

## Hidden Billionaire Chapter 586 - Private Transactions

C586 Private Transactions

Hearing Wu Tian's words, Loong Yun suddenly had no more ideas.

Indeed, it was just as Wu Tian said. They had already used up all the methods to get the money. The mortgage was the last hope.

"Then what should we do? If you want to do that, President Wu, I will definitely help you."

Although she couldn't agree with Wu Tian emotionally, Loong Yun still decided to do her job well.

"I've pretty much thought about it. Bring this file with you and go out with me. We'll go find Nangong Ying. Maybe he can help us."

As matters stood, Wu Tian felt that Nangong Ying was the only person that he could ask for.

Neither of them was a friend. However, the feeling from Nangong Ying's body made Wu Tian feel very relieved.

"Can this work? He is someone from the Nanhe Securities Corporation! " Loong Yun was slightly surprised. She did not expect Wu Tian to want to find this person.

"If we don't try, we definitely won't know the result." Wu Tian felt that he no longer had anything to worry about. He was even going to mortgage away his entire family's wealth from Wu Group, and instead, had no burdens at all.

As the saying goes, lice do not itch, debt do not worry, Wu Tian finally experienced such a mood personally.

He had just left Nangong Ying's side not long ago, and now he had to turn back all of a sudden. Wu Tian also felt that this was a bit ironic.

At this time, there were many people constantly coming and going of Nangong Ying's ward, as if they were all from Nanhe Securities Corporation. No matter what, Nangong Ying was also their Nanhe Securities Corporation's general manager, it would be strange if no one cared about him.

Seeing so many people at the door, Wu Tian didn't know whether he should go in or not.

This was because the things he wanted to say could not be revealed to the public, and his current identity was relatively sensitive. Most people might not know that he was the grandson of Wu Old Master from Wu Family, but that did not mean that the people from Nanhe Securities Corporation did not know about it.

Previously, Nangong Ying had said that he wasn't very prestigious on the board of directors as many people were targeting him.

If Nangong Ying was pressured by the board because of his status, it was something Wu Tian did not want to see.

"President Wu, if it's inconvenient for you, how about I go over in your place?"

Hearing Loong Yun's words, Wu Tian nodded his head. That was all he could do now.

Soon, Loong Yun left the hospital in a hurry. She went out to buy some fruits and gifts before returning to deliver them to Nangong Ying's ward.

Wu Tian kept an eye on the situation, but everything went on as usual, as if nothing had happened.

After a full half an hour, Loong Yun slowly walked out. She and Nangong Ying chatted as they strolled towards Wu Tian.

Right now, he was betting all of his treasures on Nangong Ying. Perhaps in the entire S City, no one would be able to raise over a hundred or even a billion billions of funds for Wu Tian in such a short period of time.

"Mr Wu, why are you here? If Loong Yun hadn't told me, I wouldn't have believed that you wouldn't dare to come in here. " Nangong Ying greeted Wu Tian. At the first glance, he saw that Wu Tian had a worried look on his face. It seemed that he had met with trouble.

"I see that there are a lot of things happening in your company. I'm afraid of bringing you trouble, so I didn't dare to go over. I asked Loong Yun to come over for me." Wu Tian could finally talk to Nangong Ying face to face, and his heart finally relaxed a little.

"Speak, what is it? You will definitely not come here without reason."

"Can you help me raise a huge amount of money? I might need billions of dollars. And we need to be fast. It would be best if we can do it in a few days."  
"

Nangong Ying's mouth was wide open as he smiled and said, "Do you think I have a bank here? Even a bank manager can't raise that much money for you in such a short time." Though it could be said that Nanhe Securities Corporation was indeed the only thing that could be compared with Wu Group in terms of scale.

However, this did not mean that the money could be taken out that easily.

"This matter is urgent, and I'm not unprepared. I have something to pawn with you." Wu Tian knew that even though he and Nangong Ying were talking and laughing, it would not be that easy if they didn't give him some benefits.

"Tell me about it."

Nangong Ying vaguely felt that Wu Tian was going to sell some company to him. To him, this was not necessarily a bad thing. The market capitalization of the companies with Wu Group were all relatively high, and they were the leaders in all walks of life. Every one of them had an extremely high acquisition value. If Wu Tian was really willing to sell, Nangong Ying felt that even if he had to post backwards, he would still be willing to buy these companies.

"You know about the castle in the Wu Family, right? How much do you think it would be worth? "

Nangong Ying let out a cold breath when he heard Wu Tian's words. So it turned out that he was wrong, this guy actually wanted to sell his family's castle! You need to know that the scale of the castle in the Wu Family is so big that one can already see it as a landmark in their S City.

Many people in the outside world thought this was a special tourist attraction. Earlier on, there were many people who wanted to go in and take pictures. Later on, Old Master got tired of it, so he built a tall wall on the outside.

"You ... You really want to sell this castle? " Nangong Ying could not believe it, his hands began to tremble. If it was true, then even if he had to pay double the price, he must eat this castle!

"I'm not selling it. Listen to me first, it's a mortgage. If I don't pay up, I'll use this castle to pay you back." Wu Tian stressed again that this prerequisite was very important.

However, to Nangong Ying, it didn't matter. As financial people, they definitely had countless ways to capture this castle.

"Name your price." Nangong Ying agreed without any hesitation.

Wu Tian and Loong Yun looked at each other. It was finally the moment. Honestly speaking, he was also afraid of this the most.

If the castle was truly mortgaged, then Wu Tian and the others would have no way of turning back. No one knew what kind of storm would follow.

"8 billion!" Wu Tian gritted his teeth, but he still announced the price. Money was not something to be afraid of, there were still a lot of places to use it.

Moreover, it was also a common practice to ask for a sky-high price to pay back the money.

Nangong Ying didn't even blink when he heard the sky-high price.

"Deal, this money, I will transfer it to you as soon as possible. Let's sign the documents now."

## **Hidden Billionaire Chapter 587 - Give Back the Money with Money**

C587 Give Back the Money with Money

Sitting in the car back home, Wu Tian's mood was very complicated.

There was nothing to be afraid of. To be honest, although 8 billion was not a small amount, he could still make Wu Tian pay for it.

Even his own assets had already exceeded this amount.

But the most troublesome thing, was still how to face the pressure of Wu Family.

If Old Master and co. did not find out, then this matter could just rot in his stomach.

However, if he accidentally exposed himself, Wu Tian didn't know if he could still get their forgiveness and understanding.

After returning home, Old Master called out to Wu Tian with anticipation, even asking him a lot of questions about the Wu Group during their meal.

In order to not worry Old Master, Wu Tian made up some things himself, saying that everything was getting better.

However, due to a moment of happiness, Old Master didn't notice the worry and worry on Wu Tian's face.

After washing up, Wu Tian decided to not worry about anything else. He decided to sleep first, and just as he was about to go back to his room, he coincidentally bumped into Su Cancan.

Wu Tian was stunned. He didn't know whether he should greet Su Cancan or not.

Su Cancan's eyes looked straight ahead and did not stay on Wu Tian for more than a second. She directly walked past him.

"She's still angry ..." Wu Tian could feel the deep displeasure from her even from far away.

It was better to finish this as soon as possible. Wu Tian suddenly started to miss his place.

Although he wasn't particularly strong himself, he was very capable of living his life as he pleased, and he didn't need to be like this.

He didn't know how Nangong Ying worked either. Just as dawn arrived, Wu Tian saw a message from Yu Naixin on his phone.

She was very excited to find that the company's bank account had suddenly received a large amount of cash.

She was so excited that she picked up her phone in the early morning and sent the message to Wu Tian.

Seeing that, Wu Tian let out a sigh of relief.

At least he could continue now.

In the remaining time, he would begin to clear out those Wu Family disciples who had openly betrayed the clan.

Although it couldn't be said that they were all bad people, but to hit ten people with a stick, at least nine of them weren't good people. That was true.

He also didn't know where something went wrong with the Wu Family and why it had become like this.

Early in the morning, Wu Tian left for the company in a hurry after dawn. He didn't even have time to eat breakfast.

Yu Naixin was already waiting for him at this time. The reason Wu Tian came today was to solve the financial problem of the company.

Of course, it wasn't that he didn't have time to notify Su Cancan, but she didn't give him any response at all.

"Since the money has already been transferred into our account, first take our most important place and spend the money where we should. Then pay back the money that we owe to others first." Wu Tian quickly gave the order. The staff who were still left in the Finance Department could be counted with one hand. They, who were originally idle, instantly became busy.

However, this kind of busyness was extremely joyful. It was as if they had come back from the dead.

When the time came, a large group of supplier arrived at the company. They shouted and even wanted to cause trouble.

Hearing the commotion in the hall, Wu Tian hurried over to take charge of the situation.

"Everyone, what are you doing?" Wu Tian looked at the people who were holding some notice boards and other banners. It was like they were farmers

begging for their wages. They were like they didn't want to give up until they were dead.

However, Wu Group clearly did not owe them any money. All of this money that had not been paid actually had accounting periods, and since the accounts had not expired, there was no need for them to return the money.

"Nothing, we were just telling you all a very simple principle of Wu Family. It is only natural and right to repay a debt! " A guy who looked like the leader stood at the front and said arrogantly.

"That's right!"

"Wu Clan, return the money!"

With him leading the way, the crowd started to clamor. little girl and the others at the front desk were so frightened that their faces turned pale and they quickly hid to the side.

Wu Tian saw the crowd of thugs surrounding him, he didn't seem to want to run away at all.

He was already used to this kind of scene.

What had he not seen before? He would not be frightened by such a small scene.

"You want us to pay you back, but we don't owe you money. What else can we do?"

Wu Tian looked at the group of partners with a smile, while he couldn't help but sigh in his heart. These people were truly realist, their Wu Group was only slightly declining, and they immediately began adding insult to injury, raising all kinds of unreasonable demands.

To put it bluntly, they were a group of blood-sucking cockroaches, lying on top of this huge body which belonged to Wu Group one by one.

"What did you say?" Of course it's our payment! "

"But, we've already paid off your goods. If you don't believe me, you can check for yourself."

Wu Tian still didn't have much of a change in expression. Of course, he couldn't fall out with these people at this moment.

"Nonsense, you guys didn't have any money yesterday, and you guys didn't have any money last year either, but now you're rich, why are you trying to trick anyone?" Wu Tian had already said so, but there were still people who refused to believe what he said. They thought that this person was just a liar and everything he said was a lie.

However, something interesting happened. Some people did not believe what Wu Tian said, but for the sake of insurance, some people chose to believe it.

"Wait a minute, it seems like I really have an extra amount of money in my account, and this money just so happens to be the payment for the goods that haven't been settled yet!" Suddenly, someone shouted in surprise. When the people surrounding them heard this, they all took out their phones and started to inquire about these things.

More and more people realized that the money had already been transferred to their account. Earlier, those people were holding a banner and were filled with righteous indignation. Now that they looked at it again, they felt somewhat embarrassed.

"Everyone, we aren't lying to you, right? When will Wu Group not pay your debt? " Seeing that they almost confirmed that they got the money, Wu Tian lightly clapped his hands and attracted everyone's attention to him.

"This, it's really ..." At this time, the leader of the vicious group had also become incomparably ashamed. They quietly took away the tablets and banners, and then left the hall in silence.

As he watched these people slowly walk away and disappear from his field of vision, Wu Tian glared fiercely at them, and then drew a large cross on the list of suppliers. This meant that the Wu Group would never cooperate with them again.

## **Hidden Billionaire Chapter 588 - Start of Reform**

## C588 Start of Reform

The person who asked for payment finally left. Wu Tian hurriedly took out another portion of the billions of dollars and took advantage of the current stock price downturn to buy shares from the market.

The company had survived the crisis, but most of the employees had resigned. At this time, a building turned into a ghost house.

There were only a few people on each floor.

Many departments had resigned along with their leaders and employees, causing the personnel department of Wu Group to go insane.

Many of the department heads knew about Wu Tian's existence from Yu Naixin. When they couldn't contact Su Cancan, they hurried to the office on the top floor to complain to Wu Tian.

Looking at the people in front of him, Wu Tian's mood was also very complicated.

"The Ministry of Finance, the Ministry of Justice, and the Administrative Department are now empty. Only the few of us, the ministers, are left ..." The way Yu Naixin looked at Wu Tian now was different. She didn't think that the man in front of her could really do what he said.

"President Wu, our situation isn't too good over there either ..." More and more people complained. It was just that there was no money, no one.

Wu Tian looked at them quietly, but he didn't let them take all of his attention away.

"I'm very pleased that you guys are able to hold on to your positions. I can't just leave you with no rewards. As for the employees that are still in the company, everyone will be promoted one level higher."

He would be rewarded if he did well. If they did, they would be punished. Now was the time to win over the hearts of the people. Naturally, he couldn't afford to save money in this place.

When everyone heard this, they were very pleased and a smile hung on their faces.

"It's just that we're not in a hurry to recruit people right now. Make a list of all the employees who have left and hand it over to the HR department. We'll never hire them." This couldn't be said to be too harsh on Wu Tian, since it was something they deserved.

These people left on a large scale due to their high salary. They never considered the issue of handing over the company's business. Since they didn't have any professional ethics, Wu Tian wouldn't have any sympathy for them. He took this opportunity to purge the entire Wu Group.

"President Wu, we need to stop our company's business for now ..." Some people were more worried. If that was the case, then the company would have already stopped doing business. If no one went into business, then the company would have no income.

"This... As for the source of our group's main income, you can explain it to me clearly. Those that are not very important, cut them all down. "

His way of thinking was way too bold, in short, everyone who heard it felt shocked.

The business of Wu Group was originally carefully chosen, and the industries with low profit margins or high segmentation had long been handed over to the branches below.

"This ..." The few ministers beneath them looked at each other. Everyone looked at each other in dismay, not daring to speak.

Wu Tian tapped the table with his finger and said calmly, "What are you afraid of? The sky is falling, and I'm holding it up. "

A minister who looked to be in his 50s saw Wu Tian's unhappy look and quickly said, "President Wu is like this. Now, our company's business has been decided upon by Chairman Wu himself and has gone through a round of screening. "If we cut it off again, we don't know which company we should move this business to."

In particular, cutting off the current business was not allowed for them. Every business was acquired by the company through a lot of hard work recently, and many of them were due to the favor of Wu Zhi. If he cut off the business, Wu Old Master wouldn't agree.

After hearing what he said, Wu Tian thought for a while. What these ministers said made sense, but he couldn't care less about that much.

"I don't care what Chairman Wu said or did in the past. If you want to save the company now, you must listen to me. Let me tell you the truth too, if not for me taking back the stocks, my Wu Group would have already been purchased. This time, our people were all taken away for a reason! "

What the company lacked the most right now was the new vitality and boldness. If everything depended on Chairman Wu's authority, then the Wu Group would sooner or later collapse.

Yu Naixin was also surprised to hear Wu Tian's words. She looked at Wu Tian with eyes full of disbelief.

Admittedly, at the beginning, she thought that Wu Tian was like the other Wu Clan disciples. She thought that he knew nothing and would only be lazy. But now, after finishing all these tasks, Wu Tian showed his courage. Furthermore, he was very decisive in his speech and did not hesitate at all. Even General Manager Su couldn't compare to him in this.

"I am willing to listen to you, President Wu." Regardless of what the remaining Division Ministers thought, Yu Naixin expressed her thoughts first. She had already decided that she must follow Wu Tian's footsteps in order to save the company.

The other Division Ministers looked at Yu Naixin with hesitation.

"Don't worry, the company's business is gone, we can still develop new ones in the future, and we can't rely on the branch companies for everything, now we can immediately split it up with these branch companies, whether it is their debt or business, let them manage it themselves, it has nothing to do with our main company."

Wu Tian had wanted to do this before, and it was the ideal situation for him. During the meeting in Wu Castle, if only those people decided to split up.

In that case, he would be able to reform the structure of his Wu Group in a straightforward manner.

Of course, even though it was a little late, he could still accomplish this.

"President Wu, this is unacceptable! "If our main company doesn't have these branches, then we won't have any other businesses ..." After the several ministers heard this, they immediately panicked. Originally, the corporation had planned to act as a management agency and was responsible for overall planning for the operation of the branch under the corporation. Now, if they were to cut off from them, the corporation would have nothing else to do.

This was only on the surface. There were many other related matters that had been affected.

Wu Group's reputation and position, all depended on this large corporation group. If they lost these branches, Wu Group would be greatly affected.

"We don't want any of these branches, we don't want anything else. If we keep them like this, sooner or later we'll be dragged down by those branches. We might be able to hang on for a year or two, but who knows what will happen in the future?" Wu Tian had already decided on this matter, it was useless for anyone to persuade him.

He could even mortgage the Wu family's castle. What else could he not do?

## **Hidden Billionaire Chapter 589 - No Longer Managing Director**

C589 No Longer Managing Director

When everyone heard that the Wu Family company was going to cut ties with the company below, the originally deserted Wu Group building was suddenly surrounded by a group of people. The hall was bustling with people.

However, this time, they were not here to collect their debts. Instead, they were here to question Su Cancan.

"What about your general manager? Call him out! What's going on? Let him explain to me what it means to operate a branch independently! Our Wu Group has been established for such a long time, but we have never done such a thing! "

"After he gets the benefits, he abandons those who helped him!"

A lot of people were shouting at the receptionist. Everyone seemed very angry.

Su Cancan actually didn't know about this at all. Now, those ministers all gathered the relevant information directly to Wu Tian.

The moment she walked into the company, she was immediately surrounded by a group of people. The person in the lead was Wu Yongan.

"What's wrong? "You rarely show up at the company, so I'm afraid this is the first time you guys are gathered here."

Su Cancan looked at these people with unparalleled disgust in her heart. If it wasn't for them, Old Master Wu Zhi wouldn't have to worry so much. Wu Group would not fall in such a way.

"Stop with the nonsense — You are an outsider, there is no need for you to care about the matters of our Wu Family! First of all, what do you think this document means? Was it your idea or Wu Old Master's idea? "

As he said that, Wu Yongan handed over a document, which impressively stated that with her identity as the General Manager of Wu Group, she divided up each branch.

It was no wonder that these people had come to find Su Cancan.

Su Cancan didn't understand the document at all because she hadn't done it at all.

The document requires the branch company and the head office to separate, the debt and business is completely self-supporting, self-financing.

This was actually very consistent with Su Cancan's idea. However, it was too difficult to push forward with this plan. The resistance of these people from the Wu Family was too great, and they would always have a variety of reasons to obstruct the development of this matter.

If she didn't write the document, who else could it be? Su Cancan immediately thought of Wu Tian. He seemed to have been in contact with someone in the company for the past few days. If nothing went wrong, it should be him.

"You guys go to the meeting room now, I'll be there shortly." Su Cancan put the document away. She ignored them and walked into the elevator without looking back.

Her actions infuriated Wu Yongan and the rest, but they still followed Su Cancan's request to go to the meeting room. They just wanted to see what kind of explanation Su Cancan could give them.

Su Cancan went straight to the office on the top floor with an expressionless face. As expected, there were already a lot of employees gathered there. They were busy going in and out.

There had never been a scene like this before, and Su Cancan immediately frowned.

"The documents have been sent down, right? Yu Naixin, lead the finance department over there and sort out the debt situation. Then, make a document and send it to supplier so that they can find the person who is truly in debt. " Wu Tian had been talking, he was giving missions to various departments.

"The Ministry of Justice still has the personnel department to keep an eye on the employees of the company. Since the company is going to reform, there must be someone who will find fault with the company. Prepare the prosecution contract well, if the previous employees want to come back and look for trouble with us, then let them see this indictment. If they are still not convinced, then we will directly go to the court and sue them!"

He had even prepared and anticipated such a situation. Wu Tian was thinking about what else he needed to prepare in advance.

The company has limited funds. The consumption of Wu Group was over a million yuan per day, so the speed of their reforms had to be quick.

"Wu Tian, you better explain to me what this is?"

The moment Su Cancan walked into the office, her cold eyes shot straight at Wu Tian. The originally bustling office immediately became deathly silent.

Looking at the document in front of him, Wu Tian was clear that he was the one who made it.

"Isn't this the document I sent out? How did the file get to you? " Wu Tian smiled as he received the document, completely unaware of Su Cancan's current mental state.

"Why did you publish it in my name? And why didn't you notify me about this?"

Su Cancan's cold tone was like a sharp knife that was resting on Wu Tian's neck, ready to take his life at any time.

"Sorry, sorry, it was my negligence. There was too little time — I really didn't have time to inform you." After Wu Tian gave a perfunctory reply to Su Cancan, he immediately started preparing something else. He turned around and continued to arrange things for the ministers.

Su Cancan looked at Wu Tian. Wu Tian actually looked down on her. From Su Cancan's ice-cold face, it was obvious that she was very angry.

"I know that your identity is better than mine, you are a person of Wu Family. But don't forget, in the Wu Group, I'm the general manager. No matter what you do, you have to tell me first. She continued, "Only after I agree can you continue to push forward. Minister Yu, do you not want to listen to me anymore?" Su Cancan gave Wu Tian a final ultimatum. Her words were heavy, and at the same time, she was targeting the people under her control.

Su Cancan was aware of the situation at the company during this period of time. She was also trying very hard to find a solution to this problem, going around everywhere to negotiate financing.

She didn't expect that after one or two days when she wasn't in the company, the situation in the company had undergone a huge change.

She, the general manager, had lost almost all power, and her subordinates had completely ignored her.

"We can't contact you, we can only come to discuss these things with President Wu. The company ran out of funds two days ago, if it wasn't for the money President Wu found for us, I'm afraid the Wu Group company would have already closed down by now. "

Yu Naixin was not afraid at all when she faced Su Cancan. The two of them had been on good terms before, and Yu Naixin would tell Su Cancan anything.

Now, Su Cancan was surprised to find that Yu Naixin was on Wu Tian's side, not helping her because of their previous relationship.

Su Cancan knew that no one would listen to her orders, so she immediately decided to do nothing.

"Since you don't want me to interfere, I'll grant you that wish. You don't have to tell me, but you have to tell Wu Old Master! No matter what you've done! " Su Cancan emphasized on the last few words and left angrily after casting a glance at Wu Tian.

## **Hidden Billionaire Chapter 590 - Hard Requirements**

C590 Hard Requirements

Wu Yongan looked at Su Cancan on the stage and slammed the table.

"You made us wait here for half an hour. Speak, what happened here?!"

The conference room was crowded with dozens of people. Usually, if the company didn't have any benefits, these Wu Clan's disciples wouldn't have come here.

"You should have read this file, but I can tell you that I didn't make this decision. I have already resigned from my position as the General Manager of Wu Group Company. This was issued by the current General Manager. "

Su Cancan said with an expressionless face. She didn't seem to care what kind of expression the crowd had.

"If there's anything else, you can go find this new general manager. This place has nothing to do with me anymore." After saying that, Su Cancan slammed the door and left.

Wu Yongan took a look and saw that the situation wasn't good. Su Cancan left with just one sentence, what should he do? They couldn't just accept the request like that.

"F \* ck, let's go upstairs!"

Since she had left the responsibility to the new general manager, they might as well find a new general manager to resolve the matter.

With a wave of Wu Yongan's arm, everyone quickly followed him.

The elevator to the top floor was set up separately. When Wu Yongan and co. just reached the elevator door, the elevator suddenly opened.

Wu Tian walked out. They were both stunned when they met like this.

"You ..." Wu Yongan had a good memory. When he saw Wu Tian, he felt as if he had seen him somewhere, "You are the person who stood beside the meeting the other day. Why are you here? This is the chairman's office. No one is allowed to enter if they are not involved!"

Wu Tian sized up Wu Yongan's group and knew what these people were up to after a brief moment of consideration. He couldn't hide from this matter, it would happen sooner or later.

It seemed like he wouldn't be able to hide his identity after all. That was good as well. Now that he had revealed his identity in front of his family, it would make things easier for him.

"I am Wu Tian, the document you received was written by me." Wu Tian smiled and straightforwardly told them what they wanted to know.

Wu Yongan immediately took in a deep breath when he heard that. He never thought that this person would be Wu Tian. Old Master had been hiding it from him for such a long time.

"In that case, I'm still your uncle. Let's not talk about other things for now. What does this document mean?"

Although Wu Yongan was shocked by Wu Tian's identity, he still had to get down to business. Wu Yongan immediately took out that document and placed it in front of Old Zhang.

At the same time, the other leaders of other companies also started to clamor, asking Wu Tian to delete this document.

"Are you unable to understand the words on it or what? If you can't read, I can find a teacher to teach you." Wu Tian said plainly. He did not care about the threats and insults from these people.

"How can you say that?!" Wu Yongan was thoroughly angered by Wu Tie. This guy didn't even put his relatives in his eyes, and didn't even treat them as his elders.

"Is there a problem with my file? Isn't it good for you? After that, the company you are managing now is completely yours. The main company won't ask any further, and the amount of money you earn is also yours. "

Wu Tian was right. If anyone else had heard this, they would have thought it was very reasonable. The current situation was that their branch company had to turn in a portion of the money they earned.

Therefore, when these branches turn in their profits, they always use a variety of names to default, or even not turn in. If they really split up, then they could rightfully take the profit into their own hands.

The clamoring voice from before suddenly became a little softer. Many people felt that Wu Tian's words made a lot of sense.

"Would I believe your lies?" Wu Yongan was very angry and shouted at Wu Tian.

Others might not know, but he was clear that even though the main company wanted to collect their profits, they also helped them shoulder their debts.

Wu Yongan was responsible for the construction of Wu City, he specialized in construction. His company's debt was very high, even reaching more than a billion yuan. Of course, this was directly related to the fact that this industry had such a high debt ratio. However, most of it was due to Wu Yongan transferring a large portion of his assets to his name.

If he was really separated from the main company, then the debt of his company couldn't be repaid at all. Just the interest on that debt was already enough to let Wu Yongan peel off a layer of his skin.

"I know about you, but I don't want to know what you think. The documents have been sent out and the company is currently split up. Since you have the time to look for trouble with me, you might as well consider what you should do in the future. " Wu Tian looked at Wu Yongan's flustered expression and the corner of his mouth slightly curled. He coldly snorted and thought to himself, You really deserve it.

He had already seen the debt of Wu Yongan's company. If not for the head office, it could be said that it would only be a matter of minutes before it went out of business.

"You!" Wu Yongan felt his Qi and blood were surging, and even breathing became difficult. Previously, he was forced by Wu Zhi to hand over the shares, and now he had to separate from the main company. He really thought of it as a piece of fat.

"Well, my dear uncle, you deserve retribution. "Right now, the company has a lot of work to do, so it doesn't have time to care about your situation." With that, Wu Tian left them and left. It was now time to get off work. As he left, the lights in the whole building started to turn off.

If they stayed here, all that awaited them was darkness.

"Let's go back. If there's anything we need to think about later, it's not going to be a problem here either!" A few people came over to persuade Wu Yongan, but Wu Yongan didn't listen to them at this time.

He had forced someone into this position. He was not going to let him live!

Since you are so ruthless, don't blame me for taking action!

Wu Yongan thought of an idea and left with his men.

When the next day came, Wu Tian came to the building for work. Before he went upstairs, he saw Yu Naixin waiting for him at the door.

"What's wrong? "What a flustered look."

Every time Yu Naixin panicked, Wu Tian knew that something must have happened. It was most likely related to Wu Yongan.

"So many branch companies, they all made deals with Mecca Company last night! "Wu Yongan and the others have incorporated the company into Mecca's corporation!"
