C591 A Small Abacus of Southside Securities

Wu Tian was not surprised at all when he heard about this.

Previously, he suspected that this Wu Yongan had something to do with the previous stock movements.

He brought a group of people and merged the companies that used to belong to Wu Group into the Murloca. This process was simply too smooth, to the point where it was solved in less than a night. He had long since been prepared for this.

"That's even better. What he is doing is equivalent to making it clear that it has nothing to do with our Wu Family. It can even be said that they are traitors of our Wu Family." Of course Wu Tian was happy to see that. Otherwise, he would have to think of a way to deal with these people.

"But, this directly caused our company's share price to fall. It has been falling since the beginning of the morning ..." Yu Naixin was currently worried about this issue. The matter of the Wu Group's internal division had already been spread out, and became an important piece of news for the S City. Many people on the streets and alleyways were discussing about this matter.

When many investors saw this, they felt that Wu Group was about to end. The people who used to hold the Wu Group shares all made their move, causing the stocks to fall even further.

"Isn't that better? Let's hurry up and buy back these stocks. The more it is, the better it is. We can't let others get it first!" Wu Tian quickly ordered. This was good news for him. The lower the price of the stock, the lower the cost of buying it.

It was just that this matter had to happen very quickly, because their competitors, the Shuangxing Company Group who were potentially going to purchase Wu Group s, might very likely already be purchasing shares in Wu Group s by this time.

"But President Wu, is it really okay for us to continue like this?" Yu Naixin was very worried, as the company had already lost many of its functions due to the

mass resignation of its employees. Furthermore, all the branches below had been separated, and the Wu Group that was initially like an empire had begun to collapse in just a night's time.

Who was the most heartbroken among them? Needless to say, everyone knew that it was Wu Old Master.

This was the business empire that he had single-handedly established, but it was now in a mess due to Wu Tian.

"Now is not the time to think about these things. Live on, understand? As long as we can survive, we can keep the name of Wu Group. Business is gone, we can look for more, employees are gone, we can recruit more, but if this sign is gone, then there is no reason for us to be here. " Wu Tian looked at Yu Naixin with a serious expression. The things he was thinking about now were all for this goal.

When Yu Naixin heard what he said, she actually lowered her head in shame.

"Got it, I won't have any other thoughts in the future. Also, someone from Nanhe Securities Corporation has been sent over, and is currently waiting for you in the living room."

Hearing this, Wu Tian was a little confused. Wu Group and Nanhe Securities Corporation should actually be sworn enemies. The reason he could work together with Nangong Ying was because they had reached a deal privately.

Why had the other party come looking for him?

Wu Tian really couldn't guess, so he could only go and see them.

There weren't many people from Nanhe Securities Corporation. A slightly fat middle-aged man in his forties and an extremely mature and beautiful lady who looked to be only thirty years old.

"Hello, President Wu. Hello." Seeing Wu Tian enter, the glasses man stood up first and walked over to shake his hand in a very cordial manner.

"Hello, may I ask who you are?"

The bespectacled man and the beauty quickly handed over their business cards. One of them was the project manager of Nanhe Securities Corporation, and the other was the secretary of Nanhe Securities Corporation's chairman.

Their positions were neither high nor low, Wu Tian wasn't sure what their goal was.

"If I remember correctly, our two families didn't seem to have any cooperation before."

Although Wu Tian did not take a long time to govern, he still heard a lot about the history of Wu Group from Loong Yun and the others. It was said that Old Master Wu Zhi and the founder of Nanhe Securities Corporation, Nangong Ming, were once good friends.

When the two of them established the company, they were on good terms with each other. Afterwards, some unpleasant things happened, and their relationship deteriorated. They no longer had anything to do with each other, and continued until today.

"President Wu, you're right. But from today onwards, this history will be changed." As the bespectacled man spoke, he took out a thick stack of documents from his bag and slowly pushed it in front of Wu Tian.

Wu Tian only glanced at the cover and saw that it seemed to have the contents of the purchase company written on it.

"What do you mean?"

"It's like this, President Wu, we've all heard that there's something wrong with the Wu Group, as an investment institution, we also want to see if you have this kind of demand. If there's a need for funds, we can be investors."

The bespectacled man roughly explained the purpose of their visit. The entire audience was all smiles, making it impossible for him to feel even the slightest bit of annoyance.

However, Wu Tian frowned. He had never looked down on anyone and he knew that things would not be as simple as the researcher had said.

In this world, although it couldn't be said that there were no people who would provide timely assistance, but in an investment institution, would there be such a behavior?

Every investor wants them to make a profit. They don't put a lot of money into a company that doesn't see the future.

And right now, their Wu Group was basically a company that had been sentenced to death.

"I think I get it. What's written in these documents is that you want to take full control of the shares, right?" Wu Tian patted the thick stack of documents. Even if he didn't look at it, he would still be able to guess most of it.

This was a very good opportunity. If the transaction was successful, one could obtain Wu Group and Nanhe Securities Corporation would become the largest group.

The bespectacled man chuckled. He didn't say anything, but his smile represented that Wu Tian was right.

"It's better if the two of you go back. I can't agree to something like this." Wu Tian's attitude was also very firm. He didn't even think about it anymore.

"President Wu, it's alright. If you need help, you can contact us at any time. We believe that you will need our help."

Before leaving, the bespectacled man looked at Wu Tian confidently, as if he had already decided that Wu Tian Jue would agree to this matter.

## **Hidden Billionaire Chapter 592 - Accidental Collision**

C592 Accidental Collision

Although the people from Nanhe Securities Corporation had left, Wu Tian's heart was in turmoil.

Would Nangong Ying know something about this?

He thought for a moment and was about to take out his phone to ask about it, but he quickly dismissed the idea.

Even if he got the answer, what could he do? Nangong Ying was only a general manager, so he couldn't interfere with the decision of the entire Nanhe Securities Corporation.

Moreover, if Nanhe Securities Corporation knew that Nangong Ying had transferred a lot of funds over to Wu Tian, things might have changed a lot.

He originally thought that he had successfully fought his way through the anti-stock acquisition war, but he didn't expect that there would be more enemies behind him and more methods.

This Mecca Company that suddenly appeared, and who was it that established it?

Wu Tian still didn't have any leads for him, but the other party had already dug out all of his Wu Group.

Thinking about it, Wu Tian felt that he couldn't go on any longer. He called Loong Yun and the two of them hurried out of the door.

"The two of us will change our makeup later to see what exactly this Mecca Company is."

Wu Tian probably wanted to visit the company in secret again. Thinking about the Jingou Club from before, Loong Yun immediately felt that something was amiss.

"That is the enemy's lair, how can we go there? And the mastermind behind all this has yet to be found... I really suggest you stay at the company and not go out. "

Loong Yun hurriedly stopped him. It was not that she did not have the information to investigate this Mecca Company, but the information she received was extremely chaotic. She didn't have a clear piece of information at all.

"There's no time. I know you can definitely complete the mission, but we can't wait any longer. I have to see who it is. They are currently playing chess with me. I need to know who my opponent is. "

Wu Tian was still as persistent as before, so Loong Yun had no choice but to follow his request and disguise both of them.

Mecca Company was in another direction in S City, and it only took the two of them ten minutes to get there by car.

Since it was a newly established company and there weren't any independent buildings, this Mecca Company simply rented out a nearby park. It took up several hectares of land, making it look extremely spectacular.

"They really are rich ..." Wu Tian looked at this Mecca Company and was very surprised. Although it was newly established, it was very rich from the very beginning so there must be a large corporation supporting it behind the scenes.

Could it be Shuangxing Company? With their wealth, they would definitely be able to do so. But there's no need to do Shuangxing Company like this, directly using the company's reputation instead.

"We're here." Loong Yun parked the car and the two of them stood at the entrance of Mecca Company. Looking at the security guards at the entrance, they started to feel at a loss.

What reason was there to enter? They're not employees here...

"How do we get in?" Loong Yun looked around. Her original intention was to see if there were any recruitment announcements around here and sneak in with the excuse of going for an interview.

Before she could find a way, Wu Tian had already walked in another direction.

In this large courtyard in the Mecca Company, there was a place where the walls were relatively hidden, and it was surrounded by forest. And no one would pass through this place.

"It's hard to say if we go in, but let's just go in from here!" Wu Tian was eager to give it a try. This wall would not be any harder for him than a small pit.

"President Wu, you can go over this, how am I supposed to go over?" Loong Yun looked at the two meter high wall and didn't know whether to laugh or cry. Today, she was wearing a tight suit and high heels. Although her image looked good, it wasn't suitable for sports.

"If you're dressed like this, don't go in. I'll see if I can find a door here to let you in." Wu Tian thought about it and then went in to take a look.

He quickly jumped over the wall and landed inside. Fortunately, there weren't any security guards nearby, and not far in front of him was the parking lot. These cars provided Wu Tian with a good cover.

Soon, he found a metal door on the wall, and after he opened the lock from the inside, he let Loong Yun in from there.

"It's so simple, we came in all of a sudden." Wu Tian was about to boast to Loong Yun about his performance just now when he heard the sound of a car driving towards them. The two of them quickly hid behind a car, preparing to wait for it to pass.

But they didn't expect the car to stop near them, and then they heard the door open.

"Director Chen, a lot of Wu Group companies have already merged into our group."

"Mm, not bad. Right now, Wu Group's share price should be relatively low, hurry up and think of ways to take back the stocks on the market. "

The voice of the person who spoke was very familiar to Wu Tian. He suddenly recalled that this was Jingou Club's Chen Cheng!

"Director Chen, I don't understand why you didn't come to be this chairman and insisted on leaving me here to help."

After Chen Cheng heard this, he laughed out loud: "It's better to keep my identity a secret. In that case, there are some things that are convenient to do. Let's go, let's hurry in for the meeting. After we finish this Wu Group, our next target will be Nanhe Securities Corporation! "

As the voices faded away, it seemed as if these people had already left the parking lot.

However, Wu Tian and Loong Yun opened their eyes wide with a complicated look in their eyes.

Never would they have thought that they had really met by accident this time, and met the real boss behind the Mecca Company. The matter immediately started to become clear.

"President Wu ..."

Loong Yun mumbled. Wu Tian gestured to her to be quiet, then stood up and prepared to walk out.

He didn't plan to leave first. Chen Cheng had said just now that they would be in a meeting later on. This was a very good opportunity. If he wanted to be able to counter their actions later on, he had to understand them.

"No, it's too dangerous inside!" This Chen Cheng was not a good person. Loong Yun was worried about Wu Tian's safety.

"What's there to be afraid of? We've already put on makeup, they wouldn't even recognize us!"

Wu Tian ignored her words and chased after them along the path that Chen Cheng and the others took. Loong Yun had no other choice but to follow behind Wu Tian.

This time, Chen Cheng and the others brought a lot of people with them. There were also a lot of people moving things behind, and it was said that they were going to be sent to the meeting room.

Wu Tian and Loong Yun both quickly snuck into their small group. In any case, there were a lot of people being recruited by Mecca Company recently, so it was normal for there to be one or two strangers around. No one would be able to see through them.

## **Hidden Billionaire Chapter 593 - The Real Mastermind**

C593 The Real Mastermind

There were a lot of people coming and going at the venue, and many of them seemed to be rich young masters.

Wu Tian felt that this scene was extremely similar to the Jingou Club.

Indeed, just as he thought, not long after, a group of people with yellow hair on their heads walked in and found a place to sit down.

If nothing unexpected happened, these people should be the rich second generation from Jingou Club. If that's the case, then it seems like Chen Cheng had already gathered these people together.

"So that's how it is. No wonder they have so much money." Wu Tian was suddenly enlightened. If it was a normal company or consortium, they wouldn't be able to come up with that much money so quickly.

Furthermore, their conduct and actions seemed to be disregarding the cost. With such a large park and them desperately recruiting new employees, the pay they offered was at least twice or even triple the previous salary.

The average daily expenditure of one's Mecca Company was estimated to be several million. If not for the fact that they were rich, who would be able to afford it?

Loong Yun found a very secluded place in the corner of the venue. The two of them could hide there.

"Let's not make a sound later. Young master, you must also be calm, and do not take any dangerous actions!" If the two of them maintained their current status, they would be able to successfully complete this eavesdropping mission.

"Don't worry, I'm not that stupid."

The two of them stayed there silently, not daring to make a sound. On the other side, the meeting had already begun and Chen Cheng, as the spokesperson, was talking a lot.

What he meant was that they would definitely make a huge profit this time, so he hoped that these people would continue to invest into their Mecca Company.

"Chief Chen, do you still need us to continue paying for this? Can we really eat Wu Group in one bite this time?" Although that was what was said above, there were still some people below who were worried.

After all, the money they paid wasn't a small amount. If it wasn't for the money, why would they listen to Chen Cheng?

"It looks like I still haven't gotten everyone's full trust. Let me put it this way, if you believe me, your investments can basically be reclaimed twice to thrice. There aren't many opportunities like this; if you don't want this opportunity, then just pretend that I didn't say anything."

Chen Cheng's words were heavy. Although he seemed to be smiling amiably, there was no room for negotiation in his words.

Wu Tian only roughly estimated the number of people present. There were at least a hundred people here, and even if one person invested 10 million, that would be 1 billion.

This number was already not small. To be honest, it had already become extremely attractive to Wu Tian. However, this time, Wu Tian definitely wouldn't be able to get involved.

"Don't think that the profits are so exaggerated; you must know that Wu Family is not only the S City, but also the strongest in the entire Jiangnan Province. This is an extremely large piece of cake, and if we can eat it, then these things can let us eat it for a very long time."

Chen Cheng said on the stage. He felt that there was no need for him to emphasize these things multiple times, so he quickly left the stage. He watched the people above continue the meeting.

They were planning out the next step. Wu Tian and the others came really well this time, not only did they know what was going on behind the scenes, they could even know their plans in advance. When they return, they would naturally have a better way to deal with it.

Chen Cheng felt that it was meaningless and walked closer to the door. He took out his lighter and lit up a cigarette. This action was nothing. However, his lighter was almost the same as the one Loong Yun had picked up at the scene of the car accident.

Wu Tian widened his eyes and immediately lowered his body again.

"I know who tried to kill me."

He muttered to himself. Loong Yun, who was on the side, looked at Wu Tian nervously. She felt that Wu Tian was a bit too emotional right now, otherwise, something might happen to them.

"Young master, you must be calm! Could it be that the culprit is from their Jingou Club? "

Loong Yun was very smart. From Wu Tian's performance, she could roughly tell what was going on.

"Pretty much, I never would have thought that Chen Cheng would actually dare to target me. If this was Luzhou ..."

Although Wu Tian was very angry, he knew that his identity must not be revealed. He also spoke very quietly with Loong Yun.

As the two talked, the fire escape door behind them suddenly opened. A man in black came in. He was stunned for a moment, then looked at Wu Tian, Loong Yun, and Wu Tian.

"What are you still doing? Staff are not allowed to enter the meeting now. Hurry up and leave. If the Leader sees it, he'll have to scold me again!" This person thought that Wu Tian and co. were employees that were stranded here, so he quickly urged them to leave.

Since the other party had already given them a way out, the two of them did not hesitate to leave the meeting room. It was truly a critical moment just now.

After knowing so much, Wu Tian didn't have time to think about anything else. After thinking of a way to sneak out with Loong Yun, he quickly returned to the Wu Group Building.

"Young Master, regarding this matter, why don't we mobilize some of the company's funds from Luzhou over here?" Loong Yun felt that just relying on Wu Group Company alone might not be enough. The other party was approaching in full fury, and it could be said that all the wealthy companies in S City were all thinking of ways to share out a piece of cake.

Wu Tian immediately shook his head and rejected such a suggestion.

"We can't do this, we can't go on and think of a way but we still have money, it doesn't matter, if we use the resources from the Luzhou, we won't be able to stop ourselves in the future."

Although doing so could temporarily solve a few problems, in the end, he could only drink poison to quench his thirst, and couldn't solve the root cause of the problem.

The reason why Wu Group suddenly became such a powerless giant was because there was a problem with the management previously, so they did not have any funds at all.

That was what was said, but when Chen Cheng and the others were in the meeting just now, they were discussing how to absorb the branches under Wu Group. Those descendants of Wu Family could be said to be very ambitious, and more than half of them had already gone over there.

Wu Group was no longer a profitable business.

## **Hidden Billionaire Chapter 594 - Unexpected Identity**

C594 Unexpected Identity

The road was stepped on. There were always more ways than suffering.

Wu Tian didn't think that he would be forced into a corner from the start.

He pondered for a long time, but in the end, he recalled the two people from Nanhe Securities Corporation who came to look for him.

Especially that man with glasses. When he left, he specifically emphasized that Wu Tian would definitely come back to find them.

At that time, Wu Tian refused very sternly. He said there was no way he could sell the company.

However, since things had come to this point, he couldn't have any other thoughts.

"Loong Yun, help me contact those two people from Nanhe Securities Corporation. I'm afraid I need to have a good chat with them." Wu Tian sighed helplessly. This was the only path he could take.

Of course, his intention was not to sell his Wu Group. The reason why the other party was so ruthless was because they wanted to bargain with him.

Taking advantage of when Wu Group was in need of helpers, they came to be this kind of person. Of course, Nanhe Securities Corporation were definitely not some kind people, and the profits they wanted after the event was definitely not a small amount.

Loong Yun did not dare to disobey, so she could only follow Wu Tian's instructions.

As expected, not long later, the chubby project manager excitedly appeared in Wu Tian's office. He smiled as if he had seen through everything.

"President Wu, it seems like I was right." He smiled as he spoke, but he also paid attention to his sense of propriety. At this moment, he definitely couldn't touch anything that annoyed Wu Tian.

"You win. I really need a helper right now. Not just money." Wu Tian looked calm, as if everything was planned and planned.

"What do you think?" The project manager felt that this matter was very interesting, so he immediately pushed his glasses and stared at the man in front of him, brimming with vigor.

"Of course it's our cooperation. If you think you can just buy our Wu Group like this, then it's no different from daydreaming. Don't even think about it." He had already decided from the beginning that even if Wu Group were to fail in his hands, he would absolutely not sell his Wu Group to other enterprises.

This was a matter of principle and not negotiable. Old Master had handed over the Wu Group to him, and if everything was settled this time, he would most likely hold the clan's inheritance ceremony, and at that time, the entire Wu Family would belong to Wu Tian.

This was not only a test, but also an advance preparation for the Wu Family in question. Of course, Wu Tian had already fallen out with all his relatives in the family. It could be said that things didn't go smoothly the first time, but he didn't care too much about it.

The Wu Family did not need to be lacking to them. As long as the main bloodline continued to circulate, Wu Tian felt that it would be enough.

"You don't have to say that. If there's a chance, President Wu, you can think about it. It's good for both of us." This project manager of Nanhe Securities

had a particularly venomous mouth. It could be said that he didn't back down in the slightest as the two of them confronted each other.

Anyway, after chatting for a long time, Wu Tian finally reached a preliminary agreement with this person.

It was impossible for him to sell Wu Group, but he could give up a portion of his shares and let Nan He Securities join him.

This way, the Nanhe Securities Corporation would also have a very good reason. He could mobilize his resources to help Wu Group to overcome its current difficulties. In fact, as long as this news was released, the stock market would probably be the first to react. At that time, once Wu Group's shares rose, the market value and other things would immediately catch up.

Meanwhile, Nanhe Securities could also use this opportunity to earn a huge sum of money.

That's right, it was at that time that they would sell out all the shares of Wu Group that they had.

If no one bought it, Wu Group would need to personally pay for it. No matter what, Nanhe Securities Corporation was definitely a great profit.

"I feel as if I've signed a treaty of disgrace." Seeing him sign the memo, Wu Tian couldn't help but sigh. This feeling was really complicated and couldn't be expressed in words.

"President Wu, don't be too anxious. I have to go back and discuss this matter with our chairman. Although our memorandum has been completed, I can't guarantee you the chairman's final approval right now."

The project manager quickly put away the document Wu Tian signed and carefully put it away. If this matter was successful, the bespectacled man could be said to have made great contributions. In terms of merit and rewards, he would definitely be ranked first.

Wu Tian suddenly became interested in this guy who had brought him quite a lot of trouble.

"What's your name?"

"Why would President Wu be interested in someone like me? I am just a nobody. " The bespectacled man became modest.

"If you were just a nobody, I wouldn't have lost so miserably in the negotiation just now." Wu Tian squinted his eyes. He was believing in his intuition. Although this glasses man looked very ordinary, he had a concealed temperament and was good at talking and negotiating. His mind and vision were both very high. It was impossible for such a person to just be a project manager.

"It seems like even though President Wu is young, he still has a good eye. Hahaha, since it's like this, then we might as well get to the point. " The bespectacled man took off his eyes. Suddenly, the smile that had been hanging on the corner of his mouth disappeared. His face became incomparably calm and indifferent, as if he was a completely different person.

"My name is Baili Zhenlin!" The moment the bespectacled man's voice came out, Wu Tian's eyes were already wide open the moment he heard the surname in front of him.

How is this possible? One of the Four Great Clans of Jiangnan, Hundred Miles, should have such a person appear in front of him, and even specially discuss the matter of Wu Group with him.

It had to be known that this Baili Family had always worked very closely with the Shangguan Family. In order to deal with them, Old Master had spent a lot of time and effort. To put it bluntly, this was his real enemy.

"Good, you actually have the guts to come here! Don't you know that this is Wu Family's territory? Even if our Wu Group is no longer sufficient, we are not someone that you can bully as you wish! "

Wu Tian immediately became angry. He still looked at Baili Zhenlin warily. Who knew what he was thinking? Could it be that there was some sort of conspiracy?

"Don't be nervous, that's why I don't want to tell you my name. I am indeed a member of Baili Family, and at the same time, am also the chairman of Nanhe Securities Corporation! "

Baili Zhenlin looked at Wu Tian expressionlessly. Wu Tian was shocked once again.

## Hidden Billionaire Chapter 595 - It's Hard to Guard Against the Bad Guys Inside

C595 It's Hard to Guard Against the Bad Guys Inside

The situation progressed too quickly, Wu Tian was unable to digest this matter in a short period of time.

Why did this Baili Family suddenly come to them? What exactly do they want to do? Could it be to help the Shangguan Family vent its anger?

Before this, Wu Tian had tortured Shangguan Junyi quite a bit to keep up with the Shangguan Family's conflicts. If that was the case, then it was really possible that the two families were in an alliance.

"I had thought it was strange. Why is it that the secretary of the chairman is standing behind you when you are only a project manager? So you are the chairman, I should have recognized you earlier." Elder Zhang sighed. If he couldn't think of anything, he would put it aside for now.

"If I were to come as chairman, would you still meet me?"

While saying that, Baili Zhenlin put his glasses back on and returned to his chubby face with a smile.

"That's true. If I knew it was someone from the Baili Family, I would have definitely kicked you out immediately."

Wu Tian looked at him. Right now, he was also very confused. To be honest, Wu Tian didn't know what to do.

"Think about what we said today. It would be beneficial for both of us." Although Baili Zhenlin's identity had given Wu Tian a fright just now, he still needed to talk about his work.

Then, he silently left Wu Tian's office.

Loong Yun just happened to walk in with some documents. Seeing Baili Zhenlin leave, she even nodded at him as a form of greeting.

"Do you know who that person was?" Wu Tian pointed at Baili Zhenlin's back and said helplessly to Loong Yun.

"Isn't that the project manager of Nanhe Securities Corporation? How was your discussion today? "

Loong Yun felt that Wu Tian suddenly asked this, but she had no idea what his intentions were.

"If you think so, then you're wrong. I'm telling you, saying it will scare you a bit. Not to mention you, when I found out about it, I was also scared." Wu Tian seemed to still have some lingering fear in his heart, and said mysteriously: "He is Nanhe Securities Corporation's chairman, and isn't some project manager at all."

Loong Yun's mouth was agape. She turned around and looked at the direction Baili Zhenlin left in. This chubby guy suddenly appeared in her mind. He didn't seem like a chairman at all.

"Impossible, Nanhe Securities Corporation's chairman, does he look like that?"

Loong Yun immediately indicated that she would not believe him. In terms of professional image, Loong Yun was closer to the chairman than he was.

"Not only is he chairman, his name is Baili Zhenlin!"

The bomb was finally thrown out by Wu Tian. When he finally said it, he finally felt relieved.

He had held this matter in his heart for a long time, and now it was finally time for him to enjoy himself.

"Baili, it's that Baili?" Loong Yun was even more unable to believe it. Her eyes were as wide as two copper bells. If it weren't for her glasses, it felt as if they would fall out at any moment.

"It's true. There's no need for him to lie to me about this."

"This won't do, I have to hurry and find someone to protect the company. The Shangguan Family is finally going to ally with the Baili Family to attack you. We have to be careful!"

Loong Yun immediately associated this matter with another direction, which made Wu Tian at a loss whether to laugh or to cry.

"Alright, alright, that's not the point. They probably aren't here to target me. There hasn't been too much activity in the Shangguan Family for a long time, I think they're probably thinking of some bad idea. "But I really don't know what Baili Zhenlin wants."

Wu Tian was also worried about this matter. If this Baili Family wanted the Wu family to fall, there was no need to help him. If there was no external force intervening right now, Wu Group would already be in a state of collapse and not be able to recover.

"Is it really okay? That Chen Cheng might not stop so easily. "

Earlier on, Loong Yun went to gather her information system to research this Chen Cheng and see what he did.

Very soon, she had brought along a pile of documents. After being interrupted by Wu Tian, she had almost forgotten about this matter.

"I already have Chen Cheng's information, it doesn't seem to be that simple."

When Wu Tian heard that, he immediately became interested.

Previously, when they were in the meeting room, Wu Tian had personally seen this Chen Cheng use the same style as that lighter. Long Yun had previously said that this thing was a limited quantity product of the Shuangxing Company Group, and ordinary people would not be able to get it even if they had the money. This Chen Cheng must have had a very close relationship with the Shuangxing Company Group to some extent.

"I have always sent people to investigate the Wu Family. These few days, when I was sorting out Wu Yongan's information, I found out that this Wu Yongan had met this Chen Cheng in Korea before."

"What?!" Wu Tian immediately stood up and rushed over to take the documents. He checked them carefully and found that they were indeed the pictures of Wu Yongan and Chen Cheng chatting and eating.

"When was this taken?"

"It's been a long time. When Old Master just let you take over, I started preparing to investigate, but then I didn't know what Chen Cheng was for, so I didn't care."

If what Loong Yun said was true, all of this would have been a trap that they had prepared long ago.

Wu Tian thought about it and was surprised for a long time.

No wonder the Wu Group suddenly dropped overnight. This was not an accident, it was something Wu Yongan had purposely instigated.

Previously, Wu Tian thought that these people were just greedy for money and power. No matter how weak and useless they were, they would never collude with outsiders.

But now, the evidence was right in front of him. It was like a knife, slicing Wu Tian's heart, causing him endless heartache.

If only he had discovered it earlier, and taken over the Wu Group earlier, he might have been able to discover this matter earlier.

"That Wu Yongan sure has a lot of thoughts." Wu Tian chanted his name. The more he thought about it, the angrier he got.

"Young master, do you want us to ..." Loong Yun hinted secretly that with their current skills, killing Wu Yongan was an easy task.

Although this suggestion could really help to vent Wu Tian's anger, it wasn't too helpful in alleviating the current situation.

"No, let me think." Wu Tian looked into the distance, feeling mixed emotions in his heart. Did he really have to rely on Baili Zhenlin?
