

Hidden Billionaire Chapter 816 - Visiting Security Teams

C816 Visiting Security Teams

The two of them started to change their way of thinking and attacked Wu Tian almost at the same time without any communication.

One on the left and one on the right, the two fists gave Wu Tian nowhere to dodge, so he could only retreat.

This made Wu Tian a little surprised. They actually forced Wu Tian, who had practiced Alien Fist for such a long time, to the point where he couldn't do anything about it.

"Interesting." Wu Tian felt a little bit of pressure and knew that he couldn't hide anymore. If he did that, there would be a problem dealing with the two of them.

Seeing their fists coming straight at him, Wu Tian didn't dodge at all, and just used his own body to ram against them.

The two team members thought that they had succeeded and were immediately overjoyed.

However, he didn't expect that Wu Tian would be fine. It was as if they had hit an iron plate. He even took this opportunity to send a punch over.

This punch directly knocked down one of the members. Before the other person could react, Wu Tian kicked him again and both of them fell to the ground.

"What's going on?"

Some of the other people also heard the commotion and immediately flocked over. In just ten seconds, more than a dozen people had already surrounded Wu Tian.

The two of them were unarmed just now, but these newcomers were completely different. They seemed to be wearing something.

Their knees, elbows, and other joints went all the way to their fists. They were all wrapped up in a metal mechanism, but their movements were extremely light and agile.

Seeing that they were beaten up, everyone immediately set their gazes on Wu Tian. The group of people didn't care about the rules and directly rushed over.

Not only was Wu Tian not afraid, he even took the initiative to greet them. Since they had the new equipment, it was better to test their quality.

One of them jumped up high and aimed his fist at Wu Tian. Seeing that, Wu Tian also waved his fist at him.

The fists of the two collided in midair, and both sides had shocked expressions on their faces.

Wu Tian found that his fists were hurting. The feeling of hitting the metal was naturally not comfortable.

However, the Security Team members who wore these metal exoskeleton were also very surprised. They were very curious as to why Wu Tian was not sent flying with a single hit.

This was somewhat different from their experience.

With a loud sound, the impact of the collision knocked the two away. Wu Tian fell on the ground and retreated, almost unable to stand still.

He was only fighting with a person wearing a exoskeleton. If he fought with so many people at the same time, he would have no chance of winning at all.

"President Wu, are you alright?" Loong Yun hurried over to support Wu Tian and asked in concern.

She looked at Wu Tian's fist which was already a little red at this moment. There was blood seeping out from the joints of his fingers. It seemed like he broke his skin just now.

"It's nothing, it's nothing." This injury was nothing to Wu Tian. What surprised him was that this exoskeleton could actually raise an ordinary person to such a powerful level.

It had to be known that Wu Tian had used up a lot of his energy to cultivate, yet he was barely able to fight to a draw with the other party.

"What's wrong?"

At this moment, a voice came from behind, and the soldiers quickly opened up a path. Wu Tian squinted and realized it was Su Cancan.

Her clothes were pretty much the same as the other team members, but they were more exquisite and small, with a greater emphasis on agility.

"It's me, I'm here to take a look." Wu Tian greeted.

She looked at Wu Tian's sorry state and the situation here. Su Cancan nodded expressionlessly.

"This is our company's President Wu, Wu Tian. He is our boss, the person in charge of Security Team."

The simple introduction made the soldiers a bit nervous, especially the guy who was fighting with Wu Tian.

They weren't afraid at all during the battle, but now that they had this emotion, it seemed somewhat cute.

"We didn't know you were President Wu ... I'm really sorry for what happened just now."
"

Seeing that his teammates apologized to him, Wu Tian waved his hands and smiled.

"It's okay, you did the right thing. There are a lot of people who are stronger than me, and upon discovering that someone has barged in, I told them not to ask and to just directly ambush us and take them down. With your current equipment, I feel that there shouldn't be a problem if we were to launch a sneak attack. "

Not only was Wu Tian not angry, he even started instigating some underhanded tricks for his team members.

"Alright, you guys go train first."

Seeing the group of people surrounding them, Su Cancan felt that it wasn't a big deal and quickly chased them away.

"Where did you find these people? I think they're quite strong." Wu Tian couldn't help but give a thumbs up. Su Cancan did this kind of thing beautifully.

"They are all newly retired scouts, and this one is recommended to me by Director Wang. So I went to look for them and they are all on the same side. After all, the salary we are offering them is quite high."

Su Cancan spoke very indifferently, as if it was a natural thing to happen.

"Won't it be illegal for us to do that?" Loong Yun was a little worried. These team members looked very professional. Besides the fact that they didn't find any guns, this place looked like a military base.

"Of course it's not illegal. The equipment on us and everything that's being tested here are all recent developments from the military factory. However, we don't have much time left to leave the exam so we can't supply the army right now." Now that we are in charge of the military factory, they immediately started to continue their research. "

After this explanation, Wu Tian finally understood. He seemed to have heard that every country in the world seemed to be researching technology in this area. After all, human abilities were still limited.

However, if one used this kind of exoskeleton, it could easily allow a person to break through their limits.

As for the law, it seemed that the military factory did not provide any illegal weapons, so there was no violation of the law.

"But we can't fight with our fists alone, can we ..." Wu Tian looked for a long time, but didn't see any critical weapons in this base. They can't just use their fists, can they?

Hidden Billionaire Chapter 818 - Long Yun's Persistence

C818 Long Yun's Persistence

If it was before, Wu Tian would have agreed to his request.

However, at this time, Wu Tian unexpectedly refused.

This surprised everyone present.

Loong Yun stood on the side with her eyes wide open as she stared at Wu Tian in disbelief.

"Right now, I am dealing with Chang Zairong. Your participation is not necessary for me. So please forgive me for not accepting this reason."

Hearing Wu Tian's words, Chen Cheng could only nod and smile, continuing to eat his noodles.

"If you think that Chang Zairong is so simple, then you're completely wrong."

Chen Cheng ate a lot, then wiped his mouth with his sleeve.

This guy had a mysterious look on his face, which made Wu Tian very unhappy.

"Don't say anymore, let's go. I can pretend that I never saw you before."

Wu Tian stood up and left, no longer looking at Chen Cheng.

Loong Yun quickly caught up with him. She walked closer to Wu Tian.

"President Wu, we should accept him. He will definitely be useful to us."

Wu Tian listened, then suddenly stopped.

"You saw him like that too. Being in such a mess, he must have said whatever he wanted to survive. What if he gave us fake news?" We don't really need his help right now. I think this Chang Zairong will be finished soon. "

The reason why he dared to say that was because he still had Zhang Zerui as his choice. Therefore, to Wu Tian, Chen Cheng was just icing on the cake.

"No, we can't let him go."

Unexpectedly, Loong Yun started to refute Wu Tian, which surprised Wu Tian. He tilted his head and stared at Loong Yun.

He turned around and said word by word, "What if I don't agree?"

"Even if you don't agree, it won't do. This is the best result for us!" Loong Yun's face was still serious, but she did not step back. Her eyes behind her glasses were as resolute as a soldier that was about to enter a battlefield.

This made Wu Tian feel like he was a bad guy, doing something that would let everyone down.

"I am the chairman of Wu Group Corporation! "Everything here has to listen to me!" Wu Tian's voice became cold. It had been so long since he last met anyone who dared to challenge him in this company.

He had never imagined that Loong Yun, whom he trusted so much, would do such a thing.

"Even if you are the chairman, you should know what's the right thing to do. You should know it well. The sooner we kill Chang Zairong, the more power we can have. You should know this very well."

Loong Yun did not retreat at all as she continued to persuade him. She did not intend to give up her persuasion.

"No, I said no means no. If it was anyone else, it could have been them, but it couldn't be Chen Cheng! If not for him, the Wu Family Castle would not have been destroyed, and all of this was because of him! Now you're telling me to take this guy in? "

Wu Tian's anger was not without reason. This was what Old Master Wu Zhi had entrusted to him in his heart, and it was ruined just like that.

Although his grandpa didn't say anything, this matter was deeply rooted in Wu Tian's heart.

Not to mention that Chen Cheng had even recruited Wu Yongan's group. This person was truly guilty of heinous crimes.

If it was possible, Wu Tian really wished that he could kill this guy with his own hands.

Let him take a deep breath.

Loong Yun looked at Wu Tian with anger that was about to reach its peak. At this moment, she knew that it was useless for her to say anything.

"I know what you mean." With that, Loong Yun left without looking back.

Needless to say, she was definitely angry at Wu Tian. However, as a secretary, what she could do was limited.

Wu Tian looked at her figure and kicked the wall beside him. However, he didn't expect it to cause his feet to hurt for a long time.

Wu Tian walked back to his office with a limp. Just as he sat down, he heard a rumbling sound coming from his stomach.

"Loong Yun, arrange something for me to eat ..." When he said this, Wu Tian realized that Loong Yun was not by his side, so he could only call the kitchen by himself.

At this time, Wu Zaibin walked in with a pile of snacks in his arms. This really saved Wu Tian's life.

"You've come too good. Quickly, bring it over."

Wu Tian was overjoyed. At a critical moment, it was indeed more reliable to be a gay man.

Although Wu Zaibin didn't know what was going on with Wu Tian, he still went along with Wu Tian's request and gave him the food.

"President Wu, the matter regarding the island has been settled. The homeland of Korea has already been approved."

"Good, a great merit!" Wu Tian's heart had been gloomy for a long time, but he was finally able to get some sunlight to shine on him.

"Now that the construction team has entered, they are in the process of construction. If nothing goes wrong, a month from now, the simple aerial launch facility should be able to be completed."

Wu Zaibin was quite reliable in this matter, which made Wu Tian very satisfied.

"Erm, Hong Xiangtai and the other technicians, let them contact this Director Wang. I know it's slow to start development from the beginning, so let's just stand on the shoulders of giants."

This was the best idea Wu Tian could come up with right now. Buying a military factory was the right thing to do.

Originally, this military factory could produce missiles and other high-tech weapons. As long as it was modified slightly, it would be a rocket in itself.

Therefore, they did not need to invest too much in the basic mountain. They should be able to produce a good result.

"This is already being prepared. President Wu, they are all experts. Should we change their nationality?"

Wu Zaibin had wanted to say this a long time ago, but he didn't know if it was appropriate for him to say it.

"Change nationality?" Wu Tian really didn't think about this. Honestly speaking, he was also a bit hesitant.

Hong Xiangtai and the others were all people from the Korea, they used to be paid by the country.

Wasn't it a bit bad to have someone change their nationality all of a sudden?

"Let's not take this for now ..." It was the time to hire someone. What if someone was unwilling to change? What would happen then?

Hidden Billionaire Chapter 819 - Routine and Layout

C819 Routine and Layout

However, if these experts of foreign nationality were to master the key technique, wouldn't it mean that Wu Tian and the others' weak points would be fiercely pinched?

That was what Wu Zaibin was worried about.

In the field of aerospace, everything involved was very confidential. It contains a lot of technology.

"It's not that I don't trust these experts, but if they were really taken back by the Korea, wouldn't we be in trouble?"

Wu Zaibin still had this sense of foresight.

Of course, Wu Tian knew what he said was reasonable, but things couldn't be done that easily.

"We can't do anything about this right now. Let's do it like this, let them bring along a bunch of newbies. After that, we'll do research and development on the island, and the main work will be done in our country."

What they were discussing was very reasonable. The only bad thing was that it had nothing to do with them right now.

"Oh right, how is the project on the brainwave game that you started earlier going?"

Wu Tian suddenly thought of this matter and had a lot of time to carry it out.

"It's said that it's almost done, but it's still in the process of being repaired."

Wu Zaibin didn't expect him to ask that at this moment, he thought Wu Tian had already forgotten about it.

"Can we sell it in bulk now?"

Hearing Wu Tian's question, Wu Zaibin was completely dumbfounded.

"About that, our products are still in the development process. If we sell them now, it doesn't seem quite appropriate ..."

"What do you know? We should hurry up and finish the packaging. First, we should get a pre-release version out."

Wu Tian had a naughty smile on his face. He had considered this matter for a long time and there was a way to promote the product, so there were many articles that could be done.

"If we don't get the first editions right, then wouldn't we be scolded to death by others ..."

There were many examples of this, especially since Wu Zaibin himself was a fan of these products. He had basically bought all the related products on the market. Of course, he also knew what their problems were.

Wu Tian stretched out a finger and shook it gently.

"You don't know about this? Let me ask you, how much are the fanhua of Shuangxing Company sold for?"

"This should be close to ten thousand."

Wu Zaibin said this number after thinking for a little. He remembered that it was not wrong, this brainwave game device was not cheap at all. Thus, there was not a large amount of expansion of the China right now.

"That's right, no matter how expensive it is, how could anyone buy it? If our preemptive version could provide a similar experience, but only buy a fraction of their price, what do you think would happen?"

Hearing Wu Tian's words, Wu Zaibin quickly imagined the scene of tens of thousands of people trying to buy it.

"Needless to say, it's definitely for sale!"

"That's right, but we have to be clear on one thing. Everyone bought this thing for the sake of playing. We can't do it without a game, so we have to create a large online game at the same time, along with our products."

The more Wu Tian spoke, the more he went on and on. All of these thoughts caused Wu Zaibin to suddenly have a lot of thoughts, as if he had broken through the Ren and Du Meridians.

"Then I know. Leave this matter to me!"

Wu Zaibin replied and left excitedly.

Just as he finished, his sister walked in. When she came in, she was still wondering why the two of them looked so happy.

"How's the situation with you?"

"I've already sent out the script, but there's still no large-scale news on the internet. There are a lot of people defending this Chang Zairong."

Wu Zaiyao wasn't satisfied with this result, but she didn't have any good ideas.

Wu Tian sighed. It was reasonable that things would turn out like this.

Previously, when the Wu Group company had been riled up so badly, it was actually very difficult to get rid of the influence within a short period of time, not to mention the fact that they were now spreading out Chang Zairong's negative news, which made quite a few people feel that they were purposely trying to confuse the audience.

"Keep sending it. It would be best to find some crucial evidence to back it up." Wu Tian was helpless. He didn't have any trump cards, so he could only say things that he had no way to prove.

However, this wave of public opinion's offensive wasn't completely ineffective. Quite a few people, after seeing these reports, did indeed think that there was a problem with Chang Zairong.

This Commerce Chamber Chairman obviously wasn't like a pot of clear water. How could he be so clean? So naturally, there were some things that no one could see.

"I'll try my best. If this goes on, it won't always be a good choice for us. Public opinion won't always go in the right direction."

Wu Zaiyao was not particularly optimistic about this matter. She had been busy with this all year round, and knew that public opinion was not something that could be easily controlled.

"There will be a way to deal with us later." Wu Tian couldn't give more to Wu Zaiyao now, he could only give her more confidence.

While they were still talking, Guan Ruonan suddenly rushed in nervously. She didn't know what had happened, but she felt as if her soul had left her.

"What's wrong?"

Wu Tian was a bit nervous at first. Honestly speaking, he was also a bit nervous every time he saw someone like that.

"Tang Yan Rou has disappeared!"

"Did she go somewhere to play or go out or something?"

Wu Tian thought it was something, but when he heard that, he immediately let out a sigh of relief.

However, Guan Ruonan didn't stop her panic.

"No, no matter what she did, she would have told me. This time, she just disappeared."

Hearing Guan Ruonan's words, Wu Tian could only smile and stand up.

"How about this, let's go to her room to check if there are any clues left behind."

With that, the two of them hurried over. Tang Yanrou's room was extremely clean and tidy, as if there was nothing between them.

On her table, she could easily see a piece of paper.

Guan Ruonan ran over and picked up the note.

"She went to the China headquarters?"

C820 Deep Tiger Acupoint

If things went on like this, things would start to get a bit out of hand.

Without a second word, Wu Tian called Loong Yun and told her to gather the relevant people.

The Security Team that he had painstakingly built up finally had some use now.

Although it had been a bit awkward previously, Loong Yun still managed to gather Su Cancan and the rest very quickly.

The few of them looked at the slip of paper that Tang Yanrou had left behind with grave expressions on their faces. Everyone frowned.

"Tell me, what should we do now?"

Wu Tian passed the note to everyone and they all felt it was different.

"Is she really sincere about this?"

Loong Yun was the first one to give her opinion. She pushed her eyes and her opinion was basically in line with one of her strict attitudes.

"About this, our building probably doesn't have many people entering, so I don't think the possibility of her being kidnapped is high."

Su Cancan immediately denied this point. She was the head of security, so it could be said that she understood this aspect the best.

"Is there really no problem with that?"

Wu Tian still didn't give up and asked again, but in the end, he got a supercilious look from Su Cancan.

"What do you mean? Let me tell you, right now, not even I or my master would be able to sneak in, much less anyone else. "

For Su Cancan, this was something she could not be doubted.

"Well, we basically ruled that out first, but what else?"

The note said that she was going to the chamber of commerce. Previously, Wu Tian had said that he wouldn't let them go alone.

"Did she think she needed to do something, and then she went herself?" Guan Ruonan looked anxious. She paused for a moment and then mentioned something else, "Previously, didn't she take the initiative to say that she wanted to use a woman's beauty to get close to Chang Zairong?"

Hearing that, Wu Tian frowned even more.

"No, she might really plan to do that. No, we have to hurry over and see if we can rescue her!"

Wu Tian made a prompt decision. He felt that this matter could not be delayed.

"Alright, I'll call a dozen or so people. Let's go to the China headquarters right now."

Su Cancan did not hesitate either. This was probably their first mission as a newly added security guard, and to be honest, she was looking forward to it.

"Remember, this is an investigation, not a sabotage!"

Wu Tian emphasized on that. Of course, if they found something wrong, they would have to use force.

However, they had to try their best not to act like this.

"President Wu, should we bring Chen Cheng?"

Loong Yun said inappropriately when everyone started to make their preparations.

Wu Tian nearly fainted from anger.

He had been angry for a long time because of this incident, but this Loong Yun still hadn't given up.

"You ..."

"I feel that he should be even more clear about the matter of the China Main Chamber of Commerce than us. Bringing him along could also be considered to be an additional assurance for us."

Actually, Loong Yun's words were very reasonable, but Wu Tian wasn't going to listen to her like that.

If he admitted defeat here, then what were those things he had insisted on before?

"This won't do. Besides, I hope you won't mention this person's name in front of me again!"

Wu Tian was very straightforward. He didn't want to waste any more of his breath. After he finished his sentence, he looked at Loong Yun.

"This time, you don't need to go. You don't need to participate."

After saying this, Guan Ruonan and Su Cancan both looked at Wu Tian in surprise.

This scene was truly strange. The two of them actually began to argue.

Loong Yun didn't say anything. She just stepped on her high heels and clattered off. She didn't hesitate at all.

This made Wu Tian even more depressed. With his importance in Loong Yun's heart, he wasn't as important as the correctness of something.

However, the more it was like this, the more unwilling Wu Tian was to compromise. So what, even if this Chen Cheng is very useful, so what, I won't appoint him!

"We're leaving!"

Wu Tian was a little angry, but this was good as well, it gave him quite a bit of motivation.

Since they were arguing, he would work even harder to prove that he had done the right thing!

The caravan, Hao's, set off. The China Board of Commerce was located in a relatively bustling place in the S City, and it was constructed in an extremely luxurious manner.

The people coming and going were all luxurious cars and a bunch of rich people.

Because their goal was a little too big. Therefore, Wu Tian and the rest decided to switch to a few civilian cars on the way and continued to approach the China Chamber of Commerce.

One of the benefits of this place was that they were able to enter at will.

This was because the Chamber of Commerce was a rather casual place. Everyone was free to communicate with other bosses.

Other people would also come to this place to look for their business opportunities.

Therefore, this place had a lot of people, and it was also very chaotic. This provided Wu Tian and the others with a very favorable condition.

This time, other than Wu Tian and the infiltrating team members disguised themselves and came in, there was also Guan Ruonan who walked in openly.

Guan Ruonan was actually considered quite famous within the China Chamber of Commerce. Everyone knew that she had already obtained quite a bit of achievements at such a young age.

Furthermore, the most important thing was that she was very beautiful. Furthermore, she was still single even though she was over 30 years old, so quite a few bosses had a good impression of her.

Of course, this was all rejected by Guan Ruonan.

However, these losers didn't become Guan Ruonan's hindrances. Instead, they became Guan Ruonan's connections.

Only later Guan Ruonan went abroad to develop, so gradually began to fade out of the country.

Now that she had suddenly returned, many people were still surprised.

"Isn't that President Guan?"

Some people saw Guan Ruonan and took the initiative to greet her.

Guan Ruonan began to talk to them, too, looking for Tang Yanrou.

On the other side, Wu Tian and the group also began to disperse to search. Tang Yanrou was not stupid, and she wasn't stupid, so she must be here by now.

The number of floors in this headquarters was not very high, about four or five.

Most of the offices and discussions were on the first and second floors.

As for the higher floors, basically no one had gone up.

Wu Tian kept looking up from one of the stairways. Suddenly, at a corner, he saw a black headband on the ground.

His mood immediately turned serious. Tang Yanrou had always liked to use this kind of headband.
