C1195 When the General Is Outside Some Orders Can be Disregarded

Three days after Tieh Jun's sacrifice, in the early hours of the morning, a jet black helicopter landed on Flower Island.

From above came an officer wearing a cap and several stars hanging from his shoulders.

Wu Tian looked at his uniform, it didn't seem to be a common uniform, so he didn't know what exactly this person was doing.

"You must be Wu Tian."

There was a trace of determination in his eyes, but also a trace of warmth in his eyes.

The feeling he gave off was that he was a combination of power and gentleness. His face was square, his figure neither tall nor low, neither fat nor thin, and one could not tell how he was any different from an ordinary person.

"Yes, may I ask who you are?"

Wu Tian shook hands with the military officer. Since he didn't know his identity, it was better to be cautious.

"We already know about what happened with Old Tie. After some research, the military decided to send me to take over his position. Let me introduce myself, my name is Yue Minghao."

He didn't mention his rank, he even took off all the money related things on his shoulders in front of Wu Tian.

Wu Tian was very surprised by this operation, but it was the first time he saw a soldier do this. If he took these off, it would mean that he wouldn't let others know what his rank was.

The army was very concerned about the concept of hierarchy, which meant that everything could be said in terms of rank or rank.

And this person was clearly trying to break this rule.

"You ..."

Wu Tian asked curiously. He felt that the person in front of him was different from all the soldiers he had met before.

"We can't care that much, let's first solve our current problems! I'm here on official business. "

Yue Minghao's answer was very simple, did he mean to become an officer?

Such an attitude made Wu Tian feel gratified. There were very few people like this in today's society, and it was precisely because of this that they seemed so precious.

"Come on in."

Wu Tian courteously let him into the combat command room. The details should have already been reported to the military in the previous report.

Although the achievements of Wu Tian and the others were plentiful, their losses were still enormous. Especially the sacrifice of Tieh Jun, which brought a huge shock to the military.

He also didn't know who Yue Minghao, who was sent to replace Tieh Jun, was.

"You have been searching like this for nearly two weeks, and the number of civilian deaths exceeds two hundred. This can't go on. "

Yue Minghao took a quick look at the real-time situation in the combat command room. The big screen showed the scene of Luo Huaicheng and the others conducting the search, as well as the map beside it showing the location they had searched.

The areas that were excluded were marked as green, and the entire S City was almost covered by green. As for the red areas, there were only a few that had yet to be searched.

"But we don't have any better ideas ..." Towards this, Wu Tian was helpless. He had already mobilized all of the power in the company.

Without affecting the main business, the company's R & D jobs are all thinking about how to solve this problem.

The research department was currently trying to develop a new generation of reconnaissance satellites. The one they had previously used might meet the requirements, but in the field of infrared surveillance, it was still lacking.

They were thinking of a way to solve this problem. If they could use the scout satellite to filter out all the residents of S City, then things would be much easier for them.

However, no one knew how such a thing could be accomplished. Many scientists were baffled.

"It's useless. They have been hiding for such a long time. They must be prepared for a long period of time. If we continue to search like this, it will be a huge blow to them. Stop the operation!"

Yue Minghao's judgement was very quick. He immediately thought that Wu Tian's actions were biased.

Actually, Wu Tian also thought about this, but Tieh Jun's sacrifice gave them a huge shock. Everyone hoped that they could find these people as soon as possible in order to avenge Tieh Jun.

As a result, their intense search did not bring about any good effects. Instead, it caused the Biochemical Man to initiate even more cases.

Wu Tian had no choice but to listen to Yue Minghao, so he quickly contacted Luo Huaicheng.

Luo Huaicheng's eyes widened in disbelief when he heard this news. He stared at the camera that was relaying the news.

"What did you say? Retreat! That's impossible!"

With bloodshot eyes, Luo Huaicheng's big head appeared on the big screen in the combat command room. The anger on his face was clearly shown, and he didn't hide it at all.

Yue Minghao looked calm on the surface, he wasn't angry at all from Luo Huaicheng's words. He knew why Luo Huaicheng would do this, and he also knew that it was because of this that Yue Minghao needed these people to come back.

"This is an order."

Yue Minghao's reply was also very simple. Soldiers had the duty of following orders, and their superiors' orders were to have them retreat.

Luo Huaicheng's expression began to distort. Of course, he knew that he should follow the order. After all these years, he wasn't just acting as a soldier for nothing.

However, Luo Huaicheng really didn't want to just let it go like this. Since the start of time, there had been a saying, 'General will not accept orders from outside forces'.

Yue Minghao saw that Luo Huaicheng didn't move, so he added calmly: "I'll give you 5 minutes. If you don't listen to the order, your position as the commander of the special

forces will be canceled immediately. Go back and report to your unit and listen to the order."

This was a blatant threat. Although Luo Huaicheng didn't really care, but after hearing what Yue Minghao said, his anger rose up all of a sudden.

What kind of joke was this? Using such a method to suppress him? It was as if Luo Huaicheng was someone who liked being an official. Wasn't he just a captain? So what if he wasn't one!

Thinking about this, Luo Huaicheng hung up the call without saying anything. He didn't say whether he would retreat or not, nor did he say whether he would disobey the order.

Seeing that his situation had turned into this, Wu Tian quickly continued to contact Luo Huaicheng, but no matter what, he refused to answer.

"This ..."

Wu Tian was a bit speechless. Could it be that this idiot really knew how to act on impulse? If he was really fired from his position as a special forces commander, he wouldn't be able to avenge Tieh Jun in the future even if he wanted to.

Very quickly, the special forces' communication connected again. However, this time, it wasn't Luo Huaicheng who answered, but his aide-de-camp.

"Your Captain Luo?"

Wu Tian asked anxiously. He always felt that Luo Huaicheng might do something rash.

"The captain wants us to withdraw. He will continue the search by himself!"

## **Hidden Billionaire Chapter 1196 - Behind the Scenes**

C1196 Behind the Scenes

When Wu Tian heard the soldier say that, he immediately became worried.

He knew that there was definitely a problem with things continuing like this. He quickly turned around and prepared to carry the items. It seemed that he was planning to go out.

Yue Minghao saw his expression and quickly stopped Wu Tian.

"What are you doing? The situation outside is very dangerous, we should avoid provoking these people."

From the general situation, he still considered that he couldn't excessively provoke these enemies, but of course, he couldn't say that Yue Minghao's thoughts were wrong.

The situation outside was not clear, and the best solution was to just wait and see.

But what Wu Tian was thinking in his heart was not this. He only heard that Luo Huaicheng was alone outside and he was worried that this guy was in danger.

"I have to bring him back as soon as possible!"

Wu Tian's tone was unquestionable. He didn't have much respect for Yue Minghao.

Honestly speaking, no matter how many stars were on his shoulder, and how unfamiliar Wu Tian was with him, he didn't have a lot of admiration for him in his heart.

Although Wu Tian spoke with great respect, he was not directly under Yue Minghao's control. He was not a soldier of the army.

"No, pass down my order. No one is allowed to support this operation on Special Team.

Seeing Wu Tian's determination, Yue Minghao did not hesitate and directly used his trump card.

If that was the case, no one would support Wu Tian even if he had any thoughts or actions.

Originally, Yue Minghao had used this method to make Wu Tian retreat in fear. However, Wu Tian only gave him a cold glance and did not say anything as he silently put on his exoskeleton Battle Mecha.

Although he couldn't count on Special Team, there were still people under Wu Tian's command who could use it. His Security Team was still loyal to him.

Wu Tian passed down the order and immediately led the dozen or so Security Team personnel to the helicopter's airport.

Yue Minghao had a complicated expression on his face as he watched Wu Tian's leaving figure.

The soldiers of Special Team also felt very uncomfortable. Luo Huaicheng was their old captain after all, and many of the soldiers here were personally trained by him.

It was definitely bullshit to not have any feelings at all, but with such an incident, Yue Minghao was crazily suppressing them. Although the soldiers wanted to stand up for Luo Huaicheng, it wasn't good for them to directly trigger Yue Minghao.

A few of them saw the actions of Wu Tian and the others and were instantly enraged, so they wanted to follow along as well.

Yue Minghao immediately walked forward and stood in front of the soldiers.

"What are you doing?"

"We are going to save the captain!"

The soldiers answered in unison. Their eyes were wide open as they stared into the distance, their fists almost bleeding.

Yue Minghao snorted. He didn't directly deny their thoughts.

"Are you soldiers of our China? Are you a member of Special Team? "

The soldiers immediately shouted out loudly. These identities were a source of pride to them, so how could they deny it at this moment?

"Fine, since you admit that you are soldiers, then you should know that soldiers must obey orders as a duty. If you leave this place, I will take it as you taking off your military uniform, no longer being a soldier."

When Yue Minghao said these words, all those guys who were ready to make a move stopped.

Although they were worried about Luo Huaicheng, they couldn't let him break the rules because of this.

Yue Minghao wasn't joking; he really might do such a thing.

Seeing that these people didn't move, Yue Minghao knew that he had achieved his goal.

The captain was very important to these team members, but their identity was also very important. In front of the special forces of the city, the biggest duty of the soldiers was to follow the order given by one of the soldiers of the China.

At this moment, Luo Huaicheng's men could only place their hopes on Wu Tian and the others. Many of them were silently praying that Wu Tian could bring Luo Huaicheng back successfully.

Soon, Wu Tian's helicopter started heading towards the location of his last appearance in River Lo city.

This guy still had the communication device on him, so Wu Tian was able to pinpoint his location in real time.

Based on the current situation, Luo Huaicheng probably hasn't met with any danger or obstacles.

Due to the attack on Tieh Jun, the way Wu Tian and the others acted became more covert.

No one knew where exactly these Biochemical Men would hide, or whether it would have a significant impact on the police and judgement.

Every time they set out to search, they were fully armed, fearing that they would not have enough firepower when they encountered an enemy.

The helicopter stopped at a place not too far away. Wu Tian and the Security Team staff quietly got off the helicopter and tried to keep their footsteps as loud as possible.

Luo Huaicheng was in a park in front of him. That place seemed to be an amusement park with many facilities for children.

He didn't know why this guy appeared here either. Although Wu Tian muttered in his heart, he still followed the direction indicated by the satellite.

Wu Tian, the Security Team Enforcers and their group walked along a short wall and quietly approached Luo Huaicheng. They found out that this guy was lying inside a children's facility. His head was looking in a direction not far away, as if he was eavesdropping on something.

Wu Tian silently touched Luo Huaicheng's back with his hand, making Luo Huaicheng jump in fright.

"Aiyo, it's you. You scared me to death."

"What are you looking at?"

Wu Tian also laid beside Luo Huaicheng and looked in the direction that Luo Huaicheng looked in. He noticed that there were a few trees not far away and a few people seemed to be talking under the trees.

"Be quiet, I seem to have discovered the biochemical reformer and their contact!"

Luo Huaicheng lowered his voice and asked Wu Tian in a low voice.

Looking in the direction Luo Huaicheng pointed, Wu Tian saw a few people talking. Their voices weren't loud. But it was just as Luo Huaicheng had said, he could tell with a glance that there were Biochemical Man in there.

The reason why there was nothing special was because one of the Biochemical Man's face was especially pale, as though it was made of tofu.

Their contacts were very different. They were like commoners passing by on the street.

The difficulty of this kind of investigation could be imagined. No wonder they were unable to find the relevant personnel.

## **Hidden Billionaire Chapter 1197 - Encounter Ambush**

### **C1197 Encounter Ambush**

Just like that, the group of people silently narrowed their eyes as they closely followed the movements of those people.

However, he couldn't hear what they were saying nor could he continue to get closer.

Very quickly, it seemed like the transfer was about to be completed.

The few people who were with the Biochemical Man hurriedly packed their things and prepared to leave.

Luo Huaicheng immediately rushed forward. This was a good opportunity to catch them all in one fell swoop.

However, Wu Tian immediately held Luo Huaicheng down.

"What are you doing ..."

Luo Huaicheng looked at Wu Tian in surprise. He really didn't understand why Wu Tian would stop him.

"It's too dangerous for you to go directly there like that!"

Right now, Wu Tian was worried about Luo Huaicheng's safety the most. How could he not know that capturing someone this way is an opportunity?

However, none of these Biochemical Man were easy to offend, especially the rest.

"Such a good opportunity. If I miss it, there won't be another!"

Luo Huaicheng was still persistent. He would rather investigate by himself than to catch the enemy because he wanted to avenge Tieh Jun.

Now that there was such an opportunity, Luo Huaicheng definitely wouldn't give it up.

"I know what you're thinking, but ..."

Wu Tian hesitated, wanting to say something more. However, since he couldn't even himself, how could he persuade Luo Huaicheng?

"Are you going?"

Luo Huaicheng asked Wu Tian excitedly. He was already eager to give it a try.

Wu Tian hesitated for a moment, but he didn't know what to say.

Seeing Wu Tian's words, Luo Huaicheng didn't say anything. He just took his things and walked out of the children's facility alone.

"I'll go by myself."

As he spoke, Luo Huaicheng followed in the direction of the Biochemical Man. The two of them chose two different directions to leave in.

Wu Tian looked at Luo Huaicheng's back and clenched his teeth. He commanded the Security Team personnel in his hands to follow another wave of people who came to support Luo Huaicheng, and then caught up to Luo Huaicheng himself.

"You really don't allow me to relax ... Do you know what expression that Yue Minghao has now ... "

Wu Tian felt a bit helpless, but at this moment, he had no better choice. He could only accompany Luo Huaicheng until the end.

"I don't care... At most, I will just be dismissed. " Luo Huaicheng said it lightly, but if he thought about it carefully, he had already worked in this Special Team for many years, if he really wanted to give it up, he definitely wouldn't be able to accept it.

"You are quite happy. You don't need to care about the people under you ..."

Wu Tian retorted, but even though he said so, the two still followed him obediently.

The Biochemical Man that they were following closely was walking forward at a leisurely pace.

He was wearing a red T-shirt, and when I first saw him, I could tell from his face that he didn't look the way the British did.

Closer to their China people. Perhaps this was the reason why these Biochemical Man were not found.

Wu Tian and Luo Huaicheng followed closely behind. Although it was just the two of them, they did not feel any fear.

On the contrary, the more they did this, the more excited they felt.

A sense of excitement involuntarily arose. Although Wu Tian was already a sly old fox, this kind of feeling was still a precious thing for him.

"Where is he going ..."

Luo Huaicheng was a little suspicious. The two of them had followed them through several streets, but the Biochemical Man still did not stop.

Hearing his words, it seemed that he was even speaking in a fluent China language, and his actions and actions were not any different from those of ordinary S City dwellers.

"I don't know. I don't know whether he's alone or with other Biochemical Man s." Wu Tian said endlessly. He wasn't sure about other things, but he could be sure of one thing.

It was impossible for these fifty Biochemical Man to come to the S City without any preparation.

Furthermore, there must be someone in the S City who only knew their identities, and was secretly providing them with funds or other means of support.

"Let's not worry about that for now ..." Luo Huaicheng couldn't care so much. They had walked for so long, but they couldn't continue to follow him. If he dawdled along the way, who knows how long he would delay.

Luo Huaicheng took out an electric shock gun from his body. The effective attack range of this pistol can reach up to ten meters.

As long as he could reach to the Biochemical Man's side and fire at it, the strong electric current would immediately knock him down.

"I'm going up to catch a live one!" Luo Huaicheng stretched his body, cracking his joints.

Wu Tian originally wanted to stop him, but he thought for a while and decided not to.

"Be careful, I'll go with you!"

Wu Tian walked in front. The Biochemical Man was stopping by a cake shop on the side of the road. He stood outside the window and looked inside, seemingly attracted by the variety of cake that was glittering inside.

Wu Tian walked in front and Luo Huaicheng followed closely behind him with the electric shock gun in his hand.

With Wu Tian's body as a cover, the Biochemical Man probably wouldn't be able to sense it. Very quickly, the two of them had already gotten within a few meters of the Biochemical Man.

There weren't many people on the surrounding roads, and the current S City had returned to its previous desolate state. It was just that the security situation was much better than before.

As if sensing something, the Biochemical Man suddenly began to move. He left the bakery and continued walking forward before turning into an alley.

Wu Tian and Luo Huaicheng hurriedly followed him. At that time, they didn't think about anything else, they just wanted to catch this person quickly and not let him escape.

But when the two of them walked to the middle of the alley, the Biochemical Man had already disappeared, as if it had never been here before.

"Strange, where is he?"

Luo Huaicheng quickly chased after him. Wu Tian felt that this scene was familiar and quickly reached out his hand to stop it.

"Come out! Be careful!"

Just as Wu Tian shouted, he suddenly felt a sound of wind behind him. He quickly turned around and saw a huge fist rushing towards him.

Before Wu Tian could dodge, he felt a heavy blow to the back of his head, followed by his vision turning black as he fell to the ground.

In his last glance before falling unconscious, Wu Tian clearly saw that Luo Huaicheng was also attacked. His condition wasn't any better compared to his own.

It's over ... Wu Tian's last thought was that if he fell into the enemy's hands, this time, nothing good would happen.
