

Hidden Billionaire Chapter 621 - The Mastermind Behind the Curtain

C621 The Mastermind Behind the Curtain

The whole meeting didn't seem to be going very well. Wu Tian also heard a lot of things after listening to it for a while.

It turned out that they were really as he had imagined and had already planned with Wu Yongan. Unfortunately, Wu Tian forgot to record this sentence down, so if they could record it back to Wu Old Master, they would definitely be able to remove this Wu Yongan from the family.

But it didn't matter now. It was just that Wu Tian thought of a plan when Chen Cheng needed 3 billion yuan.

He thought of a good way to earn money. The more people wanted money, the more anxious they would be to think of a way.

As expected, the result of their discussion came out. This young master only agreed to give Chen Cheng 1.5 billion yuan.

That is to say, only half of it, while the other 1.5 billion would, it was said, have to wait a month or two before he could give it to him.

It seems like they don't have that much money on them either ... What was going on these days? They didn't have any money, yet they still dared to cause trouble? Wu Tian really wanted to laugh. He was also very interested in the person behind Chen Cheng.

Who exactly was this so-called young lord? Although the voice sounded familiar, Wu Tian thought that no one's voice matched this one perfectly.

The meeting next door ended very soon. Chen Cheng also left in a hurry while the rest of the people started playing in the bar.

There were no girls drinking with them in this bar, but it was not difficult for these people. They called a group of girls from outside, and more than a dozen girls walked through the bar and into their private rooms.

Even if the manager and the others wanted to say something, they could only pretend that they didn't see it.

After all, they were also guests, and they didn't violate any of the bar's rules ...

As for what they were doing in there, the bar definitely couldn't be managed unless the police came ...

Wu Tian originally thought that it was time for him to leave as well. However, looking at the items on the table, it would be a waste if he just left like that.

Thinking that Yu Naixin and the others also worked very hard, this was a good opportunity for her to bring a few ministers over to relax. This room was not big, but a dozen or so people should be fine.

He quickly made the call to settle this matter. Yu Naixin did not expect Wu Tian to ask them to drink and play all of a sudden.

Of course, there was no way that she would refuse. She immediately brought a bunch of people and rushed over.

Fortunately, Wu Group Corporation wasn't too far away from this bar. Walking wouldn't even take 10 minutes.

Wu Tian waited here for a while before he saw Yu Naixin bringing a dozen people over in a hurry.

Many of these are now the heads of various businesses. The main reason why he didn't look for the ordinary employees was because this place was too small. He had to change it to a bigger place one day.

Putting everything else aside, Wu Tian took this matter to heart. If a boss can't treat his employees well, then they will definitely be like those employees at Wu Group before. As long as other companies give him a high price, they will immediately resign and go to another company.

"Come on, sit, sit."

Wu Tian quickly greeted them and invited them to take a seat. He didn't act like the boss at all. His relationship with these ministers was like that of ordinary friends.

The atmosphere in the room became lively.

Their recent work had indeed been arduous. The main issue was that the joint venture company had just started their business, so they needed to master every aspect of their business.

Many of the employees were new, so it could be said that the HR department had put in a lot of effort this time. They went to great lengths to recruit some staff to keep the company going.

Everyone drank a few cups of wine to liven up the atmosphere. Then, Yu Naixin raised a glass of wine and looked at everyone present. She said excitedly, "Come, let's toast to President Wu! "If it wasn't for President Wu, we might have already lost our jobs!"

When Wu Tian heard this, he immediately raised his cup. Although he liked hearing these words of flattery, he also knew that the words of a loyal official were unpleasant to hear.

"You're too polite, if I didn't meet you guys, that would be my loss." You can find a better employer, but I can't find a better employee. You're not just employees, you're my friends. You are a part of our family! "

As he spoke, he downed the cup of wine in one gulp, winning the applause of the entire hall.

The rest of the drinking was rather rough and simple. They took advantage of the alcohol to talk about their work and life, and the distance between them was shortened by a lot.

Wu Tian drank quite a bit. Previously, he had already drunk a lot with Xi Chengwen. Even he couldn't stand the second round anymore.

He slipped out of the room and went to the bathroom.

When his bladder was freed, Wu Tian let out a long breath. Never before had he felt that his body could become so relaxed.

Beside him, a drunken man walked over.

Wu Tian finished unbuttoning his pants and was about to leave when he noticed the person beside him from the corner of his eyes. Suddenly, his pupils shrunk.

He was very familiar with this person. He had been humiliated by Wu Tian countless times before. Wu Tian was confused as to why Shangguan Junyi would appear in front of him ...

Just as he was about to walk out of the door, he saw a few people walking in from outside with a fawning look and went over to support Shangguan Junyi.

"Young master, take it slow. If you drink too much, you should go back and rest."

Shangguan Junyi couldn't accept this. Although he couldn't even open his eyes now, he still waved his hand and hooted: "Cut the crap, I can still drink. I can't let this little girl look down on me!"

He didn't expect this young master to be Shangguan Junyi.

Wu Tian quickly walked back to his room with his head lowered. He didn't let Shangguan Junyi know about his actions.

However, his heart was already in turmoil as he thought about what exactly was going on.

Therefore, his constant enemy was his Shangguan Family.

No wonder he was still wondering before, but now that the Wu Family had declined so severely, there was no news of the Shangguan Family that had always been their enemy.

It seemed like it wasn't because they hadn't made any moves, but rather, they had started to lay out their plans several months ago. It could even be said that the predicament they were in with their Wu Group this time, was caused solely by their Shangguan Family.

Hidden Billionaire Chapter 622 - He Had a Plot in Mind

C622 He Had a Plot in Mind

What a good plan, Wu Tian snorted coldly in his heart.

This guy, looks like the humiliation I gave him back then provoked Shangguan Junyi. However, he actually didn't find trouble with Wu Tian, and instead went to find trouble with Wu Family ...

If that's the case, then Wu Group companies are truly unlucky ...

"President Wu, what's wrong with you? Seeing that you didn't say anything, is there something on your mind? If you have any interest in little girl, you can tell us and we'll help you make some plans!"

Yu Naixin drank quite a bit, but her words were a bit unclear now. However, she didn't have too much malicious intent when she spoke and Wu Tian didn't have any disgust.

"I am indeed feeling a little uncomfortable. This is my second drink ..." But you guys drink, I'll just rest here for a while. "

How could he tell them about his own thoughts? Even if he told Yu Naixin and the others, what help would they be to him?

Wu Tian just closed his eyes and lay on the sofa in the room as he started to think about the whole thing.

Since this matter was directly related to Shangguan Junyi, then there was no need for him to hide it or something like that.

Coincidentally, he thought of a brilliant method to get a lot of cash from Moka Company. Originally, Wu Tian was still considering whether he should implement this idea, after all, there were some risks.

Furthermore, to those rich youths of the Jingou Club, it was extremely inhumane. That would have bound all their investments, or even hollowed them out.

However, Wu Tian had already thought it through, so what did it have to do with him?

They were willing to pay Chen Cheng out of their own free will... It wasn't because of Wu Tian ... Why should Wu Tian be responsible for these things?

Thinking this way, he immediately made up his mind. He would do this matter according to his own thoughts.

It was time to drink. After the next day, Wu Tian called Nangong Ying early in the morning and asked him to go with him to see Chen Cheng.

Nangong Ying didn't know why, but he agreed without hesitation.

In any case, they had been there once before, so there wasn't much substance to the conversation that time.

"Tell me first, did you have some sort of plan this time?"

Nangong Ying's perception was very keen. It could be said that he was a genius in this area, as he was naturally born to be used as a material for business.

Baili Zhenlin should have a good eye for people. It has to be said that he was pretty good at it.

"You already guessed it, there is! "This time, I want to do something big. I owe you money, so I'm afraid that this time, I will be able to repay you back the money I owe you."

Wu Tian smiled as he spoke, but he only left a suspense for Nangong Ying, saying that no matter what, he wouldn't leak any information on the phone. He must be allowed to observe the scene.

After making an agreement, the two of them hurriedly headed towards the Mecca Company.

What was completely different from Wu Group company's vigorous and energetic look. Here at the Mecca Company, it was incomparably desolate.

Although it was very large and also very spectacular, very few people would enter or leave this place.

Originally, they had purchased a large number of branches, so they should have had a very good business. However, many customers have chosen to give up working with these branches... and look for other partners.

This part of the market was quickly seized by the other enterprises in S City. Chen Cheng was worried about this many times.

However, even if he was worried and worried, what was the point in doing so? What should have happened had happened, and he couldn't do anything about it.

"President Wu, as well as old manager Nangong, the two of you have come with great hospitality. This place has truly brought light to this place."

When Chen Cheng saw the two of them, he was overjoyed.

Wu Tian's appearance also meant that Wu Tian didn't care about what happened before.

In other words, the bullying of Shen Xue by the Security Captain could be considered to be over.

Then there would still be hope for their possible investments.

"You're too polite, everything is different. I won't forgive you for that last time, but business is business, and money can't not be earned. After all, putting it in a bank would only cause mildew."

Wu Tian spoke coldly, but even that made Chen Cheng's heart warm.

"That's right, that's right. We still have to do serious business."

Nangong Ying also chimed in.

"Come on, let's talk in the meeting room."

Chen Cheng led the two of them into the meeting room. He got his secretary to serve them tea and the three of them started a secret conversation.

"Even if we came this time, it would be after careful deliberation. The last time we came, I really felt that there was a bit of a miscalculation. Investment is not a problem, I feel that the future prospects are not too bad, the main issue is just taking shares, my heart is a little unsettled."

Wu Tian was a little worried. He didn't care about what he said at all. He knew that no matter how hard he tried to attack this guy, Chen Cheng would definitely take it.

Right now, he was his god of wealth, with 1.5 billion yuan. With regards to the current situation with Mecca Company, he simply could not solve the problem.

Chen Cheng's biggest idea was still Nangong Ying and him. After all, the two of them had agreed to it at the beginning, and each of them could provide billions of dollars, which was what was really lacking in Mecca Company.

"What do you mean?"

Chen Cheng felt his heart clench. Wu Tian was naturally prepared for this. It seemed that if he didn't pay a little bit of blood, he would definitely die... But it's not good to let too much blood out. There's still the Shangguan Family up there watching, if we sell too much of the Mecca Company stuff, the Shangguan Family will not be able to agree.

"It's simple, I don't want the shares, I want these companies, the branches under Moka Company, to discount them one by one, and then I will inject my funds into them and give them all under my name."

Wu Tian finally revealed his wolfish ambition, but then he paused, cleared his throat and continued: "Of course, although the company still belongs to Mecca Company in name, but in terms of documents, they must belong to me in law."

His tone was very firm, as if it was unshakable.

At the side, Chen Cheng's face had already changed color. It was as red as a pig's liver. He couldn't even utter a word. Even Nangong Ying was shocked. This was a robbery!

It was not a deceitful lie, but a blatant robbery.

Hidden Billionaire Chapter 623 - Inequality Treaties

C623 Inequality Treaties

Even though Chen Cheng had always been obsequious, he couldn't pretend to be dead now that things had come to this point.

"President Wu, this isn't good right ..."

Wu Tian snorted and sneered, "Nothing is bad. I understand now. You can invest if you want, but I don't have the real thing in my hand. No."

Nangong Ying suddenly realized that this was Wu Tian's hidden motive.

This guy really wanted to create a big story. If Chen Cheng agreed, it meant that Wu Tian could immediately sell off all these assets.

By then, there would be nothing left of Chen Cheng's Moka Company.

"No, no, these branches are the core of our Mecca Company. If we split them up, the company would be as good as gone."

Nangong Ying simply became the peacemaker. Of course, he helped Wu Tian.

"You can't put it like that. Boss Chen, you have to consider it this way, we have contributed money to buy these branches under our name, but the first point is that they are actually within the scope of Mecca Company management. And secondly, we want a kind of psychological security... As you can see, there's no way to carry out the current operations. If we get our hands on it, things will be different. "

Nangong Ying was very confident in his words. After all, he was the general manager of Nanhe Securities Corporation, so it was not a big deal for him to get into business.

There was even less of a need to talk about Wu Tian. He was the one who started the Wu Group company, how could he be afraid of not having a business?

"You have to let me think about it ..."

Chen Cheng also felt helpless. On one hand, he really wanted money, but on the other hand, there must be something wrong with them for them to threaten him.

This was an unequal treaty. If he signed it, it would be equivalent to him selling the company.

"In any case, if you're not willing, I won't force it. Coincidentally, there are a few people who want to invite me to meet them, and I heard that there's one called Wu Group company, so they sent people over to contact me."

Wu Tian put on an act. Although this sort of trick could be seen through easily, it worked very well against Chen Cheng at this time.

Nangong Ying snickered on the side. He felt that it was too funny. This guy was clearly the CEO of Wu Group company. He ran over to his competitor and boldly said that he wanted to invest ...

He had to admit that this Chen Cheng was really stupid. He didn't even manage to find Wu Tian's real identity.

"The people from Wu Group have already contacted you?" Chen Cheng was sweating profusely. Many things were happening to his brain at the same time, leaving him with no time to think at all.

As for Wu Tian and Nangong Ying, they were still desperately trying to squeeze out this guy's time to think, causing him to have even less time to think about these questions.

"That's the way it is. Just watch what you want to do."

Wu Tian acted like he didn't care. At this moment, a phone rang. Wu Tian picked it up and smiled instead.

"Hey, oh, you're the Division Minister of the Wu Group Department, Miss Yu Naixin, hello. I'm still thinking about what you said last time, there's no need to be anxious."

The call was real. It was indeed from Yu Naixin, but her words had nothing to do with this.

However, Wu Tian just said that into the phone. It was just an act anyways, Yu Naixin couldn't cause trouble for him with the phone right now.

The moment Chen Cheng heard the commotion, he immediately felt as if his heart was hooked by a hook. He was like an ant on a hot pan that was circling around non-stop.

Chen Cheng rushed over when Wu Tian finally got off the phone.

No matter what, he couldn't let Wu Tian be taken away by the people from Wu Group. If he had too little money, he could at least hold on for a bit. The key point was that he couldn't let the people from Wu Group take it away.

The stronger they were, the greater the pressure from Chen Cheng's group.

The time that the Shangguan Family had given him was running out. If he did not complete it within the agreed time, Chen Cheng would definitely not be able to bear the consequences.

"President Wu, can we talk about this a bit more ..."

Wu Tian rolled his eyes and knew that it was time to kill the pig.

I just want to see what your side's attitude is like. To put it bluntly, if any of you give me the right conditions, then I'll just throw this money to whoever you want. In any case, I feel that Wu Group Corporation's situation is not bad, so the pressure on your competition is not small.

Chen Cheng wiped the sweat off his forehead and looked at Wu Tian nervously. Then, he slowly said: "President Wu, I, on behalf of the Mecca Company Board, approve of your request. "According to your request, I can assign the ownership of the branch to you."

As he spoke, he turned around and looked at Nangong Ying. The treatment for the two of them must be the same.

"Nanhe Securities Corporation is the same here, it can be assigned to your names, but the prerequisite is that you must ensure that these companies are within our Mecca Company's management system."

To put it plainly, I can give you the ownership, but the profits and management must be handed over to the Mecca Company.

"That's no problem at all. If you agree, we can sign the contract immediately." Wu Tian said happily, but he changed the subject and put forward another request: "Sign it now, but wait a bit. I've decided that I can't decide on the amount of investment now. I want to inspect the situation of each branch under me and what kind of service I can provide them."

Chen Cheng was shocked again. Why did this guy ask for an even more outrageous request ...

"President Wu, this isn't good, right ..."

"Since I'm going to take over these branches, then I must hope that they can make a profit. Otherwise, why would I invest in them? But if you don't let me know their profitability and a future expectation, then I don't want to throw my money at you for free."

Wu Tian's tone was unquestionable and did not seem like he was discussing with Chen Cheng.

Nangong Ying nodded and continued on the side, "Brother Wu is right. Although your company is very big now, but you should know better than us that your company's business is definitely not doing well and needs a large-scale reform."

The two of them belonged to the same faction. Chen Cheng had no way to deal with them alone, so he was completely dragged along by the words of the two of them.

Hidden Billionaire Chapter 624 - Plan End

C624 Plan End

Chen Cheng clearly felt that these two guys weren't here to invest in him, but were here to cause trouble.

But now that things had come to this point, he had done all that he needed to do. He was still missing this final step. If this step failed, then his long term effort on Nangong Ying and Wu Tian would be wasted.

He might as well go all the way to the end. Regardless of the consequences, he had to get through the current situation.

If he failed to complete this project, even the Shangguan family wouldn't let him off so easily. If he lost his life, what would this company do to him?

With this plan, Chen Cheng clenched his teeth and hardened his heart, but he still agreed.

"Alright, in order to express my sincerity, President Wu, CEO Nangong, I agree to your request, Mecca Company, 56 branches, you can pick as you please, luckily the valuations are all there."

While saying that, Chen Cheng gave his secretary an order, telling him to get the branch's market value estimate.

It's good for getting things done early, not late. Chen Cheng was also afraid of what would happen if Wu Tian went back on his word after this, or if Wu Tian asked for something outrageous.

Wu Tian was also a little surprised, he didn't expect this guy to be so straightforward. He originally wanted to bargain with him, but since Chen Cheng had already done this, he naturally didn't need to hesitate anymore.

Since the other party had already brought this item in front of him, it would be too unreasonable if he still did not agree.

"Alright, Director Chen is straightforward indeed. Let's strive to sign the contract today."

As Wu Tian said this, he picked up the valuation table and began to read it carefully.

These 56 branch organizations were distributed across various industries in S City. From the looks of the previous situation, they could also be considered to have a bit of a reputation.

Of course, there were many branches that were not doing well and had serious losses. There weren't many branches that could earn money to maintain their profit, which was one of the main reasons that Mecca Company was almost stopped.

Wu Tian thought for a moment. He now owed Nangong Ying about 2.5 billion yuan. He would pick out a company with a market value of 2.5 billion yuan.

He picked a few companies with decent industry prospects and calculated the amount to approximately 2.5 billion yuan. Then, he told the result to Chen Cheng.

The situation on Nangong Ying's side was similar, but he chose a few, which equaled to a market value of a billion or so.

"Let's just take these. We won't have that much energy in a short period of time. It's not easy for them to take care of a company. That would require a lot of manpower and resources."

Wu Tian felt that his whole body was relaxed and that the whole plan was about to come to an end.

If this time he could succeed. Mecca Company should not be able to rise again.

"That's for sure, but I believe that you two will definitely be able to do a good job on this. In the future, we can be considered colleagues after we sign the contract, so we will work hard on this together and earn money together. No matter who does it, it will be beneficial for us."

Chen Cheng's mood was very complicated. It couldn't be said to be good, but it couldn't be said to be bad either.

They quickly signed the contract, but Wu Tian was careful with the contract. He didn't say how long it would take him to send the money, he just promised he would.

According to him, it was only after inspecting these companies that he could truly confirm his suspicions. It was very likely that there would be some other changes, so he could not guarantee the time.

Chen Cheng had no choice but to accept it. Otherwise, they wouldn't be able to sign the contract.

After signing the contract, Wu Tian and Nangong Ying left happily, as if they had found some treasure, leaving Chen Cheng by himself. He slumped down on the sofa, completely lifeless.

"Director Chen, are you alright?"

The secretary handed Chen Cheng a glass of water and asked in concern. He didn't participate in the whole meeting so he didn't know what kind of contract they signed in the end.

However, looking at Chen Cheng's expression, he felt that it must not be so good.

"Investigate for me, who exactly is this Wu Tian? "Where is he from? What family is he from?!"

Chen Cheng was stunned for a moment. Finally, he remembered what had happened. The more he thought about it, the more he felt that something was wrong. Just which family did Wu Tian come from to have such confidence?

His surname is Wu, could he be from Wu Family? However, this argument was not very true. He had never heard of someone like Wu Tian within the Wu Family.

After thinking about it, he still didn't have any leads. He could only explain this matter to them and see if they had any results from their investigation.

Wu Tian and Nangong Ying went back happily. Normally, they should go back to prepare the funds, but the two of them had no intention of doing so.

Wu Tian didn't have that much money either. The money he promised was all just empty checks.

Now that the contract had been signed, it meant that the ownership of these companies was now in Wu Tian's name.

According to their agreement, Wu Tian would finish the research and research of each company within a week. At that time, they would sign the contract again to ensure that the funds were in place.

However, Wu Tian's plan was finally about to begin.

Since they came out of Mecca Company, Wu Tian was afraid that someone would follow them, so he didn't go to Wu Group Building but instead to Azure Dragon's rented office nearby.

It was a private villa. The decorations inside were not bad and the surroundings were very quiet. It was especially suitable for people like Azure Dragon and the others.

"What's making President Wu so happy?"

Azure Dragon seemed to have just come back from outside not long ago. He was also very surprised to see Wu Tian come over.

"Haha, I'm going to make a lot of money. "Oh right, I have some assets that I want to sell, can you find a buyer for them?"

Wu Tian was so excited that his mouth couldn't close. It seemed that he had already seen the day that Mecca Company failed, and the day that he had earned a lot of money from Mecca Company.

"Even if you ask me, I don't know ..." Azure Dragon did not know much about business, and he was more in charge of the intelligence. Just the Red Power alone was already tiring enough for him. If it wasn't for Wei Jiaming's help, he probably would not have been able to handle this alone.

"Alright, I got it. You can rest. I'll have those people come over quickly."

Hidden Billionaire Chapter 625 - Red Power

C625 Red Power

He had thought of this idea in this bar, but he didn't expect it to actually work now.

At least, he had succeeded by half. The hardest part was finding out if there were any large financial groups willing to take over these branches.

Wu Tian wanted to use these methods to swindle ownership of these branches from Chen Cheng into his own and then immediately sell it.

After that, he would think of a way, which was to just wait for his Mecca Company to collapse.

It was impossible for him to pay.

After Su Cancan heard what Wu Tian said, she heaved a sigh of relief.

She really wanted to see what this person was thinking. How could an ordinary person come up with such a method?

Furthermore, it really did make people feel that he was being a little too ruthless. It seemed that he did not plan to give the Mecca Company any chance at all.

"This is a few billion, it won't be easy for us to sell it off, so let's not even think about S City anymore, the moment we attack, the other party will know."

Su Cancan said bluntly. The other party was actually Chen Cheng, who had been toiling at the S City for a long time. It was unlikely that anyone would come to buy Mecca Company's assets.

"If that's the case, it would be best to find something that is far away from here. After that, it wouldn't have anything to do with Chen Cheng. Furthermore, he would need money ..."

Wu Tian frowned. This problem was quite troublesome. It would not be that simple to satisfy so many requirements.

Furthermore, he had to ask the other party to be willing to spend a lot of money to buy these items within a short period of time.

"Otherwise... Do we have an auction or something? "

Wu Tian suddenly thought of the scene where he used APP to buy the shares of Heng Shuang Capital Co., Ltd., and easily completed a large amount of capital instantaneous transactions on his phone. He didn't even meet the bosses of both sides during the entire process ...

This seemed to be a pretty good opportunity. If he put all the stocks and assets he owned into this app, someone else would naturally come to buy it.

Of course, Su Cancan and the others didn't know about this, but Shen Xue was extremely smart, and could probably guess that he was talking about this Tianmu Technology Development APP.

"You mean, we should hang all these on this phone? Or rather, set up an auction?"

Wu Tian nodded and gave Shen Xue a thumbs up.

"You're right, that's what I plan to do. "Anyway, I've already told you guys about this. As for those who aren't participating, you should all go back and think about it. If you have a suitable customer, you should also invite them over for a bit of attention."

After completing the task, Wu Tian felt that it was time for him to go back and rest, so he prepared to leave and return to the company with Shen Xue.

At this moment, Su Cancan stood up and called out to Wu Tian.

"That... Old Master wants you to go back. He's been rather worried about not seeing you these past few days. "

Wu Tian quickly stopped, and for a moment, he didn't know what to do.

"Is Old Master alright? Is he still angry?"

Su Cancan shook her head and said slowly, "I'm not sure if I'm angry or not. He told the maid to tell me this. No matter what, I think you should go back. After all, Old Master is your grandpa."

Hearing her say that, Wu Tian was a bit tempted. He was just afraid that Old Master Wu Zhi was still angry, so if he called him back, then would he scold him again?

Shen Xue also pulled a corner of Wu Tian and whispered to him, "You should go back. You don't have to worry about me."

Wu Tian nodded, and after telling Shen Xue and the others to quickly leave, he followed Su Cancan and prepared to return to Wu Family Castle.

It had indeed been a few days since they had returned, but after this matter was over, the Wu Castle would be in their hands again. This was a full year earlier than they had expected.

"How did you know that Chen Cheng would be tricked so easily?"

Su Cancan couldn't figure out the answer to this question. She even asked Wu Tian about it on the way back.

"Because I heard their conversation and it could be considered a coincidence. You might not know who the mastermind is."

"Wasn't Chen Cheng the one who planned all this? You mean there are others behind his scenes? "

Su Cancan was a little surprised. She had originally thought that all of this was because of Chen Cheng.

"Of course it's not just him, how could he have that much ability, it's Shangguan Family. Shangguan Junyi planned for this matter, from the start our shares were purchased by others, it should have been them."

Wu Tian told Su Cancan everything he knew. Su Cancan was shocked beyond belief.

But soon, they arrived at the Wu Castle and the two of them hurriedly got off.

However, they didn't notice that there was a telescope looking at the scene in front of them. The camera had captured Wu Tian's back.

After returning to the castle, there were no other changes. Surprisingly, Old Master did not show any expression. He did not show any displeasure

towards Wu Tian nor did he show any displeasure towards Wu Tian. He basically did not talk to him.

This was the best ending for Wu Tian. Before the matter ends, it's best if it continues like this, so there's no need to be awkward between the two of them.

Just as Wu Tian was preparing to return to his room after his meal, he suddenly received a call from Azure Dragon.

"President Wu, bad news! The company has been wrecked!"

"What, you slow down a bit?!"

He and Su Cancan were just walking out of the restaurant when Wu Tian heard that. He quickly tried to stop Su Cancan and opened up his phone.

"Red Power, Red Power suddenly came to our door and destroyed our company without any explanation. Luckily, there are not many people in the company who are just security guards, they are currently walking up level after level ... Destroy everything they can destroy. By the time I call you, they'll probably be on the fifth floor! "

Azure Dragon was breathing heavily. He could hear some menial work around him, so he was probably on the spot.

After Wu Tian heard this, he was stunned. The veins on his forehead were popping out as he clenched his teeth.

"Alright, I'll go over now!"

Su Cancan didn't say anything. She just sent a message on her phone and the two of them left the castle in a hurry.
