

# **Hidden Billionaire Chapter 837 - Police Appearance**

## **C837 Police Appearance**

Fortunately, because they were in the Wu Castle, a group of people quickly surrounded them.

Su Cancan brought people to the infirmary with lightning speed.

The rest of the group began to find a way to extinguish the fire at the door.

Everyone's expression turned ugly at this moment. They knew they were in danger, but no one expected it to be this way.

And they actually wanted to use a single life as the price to assassinate Wu Tian. The consequences would be too severe.

"You don't need to worry about that. Do you know what you need to do?"

Su Cancan noticed that Loong Yun also followed closely behind in panic. She knew that Loong Yun was worried about Wu Tian, but the most important thing for Loong Yun at this moment was not to worry about Wu Tian.

When Loong Yun heard Su Cancan's words, she was momentarily stunned before nodding her head.

"I'm going to find out what's going on with this man."

If one were to say that this person had nothing to do with Tianying Sect, that was impossible.

Loong Yun wouldn't believe this anyway. She hastily returned to the main entrance and had to conduct an investigation before the police arrived. Otherwise, they wouldn't have the chance to check out any clues on the scene.

Although the majority of the people in Security Team were retired soldiers, it was the first time that many people had seen something like this. Looking at the meat pieces that were blown up all over the ground, quite a few people threw up on the spot.

When Loong Yun saw their expressions, she was instantly enraged.

"You guys are not even comparable to a girl like me! These things are nothing, what's there to be disgusted about! "

Hearing Loong Yun's rebuke, many people lowered their heads, but they still worked even harder.

After all, no one wanted to be looked down upon by a woman.

The damage caused by the explosion was great. Not only was Wu Tian injured, but two of the security guards who were originally on duty also died in the explosion.

The remaining ones were also injured to varying degrees.

The first thing Loong Yun did was to get people to gather information about the surveillance cameras nearby, and on the other hand, she was to search for possible items that might be left behind on the site.

On the other side, Wu Tian was receiving an emergency treatment from Loong Yun's father.

Loong Zaian was indeed worthy of his reputation. After Loong Zaian poured a kind of powder he made in secret on Wu Tian's wound, the wound quickly stopped bleeding.

However, this alone was not enough. Loong Zaian used alcohol to disinfect the wound and then began to sew it up.

His stitching speed was very fast. It only took him ten minutes to finish treating Wu Tian's wound.

Wu Tian's screams could be heard from inside the infirmary.

"Alright, alright, the stitching won't hurt so much."

Su Cancan looked at Wu Tian with disdain. Although she spoke without holding back, she was secretly relieved. Luckily, it was only a superficial wound. It looked scary, but it wasn't a serious injury.

"Why don't you try? "No matter what, why don't you give me a anesthetic ..."

Wu Tian was having a hard time speaking. He clenched his teeth tightly, not daring to loosen his grip.

"Alright, the wound has already been treated. I've given you the latest wound Band-Aid. It has a pain-relieving component on it, so you won't have so much pain in the future." As long as you're not particularly active, you probably won't even feel like you're hurt. "

Loong Zaian clapped his hands and seemed quite satisfied with his result.

"Thank you uncle, I really don't feel any more pain now ..."

Wu Tian immediately became happy. His memory was too bad.

"Alright, I guess this is just an appetizer. I have to say, your judgement is really correct."

Su Cancan couldn't help but admire Wu Tian's idea at this time. If he hadn't decided to bring her here, and if the explosion had occurred at the Wu Group Building, no one would have known what would have happened.

"F \* ck, these guys are actually using this kind of tricks ..." Wu Tian was also very depressed. He wasn't afraid of anything else, but this opponent simply didn't play according to common sense.

Shouldn't this Tianying Sect be a direct confrontation with him? Why did they use a bomb to attack ...

The more he thought about it, the more depressed Wu Tian felt.

Very soon, the police arrived. With such a huge incident, the police department would not be able to accept this.

The nature of this case was extremely vile. If the matter was even slightly more serious, it could be determined to be a terrorist attack.

Sunn Hongsheng held the cigarette in his mouth and looked at the mess in front of him with a serious expression.

This was the first time he had seen a suicide bomb attack. The scene was too tragic.

Blood was everywhere, and in many places, some parts of the bodies of the dead were still hanging ... Many police officers who saw this scene couldn't help but vomit.

"Hurry up and start the investigation! Pull up the cordon! " Sunn Hongsheng said in a loud voice as he walked inside.

Loong Yun had been waiting for them at the door for some time now.

"It's you again. Is it your bad luck, or something? I feel like someone is targeting you. Have you offended someone? "

Last time, when the Wu Family Castle was set on fire, this news could be said to have shocked the entire S City, and many people thought that many people would definitely be burned to death.

In the end, it turned out that none of them were hurt, except for the chairman of the Wu Group, who seemed to be heavily injured.

Sunn Hongsheng was relieved at the result. The police had to take responsibility for the heavy casualties.

"Since you've said so much, you might as well mind your own business!" Loong Yun looked coldly at Sunn Hongsheng and handed over a document.

"This is a video of the murderer, what happened just now, and his information. Take a look. "

Sunn Hongsheng took it and looked at it in surprise. This was the first time he saw someone cooperating with the police so well.

Before they even asked for anything, this woman had already prepared everything the police needed, and she handled the matter in a very orderly manner.

"Many thanks ..." Sunn Hongsheng felt a bit embarrassed, he shouldn't have said that just now.

"Oh yeah, can you contact your superiors? We really don't want to continue being attacked like this. See if you can provide protection for our company."

Their defensive capabilities were still limited, so Loong Yun shifted her attention to these policemen.

## **Hidden Billionaire Chapter 838 - Curve Policy**

### **C838 Curve Policy**

Sunn Hongsheng was stunned for a moment. Such a request was truly unprecedented.

However, with their current situation, this was what they should do.

If they could be protected, then the police wouldn't have to worry about this or that.

"I'll contact my superior regarding this matter. I'll give you a reply later."

Sunn Hongsheng nodded and agreed. He took the documents and quickly returned to their car.

As he watched Loong Yun leave, he saw a few men in fine clothes following behind her. They were all wearing mechanical equipment.

Sunn Hongsheng was immediately very interested.

This matter should not be simple.

Many large enterprises offend people when they are developing, so many people are willing to form their own armed forces.

However, this matter couldn't be made public. First of all, they couldn't hold a gun, so many people started to find other ways.

He might as well get an especially large team of bodyguards and recruit them from the retired soldiers. Then, he could bring along some defensive weapons, such as a throwing stick.

Basically, this way, they wouldn't encounter any harassment.

From the looks of it, the people following behind Loong Yun should be considered to be the personal guards of their Wu Group.

"Little Zhuang, keep an eye on them. If they do anything illegal, you must inform me immediately."

Sunn Hongsheng had many years of experience dealing with underground organizations, so he had specially arranged for someone to follow him.

If this happened, most people would be scared witless.

However, Wu Tian and the others were very relaxed at this moment.

Because at the door, there was a case being handled by these policemen.

As this matter involved Wu Tian and Wu Group, the higher ups specifically wanted to conduct an investigation night after night.

Therefore, Sunn Hongsheng and the others had to work here all night long.

No matter how arrogant this Tianying Sect was, it was impossible for it to directly attack the police. That would be courting death.

The next day, Wu Tian entertained Sunn Hongsheng and the others for a while, but the progress of the investigation showed that there was nothing useful to be found.

On the other hand, the bureau chief of the police department came to see Wu Tian.

This was Wu Tian's first time interacting with a senior government official, and he was a bit nervous.

Although this bureau chief's hair had already turned white, he still looked rather spirited. Moreover, his appearance gave off the impression that he was righteous and resentful.

With this kind of police chief, it was no wonder that the security over S City had become better and better recently.

As soon as the bureau chief saw Wu Tian, he went straight to the point, not even saying any words of flattery.

"I hear you want protection."

Wu Tian still hadn't heard about this, so he quickly looked at Loong Yun. Seeing Loong Yun nod slightly, Wu Tian immediately understood.

"Yes, you should know our current situation. To be honest, our business is a bit enviable. I've indeed offended a lot of people. The one who attacked me this time was a member of our previous clan. He didn't succeed and came looking for death."

Wu Tian did not blame the Tianying Sect for this matter, but he did not know if it was good or bad for him to tell this news to the police.

Therefore, he still left something behind and did not say it out loud.

"We discussed this matter with the city government. Your company is indeed a leading enterprise in our S City, so it is necessary to carry out protection and support. However, the relevant laws forbid us from doing so." The bureau chief also had a headache over this matter, so he had no choice but to personally come over to discuss it.

"What do you mean?"

"It's like this. If we send police to protect you, it would be a waste of people's resources. We can't do that unless there's a case."

Wu Tian nodded, what the bureau chief said made sense.

After all, he, Wu Tian, wasn't some important figure, or he was involved with the interests of the entire city, so why should he provide protection for him alone?

"Is there any way to compromise it?" Wu Tian knew it would be impossible to get them to agree directly, so he changed the way he asked.

"For the time being, we have yet to come up with a plan ..."

The bureau chief shook his head as well ...

Loong Yun took two steps forward and said slowly, "Bureau Chief, President Wu, I have a suggestion. I don't know if I can share it with you."

Wu Tian immediately became happy when he heard that.

"Speak, there's nothing else to say."

"First of all, can the Chief give us the qualification to use special company, so that our Security Team can legally hold a weapon."

Loong Yun's words were very indirect. This suggestion was also very good.

However, for the government, this was a rather difficult decision to make.

"About that, I can't make a decision about that ..." The bureau chief was in a difficult position. After all, this wasn't a small matter. If he agreed to it so casually, then who would be responsible if something happened?

"Also, our Wu Group Corporation can donate an office building to Police Station for free."

Hearing this, the director was confused.

How could they be protected by donating a building? Even if they paid for it, the police were legally unable to do anything about it.

Because if they did, it would no doubt be taking bribes.

"Are you offering a bribe? We are absolutely unacceptable." The bureau chief slapped the table in a righteous manner. There was no room for compromise at all.

"No, no, no, Bureau Chief, you have misunderstood us. We do not plan to ask for anything from the Police Station, we just hope that you can stay in this building."

Loong Yun was calm. Everyone seemed to not understand so she switched on the projection in the room.

"We only have one condition for this building, and that is for our Wu Group to choose the address and design it!"

As she spoke, Loong Yun opened up a design. On it was a picture of a building.

When Wu Tian saw it, he immediately laughed.

Loong Yun was really smart. She had thought of such a way.

This design depicted a hexagonal building with an empty center. There was also a five-storey villa that was neither tall nor short.

The hexagonal building was like a protective wall that surrounded the villa.

Everyone present immediately understood what had happened.

Even the police chief laughed.

Strictly speaking, doing so did not violate any of the rules.

## **Hidden Billionaire Chapter 839 - A Quiet Change**

### **C839 A Quiet Change**

Although everyone present laughed, they could still seriously consider this matter.

Loong Yun stated her plan very seriously.

The bureau chief was also overjoyed. He had not expected such a tactic to be used.

Although this approach was somewhat opportunistic, it was indeed in accordance with the law.

"If you are willing, our Wu Group company is willing to provide land, and we will bear the costs of the construction, even the maintenance of the building, will be contracted by us."

The announcement of this condition immediately moved the bureau chief's heart even more.

One must know that their police station didn't receive a lot of funds every year. If it could be like what Loong Yun said, they wouldn't need to pay any fees. It would be very beneficial for the police.

They could spend all this money on policing.

"What do you think?" Wu Tian looked at the police chief with a smile. This small amount of money meant nothing to Wu Tian.

The bureau chief felt a little embarrassed after hearing this.

"Isn't this kind of thing bad ..." Although the bureau chief said this, he still rubbed his hands in excitement.

"It's nothing, we can do it like this for now. After we obtain the special company's authentication, our company can quit, and then you don't have to worry about anything."

Wu Tian's generosity made the bureau chief admire him.

The matter had already reached this point. The bureau chief felt that if he still did not agree to it, it would be abnormal.

"Alright, since it doesn't involve the law, I agree to this plan in principle!"

With the bureau chief's approval, Loong Yun didn't hesitate and immediately turned around to prepare for this matter.

Wu Tian began to consider another plan, which was the method to confirm special company.

In the past, only large state-owned enterprises that involved secrets or dangerous goods would allow their security personnel to carry guns.

Wu Tian felt that now that he had a military factory, his company should be considered a company that needed to be kept confidential — it should also be certified like this.

"Regarding the special company certification, if there's anything I need your help with in the future, please help us a little."

The director nodded, "As long as it is within our responsibility, we will definitely follow the rules. After all, the system also needs to be reformed, and it is impossible for it to remain unchanged forever. "How about this, you guys go and apply to the municipal government for this matter, I'll also lobby for you."

With the bureau chief's promise, Wu Tian immediately felt more at ease.

Although he didn't really expect him to be of much help, as long as he had such a heart, he would be fine.

Very quickly, after he sent off the police chief, Wu Tian also started to feel happy.

However, before he could rejoice too early, Yu Naixin's side sent him a message, saying that someone had set fire to the first floor of the Wu Group Building.

However, this matter was discovered fairly timely and did not cause too much of a fire, so it was quickly controlled.

This was like a signal, it pushed Wu Tian's originally happy mood to the bottom.

This meant that Tianying Sect was telling him, "We can attack you, or we can attack your company."

Wu Tian had to take care of both sides, but he couldn't.

His enemies did not appear, nor did they confront him face to face. Instead, they kept hiding, not daring to reveal themselves.

"So annoying!" The more Wu Tian thought about it, the angrier he got.

After that, he simply ran into the garden and practiced a set of Alien Fists, expending the excess impulse in his heart.

Before things had calmed down, night had already begun to fall.

It wasn't as if there was no news at all. When the evening came, Loong Yun reported a piece of news which made Wu Tian flabbergasted.

There hadn't been too much of a commotion occurring in the last few days of the Mecca Company. They suddenly began a drastic reform.

Although Wu Yongan was still the CEO, it didn't seem like something he could do.

This person might be intelligent, but he was definitely not the kind of person who could push such a large company to reform itself. He did not have that kind of ability.

"Did you find out what happened?"

Wu Tian was surprised, he had indeed not paid attention to this Mecca Company for a while.

To be honest, their scale was not small. After all, they had purchased a lot of local companies. If they were to integrate all of them, they would definitely be able to become a very powerful company.

"The news has already been released, it seems like those branches of Mecca Company have started to merge together, and those with the same industries have all merged into one company. They now have almost five hundred companies. "

Loong Yun looked at the data in her hand and said with certainty.

Initially, this company was just a front-end financial war tool, a war machine to fight against Wu Tian.

It was just that they did not expect the Shuangxing Company company to fail and Chang Zairong to fall. However, the Mecca Company company was still alive.

"It can't be. With so many interests entangling each other, those branch companies are willing to merge like this?" Wu Tian couldn't believe it. When these companies were being acquired, Chen Cheng also wanted to do this, but even with Chen Cheng's power at that time, he wasn't able to succeed.

"Before this, more than half of the founders or original owners of these companies have been taken away by the police. It seems that someone has accused them of tax evasion or other violations ..."

Loong Yun also felt that this move was extremely mystical. Needless to say, it was definitely done by the upper echelons of Mecca Company.

However, none of them could think of who could do such a thing.

"Then we must think of a way to stabilize the situation. This guy might even target us again ..." Wu Tian shrunk his neck. In the past, he had suffered a lot under the pressure of this Mecca Company.

Right now, things should be better. After all, the two sides no longer competed.

Wu Group Corporation had already withdrawn most of its businesses, focusing on the development of high technology.

"If there's another good news, it's that our new brainwave game device has been successfully developed by Tianmu Technology ..."

Loong Yun remained calm, but Wu Tian jumped up from his chair in excitement.

"Really! Great! I can finally play my own game! "

## **Hidden Billionaire Chapter 840 - Force Others**

### **C840 Force Others**

Although Wu Tian was the chairman of a large company, he wasn't very old.

People in their twenties like to entertain.

Some people liked to find excitement in places like bars, but in the past, Wu Tian's only pleasure was playing games on the computer.

It could be said that for a long time, this was Wu Tian's only pleasure.

Upon hearing this news, he immediately recalled the time when he played games with his online friends and formed a guild together with them.

Every time he recalled it, he would still feel very happy, and he would also miss that time very much.

"Quick, quick, Loong Yun, give me one as well!" Wu Tian was so excited that he wanted to try it out right now. However, it was said that this thing had just been developed and was in the process of mass production.

Loong Yun didn't have anything left, so she could only call Wu Zaibin and tell him to hurry up and send one over.

It was just that Loong Yun did not expect Wu Zaibin to rush over with a group of Tianmu Technology people.

They gave Wu Tian a new item.

To be honest, this brainwave game was rather small, it looked like a hat, but it did not have a cap on top of it.

"President Wu, this is the limited edition version that we have recently developed. According to your request, everything has become perfect."

Wu Zaibin's saliva splattered everywhere. Right now, his face was also full of excitement. No matter who encountered this kind of thing, they would feel that they were truly lucky.

"Alright, stop talking nonsense. Let me try quickly." Wu Tian took off the package and planned to put it on his head.

When Wu Zaibin saw this, he rushed forward to stop Wu Tian.

"You can't do that."

"What's wrong? I still can't use this thing right now?" Wu Tian was confused.

Wu Zaibin quickly smiled, then moved closer to Wu Tian and said, "We haven't released this thing yet, and we haven't even confirmed its name, so why don't you give us a name for this device first, and then you can use it?"

Wu Tian nodded. This was also a matter. If the name didn't sound good, it was quite possible that the buyers wouldn't buy it.

However, what should he call such a game machine?

Px? Sbox?

These names seemed to have been used by other manufacturers in the past.

He thought about the device that Shuangxing Company had previously developed. It was called fanhua, and it made people feel that it was not bad.

His product name cannot be worse than that of the Shuangxing Company Corporation.

"I will randomly choose a name for this equipment. I think the equipment of Shuangxing Company is called the fanhua, and our equipment is called the Kaleidoscope. Other people's equipment are unique, but our equipment can hold anything!"

Wu Tian said complacently. He felt that this idea was rather reasonable ...

However, when Loong Yun and Wu Zaibin heard this, they revealed looks of disdain.

They obviously felt that this name was not grand enough.

"This thing of ours isn't high-end, so there's no need to give it such a high-end name." Wu Tian forced himself to argue. Since it was his decision, they had to accept it.

"Alright, alright, alright. We will listen to you. "Right, there's one more thing ..." Wu Zaibin blinked his eyes and made an inviting gesture towards Wu Tian.

"What's wrong?" Wu Tian didn't know what this guy had done ...

"I'm preparing to hold a press conference right now. We have to find a way to sell this product!"

As Wu Zaibin spoke, Wu Tian's door was opened and a bunch of people walked in.

Some of them carried clothes in their hands, while others carried makeup.

When he looked again, Zhang Chi had also appeared.

"Manager President Zhang, come here. I'll leave President Wu to you. You have to make him more energetic and handsome!"

Wu Zaibin waved at Zhang Chi from a distance and called him over.

Wu Tian was a bit unhappy. What did Wu Zaibin mean by this? If he didn't put on makeup, he wouldn't be handsome?

After a while, Wu Zaibin built a shed on the empty space in Wu Castle and built a lecture stand there.

On the other hand, Wu Zaiyao brought her own media company's people as well as Odd Fish's live broadcast. It could be said that almost all of the company's members were sent out, and most of the departments were here to participate in this press conference.

"This time, the matter is very serious ..." Wu Tian looked outside at the bustling crowd and the invited reporters. He suddenly felt a little scared.

"I'm afraid that you will have to get used to this kind of thing in the future. Other people's Technology Company, if there are any new products, they would all be published like this." On the other hand, Loong Yun was calm and collected. After all, she wasn't the one on stage, so she naturally wouldn't be in a hurry.

Just now, Loong Yun had already prepared a speech for Wu Tian. As for the rest of the matters, Wu Tian could just do them according to the book.

"Am I really okay?" Wu Tian still wasn't used to it. He really didn't like showing his face, but things had already gotten to this point, so Wu Tian had to go on stage.

Soon, it was already seven o'clock in the evening. Wu Tian, who had been busy all day, was finally going to go on stage.

Since it was his first time holding a press conference, the number of people in the media outlets was only one to two hundred. However, Wu Tian was still a bit nervous, afraid that he would say something wrong.

They were in the middle of a live broadcast, with tens of thousands of netizens watching.

When Wu Tian announced that he would move towards the high-tech field, it raised the expectations of many.

Also, the whole internet was talking about Wu Tian a while ago. Although they were discussing the negative news about Wu Tian, Wu Tian's reputation had increased by a lot.

According to the employees who worked at the Odd Fish Broadcasting Showcase, there were at least tens of thousands of people watching the live broadcast online.

"President Wu, are you ready?"

Loong Yun looked at Wu Tian and checked if he was wearing anything inappropriate.

"I'm not, I feel my tie is a bit tight ..." Wu Tian grumbled. Before he could finish, Loong Yun pushed him to the stage.

Seeing Wu Tian come out, those who were still talking all quietened down all of a sudden.

The only sound was the click of the camera's shutter.
