

Hidden Billionaire Chapter 1205 - Formal Reversal

C1205 Formal Reversal

It could be said that Wu Tian and Luo Huaicheng had been hiding their true strength.

They did not even activate the many functions on their exoskeleton armor.

Originally, they wanted to deal with this matter in a low-key manner, but from the looks of the current situation, it was probably impossible.

Wu Tian and Luo Huaicheng wouldn't be able to leave this place without eliminating the two in front of them.

However, the strength of these two Biochemical Man did not seem to be to be underestimated. One of them had extremely strong defensive capabilities, so it was clear that it was not easy to break through them.

Moreover, their special ability seemed to be a bit abnormal. They were actually able to create a defensive barrier.

This was something Wu Tian had never heard of before. It seemed like he had to have some sort of special method to deal with these two.

"Are you ready?"

Wu Tian put his knife on the side of his arm and took a deep breath.

"I should be the one asking you this question. I've been unable to hold it in for a long time now."

Luo Huaicheng said and then rushed out. The other two were practically stuck together. If they wanted to fight, they would have to fight together.

Wu Tian followed closely behind Luo Huaicheng. The Biochemical Man saw that Luo Huaicheng was very fast so they were not in a hurry.

The brawny one stood in front, and the one who breathed smoke stood behind.

The strong man's defense was like an iron wall. Luo Huaicheng's fist hit him and made a "ding dang" sound. Then, Luo Huaicheng bounced back.

It could be said that they didn't move an inch, just like a metal tower.

Luo Huaicheng's punches and kicks were ineffective. At this time, Wu Tian used his own knife to stab at the so-called translucent shield.

It would be better to break one of his fingers than to injure his ten fingers. In order to attack such a barrier, he had to focus all of his strength on one point. Only then would he be able to break through from that single point.

As expected, the shield seemed to tremble a little after being struck. However, he was still unable to break through successfully.

The hulk smiled. Then, he suddenly removed the shield and let Wu Tian in. Then, he punched towards Wu Tian.

Wu Tian wanted to dodge, but he didn't expect the shield to suddenly open. This time, it wrapped Wu Tian and the hulk inside it.

The space was very narrow. Wu Tian and the hulk were almost face-to-face. Facing the hulking man's constant attacks, Wu Tian didn't even have the chance to dodge. He could only use his own body to withstand the attacks.

"What's going on ..." Luo Huaicheng was shocked. He never thought that his opponent would have such a method. This shield not only blocked attacks from the outside, but could also trap people from the inside.

However, after being stunned for a moment, he immediately cast his gaze towards the other Biochemical Man beside him. Only Luo Huaicheng did not dare to charge up. The poisonous mist from before had left him with lingering fear.

The other party also stared at Luo Huaicheng like a tiger staring at its prey. The corner of his mouth began to move again as he puffed up his cheeks.

Although he didn't know how the smoke was produced, Luo Huaicheng was prepared. When he rushed over, he even took out a grenade from his body.

The grenade was not lethal, but it could create a powerful flash and shock the enemy.

Looking at the Biochemical Man, his cheeks swelled bigger and bigger, and he could puke at Luo Huaicheng at any time.

The distance between him and Luo Huaicheng was only two meters. The Biochemical Man opened its mouth and spat out the mist. At the same time, Luo Huaicheng also threw the grenade over.

The grenade exploded in the air. The intense light it emitted was extremely dazzling, making it almost impossible for people to look at it directly.

The Biochemical Man did not expect Luo Huaicheng to do such a thing and was caught off guard by the flash grenade.

The Biochemical Man that was still smoking was stunned for a moment, its mind buzzing. However, Luo Huaicheng had put on a pair of heavy sunglasses at that moment, blocking the light.

Then, in the next second, he had already rushed to the Biochemical Man's side, directly grabbing its mouth, and then pressing it down on the ground.

The brawny guy who was fighting with Wu Tian on the side saw his comrade being attacked. At this moment, he no longer bothered with Wu Tian and immediately activated his shield, crazily charging over.

Just as Luo Huaicheng was about to wrap some tape around the Biochemical Man's mouth, he was knocked far away.

At this moment, Wu Tian finally breathed a sigh of relief. He had been beaten up by someone inside the shield and had finally recovered.

He was still holding the dagger tightly in his hand. However, the blade was already twisted in some places. From this, it could be seen how hard the man's body was.

Due to the help of his comrades, the smoker was saved by the brawny man. Due to Luo Huaicheng covering his mouth, he choked and coughed continuously.

Looking at his expression, it seemed as if his face had turned pale. He didn't feel like he was safe at all, and it was likely that he himself was poisoned as well.

The brawny man quickly patted his back to ease his anger.

At the same time, Luo Huaicheng also stood up from afar and stretched his body. He didn't seem to be affected much.

"Surrender, the two of you. If it's like this, I might spare your lives."

Wu Tian stretched his body. Based on the current situation, they were evenly matched. However, it wasn't certain who would win if the battle continued.

Wu Tian didn't know if the other person understood or not, but it didn't matter to him anymore. If they really surrendered, Wu Tian would feel troubled.

If it was really like that, the two definitely had bad intentions. Wu Tian still had to use his heart to guard against them.

"It's time to show the real technology. I heard you were a fighting champion in the army?"

Wu Tian looked at Luo Huaicheng, who was standing beside him. He looked at Luo Huaicheng's muscular body.

"You know all this?"

Luo Huaicheng was a bit surprised. He remembered that he didn't tell Wu Tian about this. However, since it had already been mentioned by Wu Tian, he could not pretend that it had not happened.

"Just ask around a bit and you'll know. Do you think that I won't investigate you if I cooperate with you?"

Wu Tian had a face full of righteousness. He planned to let Luo Huaicheng test the waters first to see if he could find any weak points between the two and then think of a way to defeat them.

Hidden Billionaire Chapter 1206 - Break One by One

C1206 Break One by One

Of course Luo Huaicheng was not afraid. After stretching his body a little, he rushed forward.

This time, his target was the hulk. Luo Huaicheng usually didn't attack barehanded, he would use all the weapons available to him to create advantageous conditions for himself.

This was also the most crucial lesson he had learned on the battlefield. Never look down on your enemy. No matter what kind of person he was going to fight, he had to use his greatest strength.

He pulled out a pistol from nowhere and fired at the two enemies while circling them.

The moment the burly man saw the gun, he immediately opened his shield. He did not expect that this thing could even block bullets.

However, Wu Tian also noticed that the brawny man's expression became more serious when he blocked the bullets. Perhaps, it wasn't that easy. After all, the impact and lethality of the bullets were very powerful.

The bullets far exceeded the threat posed by blades and fists. It was just that the gun in Luo Huaicheng's hand was just a handgun and its firepower was a bit lacking. However, it wouldn't help much if Wu Tian didn't have such a weapon on him.

Luo Huaicheng took out a few grenades as he fired. These were real grenades. He bit off the top rings and threw a few over.

Seeing this, the muscular man didn't have time to care about anything else. He grabbed his companion and jumped into the air, creating a semicircle shield in front of him at the same time.

Immediately afterwards, the grenade exploded under their feet. The fragments and sparks swept over the place they had just been in, and they directly collided with the strong man's shield.

There was a clanging sound, as if the fragments of a grenade had hit steel.

By the time the smoke from the grenade's explosion dissipated, the two Biochemical Man had already fallen to the ground.

However, it was obvious that a large amount of sweat had appeared on the brawny man's body. At this time, he was also gasping for air. It was obvious that he was extremely tired.

Wu Tian was sure that maintaining this shield would consume a lot of the warrior's energy. The more attacks he could suffer, the more energy he would need.

Thinking about this, Wu Tian had an idea, which made things much easier.

A human's strength could not be limitless, especially these Biochemical Man. Although their abilities were outstanding, they were also unavoidable, as their consumption rate far exceeded that of ordinary people.

This was the conclusion Wu Tian came up with after interacting with the Biochemical Man. They had to consume a lot of food every day in order to satisfy their body's needs.

Eating this alone was already difficult for them.

As long as he could delay it, Wu Tian believed that he and Luo Huaicheng would definitely win.

Just thinking this wasn't enough, Wu Tian immediately put it into practice. He and Luo Huaicheng had surrounded the two of them, one on the left and one on the right.

This time, however, the burly man did not attack again. The fellow who had exhaled the smoke exhaled a large amount of smoke, enveloping everything within a dozen meters.

The level of smoke was no worse than that of Su Cancan Cancan's, and Wu Tian and Luo Huaicheng felt as if the sky had turned dark and they couldn't see their fingers. Nothing could be seen with their eyes alone.

However, the two of them did not panic because of this. Instead, they both stopped in their tracks, the exoskeleton mechs on them were not for nothing, a helmet extended from behind them, and wrapped them around their heads.

On the visor of the helmet, a patch of red appeared. It was an infrared display.

Although they could not use their eyes to observe their surroundings, they could use this method to understand each other's situation.

The helmet was just put to use, Wu Tian clearly saw the smoker sneakily approaching Wu Tian. He probably wanted to kill him.

Wu Tian just followed his plan. He didn't dodge and just walked towards him, bit by bit. However, Wu Tian grabbed the knife in his hand and held it behind him.

The other party definitely wouldn't have thought that he would be able to see his movements, so he must give him an unexpected surprise when the time came.

Luo Huaicheng's situation was pretty much the same. With one glance, he knew what Wu Tian was planning to do, so he ignored Wu Tian's situation and walked slowly towards the hulk.

When these two Biochemical Man were put together, their fighting strength was still relatively strong, and their functions were complementary to each other. The best solution would be to break them apart one by one.

Wu Tian felt that the guy had already walked in front of him, so he grabbed the guy's neck and stabbed the knife in his hand towards the guy.

With this sudden burst of movement, the Biochemical Man was shocked. It never thought that Wu Tian would do such a thing.

His entire body seemed like it was going to jump up and down. The more nervous he was, the more potential people would unleash in their bodies. The Biochemical Man could not care so much. It waved its hands and kicked its feet as it began to exhale smoke again.

Wu Tian was too close to him. This wave of poisonous fog was like a gale that almost blew him away.

However, Wu Tian still stabbed forward. He felt a resistance coming from the edge of the blade. It should be a success.

It was just that in the next second, the Biochemical Man managed to struggle free from Wu Tian's control and quickly ran back.

However, the situation on the other side of Zhuhai was not looking good either. Luo Huaicheng grabbed the last grenade in his hand and pulled off the top ring. Then, he threw a rock. When the rock started making noise on the ground, he threw the grenade towards the brawny man.

Due to the close proximity, Luo Huaicheng immediately fell to the ground. The brawny man did not know how to react. When he realized something was flying towards him, he hurriedly opened the shield.

However, it was already too late. The grenade exploded beside him, and the brawny man was immediately blown away. His body was covered in blood.

Luo Huaicheng did not let down his guard, he carefully crawled up and closed in, but at this time, the Biochemical Man that Wu Tian was fighting against rushed back, wanting to save his comrades. Luo Huaicheng felt that he could not deal with two people at the same time, so he retreated backwards, intending to join forces with Wu Tian.

From the looks of it, Wu Tian and the others were in control of the situation, and the weather seemed to be leaning towards them.

Dark clouds started to gather in the sky and a gust of wind started to blow on the ground. It was mixed with the feeling of soil and water vapor, as if it was a sign that a heavy rain was about to arrive.

Hidden Billionaire Chapter 1207 - The Fury of the Faithful

C1207 The Fury of the Faithful

After the wind blew, the fog that had been released by the Biochemical Man slowly dissipated.

There was nothing left but the empty road.

Seeing the change in weather, the two Biochemical Man felt that they would never have the chance again, and wanted to retreat.

Of course, Wu Tian didn't want to do it. He and Luo Huaicheng immediately went up, preparing to capture the two of them in another round of battle.

However, there were shouts coming from behind. Wu Tian turned around and saw that it was the followers from the shantytown who had rushed into the street.

If the two of them didn't leave, they would be surrounded by these heretics.

"We have to leave!"

Wu Tian sighed. Although he was unwilling, he had no other choice at this moment.

However, this time, there were two Biochemical Man, which meant that their opponent should have been exposed.

As long as they could get rid of these people, the S City would once again return to its previous tranquility.

With that, Wu Tian and Luo Huaicheng jumped into the car beside them. They started the car and sped away. At that moment, the Biochemical Man did not dare to chase after him, they knew that they could not compare to Wu Tian.

Along the way back to the Flower Island, Wu Tian and Luo Huaicheng were both thinking about this and how messy it was in their hearts.

Now that things had gotten to this point, he felt that it was getting worse and worse, and the entire S City had turned into a mess.

It was like a ghost city. No one dared to walk around outside during the day, let alone at night.

At Flower Island, Yue Minghao had already returned. Seeing Luo Huaicheng and Wu Tian together and also the signs of a battle on their bodies, he instantly pulled his face down.

However, Yue Minghao didn't say anything about the actions of Wu Tian and the rest. He only ordered the soldiers of Special Team to not leave this place.

The continuous fighting made Wu Tian feel exhausted. After he returned home, he quickly took a shower and prepared to rest. He would talk about other things the next day.

However, in the middle of the night, the sound of someone knocking on the door woke Wu Tian from his dream.

It was someone from the Security Team who came over to notify him. It seemed as if something urgent had occurred.

Wu Tian opened the door and saw the anxious face of the Security Team s.

"What's wrong?"

Wu Tian rubbed his sleepy eyes. He still hadn't woken up yet.

"This is bad, President Wu has gathered a group of people on the shore and they are attacking our entrance."

The Security Team Enforcer's words made him stutter, and one could tell that he was also very anxious and nervous.

Wu Tian didn't say anything as he looked at him. He just walked out silently.

"What's going on?"

Fortunately, he did not take off his clothes at night because he was worried that something like this might happen.

Therefore, Wu Tian immediately followed him out. When they passed the combat command room, Wu Tian saw Loong Yun standing at the door and staring at Wu Tian.

He moved his mouth wanting to say something, but Wu Tian still looked at the Security Team s beside him and did not say anything.

When they reached the floating bridge, Wu Tian looked at the other side that had already been set ablaze. The entrance to the floating bridge had been engulfed in flames.

The two Security Team members of the upper echelons had already withdrawn.

From the looks of the crowd, it seemed to be even more numerous than when they were chasing Wu Tian. There were at least 4-5000 people.

Seeing this scene and their crazy expressions, Wu Tian immediately recognized who these people were. They were probably the followers of that cult.

He didn't expect them to be chasing him here, he really didn't know what they were thinking.

"President Wu, what should we do?"

Although they had handled similar situations before, the scale of the situation this time was obviously much larger. Moreover, these thugs didn't care about any laws at all, and kept throwing burning bottles and stones in their hands.

These people really did dare to attack. Furthermore, this attack was definitely a deathblow.

"Did you call the police?"

Wu Tian's face was gloomy. The current situation was not easy for him to deal with, moreover, it would affect Wu Group Corporation greatly.

He had to think of a solution that would not only arouse the public's disapproval, but also get rid of these heretics.

The Security Team cultivator pointed to the few cars that were burning in the crowd, swallowed his saliva and said, "That is the police ..."

Not only were these heretics not frightened by the police officers who came to manage the scene, they even set the police car on fire.

This was already an extraordinary amount of time. At this point, all one could do was use violence to deal with violence.

"Break the pontoon bridge! I don't believe it! How can they climb up without this bridge! "

Wu Tian didn't care that much at this moment. It was night anyway, so no one would need to use this floating bridge to log into the Flower Island.

Fortunately, the floating bridge was designed to allow disassembling and assembling at any time, so it wouldn't be difficult to break it at this point.

Flower Island was a kilometer away from the shore, so these people shouldn't be able to swim here right?

Even if they wanted to swim over, the protection of the banks on both sides of the Flower Island were two meters high. It could be said that they were simply unable to climb over, and their current Flower Island had already become an isolated island that was suspended above the ocean shore.

Seeing that the pontoon bridge had been broken, the angry followers all began to curse, their voices continuously coming from the coast. Wu Tian heard that they were incompetent and infuriated, he felt that it was funny.

By daybreak, there would be a larger army and police force coming to suppress them. By then, everything would be over.

However, before Wu Tian could feel happy for too long, a burst of fire suddenly erupted not far from the shore. It seemed to be the sound of some kind of explosion.

Immediately after, the thugs surrounding the shore all crazily rushed towards the dorms of Wu Group employees.

Seeing this scene, Wu Tian immediately slapped his thigh. He was so focused on the safety of Flower Island that he forgot about the incident at the employee dormitory!

"Something's wrong, hurry up and notify Security Team to head to the dorm area!"

After Wu Tian gave the order, he ran to the helicopter parked at the airport without looking back. When he ran back, Security Team had already started preparing to board the helicopter.

Very quickly, there were over a hundred people riding seven to eight helicopters, traversing the shallow strait at a distance of a kilometer under the night sky.

In less than two minutes, they arrived at the employee dormitory side. Looking down from the plane, they saw the thugs climbing up the wall, or throwing Molotov cocktails and the like over the wall.

The staff dormitory had also suffered considerable damage. There were even a few places that had begun to catch fire.

Hidden Billionaire Chapter 1208 - Confusion

C1208 Confusion

The Security Team warriors lowered their ropes from the helicopters and slipped into the park. At this time, a few of them had already climbed over the walls and jumped in, scattered and fleeing in all directions.

Seeing that, Wu Tian grabbed a machine gun on the helicopter and shot a few bullets at the feet of the thugs who were running away.

"There's no need to restrict the weapons. If necessary, we can shoot them down!"

Although Wu Tian wasn't a member of the army, his Security Team was his direct subordinate, and this staff dorm area was also his company's private area.

Strictly speaking, these thugs were illegal intruders. It was legal for Wu Tian to shoot them on the spot, so he didn't have to take any responsibility.

However, there were still a few thousand people outside the wall. Even Wu Tian and the rest of the Security Team staff only numbered a little more than a hundred.

If he couldn't stop these people, they would probably all rush in in an instant. At that time, it would be very difficult for Wu Tian to stop them.

At this moment, the people inside the dorm were also woken up by the situation outside. They didn't know what was going on and could only see that someone was shooting. There were even people throwing incendiary bombs inside.

Many people began to flee in all directions out of fear, and the situation became more and more complicated.

If no one was able to stand up and control the situation, it was likely that a tragedy would occur here.

Wu Tian couldn't care so much. He saw the opportunity and jumped down from the helicopter, landing on the roof of a house.

Under this house was the broadcasting room. His goal was to use this place to first stabilize his employees, so that they wouldn't panic and hide in the safest basement.

The remaining problems would be solved by Security Team.

However, the development of the situation had exceeded Wu Tian's expectation. Just as he was about to broadcast the news, the gate of the dormitory was finally broken. Two iron gates were slammed open by the people outside, and the believers rushed in crazily.

They brandished all sorts of machetes, sticks, and the like, hitting anyone they saw.

Although the Security Team members were fully armed, their number was still too small. Only over a hundred of them could not even form an effective defensive line.

At this moment, a voice suddenly came out from Wu Tian's communicator. It was Loong Yun!

"President Wu, don't be in such a hurry. Notify everyone to head towards Area C and have the Security Team staff set up a guard at the intersection between Area B and Area C. I will close the other tunnels here."

Loong Yun's voice was filled with shock, but she was not flustered at all. When Wu Tian heard it was Loong Yun, he felt a lot more relieved.

Moreover, the solution she offered was very effective and could actually alleviate the current situation.

Very quickly, under Wu Tian's broadcast, everyone started to move and went to a safe area to seek refuge.

And the Security Team began to shrink down their defensive line. With more than a hundred people scattered all over the park, it was as if a stone had fallen into the ocean.

But when they gathered in a single tunnel, the power they gathered would become extremely powerful.

The thugs didn't know this at the moment, and they didn't know what Area C. If they couldn't find anyone, they would start a fire.

Fire was everywhere in the dormitory for a while, but fortunately no one was killed or injured.

Seeing that the situation was starting to get under control, Wu Tian let out a sigh of relief and decided to head to the front line himself.

As for the matters regarding the commander, he would leave it to Loong Yun for the time being. From here, he would be able to understand the situation here in real time while at Flower Island.

Wu Tian left the broadcast room and prepared to jog towards Security Team to help them stop the thugs.

However, when he went downstairs, he found himself in the midst of all these evil followers, and there were shadows everywhere.

Fortunately, it was night and no one recognized Wu Tian. Thus, he picked up a stick from the side and shouted for them to kill him.

As long as they were fine, these houses would be burned down. Wu Tian didn't really care, but this was really the biggest crisis Wu Tian had ever encountered.

Why did the army and police stop appearing at this time? He clearly needed them the most.

Wu Tian muttered in his heart, but he didn't have the mood to think about what exactly was going on.

As he ran, Wu Tian suddenly felt that someone in front of him was very strange. He was different from the others, standing on the roof with his hands as if he was holding a walkie-talkie.

This person was completely different from the believers. There was no anger on his face, and what replaced it was an incomparable calmness.

Wu Tian could feel the extreme ruthlessness from this man just by looking at him.

He changed his mind and decided to see what the man was all about.

Therefore, Wu Tian quietly walked towards this person, but he didn't dare to get too close. He hid in the shadows in the corner and quietly observed.

"Go to the west and have a few more people set the house on fire. On the second floor of the east wing, you can arrange for a few people to throw Molotov cocktails into their passage! "

"Inform the others that they need to set up fires quickly. It would be best if the flames could spread to other areas!"

This guy was issuing orders calmly. The information that he had seen was quickly summarized by him, and then formed into a series of strategies.

He did not seem to be surprised by Wu Tian's plan and even reacted quickly.

This person is probably not an ordinary person, Wu Tian calculated in his heart. He felt around to see if there were any weapons on him. When he found the knife he had snatched away was still with him, he held it in his hand and prepared to approach it.

At such a close distance, it was actually very difficult to not be discovered. Therefore, Wu Tian was prepared to wait for an opportunity. When something else attracted this person's attention, he would rush over and finish it off with a single slash.

Very soon, Wu Tian wanted this chance to come, but it was a bit miserable.

Several followers had concocted an extremely large combustion bottle, and then, they began to throw a large amount of it from the rooftop towards the passageway used by the Security Team Practitioners.

Although the power of the explosion was not great, the fire and momentum behind it was not small.

Wu Tian didn't have the time to take advantage of this opportunity and went forward directly. He was like a cheetah hunting in the dark night. His figure seemed to have installed a spring and he jumped out directly. The edge of the blade drew a flash in the dark night.

However, Wu Tian's attack missed. The moment Wu Tian hit the target, the enemy threw his clothes over and immediately jumped down from the building.

This was the fourth floor. Even if one had trained before, jumping down like this would only result in death or injury ... Wu Tian quickly ran to the side to take a look and found that the cold-looking guy was standing at the bottom of the building and giving Wu Tian a middle finger.
