

Hidden Billionaire Chapter 873 - Prohibition

C873 Prohibition

This matter was no surprise at all. It was like a huge blow to the already somewhat difficult Wu Group Corporation, adding to their difficulties.

Originally, Wu Tian was hoping that this way, Wu Group Corporation would be able to obtain a new profit point.

But now, a single ban had completely destroyed this idea of his.

Not to mention the production and sales, even the already signed orders could not continue.

Loong Yun didn't know how to explain it to Blanche and the others.

However, there was another point that made people start to ponder.

This female prosecutor had mentioned something at the beginning, saying that she had received a report.

Loong Yun immediately noticed this. After the prosecutors left, she began to mutter inwardly.

This matter... Logically speaking, not many people knew about this, how could they have been reported?

It was absolutely impossible for ordinary employees to know about this. Loong Yun was confident in this aspect.

Could someone have leaked it somewhere? Or were they being targeted by an enemy?

Either way was possible, but if they didn't handle this matter well, it would be even more difficult for them.

It was imperative to find a way to complete Blanche's order and resolve the suspicions of the procuratorial authorities.

It was clear that the procuratorial department wanted to see Wu Tian. If they couldn't see Wu Tian, then the ban wouldn't end either.

Loong Yun quickly went to check on Wu Tian's condition. Seeing that he wasn't awake, she decided to wait in the ward for the second day.

It felt like he had been dreaming for a very long time. Wu Tian felt like he had slept for a very long time.

When he woke up, he felt that it was wonderful to still be alive.

Wu Tian was about to move his arm, but he found that his whole body was in pain and he couldn't even lift his arm.

Loong Yun rushed over to check as soon as she heard the commotion. Seeing that Wu Tian had woken up, she was overjoyed.

"President Wu, you're awake!"

Hearing Loong Yun's voice, the uneasiness in Wu Tian's heart slowly disappeared.

He could only recall that Su Cancan had dragged him away from the place where he had fought with the enemies, and thus he had no idea about the rest of it.

And now that he saw Loong Yun, she was still lying in the ward. It seemed that he had been sent back to the company and escaped with his life.

"Loong Yun, how is Su Cancan?"

Wu Tian's first words were not about himself, but about Su Cancan.

At that time, this girl was the one who brought him with her to escape. Wu Tian was worried that she, like Liu Leyao, would also be heavily injured.

Su Cancan was currently the absolute core of Security Team. Without her leading, Security Team was equivalent to breaking one's own arm.

"CEO Su is doing fine, she's hosting the Security Team right now, President Wu, how do you feel right now? Do you need me to call my dad over? "

Hearing Loong Yun's words, Wu Tian felt relieved. He slowly looked away and let out a long sigh.

"No need, I'll just recuperate. It looks like I can take a reasonable and legal long vacation again. "

Wu Tian actually wanted to joke around with Loong Yun at this moment ...

Loong Yun didn't know whether to laugh or cry.

"President Wu, I have to tell you something. There is a female prosecutor who wishes to see you. Our company has been reported for illegally selling military weapons abroad ..."

Wu Tian's eyes immediately opened wide when he heard that.

This was obviously framing their innocence! Wu Tian personally took control of the whole deal. Of course, he knew that it was impossible to break the law, so he sold the exoskeleton Battle Mechas.

Strictly speaking, this thing could only be used as a mechanism to assist the human body. It has nothing to do with military weapons.

As for how the buyer would use this, Wu Tian didn't care.

"You didn't tell them that this was a misunderstanding. We didn't sell any military weapons."

Wu Tian was so angry that he coughed, and the result was that he almost split open his own wound. The place he hurt was his chest.

Wu Tian immediately grimaced in pain and his expression twisted.

"I've already told them all, but the procurator's office was also well-prepared and gave us an order. If we don't see you, they won't allow us to complete Blanche's order."

This was their biggest problem this time. Loong Yun looked carefully at Wu Tian when she said this.

"Arrange for them to come see me as soon as possible. We don't have much time left."

Wu Tian knew that there was no point in getting angry. The procuratorial department was a government agency and they were doing things in an impartial manner. The best way that he could think of was to cooperate with their actions.

"Alright, I understand!"

Upon receiving the order, Loong Yun immediately turned around to make the arrangements.

Wu Tian was lying on his bed and couldn't help but think about what exactly was going on.

If there was an enemy, then who was it this time?

It had to be said that this method was truly despicable.

The female prosecutor was rather quick. After receiving Loong Yun's message, she quickly brought her men over.

Since they knew Wu Tian was injured, they didn't care that much and directly started questioning him in the ward.

"Chairman Wu, I would like to ask if you are aware of our company's military equipment production qualifications that are kept confidential by our country."

The female prosecutor looked at Wu Tian and slowly said those words word by word, afraid that Wu Tian wouldn't be able to hear her clearly.

"I know ..."

Wu Tian's voice seemed very weak, but his words were very smooth and he was not flustered.

"Then may I ask if the items you sold in this transaction contained weapons of mass destruction? "If so, I'm afraid your company will be investigated by us according to our laws!"

The punishment wasn't light at all. One must know that the military factory had been bought over by Wu Group Corporation.

In simple terms, the military factory was equivalent to a division of the Wu Group company, so no matter what happened, the Wu Group company would have to bear all the responsibility.

As for chairman Wu Tian, he was naturally the target of public criticism.

"I can agree to that ..."

Wu Tian's voice floated over slowly. Loong Yun was immediately shocked speechless when she said that.

This thing could cost the whole company... They had finally managed to improve the company's business. If the company was sealed off just like this, it would be a huge blow to them!

Hidden Billionaire Chapter 874 - Security Team Training

C874 Security Team Training

What Wu Tian said didn't mean that it was what he meant. After agreeing to the procuratorial department's request, Wu Tian immediately changed the subject.

"However, this matter can only be delayed for a week at the most. No matter what action you take, in a week, our company will have to complete that order."

Here, Wu Tian used a very tough tone.

He didn't give the female prosecutor any leeway to negotiate, so his words were like an ultimatum.

The female prosecutor was also stunned, she didn't expect Wu Tian to ask such a thing.

"One week is more or less enough, but we can't guarantee that ..."

There were some steps that required time, and even the female prosecutor couldn't be 100% sure of that time.

"If you can't promise me that, in a week's time, I'll bring a lawsuit against your prosecutor for the damage we've suffered."

Although Wu Tian said it weakly, his words were full of power.

This instantly made the female prosecutor nervous. Although she was initially calm, when Wu Tian said that he was going to file a lawsuit against them, it also made her feel a lot of pressure.

The amount of money involved in this kind of order was not a small amount, so the compensation that Wu Tian asked for was definitely a sky-high price.

The key point was that Wu Tian's request was actually reasonable and legal.

After all, just because you want to investigate something, you can't let the enterprise bear the losses for nothing. If you find something wrong, it's fine, but if it's innocent, then the inspection authorities will have to take responsibility.

"We understand your meaning. We will arrange for people to come here to investigate soon!"

The female prosecutor practically ran away in a panic. She brought her people with her and left in a hurry with a bad complexion.

Loong Yun watched them from the side and the corner of her mouth started to rise slightly.

It seems like Wu Tian was really good at this. With just a few words, he made these people nervous.

"President Wu, then our side ..."

Wu Tian shook his head. He could probably guess what Loong Yun wanted to say.

"We should definitely cooperate with them. We haven't done anything wrong, so there's no need to be afraid of them." However, there's one thing. If these people are here to cause trouble for us, don't shrink back ... "

After talking for so long, Wu Tian felt very tired.

Not to mention talking, Wu Tian needed to consume most of his strength just to breathe, so his voice became lower and lower. At the back, only his mouth moved, but no sound came out.

"Got it!" "President Wu, rest well!"

Loong Yun nodded in agreement and hurried off to arrange these matters.

Wu Tian rested in the ward for a few days, but nothing happened outside these few days.

The prosecutors' investigation was proceeding smoothly. It would probably come to an end in less than a week.

Su Cancan had been investigating the tracks of the enemies as well as their backgrounds. But it was as if the enemies had disappeared, and she couldn't find any trace of them in the S City.

In order to relieve the boredom, Wu Tian had people prepare Kaleidoscope. This thing didn't need to consume any physical strength. As long as you wear it on your head, you can use it. It could be said to be a perfect fit for Wu Tian's current physical condition.

Ever since the two newbies were recruited to run this legendary game, Wu Tian felt that the number of players in the game had increased.

The moment Wu Tian entered the game, he saw that the game's graphics performance went up a notch.

What was even more ridiculous was the number of people. Right now, the game was like a can of sardines. Players were pouring in nonstop.

Wu Tian had nothing better to do, so he happened to see Zhao Yaqian and Song Junyao on his friend list. He quickly talked to them excitedly.

Although the game's operation department had been established, Wu Tian had only been there once or twice. He was still confused about how Zhao Yaqian and Song Junyao worked.

Since there was nothing going on, Wu Tian quickly went over.

The two of them set up a castle inside the game, which was where they spent most of their time.

Of course, this was not a place to play games lazily, but to test the capabilities of the game.

Entering this castle required identification. Due to Wu Tian's identity, the guards at the entrance of the castle let him in without any obstruction.

The moment he entered the castle, Wu Tian heard a burst of talking not too far away from him.

After a while, Wu Tian saw a few people pointing fingers and talking about something. In front of them was an open space. A group of people were standing there and chattering about something.

Wu Tian didn't know what they were doing, so he went over to listen. However, as soon as he approached, he was discovered.

"Isn't this President Wu?" The person who found Wu Tian was Song Junyao. She was looking at Wu Tian happily, thinking that he had come to inspect their work.

"Hey, what's going on here?" Wu Tian quickly greeted them. Although they were inside the game, they were still able to clearly distinguish who the group of people were.

Looking at the big and burly bodies of the people in front of them and the woman with the ponytail, who had a cold expression, this kind of combination only had Security Team in their company.

Hearing Wu Tian's voice, everyone turned their gazes over. Song Junyao quickly walked over and invited Wu Tian over.

"This is a new project we are developing, Virtual Training Field! Different from the situation outside, within the game, we can simulate the scene we want to be in, and then we can train the Security Team users. This way, when they are outside, they will be well-prepared. "

Listening to what Song Junyao had to say, Wu Tian felt a sense of novelty.

He didn't expect to have such a way to use it!

Indeed, in the real world, sometimes it was difficult to completely simulate a situation of true crisis, but in the game, there were no limitations.

It could even make the battle of Security Team seem incomparably real, and this could even increase their battle experience, and could also temper the coordination between their members.

"Why are you here? Aren't you resting? " Su Cancan looked coldly at Wu Tian. She didn't treat him well just because he was injured.

Hidden Billionaire Chapter 875 - New Usage of Kaleidoscope

C875 New Usage of Kaleidoscope

Wu Tian smiled and helplessly threw up his hands. These things weren't what he wanted either.

"I have nothing to do right now, since I can't move my body. I can relax myself by entering the game."

As she was speaking, Song Junyao, who was standing beside her, suddenly clapped her hands, as if she had been stimulated by something.

"What's wrong?"

Wu Tian and Su Cancan were shocked. They thought that something was wrong with her.

"President Wu, I thought of a good idea. Previously, didn't you say that you couldn't move your body, so you entered the Kaleidoscope? You inspired me, so I suddenly thought of something."

Looking at Song Junyao's expression, Wu Tian was also curious, so he nodded and asked her to continue.

"It's like this. Not to mention that our training can be expanded in all walks of life, especially the army, whose exercises are impossible to be 100% realistic. But if we provide them with such equipment and environment, won't we be able to achieve this?"

Song Junyao's eloquence was endless, but what she said was still very reasonable. That was indeed the meaning of her words. If they really used it well, the potential of the Kaleidoscope could not be underestimated.

"I think so. Hurry up and produce a version of the test for this thing. I'm going to sell it." This was a great opportunity to earn money, how could Wu Tian let it go?

"Also, there are a lot of injured or sick people in society right now. They can't participate in manual labor, and they can't even move their bodies. If we give these people to them with Kaleidoscope and let them work in the game, wouldn't that improve their lives as well?"

"Working in the game?"

Wu Tian really didn't think about this. Normal people might have long accepted the habit of having disabled or seriously injured people, so they could only rely on their families.

If the family was poor, then this kind of person would become a burden to the family, becoming a burden.

"That's right, there are some things that can be accomplished without being in reality. For example, dealing with files and such work could be done within the game without contact with others. I'm only talking about a simple example. "

Song Junyao was extremely excited. The more dimensions she thought about, the more things she could think about.

Not only that, if the function was strong enough, it could also be used for simulation training in various fields. In short, the Kaleidoscope was no longer a simple brainwave game device, but a true virtual world that allowed a person to live a new life.

"Good, your idea is very good!" Wu Tian couldn't help but give Song Junyao a thumbs up. With some abilities, he was just a little bit weaker than others. Wu Tian had never thought about it this way before.

Now that he thought about it, he felt as if he had grabbed hold of a gold mountain, but he had no idea how valuable it was.

"President Wu, we may say that, but if we want to implement it, our current server definitely won't be able to handle it."

Zhao Yaqian, who didn't say anything, suddenly said. She had been mentioning this matter since the beginning.

"I've already entrusted the purchase of this to someone else, but it will take some time. It's fine, we can take it slowly."

Wu Tian laughed helplessly. For this matter, he even went to find the owner of Time Company, Cui Yongji.

The development of the server was also of the utmost importance. However, the technology it contained was too high and it was no longer something their company could create.

"Alright, are you done yet? My training is about to begin. Please focus on your work!"

Su Cancan, who was standing at the side, couldn't help but urge them.

She did not use this item to play. She did use it to increase the strength of her teammates.

Song Junyao and Zhao Yaqian hurried to build the battle scenes they needed.

Wu Tian watched with great interest from the side. He saw a lot of buildings begin to appear on the open space in front of him. In the middle, there was a narrow alley.

No matter how he looked at it, this place seemed very familiar to Wu Tian.

Soon, eleven figures appeared in the depths of the alley. Wu Tian suddenly realized, wasn't this the scene where they met 11 Devils?

"All of you, listen up. The enemies inside are real. At that time, we did not ask you to come and support us, but only knew that even if you did come, you would not necessarily be able to defeat them. But I'm starting to change my mind now. No one will continue to be weak, let alone you. "

Su Cancan made a short speech to her teammates and then swept her eyes coldly over the brawny men.

They weren't even as strong as they were in the real world.

"Go, fight, survive, and defeat the enemy!"

Saying that, the group of people rushed in.

Su Cancan stood at the entrance of the alley and watched the movement inside with an indifferent expression.

Wu Tian could be said to be sighing in his heart. It seems like she did think about it.

"Can this work?"

Su Cancan didn't turn around, but continued to watch the fight inside with a grave expression on her face.

From time to time, someone would be hit and disappear in a flash of white light, reappearing next to Loong Yun.

"If not, who else would I trust?" Su Cancan turned around to look at Wu Tian, which surprised him.

That's right, the only people they could rely on right now were these youngsters from Security Team. Only by letting them exert their full strength would they be able to better protect the company.

"Me too!" Wu Tian was eager to give it a try as he saw the intense situation inside.

Zhao Yaqian quickly came over to help Wu Tian adjust the parameters of his body.

"You want to do it again?" Su Cancan narrowed her eyes. This reminded her of the scene back in the battle.

"I've already lost once, so I don't want to lose again!"

Saying that, Wu Tian, along with the Security Team members who had just revived, rushed into the training ground together.

Su Cancan looked at his figure from afar and suddenly remembered that she seemed to have been standing beside him all along, not moving at all.

"Department Head Zhao, help me prepare as well. I'll join in the training as well!"

Hidden Billionaire Chapter 876 - End of Investigation

C876 End of Investigation

After coming out of the game, although Wu Tian didn't have any movements, he didn't expect his brain to be very tired.

It seemed like he couldn't completely leave reality at the moment and focus all his attention on the game.

First, his body couldn't bear it. Lying there for hours already made Wu Tian feel uncomfortable all over.

The continuous training for several hours had made Wu Tian really feel despair.

He, Su Cancan and the members of over a hundred Security Team had thought of all sorts of ways, but none of them were able to completely defeat the eleven enemies.

Loong Yun was accompanying him in the ward. She watched Wu Tian walk out of the game with a look of regret on his face. She had no idea what was going on with him.

"President Wu, is there anything I can help you with?" Loong Yun looked at Wu Tian as she stood up and walked over.

Wu Tian shook his head. He waved his hand and tried to sit up.

However, his body was still very weak, and all his movements looked very stiff. Loong Yun hurried over to help him up.

"Ai, what time is it now? I can't stay here forever. I need to hurry up and discuss some business."

Wu Tian was having trouble talking, yet he still wanted to talk about business. This surprised Loong Yun.

"President Wu, you should rest first. We don't have any new business right now ..."

The business of making a profit had already begun under Loong Yun's arrangement. As for other businesses, the company does not seem to have developed new profit models yet.

"No, no, no. I already found a new way to make money on this Kaleidoscope."

Although Wu Tian was weak, he was still excited. To him, this was as good as finding a solution for his company.

Loong Yun didn't know what Wu Tian was talking about, but she knew that if Wu Tian didn't take a break, his body might not be able to hold on.

"President Wu, you should rest first. Wait until your body is well before you start to deal with this matter. If you need anything, I will settle it for you."

Loong Yun almost forced him to lie down before she pushed Wu Tian back down.

At this moment, Wu Tian's endurance had also reached its limit. He was in a daze, leaning his head against the pillow and instantly fell asleep.

Loong Yun saw that he had fallen asleep and covered him with the blanket. She then sat on a nearby chair and began to handle the documents in her hands.

She did not delay her work at all. In order to reduce the pressure on the company's funds, Loong Yun had already thought of all sorts of ways to cut down on her expenses.

However, this kind of method would only treat the symptoms and not the root of the problem. It simply could not solve the problem.

After a few days, the prosecutors in the public prosecutor's office had almost completed their examination.

They did not exceed Wu Tian's requirement of seven days.

"This incident was basically a miscalculation. It seems that there is a problem with this report!" The female prosecutor said to Loong Yun in embarrassment. This kind of thing would offend people.

It wasn't the first time they did this. People like Wu Tian, who were very cooperative, were very few in number.

Wu Tian looked at the female prosecutor and laughed.

"This is nothing. We are a company, and our goal is to make money. If we break the law, then wouldn't that mean we have cut off our own path to wealth?" "If you are worried, I will allow your Public Prosecutor's Office to set up a resident office in my company that can inspect us at any time."

Not only did Wu Tian not see this as a threat, he saw it as an opportunity.

Performing well in front of the inspection authorities was a good way to build trust between both sides.

When the female prosecutor heard this, her eyes immediately lit up.

"Is that true?" We've always wanted to do this in some big companies, but we've been opposed, and if you want, we're sure we can do it. "

Loong Yun was surprised. This female prosecutor did not agree out of embarrassment. On the contrary, she seemed to agree to such a thing.

She quickly pinched Wu Tian behind him.

"Cough, cough ..." Wu Tian felt a bit painful from being pinched. He immediately knew that Loong Yun was expressing her opposition. However, in front of these prosecutors, he definitely couldn't overturn what he just said.

"Of course. If you want, we can give you a room as your office. But one thing is, everyone here has to abide by some of our company's rules. We're not going to work with you during the break time. "

Wu Tian turning on the green light for them was a show of goodwill, but that didn't mean that he was going to be led away by the nose.

The female prosecutor nodded, "Of course, President Wu, I won't bother you anymore. I will settle this matter as soon as possible."

As they spoke, they hurriedly left Wu Group company. From the beginning to the end, the people within the company did not give them, the prosecutors, any special treatment.

They did not act with a guilty conscience like a normal company. They acted as if they were on guard against thieves. At the same time, they did not go out of their way to fawn on the prosecutors every day.

Honestly speaking, in all these years, Yin Rumeng had never met a second enterprise like this one. This Wu Group company was indeed not ordinary.

"Sister Yin, are you really planning to open an office here?"

a prosecutor behind Yin Rumeng asked in a low voice.

This had happened before, but few prosecutors were willing to do it.

This was because once one became a prosecutor abroad, they would basically be separated from their inspection department. There were many benefits and policies that they would not be able to enjoy.

Most importantly, they might not even be able to get promoted anymore.

"I feel that this place is pretty good too ..." Yin Rumeng truly thought so. If it was before, she definitely wouldn't have dared to believe that she would actually do this, but during this period of contact with Wu Group Corporation, she instead started to yearn for this place.

"Sister Yin, you can be a popular candidate for the next Director ..." The meaning of those words were obvious, but Yin Rumeng didn't think so.

"I don't think it's that important anymore."

Walking out of the Wu Group Building's entrance, Yin Rumeng felt the pressure and constraints on her body being completely tossed aside at this moment.
