical Man. Both sides came and went, with victory and defeat at their disposal.

Sometimes, Tieh Jun could even take advantage of the situation, but his physical strength was not enough to sustain such a huge consumption of energy.

After all, he was old and this exercise consumed too much energy, so he could not sustain it for too long.

However, there were two people on the other side who had greater agility and even endurance than Tieh Jun. They didn't press Tieh Jun any further and gave others a feeling that they were playing around, as if they were teasing him.

It was just like a cat catching a mouse. After catching it, he would have to ravage it to his heart's content before eating it.

It was also at this moment that Tieh Jun's hand suddenly felt sore. The iron rod that he swung out was suddenly empty. The other party seized this opportunity, and with a side thrust, the sword in his hand immediately made a cut on Tieh Jun's body.

It was like a dam had burst, opening the first gap. Tieh Jun's following movements were affected by the wound and became more and more vulnerable.

The two Biochemical Man knives started to cut Tieh Jun's body continuously. Very soon, Tieh Jun's entire body was covered in blood.

His clothes had even become tattered.

However, Tieh Jun still stood on the same spot. He took a few steps back and waved his hands fiercely, blocking the two enemies.

He wanted to hurry up and rest. Tieh Jun did not plan to give up his life, he wanted to fight to the last moment even if it would cost him his life. This was his pride as a soldier.

Suddenly, the sound of a helicopter propeller came from the sky not far away. Tieh Jun looked over and smiled.

That helicopter was the helicopter on Security Team that Wu Tian was riding.

This brat knew that something had happened to him, so he immediately rushed over to help.

Tieh Jun couldn't help but feel gratified. Luckily, he knew Wu Tian. Otherwise, this matter wouldn't be easy to deal with.

However, it was still too early for him to be happy.

The two Biochemical Man moved suddenly and rushed in front of Tieh Jun. The knife in their hands flew up and down, and in less than a second, Tieh Jun found that there was a knife stabbed into his chest.

He fell to his knees with a thump. Right now, he was completely powerless. The pain that came from his heart made him unable to speak.

Tieh Jun felt as if all the muscles in his body were twitching. He used all of his strength to look at Wu Tian's helicopter. As he looked, he fell to the ground with a thump.

Hidden Billionaire Chapter 1194 - Arrest the Murderer Alive

C1194 Arrest the Murderer Alive

The moment he fell down, Tieh Jun didn't get up again.

Wu Tian's eyes were bloodshot as he watched this scene from the plane.

But he could do nothing at all.

The helicopter's speed became even faster. When it reached the top of the building, Wu Tian jumped down from the helicopter without waiting for the helicopter to land.

The two main culprits were currently fleeing.

Wu Tian was only one person, but the two Biochemical Man ran in one direction each. After looking around, Wu Tian could only run towards the guy closest to him.

The Biochemical Man looked a little strange, its speed and strength were slightly weaker than the Biochemical Man that they had encountered before.

At that moment, although Wu Tian was not in a hurry, but because he was in a hurry, his speed became even faster.

It only took Wu Tian a few seconds to catch up to the Biochemical Man and punch him in the back.

This punch contained all of Wu Tian's strength, almost to the point of beating the heart and lungs of the Biochemical Man.

He staggered and fell to the ground, spitting out a large mouthful of blood.

Seeing him like that, Wu Tian didn't have time to care. He lifted his leg and stepped on the Biochemical Man's leg, forcefully breaking it.

Wu Tian's strength was not something that an ordinary person could compare with. Furthermore, he was furious about Tieh Jun, so his entire body was filled with a strong burst of strength.

After resolving this, Wu Tian turned around and wanted to chase after the other person, but after running for a few meters, Wu Tian seemed to have thought of something and turned around. He realized that the Biochemical Man that he knocked down on the ground was unable to move, and now, it seemed as if nothing had happened as it crawled up from the ground and ran.

Wu Tian was shocked by the scene and immediately went to chase after them.

This time, when he caught up to the Biochemical Man, he crushed its head without saying a word.

The matter had to be done thoroughly. Wu Tian didn't care if he needed this service, since he had another Biochemical Man to capture.

Seeing that the Biochemical Man was about to become a pile of mud in front of him, Wu Tian threw it to the side in disgust and stood to the side with his arms crossed.

He wasn't in a hurry now, because the Security Team staff were currently chasing after the other one. It wouldn't be too late to take care of the other one after settling the matter here.

Soon, under Wu Tian's gaze, a few meatballs appeared where the Biochemical Man was injured. Then, at a speed that could be seen with the naked eye, these meatballs quickly linked together the surrounding tissues.

Immediately after, the Biochemical Man's wound started to regenerate. Even though his head had already been smashed into glass, it still remained undamaged for a minute or two.

Wu Tian's surprised expression was exactly the same as Tieh Jun's.

Seeing him like that, Wu Tian took a deep breath. He immediately understood why Tieh Jun failed.

For example, if he had a gun in his hand, what kind of weapon did he have in his hand? He wouldn't be able to deal with such a person.

It's already like this, yet he actually was unable to kill the Biochemical Man in front of him. Looks like his special ability should be such an extremely powerful reply.

Wu Tian suddenly laughed as he looked at the Biochemical Man in front of him. It was really something people couldn't do without them.

It was unknown what the producers and manufacturers of these Biochemical Man were thinking to create such a wondrous thing.

However, because of this, Wu Tian was even more determined to capture this guy alive.

As soon as the Biochemical Man's wound healed, it began to frantically run away. He knew that he would not be able to fight back against Wu Tian, so his only chance was to continue escaping while taking advantage of his powerful recovery ability.

Wu Tian touched the electric shock rod on his waist. He brought it out casually, so it was the only thing he could do now.

Wu Tian chased after her and turned on the electric shock stick, then stabbed it into the Biochemical Man's waist.

The strong electric current caused the Biochemical Man to twitch on the ground. Perhaps ordinary external force could cause his body to break, but such a strong electric current was something that the Biochemical Man could not resist no matter how strong its recovery ability was.

Very quickly, another piece of good news came from the Security Team practitioners. They said that they had used a high voltage electric net to capture another biochemical reformer that was trying to escape.

Wu Tian's situation was pretty much the same as theirs, so he used high voltage electricity at the same time.

However, when he thought of Tieh Jun's situation, Wu Tian immediately felt dejected.

Never would he have thought that someone would ambush and attack Tieh Jun on his way back ... The person in charge of this matter was Tieh Jun, and he was also a general. He was the person in charge of the military's secret organization.

Such a big thing had happened... Who knew if his S City would be overturned in the future ...

Wu Tian didn't care that much, and immediately got the two biochemical reformers to board the helicopter with the massage staff. The first thing he did was to drag them to Flower Island Prison.

Flower Island's helicopter was also madly rushing over. Tieh Jun had long since stopped moving, whether it was his pulse or heartbeat, it was difficult to survive after receiving such a fatal injury.

Especially since Wu Tian had spent a lot of time battling these Biochemical Man, it was impossible for him to rescue them. His brain was dead.

Everyone on scene was speechless. Wu Tian could only use his trembling hands to cover Tieh Jun's corpse with a white cloth.

Wu Tian didn't know what to say about this situation. He didn't know whether to inform the military or not.

Now was the time to search Luo Huaicheng and the others. If he told them that something had happened to Wu Tie ... Could they still have the heart to work?

With that in mind, Wu Tian decided to bring Tieh Jun back first.

Wu Tian didn't say anything on the way back, but everyone was silent.

Meanwhile, Tieh Jun's phone was still ringing in his car.

The screen kept displaying his daughter's name. It was probably because he felt that his father had come back so late, so he called to urge him on.

In less than half an hour, the father and daughter pair were separated by Yin and Yang.

For the next few days, Wu Tian's expression was somewhat absent-minded as the work continued. Security Team and Luo Huaicheng continued to trace the tracks of the hidden Biochemical Man.

The news of Tieh Jun's sacrifice had already spread out, but everyone chose to close it at the same time, so no one brought it up.
