

# Hidden Billionaire Chapter 853 - Meeting

## C853 Meeting

After hearing what Zhao Yaqian had said, Wu Tian memorized it all. Although this game was given to him at random, that didn't mean that it couldn't have a good development.

"So you're saying, if the bottom engine of this game is improved, the authenticity of this game will greatly increase?"

Wu Tian finally got a conclusion and was acknowledged by Zhao Yaqian.

"But just this alone is not enough." He had finished. However, on the other side, Princess Song Yao also began to express her views.

"What ideas do you have?"

At the beginning, Wu Tian didn't notice this girl and instead, focused all of his attention on Zhao Yaqian.

"There is no system to pay for anything in this game. I have never seen anything that could be used for my expenses, ever since I entered the game."

Wu Tian was stunned for a moment. When he was playing the game, he went there to pick which games were free of charge.

There were actually people who wanted to spend money as soon as they entered the game, Wu Tian really didn't expect that.

"Isn't that good? "Everyone is at the starting line..."

Princess Song immediately shook her head. This kind of understanding was what the layman thought.

"You think too simply, think clearly, not only people who don't have money, but also people who have money, or people who don't have a sense of their own existence in the outside world. If everyone is the same starting point here, then those people will find that they can't be separated from others after entering, don't you think this is a very disappointing place?"

These words made Wu Tian speechless. There was indeed such a situation.

He really didn't think in this direction. After hearing others say this, he suddenly had some thoughts.

Wu Tian looked at Song Guiyao and nodded slightly.

"Do you have any ideas?"

"It's very simple, I just sold my skin. It was such a simple thing. Who wouldn't want to be handsome and good-looking? The easiest way was through clothes and the like. As for the other battles, they were all fair. This way, both types of people can be taken into account. "

Princess Song Yao and Zhao Yaqian were completely different. In terms of operations, they seemed to have their own unique views.

Wu Tian felt a wave of emotion. It was really an expert in the field of martial arts. Outsiders could only make appearances like that, but the god inside was still a bit off.

"Awesome, after hearing what you guys have to say, I really feel that it's better than ten years of studying. Are you graduating students? Do you have a place to work? If not, please contact me! " Wu Tian couldn't hold it in anymore. He wanted to take the two into his bag right now.

"Big Bro, are you a company owner?" Song Zhengyao looked at Wu Tian with excitement as her short legs bounced a few times on the ground.

"I'm going to give you guys a surprise. If it's convenient, I want to talk to you guys right now. I'll send you the address of our meeting."

After saying that, Wu Tian went offline in a hurry. He called Loong Yun and the two of them ran towards a coffee shop that had a good atmosphere.

After about half an hour, two timid girls walked in through the door.

One of them was really quite tall, around 1.8 meters. Wu Tian could tell that this person was Zhao Yaqian just by looking at her. Her expression and attitude were almost exactly the same as the one in the game.

The short girl beside him was definitely Princess Song.

"Here, here!" Wu Tian saw the two of them looking around in confusion, so he quickly stood up and called the two of them over.

When she got closer, she saw Wu Tian and her heart started beating faster. Even her breathing had started to quicken.

"Aren't you... Wu Tian? " She grabbed onto Zhao Yaqian's hand excitedly, her voice trembling.

"Don't say it! Sit down. " Wu Tian had a smile on his face and looked very kind. He didn't give people any room to show off.

Zhao Yaqian, on the other hand, did not seem to mind. On the contrary, she looked a little bit like Loong Yun, as if nothing could excite her.

"I really did not expect this!" Even if Song Tingyu sat down, her face was still flushed. She could not believe that this had really happened to her.

Wu Tian could be said to be the role model for many young people. Many of them worshipped Wu Tian like crazy.

After all, he was already the big boss of Wu Group Company at such a young age. Furthermore, he specialized in high technology research, development, launching rockets, launching Kaleidoscope and even leading FTC ... This was the hottest topic of conversation amongst the young people.

"The main reason President Wu invited the two of you here today is to ask if you are willing to join our Wu Group company."

Loong Yun, who was standing beside Wu Tian, unenthusiastically explained their purpose.

Princess Song nearly fainted when she heard this.

"What you said is true. This is my dream. Sorry, I've said a lot of bad things about your company in the game ..."

Wu Tian smiled. He wasn't that narrow-minded. Besides, those things were indeed something they didn't do well.

"Of course it's true. Actually, our company doesn't have a special department that operates and develops this game right now, so I hope that there will be people with talent who can join."

Wu Tian looked at the two young girls in front of him with expectation.

Of course, she agreed without any hesitation. Wu Tian quickly turned his gaze towards another person, which was Zhao Yaqian, who had been expressionless all this time.

"I have a condition ..."

Zhao Yaqian mumbled in a low voice. Hearing that, Song Guiyao hurriedly pulled at Zhao Yaqian's clothes.

"What are you talking about? Hurry up and agree. There aren't many opportunities like this ..."

"It's alright. I want to hear it from her too." He was not angry at all. On the contrary, he felt that this Zhao Yaqian had a more unique personality.

"It's very simple, I need a super large algorithm capacity's computer as the server for this game! Because if you want to simulate reality, no matter how many servers there are, they wouldn't be able to do it. "

Zhao Yaqian's words were not ambiguous at all. She would say whatever she wanted to say.

This made Wu Tian a little surprised. He thought this girl would say something about treatment, but he didn't expect it to be like this.

"No problem!" I promise you! " Wu Tian agreed. However, Loong Yun, who was beside him, frowned.

## **Hidden Billionaire Chapter 854 - Financial Crisis**

### **C854 Financial Crisis**

After sending off the two university students, Loong Yun immediately turned to Wu Tian with a questioning face.

"President Wu, we might not be able to promise anything outside like this."

Wu Tian didn't realize the seriousness of the situation and didn't care about it at all.

He took a sip of his coffee and said slowly, "What's so important about this? It's just a computer."

Wu Tian felt that a server worth tens of millions was more like it...

Unexpectedly, when Loong Yun heard his words, she was so angered that she almost died.

She didn't think that this fellow would actually think like this.

She really had nothing to say.

"President Wu, there are too many projects going on at the same time, the research institute needs several hundred million for development, the aerospace department needs at least five billion, the military factory last time just for the salary and bonuses were already used up by several tens of millions, and this game, the follow-up update of the Kaleidoscope, the money we earned from the Korea previously, will be used up very quickly."

People who don't care never know how quickly the money will be spent.

Usually, Loong Yun already expended a lot of effort just to allocate the funds. Even now, Wu Tian was still spending all kinds of resources on it.

God knows how much this supercomputer will cost...

"This... We spent so much? " Wu Tian was stunned. Now that he thought about it, it did seem to be quite a few.

There were even some that didn't say it out loud ... For example, that Security Team ...

And satellite research and so on, these were all money.

"What I've said is already very conservative. As for the specifics, I think you should think about it for yourself." Loong Yun didn't want to say anything more to Wu Tian. Regardless of whether he agreed or not, she had already told him everything.

Wu Tian scratched his head. Loong Yun's words made sense. No matter how rich they were, they couldn't spend it. Besides, they didn't have enough money now.

However, he had already said what he was going to say, and he still swore it in front of his students. If he were to go back on his words, that would be too much.

Wu Tian couldn't say it out loud, so he couldn't bring himself to do so.

"Um, don't we have anything to earn from it? Aren't Kaleidoscope selling well?"

The moment she heard Wu Tian say that, Loong Yun wrote something down on her notes, tore off a piece of paper, and handed it to Wu Tian.

"The Kaleidoscope's sales are indeed very good, but we have not yet recovered the expenses from our initial development. Furthermore, in order to maintain the low prices, we basically haven't made much money on the hardware." The reality revealed by Loong Yun was extremely cold, making Wu Tian feel uncomfortable from head to toe.

This was too heart-piercing ... Originally, Wu Tian thought that his earnings would be pretty good. However, if he took out all the glory from the outside, he would just be a pauper.

"Is it that tragic ..." However, this made Wu Tian more determined to finish the game.

Since the Kaleidoscope couldn't earn much money, he could only use his brain on this game.

"So, hurry up and recruit these two girls into our company and set up a special game operation department. All departments, branches, try to coordinate their operation as much as possible!" Wu Tian was already giving it his all, he couldn't bear to have a child like Ye Zichen.

The issue with the server could only be dealt with bit by bit. After all, if everything changed at once, then the players wouldn't be able to take it.

Although Loong Yun was surprised by Wu Tian's stubbornness, she still did it seriously.

Zhao Yaqian and Song Junyao had both entered the job very smoothly. They had even set up an operating department with the two of them as the core.

Wu Tian personally led the team to station in the operation department because he wanted to get the results as soon as possible.

Whether it was the game of Kaleidoscope that drove this legendary world, or the game of Kaleidoscope that drove sales, they would definitely get a return if they publicized this game well.

The two little girl players were also very excited. They immediately began to modify the game on a large scale.

In a day or two, they released their first major update.

As the content of the game was basically stored in the servers of Wu Group company, as more and more players played, the hosting capacity of the servers also became heavier and heavier.

The server replacement has also become Wu Tian's urgent matter.

Just this matter, Wu Tian had already specially invited people to ask about it. At the current stage, this kind of server was the product of Britain, which was rather impressive. This was universally acknowledged. Of course, according to Zhao Yaqian's request, just buying the server alone would cost them more than a billion dollars.

Thinking about this question, Wu Tian felt annoyed. This was nothing. The most important thing was that when Wu Tian told Loong Yun to consult him, he didn't want to sell it.

This made Wu Tian angry for a long time, but he didn't have any other choice. He could only grit his teeth and swallow it down.

Right now, there was no such enterprise as China that could achieve such a high level of quality server, so it was equivalent to the other party monopolizing this industry.

Seeing Wu Tian so worried, Loong Yun recalled that she seemed to have seen a message before that had something to do with this server. Perhaps it could help them get out of their predicament.

"President Wu, last month, I saw a piece of news online. It's said that Time Company is currently selling their company's servers. I feel that this is an opportunity for us."

Hearing Loong Yun's words, the image of the chairman of Time Company who had helped him quite a bit, Cui Yongji, also appeared in Wu Tian's mind.

Right now, this guy should also be the chairman of Korea Corporation's largest enterprise, Wu Tian can be considered to have helped him ascend to the throne.

Just this matter, how could it be related to buying a server?

"I don't want to buy second-hand products from others. If anything happens, we'll ruin our brand!" In the past, when Wu Tian was playing games, the thing he hated the most was logging off or Katon. When that happened, everyone would scold the game company.

This is very bad for the company's image.

"No, no. You might have misunderstood. We can discuss it with Cui Yongji and see if we can use their identity to purchase servers together."

Loong Yun's words were like a ray of sunlight shining into the cloudy sky, instantly allowing Wu Tian to find his way.

## **Hidden Billionaire Chapter 855 - Take What You Need**

### **C855 Take What You Need**

At this moment, Wu Tian felt it was great that his secretary was Loong Yun!

If she had been chairman, the company would have grown even better.

"I'll listen to you! I'll contact Cui Yongji right now! "

Wu Tian hurriedly started to contact Cui Yongji, but the other side did not intend to explain this matter over the phone. Instead, they wanted to invite him to Korea to enjoy the hot spring.

Wu Tian naturally understood what he meant. They wanted to meet face to face with him. Thus, he naturally could not refuse. After all, this time he wanted to ask others to help him.

When he came to the Korea again, Wu Tian felt that this place could be said to be in a completely different state compared to before. There is a sense of depression everywhere in this country.

It was probably because last time, Wu Tian and the others had cleared out the currency in Korea, which had had a significant impact on them.

Actually, Wu Tian was like a starting point, opening up a path for the big corporations.

His influence was not as bad as the National Fund scandal. Just like a fierce tiger, the large corporations swept away all the wealth of Korea.

Especially Shuangxing Company company, as the target of public criticism, it had become even more miserable than before. It had directly dropped from first place to sixth place.

After getting to know Wu Tian's arrival, Cui Yongji specially sent someone to pick him up. Although other things have changed a lot, the feeling Cui Yongji gave others was the same as before.

"Wu Tian, you're finally here." Cui Yongji shook hands happily with Wu Tian.

"That's right, I'm counting on you more this time." Wu Tian had nothing to hide, so he spoke straightforwardly.

This was actually a kind of reminder, to tell Cui Yongji that he came with a mission.

Cui Yongji naturally understood. After the two of them ate some food, Wu Tian was directly brought to a very famous hot spring in Korea.

This place was in the mountains, and there was a rather nice villa there. The decorations and furnishings inside were all very exquisite, causing Wu Tian to be unable to help himself from exclaiming in admiration.

"There's actually such a place? I really knew it too late. I really want to live here every day."

Hearing Wu Tian's words, Cui Yongji gestured to the people behind him. That person gave Wu Tian a small, pure gold plate.

"This is my VIP identification, as long as you have this, you can freely use my facilities anywhere under my Time Company." Cui Yongji could be said to be very generous. Wu Tian only expressed that thought, but he had already come up with a solution.

Wu Tian was a bit shocked when he saw this.

"You mean this place is yours?"

Cui Yongji smiled and said proudly, "I have more than a hundred of these places in the country. Even if you go to one place a day, it will take at least half a year!"

Compared to these rich people, Wu Tian suddenly felt that he was too far behind them.

When he was spending money, he had never been this extravagant before.

He would never build a villa out of the occasional place he went to.

Not to mention the fact that there are villas like this all over the country.

"Director Cui is still amazing, I really admire you. Back then, I had the feeling that you were no ordinary person. It seems like my thoughts were true."

Cui Yongji laughed. Hearing Wu Tian flatter him like this, he didn't feel uncomfortable.

"Alright, just tell me what you need my help with this time. You definitely didn't come to find me to play. "

Wu Tian laughed. As expected, his purpose could not be hidden from him.

"It's like this. I need a batch of servers right now, but I don't know where to go to purchase them ..." "Coincidentally, I heard that your company seems to be in the process of phasing out your servers, so I was wondering if you could ..."

Cui Yongji immediately knew what Wu Tian was talking about. There were a lot of operations in Time Company, so in order to manage these businesses, they built a very powerful data center and an extremely large server.

It's just that this item would have to be replaced and upgraded in a few years, so they had recently been negotiating with the Britain company.

"In other words, it looks like you've encountered a problem while negotiating with them ..." Cui Yongji roughly knew what was going on after thinking about it. He had a good idea of what was going on.

He could do this, but he had to consider the risks and rewards – which one was more important.

"It's not a problem. It just depends on what kind of price you can offer. Wu Tian, let me remind you that your company's recent rockets are not bad. If it's possible, I hope you can give me two chances to launch them at a low price."

Hearing Cui Yongji's words, Wu Tian knew that this matter was settled.

Since Cui Yongji was willing to give conditions, that meant they were willing to do it as well.

As for Cui Yongji's request, Wu Tian didn't think it was worth mentioning.

Launching two rockets at a low price wasn't a big deal, he just didn't make money.

As long as he didn't lose out, it didn't matter.

"No problem, I can add it three more times!" A total of five times! " Wu Tian was also very generous, he couldn't be stingy at this moment.

Cui Yongji quickly nodded when he heard that.

One had to know that the price of a rocket launched outside was over a hundred million, and the cost of a cost was only a few tens of millions. The difference was not small.

Therefore, Wu Tian was willing to give in — he had gained quite a bit of preferential treatment.

Moreover, if this matter were to succeed, Wu Tian would have to give Cui Yongji a discount when he came to buy a rocket in the future.

"You are very decisive. We have decided on this matter." After saying that, the two of them signed the contract inside the hot spring.

As they chatted, Wu Tian started to get curious why Cui Yongji wanted to shoot a rocket.

"Are you dealing with satellite business? Why are you suddenly asking for a rocket launch? "

Cui Yongji didn't say anything, but pointed to the sky.

"I am a person who is rather worried. When I have nothing to do, I like to worry about it blindly. However, even my own eyes are unable to see through my assets, so if there are one or two satellites, wouldn't I be able to find out about the condition of each and every one of my assets at any time? "

When Cui Yongji said this, Wu Tian was suddenly enlightened. However, at the same time, it gave him quite a bit of inspiration.

Is this what every boss of a big company needs? If that was the case, wouldn't he be making a fortune if he did this business?

## **Hidden Billionaire Chapter 856 - Nonsense**

## C856 Nonsense

Is this what every boss of a big company needs? If that was the case, wouldn't he be making a fortune if he did this business?

As smart as Wu Tian, he immediately thought of how he could use it.

After soaking in the hot spring, he returned to his resting place and lay down on his bed to think about these things.

He already had a plan for many things, but their funding was limited.

It was truly a miserable life for a coin to be broken into two.

Fortunately, the progress of the discussion at Korea was quite smooth this time, so Wu Tian was slightly relieved. We can talk about the rest later, but it's better if we just focus on the present.

The next day, Wu Tian left in a hurry.

This trip to the hot spring gave him a great time as he had never felt so comfortable before.

All of a sudden, Wu Tian didn't really want to come back, but there were still a lot of things he needed to deal with at the company. Even if Wu Tian wanted to run away, he would be caught by Loong Yun very sternly.

Another morning, Wu Tian was called out early again.

Nothing else, this time he was going to discuss the financing with Baili Zhenlin.

Although the company still had a portion of its capital surplus, it would not run out in the foreseeable future.

The development of commercial spaceflight would take some time, which would require a lot of money.

Although Wu Tian didn't want to borrow money, things had gotten so out of hand. He had no choice but to do so.

On the way there, Wu Tian could go take a look at their Flower Island project, and it had been a while since Liu Yueyao had come back.

She spent most of her time at the construction site.

Wu Tian missed them at times, didn't he want everyone to get together?

Originally, the area around Flower Island was a desolate beach, and basically didn't have anything special.

There wasn't even anyone there. So far, this place had been developed on a large scale, and not only was there a project on Flower Island, there were even some real estate projects that they had developed on Nanhe Securities Corporation as well.

All of this immediately caused a commotion in the nearby area. Even the government began to sense the advantages of this place and was preparing to plan something like a subway station.

It had to be known that although Flower Island was not a good port and was not a good place to view the world, it could not be compared to other places other than its high technology.

Along the way, it was as if there were construction sites everywhere, and many places were in the process of being developed. It was a scene of prosperity.

Of course, the best one was still the real estate project developed by Baili Zhenlin.

It was said that this was a large-scale investment by the Baili family.

In order to ensure the steady progress of this project, Baili Zhenlin even started to stay here for a long time.

At this time, the seaside was already a villa complex, Baili Zhenlin was working inside one of it.

He was still surprised when he heard Wu Tian had come.

He didn't think that Wu Tian would actually come to him on his own accord. Instantly, he felt slightly worried in his heart.

Wu Tian never visited much, so it was almost never possible for him to go around randomly.

If he shows up, it basically means he has something for you.

Baili Zhenlin was more worried about the fact that Wu Tian asked for help. It meant that things were starting to get out of hand.

"President Wu, why are you here?"

Baili Zhenlin walked over to welcome him without any change in his expression. He led Wu Tian into the room and let him sit on the sofa.

Wu Tian also looked around politely and nodded slightly.

Baili Zhenlin liked antiques, so his room was basically decorated with antiques. Even the furniture was mahogany.

Everything was done in an extremely quaint manner, revealing the aura of a noble family.

"Brother Zhenlin, you're really doing pretty well. Just looking at you makes me feel comfortable." The house was still lit up with incense, which made people feel refreshed after smelling it.

Wu Tian immediately began to despise his office. Look at Cui Yongji and Baili Zhenlin, everyone seems to know how to live better than me.

Look at their treatment. The more he thought about it, the more Wu Tian's heart felt itchy. He directly looked at Loong Yun in front of his eyes, determined to get her to set up properly for him when he got back.

"President Wu, you don't need to mock me. President Wu's eating ability is definitely better than mine for such a small thing like this ..." Baili Zhenlin started to think if he offended this Wu Tian in some way, but after thinking about it again, there didn't seem to be such a situation.

"Brother Wu Tie, how's your project going?" Wu Tian began to probe him bit by bit.

However, Baili Zhenlin was even more confused now. He had no idea what Wu Tian wanted to say.

"I'm actually doing quite well here. The progress is quite good. In half a year, we'll be able to start the auction." Baili Zhenlin simply answered whatever he asked.

Step by step, Baili Zhenlin could not figure out what Wu Tian was going to say. He even suspected that Wu Tian was interested in his own project and wanted to buy or buy shares.

"That's good then that's good. Look at my Flower Island, it really doesn't improve at all. It seems like we just finished building the island, and there's still nothing on it."

Wu Tian was nagging, as if he was an old lady who came over to chat. He sounded as if he were going to never stop talking.

Baili Zhenlin was not very good at dealing with this kind of situation. He couldn't help but feel annoyed.

"President Wu, what did you come to find me for?"

Wu Tian was stunned for a moment and then smiled embarrassedly.

"Actually, it's like this. I'm a bit short on money, can you see if ..." Wu Tian rubbed his hands and looked at Baili Zhenlin with a smile.

It was Baili Zhenlin's first time seeing Wu Tian's expression. This was something he had never seen before.

"President Wu, are you joking?" That was Baili Zhenlin's first reaction after hearing his words.

What was this guy thinking? How could this be possible?

Now that his Wu Group was so hot, he actually told himself that he no longer had any money?

Baili Zhenlin's suspicions were not unreasonable.
