

Hidden Billionaire Chapter 677 - Uninvited Guest

C677 Uninvited Guest

Su Wenxin narrowed her eyes as her body began to tense up, as if she was facing a formidable enemy.

Sensing that something was wrong, Su Cancan also focused her attention, and the scene instantly turned quiet.

Zheng Taiwen walked over with a smile. Behind him were Tian Gui and Tian Ying.

"Why are you guys so nervous? You ate really well." I haven't had much to eat tonight, so you guys should tell me and I can come over to eat too. "

This guy acted as if he was very familiar with them. He took the initiative to find a chair and sat down. Then, he picked up his chopsticks and was about to start eating.

At this time, a powerful aura burst out from Su Wenxin's body, rushing straight towards Zheng Taiwen's face.

He gently waved his sleeve to disperse this aura.

"What are you doing here? This is not a place you should be! My words should have warned you already! "

Su Wenxin's voice was extremely cold, completely different from the way she spoke before.

Su Cancan was trembling because she realized how powerful this man in front of her was.

When they met just now, although Zheng Taiwen and Su Wenxin hadn't attacked each other, just their imposing manner had already made Su Cancan feel a distinct sense of fear.

This was Wu Tian's place, and also his home. To barge in here openly was equivalent to slapping his face.

"Mister, we don't seem to have invited you over, right?"

Wu Tian took a few steps forward and stood in front of Zheng Taiwen. He narrowed his eyes and glared fiercely at the man in front of him. He knew he was powerful, but Wu Tian did not intend to retreat.

"Young man, I let you go last time, you should know your limits."

Zheng Taiwen did not put Wu Tian in his eyes at all. He felt that Wu Tian was just an ordinary person and that he looked down on Wu Tian.

However, Zheng Taiwen admitted that Wu Tian was very smart. Otherwise, Mr Jin wouldn't pay so much attention to Wu Tian.

"This is the Wu Family's castle and I don't welcome you. It's better if you people from Tianying Sect leave quickly."

Wu Tian said coldly. This was his ultimatum.

"We rarely come, aren't you welcoming us? We were kind. "Forget it, since you don't welcome us, then let's go."

Zheng Taiwen put down his chopsticks and patted his clothes. Then, he stood up and suddenly stopped after taking two steps back.

He turned around and said to Wu Tian, "That Wu Yongan is a relative of yours right? I didn't expect you to be so ambitious and drive them out. I think such a scum deserves to die. "But unfortunately, Wu Yongan and I are from the same faction."

Although he didn't know what Zheng Taiwen meant by that, but Wu Tian's expression didn't change at all.

"Please leave now."

Wu Tian made a gesture of "please", and quite a few bodyguards came to their senses at this moment. Then, a large group of bodyguards surrounded them.

Although there seemed to be a lot of bodyguards, these ordinary people had no chance of winning against Zheng Taiwen and the others.

"I came here for a reason. Mr Jin said he doesn't want to waste too much time and resources on you. We still have something important to do."

Not only did Zheng Taiwen not leave, he walked towards Wu Tian. Seeing the situation, Su Cancan immediately ran over. She was no longer afraid. The most important thing was that she had to protect Wu Tian's safety.

"Zheng Taiwen!" What exactly do you want to do? "

At this time, Su Wenxin also moved. She picked up the chopsticks on the table beside her and threw them towards Zheng Taiwen. The chopsticks flew towards him like sharp arrows.

However, Zheng Taiwen didn't give up. Without even looking over, he reached out his hand to block the chopstick. After grabbing it in his palm, he lightly clenched his fist and the chopstick turned into powder.

"I'm not going to do anything to Wu Tian. Take a guess, what would be the most convenient way to destroy your Wu Group company? "

Zheng Taiwen's actions were slow, as if he was stalling for time or teasing them. It was just like when cats were chasing after mice; cats would always pick them up and play with them for a while before eating them.

Looking at their last frantic struggle before death, it was probably this person's strange pleasure.

"Do you want my life?"

Wu Tian raised his head. He was not afraid. He did not feel that he needed to be afraid. To be honest, if the enemy did not make any move, he felt that something was amiss.

"Smart, if I kill you, Wu Group Corporation will immediately fall apart. Then there would be no more opponents for Mecca Company. We can very quickly occupy the entire S City and thus control an economic lifeline within the entire nation. "

Zheng Taiwen said those words without hesitation. He really couldn't imagine where he would fail.

Although there were only three of them, their strength was more than enough to deal with these people in front of them.

In other words, they were confident that anyone who heard them wouldn't be able to see the sun tomorrow.

"But do you think you can end it by killing me? I am just the beginning, even if I die, my plan will continue to be carried out. Your Shuangxing Company Company will still be finished. "

Wu Tian said coldly. This level of intimidation had no effect on him at all.

"You're wrong, you have to understand that I'm not from Shuangxing Company Corporation. We were only hired by them. You can hire me if you have the money — if you'll give me enough. "

While saying that, Zheng Taiwen, Tian Gui, Tian Ying, and the others burst out in laughter. They have no principles, they only care about money.

To be honest, Wu Tian didn't know what they earned so much money for. The money was already too much for them.

Perhaps this was a person's goal in life.

"Since that's the case, then you all can make your move. I would like to see what kind of abilities you have. "

Wu Tian grunted. He did not put these people in his eyes at all.

Zheng Taiwen was very powerful, but so what? He, Wu Tian, was also prepared.

To be honest, Wu Tian actually felt relieved when he saw the three of them come in openly. If these people sneakily made a surprise attack, it would be a hidden danger.

However, if they fought face to face, then it would be hard to say who would win and who would lose.

Hidden Billionaire Chapter 678 - Start the War

C678 Start the War

Zheng Taiwen squinted at Wu Tian and laughed out loud.

He raised his hand and made a gesture behind him. Tian Ying walked up slowly with his usual smile.

He was short and fat and walked like a ball. He looked very funny.

However, at this time, no one felt that they could casually mock Tian Ying.

Wu Tian stared closely at the person in front of him. Previously, Tian Gui and Tian Ying had already turned Wu Tian and the others upside down. It was not easy to deal with such people.

"Lad, do you really want me to take action?" Tian Ying chuckled, as he did not put Wu Tian in his eyes at all.

"Why say so much, I still have to say it. If you leave quickly, I won't say anything, but if you insist, then you can't blame us for being unreasonable."

Wu Tian put his hand into his pocket with a cold expression, as if he was ready to take something out anytime.

"Gun? Little brother, this sort of thing isn't that useful to us. At such a close distance, your gun shouldn't be able to be used at all."

"Oh, really?" After saying that, Wu Tian suddenly took out a black ball from his pocket and slammed it onto the ground. Immediately after, a cloud of black smoke diffused out. This change was too sudden, Zheng Taiwen and the other two were also stunned for a moment.

However, Wu Tian did not stop. He knew that these guys would not leave until they had fought to the death.

However, this was good as well. It saved Wu Tian from having to look for them again. Since the other party took the initiative to deliver himself to their doorstep, this was a very good opportunity.

Tian Ying saw himself falling into darkness. He immediately held his breath and tensed his body, ready to deal with any sudden situations.

Inside, he couldn't see Wu Tian's position, so he could only guess by relying on his own ears.

This was nothing to Tian Ying. When they were training their Tianying Sect, they would often blindfold their eyes and train.

But even after he listened for a long time, there was no sound at all.

That's weird, could Wu Tian's trick be a trick?

Tian Ying carefully moved his body and accidentally bumped into a table on the side and broke some of the dishes on it.

Suddenly, a loud noise could be heard.

Wu Tian waited for this opportunity. The cat was in a corner and immediately determined Tian Ying's position. Then, it punched him.

At this moment, he had a good grasp of the situation. When the plate was about to break, a mix of sounds could be heard. Wu Tian's punch landed heavily on Tian Ying's face.

The strength of this punch was great, but Tian Ying was too fat. These meats were his best defense, so punching and kicking wouldn't do much damage to him.

"Good boy, to think that you would do this!" Not only did Tian Ying not become flustered just because he was attacked, he became excited instead. The battle had piqued his interest.

A one-sided slaughter was not fun at all, but a fight like this could allow one to unleash their full strength.

"But I like it this way. It would be great if you could act even more surprised." Tian Ying used his words to tease Ye Chong. This wasn't an invincible shot, but a small strategy.

What he said now, if Wu Tian really responded, then Tian Ying could immediately determine Wu Tian's position.

At that time, he could seize this opportunity to attack Wu Tian in one go. If he found Wu Tian, he had the confidence to kill Wu Tian in just two or three rounds.

"Why didn't you say anything? There's no point in staying silent between the two of us, right?"

Although this Tian Ying kept hooting, Wu Tian did not care about this matter at all.

He didn't care what Tian Ying said at all, he just continued to wait for an opportunity. He also understood that it was not enough to just rely on his punches and kicks, but he still had to use his weapon.

Wu Tian didn't have anything useful on hand right now, so he took out a knife from the table. This knife was meant for cutting meat, but it was perfect for now, but it could be used for now.

The blade was blunt, but there was no need to worry. In front of their strength, even if it was only a metal rod, it could still turn him into an extremely ferocious weapon.

Zheng Taiwen stood outside the arena and looked at the mass of black fog with a smile. He wasn't sure what was going on inside, but he could hear the sounds inside.

Tian Ying was still talking, which meant that it was fine. Since they were in a stalemate, they should have made some movements outside.

Sensing that danger was approaching, Su Wenxin had told Su Cancan to take everyone in the hall with her.

Ordinary people wouldn't be of any use here. They would only add more trouble to their team, which would make it impossible for Su Wenxin to fight wholeheartedly.

"But Master, I want to stay behind with you." Su Cancan obviously knew how important this was, but she didn't want to leave her master alone to face a strong enemy.

"Cut the crap, do as I say."

However, her eyes were focused on Zheng Taiwen the whole time. If anything happened to him, Su Wenxin's side would probably act first.

Only the two of them could be considered super experts, and only Su Wenxin could exchange two moves with Zheng Taiwen.

Although Su Cancan was unwilling, she had no other choice. She could only helplessly go to arrange this matter.

This time, her few senior brothers were all not around, so she was simply unable to use the unique skills of her Wudu Sect.

Last time, Su Cancan had relied on her cooperation with her seniors to drive Tian Gui and Tian Ying out. That time, it did not cause any substantial harm to the two elders from the Tianying Sect.

Rather, it was as if they felt a slight difficulty as the other party took the initiative to retreat.

This time, their Left Guard and Zheng Taiwen had come. Who knew how strong they would be.

"Take them and run to the Wu Group company. "Don't look back." Su Cancan handed the task here to Wu Zaibin and the others. After running a few steps, she turned back.

"Master! I'm sorry, but I'm still not listening to you. If you go against two people alone, you definitely won't have the advantage, so I have to help you. "

This time, Su Cancan didn't care how much Su Wenxin would punish her, but she still stood resolutely by her side.

Su Wenxin sighed and nodded. She could only accept this fact.

"Alright, alright, but you must take care of your own safety. These people are not easy to deal with."

Hidden Billionaire Chapter 679 - Difficult Opponent

C679 Difficult Opponent

Su Wenxin had a rough estimate of how capable they were.

All in all, the burden was not light for them.

"Wenxin, why are you doing this? Is there a need for the two of us to meet in battle?"

Zheng Taiwen acted like he cared for the fairer sex, but he was actually making fun of Su Wenxin. To him, this approach didn't add up to anything at all.

"Cut the crap. If you want to fight, then go ahead. What's the use of saying so much? In the end, it took up our time." Since it's like this, you don't have to act as if you're close to me. "

Su Wenxin glared angrily at Zheng Taiwen. If she could, she really hoped that she could dig out Zheng Taiwen's eyeballs.

This guy's words really made people angry. What the heck? Right now, he even had a haughty look. Does he really think that he's some amazing person?

"Haha, Wenxin, you don't need to be so heartless. Do I still have a chance now?" Zheng Taiwen said as he slowly walked towards Su Wenxin.

A faint white smoke started to emit from Su Wenxin's body.

If one was not careful, no one would be able to observe it. Furthermore, the time the smoke took to dissipate was very short, only three to four seconds.

Su Cancan soon realized this and realized that her master had come for real.

She quickly held her breath and pried a spot above her teeth. From there, a small pill rolled down.

This was a special antidote used by their Wudu Sect. Sometimes, when poison was used, it would unavoidably wrap around oneself. Their Wudu Sect were also people, so it wasn't that easy to exempt these poisons.

Therefore, for the sake of safety, Wudu Sect people would always hide some antidote on themselves. They took some medicine before the poison was administered, so that nothing would happen.

This time, Su Wenxin didn't even greet him. Fortunately, Su Cancan had noticed this point. Otherwise, she would have been poisoned to death by her master.

This faint white smoke was not simple. It seemed to be Su Wenxin's ultimate ace in the hole.

This was the colorless, odourless, deadly poison that she had specially created. Anyone who smelled it would die in an instant.

Su Wenxin would never use this move unless she truly felt danger or had a killing intent.

Zheng Taiwen smirked. He didn't say anything and silently activated the Turtle Resting Dharma spell.

If the two of them were to fight in close quarters, it would be unavoidable for them to inhale that highly toxic gas.

Even Zheng Taiwen had no way to use his body to withstand the poison. Thus, his simplest method was to hold his breath and not breathe in the poisonous gas.

However, this meant that the time to battle had to be quick. The duration of the Turtle Rest Technique could only last for five to six minutes at most.

After this period of time, if the two of them did not have a final victory, then there would be a huge problem.

"If that's the case, then we don't have to be modest. Let's fight."

The two of them greeted each other. Su Wenxin and Zheng Taiwen's figures disappeared from the spot at the same time. Then, in the next second, they appeared between the two of them.

Soon after, a translucent shockwave that could be seen with the naked eye spread out from where the two of them clashed.

Su Cancan quickly jumped back and hid behind a table. She was very sensitive and sensed danger. As expected, the table was almost completely blown away by the shockwave.

Fortunately, Su Cancan was quick-witted and hid herself early. Tian Gui wasn't that lucky, but he wasn't that far away. He was just knocked out by the shockwave and fell to the ground.

When he stood up and saw that Su Cancan was still unharmed, he immediately felt a sense of helplessness and rushed towards her without saying a word.

"Die!"

When Su Cancan saw someone rushing towards her, she was stunned for a moment before she started to make her preparations.

A person with Wudu Sect would naturally have their own unique fighting methods. Su Cancan first threw a cloud of smoke under her feet, and the white smoke spread out in all directions around her.

Immediately afterwards, two small white snakes slithered down from Su Cancan's body and quietly hid nearby.

Su Cancan's weapon was a pair of short sabers. She held an advantage in this kind of environment. Her short sabers were much more nimble than other weapons. At the same time, they were also more tricky to attack from an angle.

In this kind of narrow terrain, it was possible to display a great advantage.

Tian Gui was unarmed, but that didn't mean he was afraid of weapons. To Tian Gui, external martial arts like the Golden Bell Cover and the iron cloth shirt were like child's play.

The two of them started to fight. Su Cancan didn't have time to care about other places as she just wanted to defeat the man in front of her.

The moment Tian Gui made his move, it gave Su Cancan a lot of pressure. It had to be said that Tian Gui's dominance was very strong at this point.

Regardless of his speed or strength, he was extremely terrifying. Su Cancan had used all her strength just to dodge him.

If she didn't prepare so much poison, she would have been killed by this fearless Tian Gui already.

Because he knew how powerful their Wudu Sect was, when Tian Gui attacked, his hands and feet were tied, and he did not dare to act rashly. Perhaps if he did not do the right thing at a place, these people from the Wudu Sect would seize the opportunity to poison him.

This kind of battle experience was gained from countless of predecessors and battles between Wudu Sect.

Therefore, for the people in the martial arts world, no matter who they had provoked, it was best not to provoke Wudu Sect. It was not because they were very powerful, but simply because they were too difficult to deal with.

He had the feeling that he was being overly cautious, and Tian Gui was not in a good mood. He quickly grabbed the table beside him. Relying on his great strength, he treated the table as a large fan.

As he faced the poisonous fog, he began to fan the air fiercely.

"Go ahead and poison him, I want to see what you can do. Use whatever skills you have left."

Tian Gui found the temporarily made fan to be very useful. The table was used as a fan surface. Although it was a bit difficult to put it into his hand, the wind brought out was still quite strong.

Su Cancan's poison mist, which she had gone through great difficulty to create, was easily broken at this time. She had no choice but to retreat, first creating some distance, then thinking of a way.

It seemed like Tian Gui had some skill, especially for people like them who had already reached the elder level. If he didn't have any skill, it wouldn't be so easy for him to be recognized by others.

Hidden Billionaire Chapter 680 - Individual Skill

C680 Individual Skill

The situation had suddenly become entangled. The battles at the three divisions had become extremely intense. Everyone was completely immersed in their own bodies and minds, unable to have the time to pay attention to anything else.

In other words, this place was like a battle between gods. Outsiders couldn't even participate if they wanted to.

Wu Tian was almost at the end of his rope just by walking around in circles with Tian Ying. The same method could not be used a second time, nor could similar methods.

The range of his black smoke was not very large and its movement space was limited. However, Tian Ying's ears were surprisingly good. Even the slightest movement from Wu Tian could be determined immediately.

Furthermore, if Wu Tian didn't move quickly, the only thing that would happen would be to watch Tian Ying destroy the place where he was at.

"F * ck, if you have the guts then don't run, brat. What ability do you have?" Tian Ying was a bit exasperated. He was not afraid of fighting head on with others, but being like a cat catching a mouse made him feel that there was no meaning.

"Do you think I would believe you?"

Wu Tian snorted coldly. However, he immediately moved his body and those tables and chairs behind him were shattered with a kick.

Tian Ying slightly kicked the attention fragments beside him and twisted his foot as if he was stretching his muscles and bones.

"What's there to believe? Both of us will come out together. You hit me, I'll hit you, and we'll see who wins in the end. If it really doesn't work out, I'll let you fight first."

Tian Ying continued to speak with his poor mouth, as if he was trying to drive Wu Tian crazy in this way.

However, this plan was too perfect. Wu Tian was not an idiot, so how could he fall for such a trick?

However, Wu Tian also clearly felt the crisis. This way, it wouldn't be a good solution for him.

He might even collapse if the two of them were to continue wasting time like this.

He has to get rid of this Tian Ying as soon as possible. Wu Tian tightly gripped the knife in my hand and held his breath.

Although he couldn't see anything in the smoke, Wu Tian was prepared.

He wore a small earphone in his ear. This was the piece of equipment he had been wearing for the past few days.

This headset can monitor nearby sound, even if it is very small, it is very easy to actually hear.

Wu Tian could easily determine Tian Ying's position just by looking at this thing.

Furthermore, he didn't only have everything Wu Tian had prepared. There were also some things that he had prepared a long time ago.

If one were to observe the meeting place carefully at this time, it was not hard to notice that the roof of the meeting place was emitting a colourless and tasteless gas.

Wu Tian didn't know about the poison gases in Wudu Sect, so he could only solve these problems by his own way. These gases were the anesthetic gases that Wu Tian had prepared before.

Colourless and tasteless, as long as it was put down, even an ox would fall.

The key point was that these things were actually very common, and didn't have much of an impact on the body, apart from making people feel very sleepy.

This sort of thing had a lot of applications in hospitals, so Wu Tian wasn't worried about it being recognized.

It was precisely because Wu Tian knew that Zheng Taiwen and the others would definitely be wary of people with Wudu Sect like Su Wenxin. Therefore, they did not take the little item that he prepared seriously.

Seeing that the anesthetic gas had started to come out, Wu Tian was no longer as flustered.

He slowly waited. As long as the anesthetic gas worked, the three of them would become a fish waiting to be slaughtered no matter how powerful they were.

Although he didn't inform Su Wenxin and Su Cancan about it, it should be the best thing for him to do.

Tian Ying couldn't hold back his anger anymore as he watched Wu Tian play dead.

He was the first to enter the battle, but they were still evenly matched, with no victors.

If he calculated afterwards, not only would he not get any credit, he would also be reprimanded by others.

In short, if word of this spread, it would be too embarrassing, and would harm his identity as a Tianying Sect Elder.

"Brat, I don't have time to play with you anymore, just die."

Tian Ying also came prepared. He took out a grenade from his pocket. He specially prepared this for him.

Sometimes, when the battle reached a very intense stage, the two sides would usually be at a stalemate.

And this grenade could sometimes play an extremely effective role in crucial areas.

For example, at a time like this, this grenade was not the kind of grenade that would explode like everyone imagined, blowing up everything around it into pieces.

There was no injurious gunpowder in it, but a high-pressure gas.

After the explosion, it would create a huge airflow that would blow away the surrounding air.

This was specifically used to deal with Wudu Sect. Tian Ying already knew that this time, facing them, he would definitely release poisonous gas like last time.

Although he didn't want to use his trump card so early, Tian Ying didn't have any other choice.

He pulled off the bolt on the grenade and threw it on the ground. Then, a mechanical sound rang out and a huge wave of air burst out from the grenade's body.

Wu Tian was caught unprepared. He felt as if he was hit by a level 10 gust of wind. The wind was like a knife, pulling his face until it hurt.

Just one hand grenade had blown away all the black mist that Wu Tian had set up. Now, Wu Tian's position was completely exposed.

"Haha, kid, let's see where you can run to now!"

Tian Ying noticed Wu Tian's trace at a glance, chuckled, and rushed over like an arrow that had left the bow. He raised his fist and punched.

Wu Tian couldn't care about that anymore, he immediately ran away.

However, how could he run faster than others?

It was the same as last time, Wu Tian was chasing after him at the front, but the last time was in Wu Group office, Wu Tian was jumping up and down like a monkey.

This time, it was the Wu family's castle. He was also jumping up and down in this auditorium.

"You think I will let you run away?"

Tian Ying dodged and ran to a very hidden corner in front of Wu Tian. Then, he jumped out and blocked Wu Tian's path.

Wu Tian didn't even have time to react before he heavily crashed into Tian Ying's body. Following that, he was kicked onto the ground.

This kick was so strong that it almost broke Wu Tian's bones. The strength of this Tian Ying was too powerful.
