C805 Face-to-face Meeting with Factory Director

bamboo pole's face was full of smiles as he looked at Wu Tian. Wu Tian felt goosebumps all over his body.

"Nothing, I was just looking at you like you were worried about something."

He was the CEO of such a large company. Even if there were no tens of thousands of things to worry about, there were at least a thousand.

Wu Tian didn't have anything to say, so he just smiled.

"What? Could it be that you can help me?" Wu Tian smiled and looked at bamboo pole.

"Although I'm just a professor in the chemistry department, I might be of some help to you. I'm not a piece of trash. "

bamboo pole seemed to be quite confident and wasn't ashamed at all.

"It's like this. Our company needs to do some important things to raise our image. Otherwise, the people outside will curse us into a sieve."

Wu Tian, on the other hand, started to look forward to it. He really wanted to see if this guy could come up with anything useful.

"Oh, the company's image. Before, I came into contact with a factory, and now it is on the verge of closing down. If you buy it, it will definitely be useful to you."

bamboo pole really did come up with a plan and explained it clearly.

"Haha, what kind of factory can allow me to turn the tables all of a sudden?"

Wu Group Corporation had already started to divest these industries that were not very high-end. They just wanted to focus all their power in one direction and exert all their strength.

bamboo pole smiled mysteriously. He leaned his head close to Wu Tian and whispered, "It's a military factory!"

Wu Tian was stunned when he heard that. This was simply a fantasy story. What kind of joke was this? Weren't all military factories owned by the country? Putting aside the fact that he couldn't buy it himself, even if he could, what did it have to do with his request?

"No, even if I bought it, what use would it be?"

bamboo pole knew that Wu Tian did not understand and was already prepared to explain.

"Of course it's useful. You are helping the national defense, and all the military factories are for the production of weapons. Also, once you succeed in purchasing them, it means that you have the recognition of the country. With a country to rely on, are you afraid that your public opinion will not be positive enough?"

Wu Tian let out a long sigh as if he was enlightened. He really didn't expect that he could do such a thing.

He turned over his head and thought about it. That seemed to be the case as well. He was already planning to invest in the spaceflight industry, which could be considered as half a step into national defense.

"How is it? Are you satisfied with this method? "

bamboo pole was full of smiles. At this time, Wu Tian didn't seem to find bamboo pole's smile vulgar at all. Instead, his smile was full of deep meaning.

This guy was not simple. He had much more brains than he had imagined. Luckily, he was found by Wu Tian, otherwise, it would really be a waste to be in a place like that.

"I'm satisfied, of course I'm satisfied. We'll do this right now!" Wu Tian was so excited that he didn't even want to eat anymore. He pulled bamboo pole along and was about to go out to negotiate.

"It's already night time. Forget it, I'll take you to try your luck."

bamboo pole originally intended to refuse since it was already so late. However, when he saw Wu Tian's enthusiasm, he couldn't bear to refuse.

The two of them left as soon as they said it. Wu Tian pulled Loong Yun as the driver and drove her to a place in the S City.

This place was a little out of the way, and they had been driving for a long time.

Finally, the car stopped in front of an old looking neighborhood. Next to this place were barbecue stands and quite a few people bare-chested, drinking beer and eating kebabs by the side of the road.

Seeing this scene, Wu Tian couldn't help but reminisce his past.

Truth be told, he had lived in such a place many times in the past. Time had passed and now, he was the boss of a multinational company.

"It's over there. Let's walk over."

bamboo pole pointed to a remote place and told Loong Yun to stop the car.

Wu Tian followed him down, but Loong Yun also wanted to follow him, but was stopped by Wu Tian.

"It's better if you don't go. It's too eye-catching to drive this car over. It's more appropriate for us to keep a low profile."

Furthermore, Loong Yun was wearing an extravagant outfit, so it was obvious that she wasn't an ordinary person. This wasn't necessarily beneficial to their negotiations.

Since Wu Tian had already said so, Loong Yun had nothing else to say.

She could only wait here as he requested.

bamboo pole and Wu Tian strolled along the road. The atmosphere of the market made Wu Tie feel very relaxed.

The pressure on his body was instantly swept away.

"Hey, Superintendent Wang!" bamboo pole looked around for a long time and finally found the person he wanted.

"Isn't this Professor Dong? I haven't seen you for a while. Why are you so thin? Come and have a seat."

An ordinary looking old man of bald head man chatted enthusiastically with bamboo pole, proving that his identity was the factory manager of the military factory that Wu Tian was looking for.

"It's been a while since I've seen you after our last collaboration. How have you been?"

Mr. Wang was very concerned about him. It seemed that the relationship between him and bamboo pole was pretty good.

"Of course I'm not doing very well. Didn't I just find a way out? Let me introduce him. This is my current boss, Wu Tian."

bamboo pole quickly introduced the several people at the table to Wu Tian.

Although Wu Tian looked very young and he was bamboo pole's boss, he always dressed casually and didn't have such a big frame. The few people on the table also got to know each other easily.

Most of the people at that table were the managers of that factory. At this time, almost everyone was there.

"Ai, I heard that your current situation isn't too good?"

bamboo pole started to talk about these things. Everyone at the table looked worried.

"Don't mention it, the country has to carry out this streamlining now. Although our factory has the technology, we are still eliminated."

Speaking of this matter, Mr. Wang felt quite uncomfortable. He had worked in this place for dozens of years.

All of a sudden, the state had them out of the state sector. Suddenly, the entire factory didn't know how to develop.

"Then you didn't find any investments? Or is it a transformation? "

Wu Tian was also curious. In general, military factories have more advanced technology. If the factory is independent, it should be easy for many investors to accept.

Hidden Billionaire Chapter 806 - Buy a Military Factory

C806 Buy a Military Factory

Director Wang sighed. This was clear evidence that they had not done well yet.

I've found it, but now that some of the larger enterprises related to S City have all been bought by Moka Company, no one is willing to accept our factory. There are tens of thousands of people in the factory, and right now, there's no way to even pay them.

That was why they were eating at this table. If they couldn't make it, they would have to disband the factory. Otherwise, Mr. Wang wouldn't know how to transform the factory.

He had never done anything else. If he was allowed to change careers, it would be like bringing all his workers to their deaths.

Wu Tian listened on the side for a while, and at this moment, he finally understood the situation.

"If someone wants to buy it, are you willing to sell it?"

Everyone was shocked by Wu Tian's sudden suggestion. However, their reactions also surprised Wu Tian.

"We are willing, of course we are willing. The country allows us to be incorporated into other enterprises. As long as we carry out inspections on time, everything will be fine."

After all, it was a military factory and the country couldn't let them sell it out so easily. However, the country's restrictions on this area were relatively loose.

"But you are a military factory, can you continue to produce military products?"

This was something that Wu Tian cared a lot about, he was waiting for an answer.

"Of course. This is our lifeline. If the military factories can't produce weapons, then we can't be called military factories. Even though our factories aren't that big, but I'll tell you, we can not only produce tank cannons, we can even produce missile aircraft. there's nothing we can't do. "

This was once the pride of Superintendent Wang, but now he was afraid that no one would invest in them.

It was not that no one had come into contact with this factory before, but the investment of this thing was huge. Just the wages of ten thousand people was already an astronomical figure.

Needless to say, the purchase of raw materials and transportation were all money.

After getting the answer he wanted, Wu Tian was elated. He stood up, picked up the glass of wine in front of him and downed it in one gulp.

"Everyone, I am willing to buy your factory!"

When Wu Tian said this, Mr. Wang didn't react and still sighed.

After a second or two, the person beside him gave him a tug, and only then did Mr. Wang realize what Wu Tian had just said.

"Are you kidding? This sort of thing cannot be randomly said. "

It was not a fun thing to joke about with them.

"What kind of joke is this ..." Of course, Wu Tian had this amount of money. A problem that could be solved with money was not a problem for Wu Tian.

Director Wang still couldn't believe it, so he turned to bamboo pole.

"What he said is true. Let me reintroduce you, this is the chairman of Wu Group, Mr. Wu Tian. "He's also my boss."

bamboo pole didn't forget to emphasize that last sentence.

After hearing what he had said, Mr. Wang gave himself a pinch and realized that his thigh was really hurting.

"Is this true?" Our factory is saved! "

Suddenly, cheers burst out from the table, along with tears from Mr. Wang.

During this period of time, he had been in a hurry because of this matter.

Now that things had progressed, how could he not be excited?

"President Wu, you really are our savior." Mr. Wang was so grateful that he was crying. He picked up his glass and continuously toasted Wu Tian.

Seeing how excited they were, Wu Tian was actually quite touched.

"Speak. If you have any difficulties, then I can help. After all, there are some procedures to purchase the factory. My funds won't come in that easily."

Since Wu Tian wasn't stingy, he decided to help them out after he drank the wine that others had toasted him.

"President Wu, there's nothing else, it's just that we owe the staff a month's salary and haven't paid it off yet. We're just worrying about this right now, so we have to pay 10,000 people. That's not a small amount, a total of 70 million yuan."

Mr. Wang looked worriedly at Wu Tian. This number was not small. The employees had been working for a long time and had received a good salary.

Therefore, just this money alone was enough to make the factory director troubled. Now that there were no more orders, there was no place for them to make money.

"Alright, that's easy!" Without saying anything, Wu Tian took out his cheque book and wrote a string of numbers on it. Then he tore it off and handed it to Mr. Wang.

Mr. Wang took it and took a look. The numbers written on it were one hundred and forty million.

"President Wu, this sum of money... This is too much, this is 140 million! "

"It's not like I don't know how to write. This money is for your wages. Consider it my greeting gift to you. Everyone will get double the salary!"

That's right, this was Wu Tian trying to bribe people's hearts.

It was when the factory was bought that people were most uncertain.

However, if Wu Tian were to give them a cash return like that, it would definitely leave a good impression in their hearts.

As expected, the people who were worried about the purchase had completely changed their minds.

"This... Thank you so much. " Even Director Wang didn't know what to say. How could he find such a boss? It was too good.

"Don't be too happy yet. Let me put it this way first, I will not lose any of you, and even my salary will increase. I won't let you change your careers, but you have to improve your technology."

Wu Tian was worried that his rocket launcher wouldn't be completed that easily. After all, time was a bit tight.

But that backhanded acquisition of a military factory that could make missiles, and that would allow for rockets.

"You should all know, I'm the chairman of Wu Group company, I want to develop high-tech products, since you are manufacturing and developing weapons, then I will give you the highest technology that we have, and produce the most advanced weapons!"

These words were said with great importance, and every single person in the military factory felt very excited upon hearing these words.

This was simply their dream. If their items were so powerful and the army used all the products from their factories, then that would be the greatest affirmation of their work.

Hidden Billionaire Chapter 807 - The Counterattack of the Church of Heaven and England

C807 The Counterattack of the Church of Heaven and England

After returning from the table, Wu Tian's mood could be said to have improved.

He also quickly increased bamboo pole's treatment. The work of the institute was prepared for him to follow through.

This person was definitely good at everything, but Wu Tian felt that bamboo pole liked his original job, which was to conduct scientific research.

Of course, Wu Tian supported his idea.

After sleeping soundly, Wu Tian woke up early in the morning. Just as he was about to hear if there was any good news, he switched on the TV and found that it was all about Wu Group Corporation's criticism ...

Wu Tian was so angry that he quickly turned off the TV again.

In the end, it could only be said that he had chosen to go out for a walk. This Wu Group Building had already been renovated to a new level. He had forcefully built a park inside this skyscraper.

There were many plants growing on this level, and there was even a fake mountain and waterfall, which made it seem quite charming.

Wu Tian decided to relax here. This place would not let him come into contact with those things that annoyed him anymore.

He found a chair and laid down. Soon, a figure appeared behind him.

It was the back of a woman. Behind her were Su Cancan and Loong Yun's father, Loong Yi'an.

Wu Tian noticed their movement and turned around to look curiously. He saw that they seemed to be preparing to remove the gauze on the girl's face.

Looking carefully, how could this woman be any other person? It was clearly the Wu Yingqiu who wanted to kill Wu Tian.

Wu Tian specifically asked Loong Yi'an to be here for the operation, but it turned out to be effective now?

Out of curiosity, Wu Tian quietly went over and intentionally did not disturb them.

Loong Yi'an carefully took off the gauze and handed over a mirror from behind.

"Take a look. Although it isn't perfect yet, don't worry. It will take some time for these organizations to fit your face perfectly. After half a year or so, your bones will be able to fit together quite closely. At that time, your former appearance will be able to be restored. "

Although Wu Tian could only see Wu Yingqiu's back, he couldn't help but admire her from the bottom of his heart.

This Loong Yi'an did have some skills, his ability to treat patients was definitely top-notch.

Wu Tian could still recall what Wu Yingqiu's face looked like. It was a heart-palpitating feeling when he thought about it.

"Doctor, is this true?" Wu Yingqiu looked at herself in the mirror. Her body was trembling with excitement and she almost couldn't hold the mirror in her hands.

Loong Yi'an stroked his beard with a smile and nodded in satisfaction.

"That's for sure, I'll put new gauze on you later. The sewn wound is still relatively conspicuous now, and after a period of time, it'll be even better than it is now. Don't cry, your tears will infect the wound ..."

Loong Yi'an, who was originally a little proud, realized that little girl was about to cry so he quickly brought a tissue to wipe her tears.

Although Su Cancan didn't say anything, she was quite touched.

In order to prevent infection, Loong Yi'an quickly wrapped Wu Yingqiu with new gauze.

"How is it? What's the situation here? "

At this time, Wu Tian also walked out and stopped looking around quietly.

Wu Yingqiu heard Wu Tian's voice and lowered her head, not daring to look at him.

"It's fine, she's pretty obedient now, but don't worry, she's got my control too." On this point, Su Cancan still wouldn't let down her guard.

"As long as you take good care of your illness, you don't have to worry. There will still be punishment for it, and you don't have to thank me either. You are still a member of our Wu Family after all."

When the person talked about Wu Family, Wu Yingqiu's eyes suddenly shined with tears as she raised her head and stared at Wu Tian.

She was in a state of disbelief. She was already in this state, yet she could still be considered a member of the Wu Family.

"Am I really considered to be someone from the Wu Family?"

"Wu Yongan and the others have already been driven out by me. Before this, I didn't know they did so much evil. Don't worry, this won't end. I will definitely get revenge for this."

Wu Tian made a promise to Wu Yingqiu straightforwardly. Ever since he knew about this, he had already planned to do so.

A person like Wu Yongan was truly sinful and evil. Before, he was corrupt and corrupt within the Wu Group, but now he was going against the Wu Group.

However, no matter how hateful he was, he would not live for long.

Wu Tian had long since stopped putting them in his eyes.

In other words, even though Chang Zairong was so much stronger than them, he was still miserably bullied by Wu Tian. Wu Yongan and the others could not create any big waves.

"I really don't know what to say. My life is yours." Although Wu Yingqiu's body was very weak, she insisted on kneeling in front of Wu Tian and kowtowed.

Su Cancan didn't go over to help her up. This was what she should do. She almost killed Wu Tian and now, not only did Wu Tian not kill her, but he was also performing an operation on her. She would never be able to repay such a favor in her entire life.

"Alright, go back and take care of it. I still need your help in dealing with Chang Zairong later on."

Wu Tian waved his hand to let this matter pass. Upon hearing his words, Wu Yingqiu seemed to recall something.

"President Wu, I forgot to mention one thing."

Wu Yingqiu called out to Wu Tian nervously as she blamed herself.

"What's wrong?" Wu Tian felt that something wasn't right from her tone.

"I nearly forgot about this matter. When we left from the Tianying Sect back then, we made a promise that the time would be one month. If it had passed one month, then the Sect Leader of the Tianying Sect would personally come to the S City."

As for what they were doing, Wu Yingqiu didn't need to explain it to them. Wu Tian knew it very well.

Right now, Wu Tian was basically the biggest enemy of Tianying Sect. All the missions that involved Wu Tian had all failed without exception.

"You mean to say, the Sect Leader of the Tianying Sect has already started his preparations to enter the S City?" Su Cancan's expression instantly changed. Just the

protectors of these Tianying Sect alone were already enough to put them in a difficult position. If the Sect Leader were to personally take action ...

Wu Yingqiu swallowed hard.

"We only have about a week left. After a week, the Sect Leader will bring everyone in Tianying Sect to come and seek revenge ..."

Hidden Billionaire Chapter 808 - Breakthrough from Secretary

C808 Breakthrough from Secretary

Wu Tian really felt like he was going to die soon.

Why is it that each of these things is more troublesome than the last?

It wasn't easy for him to think that he had solved the problem of Tianying Sect, but in the end, it seemed like he had stabbed a hornet's nest and lured their boss over.

Su Cancan's frosty expression seemed to be unable to keep it in any longer and she started to get nervous.

"Tell us in detail what is so powerful about this Sect Leader."

Wu Yingqiu shook her head helplessly. This wasn't something that could be solved by her telling them.

"Our sect master is very powerful. However, I have never seen him before. He never shows his face in front of us."

It wasn't that Wu Yingqiu didn't want to say it, but she really didn't know.

"There's still one more week. How about this, we should hurry up and make preparations. If there's really no other way, we should contact the police."

Wu Tian rubbed his temples and was very annoyed.

Chang Zairong still gave him a backup plan.

Since that was the case, he might as well not give Chang Zairong any more time and opportunity.

After leaving this place, Wu Tian quickly called for Tang Yanrou and Guan Ruonan.

It had been a while since the two of them came here, but Wu Tian had been busy lately and didn't have time to take care of them.

It was finally time for the two of them to appear.

Looking at Wu Tian's appearance, the two girls clearly felt that he seemed to be under a lot of pressure.

"President Wu, what's wrong with you?" Guan Ruonan frowned slightly. She knew Wu Tian's character. As long as it wasn't a very troublesome time, he would never show his worries.

"There are a lot of things that have happened recently, let's not talk about this. I have something that is closely related to you guys, so you must be tired of staying here. Don't worry, I'll let you guys have something to do soon."

Wu Tian took out a folder and handed it to Guan Ruonan. She opened it and saw Chang Zairong's personal information.

"This is Chang Zairong's information, it's something that we can find out now, but it's still incomplete, so I don't think it's of much value. Do you have any ways to target this person?"

Ever since Chang Zairong appeared, Wu Tian had always felt that he was going against him. He did not stop at all.

It was as if he was already a thorn in Wu Tian's side. If he didn't get rid of him, there would probably be more trouble waiting for Wu Tian in the future.

"This person does not have any businesses under his banner, but his reputation is exceptionally high, and his connections are extremely wide. This is also the reason why he can become the chief of China, Commerce Chamber Chairman."

Guan Ruonan had always wanted to fight with this person, so she knew the situation better. After all, she was Commerce Chamber Chairman.

"Then what are the weapons that we can use? Since he relies on this, does that mean we can only attack his prestige first?" Wu Tian felt that this kind of person was the most troublesome. He could just resign and leave, but those people would still listen to him because he could control countless companies in the country. His strength was truly great.

"How about we use a beauty?" Tang Yanrou had been listening at the side all this time. Suddenly, she seemed to have thought of something and said this.

Guan Ruonan laughed directly.

"Little Sister Tang is really naive. This kind of person would never tell a woman anything important." Such methods would definitely have no effect on him.

"No, no, you might not know this, but Chang Zairong always had a secretary by his side. I saw them before when they met my dad."

Tang Yanrou's tendencies were obvious. She was obviously planning to start from here.

"Secretary?" Wu Tian smacked his lips. This was a pretty good breakthrough.

"How about this, we might as well investigate this person's background. His secretary definitely isn't that easy to deal with, so it's best to be careful."

Wu Tian nodded slightly. There was no use in talking about this.

After making up his mind, Wu Tian made a call to Wei Jiaming at the scene, asking him to investigate this so-called secretary.

It was convenient for such professionals to do such things. As soon as the matter was explained, Wu Tian only had to wait for a day to get Wei Jiaming's reply.

After getting the news, Wu Tian quickly pulled the two girls out of the door excitedly.

This time, since it was an investigation and he didn't want to be recognized, Wu Tian went to Su Wenxin and asked for another two masks.

Wei Jiaming was already waiting for them inside an unremarkable store.

Seeing that Wu Tian had arrived, he quickly walked over and sat down next to the window, pretending to be strangers.

"How is it?"

Wei Jiaming took out an envelope and poured out a dozen of photos.

"I went to spy on them last night, the secretary you guys are talking about should be him. His name is Zhang Zerui, he's Chang Zairong's old secretary for many years."

Those photos were all of Zhang Zerui, and there were even photos of him near his home.

"Is it him?" Wu Tian looked at Tang Yanrou, who was beside him. This was easily confirmed.

"That's right, that's him."

Since the target had already been set, the rest of the matter was to find a way to deal with this guy and see if he could find any clues about Chang Zairong.

Since he was his personal secretary, he must know a lot of secrets.

"Let's go investigate his house. Perhaps there might be some results. If it doesn't work, then we'll use some methods."

There wasn't much time left and Wu Tian couldn't wait any longer. It would be best if he could finish off Chang Zairong before this Tianying Sect attack.

Without a financial backer, the desire for attack from Tianying Sect should also be greatly reduced.

After all, Wu Tian would be happy to see such a situation if he could avoid a head-on clash.

Under Wei Jiaming's lead, the four of them soon snuck into the vicinity of Zhang Zerui's home. It was said that Zhang Zerui was already over 40 years old, but he had always been single.

This was good as well, saving Wu Tian a lot of trouble. However, this kind of people were usually tenacious. Without the shackles of his family, he could be loyal instead.

After checking the time, this Zhang Zerui will be back soon. Wu Tian packed his stuff and prepared to sneak into his house.

Guan Ruonan and Tang Yanrou wanted to go, but Wu Tian stayed behind to watch the car.
