

Hidden Billionaire Chapter 71 - Shen Xue's Mind -

C71 Shen Xue's Mind

"Miss Shen, don't misunderstand." Without waiting for Wu Tian's reply, Liu Fugui hurriedly interrupted, "Xiaohao is my child."

"Oh, so it's Uncle Liu's child." Hearing this, Shen Xue became overjoyed.

Seeing the boy being so intimate with Wu Tian, she thought that he was Wu Tian's illegitimate son; consequently causing her mood to sink.

After realizing that the little boy was simply Uncle Liu's child, she suddenly felt a sense of relief.

"Xiao Xue, would you be willing to make a child set meal for Xiaohao?" Wu Tie tried asking.

"Of course, no problem."

Shen Xue walked over and held the side of Xiaohao's face, "You are so cute. Tell me, what's your name?"

"Liu Xiaohao, you can call me Hao Hao."

"Good boy." Seeing such a cute child before her, Shen Xue found it amusing and introduced herself, "My name is Shen Xue, I'm your father's friend."

"Hello, Auntie."

"Tell me what you want to eat, I'll make it for you."

"I want strawberry shortcake."

"Alright, I'll make it for you. Just wait here for a bit." Touching the tip of Xiaohao's nose, she stood back up and said to Liu Fugui, "Uncle Liu, please wait a moment. I'll go make some food for Hao."

"We'll just have anything you decide to make."

"No problem, I'll get it done soon." Shen Xue glanced at Wu Tian and quickly walked towards the kitchen.

As soon as Shen Xue left, the phone in Wu Tian's pocket suddenly rang.

He took it out and saw that it was Liu Jun calling.

After he answering the call, he smiled and said, "Uncle Liu, I was just about to call you and invite you out for dinner!"

"Let's have a meal together some other time. I've been busy investing recently," Liu Jun spoke with a serious yet kind tone on the other end of the call.

"Oh? Did Uncle Liu invest in some new projects?"

"Yes, I've recently bought a few plots of land, and I need you to invest in them for me."

"Where are those plots of land?"

"Jade Garden."

"That area is pretty good."

"Don't worry, the plots of land that I've set my eyes on will definitely not be bad. It's much more reliable than your investment in Tianmu Technology since there are fewer risks of losing money," Liu Jiu said with a very confident tone.

"I presume the price for this area must be very high!"

"That is indeed the case. Having been short on funds as of late, I wanted to ask you to cooperate with me. If you're interested, why don't you come over and take a look? Let's talk about the details of the cooperation."

"There's no need for me to go look." After a moment of thought, Wu Tian said into his phone, "I believe that Uncle Liu's eyes for things aren't bad. How about this? I'll invest a hundred million yuan."

Having made a decent sum of profit from his restaurants recently, Wu Tian decided that it would be better to invest the money into real estate instead of putting it in the bank.

"You are a bold one indeed. You didn't even look before throwing in a hundred million, hahaha..." Liu Jun's laughter resounded lucidly from the other end of the phone.

"That's simply how much I trust you, Uncle Liu."

"Good kid, since you put your trust in me, I definitely won't let you down."

"As for the investment, I will get my secretary to contact you. For the management, on the other hand, I will not participate and will instead just wait for the dividends."

"Alright, that's settled then."

"See you next time, Uncle Liu," Wu Tian said before finally hanging the call.

The moment he ended the call, he saw Shen Xue carrying two sets of dishes out from the kitchen.

One was a child's set meal that was specially prepared for Hao Hao, and the other was the most popular Chinese set meal in the restaurant.

The two sets of dishes were meticulously prepared, and just looking at them was enough to make one's appetite rise.

"Hao Hao, Auntie made this for you. Hurry up and taste it," Shen Xue said, gently placing the children's meal set in front of Xiaohao.

"Thank you, Auntie."

After thanking her, Xiaohao began to devour the hearty meal placed in front of him.

Perhaps due to its delicious flavor, his face quickly turned into a mess as he gobbled down every part of the dish.

Shen Xue wiped Xiaohao's face with a tissue and said with a smile, "Eat slowly, no one is going to steal it from you."

"So delicious!" Xiaohao ignored her remarks and continued to munch down his food.

"Ha ha!"

Seeing Xiaohao eat the food that she cooked so happily, Shen Xue felt a great sense of elation.

Pushing the other Chinese dish over to Wu Tian and Liu Fugui, she then said, "Uncle Liu, you guys eat too!"

"Alright!"

After Liu Fugui answered, he picked up his pair of chopsticks and started eating.

Originally, he did not feel very hungry. However, he yielded to his sin of gluttony upon seeing the beautiful presentation of the dish and the fragrant lingering through the air. With that, he too began eating.

After they finished their meal, Xiaohao wiped clean his dirty mouth and couldn't help but praise Shen Xue, "Auntie, the food you made is so delicious."

"Thank you, Xiaohao, for your praise," Shen Xue thanked and let out a smile brighter than the sun.

"Auntie is not only beautiful but is also a great cook!"

"Hao Hao's mouth is so sweet, so sensible."

"Uncle!" Xiaohao turned his head to look at Wu Tian and said in a childish voice, "I think you should marry Aunt Shen Xue so that she can cook for you every day."

Cough! Cough!

Wu Tian taken aback by his sudden exclamations, coughed a few times in surprise. He never expected Hao Hao to already be saying such words at such a young age.

"Hao Hao, don't talk nonsense." Shen Xue glanced at Wu Tian and lowered her head with a flushed face.

She did not think the child would end up spouting those words and immediately felt a great sense of embarrassment in her heart.

Liu Fugui, who was beside him, quickly reprimanded his son, "Hao Hao, don't be so shameless. I forbid you to say such things in the future."

"Uncle Fugui, don't be angry. A child will always say such childish things.

"This child must have watched too much TV. Don't take his words to heart. I'll bring Hao Hao to the car first," Liu Fugui said as he dragged Hao Hao out of the restaurant.

In an attempt to break the awkward atmosphere, Shen Xue said, "Hao Hao is so cute and obedient."

"You seem to like children a lot."

"Yeah, I really like kids."

"If you like children, then give birth to one yourself."

"I can't do it alone!" Shen Xue answered in embarrassment as her face flushed red yet again, regretting her previous remarks.

Wu Tian scratched his head and boldly teased: "If you want to have children, I can help you."

"Who wants your help?" Hearing that, Shen Xue's face turned crimson red, embarrassed to the point that she could not look Wu Tian in his eyes.

She did not know how their conversation suddenly switched to something as flustering as having children.

"I was just joking with you, don't be angry," Wu Tian interrupted, knowing that he should stop before the topic gets even more awkward.

Cough!

Shen Xue coughed lightly and took the initiative to change the topic, "Oh right, who was the woman you brought here to eat before?"

Twice she had seen Wu Tian bring the same woman wearing sunglasses to the restaurant for dinner.

Shen Xue felt an sense of unease and discomfort each time she saw the two of them act intimately.

"That woman is called Huang Lan. She's a singer with a quite bit of a reputation in the entertainment industry," Wu Tian explained.

"You're so amazing. You can even get yourself a beautiful singer," Shen Xue pouted, clearly angry at heart.

"Don't misunderstand, Huang Lan and I only have a business relationship with each other."

"Are you two really just cooperating in business?"

"Of course."

"I thought you had that kind of relationship with her!" Shen Xue bit her lips, feeling her sense of bitterness dissipate slightly.

Hidden Billionaire Chapter 72 - Mobile Game Successful -

C72 Mobile Game Successful

Wu Tian continued chatting with Shen Xue for a while. Seeing that she was in a good mood, the two agreed to attend driving school together some other time.

After coming out of Fuyuan Restaurant, Wu Tian first sent Xiaohao back to school and proceeded to head for Tianmu Technology.

As soon as he entered the company lobby, he saw Lee Mu hurrying over with his secretary. "Good news, Boss Wu," he said excitedly.

"What good news?" Wu Tian asked with a smile.

"Several bosses from other companies have come to create a partnership with us in game development.

"Is that so?"

"A lot of companies are showing their interest in our Zhou Cheng Mobile Game. Some want to invest in the development of the game's periphery products, some want to buy the rights for adapting the game into animation, and some want to insert advertisements in the game..."

"That's great!" Wu Tian was very excited when he heard the news.

"Since the bosses from the other companies have already arranged for a meeting, why don't we split up the work?" After Lee Mu said this, he turned around and ordered his secretary, "Take Boss Wu to talk to the other companies about the rights for animating our game and advertising in our game. As for me, I'll be attending the meeting regarding the derivatives contracts."

"Yes sir!" After the secretary answered, he left the company with Wu Tian.

The three of them split up and went to different places to negotiate their deals with other companies.

These contracts were all requested by other companies to work with Tianmu Technology. With the progress of the negotiations going smoothly, they had signed a total of five contracts in one afternoon.

The total revenue amounting from the contracts exceeded two hundred million yuan. The total profit, on the other hand, exceeded that of fifty million yuan.

Wu Tian and Lee Mu were surprised by this outcome, never expecting the profit from Zhou Cheng Mobile Game to be so shocking.

Moreover, this is only the beginning of the collaboration with other companies, meaning that there is bound to be even more cooperations in the future.

The three of them returned to the company with five contracts, ready to share the good news with all the employees.

When they entered the office, they found the company particularly energetic.

It turned out that Zhao Yiming was arguing about chasing Yuan Wangchun and his men out of the company.

"What's going on?" Wu Tian asked Zhou Cheng, who came over to greet him, after walking into the company.

Sigh!

Zhou Cheng sighed and explained, "President Zhao and Manager Yuan are currently on bad terms. Consequently, President Zhao wants to kick him and the programmers he brought along with him out of the company."

"Why?"

"President Zhao never wanted the company to be part of the gaming industry. He has a sort of negative stance towards developing video games."

"I understand the situation now." After Wu Tian organized his thoughts, he walked in front of Zhao Yiming and said, "President Zhao, I'm the one who hired Old Yuan and placed him in charge of the game development section. If there's anything you have a problem with, then you should be going past me."

"Boss Wu, you came at the right time." Zhao Yiming shook his collar. He arrogantly said: "According to our prior agreement, if the Zhou Cheng Mobile Game ends up earning less than thirty million yuan in half a month, Boss Wu would lose the authority to manage the company. Today was just half a month ago, this is our agreement."

After saying that, Zhao Yiming put out the contract, possibly worried that Wu Tian would go back on his word.

"Right, if you hadn't said it, I would have forgotten."

Wu Tian smacked his forehead and asked Zhao Yiming with a smile: "If the profits gained from Zhou Cheng Mobile Game reaches thirty million yuan, President Zhao will lose the right to manage the company, right?"

"Of course."

"Alright then." Wu Tian turned to Zhou Cheng and asked: "Xiao Zhou, how much profit has the game made so far?"

"The net profit from the game is two million yuan."

"Not bad." Wu Tian nodded with satisfaction. He was very satisfied with this income.

Just based on the amount of income he received, he already had two million yuan. Adding to the new contract he had signed today, his total profit had exceeded fifty million yuan.

Zhao Yiming, who was at the side, could not help but remind him: "Boss Wu, the game had only made a profit of two million yuan, far from the original thirty million that we agreed upon."

Zhao Yiming crossed his arms as if he was waiting to see a good show, wanting to see how Wu Tian would try to get out from the dead end this time.

"The total profit of two million yuan, including the revenue from copyright, advertising, and derivatives, already exceeds over fifty million yuan," Wu Tian said with a smile.

"Boss Wu sure knows how to joke around."

Zhao Yiming smiled contemptuously and said sarcastically, "These earnings you said are just your beautiful fantasies. They don't even exist."

"Of course they exist."

"Then, where are they?"

"They're right here." Wu Tian took out the contracts and pushed them towards Zhao Yiming's chest, "President Zhao, take a look at these contracts."

"Oh my god!"

Zhao Yiming looked through the contents of the contract and found himself at a loss.

He did not expect the company to sign five contracts related to Zhou Cheng Mobile Game. The total revenue of the contracts was over two hundred million, and the profits were over fifty million.

Even in his dreams, he never would have thought that the profits from a mere mobile game would be even higher than the profits from Tianmu Technology's main source of income for the past half a year.

"President Zhao, what do you think?" Wu Tian took back the contract from Zhao Yiming and asked with a smile.

"I..."

Zhao Yiming's mouth twitched, his old face looking even worse than a pig's liver.

He never thought that the game that he despised, a game that he was against developing, would end up generating so much profit in Wu Tian's hands.

He really couldn't understand how Wu Tian managed to create such a great effect in a mobile game that looked terrible in his eyes.

"President Zhao, according to our previous agreement, you've lost the bet." Wu Tian patted Zhao Yiming's shoulder and said, "From now on, your position in the company

will lose its effectiveness, and you will no longer have any administrative authority in Tianmu Technology."

"..."

Zhao Yiming, feeling his legs go numb, found himself light-headed as he retreated a few steps.

His eyes were now hollow and lifeless as he stared straight ahead.

As one of the founders of Tianmu Technology, he had infiltrated the industry and obtained experience over the past ten years. Thus, he never expected that he would lose to a mere brat in the end.

"But don't you worry, President Zhao. With some of the company shares still in your hands, you can still go home and retire early," Wu Tian said as he clapped his hands together in a 'please' gesture.

"You..."

Zhao Yiming gritted his teeth and left unwillingly.

At this moment, he was like a rooster that had lost its battle, dejected to the point that he no longer have a shred of vitality.

After sending Zhao Yiming off, Wu Tian announced in front of the crowd: "Our Zhou Cheng Mobile Game has achieved great success, signing contracts exceeding two hundred million yuan."

"Let's go!"

After saying this, the office erupted in excitement.

All the staff could not help but cheer out loud. Feeling as if they had won a war, their morale soared extremely high.

"The success of the mobile game over the past six months cannot be achieved without the hard work of every single one of our staff. I will give out bonuses to every single one of you, in addition to your monthly wages!" Wu Tian announced again.

After hearing this, the employees once again rejoiced.

Everyone in this world works hard to make money. Giving your employees a bonus from working hard is the most practical way of rewarding them for their hard work as it will also boost their morale.

"Furthermore, from today onwards, Zhao Yiming will no longer be the vice president. At the same time, the company will be establishing a game department, with Yuan Wangchun as the department manager and Zhou Cheng as technical advisor," Wu Tian declared, bringing this matter to fruition.

Applause resounded through the air.

The office then burst into celebration.

Wu Tian clapped his hands together, signalling for everyone to quiet down. With that, he continued: "In order to celebrate the achievement of Zhou Cheng Mobile Game, I hereby invite everyone to gather at a restaurant outside for a meal."

"Alright!"

The staff cheered in unison.

Following that, Wu Tian announced that work would end early today since he is going to bring everyone out to a hotel for a dinner celebration.

Not only did Zhou Cheng Mobile Game achieve its initial success, but even the old-fashioned Zhao Yiming was now squeezed out of the company and lost the right to manage its administration.

At this point, all the authority of the company was now in the grasps of Wu Tian and Lee Mu, making it more convenient for them to further develop Tian Mu Technology in the long run.

Hidden Billionaire Chapter 73 - New Program -

C73 New Program

Under Wu Tian's leadership, the group arrived at the four-star hotel near the company. After ordering the food, they started drinking and chatting.

Lee Mu let everyone speak freely and put forward any opinions and suggestions they have for the company. If they had any good ideas for earning money, they can express their thoughts in open.

Putting aside the fact that everyone was usually a technical person during person, after drinking a few glasses of wine, the atmosphere was quickly ignited. Even the employees who rarely spoke were also speaking frankly with each other.

Everyone expressed their own ideas about the future development of the company.

Unlike the other employees, Wu Tian remained silent the entire time, listening to the thoughts and opinions of his employees. With their suggestions in mind, he secretly organized the ideal layout of the company in the future.

After hearing enough of the staff's opinions, Lee Mu tried to ask Wu Tian: "Boss Wu, what do you think?"

"The suggestions given by everyone were quite reasonable." Wu Tian glanced at everyone and said in a serious tone: "However, our main business will remain the same, with the development of mobile software as our main priority and the development of mobile games as our breakthrough point.

"I agree with Boss Wu's suggestion." Lee Mu nodded his head in agreement and continued: "This time, under Boss Wu's great leadership, the Zhou Cheng Mobile Game had achieved excellent results. Boss Wu has indeed done an amazing job leading us!"

"The success of the Zhou Cheng Mobile Game was not due to any single person's contribution, but the result of everyone's unity and hard work." Wu Tian changed his tone slightly as he said, "Despite that, we can't always just be proud of this one result. There will still be many more challenges ahead of us!"

"Well said!"

Lee Mu led the applause.

The other staff also applauded.

Wu Tian waved his hand to stop the cheers as he smiled and said, "Don't be so serious when coming out for dinner today. Eat and drink to your heart's content, everyone."

After saying that, Wu Tian grabbed the glass of wine on the table and started a toast.

The other employees all raised their glasses of wine and finished it in a single gulp.

Soon, the waiter brought the dishes to the table.

Everyone picked up their chopsticks and enjoyed the delicacies to their heart's content. Drinking and chatting to their utmost satisfaction, the atmosphere in the private room had become exciting yet peaceful.

After finishing two glasses of wine, Wu Tian smiled and said to Lee Mu: "Now that we managed to create a popular game, I think we should keep the momentum growing and continue developing this kind of mobile games."

"I think so too," Lee Mu nodded in agreement.

Ever since this mobile game led by Wu Tian went viral, Lee Mu trusted Boss Wu and supported him even more than before.

"When I was playing the game before, I found that there were a lot of rich people who were willing to spend money on it," Wu Tian rubbed his chin and said expressionlessly. "I want to design a game specifically for these whales."

"Good idea."

"It's easy to earn money from these whales. As long as our game manages to grab their attention, we will be able to find a way to further motivate them to spend more money on our game."

"I do have an idea," Zhou Cheng, who was sitting on the side, couldn't help but blurt out. "When I was in university, I happened to have developed a game that targeted these whales."

"To what extent did you develop the game?"

"I just finished the basic structure of the game."

"Let me see."

"It's currently stored in our company's computer."

"In that case, we should hurry up and finish our meal. Then, we'll head back to the company to check it out," Wu Tian said, proceeding to devour the rest of his food.

After finishing their simple meal, they left the restaurant and rushed back to the company.

Zhou Cheng turned on his computer and found the game that he had previously developed in one of his folders.

The game was only a semi-finished product with a basic structure.

Unexperienced in this aspect of game development at that time, Wu Tian naturally did not understand how to make a game.

After staring at it for a while, he turned to Yuan Wangchun and asked, "Old Yuan, what do you think?"

"No way!"

Yuan Wangchun played the game for a while and then shook his head: "The levels in this game are extremely unreasonable. Furthermore, the graphics are rough and do not match the aesthetic you were going for.

"Hehe!"

Zhou Cheng scratched his head and let out an honest smile: "At that time, I was still inexperienced and had limited funds. Thus I ended creating this mess of a game."

"However, your way of thinking was not bad. We can use the foundation of your game and reconstruct it to an actual game," Yuan Wangchun added.

"Alright then. Old Yuan, Xiao Zhou, work overtime tonight and try to create a basic structure for the game," Wu Tian said. "The main goal for our next game is very simple: finding a way to satisfy the vanity and desires of a tycoon."

"Alright, let's work on it now.

Zhou Cheng and Yuan Wangchun did as they were told and immediately began to work on the game engine and basic structure of the game.

Now all they had to do is to make improvements to Zhou Cheng's previous mobile game while working on the new project at the same time.

With some many matters at hand, Wu Tian and Lee Mu didn't leave. Instead, they stayed in the office with the two of them and even made coffee for the two of them.

After repeated modifications, they worked until the midnight before they finished writing the code and creating a basic model for the animation.

Yuan Wangchun and Zhou Cheng had one thing in common: the pursuit for absolute perfection.

Relatively speaking, Zhou Cheng possessed a more solid foundation in his programming skills. Yuan Wangchun, on the other hand, had better leadership skills and could grasp what sort of direction they should head into next.

With their two skills combined, they made for an absolute beast of a duo.

"How did it go?" Seeing the two of them stop working, Wu Tian hurried forward to ask them about the situation.

"Now that I have completed the basic models for the game, the user interface and sound in the game will be the next," Zhou Cheng explained.

"How long will it take?"

"That's hard to say. It will take at least a week."

"Alright, I'll leave this game to you." Wu Tian put his arm around Yuan Wangchun and Zhou Cheng's shoulders and encouraged them, "This is the first project of the official game department. We must make a name for ourselves in the new department."

"Don't worry, we will definitely live up to everyone's expectations."

"It's getting late, I'll get my driver to drive you guys home." Wu Tian quickly took out his phone and dialed Uncle Fugui's number.

After sending Zhou Cheng and Yuan Wangchun back, Wu Tian was the last to leave the company.

The night passed in silence.

The next day.

After Wu Tian woke up, he first went to the company to inquire more information about the development of the new game.

Knowing that everything was going smoothly and according to plan made him feel much more at ease.

After that, he went to school to attend his classes. After Teacher Mu's lesson and a few compulsory courses, Wu Tian prepared himself to leave.

When he was passing by the Martial Arts Club, he suddenly thought of Gu Xiaoman. A few days ago, she had invited him to help the Martial Arts Club.

Thinking about it, Gu Xiaoman had been good to him in the past, so he decided to enter Martial Arts Club to see what the situation was like.

The Martial Arts Club could be considered a large-scale club in the university. Although there were over sixty members in the club, most of them practiced martial arts that did not have any practical uses, most of it only for show. Therefore, they weren't many members with actual strength.

The moment Wu Tian walked into the Martial Arts Club, he was immediately surrounded by a group of members who began mocking him.

The other members would always look for newbies and weaklings to bully in the club. Wu Tian just so happened to be that perfect target.

In the eyes of the other members of the Martial Arts Club, Wu Tian seemed like trash. In the past, his body was so weak and powerless, to the point where he couldn't even defeat the female members of the club.

"Wu Tian, you finally came."

Just when Wu Tian was about to be ridiculed by the members of the club, Gu Xiaoman ran over hurriedly and said happily, "I thought you weren't going to come anymore!"

"I just happened to have some time today, so I came over to take a look." Seeing her here, Wu Tian's mood improved a lot.

If it wasn't for the fact that the kind Gu Xiaoman was in the Martial Arts Club, he would not have come to this kind of crappy place in the first place.

With a single glance at the Martial Arts Club, one could tell that it did not have the slightest atmosphere of an actual student association, making people feel a sense of discomfort with some sort of miasma lingering through the air.
