

Hidden Billionaire Chapter 844 - Strong Enemy - C844 Strong Enemy

Seeing this, Su Cancan took a few steps back. With a single punch, she was about to punch the door.

This punch shook the entire vault door, but even after the sound, it didn't budge at all.

"You don't have to be so futile, we specially prepared it for you." The extremely tall man said with an evil grin on his face. He walked over step by step, but was not affected at all.

"Are you the Sect Leader of the Tianying Sect?" Seeing this, Su Cancan no longer tried to break out of the room.

With her own strength and the help of the exoskeleton Battle Mecha, she was helpless against this door. As for anything else, there was no need to think about it.

"Hahaha, what? Are you saying that you're not afraid now that you know my identity?"

The big man seemed to be very proud of his identity. How could he have expected that to happen? He only won Su Cancan's cold smile.

"If that's the case, then that means if I kill you, your Tianying Sect will be completely destroyed." Su Cancan's eyes constantly scanned the factory, looking for an opportunity.

"You really like to brag. With a little girl like you?" I am truly starting to suspect how all of my Left and Right Protectors died in your hands.

The big man obviously looked down on Su Cancan's strength. As he spoke, everyone present burst out in laughter.

"Sect Leader, you don't have to do it yourself. Let me do it." A tall and thin guy volunteered himself and walked up to Su Cancan in a few steps.

Su Cancan's idea was to happily accept someone who had come to her doorstep on her own accord.

This person had a slim body. Combined with his relatively tall stature, he looked like a telegraph pole.

His fists and feet were like the wind as they flew towards Su Cancan from afar. Not only was he tall, but even his arms and legs were the same length.

When he was still a long way from Su Cancan, he could throw his fist directly at her face.

Su Cancan didn't even try to dodge. She used her arm to shield her face. There was only the sound of metal striking metal. Su Cancan put her arm down with a smile on her face.

As for the tall and skinny guy, he had a face full of bitterness. His punch had struck the exoskeleton's metal component, and it could be said that he had hit a hard bone. Not only did he not take advantage of her, he even made his palm hurt, and he could not even clench his fist.

"It's my turn!" Su Cancan snorted lightly and a mechanical sound of operation rang out. Her fist was as fast as lightning as it struck the tall and thin man's face. Instantly, a cloud of bloody teeth flew into the air.

The tall and skinny guy was knocked to the ground. His jaw was broken.

This attack could be said to have stunned everyone present. No one had ever seen such a powerful skill, so no one dared to attack.

The brawny man slightly twisted his neck, making 'kacha kacha' sounds.

"You have some skills huh? It seems that this thing on your body is still useful. It's not a toy." To be able to gain the approval of the enemy, it showed how powerful the exoskeleton armor was.

However, this burly man didn't seem to be afraid at all. On the contrary, he was eager to give it a try.

"If you're not afraid of death, come up and try." Su Cancan knew that she couldn't underestimate this burly man in front of her. She stared at the enemies before her.

To deal with so many people by herself, she was at a disadvantage.

Su Cancan now had her back to the door, and the enemy in front of her formed a semicircle around her.

She didn't dare to relax her vigilance for even a second. Who knew if her opponent would launch a sneak attack on her?

When the muscular man was only a few steps away from Su Cancan, he narrowed his eyes and let out a loud roar.

Just this roar alone brought a strong gust of wind with it in the air. Su Cancan immediately tensed up.

In a split-second, the brawny man rushed over like a locomotive.

Not only was he extremely powerful, his speed was also extremely terrifying.

He was in no way inferior to the tall and thin man before him.

Su Cancan subconsciously fell to the side and dodged the punch.

His punch landed heavily on the gate behind Su Cancan, leaving a dent on it.

Without giving Su Cancan a chance to react, he immediately turned around and sent a kick towards her.

Su Cancan immediately jumped up from the ground, afraid to have any contact with him. However, just as she leaped into the air, someone kicked her in the back, and she started smashing towards this brawny man once again without her control.

The sturdy man had an evil grin on his face as he grabbed the exoskeleton on Su Cancan's body. He grabbed her hard and wanted to throw her to the ground.

Su Cancan was amazed at her own weight in addition to the weight of the exoskeleton. In his hands, she was like a bean sprout as she was swung around.

If she was really thrown to the ground now, not to mention what kind of wounds her body would suffer, just this shock alone would be enough to make people spit out blood.

Just at that moment, Su Cancan pressed a button on her chest. She was pulled out of the exoskeleton's Mech.

He landed on the ground and rolled over. Su Cancan had successfully dodged the attack just now.

At this time, the exoskeleton had already been fiercely smashed to the ground, falling to the ground and deforming in front of the powerful force.

Su Cancan could not help but let out a breath of cold air. Luckily, she had reacted quickly; otherwise, she would have been reduced to a pile of rags.

But without the exoskeleton, Su Cancan immediately became passive, and her body's functions became much worse. Anyone with Tianying Sect would be able to fight with Su Cancan for a while at this time.

Without any time to react, Su Cancan immediately shot out a few smoke bombs. If she wanted to be shrouded in smoke, even if she couldn't pose any threat to the enemy, she had to at least delay for a bit.

"Haha, you're done for so quickly?" I don't think you guys are any strong. " The brawny man laughed out loud. He had already completely relaxed since he knew that there was nothing Su Cancan could do to him.

His incomparably tyrannical strength, as well as his impenetrable martial arts skills, were just like a humanoid tank. Everywhere he went, there was nothing he couldn't destroy.

Su Cancan jumped a few times on the ground and spread the smoke all the way. In an instant, the whole factory was enveloped in the smoke.
