

Hidden Billionaire Chapter 1209 - Counterattack

C1209 Counterattack

Wu Tian jumped out from the third floor without looking back.

This height of nearly ten meters was nothing to him.

This person was running in front while a person was crazily chasing from behind.

Wu Tian's speed was extremely fast, especially with the help of the exoskeleton Battle Mecha. His speed was like a gust of wind, and when he went past, his figure was almost invisible.

The enemy probably didn't expect Wu Tian to catch up to him so quickly. He didn't even run dozens of meters before he was kicked by Wu Tian from behind.

However, he did not fall to the ground because of this. Instead, he rolled on the ground and immediately stood up.

This time, he did not run again, because he more or less knew that running in front of Wu Tian was not a good idea.

The commotion was still going on. The order had been given and the man's command was over.

"You must be Wu Tian."

He patted the dust off his body. He didn't look stressed at all.

Wu Tian didn't say anything. Right now, he was too lazy to talk about those things. How to destroy the conspiracy of the people in front of him was what Wu Tian was most worried about.

"Cut the crap. I know that you guys won't turn back until you hit the wall. That's great then. If you have any grudges today, let's end them here."

With that, Wu Tian rushed forward with the short knife.

However, what he didn't expect was that his opponent would pause him for a moment.

"Wait, wait, I have something to say!"

Wu Tian saw that Ye Zichen didn't know what he had started to do. He was a bit suspicious, but he stopped his hand movements in the end.

"It's like this, compared to now, you should know who's backing us. If you want, we can negotiate. Without an eternal enemy, we can also become friends."

He started to wink at Wu Tian, probably to see what kind of reaction Wu Tian would have. Although what he said was tempting, if Wu Tian could really cooperate with them, then of course he wouldn't have to worry.

It was just that Wu Tian did not know what this person was planning to do, he might just be carrying out a plan to slow down the war.

"Why should I believe you? "Also, why do you think that after doing so many bad things, you still have room to negotiate with me?"

Wu Tian did not forget the murders these people had caused. Every single one of them was a human life.

Wu Tian would never compromise on this point.

"President Wu, you know this, we were all forced. We grew up in their base and our bodies were used to do all kinds of experiments, do you think it's possible for us to get rid of their control?"

All of a sudden, the words of the enemy in front of his eyes became heavy, causing him to snort and tear up, as if it was true.

"Humph, this is not my fault, this is not the reason for you guys to do such evil. Whoever oppresses you will find trouble with them and bully ordinary people, what kind of ability is that?"

After Wu Tian said this, he couldn't be bothered to continue talking with this person. He let go of the mess in his heart and rushed over with a flash of silver light from his sword.

Although some of the blades were curved, the blades were still very sharp.

Wu Tian suddenly made his move and didn't greet him. After the knife passed, the enemy seemed to want to say something, but was surprised to find that he couldn't say anything.

Then, with a thump, a head the size of a basketball fell onto the ground.

"If I had known it would turn out like this, why would I have done it in the first place?"

Wu Tian didn't even turn his head around. He just said that and walked away.

The noise outside also gradually quieted down, and the believers were still setting the fire. The raging flames engulfed most of the staff living quarters, and looking at this scene in the dark, Wu Tian also felt that this scene was really pretty.

"Hey, what are you doing in that place? Are you lazy? "

Suddenly, Su Cancan's voice came from above his head. Wu Tian looked towards the direction of the voice and found that this guy was shouting at him from a rooftop not far away.

"I'm here."

Wu Tian smiled, making Su Cancan even more confused. He quickly arrived at Su Cancan's side. There were already a lot of people gathering behind her at this time.

When he looked carefully, he realized that these people were not only people with Security Team, they also seemed to be Luo Huaicheng's subordinates.

"Why are they here? Didn't that Yue Minghao stop them from moving? "

Wu Tian was a bit confused. Yue Minghao didn't seem like the kind of person who would do something like this.

"Mr Wu, we came voluntarily!" Before Su Cancan could return, the soldiers behind her started shouting.

"Yeah, we are willing to help Mr Wu!"

Even though they couldn't move because of the orders, they still knew what they had to do in front of the big picture.

Hearing these words, Wu Tian's eyes started to tear up. With these people by his side, what was there for him to worry about.

"Come with me, I want everything to end here today!" Wu Tian waved his hand, and all the heretics on the ground started to gather towards the passage that Security Team was guarding.

Although these people were crazy, they were not idiots. They knew that when facing firearms, these people had no power to resist.

However, the believers quickly came up with a solution. Some of them seemed to have stolen the equipment inside the archery building in the staff lounge.

In such a short period of time, he managed to piece together a team of archers.

Wu Tian and the others clearly saw that these people were hiding behind a building. They wanted to climb up to the roof and use their bows and arrows to attack.

"I'll go take care of them!" Seeing this, Su Cancan immediately took action. They only numbered twenty to thirty people, which meant nothing to Su Cancan.

However, Wu Tian stopped her.

"Don't be rash!"

Because among those twenty odd people, Wu Tian saw a familiar figure. It was the two Biochemical Man s that he met along the way with Luo Huaicheng.

They had also joined the rebellion this time.

"What are you doing? Why are you stalling for time at a time like this?"

Su Cancan was very unhappy. She had absolute confidence in herself.

However, she didn't know how powerful the two Biochemical Man were. Wu Tian was afraid that she would suffer a loss if she went over.
