

Hidden Billionaire Chapter 778 - It's too Early to Give up

C778 It's too Early to Give up

Wu Zhi looked at Wu Tian and smiled kindly.

He stretched out his hand to touch his grandson, unwilling to part with him.

"Foolish child, you are still young, what are you talking about? Let an old man like me end this matter. You can lead a better future for your Wu Family, I believe in you on this point."

With that, Wu Zhi walked towards Wu Yingqiu.

Tears fell down from Wu Tian's eyes as he rushed forward to stop Wu Zhi.

Even if he knocked out his own grandfather, he would never let him go to the other side.

"Uncle Zheng."

Wu Yingqiu obviously knew what Wu Tian was going to do. The moment she said that, Zheng Taiwen immediately took action.

His speed was very fast. In the blink of an eye, he arrived beside Wu Tian and punched him.

Wu Tian's entire focus was on his grandpa. This punch landed on his body without any warning, and he was sent flying, crashing into the soil not far behind him.

Wu Zhi didn't turn around to look, but he continued to walk towards him step by step.

He was not afraid at all. He had no other expression, just a calm expression.

Wu Yingqiu looked at the person she hated to the bones and suddenly felt a mess in her heart, making her anxious.

"I won't let you die immediately. I promise you, I won't take the lives of Wu Tian's people. But for the rest, I can't promise. I will let you live to see those people die one by one in front of you. " When Wu Yingqiu said this, her eyes were bloodshot.

It was a genuine desire for revenge and slaughter.

Wu Tian watched Wu Zhi being led away by Wu Yingqiu, but he couldn't even stand up. He could only scream on the ground, tears and sweat running down his face. For the first time, Wu Tian felt powerless.

He had worked so hard for so long, yet in front of others, he was just a little bug that he could crush at will.

Normally, he looked very powerful, but when Zheng Taiwen got his hands on him, he couldn't even make a move.

Moreover, when he thought of Wu Zhi, Wu Tian's emotions started to get out of control.

"Lad, are you alright?" A voice sounded beside Wu Tian. When the villagers heard the commotion over here, they thought it was some kind of car accident, so they rushed over to check.

When they arrived, they rescued a girl from the car, as well as Wu Tian, who was lying on the ground.

"Isn't that the Long family's girl? Quick, send her to the Long family!" A sharp-eyed villager recognized Loong Yun and quickly shouted. Everyone carried the two of them back.

Fortunately, they were not far from the village. Loong Zaian never thought that his daughter would be injured like this in the middle of the night.

As his father, he still needed to treat her urgently. This feeling made Loong Zaian extremely sad, he could even feel like crying as he treated her.

On Wu Tian's side, the situation was much better. He did not suffer any serious injuries, but his condition was also the worst.

"Wu Tian, just what happened ..." Loong Zaian felt that there must be something wrong. Usually, no one in this village would dare to come here and cause trouble.

Because the Long family had a very special position in the martial arts world, they were an existence that was under the protection of everyone.

But this time, Wu Tian and Loong Yun were injured to such an extent, and the enemy had taken Wu Zhi away. Once this news was spread, the Long Family and the other major forces in the martial arts world would no longer have any face.

Wu Tian muttered a few sentences and then said nothing. He suddenly sat up, which nearly scared Loong Zaian out of his wits.

"I'm going to fetch my grandfather!" As Wu Tian said this, he was about to run out of the yard, but a few of them rushed up to push the impulsive young lad back down.

"What's the use of you going now. That person with the Tianying Sect is powerful, not to mention he's a protector from left and right. Right now, the most important thing to do is

to quickly contact the forces that you can contact and the helpers, and think of a way to increase your strength."

Loong Zaian still understood what was going on. Even though he was a doctor, he had a sharp eye for things.

"I'll think of something for your grandfather." After saying that, he got himself a Chasing down order. He wanted all the sects and organisations that had been in contact with Loong Zaian to send out some of their own power to chase down the two protectors from Tianying Sect.

Don't underestimate Loong Zaian's power. Although he doesn't know how to use force, his medical skills are something the entire China relies on. If anything were to happen to him, it would be the loss of almost everyone in the China.

Therefore, the various sects all expressed their intentions to protect Loong Zaian. This time, it was time for them to fulfill their promise.

It had only been ten minutes or so since news had spread in the martial arts world. In the middle of the night, almost everyone in the country had received an attack order.

Many of them moved quickly, and at this moment, they were already starting to move.

Seeing this, Wu Tian couldn't help but feel a bit sad.

If he had had such methods himself, perhaps his grandfather wouldn't have encountered such a situation.

"I've already notified the Wu Group company for you. They said that they would send someone over very soon, so just wait a little longer."

Loong Zaian brought Wu Tian a cup of hot water, hoping he would give him a little boost.

Things had only just begun. If Wu Tian started to give up just like that, then there would be no hope.

"Thank you Uncle Long, how is Loong Yun?"

Wu Tian quickly thanked her. At this moment, he remembered that Loong Yun was also injured, so he didn't know how she was right now.

"Even if I die, I won't die. It's just that if I get hit in the head, it might have a lot of effect." When Loong Zaian talked about his precious daughter, his mood immediately turned gloomy.

However, when he thought about how he was still in front of Wu Tian, he quickly smiled.

"What am I doing? I am her father, how can I have such a pessimistic mood? I must give her confidence in the future."

Hidden Billionaire Chapter 779 - Pursuit

C779 Pursuit

When Su Cancan and co. arrived, Wu Tian was almost unable to hold himself back.

Of course, he knew it was meaningless for him to rush out. However, doing nothing in this place was even more difficult for Wu Tian to accept.

"When are we leaving?" Wu Tian couldn't help but go over to ask when he saw Su Cancan and the others were learning about the investigation.

"Why are you in such a hurry? We will catch up immediately. You should rest here. If anything happens, we will inform you immediately." Su Cancan did not plan to bring Wu Tian along. Wu Tian's injuries had not fully healed yet, so he could only drag them down.

"No, that's my grandfather. I must go save him." Wu Tian's tone was unquestionable. Those wounds were only external wounds and did not seriously affect his movements.

Su Cancan originally wanted to stop Wu Tian, but looking at the expression in Wu Tian's eyes, she knew that he wasn't joking.

"You have to think this through clearly. There might not be any results from this trip." Furthermore, I don't know what will happen. "

This was a warning, and a warning to Wu Tian.

"I'm not even afraid of losing my life, what's there to be afraid of?" Wu Tian's eyes were only filled with hatred and anxiety.

At this time, Loong Zaian had already bandaged Wu Tian's wound and even used some medicine to relieve the pain.

That way, no matter what Wu Tian did, he wouldn't be affected too much by his old injuries.

"Then let's go." Su Cancan waved at Wu Tian. They had two cars in total, both of them belonging to the Security Team.

Actually, they were still Su Cancan and a few of her senior brothers from the same sect.

Increasing the combat strength of this Security Team at this stage of the battle was not that simple.

The enemies they faced were not ordinary people, so there was no point in recruiting ordinary people.

The car jumped out in the middle of the night like two wild beasts ready to hunt.

Wu Yingqiu and the others were only running in a general direction, so Wu Tian didn't know much about it.

After the villagers brought the two back to the village, no one went to chase after Wu Yingqiu and the others. Therefore, the only clue they had was the car that Zheng Taiwen was driving.

Su Cancan's methods were basically the same. There was a laptop in her lap that seemed to be monitoring something.

Wu Tian saw that she was tapping on the keyboard and soon found out some of the surveillance videos at the village entrance.

Su Cancan found Zheng Taiwen's car very easily. It was a white SUV with a clear license plate number.

There was a road one or two kilometers away from the village that led to Jiangcheng. If there were no accidents, the two of them should have taken this route.

There weren't many forks in the road, so it was a mandatory route.

The two cars that Su Cancan and the others had specifically bought were even modified. On the dirt road in this rural area, they were able to drive steadily and quickly pass by.

Soon, they were on the tarmac. The car moved even faster.

"Everyone be careful, we might find those two at any moment." Su Cancan quickly reminded them. In fact, with the SUV's speed, the fastest they could travel was only 40 to 50 kilometers. With their current speed, they could catch up in less than 10 minutes.

Wu Tian couldn't help but size up the car. He was curious as to how this thing could run so fast.

If he knew that this car was worth only a few million, he probably wouldn't have felt anything was amiss.

A penny divided the goods. This basically summed up the characteristics of one commodity in the world.

Time slowly passed. From the village to Jiang Cheng, it was only about a hundred kilometers.

After such a long journey, they were still unable to find their target.

Wu Tian immediately started to get anxious. He felt that what if they found the wrong place by accident this time?

"Why haven't we caught up yet? They won't even come in this direction."

Hearing Wu Tian's anxious tone, Su Cancan, who initially wanted to ignore Wu Tian, still responded.

"He's not an idiot. He wouldn't be standing there waiting for us. However, we have already arranged for people to stay in the city. Even if they were to come to the Laughing River City, I will definitely discover them. "

As Su Cancan spoke, her hand did not stop moving.

She didn't know how she did it, but she had actually managed to get a footage of the traffic department's cameras.

With this, she would be able to monitor just what cars passed by on this route.

Due to the high level of technology, Wu Tian was looking at Su Cancan gathering a list of license plate numbers, which was the list of all the vehicles that passed the surveillance camera.

The camera will take pictures and identify the license plate of the car.

As long as they could find the license number of Zheng Taiwen's car in the list, it would mean that they were right in the direction they were looking.

"Look for his license plate number. I have other things to do. Really, if only we had the ability to monitor ourselves. "

Su Cancan put the laptop on Wu Tian's side and went to operate the other devices herself.

Their method was already much better than other methods, but their efficiency was still very high. Moreover, it seemed as if they could fail at any time.

Wu Tian remembered this in his heart. He was planning to start a spaceflight company. It seemed that this matter was not without practical applications. If he had done this earlier, with one or two of his satellites, would he be able to locate this car easily?

Wu Tian thought as he looked at the screen. Luckily, there weren't many cars at this time of night. The number he needed to check was only a few hundred.

"They've appeared, they're really in front of us!" Wu Tian finally found the license plate number. He felt relieved and looked forward to what would happen next.

Hidden Billionaire Chapter 780 - Enemy Meeting

C780 Enemy Meeting

Wu Yingqiu sat in the passenger's seat, leaning on her elbows to support her head as she looked out the window.

"What's wrong, didn't you already get what you wanted?"

As Zheng Taiwen said this, he pointed towards Wu Zhi and made a gesture with his mouth.

"It's not the same. I still feel very displeased. I keep feeling that something is off. "At first, I thought that I could become satisfied if I caught Wu Zhi in my hand, but I found that it doesn't seem to be the case."

Wu Yingqiu lamented and turned around to look at Wu Zhi. Old Master was already unconscious on the back seat. This was what Zheng Taiwen had done just in case.

However, the two of them didn't have to worry about safety. Wu Zhi didn't have any combat ability so he wasn't a threat to the two of them.

Wu Yingqiu had initially thought that she was going to destroy Wu Zhi's conviction, seeing him in front of her in despair and agony.

But from the looks of the current situation, it seemed completely different from what he had imagined.

Wu Zhi was too calm, as if this was something he should do.

"Tell me, is he not afraid of death?" Wu Yingqiu felt a little strange. She had killed so many people, but she had never encountered a situation like Wu Zhi's.

It wasn't enough to say that he was generous enough to die, but it should be said that he was trying to get a sense of freedom.

"How can there be someone who isn't afraid of death? Aren't you afraid of death?"

Wu Yingqiu shook her head. "I'm not afraid of death. Sometimes, I want to die faster so that I don't have to continue my life."

"Haha, then why are you still alive, and why have you become the Right Protector?" Zheng Taiwen chuckled on the side. From this perspective, Wu Yingqiu was at odds with herself.

"I want to die, but I want to die after taking revenge. Now is not the time."

That's right, when she said that, Wu Yingqiu suddenly thought of a plan. Wu Zhi felt that he could sacrifice himself to save his grandson, but if this thing was completely different from what he had imagined, then it would be the best revenge he could get.

It was as if a restriction in her mind had been opened. Wu Yingqiu's mind was instantly flooded with ideas.

For example, catching Wu Tian and then killing him in front of Wu Zhi.

Or destroy his Wu Family, or even the Wu Group company. She wanted all the things he had fought for, all the things he had wanted.

This was called revenge. Just killing him was too easy.

"Something doesn't seem right."

Zheng Taiwen heard the roar of the engine behind him, but he couldn't see the lights in the rearview mirror.

"What's wrong? They caught up? "That's great, I can give this Wu Zhi a good thrill now."

Earlier, Wu Yingqiu had promised Wu Zhi that she wouldn't hurt Wu Tian.

But this time, if they took the initiative to chase after her, then Wu Yingqiu was not to be blamed.

"Wake up, it's about time for a good show. You better open your eyes wide for me."

Wu Yingqiu poured a bottle of mineral water on Wu Zhi's face, waking him up.

It was at this moment that the car was rammed from the back and the entire car arched forward.

Zheng Taiwen held the steering wheel tightly, intending to stabilize the car. However, the car was hit on the side, so he almost couldn't control the direction of the car.

"Come on!" Zheng Taiwen wasn't afraid. Instead, he drove his car to get his revenge. However, the force that came from the car told him that the other party was really tough and unyielding, not moving at all.

Wu Yingqiu had already opened the car door and climbed onto the roof.

This time, she could clearly see two people standing on the roof of the carriage.

"Is that her?"

Su Cancan looked at Wu Yingqiu coldly as she asked Wu Tian this question.

Wu Tian didn't say anything, but the killing intent from his body was enough to identify her.

"Isn't this Patriarch Wu? I let you off the hook out of good will, and now you're looking for me again. You're really saving my trouble. What, did you get help this time?"

Wu Yingqiu could feel that Su Cancan wasn't an ordinary person, but neither of them had a particularly strong aura. She was very clear on this point.

In other words, she could still steadily defeat these two.

"Hey, do you need my help?" Zheng Taiwen stuck his head out the window and shouted at Wu Yingqiu as if he was watching a show.

"Just watch and see. Also, let that old man see how I destroyed the thing he treasured the most."

Wu Yingqiu jumped up from the car and landed in front of Wu Tian. Although she was wearing a mask, Wu Tian could still feel the impudent smile on her face.

"Wu Tian, what are you doing here!" Wu Zhi's voice came from the car window and Old Master once again burst into tears.

Although he had already made up his mind, using his own life in exchange for the lives of Wu Tian and the others. But why didn't this kid understand his thoughts?

"I'm already an old man. It's no big deal even if I die. You're still young!" Wu Zhi's voice was like a signal that made Wu Tian extremely angry.

If it wasn't for the person in front of them, they wouldn't have made such a scene.

"Cut the crap, just give me your life." Wu Yingqiu didn't have a weapon in her hand this time, but her close combat was still very powerful. She punched Wu Tian's stomach and with her knee, she easily knocked him down.

The car was still moving, and the battle on the roof was unaffected.

Seeing Wu Tian lying paralyzed on the ground, Wu Yingqiu couldn't help but laugh. Then she stretched out her hand to grab onto his hair, wanting to pick him up.

However, Su Cancan had finally made her move.

She threw out a kick, sealing off Wu Yingqiu's dodging space.

In order to prevent herself from getting hit like that, Wu Yingqiu could only let go of Wu Tian's hair and hide to the side.

She did not hesitate at all. In a one against two battle, she still suffered a loss, so a quick battle was the only choice.

Using her extremely fast speed, Wu Yingqiu was able to entangle herself with Su Cancan.

"I had thought that the helper Wu Tian had hired was very powerful, but it looks like that's all." Wu Yingqiu had not expected Su Cancan to retreat continuously under her attack.

She was now on the edge of the roof, and if she continued to retreat, she would fall.
