## C888 Liu Yueyu's Awakening

Wu Tian could only say what he had done. He looked worried, and it made people feel like they couldn't bear to reprimand him.

After Loong Zaian had comforted Liu Yueyao over and over again, she finally calmed down.

Loong Zaian relaxed a little. Although Wu Tian was the chairman of the company, but it was not right for him to do such a thing. It was not something an adult should do.

Loong Zaian stared at Wu Tian with a serious expression. Although his attitude was quite calm, it was all because of the fact that he was Wu Tian.

"You must be careful in the future. How can you do this sort of thing as you please? What if something happens? "

If it was anyone else, Loong Zaian probably wouldn't say it with such a tone.

Wu Tian nodded timidly and secretly glanced at Liu Yueyao, who was staring at him with her eyes wide open.

"Ah ..."

Wu Tian opened his mouth, but he couldn't even say anything as he pointed at Liu Yueyao.

Loong Zaian thought he was trying to reason with him. Instead, he frowned and prepared to teach Wu Tian a new round of criticism.

"Did you hear what I said just now?"

"No, she woke up ..."

Wu Tian was stuttering. It was too shocking. He was extremely excited. He never thought that he would actually be able to see Liu Yueyao wake up.

He didn't know how many times he had imagined this, but he had never heard a response from Liu Yueyao.

In the end, the method provided by the maid had really worked! Wu Tian immediately shed tears of gratitude! He wanted so badly to kneel down and kowtow to the maid and cry out for his savior.

Loong Zaian heard Wu Tian's voice and turned his head to look doubtfully. He was also shocked. He took the bottle from Wu Tian and looked at Liu Yueyao in disbelief.

He hadn't been able to do anything about Liu Yueyao's unconscious state during this period of time, but now she had actually awakened in front of him in such a way. He couldn't help but feel a little sarcastic ...

It's not a medical method at all... but it's purely about using the stimulus from the outside world... How could the gas in this small bottle be so powerful?

"Wu Tian, this thing... Can you let me study it for a while? " Loong Zaian had already gripped the vial tightly in his hand and refused to let go no matter what.

Wu Tian looked at the maid. This matter requires the maid's consent. However, the maid was not a stingy person, and this thing meant nothing to her, so she nodded in agreement.

Liu Yueyao was already trying to get out of bed. After lying in bed for such a long time, her body was starting to feel out of place.

However, when she woke up and saw Wu Tian right in front of her, she was very touched. She hugged Wu Tian and cried for a long time.

The news of Liu Yueyao waking up quickly spread throughout the company. Shen Xue and the others rushed over, leaving behind tears of joy in everyone's eyes.

Of all these, the one Wu Tian was most grateful to was Blanche's maid. Without her, Liu Yueyao still didn't know when she would be able to wake up.

Afterwards, Liu Yueyao thought back to the moment before she woke up. She felt that her muddled brain had suddenly been opened by someone. The intense stimulation forcefully awakened her brain.

All in all, the gas in this small bottle quickly turned into a divine medicine in everyone's mouths.

Rumors spread throughout the company that the drug could cure all diseases and awaken the mind.

Of course, Wu Tian was finally able to relax at this moment.

The worry that had been plaguing his heart for some time was finally lifted. This way, he would be able to enjoy working in the company.

Because he had been out for a while, there were always dangers, especially when people outside seemed to be targeting Wu Tian.

Loong Yun directly forbade Wu Tian from leaving the company. In any case, Wu Tian could finish all the work inside the Wu Group Building, and even if he didn't go out, it wouldn't affect his life.

The only effect could be that he was too bored.

Wu Tian quickly moved around the company and even got to know a lot of people.

However, he had nothing to do in the company. Every time Loong Yun or Su Cancan saw him, they would scold him.

It was also at this time that Zhixing Company suddenly announced that they were about to launch a commercial rocket mission.

All the members of Wu Group company were shocked.

When Zhixing Company initially said that they were going to do space operations, they all thought that it would be impossible for Zhixing Company to come up with a real plan within a short period of time.

After all, this sort of thing required technology to accumulate.

But it had only been a month or two since the establishment of the Zhixing Company, and they had already started firing commercial rockets?! It has to be known that Wu Tian and the others weren't ready for their second rocket launch even now.

It was because they were going to launch a real surveillance satellite this time that they had been preparing and researching. The amount of money they had invested was also incalculable.

Wu Tian watched the video of Zhixing Company's rocket launcher on TV with an ugly expression on his face. Not only was the internet full of cheers, even in real life, there were also many people who were starting to fall in love with this newly established company.

And the Wu Group company very miserably became the background for the Zhixing Company.

Seeing the expressions of the people sitting down, Wu Tian felt that even if he didn't say anything, they should know what he wanted to say.

"Hong Xiangtai, we have been completely overtaken by others ... Do you have anything to say? "

As the person in charge of the space department, Hong Xiangtai did not feel good about being called out by Wu Tian.

The moment this matter came out, he already felt that it would be a huge blow to them.

"President Wu, our rockets can be launched this week! Now testing for satellites and rockets! " It would be useless to say anything else, but it would be more practical to say something real.

Wu Tian nodded. He was satisfied with this speed, but compared to the competition, it was too slow.

But the problem was, how did this Zhixing Company manage to do this? Wu Tian didn't believe a word of it, even though they developed it on their own.
