

Hidden Billionaire Chapter 762 - Information

C762 Information

But how could this happen?

Wu Tian couldn't figure out what Yin Rumeng had done to get to this point.

She was clearly just an ordinary woman. She was powerless, and didn't know any special protection skills.

Even if she fought, she would only slap others in the face.

Azure Dragon said he could understand Wu Tian's feelings because he had the same idea as Wu Tian at the beginning.

They couldn't understand it at all.

It was only when they found out that this matter was true that they were so shocked that their jaws almost fell off.

"Tell me exactly what happened." Wu Tian couldn't wait to know the truth.

Azure Dragon swallowed his saliva. They had really underestimated Yin Rumeng's ability.

Although she was a woman, this was also the reason for her successful ascension.

Even though Liu Zhendong had died, his unexplained death caused a huge uproar within the Red Power.

Many people felt that Liu Zhendong might not be able to convince everyone, but at least he was an old official.

Everyone rather approved of him.

The higher-ups were competing for power, which meant nothing to the subordinates below.

Liu Zhendong was someone who treated his own people very well, so when they heard his news, many people in Red Power were filled with righteous indignation.

Many people felt that there must be something behind this matter. However, no one dared to openly question it at this moment.

This was because Liang Zhenhai's authority was unquestionable.

Until now, Yin Rumeng had found some of Liu Zhendong's brothers and told them that she planned to inherit Liu Zhendong's will and lead her brothers.

These words were like a plague that quickly spread through the crowd.

It was unknown who started shouting for Yin Rumeng to become the hall master, but this slogan instantly got a response from everyone.

A petition was delivered into Liang Zhenhai's hands. Even if it was him, he could not ignore the wish and request of hundreds, or even thousands of people.

In the end, he could only agree to this matter.

After knowing everything, Wu Tian let out a long sigh.

It was true that one could not judge a book by its cover, and could not judge a book by its cover.

If Yin Rumeng never dared to take this step, no one would ever know whether she would succeed or not.

But she did it.

When Wu Tian thought of her back again, he realized that Yin Rumeng was no longer that petite girl. Instead, she was as tall as a real man.

Gentle, but powerful.

Very soon, Yin Rumeng's words came, she planned to meet Wu Tian and Azure Dragon.

The two people who were originally worrying about how they could infiltrate into the Red Power naturally quickly agreed.

They met in a coffee shop.

Although Yin Rumeng had become the leader of Red Power, she didn't dress up like a delinquent, and still had a look of a normal family.

"Ah, you're here, Hall Master Yin. We really underestimated you back then."

Wu Tian quickly stood up to show his respect.

Wu Tian admired such a person a lot.

"Just mock me. President Wu, Brother Long, quickly take a seat. How would I dare if you don't?"

Compared to the past, Yin Rumeng was much more confident and her speech was also more mature.

However, the moment she opened her mouth, Wu Tian knew that Yin Rumeng was on their side.

This made Wu Tian feel a lot more relieved.

"Everything that you have now has been earned by yourself. I truly admire it. If it were me, I might not necessarily be able to have your kind of courage." Wu Tian spoke out his thoughts and his admiration for Yin Rumeng.

Yin Rumeng hadn't expected the two of them to change so much.

"President Wu, don't say that, you're too polite."

Yin Rumeng lowered her head politely. She looked around cautiously, confirming that there were people inside and outside the coffee shop. Then, she started to speak in a low voice.

"Recently, Liang Zhenhai seemed to have something big going on as he gathered all of us hall masters. It seems that someone wants to come to S City and wants us to send some people to harass you."

Hearing this information, Wu Tian and Azure Dragon looked at each other and decided that this matter was not fake.

Ever since Su Wenxin incident, the Red Power had not moved much, which did not mean that they would not have any thoughts anymore.

It was that they were about to have new methods.

"Wait, you mean, they got help?"

Wu Tian listened very carefully. He immediately felt that this time, there was going to be a big crisis waiting for Wu Tian.

"He didn't tell us the specifics. He just told us to divert your attention and let you guys be exhausted."

This was probably all Yin Rumeng knew. No matter how much information she had, it wasn't that she didn't want to know, or that she didn't have the ability to do so.

However, Liang Zhenhai, this sly old fox, would never leak out any information.

"I know, we will think of a way. If he wants you to do this, then go to the factory in the north of the city and destroy it. There aren't many people left there anymore, I'll come back tomorrow, you guys can go destroy that place tomorrow night."

Wu Tian had already started to think of ways to nurture Yin Rumeng. In Red Power, she would also need some results. As for how this result would come out, that would depend on what price she was willing to pay within the next five days.

"Is that really possible?" Yin Rumeng said in surprise. She did not expect Wu Tian to give such generous conditions.

He really was worthy of being the person she had always been determined to follow. He truly was capable.

"Just let us know as soon as possible if there's any information behind us. You must be careful."

Wu Tian saw that it was getting late and decided to leave.

After returning to the company, Wu Tian was still a bit worried. He couldn't tell if it was because of Red Power or not.

In the past, he had never hesitated like this before, but this time, Wu Tian was too careful.

"President Wu, something terrible has happened."

Loong Yun ran over with a panicked expression. It seemed like she was in a hurry for something.

"What's wrong?"

"S City and many places in Jiangnan are no longer cooperating with our company. Some people even said that all members of the merchant guilds are not allowed to interact with Wu Group companies."

As expected, it was finally time. Chang Zairong finally took the initiative to attack.
