

Hidden Billionaire Chapter 516 - Recuperating Injury

C516 Recuperating Injury

"Scoundrel!" Blanche rolled her eyes slightly and turned her head to the right. Her face turned even redder.

"Oh right, Miss Bu, you look very skilled when you're feeding water. Do you often feed water like this to other men?"

"Don't talk nonsense." Blanche's face darkened as she angrily retorted, "I've never fed water to a man with my mouth before. You're the first one."

"Is that so?"

"Of course." Blanche rubbed her slightly flushed cheeks and said seriously, "You're the first man who hugged me and touched my body to look at me. You're also the first man who kissed me."

"Then, I am truly honored ..." Wu Tian grinned after saying that.

"What's so funny." Blanche rolled her eyes slightly and tried asking, "Do you have a girlfriend?"

"Not yet."

"Alright!" Blanche nodded. "Then what kind of girl do you like?"

The current Blanche didn't look like a princess at all. She was no different from an ordinary girl and was now interested in boys' privacy.

"A beautiful, kind, clean girl like you." Wu Tian casually gave an answer.

However, these words caused Blanche to feel extremely warm. It was as if her heart was struck by a secret. She continued to ask, "Then, do you think it's better if it's Miss China or our Char Country's girls?"

"This isn't a good evaluation, just like how both Chinese and Western cuisines are delicious. Each of them has their own unique characteristics and can't be compared when placed together."

"I agree with you. If you can survive this ordeal, I want you to stay in our country. I can give you the highest rights and wealth."

"We'll talk about it later." Wu Tian didn't give his answer, this wasn't the time to think about it.

If he could really get out, then he would naturally not go to the Char Country to live in it. Even if he had more wealth and authority, he would still not easily emigrate.

Because he loved China, and deeply loved his homeland. He would never abandon this place which he was born and raised in his entire life.

Moreover, he still had many things to do in the China, and also had many missions to complete. Even for the sake of the clan, he would not leave this fertile land called China.

"Alright, let's talk about this after we leave." Blanche also felt that it was too early to talk about this, so she decided not to press the issue.

"Have you ever thought about what would happen if we were stuck here and couldn't get out of here for the rest of our lives?"

"Then you can only resign yourself to your fate. If you can't, then I'll accompany you and have a passionate love affair."

"Good idea."

"However, I still hope to get out. After all, I still have many unfulfilled wishes. For example ..."

At this point, Blanche's expression suddenly became gloomy.

She raised her head and looked at the blue sky outside the canyon. She was stunned for a long time before she regained her senses. Then, she lowered her head to look at Wu Tian, "Take good care of yourself. When you're almost done, we'll go find the exit together."

"Alright!" Wu Tian smiled and didn't say anything else.

Over the next few days, Wu Tian laid down here to recuperate. Blanche meticulously took care of him and served him food and drinks. She was especially careful.

Ever since the beast's right eye had been injured, it had never appeared again. The entire canyon was extremely peaceful.

After a few days of recuperation, Wu Tian's injuries had recovered and his physical strength had gradually recovered. He was able to stand up and walk independently.

The main thing was that his internal organs still ached slightly. Although his back was severely injured, those were only superficial wounds.

"Slow down." Blanche hurried forward and held Wu Tian's arm, afraid that the man would trip and fall.

"It's fine, I can walk by myself." Wu Tian pushed Blanche away and tried to walk forward carefully.

He lay on the ground for several days, not walking for a long time. His bones were stiff and stiff.

But he quickly got used to it. After a few steps, he turned around and said to Blanche, "I'm almost fine. There's no problem with walking."

"That's good, but you still have to be careful not to fall. If you have anything you want me to do, then just do it." Blanche said worriedly.

"You've been helping me pee these past few days, so I'm sorry."

She coughed. Blanche's face instantly flushed red when she mentioned peeing.

During this period of time, she couldn't help but see things she shouldn't have. This almost made her die of shame. She had lived for so long, but this was the first time she saw a man's privacy.

"Right." Seeing Blanche being so shy, Wu Tian took the initiative to change the topic, "Thank you for taking care of me during this period of time."

"You risked your life to save me, so it's only right that I take care of you."

"Come, let's go find an exit now."

"Your injuries haven't completely healed yet. You should rest for a while longer!"

"There's no time. I'm afraid that if that beast comes out again after I recuperate, we'll be in trouble."

"Alright!" Blanche thought that was reasonable. If the beasts appeared again, they would all be dead.

During this period of time, they had been on tenterhooks, afraid that the wild beast would come out again.

"Come, let's take a look over there." With that, Wu Tian dragged his weak body towards the woods.

Blanche quickly followed and held Wu Tian's arm, afraid that the man would fall down.

The two of them walked around the forest and headed north along the river. They didn't stop until they arrived at the stone wall by the river.

There were several large springs on the wall, and the water came out of them and eventually gathered into a small river.

In the northwest direction of the river, the two once again discovered several corpses.

These corpses were obviously bitten to death by wild beasts. Their flesh had already been cleanly chewed by the beasts, leaving only bones.

Looking at the shocking scene, Blanche felt her scalp tingling and cold sweat trickling down her back.

Just like these people, she was almost eaten by wild beasts, leaving only bones behind.

"Seems like this wild beast has killed quite a few people." Wu Tian's heart ached as he looked at the pile of bones.

To be honest, they had never seen such a ferocious beast before. Who knew how many innocent civilians it had hurt.

"Who are these people? Why did it appear here? " Blanche couldn't help but ask this question once again.

"I don't know."

Wu Tian shook his head. He couldn't understand why these people would come here to die.

However, he was now certain that the Eight-Diagram Mountain Canyon was indeed very dangerous, and the greatest danger inside was that wild beast that could not be pierced by swords and spears. To ordinary people, this was definitely a nightmare.

"Our helicopter crashed and fell into the canyon from high altitudes. These people must have come in from somewhere, and they must have come through the exit." Blanche frowned as she analyzed.

He had to admit that this woman was indeed very smart. Her thoughts were very clear, and her analysis of the problem was also very straightforward.

"Makes sense." Wu Tian nodded in approval, "As long as we know where these people came from, we can leave from that road."

"But these people are all dead. How are we supposed to find the exit?"

"Yeah!" Wu Tian sighed, "There are too many tunnels in the canyon. If we continue to search like this, we don't know when we'll find the exit."

Hidden Billionaire Chapter 517 - Surprise

C517 Surprise

"Then what should we do now?" Blanche rubbed her arm, her eyes filled with despair and helplessness.

"No rush, let's slowly search. There will be a day when we find the exit." Wu Tian gave her a comforting look.

Now there were fruits in the canyon that could help them find their way out, at least for a short period of time.

"Alright, let's keep looking!" Blanche swept away the haze and quickly returned to her former optimism.

If it were any other female student, they would have long been defeated by such difficulties and frustrations. However, this female student was still able to maintain her positive attitude.

She was truly worthy of being the Princess of Char Country. She had an extremely strong mental fortitude, so no matter what kind of suffering she met, she would not easily admit defeat.

"Wait!"

Wu Tian's eyes suddenly lit up as he pointed at the pile of corpses, "Miss Bu, what do you see there?"

"Gu Nan Mu." Blanche could immediately tell that this was a very precious ancient zhennan wooden case.

This kind of box was usually used to store precious medicinal herbs, such as 10000 year ginseng, 10,000 Year Lingzhi, and other things.

"You really know how to use China. You even know this." Wu Tian complimented and reminded Blanche, "Quick, pick up the box and take a look."

"Alright." Blanche used her foot to kick away the corpse that was pressing down on the box. She extended her hand to pick up the ancient zhennan wood box.

The box was very delicate. Clearly, it had been polished by hand, and the paint was also of the highest quality.

Staring at the box for a while, Blanche opened it to find a dark-red plant wrapped in yellow silk.

At first glance, this plant looked similar to a Codonopsis, but the only difference was that it was red in color, and its roots were long and thin, like a human's beard.

"This is a Blood Ganoderma Herba."

Blanche couldn't help but exclaim out loud as she stared at the plant. She looked extremely excited.

"What?" You said it's a Blood Ganoderma Herba? " Wu Tian couldn't help but ask anxiously when he saw Blanche so agitated.

He did not recognize Blood Ganoderma Herba, so he naturally did not know what Blood Ganoderma Herba looked like.

"Right."

Blanche nodded her head vigorously, shouting excitedly: "This is the Blood Ganoderma Herba's hay, there are no more than ten in the world."

"You've seen Blood Ganoderma Herba?"

"Of course I haven't, but I've asked people to investigate nearly a hundred pictures of Blood Ganoderma Herba. At the same time, I've asked everyone present to understand the characteristics of the Blood Ganoderma Herba's external appearance, so I'm sure that this is the Blood Ganoderma Herba." Blanche replied with absolute certainty.

"I never thought that this would be the Blood Ganoderma Herba." After confirming that it was the Blood Ganoderma Herba, Wu Tian couldn't help but take a few more glances.

The appearance of this creature was very ordinary. However, its color was a bit strange, showing a dark red color. It was no different from pig blood.

"Great! My father is saved!" Blanche pressed the Blood Ganoderma Herba against her chest, she was so excited that tears streamed down her cheeks.

He had searched for Blood Ganoderma Herba for over half a year, and today, he finally got what he wanted as she personally found this treasure.

The reason why she went through so much trouble to find the Blood Ganoderma Herba was so that she could treat her father's illness. If she could find the Blood Ganoderma Herba, then she could cure her father's strange illness.

"You are such a filial child." Wu Tian reached out his hand to wipe away the tears that were hanging from the corners of Blanche's eyes.

To be honest, his heart was especially moved when he saw Blanche desperately searching for Blood Ganoderma Herba s to treat her father's illness.

He only sought the Blood Ganoderma Herba to strengthen his body, to cultivate Alien Fist, while Blanche looked for the Blood Ganoderma Herba to help his father treat his illness.

In comparison, the Blood Ganoderma Herba was much more important to Blanche.

"Right now, we are certain that those people had come to the Eight-Diagram Mountain Canyon precisely to take away this Blood Ganoderma Herba." Blanche was elated for a while before she looked down at the pile of bones.

"That's right!"

Wu Tian also looked at the corpses and sighed: "They all died because of this Blood Ganoderma Herba, dying under the mouth of that wild beast."

"If it weren't for the wild beasts, the Blood Ganoderma Herba would have been stolen away long ago. We wouldn't have been able to obtain the Blood Ganoderma Herba either."

"So you're saying we have to thank that beast?"

"That's not it, in short, we can only obtain the Blood Ganoderma Herba, if not because of your courage, we would have died long ago, and would not have been able to obtain the Blood Ganoderma Herba." After Blanche said this, she handed the Blood Ganoderma Herba in the box to Wu Tian, "I heard that this can quickly recover your HP. Eat it, it will help you quickly recover your stamina."

"I don't eat." Wu Tian quickly waved his hand and refused: "Take this back to save your father's life."

"My father doesn't need much to treat his illness. He only needs a beard to use as a medicinal catalyst."

After Blanche finished speaking, she pinched off three strands of beard from the Blood Ganoderma Herba and carefully hid them in her secret pocket.

Then, she handed the entire Blood Ganoderma Herba to Wu Tian and urged him: "Quickly eat it. It can help you quickly recover your blood and Qi."

"Then I'll try."

"You can't eat too much of this stuff at once, so eat less." Blanche reminded anxiously.

Previously, she had looked up a lot of information on Blood Ganoderma Herbas and understood their medicinal properties. She knew that if she ate too much of it, it would cause side effects.

"Then I'll eat one third." Wu Tian cut the Blood Ganoderma Herba into three sections, and put one section back into the box. He planned to apply the medicine on it when he takes it back, so that he can use it to cultivate Alien Fist.

After that, he passed the other paragraph to Blanche. "Since it's so good, have some of it yourself. Get healthy."

"I can't eat that." Blanche was so frightened that her body shrank and she retreated a few steps.

"Why can't you eat?"

"This thing can strengthen a man's body, but it can also affect a woman. I heard that after a woman eats it, her beard and body will also change, giving rise to many male characteristics."

"It's that magical?"

"This type of tonic is only suitable for males, it's better if you eat it quickly."

"Alright then." Wu Tian did not refuse and put the piece in his hand into his mouth. He chewed a few times and swallowed it.

As she watched Wu Tian eat the Blood Ganoderma Herba, Blanche asked with concern, "How do you feel now?"

"I don't feel anything, but my mouth is a little bitter."

"Are you alright?"

"It shouldn't be that fast. It's still in my stomach and hasn't been digested. I should be able to see the effects later on." Wu Tian wasn't sure if this thing was useful or not.

Maybe the Blood Ganoderma Herba was just a medicinal herb, it was not as mystical as the legends said. The so-called strengthening the body and prolonging one's life was just a kind of beautiful talk.

"That's right. I heard it will only be effective after half an hour." Blanche seemed to have thought of something as she added.

"Let's not worry about it for now. Let's find the exit first."

"Alright, let's find the exit first and take a look over there." Blanche supported Wu Tian's body towards the opposite side of the stone wall after she finished her sentence.

The two of them searched back and forth in the canyon, finally getting a good understanding of the canyon's topography.

There were two pieces of forest in the canyon, as well as a patch of weeds. Most of the terrain was chaotic, and the small river formed by the mountain spring passed right through the canyon center.

There were more than 40 caves of various sizes on the walls of the canyon. The exit must be inside one of these caves.

There were more than 20 small caves and more than 10 large ones.

Hidden Billionaire Chapter 518 - Sanguinarum Fructus

C518 Sanguinarum Fructus

After thinking for a moment, Wu Tian suggested, "I think the exit is in one of these caves. Why don't we start with the big one and find one in the same order every day?"

"I agree with your proposal." Blanche nodded in agreement. There seemed to be no better solution.

"Right, there are beasts lurking in the cave, let's not go in yet." Wu Tian pointed at the cave opposite them and said.

Just a few days ago, it was precisely because they rushed into that cave that led the wild beasts out and almost lost their lives in the canyon.

"Then are there any wild beasts in the other caves?" Blanche couldn't help but ask about the suspicions in her heart.

If they encountered any other beasts, they would be finished. They wouldn't have the strength to fight them again.

"Probably not." Wu Tian rubbed his chin and said, "After so many days, if there were any wild beasts, they would have come out to hunt for food. When they smelled the blood, they came out a long time ago."

"What you said makes sense."

"In addition, I don't see much animal excrement and hair in the canyon. I don't think there are any other beasts."

"That's good." Blanche relaxed a lot after hearing this.

"Let's go to that cave to find the exit." Wu Tian pointed at the big cave on the right side and took the lead walking towards that direction.

Before he could reach the entrance of the cave, his head sank and his body fell heavily onto the ground like a log.

Blanche was so scared that she immediately ran over, hugged Wu Tian's arm and asked: "What's wrong? What's the matter with you? "

"I'm so cold." Wu Tian felt his body turn cold. In an instant, he felt as if he was frozen, and his frozen body was about to lose all sensation.

"Maybe the Blood Ganoderma Herba's medicinal properties are acting up." Seeing this symptom, Blanche explained: "After the Blood Ganoderma Herba's medicinal properties take effect, it will cause side effects to the human body."

"I'm too cold." Wu Tian's body twitched and his teeth had already started chattering.

His body instantly turned cold. That feeling was really unpleasant. It was a hundred times more painful than the night in the valley.

"I should feel better if I were to hug you." Seeing Wu Tian in such pain, Blanche opened her arms and hugged the man in front of her tightly.

After these few days of intimacy, she wasn't as shy as before, and she was even more relaxed in front of Wu Tian now.

"No, it's hot, it's so hot." Not long after, Wu Tian felt his body heat up like a burning stove.

Blanche quickly let go of Wu Tian and pointed at the river beside them. "Hurry, go into the river to cool down."

After saying that, she supported Wu Tian and ran into the river.

After staying in the river for less than three minutes, Wu Tian felt cold again. He quickly got up from the river and hugged Blanche tightly.

He tossed and turned for more than half an hour before everything returned to normal.

Blanche put her hand on Wu Tian's face and asked with concern, "How do you feel now?"

"Much better." Wu Tian let out a long breath. The symptoms of alternating hot and cold was too uncomfortable and almost tortured him to death.

"It's good that you're fine." Blanche wiped off the sweat on Wu Tian's forehead and instructed him softly, "You sit here for a while. I'll go and pick some fruits for you to replenish your energy."

She trotted toward the grove.

As soon as Blanche left, Wu Tian felt an excruciating pain in his head, as if it was about to explode.

Not only was his head in pain, even his eyes were in pain. His vision was blurry, and he couldn't see anything clearly.

As the pain multiplied, his head swelled with gratitude, as if someone had stuffed a lot of things into it.

The swelling pain lasted for more than two minutes. Finally, Wu Tian's head suddenly lowered and he fainted on the ground.

When Blanche returned with the apple in her arms, she saw Wu Tian unconscious on the riverside. Her heart ached and she quickly threw away the fruit and rushed over, "Wu, wake up, don't scare me. Wu, wake up quickly ..."

She shouted for a long time, but there was no sound. Then, she moved her mouth over to do artificial respiration for Wu Tian. After a long time, she still couldn't wake Wu Tian up.

She had no choice but to stay by Wu Tian's side and wait for this man to wake up.

She didn't know how long she waited, but perhaps she was too sleepy, she fell asleep in Wu Tian's arms.

When she woke up again, she felt someone touching her face. When she opened her eyes, she found that Wu Tian had woken up and was staring at her unblinkingly.

"You're finally awake." Blanche was overjoyed. She climbed up from Wu Tian's embrace and asked with concern, "Are you alright?"

"It's fine, I feel energetic. My entire body is brimming with energy." Wu Tian stood up from the ground. He felt as if he had been reborn and his body was filled with endless strength.

He didn't know why, but he felt a warm and cold feeling alternating within his body when he woke up. It slowly flowed from top to bottom.

This flow of air made him feel joyful both physically and mentally. His entire being felt extremely relaxed.

"Wu, you ..." "You ..." Blanche's eyes were wide open as she looked at Wu Tian in shock. She stuttered for a long time without being able to say anything.

"What's wrong?"

Wu Tian touched his own face, feeling extremely uncomfortable under her gaze.

"Your entire being has changed." Blanche swallowed her saliva and couldn't help but exclaim, "Your skin is even more exquisite than before, and your eyes are even brighter. Your entire temperament has undergone a complete transformation."

"Is that so?"

"Right, your current appearance is even more handsome and charming than before. Truly perfect." Blanche was surprised and happy at the same time. She did not expect Wu Tian to become like this after falling asleep.

"How could this be? Could it be that the Blood Ganoderma Herba was in effect?"

"Yes, it must be the Blood Ganoderma Herba. Not only does the Blood Ganoderma Herba have the ability to strengthen the body, it also has the miraculous effect of beauty and beauty."

"That powerful?"

"The Blood Ganoderma Herba is much more mysterious than you think." Blanche then asked, "By the way, how do you feel now?"

"If you didn't tell me, I would have forgotten that I was hurt." Wu Tian touched his body and said with a look of surprise, "My internal injury has completely healed and I don't feel any pain. The wound on my back also doesn't hurt anymore."

"Quick, let me see your back."

"Alright." Wu Tian immediately took off his clothes that had been bitten by a wild beast, revealing his back to Blanche.

"Okay, it's really healed." Seeing Wu Tian's back, Blanche was pleasantly surprised, "The wound on your back has already scabbed over and over. It will soon heal."

"That's great." Hearing this, Wu Tian was especially surprised and could not help but sigh: "Blood Ganoderma Herba is indeed the world's most magical medicinal herb."

Before, he still had doubts about the effects of the Blood Ganoderma Herba, but only now did he believe that the Blood Ganoderma Herba was indeed mystical.

"I heard that Blood Ganoderma Herba can strengthen the body, do you feel that your body is especially strong now?"

"I do feel energetic."

"Try hitting this tree." Blanche pointed at the small tree beside her and said to Wu Tian.

She couldn't wait to see Wu Tian's amazing strength after consuming the Blood Ganoderma Herba.

Hidden Billionaire Chapter 519 - Stunning Power

C519 Stunning Power

"Alright, I'll give it a try." Wu Tian felt that he had no energy left, so he took the opportunity to vent it out.

He walked up to the tree. Without any preparation, he raised his hand and gently punched at it, not using much strength.

With an astonishing sound, the small tree was directly broken into two pieces and fell to the ground.

Blanche's eyes were wide open as she couldn't help but exclaim, "I didn't expect your strength to be so great after you recovered from your injuries."

"I only used a tiny bit of strength." Wu Tian looked at his fist and muttered to himself: "I don't even know how much power is in my body right now."

"Then try that tree again." Blanche was also very curious. She also wanted to know how strong Wu Tian was.

"Alright, I'll try."

Wu Tian walked up to the big tree and stared at it a few times. Then, he suddenly threw a punch at it.

With an astonishing explosion, the tree fell down and the entire tree was smashed into pieces.

Blanche screamed exaggeratedly as she saw the scene before her. "I never imagined that you would be so strong now."

Just by swinging his fist, he was able to knock down a large tree. The strength behind his fist was at least several thousand jin. Just thinking about it made him feel terrified.

"I really didn't expect my strength to be so astonishing." Wu Tian couldn't help but exclaim as he looked at his fist.

"You should be the fiercest man in the world now."

"The effects of the Blood Ganoderma Herba are indeed miraculous. I never thought that it would be able to make me so strong in such a short period of time. Right now, my strength is truly as great as an ox." After Wu Tian said this, he swung his fist towards the bigger tree again.

With this punch of his, the tree was once again smashed to the ground. The entire tree trunk was shattered into pieces, and broken pieces of wood littered the ground.

If he hadn't experienced it for himself, he would never have dared to believe that there was such a miraculous tonic in the world. To be able to make him strong like this in such a short period of time, his strength was simply as great as an ox.

"Even if that beast comes out now, I think you can probably beat it to death." Seeing that Wu Tian was so strong, Blanche no longer had to fear wild beasts.

"Yeah, even if I can't kill the beast, I can scare it away."

"That's great. We don't need to be afraid of wild beasts anymore."

"Let's go, continue looking for the exit." After Wu Tian said this, he pulled Blanche's arm and walked towards the tunnel on the stone wall.

After consuming the Blood Ganoderma Herba, his entire body was full of energy, his legs were strong and tenacious, and every step he took was like flying arrows.

Blanche glanced at her arm that was being held, but she didn't pull it away. Instead, she felt an inexplicable sweetness in her heart.

The two searched along the biggest tunnel and very quickly reached the end. They discovered that this was a dead tunnel.

They could only withdraw from the tunnel and continue to search for an exit in the tunnel next door.

Most of these tunnel had no entrance, and after walking for a short while, the two people had already reached the end, and could only exit to search for the next tunnel.

Just like that, they continuously searched for two days, even searching through the entire tunnel. In the end, they were still unable to find the exit, and it was quite disappointing.

"Are we really going to die here?" Blanche's eyes were filled with despair as she looked at the clear sky outside the canyon.

There weren't many fruit trees here, and the only things they could eat were apples. These apples could only support them for half a month's rations.

If they couldn't find an exit, they would starve to death sooner or later.

"Don't be depressed, we'll definitely find the exit." Wu Tian rubbed Blanche's shoulder and comforted her with a smile.

"But, we have already found all the tunnel that we could find ..."

"Wait!" Wu Tian seemed to have thought of something and interrupted Blanche, "I think we still have one more cave that we haven't went to."

"Which cave?"

"The cave." Wu Tian raised his hand and pointed at the cave behind him. This was the biggest cave in the entire canyon, which was also where the wild beasts hid.

They had entered this cave before, and when they were halfway there, they met a wild beast, which scared them so much that they escaped again.

"You mean the exit could be in this cave where the beasts are hiding?" Blanche questioned with a frown.

"Very likely."

"But ..."

"Don't worry. Now that I have divine power, I don't need to be afraid of wild beasts." Wu Tian waved his fist and comforted him with a smile.

"Alright, then I'll go with you and find the exit." Seeing Wu Tian's confident smile, Blanche felt an indescribable sense of security.

Now that Wu Tian had consumed the Blood Ganoderma Herba, he had a mysterious power, so he didn't need to be afraid of that wild beast at all. Furthermore, the wild beast's right eye was injured and it had become blind.

"Come, let's go investigate." Wu Tian held Blanche's arm and waited for her to walk towards the largest cave.

In this pitch-black cave, the two of them walked very slowly and were extremely vigilant, as they were afraid that wild beasts would suddenly appear.

Although Wu Tian had miraculous power, that wild beast was not weak either. It had an invulnerable body, so it would be impossible for him to say that it wasn't afraid at all.

The two of them continued to walk deeper into the tunnel with lingering fear, and at the same time, raised their vigilance in their hearts.

They walked along the tunnel and only saw the light after nearly an hour had passed. The two of them sped up their pace and walked out of the tunnel.

Although this canyon was not big, it was filled with towering trees. Under the trees, there were many weird-looking little mushrooms, and there were all kinds of looks.

Moreover, many of these mushrooms had been eaten by animals, leaving behind a lot of round animal feces.

Seeing these poop, Wu Tian immediately raised his vigilance: "If I'm not wrong, the wild beast's lair is nearby."

"That's right!"

Blanche nodded her head in agreement and glanced at the situation in the canyon. "There is a lot of faeces and animal hair. It should be the lair of the wild beasts."

"Perhaps the wild beasts rely on those mushrooms for a living." Wu Tian looked at the mushrooms that had been gnawed on, and analyzed: "Maybe

it's because they ate those mushrooms, that's why their skin is so hard, it's invulnerable."

"Then tell me, where is the beast now?"

"Maybe the beast is hiding behind the boulder." Wu Tian scanned the surroundings and slowly looked at the huge rock.

Blanche also followed Wu Tian's gaze and nodded in agreement: "That's right, the giant rock was worn very smooth by the wild beast, and there are also traces of hair and footprints left behind by the wild beast. The wild beast should be hiding behind the giant rock."

"I'll go take a look."

"Wait." Blanche was not at ease and pulled Wu Tian's arm, "It's too dangerous, it's better if you don't go!"

"It's fine, I'm confident I can kill it." Wu Tian waved his fist, dropped a confident smile on his face, and carefully walked closer to the boulder.

He hesitated for a few seconds behind the boulder and then rushed up to it as fast as he could. He discovered that behind the boulder was a deep pit where the wild beasts were hiding.

The beast let out a few hisses and pounced towards Wu Tian.

After the beast's right eye had been pierced, it became a mess of flesh and blood. Its entire eye had been frozen by dried blood stains.

Hidden Billionaire Chapter 520 - Kill Wild Animal

C520 Kill Wild Animal

After being wounded in the right eye, the beast was clearly much more dispirited than before. It no longer had its previous ferocious and terrifying aura.

"Be careful!"

Seeing the wild beast charge towards Wu Tian, Blanche, who was standing behind him, was extremely anxious. she called out in a loud voice.

"Bastard, today, either you die or I die." Wu Tian's eyes turned cold as he swung his iron fist at the beast.

After a muffled sound, the wild beast was forced to retreat several steps.

Wu Tian's feet touched the ground and he leaped towards the beast once again. Then, he swung his fist again towards the beast's head.

With this punch, he had used up almost all of his strength.

With an astonishing muffled sound, the wild beast let out a miserable cry as it was hit, and its body swayed as it fell onto the ground.

The beast struggled a few times, but it could not get up even with all its strength.

Wu Tian took a deep breath and cursed, "Bastard, today is the day you die."

Before he finished his sentence, he swung his fist again.

Ever since he had consumed the Blood Ganoderma Herba, his body had undergone a complete transformation, and his strength had increased by more than ten times.

This punch was like a thousand pound bronze hammer, fiercely smashing on the head of a wild beast, and completely crushing the beast's head.

The wild beast let out a miserable shriek as its body struggled a few times before falling to the ground, motionless.

Seeing the wild beast beaten to death, Blanche was overjoyed. "Great, the wild beast was finally beaten to death by you."

"Yes, this beast is finally dead." Wu Tian clenched his fists. He was unable to hide his excitement.

He once again proved that his fist truly had divine power. In just three punches, he had already killed the invulnerable divine beast.

"This beast should have died a long time ago. Who knows how many innocent lives it has hurt." Blanche walked over and viciously kicked the beast's corpse. Her eyes were filled with resentment.

Just a little bit more and she and Wu Tian would have died in the mouth of a wild beast.

"Forget it, let's continue looking for an exit." Seeing that the wild beast was dead, Wu Tian didn't want to waste any more time on it. He brought Blanche and continued to search for the exit.

The two searched around the small valley, and quickly found a tunnel behind a few large trees.

This tunnel was different from the other tunnel, the other tunnels were naturally formed, and the tunnel in front of him seemed to have been artificially excavated.

tunnel slanted upwards at a 45 degree angle, there were obvious chisel marks inside, and rust-stained tracks left behind.

This should have been a tunnel built by mining a long time ago.

He stared at the tunnel for a few seconds. Wu Tian turned around and said to Blanche, "If I'm not wrong, this should be the exit."

"Great, we finally found the exit."

"Come, I'll take you out." Saying this, Wu Tian extended his right hand in front of Blanche.

"Alright." Without any hesitation, Blanche nodded and put her hand on Wu Tian's.

During this period of interaction, she had completely trusted Wu Tian, and had even started to rely on this China man.

"Let's go home." Wu Tian pulled Blanche's arm and climbed up the tunnel.

As tunnel was a large slope, climbing it up was extremely tiring. The two of them had to climb for more than two hours before they saw a flash of light in front of them.

"There's light ahead." Blanche shouted, panting.

They were already exhausted. When they saw the light, all their fatigue was instantly swept away.

"Come, let's go take a look." Wu Tian pulled on Blanche's arm and accelerated towards the light at the end of tunnel.

Right now, the two of them were very nervous, they only hoped that walking out of this tunnel would be the exit, and that they would not fall into a bigger trap.

The more they moved, the stronger the light became. All the way until they walked out of the tunnel, when a strong light shone upon them, causing them to be unable to open their eyes.

Both of them were excited as they saw the situation outside the cave.

Walking out of the tunnel, the first thing that entered their eyes was the blue sky and white clouds, as well as the sun that they hadn't seen for a long time shining onto the earth.

In the distance, there were groups of mountains encircled by trees. Clouds and mist were floating on the mountains, and they intertwined with the green trees.

Their line of sight was getting closer and closer. They were halfway up a mountain, and the area around the cave entrance was filled with weeds. It was as if they had been abandoned for a long time.

There was a pile of embalmed wood not far from the cave entrance. Someone must have lived here a long time ago.

"Great, we're finally out." Looking at the scene before her, Blanche was so excited that hot tears filled her eyes.

After being trapped in the canyon, she had thought that she would die there. After experiencing a near death situation, she was finally able to regain her freedom today.

"Yeah, we're all alive." Wu Tian raised his head and looked into the distance. That ray of sunlight looked especially friendly.

These few days, he felt like he was in a dream. He and Blanche had gone through many difficult situations and were almost eaten by wild beasts. But now, they were finally able to escape death.

Not only was he not dead even after being trapped in the canyon, he had also obtained a Blood Ganoderma Herba, making his body a hundred times stronger.

"Wu, thank you." Blanche jumped into Wu Tian's embrace, hugging the man's body tightly. "Thank you for risking your life to protect me, thank you for helping me find the Blood Ganoderma Herba, thank you for taking me out of the canyon ..."

"I also want to thank you. If it wasn't for you, I'm afraid I wouldn't be able to survive." Wu Tian lightly patted Blanche's back.

After having a life-and-death separation with this girl in the canyon, their relationship had clearly become much closer.

"You saved me once before, and this time, you saved me again. I will never be able to repay you in this life." Blanche threw herself into Wu Tian's arms, her body trembling slightly.

Wu Tian pushed the girl away from his embrace and said with a smile, "Everything I did was what I should have done. I don't need you to repay me."

"No, I must repay you."

"Actually ..."

"I want to take you to our country." Blanche's beautiful eyes stared fixedly at Wu Tian, and said affectionately: "I want to marry you, and I want you to become the king of our Char Country."

"Miss Bu ..."

Blanche reached out her hand to cover Wu Tian's mouth, "Think about it carefully, I don't need you to answer me right now."

Wu Tian did not say anything. Seeing the sincerity in Blanche's eyes, he did not know how to reject her.

He had never thought of going to the Char Country, nor did he think of marrying this Princess of Char Country, let alone becoming her king.

He didn't want this woman to marry him just because she wanted to repay the debt of gratitude. He didn't want this woman to give the country to him in order to repay his gratitude.

He had to find a chance to explain this to this woman.

"Alright, let's go back first. We'll talk about it later." Wu Tian came back to his senses and reminded Blanche.

"Alright."

Blanche nodded. She stroked her hair and asked softly, "Where are we going now?"

"Let's go down from there. Underneath the mountain is the northern suburbs." After saying that, Wu Tian pulled Blanche's arm and walked down the mountain.

It was a steep and rugged mountain road that few people walked on, and it took a lot of effort to walk on. It took them a long time to get down.
