

## **Hidden Billionaire Chapter 869 - Be Caught in a Trap**

### **C869 Be Caught in a Trap**

Within the seafood market, there was the feeling of a market, with people hawking food everywhere and people eating at food stalls by the side of the street.

If such a place were to appear in a movie, it would easily evoke the scene of a street fight between the Ancient Frames.

Su Cancan's car couldn't get inside, so she could only choose to walk here.

The two of them were even wearing a layer of clothes outside the exoskeleton, and could not see anything from afar.

"That gray two-story building in the northeast corner. There are two of them, both in their thirties and forties. It's not clear what kind of weapon they are carrying yet, so we have to be careful."

Su Cancan whispered into the walkie-talkie to explain the situation. Wu Tian immediately locked his gaze onto the two figures when he heard her words.

The infrared glasses could see through the wall and directly into the person inside.

The two of them went downstairs. The stall on the first floor seemed to be selling seafood. When they saw that two people had come, they quickly came to greet them.

"Sir, would you like some seafood?"

Wu Tian didn't even pay attention to the peddler's voice. He just directly went over and headed upstairs.

Su Cancan quickly followed him.

Their cold attitude made the hawker extremely dissatisfied. A peculiar look flashed in his eyes as he muttered to himself.

While no one was paying attention, the stall owner pressed a button beside his hand.

At this moment, Wu Tian suddenly saw the two infrared figures become blurry.

The entire room seemed to be a high-temperature red color, and there were no longer any traces of the two people inside.

"This is bad!" Wu Tian exclaimed in a low voice. The two wanted to escape, so he quickened his pace.

The two of them were almost like peculiar siege hammers as they directly smashed through the door and charged in.

But at this moment, the room was filled with scorching hot smoke, there was no trace of the two suspects.

"They ran away?" Wu Tian smashed his fist against the wall and started to look for a way for the two to escape. There was only one door in this room, so they could only leave through the other exit.

As expected, Wu Tian looked along the wall and saw that the skylight was open.

Without another word, he squeezed out of the place and followed closely behind Su Cancan. On one side was to inform his men to check if there were any suspicious people in the vicinity.

There was a wall outside the skylight, so Wu Tian directly jumped down from it. Fortunately, Wu Tian didn't feel too much of an impact with the exoskeleton's support.

He looked around and immediately saw two figures disappearing into the alley. Without saying anything further, he gave chase.

Su Cancan's speed was not any slower than Wu Tian. The two of them were originally stronger than ordinary people, but now with the support of the exoskeleton, they were even faster and chased after him in a few steps.

It was just that this matter happened too quickly and the surrounding people did not notice what was happening.

Except for a pair of eyes from a stall.

"Wu Tian, don't go too far behind, be careful!" Su Cancan looked at Wu Tian's ferocious manner and quickly warned him.

The operation this time had been a failure.

The other side already knew that they were looking for them, so they naturally ran for their lives.

It was impossible for things to be resolved quietly.

"I don't care about that. If we let them go this time, who knows when we'll find them again!"

Wu Tian didn't want his revenge to wait for so long. He wanted these people to pay the price for what happened to Liu Yueyao.

The further they went, the harder it was to track them.

Fortunately, the physical qualities of Wu Tian and the other two far exceeded that of the enemy. They would not relax no matter what they said.

Suddenly, the two people in front stopped their steps. The road in front of them had already reached the end, and they were surrounded by a narrow alley.

"They stopped!" Wu Tian shouted excitedly as he sped up and charged towards the two of them.

Su Cancan initially wanted to let him calm down a little, but after some thought, the two of them couldn't afford to lose their edge, so they also rushed over.

The two suspects suddenly turned around and threw something that looked like a grenade towards Wu Tian and Su Cancan. It exploded into a cloud of smoke in the air.

It immediately enveloped the entire alley.

Such a method actually didn't mean much to Wu Tian. With his infrared glasses, he could easily see the positions of the two people.

"It worked!" Wu Tian saw that the two of them didn't move at all and was immediately happy. Once he rushed to their side, there were ten thousand ways to instantly subdue them.

What he didn't expect was that a tall man suddenly jumped out and stood in front of Wu Tian. He punched Wu Tian hard in the face.

The other party's strength was not one bit inferior to Wu Tian's. The two of them were like two colliding cars, the impact even created a translucent shockwave in the surroundings.

What was going on? Wu Tian was curious. Why was there an extra person all of a sudden, and why was it so strong?

At this moment, the smoke slowly dissipated, and the situation in the alley became clear.

Wu Tian and Su Cancan immediately felt a cold gaze filled with killing intent.

They originally thought it was just two people, but at this moment, a circle of people surrounded Wu Tian and the others.

The opponent was very strong. Just the aura that he emitted made Wu Tian feel that he was on par with Tian Gui and Tian Ying.

"Looks like we're in trouble!" Wu Tian was not only not scared, he was also getting excited.

This one-sided suppression wasn't that fun for Wu Tian, so it would still be interesting.

"Yeah, there are a total of eleven of us. We've both suffered." There was no fear in Su Cancan's voice. Her voice was still as emotionless and cold as before.

The other person didn't even say what his name was. Suddenly, a person made his move and charged towards Wu Tian.

He held a steel whip in his hand and swung it, seemingly wanting to tear the air apart.

When Wu Tian saw this, he knew that he couldn't force his way out. Thus, he quickly dodged to the side.

The whip fell to the ground, turning the stone tiles into dust in an instant.

## **Hidden Billionaire Chapter 870 - Panic-escape**

### **C870 Panic-escape**

"So powerful!"

Wu Tian exclaimed. He did not expect his opponent to be this powerful. However, it gave him more motivation to fight.

What made him even more curious was who these people were, and why they didn't tell him their names.

The enemy just snorted and immediately waved the whip in his hand to continue attacking Wu Tian.

It was Wu Tian's first time seeing such a silent master.

"Who the hell are you? Today, we will definitely fight to the death! Why don't you give me your name? "

Wu Tian waved his hand. After dodging the whip, he greeted the enemy instead.

"I have nothing to say to you!"

His voice was very low, like the roar of a wild beast.

Subsequently, his whips started to attack the place he was standing again and again, but Wu Tian was as nimble as a monkey and jumped up and down.

Was the enemy's strength also only this much? Wu Tian felt that he should already know the strength of the enemies, so he started to take action.

While he was dodging, he started to get closer to this person. Wu Tian was already within the range of his attack. Wu Tian accelerated and threw a punch towards him.

However, this punch was like hitting a steel plate. Wu Tian only felt that his fist hit a mountain and the enemy remained motionless. However, Wu Tian's palm and thumb were in extreme pain.

When he raised his head, he saw that his fist had landed on the sturdy man's chest. The enemy was able to block Wu Tian's accumulated strength attack with just his physical strength.

The hulk lowered his head and looked at Wu Tian in disdain. Then, with a loud roar, he pushed Wu Tian away from himself.

Wu Tian felt his ears go numb and he couldn't stand anymore.

The other guy with the whip saw the opportunity and started his attack. Wu Tian's hand was already in great danger.

With a flash, Su Cancan rushed to Wu Tian's side and saved him at lightning speed.

"I told you, don't be careless!" Su Cancan's usually calm voice began to tremble. She was clearly shocked by the strength of her enemies.

That shouldn't be the case, how could there be such a powerful person.

Their intelligence report this time could be said to have completely failed.

"No, we have to leave."

Although she was unwilling, Su Cancan knew that the current situation was extremely disadvantageous for the both of them.

Hearing that, Wu Tian was obviously done for. He immediately broke away from Su Cancan and returned to stand in front of the enemy.

"I won't leave like this. I won't let them bully my people!"

Wu Tian didn't plan to return empty-handed this time. He was already prepared. Either he would win, or the other side will win.

"Wu Tian, do you know his strength?" Su Cancan was already starting to feel anxious. They were currently surrounded by 11 strong people, and whether they could escape or

not was already a problem. This guy just had to fight with two of them to the point where he couldn't even fight back.

To fight against so many people at the same time, the pressure was simply too great.

"So what if I know?" Wu Tian was still in a daze. When he thought of Liu Yueyao lying in the ward, he felt a surge of Qi and blood.

He wanted revenge, he wanted these people to pay the price! Wu Tian took the initiative to attack.

His speed was even faster than before, and his strength was also stronger than before.

However, the man was like an iron wall, firmly blocking all of Wu Tian's attacks.

The guy behind him kept swinging the whip, harming Wu Tian nonstop.

For a moment, he was unable to dodge in time. After getting whipped on his body, the exoskeleton fell to the ground in a scattered fashion.

Wu Tian looked at the remnants of the exoskeleton on his body and took off the rest.

Instead of doing anything, it made Wu Tian feel more comfortable.

"Seventh Bro, Ninth Bro, stop wasting your time!"

A muffled sound came from the top of the building like a thunderclap. This voice lingered beside Wu Tian's ears. Just hearing it was enough to make his body tremble.

He wasn't afraid, but it had a potential impact on his body.

Wu Tian really began to feel that the enemy was oppressing him. He was truly powerless to fight back.

Although he didn't want to say it, Wu Tian felt like he was in a desperate situation.

Just as Su Cancan had said, their only chance seemed to be to escape.

However, this despair caused Wu Tian to explode with adrenaline. He took the stance of Alien Fist and started to gently circulate his Breathing Technique.

"Wu Tian, let's hurry up and leave!" Although Su Cancan was always on alert and didn't join the battle, she still did many things.

However, the Security Team practitioners outside could not help much at this time, and could only send out long-range weapons to support them.

"Our people can fire poison bullets at us at any time. This will create a good opportunity for us!"

This was the only solution Su Cancan could come up with, and the helicopter was already waiting nearby.

"Thank you. You can just run away when the time comes!" Wu Tian said coldly. His eyes were only filled with the enemy in front of him.

The other side did not care about what was going on with the two of them and swung their whips.

Wu Tian quickly dodged, but the place he dodged was exactly where the punch from the strong man was coming from.

He didn't manage to dodge in time and got hit in the chest with a solid punch.

He immediately tasted something sweet in his mouth and spat out a mouthful of hot blood.

Seeing the situation, Su Cancan did not bother to give her own signal.

Two smoke bombs were thrown down from the sky.

The smoke bombs on the ground emitted a green fog.

At the same time, Su Cancan rushed to Wu Tian's side, pulled his body up and ran outside desperately while the smoke dispersed.

As he ran, the gas bombs continued to rain down behind him.

Although those eleven people were very strong, they didn't dare to act rashly in the face of such a gas bomb.

It didn't matter if you were powerful or not. Everyone was treated the same. If you didn't pay attention, you would die quite miserably.

## **Hidden Billionaire Chapter 871 - Eleven Ferocious Stars**

### **C871 Eleven Ferocious Stars**

A few of them were about to give chase, but the one who had spoken up just now waved his hand, stopping them from doing so.

"Let them go, we still have a lot of time!"

That night, Wu Tian and Su Cancan bravely rushed over. Now, they were like two mice being chased by a cat as they hurriedly escaped from the alley in the seafood market.

They quickly took a helicopter nearby and disappeared into the night.

Wu Tian was out of his mind by this time. He only felt that his chest had been in extreme pain ever since.

Su Cancan quickly took off Wu Tian's clothes and saw the wound.

That punch just now almost made Wu Tian's chest sink. It was obvious that he had broken a rib bone.

It was a miracle that Wu Tian was still alive.

"Quick, inform Doctor Loong Zaian!" This time, Su Cancan was really panicking. She couldn't let Wu Tian die in a place like this!

The moment the helicopter landed, a few Security Team guards pushed the cart over and carried Wu Tian onto the cart.

People who knew the news quickly rushed over. No one expected Wu Tian to be injured twice in such a short period of time.

And this time was as serious as ever.

Loong Zaian immediately started the operation on Wu Tian. From midnight all the way to the next day, no one rested as they quietly stayed outside the operation room.

Su Cancan's expression was especially unsightly. This time, it was mainly because of her information that there was a problem, but she did not discover such a powerful ambush.

The enemies were probably not as he had imagined. They were just a few people fighting him alone.

They had very meticulous plans, and even had some sort of organization behind them.

However, those eleven people seemed to be very powerful and did not seem to be formed at the last minute. Their teamwork was very coordinated.

While she was lost in her thoughts, Su Wenxin walked over, called Su Cancan out, and carefully asked her what had happened.

Generally speaking, to be able to beat up Wu Tie to such a state, Su Wenxin had to be at least as strong as Zheng Taiwen.

"Eleven? And the one who did it was a whip wielder and a man who had grasped the Iron Cloak of the Golden Bell Cover? " When Su Wenxin heard what Su Cancan had said, she was shocked.

She was already worried in her heart. This was because she had thought of an extremely frightening thing. If it was really as she had imagined, it would likely be a great calamity for Su Wenxin and the rest.

Zheng Taiwen and Su Wenxin's expressions were pretty much the same. They were both very worried.

"Master, do you know something?"

Su Cancan was very smart. One could tell something from her master's expression.

He knew that this matter wouldn't be simple.

"It can't be, shouldn't they have ..." Su Wenxin looked at Zheng Taiwen in disbelief.

Zheng Taiwen also shook his head: "That's impossible, the 11 Devils back then was already destroyed ten years ago, all of them died in Mo Bei!"

Many of the sects and schools knew about this, so there shouldn't be any big problems.

"11 Devils? What is that? " Su Cancan vaguely felt that regardless of who these people were, it would be a huge problem for them.

Just sending two of them out at the same time was already a formidable battle prowess. If eleven of them were to appear at the same time, then how powerful would they have to be to defeat them?

"They were a group of people that suddenly rose up a dozen years ago. They were very powerful and killed quite a few people at that time, before all the various sects and clans sent out their experts and fought them in the battle in Mo Bei. Countless experts died, and only then were all of them killed."

After Su Wenxin gave a simple introduction, she suddenly seemed to recall something, and a strange expression appeared on her face.

"Could it be that they didn't die at that time?"

Zheng Taiwen frowned. These kinds of words couldn't be said randomly, but he couldn't help but think in that direction.

"Only a few people survived that time, who knows if it was true or not ... After all, we didn't go to the scene. "

It was fortunate that they did not go back then because they were weak. Otherwise, it was highly likely that Su Wenxin and Zheng Taiwen would not have survived that battle.

Su Wenxin frowned and immediately turned around to leave, "I'll contact the Sect Leader. This is no small matter. If they really are not dead, then we will be in trouble."

When Su Cancan saw how nervous her master was, she started to panic. Could it be that things had gotten to this point?

"You don't need to worry. If it really is 11 Devils, then you don't need to worry. They won't attack ordinary people."

Zheng Taiwen reminded her kindly. However, this didn't help Su Cancan at all.

Loong Yun had noticed that Su Cancan seemed to be talking about something earlier, so she quietly came over.

Seeing Su Wenxin and Zheng Taiwen's anxious expressions and their hurried expressions, Loong Yun started to have some bad thoughts.

"What's wrong?"

Su Cancan turned around and looked at Loong Yun, who was asking her a question. She swallowed a mouthful of saliva with great difficulty.

"I'm afraid we have a very powerful enemy!"

Loong Yun was surprisingly calm. She didn't panic just because of Su Cancan's nervousness.

"If that's the case, then I'll send out an S-rank warning right now! I will completely remove the restrictions on your Security Team! "

After saying that, Loong Yun hurried off to arrange some other things.

Ever since the incident last time, she had begun to research and verify an early warning level.

He had never thought that it would actually come in handy.

Looking at Loong Yun's calm expression, Su Cancan suddenly felt that she had panicked too much in comparison.

Wasn't it just an enemy? No matter how strong he was, she couldn't possibly surrender before meeting an enemy, right?

Even though Wu Tian knew he couldn't beat the enemy, he still insisted on attacking!

At this thought, Su Cancan immediately regained her courage, and a frosty expression appeared on her face.

She looked towards the operating room, frowned, and left.

There were still a lot of things waiting for her. When Wu Tian was injured, she must stand out and protect everything here.

Wu Group Corporation, which was originally smoothly conducting various tasks, suddenly received so much urgent news.

## **Hidden Billionaire Chapter 872 - They Were Investigated**

### **C872 They Were Investigated**

Wu Group Corporation, which was originally smoothly conducting various tasks, suddenly received so much urgent news.

The people who were going up and down started to panic, and for a moment, everyone recalled how they looked when they were threatened by the Red Power.

It was just that this time, it was not that exaggerated. In fact, all sorts of businesses were going through without a break.

It was almost daybreak when Loong Zaian walked out of the operation room with a tired expression. The crowd quickly went up to greet him, and all of them rushed up to him.

"Mr. Long, how is President Wu?" Yu Naixin and the rest said when they were worried.

Loong Zaian sighed. Everyone's heart immediately jumped into their throats, afraid that he would say something they shouldn't.

For example, I've tried my best...

"This is very uncomfortable."

"Mister Long?" Shen Xue and the others were holding their chests, not daring to even breathe.

At this moment, Loong Zaian held his waist with one hand and the wall with the other as he sighed.

"My old waist really can't take it anymore ..."

Hearing this, the group, who almost had a high blood pressure, heaved a sigh of relief. They all wished they could pull out their hearts to cool down.

"Mr. Long, don't scare us like that. Tell us what happened to President Wu!" This matter affected everyone's hearts. No one wanted to continue being tormented like this.

Loong Zaian actually laughed at this time and waved his hand: "President Wu is much better now, you don't have to worry about that. The operation was very successful! "

After hearing this confirmation, Yu Naixin and the others finally felt relieved.

This company was counting on Wu Tian's decision. Without him, many things would have stopped working.

"That's good then. Miss Shen, you don't have to worry about it anymore." Yu Naixin hurriedly tried to persuade Shen Xue, who had a high blood pressure, to stop herself from moving.

The operation went on for such a long time that even the people waiting outside were starting to feel uncomfortable, let alone the doctors inside.

The news that Wu Tian was alright was quickly spread throughout the company.

Loong Yun and Su Cancan finally let out a sigh of relief.

Preparations made to prevent Wu Tian's unfortunate death. Loong Yun made her preparations.

Now, Liu Leyao and Wu Tian were lying in the same ward, separated by a corridor.

Wu Tian didn't know how many people came and went to see the two of them, but he was still sleeping.

Loong Zaian said this was a normal phenomenon. Wu Tian's injuries were too severe, and maintaining a comatose state was beneficial to his recovery.

Hearing that this situation was completely different from Liu Yueyao's, they finally felt relieved.

However, what they did not expect was that the government regulators would suddenly come looking for them.

Loong Yun, who received them, had a face full of doubt. She had no idea why the regulators would come over.

The leader of the group was a very young female prosecutor.

Loong Yun invited them into the living room. Although she didn't know the purpose of their visit, she still treated them well.

"Hello, we received a report saying that your company has violated the law by selling our weapon system's secrets in violation of the law ..."

The female prosecutor didn't even look at the tea that Loong Yun had prepared for them and went straight to the point.

"Bring out your chairman, we have some things we want to ask him. By the way, our operation this time has been approved by our superiors, and we have complete procedures and documents. "

As he said that, the prosecutors quickly took out their authorizations to verify that they were indeed being impartial and following the rules.

Loong Yun was puzzled, but it was within her expectations.

When they had first taken over the arsenal, they had expected this to happen.

The country could not have any restrictions on them, and some things could never be sold.

Therefore, Wu Tian never sold any weapons of mass destruction from the beginning to the end and didn't even show them to outsiders.

"If you want to investigate, of course we can cooperate with your efforts. It's just that we are indeed doing business with a foreign country, but we aren't selling any weapons that violate the rules."

Loong Yun thought that Wu Group company had no problems, and since they had no problems, there was no need to be afraid of them.

"Alright, since it's like this, let's cooperate with each other. During this period of time, we might come over to check more." "Also, according to the relevant regulations, you will not be able to continue such transactions during our investigation!"

What? Loong Yun was stunned as soon as she heard this. Nothing else was important, but this request was indeed a bit difficult for them.

One had to know that Blanche's funds were already prepared. They should have produced some goods early to supply Blanche.

"That doesn't seem right. We've already signed the orders. If we stop the production or trade, it will affect the reputation of our company!"

Loong Yun immediately expressed her opposition. This was the first order from their factory to the outsiders. If this first order caused any trouble, then things would become even worse.

The female prosecutor's face was serious. She seemed to have known from the start that Loong Yun would say something like that.

She skillfully took out another document from her bag. It was impressively printed with relevant laws and regulations.

"Miss, I know what you're thinking, but that's our rule. After all, your unit is confidential, so it's fine if it's for internal sale. But once it's external sale, it's completely different."

Looking at the words written in black and white, no matter what Loong Yun wanted to say, she couldn't find the right words to say.

The female prosecutor packed up her stuff and smiled at Loong Yun. "Please invite your chairman out."

Loong Yun was taken aback for a moment before she replied.

"Our chairman is injured, and he is still unconscious in the ward. There is no way to meet you. "If you need anything, you can talk to our Manager Yu Naixin."

Loong Yun's current position was only as a secretary. From a regulatory point of view, she was not on the same level as Wu Tian and could not be in contact with him in the place of Wu Tian.

When the female prosecutor heard about the situation, she was disappointed.

"If that's the case, then we'll do it again next time. However, you keep this. All production and sales related to the outside world must be stopped now!"

With that, she handed the decision to Loong Yun and left with her men.
