

Hidden Billionaire Chapter 889 - Focusing Thinking Company

C889 Focusing Thinking Company

But the problem was, how was this Zhixing Company able to do this. Wu Tian didn't believe a word they said they developed on their own.

"Have you ever paid attention to this company?" Wu Tian's sudden question left the company leaders speechless.

In this period of time, they had completely neglected the existence of this company, and did not put their thoughts on Zhixing Company at all. Naturally, they would not care about the strength of Zhixing Company.

"We haven't begun investigating their company yet." Loong Yun admitted it straightforwardly.

Right now, all the company's power was focused on doing a few big projects, so they might not have the energy to do some other useless things.

"Aren't you curious about this Zhixing Company? How exactly did their talents come about?"

Yu Naixin heard Wu Tian's question and suddenly stood up with her hands raised.

"I seem to have heard some things about this. Recently, there seems to have been someone who saw the appearance of a large number of foreigners within the Zhixing Company."

"Foreigners?" Wu Tian had a face full of doubt, could it be that Zhixing Company used a high salary to hire talents from outside?

However, if they really did that, it would indeed explain why his growth speed was so fast.

"Yes, and they seem to be people of Britain as well." From the perspective of the entire world, the people from the Britain were originally very well-developed in the field of aerospace. That is to say, with their strength, they could complete a commercial rocket launch mission in a short period of time.

"No, we have to pay attention!" Wu Tian felt that something was not right. He had a bad premonition.

This Zhixing Company was probably not as simple as he thought.

To be able to have a relationship with the high-tech industry of Britain, just this ability was already extremely amazing. Even Wu Group Corporation would not be able to do this.

He hastily dismissed the meeting and started to specifically go online to gather information regarding this Zhixing Company.

"I've really underestimated this Zhang Zerui!" Wu Tian was a bit regretful. When he threatened this guy before, he saw that Zhang Zerui agreed to their request so easily and thought that Zhang Zerui was just a coward.

But now, how did this Zhang Zerui suddenly have such a powerful strength? This Zhixing Company could be said to be flourishing in the society. Even after the rocket was launched, it went public in the stock market and issued shares successfully. On the opening day, the stock price kept rising.

The reaction of the market was extremely fast, many enterprises even expressed their anticipation towards the Zhixing Company.

Originally, all of these things belonged to Wu Group Corporation, but in the end, they were stolen by such a person. It could be said that Wu Tian was very unhappy.

Seeing that no one was looking at him, Wu Tian wanted to do something bold again.

He secretly called Azure Dragon and told him to arrange for a car to wait for him in the garage.

At the same time, in order to not attract anyone's attention, he had even specifically asked Azure Dragon to bring someone to stay in the room for him.

That way, as long as they didn't get too close, no one would notice that Wu Tian had gone out.

After doing all that, Wu Tian started to prepare to leave the company like a thief.

Azure Dragon already knew Loong Yun's order to the company. She wanted everyone who saw Wu Tian leave to report to her.

Zhixing Company looked like a newly established company. Even though it was already late at night, this place was still brightly lit.

"President Wu, can we do it like this?"

If it was before, Azure Dragon might not even consider this issue. He would undoubtedly use his life to prove his loyalty to Wu Tian.

However, if the matter got out of hand, it would not be so easy to resolve.

"What are you talking about? This time, I'm wearing that disguise mask. I won't be easily discovered by others." Wu Tian didn't plan to enter arrogantly this time.

He didn't believe it, then did 11 Devils have a radar? He even knew his exact location?

"Alright, President Wu, you don't have to worry about that. If anything happens, I will definitely protect your safety!"

Azure Dragon had a serious expression. He risked his life to say those words.

"Well, you don't have to worry about that. This is just an investigation. It's just an investigation."

Wu Tian laughed as he spoke. He opened the map on the car, pointed to the Zhixing Company location, and told Azure Dragon to drive towards that direction.

Although Zhixing Company was flourishing during this period of time, the scale of their company was very limited. There was only a small industrial park, and inside it, there were a few buildings that did not seem to be that tall.

But in such a place, a rocket was fired from the suburbs.

Thinking about this, Wu Tian felt depressed. Even after spending so much time, his speed was still not as fast as his.

"President Wu, do these people have a special background?" Azure Dragon didn't know much about this, but he felt that there was a possibility.

What kind of place would have such tremendous space technology? Of course it was a country, and it had to be a big country.

On one hand, there was China. On the other hand, there was Britain. These were the only two places in the world that were doing pretty well.

"You mean the government?" Wu Tian thought about it and felt that it was unlikely.

Wu Group were so outstanding and suitable, they had never made any mistakes, and they even actively participated in the construction of social welfare. For such a good company to not get support from the government, this Zhixing Company was even more impossible.

If the government really did this, wouldn't they be deliberately targeting Wu Group Corporation? This wasn't good news for the entire country's market.

"Think about it, if they have people in the government, or through some improper means." It wasn't Azure Dragon's preference, but the possibility of this happening.

From the looks of it, this Zhang Zerui was definitely not someone that could be seen clearly in front of his eyes. His background should be even deeper.

"No, I believe that will never happen."

Wu Tian was very sure. He couldn't say it, but he had this feeling. Maybe this was the sixth sense.

The car stealthily drove out of Wu Group company in the middle of the night, flashing a ray of light inside the S City.

Hidden Billionaire Chapter 890 - Identity Camouflage

C890 Identity Camouflage

Zhixing Company looked like a newly established company. Even though it was already late at night, this place was still brightly lit.

Wu Tian and Azure Dragon were already at the door of the company, but they did not go in. The two of them were waiting for an opportunity.

Soon, delivery boy, who was riding an electric car, walked over.

Seeing that, Wu Tian hurriedly stopped them.

"What do you two do?" Wu Tian was wearing the clothes of a security guard. When they were still some distance away from the door, he had already stopped the two delivery boy.

"Master, we are here to deliver food."

delivery boy didn't know what was going on, they were never stopped before.

"All of you should just leave. We'll help you send in the food. The company has been investigating strictly these past two days, and no one is allowed to enter. We'll help you send in the food."

Wu Tian and Azure Dragon made it look like it was real. After sizing up the two, delivery boy chose to believe what they said, leaving everything behind and ran off to other places.

After cheating the food, Wu Tian and Azure Dragon immediately started changing. This time, they disguised themselves as delivery boy and put on their yellow uniforms.

This time, the two of them took the takeout and walked to the entrance of the company. The security guards only glanced at the two of them for a moment before letting them in.

Wu Tian even pointed at the address and asked around, while he told them all the information.

The security guard probably met the people who delivered the food here frequently, so he was not surprised.

The two of them easily infiltrated the office building. No one felt they were a threat. There were only some surveillance cameras in the corridor, but it didn't seem like it was a big deal.

"You finally came, we're really hungry." Seeing Wu Tian and the others coming over, the hungry employees rushed over like hungry tigers pouncing on food.

Wu Tian and co. were robbed in an instant, and the takeout in their hands was instantly taken away.

"F * ck, you guys can't be like this, can you guys? Your boss doesn't even give you food to eat?" When Wu Tian saw them acting like this, he suddenly felt like he was pretty good ...

"We're very busy right now, so there's a lot of work to do. We'll probably have to work overtime today."

The staff were complaining to Wu Tian about this matter.

Maybe they saw that Wu Tian was a delivery boy, so they felt there was nothing bad about talking to him.

"Is that so? I saw your company's incident on TV. Oh my god, that rocket is truly spectacular!"

On the contrary, Wu Tian started to chat with these people while Azure Dragon continued to carry out his mission of distributing takeaway food.

"We feel pretty good too, but we're too tired. We're all going to die from exhaustion!"

"I think there's another company in S City making this thing as well ..." I wonder who will be more powerful when the time comes! "

At this moment, Wu Tian slowly asked them for the information that he wanted. After all, things seemed to be progressing quite well at the moment.

They all knew that Wu Tian was talking about Wu Group company. However, these employees did not seem to care.

"He's definitely not our match. Our techniques are all relatively mature ..."

Before this guy could finish his words, he was interrupted by someone beside him.

The man who had warned him took a look at the room opposite them. Directly across from them was an office.

"Those foreigners can't understand our words."

The person who was reminded didn't seem to care about this at all.

foreigner...

Hearing this, Wu Tian immediately knew that his guess had made a lot of headway.

Zhixing Company indeed did not develop their own technology, but instead used the mature technology of others.

Then, the only thing that could provide this kind of skill was Britain.

This matter happened to correspond with the foreigner that man just mentioned.

With the things over, Wu Tian and Azure Dragon looked at each other.

Azure Dragon suddenly held his stomach with a painful look on his face.

*

Wu Tian looked nervous as he hurried over to support Azure Dragon.

"Ah Long, what happened to you?"

"I have a stomachache. Do you have a toilet here?"

Azure Dragon looked at the employees, wanting them to point the way.

"What are you doing?"

He seemed to think that they were making a ruckus here. A white man walked out from the office opposite and stared at them with a serious expression.

"That, I'm sorry, but my brother suddenly had a stomach attack ..."

Wu Tian quickly explained. Although this foreigner couldn't even speak properly right now, he acted quite arrogantly.

"This is the company! "Prohibit ..."

foreigner would not care about Wu Tian and the others, he wanted to kick them out with a look of disgust.

Azure Dragon's stomachache became even worse this time. He could barely stand up.

"No, if my brother had diarrhea here ..." We can leave now, but you guys will be in trouble, and I'm doing this for your own good! "

With Wu Tian's words, the foreigner waved his hand impatiently, agreeing to their request.

"Then do you need any help?" The employee who was talking to them just now was also very polite and wanted to help.

"Then we really must thank you."

With that person's help, Wu Tian carried Azure Dragon to the toilet.

Seeing that he had nothing else to do, the employee was ready to leave. However, before he could walk out of the bathroom, his body suddenly fell down.

Wu Tian and Azure Dragon brought this guy into a toilet stall.

They took off his clothes and Wu Tian put them on himself.

Needless to say, the two of them were similar in stature. If one didn't pay careful attention, one wouldn't be able to tell.

"President Wu, be careful!" Azure Dragon reminded Wu Tian affectionately that he wouldn't be able to help anymore.

Wu Tian tidied up his clothes and walked out with a straight back.

"You're back. How are they?"

As soon as he entered the door, a colleague came to ask him.

Wu Tian nodded and didn't say anything. He sat down quickly and started to check the computer and the documents on the table.

Just now, Wu Tian already felt that these people didn't look like scientists. It was indeed like that.

They're not doing research at all, they're translating some literature or something.

Wu Tian recalled that he seemed to be carrying a USB drive so he quickly took it out and inserted it into the computer to copy these things.

As soon as his USB drive was plugged in, the computer suddenly began to sound the alarm, and everyone in the office looked at him.

Hidden Billionaire Chapter 891 - The Secrets of the Science of Wisdom

C891 The Secrets of the Science of Wisdom

Wu Tian was shocked and stood up abruptly.

"What happened?!" foreigner rushed over in a flustered and exasperated manner, shouting at the people in their office in a bad mood.

"Hey, don't insert an USB drive into the computer!" foreigner was so angry that he wanted to smash something!

At this moment, everyone saw the thing inserted into the computer in front of Wu Tian.

"Wait, aren't you ..."

The moment Wu Tian left, he realized that he had been exposed and ran without saying anything else.

He was so fast that no one in the office could react before Wu Tian rushed into the corridor.

"Mission failed, retreat!"

Wu Tian shouted and Azure Dragon immediately ran out of the toilet. The two of them ran outside desperately.

It was as if the people from the Zhixing Technology Company had never thought that someone would do such a thing, and actually just watched as the two of them left.

Wu Tian and the others were still far away, so they could hear the foreigner's shouts from behind them.

"Haha, go ahead and eat sh * t!" Wu Tian gave a middle finger towards the back, and their car had already left in a cloud of dust.

"What happened to President Wu just now?" Azure Dragon was still a bit nervous at this moment.

It wasn't that he was afraid, it was just that it happened too suddenly and Azure Dragon wasn't prepared for it.

"I'm not sure either. I was just about to steal some technical information when an alarm sounded."

Wu Tian thought for a moment. At that time, he had to react quickly as well. Otherwise, if they blocked the door, it would be difficult for him to run even if he wanted to.

"Whatever, let's hurry back first."

Although there were dangers and surprises, the journey back to the city could be said to be very smooth.

"Remember, do not tell anyone about this. Otherwise, both of us will be finished!"

For the sake of secrecy, Wu Tian specifically asked Azure Dragon to keep his mouth shut.

"President Wu, what are you talking about? How could I, Azure Dragon, betray you!"

Wu Tian was quite convinced of Azure Dragon's attitude.

After the two of them separated, Wu Tian secretly prepared to return to his bedroom.

However, when he opened the door, he saw Loong Yun standing not far away from the door. She was looking at Wu Tian with her arms crossed.

Behind her, stood Su Cancan. She was interrogating the unlucky guy who Wu Tian had called over to cover for him.

"Where did you go?"

Loong Yun didn't intend to interrogate Wu Tian about this matter.

Things had already become very clear, and she didn't want to say anything.

"Oh, you still know how to come back."

Wu Tian shuddered. He didn't expect them to catch him red-handed.

This matter was somewhat troublesome.

Wu Tian didn't know how to explain this matter.

If he were to say that he had gone out to gather information... Wouldn't Su Cancan skin him alive?

After thinking about it, Wu Tian felt that he must not speak the truth.

"About that, I went out to play ..."

"Play? How come I've never seen you go out and play before?" Su Cancan sneered. What did Wu Tian want to do? What did he want to say? How could she not know?

Wasn't this just finding excuses for himself?

"What I said was all true." Wu Tian spoke with a straight face, as if he had been wrongly accused.

Su Cancan looked at Wu Tian and let go of the unlucky guy.

"Alright, let's leave this for now. What are you going out for? I won't pursue this matter anymore. There's something waiting for your decision." Su Cancan suddenly stopped her attacks and started to calm down.

This was a bit unexpected for Wu Tian, but it was still a good thing.

"What's wrong?"

"The space agency said that our launch is ready."

Su Cancan said plainly. When Wu Tian heard this, he was so happy that he was about to jump up and down.

Is it really possible to launch satellites now? This really wasn't easy.

"Alright. Don't worry about the date for now. I'll arrange for some people to come and take a look."

Actually, there weren't that many people that Wu Tian wanted to invite. The biggest customers were Time Company, and there was also Blanche.

He hurriedly made two phone calls to settle this matter.

This time, the location of the launch was still on the same island. After a period of construction, some large-scale facilities had already appeared on the island.

Some of the laboratories and factories had been moved over, and the living quarters of the workers and engineers were also here.

The entire island had been built into a building.

After a few days, Wu Tian landed on the island with Cui Yongji and Blanche in a helicopter. They were shocked by the scene on the island.

The southernmost tip of the island was their launch site.

There were almost no buildings for a kilometer or two, just for safety.

If they were not careful and the rocket suddenly exploded, their losses would not be small.

"President Wu, you're here!" Hong Xiangtai walked over excitedly. After the meeting with the dishes, he came back to speed up his research and development. With the support from the military factory, their rocket development basically did not encounter any big technical difficulties.

At this stage of the game, they could only launch a few small satellites, so the orbit wasn't too high.

Not to mention using rockets, even if they were to bring the missiles over, they would be able to use them almost immediately.

"Hmm, how are your preparations? Today is our big day, you see, these two are our big clients!" The meaning behind Wu Tian's words was obvious. This time, they were not only sending a satellite to themselves, they were also doing an advertisement.

As long as it was a success, Cui Yongji would definitely send an order over. At that time, their company would naturally not be short on money.

"Don't worry, we've been preparing for a long time!" Hong Xiangtai's desire to achieve results this time was even more serious than before.

Zhixing Technology Company launching the rocket in front of them was like a humiliation that Hong Xiangtai had always been worried about.

"Alright, you guys go and prepare!" Wu Tian also gave them a lot of freedom. Whether this launch would succeed or not also had to do with Wu Tian's heartstrings. He had invested an incalculable amount of money into this matter.

If they failed, these investments would cost them everything, and at that time, it would be a huge pressure for Wu Group Corporation.

Hidden Billionaire Chapter 892 - Joy the Crisis Behind It

C892 Joy the Crisis Behind It

Following his command, a huge fireball rose into the sky from afar, and like a newborn sun, it streaked across the sky.

Those with more important statuses were specially arranged to have a viewing platform where they could clearly watch the launch.

The launch time actually didn't take long, which was about ten minutes. When Wu Tian heard that the mission was a success, he immediately walked in front of Cui Yongji and Blanche with a smile.

"You two, what do you think about us?"

Wu Tian's face was filled with pride. It was clear that he wanted to hear some words of praise from these two distinguished guests.

"Very good! Our previous agreement can now be continued. " Cui Yongji was very satisfied, this was within his expectations.

However, Blanche's eyes seemed to drift erratically, probably thinking about the twists and turns in this situation.

"Wu Tian, you sure did well with this, but our Char Country's satellite launches all have our fixed suppliers, so ..."

Blanche showed a regretful expression, she did not intend to follow Wu Tian's plan.

They were all smart people. Of course, they knew that Wu Tian wanted to promote his rocket.

"Can you not be so ruthless so early on? Our prices are very well calculated!" Wu Tian was speechless. This guy was clearly trying to bargain on the spot.

Blanche sipped her black tea leisurely and looked at Wu Tian.

I don't think it's certain yet. Moreover, I heard that you have a Zhixing Company. Previously, you also sent a price to our Char Country's astronautics department, and the price was also very low.

What she represented right now was their country's interest. She could not blindly make a choice just because Blanche and Wu Tian had a personal relationship.

Wu Tian immediately had a face of displeasure. This Zhixing Technology Company was really everywhere and he actually walked far more on the commercial road than Wu Tian.

Cui Yongji laughed as he noticed Wu Tian's worry.

He walked over and patted Wu Tian on the shoulder to cheer him on.

"Don't worry, I'm still supporting you. I'll send out ten small satellites first."

Cui Yongji wasn't that sensitive to money, which was different from Blanche's.

After all, he was in a private business. He could spend whatever he wanted with his own money.

"This is great!" Wu Tian held Cui Yongji's hand excitedly. At the same time, he did not forget to throw a look of dissatisfaction at Blanche.

With Cui Yongji's order, Wu Tian felt like he could catch his breath all of a sudden.

Although Cui Yongji had previously said that he hoped Wu Tian would give him a huge discount on the price.

Wu Tian estimated the cost to launch a rocket would be at least one hundred and fifty million.

The cost is still because their technology is not very mature and can even be reduced significantly in the later stages.

Cui Yongji was quite generous, he directly offered 200 million, 10 satellites was 2 billion.

The large amount of funds that Wu Tian invested into the spaceship department before finally returned a little bit.

His pressure was greatly reduced in an instant.

After sending off the two guests, Wu Tian did not feel complacent just because he had succeeded. Instead, he was deeply worried about the progress of his Zhixing Technology Company.

These fellows were far more powerful than he had imagined.

After they came back from the island, everyone had a happy expression on their faces. Only Wu Tian had a serious expression.

Even Loong Yun, who had always been very serious, couldn't hide the smile on her face this time.

"President Wu, my system can officially go online now. This time, we can gradually monitor the entire S City. At that time, you don't have to worry about anyone attacking you."

Loong Yun excitedly found Wu Tian and told him about it. However, Wu Tian lightly nodded his head and didn't take this matter to heart.

"What's the matter with you?"

Loong Yun stopped smiling and started to get nervous.

"Things are not going well ..." As Wu Tian said this, Zhixing Company was now a thorn in his side.

When Wu Tian thought of the existence of this company and their growing potential, he felt that it was difficult for him to eat and sleep.

"What are you talking about?" Loong Yun heard him say something, but she didn't hear it clearly.

Wu Tian shook his head slightly and tapped on the table with his fingers.

"I'm talking about our competitor. Do not underestimate them, go and collect his information now!"

Some of the previous intelligence work had basically stopped, and now they had to hurry and get these things back together.

Loong Yun nodded. Now that she had this new satellite, she could gather more information on this aspect.

"Alright, don't worry about that!"

Loong Yun turned around and was about to leave, but her mind was still on Wu Tian's frown.

To be honest, she rarely saw Wu Tian so worried.

Before Loong Yun walked out of the room, she saw Hong Xiangtai walking in with a group of people.

They were not much worse than Wu Tian, they were all worried.

"What's wrong with you two?" Wu Tian didn't know what to do as he saw these people coming over. He didn't seem to have contacted Hong Xiangtai.

He looked at Hong Xiangtai with a strange gaze. This didn't seem like the emotion he should have when the rocket launcher was successful.

Furthermore, Hong Xiangtai did not come alone. He was accompanied by a group of people, all of whom were his former colleagues in Korea.

Vaguely, Wu Tian felt that something big might happen.

"President Wu, I apologize to you first!" Hong Xiangtai stood in front of Wu Tian's work table. He suddenly lost his composure and started to cry.

"What's wrong? You should talk properly. Don't worry, don't worry about anything! " Wu Tian didn't know what to say after he was tricked, but what was this guy planning?

All this while, Wu Tian had always been quite confident in Hong Xiangtai. When they recruited him, he had always been diligently completing his work.

"President Wu, we have to go, but we can't bear to leave ..."

Hong Xiangtai wiped away the tears at the corner of his eyes. Everyone followed his mood and became sad.

Wu Tian was completely shocked. What the hell was this?

"I didn't tell you to go, and I didn't do anything. Tell me, what exactly happened?"

There were still many spaceflight missions waiting for them to complete. If all of them were to leave, it would be a waste of time. How could Wu Tian's spaceflight be carried out?
