

# **Hidden Billionaire Chapter 861 - Signal from the Azure Dragon**

## **C861 Signal from the Azure Dragon**

When Loong Yun's condition improved a little, Chen Shiran brought her around the vicinity.

It turned out that there was actually such a small training hall deep in the mountains.

In the midst of the heavy snow, this place looked like a paradise.

By this time, the weather was slowly getting better and the heavy snow gradually stopped falling. Seeing that the weather wasn't bad, Loong Yun immediately wanted to go collect Tian Linghua.

Chen Shiran naturally followed beside her.

These Tian Linghua were all on the cliff. When Loong Yun walked past them, she realized that her ability was definitely not enough.

"Chen Senior Taoist, can you lend me some rope or something ..." Loong Yun felt that she wouldn't be able to climb up there with her bare hands.

Chen Shiran laughed and waved his sleeves.

"There's no need for that. I'll just help you pick the flowers."

Finishing his words, Chen Shiran leaped forward. His body was as light as a swallow as he ran on the wall like a gecko.

He arrived at the place where Tian Linghua was just a few steps away from. He reached out his hand and grabbed one of them, then he leaped up and started to gently land on the ground.

"You're really powerful ..." Loong Yun was not stingy with her praises. When she first met Senior Taoist, she didn't think Chen Shiran was anything special.

But now she realized that he did have some real skills.

"This little trick is not worth mentioning!" Chen Shiran didn't think much of it and handed Tian Linghua over to Loong Yun.

This flower was very precious and also very difficult to keep. Chen Shiran found a wooden box for Loong Yun and gently put it inside.

"Alright, I've found your flower. It's already getting late, once the sun rises, I'll send you out."

Hearing him say that, Loong Yun immediately thanked him. At that moment, she suddenly remembered that she had a companion. She wondered how Azure Dragon was doing now.

"Senior Taoist, have you seen another person around here? He came with me."

Chen Shiran shook his head, "The roads here are very bumpy. There are lots of snowdrifts and caves. If he goes in carelessly, he might be trapped inside and unable to get out. I really haven't seen this friend of yours. "

It wasn't that Chen Shiran didn't want to help her, but there was a vast expanse of whiteness outside and it was hard to find someone.

Loong Yun could only hope that Azure Dragon had arrived at the place where they got off.

"Senior Taoist, is there any place nearby that can get a thousand-year old Xuan Bing?" Since she was already here, Loong Yun felt that it would be a bit of a loss if she didn't ask all these questions.

"Yes, but you will have to climb a few mountains. There is a hole there with a thousand-year old Xuan Bing." Chen Shiran told her directly. Anyway, this kind of thing was very common to them.

However, to outsiders, these items were extremely rare.

It was obvious that she was going to make some medicine when she was paired with the thousand-year old ice cube.

"What do you want these things for? Could someone have been burned? " Chen Shiran was also very skilled in medicine.

Loong Yun nodded slightly and told Chen Shiran about Wu Tian. Chen Shiran was astonished when he heard about it.

"So that's how it is, I'll accompany you this time. Last time, that brother invited me to drink, so I can help heal his wounds to repay him for treating me."

With Chen Shiran's request to go with her, Loong Yun's heart warmed a lot.

After resting for an entire night, their place was naturally very comfortable. However, Azure Dragon felt as though he was in an ice prison.

In order to find traces of Loong Yun, he descended the hill.

However, he did not expect that after walking a few steps on the snowy ground, he would suddenly step on empty air.

He fell into a cave.

It could be said that it was completely dark inside. When Azure Dragon woke up, he found that it was completely dark. However, it was incomparably cold.

Azure Dragon had no choice but to collect some materials from nearby to light the fire to warm himself up. Thanks to these materials, he managed to see clearly that he was in a cave.

He looked up and saw that it was pitch black above his head. He had no idea how he had ended up in this place.

Azure Dragon, who was both hungry and thirsty, walked inside for who knows how long. He was determined to persevere on his way home and not die just like that.

However, it was fortunate that his hard work paid off. Azure Dragon walked to the front and heard something that made people feel weird.

It was like footsteps, but also like the sound of rocks colliding.

He struggled to get up from the ground and tried his best to walk away. After passing by a cave, he suddenly saw light coming from the front.

In front of him was a huge cave the size of several football fields.

Like a science fiction novel, there was a huge ball-shaped object floating in the middle of it.

It was this thing that emitted a faint yellow light, illuminating the entire cave.

Those sounds were produced from the small rocks that were floating and colliding everywhere in the air.

Azure Dragon rubbed his eyes and couldn't believe what he saw.

How is that possible? Stones can fly? How could a rock light up?

All of this had completely overturned Azure Dragon's understanding.

Azure Dragon walked closer and wanted to take a look. At this moment, he felt as if his mind was being disturbed. After a moment of confusion, he fainted.

On the other side, Long Yun and Chen Shiran were digging up ice cubes in a cave.

Now, Wu Tian had gotten the two herbs that he needed.

"Thank you, Chen Senior Taoist." Loong Yun felt that she had said the most thanks in the past two days.

Of course, Chen Shiran felt that it was nothing. To him, it was just a small matter.

After the two of them packed up their things, they prepared to leave. At this moment, the wristwatch on Loong Yun's wrist started beeping alarmingly.

She was immediately surprised and worried. This watch was used for emergency communication between her and Azure Dragon.

If another person appeared within a few hundred meters, the watch would ring.

Following the signal, the two finally found Azure Dragon in a large cave.

The two of them were shocked by the huge glowing stone in the cave. Chen Shiran was even more surprised ...

"Isn't that the Ethereal Steel that Master used when she was refining the King Kong Ring?"

Loong Yun quickly went over to check on Azure Dragon's condition. Luckily, he was fine, so she was relieved.

"Senior Taoist, let's go out first!"

Chen Shiran was in a daze at first, but after hearing Loong Yun's words, he finally reacted and nodded.

They finally woke Azure Dragon up after a lot of effort.

When Azure Dragon woke up and saw Loong Yun standing unharmed in front of him, he was moved. A grown man was crying uncontrollably.

"Alright, alright. I'm fine now. Are you hurt?"

Loong Yun was also very pleased. Luckily, nothing had happened to the two of them. Otherwise, she wouldn't even know how she would explain to Wu Tian when she went back.

Azure Dragon shook his head, indicating that he was fine. Upon hearing that it was Chen Shiran who saved Loong Yun, he immediately felt extremely grateful towards Senior Taoist.

Seeing that it was getting late, Loong Yun and the others left Chen Shiran in a hurry and started their journey back.

Before she left, Loong Yun even secretly noted down the location of the cave.

Then, they hurriedly set off on their way back.

## **Hidden Billionaire Chapter 862 - Return to S City**

### **C862 Return to S City**

Then, they hurriedly set off on their way back.

On the way back, Azure Dragon told everyone what had happened to them.

It was fortunate that the two of them had good luck. Otherwise, it would have been disastrous for both of them.

It had only been two or three days since the two had left, but they had already rushed back to the S City, worn out by the journey.

When Loong Zaiian saw that his daughter had returned safely, he immediately burst into tears.

He quickly rushed over and carefully checked if his daughter was injured or anything.

Compared to Azure Dragon, Loong Yun's was a lot better. Furthermore, she drank the herbal medicine that Chen Shiran made for her. The wound on her hand was also a lot better now.

At this time, Wu Tian was resting in his room. Looking at the dust-like faces of the two, he still didn't know what they had done.

"President Wu, come quickly. I'll apply the medicine for you right now!" Loong Zaiian couldn't wait any longer. Tian Linghua was taken out from the wooden box and put into the ceramic medicine pestle to mash it.

As for the thousand-year old profound ice, it was broken and kept well mixed with the medicinal paste.

"What's your new prescription?" Wu Tian already knew the injuries on his body, but he didn't feel anything wrong.

To Wu Tian, being able to save Liu Yueyao was the best outcome. He had only suffered a little injury, so it was no big deal.

However, this injury did bring some trouble to Wu Tian. A large amount of his skin was damaged, causing him to be unable to take a bath. This made Wu Tian feel very uncomfortable.

"That's right, that's Loong Yun and the other two ..." Loong Zaian was about to tell them how the drug came to be when he saw Loong Yun shake her head at his father and shut her mouth.

Wu Tian thought it was strange when Old Master suddenly stopped talking. When he turned around to look, he could guess that it would not be easy to get this thing.

"Thank you, Loong Yun ..." Wu Tian was lying on the treatment table. The clothes on his back had already been taken off. He smiled brightly at Loong Yun.

"President Wu, this is what I should do. You don't need to thank me." Loong Yun looked indifferent, as if it was a simple task.

Loong Zaian smeared the medicine on Wu Tian's wound and instantly felt a chill. Although it was a bit cold, it made the pain on Wu Tian's wound quickly start to lessen.

"Your burns will be healed in a day or two." Loong Zaian also said some related medical orders and went out after wrapping Wu Tian up again.

Azure Dragon's injury had yet to be treated, so he still had a lot of work to do.

"It's been really hard on you. You should get a good rest these few days. You're also injured." Wu Tian looked at Loong Yun's hands, which were wrapped in gauze, and felt a pang in his heart.

"No problem, I can still do some basic work." Loong Yun shook her head immediately. She wouldn't easily leave her job with such a small injury.

"I can't persuade you. I really doubt if you are born to be a robot. How can you maintain such a strong focus?"

Wu Tian sighed with emotion. While the two of them were talking, Su Cancan walked in with big steps.

When she saw Loong Yun, a flash of surprise crossed her face.

"Secretary Loong, why are you back so soon? "I thought you'd have to go for a few days at least ..."

Finding these things was not that simple. Sometimes, one would have to rely on their own fate. If their luck was bad, even staying in the mountains for a year might not have such a chance.

"Fortunately... I was lucky enough to meet a native to help me. "

Seeing that Su Cancan had arrived and that she seemed to be in a hurry, Loong Yun immediately thought of the explosion.

"That's good, Wu Tian. I've found some clues regarding the explosion. A few people were captured on the surveillance camera nearby."

With Su Cancan saying this, Loong Yun quickly walked up to take a look at the documents Su Cancan had brought with her.

"We have to find these people. This time, we will not let them off lightly." Wu Tian had a cold expression. The explosion this time made him feel that there might be a connection with Tianying Sect that was unclear.

But back when he was still alive, in that explosion, he had clearly nearly annihilated all of his Tianying Sect in that place.

"Director Su, I'll help you investigate right now!" This was Loong Yun's specialty, and she immediately began to prepare to join the investigation.

Wu Tian left these matters to the two of them while he went to another ward to check up on Liu Yueyao.

When he entered, there were already a few people in the ward. Liu Yueyao had been injured somehow and was still unconscious.

At this time, Huang Lan and the other sisters were taking care of Liu Yueyao in the ward. The girls had been washing their faces with tears all this time.

"You're here ..." Wu Tian's heart instantly sank. He couldn't understand why he was fine, but Liu Yueyao was so miserable.

Huang Lan looked at Wu Tian and couldn't hold back her tears anymore.

"She came right after receiving the news. How long has it been since I last saw her? To think that something like this would happen ..."

The two of them had a good relationship. Seeing Liu Yueyao, who was as close as her sister, lying unconscious on the sickbed, Huang Lan felt very upset.

"It's okay, she'll definitely get better. I believe that she's not a fragile girl!"

Wu Tian sighed. The more he thought about it, the angrier he got. These people were really too despicable.

He would rather these people were after him than causing trouble for his friends.

"Wu Tian, you have to protect them well!" Huang Lan cried as she spoke. Her words were like a knife, viciously cutting Wu Tian's heart.

Wu Tian gently hugged Huang Lan. At this moment, he realized that he had always been their solid backer, but it wasn't like this at all.

He couldn't protect anyone. If there were others who were attacked at this time, Wu Tian could do nothing.

"Don't worry, I swear I won't let you get hurt again!"

When he said that, Wu Tian's glasses were filled with anger. He really wanted to destroy the person who attacked him right now.

Loong Yun had already considered this question for a long time. Every time she needed someone, it would be very exhausting for her.

## **Hidden Billionaire Chapter 863 - Urgent**

### **C863 Urgent**

Loong Yun had already considered this question for a long time. Every time she needed someone, it would be very exhausting for her.

Because she had to figure out how to infiltrate the local government-supervised camera system before she could call out the information inside.

This process was actually very complicated, and sometimes she wouldn't necessarily be able to get what she wanted.

If she had her own system, this problem could be solved easily. Furthermore, it would be a long time before they would have to worry about anyone making such an attack again.

Seeing that Wu Tian had returned, Loong Yun quickly walked up to him.

"President Wu, I have a proposal that I hope you can take a look at."

Wu Tian was surprised. Usually, the people below him would submit their proposals to him for money to do something.

Most of the time, Loong Yun would stop these things. It was not easy for Wu Tian to get some proposals, and it was also very easy for Loong Yun to reject them.

This time, she actually came to submit a proposal on her own accord. It was really unexpected for Wu Tian.

"What, you suddenly ..." Wu Tian, who was originally angry, was also confused by Loong Yun's actions.

"Our current methods are too inefficient, so I hope we can upgrade our monitoring system as soon as possible. I need a satellite!"

Loong Yun said with a serious face. The moment she opened her mouth, she nearly shocked Wu Tian.

Previously, Loong Yun had been complaining about the budget in Wu Tian's ear every day. The company had no money, so when it came to her side, she didn't even bat an eye and directly requested for a satellite ...

Not to mention how much it would cost to launch a rocket, the development of this satellite was also a very important issue.

Even if Wu Group company had the reserve of this technology, it would still need a period of time.

"This... Is it all that serious? You need a satellite? " Wu Tian asked carefully. He was afraid that he would hear a figure that would suffocate him.

"Of course, if we had that kind of power before, we might have been able to monitor our construction site a bit earlier and know in advance if there would be any attacks."

Loong Yun's words were not nonsense, but they had their reasons. In short, their situation was not much better than before, so it would be a grave mistake if they thought that it was safe to go on like this.

"If this matter concerns everyone's safety, I have no objections." Wu Tian looked into Loong Yun's eyes and knew that she was definitely not joking. He nodded in agreement without hesitation.

Loong Yun was not surprised to hear Wu Tian say that. She also did not expect it to be so smooth. She thought Wu Tian would have some other opinions.

"Then I will make the arrangements. I will be giving this mission the highest priority." Oh right, we have also heard about the investigation. We have probably locked on to two of the suspects, but we couldn't find any news about them within the entire S City. It may take some time to produce results. "

Loong Yun was actually a little unconvinced when she said this. Her own ability definitely wouldn't stop there, but it was limited by what she could do now.

"Alright, I understand. You guys stay busy with this first." Although Wu Tian was very concerned about this, he knew what was the most important thing right now.

It was money!

The company didn't have enough funds now, so he had to think of a way quickly. If there were enough money, these things would not be a problem.

Couldn't find him? If Wu Tian had the money, he would be able to send 8 satellites. As long as he showed up, he would definitely be able to find some clues.

But now they didn't even have one, so that was the problem.

Wu Tian thought over and over again for a while. At the current stage, most of the businesses were indeed making money for the company. It was not realistic to want to improve them a lot.

The brainwave game that had been placed in high hopes were currently at the development stage, and would only be able to receive large amounts of funds when all of the channels exploded with power.

The only thing with some hope was probably the military factory.

Although this factory had only recently been purchased, their expenses had become the largest in the group in a very short period of time.

Of course, the first place Wu Tian prepared his knife was here.

Since Loong Yun was busy, Wu Tian had no choice but to let Shen Xue accompany him to the factory.

The military factory was still quite a distance away from the city center. Wu Tian couldn't drive himself now, so he had to rely on Shen Xue.

The military factory now felt a lot better than it had before. No matter what, it seemed to be flourishing.

Wu Tian was quite satisfied, but he didn't know why the profits were so low.

When Director Wang found out that Wu Tian had arrived, he was in the midst of arranging a production meeting for Wu Tian. When he heard the news, he immediately suspended the meeting and planned to invite Wu Tian to his office.

Wu Tian looked at him with a smile and refused the request.

"It's fine, I'll just listen to the meeting." This was a method Wu Tian often used. Listening to the meeting below was actually an important method to understand the situation below.

There are a lot of things that can be revealed at this meeting.

"Then, let's continue." Mr. Wang also knew that Wu Tian didn't have that much of an attitude, so he didn't force himself. Continue to chair production meetings.

"Mr. Manager, are we still boasting about having our spare parts processed?" The supervisor below seemed to be dissatisfied with the current situation.

Mr. Wang nodded and said helplessly, "The army's orders have been cut down a lot, these orders for processed products were all found by our people with great difficulty."

"But factory director, our people are all holding back. If this continues, our factory's reputation will be ruined."

How could Mr. Wang not know about this? But there was nothing he could do. Everyone was counting on him to get a salary and eat.

"We'll be fine in the future ..." At this time, Superintendent Wang could only choose to comfort them.

Wu Tian finally understood what was going on after listening to it for a long time.

A bold idea slowly emerged in his mind.

## **Hidden Billionaire Chapter 864 - Find Customer**

### **C864 Find Customer**

If the military factory went on like this, they would definitely not have a better development.

This was not a question of whether or not they would work hard, but rather whether or not they would slowly lose their ability to compete.

Wu Tian actually knew that all the supplies purchased by the army were fairly stable. Once they decided to buy from a factory, they would not simply change supplier.

Because they are more concerned with quality and stability than with cost-effectiveness.

In fact, they had already lost in this competition. Otherwise, their orders would not have been cancelled.

"About that, can I say a few words?" Hearing that their meeting had begun to turn stiff, Wu Tian raised his hand from the back row.

Hearing that, Director Wang immediately stood up politely.

"President Wu, please come here to speak." With that, he got out of his seat, intending to invite Wu Tian over.

"No need, I can stay here." Wu Tian smiled and waved his hand. He didn't intend to take up the position of Superintendent Wang.

"Well, I just heard what you guys said. Since we don't have any customers anymore, then I would like to ask, since we can't sell it to our national army, can we sell it to other countries after we produce it?"

Wu Tian's words caused a huge uproar in the meeting room.

It was rare to know of such things, but there were precedents in other countries as well.

However, the military factory had never done such a thing before.

"About this, there are a few companies that can export to the outside world, but if we want to do this too, we must apply. It might take a long time ..."

Mr. Wang said with some embarrassment. He was not trying to scare them, but it was very likely to be difficult to deal with.

"This is our weapon of mass destruction, but what if we just export some non-lethal weapons?"

Wu Tian just smiled. Of course, it wasn't as if there was no turning back in the rules.

"There aren't too many restrictions in this aspect ..." Director Wang was also a bit unsure about what Wu Tian was planning. At that moment, everyone started to guess what Wu Tian was planning to do.

Wu Tian nodded in satisfaction. Since that was the case, it was perfect for them.

"How about this, how much do you have to pay for the equipment on the company's side?"

Mr. Wang blinked and said after a moment of silence, "About a million for each person ..."

"Alright, I'll sell this item for you guys. For the time being, just set the price at 10 million."

Wu Tian was bold in offering a price. He didn't care at all about the looks of astonishment on everyone's face.

"President Wu. Can this thing really be sold? " Mr. Wang could not believe his eyes. If they could sell it, they would have a huge profit.

"You don't need to worry about that. It's just that we need to update our products as soon as possible. We need to always have a technological advantage over the products we sell."

Wu Tian wasn't an idiot. This kind of thing had a huge profit because they had a monopoly on this kind of product, especially this kind of product that could be used in the military.

Since everyone present was the leader of the military factory, they heard all of this from Wu Tian's mouth and immediately felt a lot of comfort in their hearts.

With Wu Tian's guarantee, things would be much easier to solve.

"President Wu, don't worry, leave this matter to me. Our next product will be produced soon, and there's even an industrial exoskeleton facing the civilian market. Maybe we can develop these markets together."

At this moment, Director Wang was encouraged, and he started to get excited.

Seeing how confident they were, Wu Tian felt that his trip wasn't in vain.

However, the rest was up to him to see how he would fulfill the promise he had given them.

Where could he go to find buyers for military-ranked exoskeleton?

To be honest, Wu Tian had never paid much attention to overseas markets, and he didn't have much of an experience abroad either.

Therefore, this matter seemed to be a little tricky at the moment.

After thinking over and over again for a long time, Shen Xue finally gave him an idea.

"Why don't you discuss this with Blanche?"

When Wu Tian heard this name, he was stunned for a moment.

Speaking of which, it really did seem like he hadn't contacted this foreign girl for a long time.

The last time they met, she was the one who came to the company looking for him, to discuss on how to stop Shuangxing Company Corporation in financial terms.

If he went to her, Blanche might be able to provide some orders.

After all, Char Country were all her family's. It seemed that there was nothing impossible for them to purchase a few exoskeletons to equip the army.

"Your brain is still as fast as ever!" Wu Tian wished he could kiss Shen Xue to express his gratitude.

He quickly took out his phone and prepared to contact Blanche.

However, this foreign girl didn't listen to what Wu Tian had to say. She gave Wu Tian an address and told him to go over and discuss the matter with her face to face...

Wu Tian looked around and felt helpless.

This place was actually a island state of the south. The scenery was very good and it was a famous tourist attraction all over the world.

Blanche also sent Wu Tian a picture of herself in a swimsuit, lying on the beach in the sun, looking very relaxed.

"This guy ..." Wu Tian was speechless. If it was a normal day, he would have let it go, whether he went or not was fine. But at this moment, the wounds on his body had not fully healed and there were so many troubles in the company.

Liu Yueyao was still unconscious, so Wu Tian didn't want to leave the S City before she woke up at all.

"What's wrong?" Shen Xue saw that Wu Tian seemed to be a bit conflicted, so she came over to take a look and coincidentally saw the photo Blanche sent over.

Naturally, there was no need to mention this foreign girl's figure. Her figure was extremely good.

This made even Shen Xue jealous.

"Why don't you go? If you don't have much time, Yueyao should be fine." Shen Xue, of course, could guess what Wu Tian was thinking. She knew that he was actually thinking about Liu Yueyao and could not be at ease.

"But is that really okay?" Wu Tian felt troubled. He really didn't want to let himself feel the pain of them being injured like this anymore.
