

Hidden Billionaire Chapter 1210 - Strong Vs Strong

C1210 Strong Vs Strong

Since they had more people, Wu Tian decided to make good use of their numbers.

"You guys, bring a few people with you from the west, harass them!"

Wu Tian pointed at a few people and started assigning tasks to them.

"Take a few people with you and head north. "Be careful in maintaining the communication and do not go up immediately. Your goal is to harass them, not to beat them down!"

Wu Tian warned repeatedly. He knew that if he let the two Biochemical Man fight with the soldiers, it might cause a lot of casualties.

"What about me?" Su Cancan had also been impatient since a long time ago. As the captain of the Security Team, she did not immediately arrive here to settle the matter.

As such, she really wanted to do her best as soon as possible.

Looking at Su Cancan's expectant expression, Wu Tian smiled and quickly said, "Follow me, I'll bring you to meet those two people."

After the order was given, everyone immediately dispersed.

Since the team had retreated to a safe area, they did not have to worry about anything when they moved.

Although Wu Tian's plan was crude, the effect was very good. Soon, his men started to harass them again and again.

This was a very effective tactic. At least from the very beginning, the archers and thugs would immediately retaliate in panic.

However, Wu Tian's men did not plan to fight. After a round of harassment, they quickly retreated.

Taking advantage of this, Wu Tian and Su Cancan quickly went up.

At this moment, the opponents were in a state of confusion. Wu Tian and the others were successful in their actions. They had almost touched the ground beneath their feet, but none of them noticed.

"Go on, what are you waiting for?"

Su Cancan panicked. She really wanted to charge forward and take care of these enemies.

However, Wu Tian was not planning to be so reckless. He had already fought with these two Biochemical Man before, and he had already become even stronger than his opponent.

Their real threat may not be that big, but if they didn't handle it well, it would be troublesome. Moreover, one of them could also release poisonous fog. This thing was also very deadly.

"Let's wait for an opportunity. If we go up now, it won't be appropriate!" Wu Tian wanted to take his time, but before he could finish, Su Cancan had already rushed up to him.

When Wu Tian saw this, he really wanted to curse. However, he had no choice. He could only rush forward together.

He couldn't let her take the risk alone.

Wu Tian and the other two's sudden appearance was like the descent of a Powerful weapon.

Su Cancan did not hesitate at all. She first threw out a few smoke bombs, which were all specially made by her and contained all of their Wudu Sect's unique abilities.

The sudden explosion of the poisonous miasma caused the Biochemical Man that was also good at this to be stunned. His brawny companion thought that it was him who had released the Smoke Bomb and looked over curiously.

While the two Biochemical Man were still in a daze, Wu Tian had rushed up immediately and stabbed them with his blade.

The strong man immediately felt the chilling murderous intent and instantly opened up his shield. The knife and shield released a burst of sparks. This was within Wu Tian's expectation, so he wasn't too surprised.

The two of them immediately started fighting. This time, Wu Tian knew how powerful his opponent was, so he gave up on his previous one hit kill. Instead, he kept increasing his speed and tried to attack as many times as possible in a short period of time.

"Where are your eyes!" Su Cancan's voice sounded from the poisonous mist.

This time, she was targeting her own target, the Biochemical Man that could release poisonous gas.

The two of them could be considered to be on good terms with each other, so they directly started to show each other their abilities.

It was just that they pitied the unlucky followers. As they were all squeezed on top of a small roof, they didn't have enough time to retreat and were fogged up by Su Cancan's mist. They all fell to the ground like corpses.

The Biochemical Man produced such a creepy sound. It fiercely bit its own hand and then swallowed the blood, as if it was trying to mix an even stronger poison gas.

However, Su Cancan's attacks were much more ruthless. In a battle between two experts, it was only one move before victory was decided.

Su Cancan took out the black snake from her pocket and threw it out like a whip.

This little snake was like a black bolt of lightning, and also like a black arrow, suddenly shooting towards the enemy.

The black snake's entire body was poisonous, the Biochemical Man could sense the existence of this little snake, but he was not good at moving his body, his speed was not fast enough.

The little snake flew over and bit onto the Biochemical Man's neck. He quickly used his hands to slap it, but the poison had already poured into his body.

The process happened very quickly, and in just a few seconds, the Biochemical Man fell to the ground, its entire body twitching non-stop.

"You dare to use poison in front of me?"

Su Cancan still could not do it. She walked over and used her foot to step on the Biochemical Man's neck.

This guy's neck had already been broken from her stomp. If there were no surprises, it should be impossible for him to stand up again.

Wu Tian's attack was also very effective. Although this strong man's protective shield was so strong that it was watertight, the effect was hard to describe.

Wu Tian was too fast, to the point where even the human eye couldn't figure it out. The strong man's protective shield also slowly became thinner as he attacked again and again.

Finally, Wu Tian saw the opportunity. He focused all of his energy on the tip of his blade and fiercely stabbed at the shield, successfully breaking it.

The sword pierced through the brawny man's chest, warm blood flowing down the blade.

Wu Tian quietly took the knife back, wiped it with a rag on the ground, and threw it on the ground.

He looked at Su Cancan, who was moving much faster than him.

"I already said that I don't have to worry about anything, just directly go up!"

Su Cancan said snappily. She felt that Wu Tian was just too cowardly, causing her to lose face.

"President Wu, there are already a large number of military police coming from the outside. They have surrounded our community from the outside. I believe the current situation can be controlled soon."

At this moment, Loong Yun's voice came through the communicator. Wu Tian was slightly relieved.
