

Hidden Billionaire Chapter 756 - Covert Operation

C756 Covert Operation

When they saw him mention this matter, some people immediately felt that it was a bit impractical.

Wu Tian's mood immediately sunk.

"Don't be afraid. They are powerful, but we are not bad either."

"Do you really think our company will be like this from now on? Why not go and confront the larger organizations?" Wu Tian's attitude suddenly became stern.

He noticed that the company's situation was not as he had imagined. These people were not always filled with motivation.

They felt that Wu Tian's idea was a bit unrealistic, even bullsh * t.

When they heard about such a huge organization, they started to get scared.

To be honest, Wu Tian's mood immediately turned bad. What were they doing? He had been working so hard outside for so long just for the sake of the company's development, but his subordinates were all frightened like this.

Could it be that they did not know who caused the current Shuangxing Company company to be in a state of almost half crippled, and who caused the current financial crisis in Korea Nation?

Noticing that there was something wrong with Wu Tian's mood, Yu Naixin rushed out to help him.

"That President Wu, you should go take a rest first. I'll talk to them about the rest. Azure Dragon is waiting to report to you."

Wu Tian also felt that if he didn't leave, he would explode on the spot, so he decided to stay away from these people.

As for what Yu Naixin would say, Wu Tian didn't care. He had already made up his mind. Wu Group company did not need people without ambition and vitality.

Azure Dragon had been waiting for a while in a resting room on the side.

When he saw Wu Tian, he was immediately filled with excitement.

"President Wu, you're finally back!"

Wu Tian finally smiled at Azure Dragon and asked him to sit down.

"How's the situation?"

"How should I put it, the Red Power has always been very stable recently. Liu Zhendong has already become the Acting Head of the Red Power."

This plan, which Azure Dragon and Wu Tian had already made, was finally completed.

Wu Tian nodded his head in satisfaction. Since he had controlled the Red Power, the S City should be more stable now.

They could easily start a big business.

"That guy is still quite honest right now. You have to pay more attention to him. That Liu Zhendong is a cunning person, he might dig a hole for us some time." Wu Tian could be considered quite accurate with regards to people. He clearly remembered how they threatened Liu Zhendong back then.

Using violence and oppression to make him yield was impossible to make Liu Zhendong full of loyalty, so from beginning to end, he was just a pawn of Wu Tian.

Of course, Azure Dragon was clear about this. It could be said that his main task was to do this, investigate what Liu Zhendong did, and then watch out to see if he would do something evil.

"Don't worry, I'll definitely be careful. As long as there's anything wrong with him, he'll immediately ..." Azure Dragon gestured horizontally at his neck with his finger.

Wu Tian then nodded and the two of them said something else. However, at this moment, Azure Dragon's phone suddenly rang.

"It's Liu Zhendong." Azure Dragon looked at Wu Tian with a strange expression. He didn't know why this guy suddenly called him.

"Answer it. Let's see what he actually wants." Wu Tian nodded to Azure Dragon and signaled for him to pick up the phone.

"Hey, what are you doing?" Usually when Azure Dragon spoke, his tone was indifferent. Only when he was with Wu Tian or an acquaintance would he feel better.

"Brother Long, something bad happened! Our Red Power's boss Liang Zhenhai is back!" Liu Zhendong's tone was flustered and anxious, it did not seem like he was joking.

Azure Dragon said snappily: "Don't you have any ability at all to be this agent? Don't you know who's the boss now? So what if he's back? His S City has changed a long time ago. "

For an underground organization like this which had not been under management for such a long period of time, the people under their command had long since turned traitor.

Liu Zhendong didn't feel relieved just because of what Azure Dragon said.

"That's not it. Brother Long, you're not clear about that. Right now, everyone in the Red Power is saying that they want me to step down and let Liang Zhenhua be the boss again."

This was the reason why Liu Zhendong was in such a hurry this time. It seemed like he was going to be kicked out of the leadership position.

This guy should have been the boss for only a short period of time, yet he ended up like this. Speaking of which, it was really bad luck.

If this Liang Zhenhai had come back earlier, Wu Tian might have been able to deal with him.

"Steady for now and check the situation first. I need to hurry up and think of a way." Azure Dragon hurriedly hung up the phone. He was also a bit worried.

"This is not going to be easy. This Liang Zhenhai has a very high reputation in the Red Power. If we want to take him down while he's here, I'm afraid it won't be that easy."

People at this level usually had both manpower and money, with almost no weaknesses.

"It's Liang Zhenhai. Don't worry, let's see what kind of character this guy is. Go and arrange it so Liu Zhendong can bring us in. I want to know who this Liang Zhenhai is."

This idea was pretty much bold. The moment Wu Tian suggested this idea, Azure Dragon wanted to reject it immediately.

This was too risky.

"This won't do, it's too dangerous. If we were to be discovered by them, our lives would be gone."

Azure Dragon wasn't afraid of death, he was really afraid that Wu Tian would get into trouble again.

Wu Tian chuckled and took out the mask Su Wenxin gave him from his pocket.

"They definitely won't be able to recognize me with this. What's more, they don't recognize me."

Seeing Wu Tian's insistence, Azure Dragon had no other choice but to agree and quickly arrange the infiltration operation.

How could a normal quest be more interesting than this?

This was much more exciting. Although Wu Tian still hadn't moved, his body was starting to get excited and his heart was beating fast.

When no one was paying attention, the two of them put on makeup and changed. Without anyone noticing, they quietly left the Wu Group Building.
