## C813 Incitement to the Masses

Many of the people in the audience could no longer bear to listen.

Although they had brought the money, they still knew what was right and what was wrong.

Wu Tian argued with Liu Yueyao in such an unreasonable manner. Of course, they knew that it didn't make sense.

It had to be said that such an approach was a bit of a waste.

"Everyone, please be quiet. I'm Officer Cao."

At this moment, a policeman walked up to the stage, picked up Liu Yueyao's megaphone and started shouting at the ground.

Although these grandpas and grandpas said that they were not afraid, if there really was a problem with this matter, then things would become troublesome.

After all, they were not young anymore. If they were really caught in the police station, they would lose a lot of face.

"If you have any legitimate claims, you can protest, but you must first identify yourselves. After we register, you can directly negotiate with us, the project's team."

Officer Cao's face was serious as he looked at the grandpas and grandpas without flinching.

After he said this, the bustle underground immediately disappeared. Even the banners and signs that he was holding started to quietly be put down.

"Everyone, if anyone is willing to talk, you can come out now." Liu Yueyao also started to shout at them, but at this moment, Wu Tian suddenly walked up to them.

Wu Tian's actions instantly heated up the atmosphere in the crowd. Everyone's gaze fell on Wu Tian and started whispering to each other. They didn't know what was going on with this guy.

"In order to earn this little bit of money, isn't he putting in too much effort?"

"That's right, if he were to send himself in, then this young lad's future would be ruined."

"This is not worth it, right ..."

Such voices immediately sounded in the crowd, and many people began to feel pity for Wu Tian.

"All of you, follow me and support me. Otherwise, you won't be paid today. You have to know that if I'm not satisfied, you won't get the money."

This voice made the grandpas and grandpas fall into silence again. Although they didn't want to, they couldn't accept any money since things had turned out like this.

Although they were unwilling, the crowd still burst into an even more fervent voice than before. This commotion even gave Officer Cao a fright.

"You, there's something, I have to tell you, our scene is live video, this is our Wu Group Company's newest technology, it supports our police force. Each of you can recognize the face very clearly. "

Officer Cao had no other choice but to use his trump card.

As if responding to his words, the flashing lights on the stage began to flash.

However, no one expected that not only did the crowd not retreat, they were instead in an even greater mood.

"How can you do that? You must delete the video!"

"No filming allowed!"

The citizens' complaints quickly shifted from the construction of the opposing Flower Island to this matter.

Although the leader of the crowd felt it was a bit strange at this time, he also felt that this was not bad and began to encourage people to continue following them.

"That's right, you have to delete the video. Without our permission, even the police can't casually delete the video! You all can't authenticate us either! "

At this time, Wu Tian had already become the leader of the opinions. He led the people below and started to shout loudly. The situation was getting out of control.

"Big fellow, stop messing around, hurry up and go back ..." Officer Cao didn't think that the words he said to stabilize the situation would cause such a backlash.

"No, you have to delete the video!" Wu Tian was still shouting as he raised his arms. The voices from below were getting louder and louder.

At this moment, Loong Yun had already changed back into her original clothes. She walked to the front of the stage with a serious expression.

Liu Yueyao also did not expect her to appear in such a situation.

"I am the secretary of the chairman of Wu Group company, my name is Loong Yun, our chairman Wu Tian specifically asked me to come here to deal with this after knowing the situation here."

As Loong Yun spoke, a few of them followed behind her.

In their hands was a box. Under Loong Yun's instructions, it was placed at the front of the stage.

"The chairman has said that we are willing to pay a portion of the money to satisfy everyone's demands. After all, we are not very considerate when considering things."

Loong Yun said with an expressionless face. At the same time, the boys opened the box, revealing the wads of money inside. The grandma and grandpa immediately went silent.

The person in charge saw this and immediately realized that things weren't looking good. He quickly said, "Don't be afraid, don't you want today's salary? If you go back on your word, you won't get a single cent today. "

This voice immediately aroused the disgust of many people. However, what this person said was quite lethal to these grandpas and grandpas.

They started to hesitate again, but this hesitation was easily seen by Loong Yun.

"Today, since there are so many people here, we are prepared to give each of them five hundred yuan as a reward. If we are further away from home, we have even prepared a bus to take them there."

Loong Yun had given them a good chance to provoke them, causing the crowd to immediately lose their calm.

The difference between the two sides was too great. They had spent a whole day here, yet they had only gotten two hundred yuan in the end. They still had to be ordered around to take the risk of being taken away by the police.

However, on the other side, the other party's Wu Group was different. Not only did he give them five hundred yuan for free, he even sent them free.

Such a good treatment was simply a gift. If they hadn't come, they didn't know that this Wu Group would actually have such a conscience.

As Loong Yun said this, a lot of people had already begun to waver. They said they were here to collect the money.

Wu Tian smiled at this time. He walked to the front and held down the money box.

"There is one more thing that you have not solved for us. How can we deal with the matter of this video recording of us taking our identities?"

The grandpas and grandpas who had already thought of retreating immediately stopped in their tracks. They couldn't just ignore this matter.

"Of course not, what we are doing is in accordance with the law, and if you are here to collect the money, then you must also count your statuses."

Loong Yun's attitude was very unyielding. She had no intention of retreating.

## **Hidden Billionaire Chapter 814 - Choice**

### **C814 Choice**

The commotion started again, and this time it was so big that even the policemen started to get nervous, afraid that it would turn into a large scale riot.

They focused their attention on Wu Tian and Loong Yun. Their conversation would determine the fate of the following events.

"What exactly are your plans for this matter?" Wu Tian started to press closer towards Loong Yun. He had no intention of backing down at all.

"Still, if you want money, then there is no room for negotiation. If you don't want money and you leave now, we won't be collecting these things. "

This was a choice between two choices. The crowd below also began to feel somewhat conflicted.

On one hand, there was money. On the other hand, there was freedom. These two things were extremely attractive to them.

Whether they refused or agreed, there was a lot of pressure on them.

"How can that be? We have no relationship with this place, so why should we record it?"

Wu Tian said righteously while winking at Loong Yun.

"Not concerned? If it has nothing to do with this, we can delete your video. However, we must ensure that you do not come back here again in a month's time. "

Loong Yun obviously knew what Wu Tian meant and immediately took a small step back. However, it was still the best choice for those who paid to demonstrate their strength.

"I had nothing to do with this place in the first place. If someone hadn't said they would give me money ..." At this moment, Wu Tian acted as if he had left his mouth open and quickly shut it. But of course, the people below knew what Wu Tian was going to say.

They were not people from this place.

At this moment, Officer Cao felt something was wrong and walked up with a serious face.

"What did you just say? Did you get the money? I'm telling you, this is a scam! If so, the penalty shall be one year or more by law. "

Officer Cao's serious expression made everyone present anxious. These grandpas and grandpas were somewhat afraid. They didn't seem to be joking when they heard the officer's words.

"No, no. I was wrong. I wanted to say that I'm willing to accept Secretary Loong's suggestion."

Wu Tian quickly changed his words and didn't dare to say anything else.

Seeing him express his stance, the crowd also followed Wu Tian and said that they were going to leave.

"If you leave, you won't have any money left today!"

The voice was still thinking, but the crowd had already started to slowly disperse.

No one paid any attention to his words.

"Everyone, if you don't mind, we can continue to fulfill our previous promise and give each of you one person to pay five hundred yuan in compensation. Also, it's already so late, everyone should take our cars back."

Loong Yun's words warmed everyone's hearts.

One must know that they were the ones who had agreed to let them leave despite their troubles. How kind of a person was that!

The young man who spoke to Wu Tian before received his five hundred yuan. Seeing Wu Tian standing there with a silly smile, he walked over and patted his shoulder.

"You sure are arrogant. Earning a bit of money, is there really a need to put in so much effort?"

Right now, he thought that Wu Tian took the initiative to go up on stage to confront Liu Yueyao and the others because he wanted to show off in front of the organizers.

Actually, it wasn't like that at all. What Wu Tian thought was very simple, it was just to lead the public opinion.

"Isn't this all for the sake of earning money?"

Wu Tian smiled. Of course, he couldn't tell them the truth.

"I also feel very regretful. Isn't this Wu Group pretty good? I won't earn this kind of black money again in the future. I'm really too black-hearted."

The young man was very emotional. He greeted Wu Tian and followed the crowd.

It hadn't even been half an hour and the thousands of people who had gathered here had already left.

There were only a few gnashing teeth left, yet they were still sulking.

They didn't need to look to know that these people were probably the ones who wanted to cause trouble for them.

He watched them drive off in a rage. Wu Tian squinted his eyes with a smile on his face.

"Send someone to follow them and see where they're headed."

Loong Yun continued, "We've already arranged for this to happen. Should I ask someone to give us their address too?"

"There's no need for that."

Wu Tian waved his hand. Since the situation had come to this, there probably wouldn't be anyone coming to mess things up anymore.

Officer Cao saw Wu Tian and Loong Yun talking and realized that Wu Tian was with them.

He immediately understood what was going on.

"Hello, who are you?" Officer Cao stretched out his hand towards Wu Tian and wanted to shake hands with him.

"I am Wu Tian." Wu Tian had a smile on his face, which made Officer Cao very emotional.

"You guys are really amazing. I was completely fooled by you guys." That being said, it was a good thing that they managed to resolve this serious matter. It was not a good thing for the police to send a letter and they did not need to stay in this place any longer.

"This is just a small use of human nature."

Officer Cao seemed to have thought of something. He took out a recorder and pointed it at Wu Tian.

"Then, are we still investigating this?" This was what Loong Yun recorded when she was in the crowd.

Wu Tian thought about it for a while, then shook his head and refused.

Since the issue had already been resolved, it was better not to give the police any trouble.

"No need, I don't think they'll come back."

Seeing that Wu Tian had refused, Officer Cao smiled and left with his men.

"You really do have a way to get rid of these people with such little money."

Liu Yueyao looked at Wu Tian with praise, but when she remembered that she could not find him, she sighed.

"It's not just a small matter. The demonstrators are easy to deal with, but the people behind them are hard to deal with." Wu Tian looked at the car that had left and started to frown again.

The current situation was not the least bit relaxed.

## **Hidden Billionaire Chapter 815 - Security Team**

### **C815 Security Team**

After returning to the company, Wu Tian didn't dare to relax at all as he was afraid that new trouble would appear out of nowhere.

"President Wu, we've been busy the whole day, you should hurry up and rest."

Loong Yun looked at Wu Tian's tired face and insisted on letting him have a rest.

However, Wu Tian had no intention of doing so. In front of him was the monitoring device that Wu Zaiyao had brought over to monitor public opinion.

This toy had only recently been developed. For some large companies, it was actually very important. This way, they would be able to save a lot of resources for public relations.

"That won't do. Our evaluation on the internet has just gotten a little better."

It had already been quite a few days. Due to the fact that he had handled the issue of the demonstration today, the public opinion had started to develop in a better direction.

However, what could he rely on to maintain this momentum later on?

"By the way, how's the situation with the military factory?"

Wu Tian thought of this matter. Since the acquisition has already been completed, the earlier it is completed, the better.

"Right now, it is already the start of the acquisition process. I estimate that it will take at least one or two days to complete. We haven't released this news to the outside world yet. "

Loong Yun had been following them the entire way. There was no one in the company who knew this better than her.

The amount of money acquired this time was not very big, and Wu Group did not care about this little bit of money. Previously, his income in Korea was enough for him to squander for a period of time.

"Let's do this properly. It's a very good material for us." Wu Tian rubbed his temples. He was using all the resources available to him.

However, the pressure was still too great, causing him to be unable to catch his breath.

"President Wu, I've already told this to Wu Zaiyao. She should start this tomorrow."

"Isn't there any good news? I feel like it's all bad news recently." Wu Tian's face was filled with worry, after that, there was the matter of Tianying Sect, which was also a relatively big problem.

"If you say so, then there really is ..." Loong Yun thought about it seriously for a while, then said as she stared at Wu Tian's face.

Wu Tian did not have any expectations at all and felt that this was just a small matter.

"Director Su's Security Team is starting to accept some veterans, and they even obtained a batch of equipment from the military factory ..."

"How could that be? Aren't we a private business? Those firearms should not be allowed to be used."

The only thing Wu Tian was worried about was that Su Cancan used some illegal means to achieve her own goal. This was the moment when everyone's eyes were focused on Wu Group company, so they couldn't lose big because of small matters.

"They seem to be receiving mainly armor and some ancillary equipment. I heard that it was the military factory that asked them to help test it. "If you want, you can go over now to take a look. They've already converted the roof into a base."

Loong Yun's suggestion was quite interesting. Wu Tian felt that since there was nothing going on right now, he might as well go over and take a look.

He did not expect that even though the purchase was not completed yet, the collaboration between the military factories and them was even more passionate than he had thought. They had already started to communicate with each other down there.

This could be considered a good situation since it would be too late if he waited for Wu Tian to move everything.

Previously, the top floor had still been desolate and devoid of anything. Now, after looking around, one could see that it had already been well repaired.

There was even a helipad with a helicopter. There were a few very small helicopters in the open area beside the helicopter.

It's just that I haven't seen her for a period of time, and this Su Cancan had already caused this Security Team to become like this, which made Wu Tian quite surprised.

If he didn't say it out loud, he felt that it wouldn't be an exaggeration to say that this place was a military base.

"What do you do?" Seeing that Wu Tian and Loong Yun had walked over, it seemed like they were unfamiliar with each other. Two muscular men in camouflage clothes walked over with their arms crossed and stopped in front of Wu Tian.

Seeing that, Loong Yun wanted to say something, but Wu Tian stretched out his hand to stop her.

"Are you two members of Security Team?" Wu Tian looked at the two of them with a smile. No matter what, just looking at their stature made them feel powerful. However, he didn't know if they had the ability or not.

"What does this have to do with you? Hurry up and reveal your identity. You can't enter without your authority."

One of the team members spoke quite politely. He didn't look down on Wu Tian just because his clothes were ordinary, but he said whatever he wanted to say.

"I'm sorry, I can't say this, but I also want to go in and take a look."

Wu Tian was still smiling, but his words made the two Chinese characters feel very unhappy.

"What do you mean? Are you looking down on us? "

Their intentions were very clear. They just didn't take them seriously at all.

"I didn't say that, but if you think so, it can't be wrong."

At this point, Wu Tian didn't answer anymore.

Loong Yun tactfully retreated backwards. She pushed her eyes. She already understood what Wu Tian wanted to do.

The two Security Team practitioners rubbed their fists as they surrounded Wu Tian, one on the left and one on the right.

"Don't blame us for being impolite." With that, one of them punched towards Wu Tian.

Although his speed was fast, Wu Tian's own strength wasn't bad either. He hadn't displayed this set of fist techniques for Alien Fist for a long time.

Wu Tian turned around and dodged the punch, but he grabbed his wrist and tried to twist it.

However, although Wu Tian's movements were clever, another person also attacked at this moment and stopped Wu Tian's movements.

"Good cooperation!" Wu Tian was now a fist expert, but such coordination was also rare. He had no choice but to let go of the wrist of the person he grabbed and quickly dodge backwards.

The two team members also knew that Wu Tian wasn't that easy to bully. He had some skill, so they didn't dare to act rashly.

## **Hidden Billionaire Chapter 816 - Visiting Security Teams**

### **C816 Visiting Security Teams**

The two of them started to change their way of thinking and attacked Wu Tian almost at the same time without any communication.

One on the left and one on the right, the two fists gave Wu Tian nowhere to dodge, so he could only retreat.

This made Wu Tian a little surprised. They actually forced Wu Tian, who had practiced Alien Fist for such a long time, to the point where he couldn't do anything about it.

"Interesting." Wu Tian felt a little bit of pressure and knew that he couldn't hide anymore. If he did that, there would be a problem dealing with the two of them.

Seeing their fists coming straight at him, Wu Tian didn't dodge at all, and just used his own body to ram against them.

The two team members thought that they had succeeded and were immediately overjoyed.

However, he didn't expect that Wu Tian would be fine. It was as if they had hit an iron plate. He even took this opportunity to send a punch over.

This punch directly knocked down one of the members. Before the other person could react, Wu Tian kicked him again and both of them fell to the ground.

"What's going on?"

Some of the other people also heard the commotion and immediately flocked over. In just ten seconds, more than a dozen people had already surrounded Wu Tian.

The two of them were unarmed just now, but these newcomers were completely different. They seemed to be wearing something.

Their knees, elbows, and other joints went all the way to their fists. They were all wrapped up in a metal mechanism, but their movements were extremely light and agile.

Seeing that they were beaten up, everyone immediately set their gazes on Wu Tian. The group of people didn't care about the rules and directly rushed over.

Not only was Wu Tian not afraid, he even took the initiative to greet them. Since they had the new equipment, it was better to test their quality.

One of them jumped up high and aimed his fist at Wu Tian. Seeing that, Wu Tian also waved his fist at him.

The fists of the two collided in midair, and both sides had shocked expressions on their faces.

Wu Tian found that his fists were hurting. The feeling of hitting the metal was naturally not comfortable.

However, the Security Team members who wore these metal exoskeleton were also very surprised. They were very curious as to why Wu Tian was not sent flying with a single hit.

This was somewhat different from their experience.

With a loud sound, the impact of the collision knocked the two away. Wu Tian fell on the ground and retreated, almost unable to stand still.

He was only fighting with a person wearing a exoskeleton. If he fought with so many people at the same time, he would have no chance of winning at all.

"President Wu, are you alright?" Loong Yun hurried over to support Wu Tian and asked in concern.

She looked at Wu Tian's fist which was already a little red at this moment. There was blood seeping out from the joints of his fingers. It seemed like he broke his skin just now.

"It's nothing, it's nothing." This injury was nothing to Wu Tian. What surprised him was that this exoskeleton could actually raise an ordinary person to such a powerful level.

It had to be known that Wu Tian had used up a lot of his energy to cultivate, yet he was barely able to fight to a draw with the other party.

"What's wrong?"

At this moment, a voice came from behind, and the soldiers quickly opened up a path. Wu Tian squinted and realized it was Su Cancan.

Her clothes were pretty much the same as the other team members, but they were more exquisite and small, with a greater emphasis on agility.

"It's me, I'm here to take a look." Wu Tian greeted.

She looked at Wu Tian's sorry state and the situation here. Su Cancan nodded expressionlessly.

"This is our company's President Wu, Wu Tian. He is our boss, the person in charge of Security Team."

The simple introduction made the soldiers a bit nervous, especially the guy who was fighting with Wu Tian.

They weren't afraid at all during the battle, but now that they had this emotion, it seemed somewhat cute.

"We didn't know you were President Wu ... I'm really sorry for what happened just now."  
"

Seeing that his teammates apologized to him, Wu Tian waved his hands and smiled.

"It's okay, you did the right thing. There are a lot of people who are stronger than me, and upon discovering that someone has barged in, I told them not to ask and to just directly ambush us and take them down. With your current equipment, I feel that there shouldn't be a problem if we were to launch a sneak attack. "

Not only was Wu Tian not angry, he even started instigating some underhanded tricks for his team members.

"Alright, you guys go train first."

Seeing the group of people surrounding them, Su Cancan felt that it wasn't a big deal and quickly chased them away.

"Where did you find these people? I think they're quite strong." Wu Tian couldn't help but give a thumbs up. Su Cancan did this kind of thing beautifully.

"They are all newly retired scouts, and this one is recommended to me by Director Wang. So I went to look for them and they are all on the same side. After all, the salary we are offering them is quite high."

Su Cancan spoke very indifferently, as if it was a natural thing to happen.

"Won't it be illegal for us to do that?" Loong Yun was a little worried. These team members looked very professional. Besides the fact that they didn't find any guns, this place looked like a military base.

"Of course it's not illegal. The equipment on us and everything that's being tested here are all recent developments from the military factory. However, we don't have much time left to leave the exam so we can't supply the army right now." Now that we are in charge of the military factory, they immediately started to continue their research. "

After this explanation, Wu Tian finally understood. He seemed to have heard that every country in the world seemed to be researching technology in this area. After all, human abilities were still limited.

However, if one used this kind of exoskeleton, it could easily allow a person to break through their limits.

As for the law, it seemed that the military factory did not provide any illegal weapons, so there was no violation of the law.

"But we can't fight with our fists alone, can we ..." Wu Tian looked for a long time, but didn't see any critical weapons in this base. They can't just use their fists, can they?
