C833 But the Price Is too High

Inside the room, the water had long since boiled, and streams of white steam whizzed out of the spout of the pot and scattered around the room.

Wu Tian found a seat and gently sat down. His butt was only halfway to the chair.

"Tell me, what do you have in mind?" The old man was looking forward to it. He had been troubled over this matter for a long time and had no way to stop his sect's decline.

If not for him passing the position of Sect Leader to his disciple, he might not even be able to open this martial arts school.

"I don't have a good idea. I'm a businessman, so my thinking on this matter is mostly based on my thinking as a businessman."

When Wu Tian said this, he paused and saw the teapot on the small tea table in front of him. He stood up and brought the kettle over — he poured some boiling water into the teapot.

"It's like this. The biggest difficulty for your sect now is that you have no disciples — there are too few of them. This also caused your sect to not have any money. "Without money, there's no way to attract people to join them."

"This is the truth, but the main problem is, how should this be solved?"

This was like a closed loop, causing the situation to get worse and worse. In fact, it would be easy to solve the problem.

"I really do have some thoughts on this matter." Master, do you know what's the most popular right now? "

The old man shook his head. He was already this old, how could he possibly know these things?

"Now, if there is a good movie, everyone will spread the news and discuss it with each other. Some people will change their minds because of a movie."

"I think I saw a movie a few years ago -- a disc one of my apprentices brought home. He showed it to me. "I don't think there's any meaning to it ..."

The old man remembered that the movie had told a story.

However, most of the movies seemed to have something to do with the secular world, so he was not really interested in them.

"Yes, it's this thing. When I was looking at your Sect Leader just now, Principal Zhao was very powerful, so I thought that if we could use our people to make a movie and perform our real lives, it would definitely be much better than those randomly made movies."

Wu Tian had such a thought for a day or two. Just now, when he saw Principal Zhao's skill, he felt that Principal Zhao was very suitable to make a movie. If he went to make a movie, it would have a pretty good effect.

"What do you think?"

Wu Tian was very confident in this proposal. After all, this was a win-win situation.

On the one hand, movies can help them get their money, and on the other hand, they can publicize their popularity and attract some people to study under them.

"I don't think so!" Although the old man had a happy smile on his face, he rejected Wu Tian's idea with a straight face. Wu Tian was a bit surprised by this turn of events.

"Isn't this great ..."

Wu Tian wanted to quibble a bit more, but looking at Old Master's expression, he still obediently shut his mouth.

"It's pretty good? Do you know why our sects have existed for thousands of years? It's because we maintain our mysteriousness that not everyone can become a disciple of our sect. I won't let anyone from the outside world in. Cultivation is a skill, and it requires a lot of effort. Without this perseverance, it is impossible for one to succeed. "

The old man started to get excited. At this moment, Wu Tian also came to a realization. He thought along Old Master's words, he really did think a little too little.

"However, if you were to maintain this tradition, before, it could be said that the aroma of wine was not afraid of the depths of the alleyway. However, in this era, this sort of behavior is undesirable."

Wu Tian could understand it, but it did not mean that he was opposed to the opinion that was just put forward.

On the contrary, he felt that his method might be the only reliable one.

"Do you have any other ideas?" Old Master was still a bit unwilling to give up and continued to ask Wu Tian.

Wu Tian was also a bit helpless. Since he didn't want to turn commercial, he couldn't lie to others either. Although he was rich and could invest in them, this was not a long-term solution.

"How about this, you set up a training institute and train your bodyguards. That way, you can not only collect fees, but if you meet a suitable person, you can even take him as your disciple ..."

Wu Tian tried hard to think of this idea.

"Look, we wasted so much effort to create a martial arts school to teach children a lesson, but the income is actually not that much."

What Old Master said was true. Wu Tian and the others had already seen that martial arts school before. It was indeed not doing well.

"You don't have to worry about this. As long as you agree to this plan, I am willing to invest. I am also willing to send the first batch of students." It just so happens that I plan to expand the number of people in my company's Security Team. I can recruit a group of people to come here to train. I will give you the appropriate fee. "

Wu Tian wasn't afraid of anything when it came to money.

"Is that true?" Old Master's eyes immediately lit up.

When Wu Tian saw this, he immediately felt that this matter might succeed. He immediately increased his bargaining chip.

"If you are willing to send someone to help me this time, I can give you a service fee of 500,000- 1,000,000 RMB per person! If someone is injured, there is a treatment fee and a nutrition fee! If they die, we will also pay a lot of money to help support their families! "

With that said, this matter had become even more attractive.

Although Old Master was a bit hesitant, he couldn't hide the excitement in his eyes.

"What nonsense are you spouting? We are doing this for morality, not money!"

"Right." Wu Tian quickly smiled along, but in his heart, he was constantly ridiculing Old Master.

Old Master is so annoying — he wants money and face at the same time.

Old Master was also extremely agitated in his heart. They were truly scared of being poor. Originally, they didn't want to agree to this matter, but they couldn't do anything as the price Wu Tian offered was too high.

Not to mention hundreds of thousands of yuan, only a few of them had ever seen money before.

If they had the money, Old Master wouldn't open a massage parlor here.

"Good!" We agree to this matter! But I have a request! "

Old Master thought about it and finally agreed.

"Please speak."

"Pay a deposit of 50% first!"

Hidden Billionaire Chapter 834 - Peace at Night

C834 Peace at Night

Wu Tian felt that he wasn't here for help.

He seemed more like he was here to help the poor.

The whole school was now preparing a big pot and a big meal.

Old Master took out some of the money he got from Wu Tian and gave it to the children to improve their diet.

Everyone was very happy, even Su Wenxin and the others joined in.

"Wu Tian, what method did you use to get him to agree?"

Su Wenxin couldn't figure out how Wu Tian did it. Old Master was notoriously stubborn.

Moreover, he did not even care about principles and the like. He only wanted to satisfy the benefits that he wanted.

"Don't ask, it's a trade secret." Wu Tian shook his head and sighed, but didn't answer.

Wu Tian had a new understanding of this. When he came here, he thought he was going to meet someone who was far away from the secular world.

But now, looking at him, it seemed completely different.

They were not only ordinary people, but they had no experience in bargaining.

Old Master still felt that Wu Tian's price was quite generous. However, in Wu Tian's eyes, even if the price he offered was ten times higher, he would still be willing to offer.

He shouldn't have used money to measure the value of these experts.

The big dinner was soon going to be held in full swing. Principal Zhao was also very excited and came over to drink with Wu Tian and the rest.

After three rounds of food and wine, everyone had pretty much eaten their fill.

Wu Tian's mood did not improve because of this.

Honestly speaking, he was still very worried. After tonight, the other party should almost reach the S City.

In other words, the conflict between the two sides would officially begin.

At that time, no one knew how the situation would develop.

What kind of role did the Sect Master of Tianying Sect have ... How powerful was he?

Wu Tian stared at the sky in shock as he thought about these things.

Su Cancan walked over and lightly kicked Wu Tian.

"Let's go, we are already prepared to return."

"So fast? What about them? Who will be following us back?"

Su Cancan turned around and looked at him. There weren't many people on the side of the Cyan City Sect. Almost all of them had come.

Other than Principal Zhao having to stand guard here, even Old Master had to personally take action.

But there were only a dozen or so of them.

"It's these people. A minibus is leaving. However, they are all quite powerful, so we should be satisfied. "

Su Cancan, however, did not underestimate these men from the Green City Sect just because they were small in numbers.

However, Wu Tian felt that regardless of whether it was more or less, at least they were willing to come and help him. There was nothing to detest about that.

On the way back, they didn't say anything. It was just that those men from the Cyan City Sect didn't seem to have been to any big city. They were always very curious about what they saw.

When they arrived at the Wu Group Building, Wu Tian quickly arranged a place for them to stay and took Old Master and the rest on a tour around his security base and such.

This gave both sides a clearer understanding of each other.

When night fell, Wu Tian's office was brightly lit.

He gathered all the executives of the company together and held a very tense war preparation meeting here.

"The things that I want to say, you two should be clear about it as well. No matter what happens, the first thing we have to do is to call the police! "

Wu Tian said as he looked at the people below. This prerequisite was very important.

"We are both business people, and there are so many people watching us all over the country, so we can't do anything illegal."

If this thing was seen by others and then magnified with ulterior motives, it would only bring harm to the company.

"The rest is to try to retract the expatriate staff as much as possible. They are in the dark while we are in the light. I don't want these employees to be harmed. If I stay in this building, I will act as bait, and their immediate target should be me! "

Azure Dragon's eyes were bloodshot as he listened to what Wu Tian said. He clenched his fists tightly.

No one wanted Wu Tian to say something like that, but it just made them feel helpless.

Everything in the world was unpredictable, and there was nothing that could be done about it.

"Alright, there's nothing else to say. Let's disperse."

After the audience dispersed, Wu Tian sat down on a chair with a worried look.

Shen Xue and Liu Yueyao walked over leisurely. One of them brought a glass of water, while the other pinched Wu Tian's shoulder.

"You don't have to worry about that. Perhaps the enemy doesn't intend to fight with us anymore."

After all, the great customer of Tianying Sect, Chang Zairong, had already been toppled. They actually didn't have any reason to deal with Wu Tian.

As for their two protectors, they lost to Wu Tian. For other sects, this was something that was very hard to accept.

But for Tianying Sect, it was different.

He could only say that the two of them were too weak and couldn't be blamed on the others. When the two of them had just met, not a single one of them had any thoughts about the two of them.

"It's not the same. I've destroyed their signboard, if Tianying Sect still wants to live, they'll have to mess with me."

This was a life-and-death battle, and it was the same for both sides.

As night fell, the moonlight outside remained calm and tranquil, illuminating the colorful and vibrant city below.

At this time, the figures of a few uninvited guests began to appear opposite of Wu Group Building.

One of them had a huge bow in his hands, almost the size of a man.

He picked up an arrow, and agilely nocked it onto his bow. Then, he aimed at the lighted room at the very top of Wu Group Building.

The bowstring immediately became taut. With a swoosh, an arrow pierced through the night sky like a streak of black lightning. It flew at full speed towards the building opposite.

Wu Tian's glass wall had been replaced with bulletproof material, so he wanted to defend against any possible attacks.

Suddenly, a crisp sound rang out. Wu Tian, Liu Yueyao, and the others looked to the side. A piece of glass was already covered in cracks.

An arrow flew in and nailed itself hard against the wall.

The arrow was so powerful that it sank several centimeters into the wall.

At the head of the arrow was a small slip of paper.

C835 People Pay for What They Do

What was to come would come.

Wu Tian took off the piece of paper from the arrow and got someone to turn off the lights here.

He had been careless. He hadn't expected that his enemy would arrive so early.

Luckily, this arrow was sent to deliver the message and not to take Wu Tian's head. Otherwise, he would have died just now.

"What happened just now? Is it the enemy? " Liu Yueyao and Shen Xue were a little panicked, quickly lowering their bodies.

"It's fine, they're just warning us."

Wu Tian already had a strong immunity to this kind of thing, he rarely panicked.

"I look forward to a showdown with you ..."

The note only had these few words written on it. Wu Tian read it over and over, but there were no more clues left on it.

Were they just here to give him a warning? Or rather, what did they want to express?

"Let's go to bed." Wu Tian put away the note with a relaxed expression.

Liu Yueyao could hardly believe her ears.

That just happened. He could still sleep.

"Aren't you worried that someone will attack you?"

Wu Tian gave them both a bright smile.

"What are you guys worried about? If they had wanted to attack me, they would have done so earlier." They sent me messages — probably to reassure me. "

Hearing Wu Tian's words, the two girls were skeptical, but they still followed Wu Tian back.

No one slept soundly that night, so when they woke up, they all had dark circles under their eyes.

The person who was least worried was Wu Tian.

This guy had previously looked worried, but now that it was time to face this matter, he acted as if he didn't care at all.

This made everyone feel that it was inconceivable.

Although the storm was approaching, it was still calm and they couldn't tell what was wrong.

A group of people were guarding the top floor of the Wu Group Building, inside Wu Tian's office, Security Team and the reinforcements from the Green City Sect were all stationed at different places.

Their preparations were foolproof. There were people everywhere.

If his enemies could still break through his defense, then Wu Tian didn't have anything to say.

The morning passed without any movement. It was the same ordinary day as before.

There were even some people who began to suspect if they had gotten the date wrong, and that the Tianying Sect wouldn't attack them today.

"What's going on? Is there no one else coming?" Su Cancan muttered. She had been maintaining a high level of nervousness since the start. Such a state was extremely tiring.

Even she couldn't hold on any longer, she couldn't help but want to be distracted.

"Don't be too nervous. The people at the Tianying Sect right now might be trying to make us overly nervous, so they can take advantage of our exhaustion and attack us."

While Wu Tian was talking and laughing, he was also trying to make everyone relax. The whole building's atmosphere became a little strange.

"That's easy for you to say. If we leave you outside, we won't have to worry. Their target will definitely be you, and they won't cause any trouble for us."

Su Wenxin started to joke around with Wu Tian, but this sentence gave Wu Tian some inspiration.

That's right, if he had not been at the Wu Group Building at this time, he wouldn't have implicated these people.

"How about this, you guys do whatever you need to do. I'll go somewhere else so that it won't affect the operation of the company."

Wu Tian left as soon as he said that. He didn't give these people any time to think before hurriedly preparing to move away.

But where could he go? Standing at the door, Wu Tian thought about it and finally decided to go to Wu Castle.

Previously, this place was completely destroyed by Zheng Taiwen.

The direct loss was almost impossible to measure with money.

Fortunately, the main body of the building was made of stone, so the frame was still intact.

Taking advantage of this opportunity, Wu Tian went to find someone to reorganize the Wu Castle.

Although the repair had yet to be completed, it could still be used in part.

Wu Tian led his team directly into the castle, where Wu Zaibin installed a complete office and meeting system.

With these equipment, even if Wu Tian isn't in the company, he can still guarantee his control over the company.

Fortunately, Wu Group Corporation no longer needed his full control.

Seeing Yu Naixin and the others still following him, Wu Tian could only coax them to leave again.

"Don't you have your own work to do? Go back to it. You don't have to worry about other things, you don't have to worry about me. With the Security Team and these masters, nothing will happen to me. "

Seeing Wu Tian so confident, the few of them had no other choice but to agree to his request.

All of a sudden, only Loong Yun and Su Cancan were left in Wu Tian's office after everyone left. The rest of the people had either left or were waiting in different parts of the castle.

During the day, nothing abnormal happened, and the sound of renovating the house could be heard from another direction.

There were also many maids in the garden replanting flowers and vegetation.

Wu Tian wandered around in boredom, but he couldn't find anything to do.

"Let me in!" I want to see the lord chief! "

Suddenly, a clamor came from the direction of the main entrance.

From hundreds of meters away, Wu Tian could hear their argument.

Ever since Wu Tian chased most of the Wu Clan's disciples out, there were basically no guests coming to the castle anymore.

There was a stranger who wanted to meet him. Wu Tian was really curious, so he decided to just go over and take a look.

However, before he took two steps, he was stopped by Loong Yun.

"You can't go over there. We can't be sure of that person's identity right now. If you go over there, wouldn't you fall into the enemy's trap?"

Loong Yun's worry was not unreasonable. If it was out of caution, such an action was necessary.

"There are some things, what's the use of you stopping me? Some things are bound to happen. We are in the open and they are hiding in the dark, so there is nothing we can do. "

Wu Tian had already gotten used to this kind of thing. If he was that scared of danger, he had ten thousand ways to die.

Hidden Billionaire Chapter 836 - Suicide Bomb

C836 Suicide Bomb

Loong Yun couldn't persuade Wu Tian, so she could only carefully follow behind him and quickly inform the people from Security Team.

With them there, perhaps there wouldn't be much of a problem.

When they arrived at the entrance, a man wearing dirty clothes was tearing away at the security guards at the entrance. The two of them did not seem to plan to give in and ended up in a stalemate.

"I am a member of Wu Family, what right do you have to not let me in?!"

This person's words seemed to be very true, but the security guard had already checked the name and confirmed that there was no one like him.

"You should leave. We have a rule that no one other than those on the list is allowed to enter. Moreover, this place is our private territory. If you barge in without permission, we have the right to control you."

The security guards were already such a blatant threat, but this guy still didn't give them any face at all.

"So what? Let me tell you, I want to see Wu Tian right now. I'm a member of the Wu Family, what right do you have to not let me in!"

This man was still unrelenting. In fact, he even seemed to be getting more and more violent.

Wu Tian saw this scene and sighed softly.

"Loong Yun, do you know who he is?"

Loong Yun turned on her tablet computer, took a picture of this person, then browsed through the database and quickly found the person's information.

"This person was expelled together with Wu Yongan and the others. At that time, he was also at the castle's protest site."

After listening to Loong Yun's introduction, Wu Tian finally understood what was going on.

"You guys, let him go."

When the security guard saw that it was Wu Tian, he quickly let go of the troublemaker.

"I'm Wu Tian. I heard you're looking for me?"

Wu Tian looked this person up and down. Although he was still wearing a famous brand, but it seemed like he hasn't washed for a while. His hair was dirty too, it looked like he just came out of the sewer.

"Patriarch Wu, you can't let us clansmen fall into such dire straits!"

As he said that, this person knelt on the ground. He crawled over and was about to hug Wu Tian's leg.

"Wait, don't call me clan leader. There's no relation between the two of us now."

Wu Tian immediately denied this point. He clearly remembered how many clansmen he had.

After going over and over again, there was no such person.

"Don't be like that, Chief. We were all coerced by that Wu Yongan. I didn't know at the time and was momentarily fooled by him."

The man's face was full of tears. While he said those words, Wu Tian just treated it as watching a play.

"What does that have to do with me? The ones who made the decision were you guys, right?"

Wu Tian felt that it was funny, this kind of person was really a rascal. Seeing that he was doing better than them, they quickly came over to fawn on him. Did they really think that fawning on him was that easy?

"Clan Leader Wu, I beg of you, please give me another chance. I will definitely be of use to you!"

"I'll give you another chance. Tell me, what can you do? If I remember correctly, the company you were in charge of back then should be the Wu family machine tool. Such a good enterprise, it actually allowed you to get 50 million in debt, and every year the company has to subsidize it. Then tell me, what exactly are you able to do? And where are your luxury cars? Where are your villas? "Why did you come to me to beg for food now?"

Wu Tian's words made him feel great. When he was feeling bored, someone had actually taken the initiative to ram into the muzzle of the gun. What a coincidence.

"President Wu, President Wu, I'm really useful to you!"

The man continued to walk forward, but Wu Tian kicked him away in disgust.

What kind of joke was this? How could this opening be opened?

Putting aside the fact that he did not intend to let these people continue to harm Wu Group company from the start, he did not intend to bring them and their descendants back from the start.

Secondly, if this crack was opened, what would the rest of the people do? They would definitely imitate him and come to his place every day to cause trouble.

At that time, he wouldn't be able to do anything else.

Thus, he had to stop this evil Qi right at the beginning.

"Scram. Scram as far as possible. Don't let me see you again in the future. Your life is decided by you and not by me. Since you don't have the guts to bear all of this, you can go and find your leader Wu Yongan. "

Wu Tian said snappily. Did he really treat him as a philanthropist?

The man's head was still lowered, his nose snot and tears flowing, but suddenly, his eyes began to change, becoming incomparably sharp.

He smiled charmingly as if his evil scheme had succeeded, then he suddenly grabbed towards Wu Tian.

With one hand, he lifted his clothes, revealing the bomb underneath.

He snapped the fuse on it and was about to hug Wu Tian tightly.

He completely looked like he wanted to die together with Wu Tian.

Wu Tian was stunned. When he reacted, the person was already hugging Wu Tian tightly.

"President Wu!" Loong Yun cried out in alarm from the side. Her voice was already breaking the sound barrier.

Loong Yun rushed over, wanting to help Wu Tian get rid of this person instead of running away.

The security guards were also stunned. If it wasn't for Loong Yun shouting, they might still be standing there foolishly.

After the initial panic, Wu Tian reacted at this moment. He exerted all of his strength and pushed the guy away. Then, he kicked him out fiercely.

He turned around and ran inside with Loong Yun in tow.

That person struggled to get up from the ground, wanting to continue chasing him.

At this moment, an arrow flew over and hit the man's knee. The man fell to his knees on the ground.

At this time, there was already no one at the door. A huge explosion sounded from behind them.

The shockwave from the explosion knocked Wu Tian and co. onto the ground.

When the two of them flew out, Wu Tian subconsciously pulled Loong Yun in front of him and used his back to block the explosion.

A huge ball of fire soared into the sky. Moreover, the door to the Wu Castle had been blown apart by the explosion, leaving behind a desolate scene.

"President Wu, President Wu?"

Loong Yun and Wu Tian both fell to the ground. Due to Wu Tian's protection, Loong Yun didn't sustain any injuries.

Wu Tian's face was covered in dirt. Luckily, the two of them were quite a distance away, so they weren't affected too much.

However, a gash had been torn open on his back from the explosion, and the blood and flesh inside had begun to spill outwards.
