C897 Prepare for Counterattack

Once he returned to the Wu Group company, Wu Tian immediately went to the Security Team.

The matter with 11 Devils was already somewhat unbearable to him, so he had to settle this matter once and for all.

"Where's Su Cancan?"

After Wu Tian arrived at the top floor, he directly grabbed a person and asked him about it. He didn't pay attention to other things.

"What are you doing?" "You actually called her Su Cancan!" The team member guarding the door seemed to be a newcomer. He had never seen Wu Tian before. Seeing that Wu Tian was so rampant, he immediately stopped him.

As soon as he said that, his companion pulled him back. He whispered into his ear, "This is the chairman of the company! You're courting death! "

After knowing Wu Tian's true identity, this team member was truly terrified. However, Wu Tian did not bother about this matter.

He didn't have time to bullshit with these people right now. He had more important things to do right now.

"Let me ask you guys, where is Su Cancan?"

"She's inside. I'll take you in."

Suddenly, the young man changed his voice and led Wu Tian in.

When he entered, Su Cancan was leading her teammates in a simulation of battle.

All this while, she had been thinking about how to defeat that 11 Devils.

"How are things on your side?"

Wu Tian walked in worriedly. Seeing how busy they were, he hoped to hear some good news from them.

"The difference in strength between us and our enemies is too great."

Su Cancan did not get a particularly good result. Perhaps, it was not too much of a problem for them to face one or two enemies directly.

But if they faced all of them at the same time, it would be difficult.

What's more, Su Cancan and the rest did not know the abilities and strength of most of them.

"We need to hurry up and think of a way! Prepare for the pre-battle meeting! "

Wu Tian was very decisive, and when he said this, even Su Cancan was surprised. Because she felt things had not come to this.

"With our current strength ..."

Su Cancan was a little hesitant. She felt that Wu Tian must have drunk some alcohol or been stimulated by something before he made such a choice.

"We can't wait any longer. It's not a good thing for us to continue wasting time like this."

Wu Tian waved his hand. He had already made his decision on this matter. If he allowed 11 Devils to continue chasing and killing him outside, he could be killed at any time.

Thus, he might as well take the initiative.

He took the initiative to engage in a decisive battle with the enemy to fight to the death.

Although Su Cancan didn't quite understand, she still followed Wu Tian's instructions and instructed the guys to prepare to enter battle mode.

Fortunately, these Security Team practitioners came from the army, and their ability to obey orders and follow commands was extremely strong.

Very quickly, a huge command room was set up on the top floor of the tower. There were screens everywhere inside, allowing one to see all sorts of S City.

When Loong Yun received the news, she led a dozen or so staff personnel into the hall.

With the operations of professionals like them, it was very easy to monitor the entire S City.

Of course, this was not enough, Wu Tian even found a military factory.

In the past, the bows and crossbows that they used for Security Team were not particularly useful in this kind of battle.

He hoped to get a bunch of lethal weapons in the dark.

This question was more difficult to solve. Although Director Wang knew what Wu Tian was thinking, he couldn't do it according to Wu Tian's request.

"President Wu, we can definitely make this gun, but we can't give it to you! Our law forbids this!"

Since Director Wang argued rationally, he did not choose to compromise because of Wu Tian's request.

"But our people can't possibly use these weapons to fight. I'm afraid they won't be able to protect their own safety!"

Wu Tian was concerned about Security Team. Although he had recruited these people and would give them money, Wu Tian still treated them as his own people.

He did not want these people to be injured or lose their lives because of him.

"How about this, I can't provide you with a real weapon, but I can get you some other equipment."

In the end, Director Wang could only compromise like this. He immediately went back to the factory and gathered a bunch of bulletproof helmets, military uniforms, and the like.

Although these things could be considered military supplies, due to the fact that they weren't lethal, it wasn't against the law for him to give these things to Wu Tian.

Although Wu Tian wasn't very satisfied with these things, it was better than nothing.

Since he couldn't find a solution at the factory, Wu Tian thought of someone that could help him.

He wanted to take the initiative and ask the police for help. If he could really cooperate with them, then Wu Tian's chances of winning would increase a lot.

Luckily, he had some contact and communication with the police before, so when he mentioned this matter, they probably wouldn't feel any antipathy towards it.

Wu Tian immediately contacted the police chief and the two of them had a secret conversation on the phone.

Not long after that, as the representative of the police, Sunn Hongsheng drove the car to the Wu building in a hurry.

Wu Tian was already waiting for him downstairs, so he quickly invited him to the secret living room.

It wasn't the first time Sunn Hongsheng came into contact with Wu Tian. However, it was the first time Sunn Hongsheng saw Wu Tian so flustered and anxious.

"What happened to you ..."

"Captain Sun, there are some things that I haven't told you guys before, but I'm afraid I can't not say them now."

Wu Tian sighed and took out his tablet computer. There were some videos in it.

This was the video that was shot by Wu Tian using 11 Devils to kill him.

Sunn Hongsheng frowned as he looked at the video. At the end, he looked at Wu Tian with a serious expression.

"President Wu, what do you want to do?" "Since such a thing has happened, if you were to report it to us, we will definitely catch them and bring them to justice."

Wu Tian sighed. He knew these cops would do that, but with their abilities, it was almost impossible to catch them.

No matter how powerful the police were, they were just ordinary people.

"You won't be able to catch them. These people have some ability." Wu Tian spoke very straightforwardly, but this was also the truth.

"So what? He actually offended us, and he's actually causing a ruckus in our S City. I definitely can't spare them!"

Sunn Hongsheng waved his fist. The people he hated the most were the ones who disturbed the public security. Otherwise, he wouldn't have purposely become the explosion-proof captain, targeting these forces.

C898 Police Support

Sunn Hongsheng stared closely at the physical qualities displayed by the people on the screen. He was no fool, anyone with a discerning eye could tell that these people were definitely not ordinary people.

Earlier on, he had also heard that there were some people in the countryside who would cultivate methods that could enhance their physical condition.

However, most people treated these items as false rumors.

However, from the looks of the video, it seemed like the video was not made up of rumors, but real.

"I have an idea and a suggestion. That's why I'm looking for you."

Wu Tian finally decided to reveal his thoughts. He did not plan to say it out loud, but rather brought Sunn Hongsheng to their top floor, which was also the Security Team's encampment.

Sunn Hongsheng still didn't know what Wu Tian was really up to, so he followed behind him with a puzzled expression.

It was only until he saw this Security Team that his face changed.

Because everything here was like a military base.

He was almost about to take out his own phone to notify Police Station ... Possessing weapons in private was definitely illegal. Even if they had a close relationship with Wu Group company, they shouldn't turn a blind eye to such things.

"Captain Sun, please don't take offense. This is our Security Team. We are responsible for protecting our Wu Group company's safety. They don't have any weapons in their hands, so don't worry, we don't have any that violate the laws of our country. "

Wu Tian saw Sunn Hongsheng's worry and quickly explained it to him. He also showed that they really did not have any firearms or ammunition here.

Only with this did Sunn Hongsheng feel a little relieved. He continued to follow Wu Tian towards the big shed in the middle.

Sunn Hongsheng was stunned when he looked inside.

This was because the screen inside was displaying a situation regarding S City.

You know, they don't even have that kind of surveillance capability... Although there were cameras scattered all over the city, these things were quite complicated to investigate. There was no real server that could gather all the data.

Therefore, their current method of handling the case wasn't too different from a few decades ago. They still had to rely on on-site inspections and interviews.

"Introduce that this is the newest product of our company. It can take a bird's eye view of the entire S City and at the same time accurately locate everyone. However, in order to protect the privacy of the public, we do not count the identity of each citizen. "

Wu Tian said without any hesitation. He did not plan to hide it from Sunn Hongsheng. If he wanted to cooperate with the police, he must show this thing to them.

Furthermore, Wu Tian had his own thoughts, he didn't say these things out loud.

"President Wu, this is too high-tech..."

Sunn Hongsheng was flabbergasted. If the police had this kind of equipment, it would be much easier for them to handle cases in the future. This system was simply something he would dream of.

"Captain Sun, this time we want to work with your police to attack such a criminal group. There are approximately eleven of them, and their strengths are all extremely high! "

Wu Tian finally got down to business. He had put himself in an auxiliary position with his words.

In any case, it was true that they didn't have the authority to target criminal groups. The police were right to do that, after all, they had the right to use firearms.

As Wu Tian said this, the screen in the middle immediately displayed a few people.

Among them were Tian Ling, Di Yin, and Di Gu, who had previously attacked them. There was also the unknown man with a body as solid as a bronze wall, and the one who had used the whip at the beginning.

But they still didn't know what the other six looked like.

Sunn Hongsheng took a deep breath. He knew this was no small matter, but as police officers, they had to maintain the safety of their citizens.

"Alright, I understand. I'll report it to the bureau chief when I get back!"

Seeing Sunn Hongsheng agree, Wu Tian also felt a lot more relieved. But just like that, it was not enough to get the police to work with Wu Tian.

"Wait, I have another condition."

Wu Tian hurriedly stopped Sunn Hongsheng. His eyes rolled as he said with a smile: "If this mission succeeds, our Wu Group company will have received a huge favor."

Sunn Hongsheng waved his hand. He never thought that he did all this to get others to thank him.

"President Wu, no need to say that. This is our responsibility."

"I think so. If the mission succeeds, I intend to donate a set of equipment to our police station for free. I would also like to express my gratitude for this operation."

The moment he said that, Sunn Hongsheng's expression immediately turned serious.

He did not expect Wu Tian to say something like that, it was something that touched his heart.

"Don't worry, I'll definitely talk to the bureau chief about this matter."

With that, Sunn Hongsheng quickly left, only with one step was he able to jump up.

Wu Tian looked at his back and felt gratified. It seemed that he would be able to increase his strength again this time.

The police would not refuse such a condition.

However, with their strength, Wu Tian felt that they were still lacking a little.

However, even after thinking over and over again for an entire day, he still could not come up with anyone who could fight alongside them.

Previously, in order to deal with the Tianying Sect, he had invited a few men from the Green City Sect. However, even Su Wenxin and the others might not be able to fend off the enemies that they had encountered this time.

Even if these people were to fight, they wouldn't necessarily be able to gain much benefits.

However, if Wu Tian was injured, he would have to bear a large amount of medical expenses, or even some compensation.

No matter what, it was not worth it.

The person that could be related to him and had extremely powerful combat ability. Wu Tian thought about it for a while and finally fixed his gaze on Luo Huaicheng.

However, how to do that and get them to participate in it made Wu Tian very troubled.

He doesn't have the authority to command the army... He did not know anyone who could do such a thing.

Thinking about it, Wu Tian didn't know what to do, so he wandered around the room restlessly.

Loong Yun came over to report the situation to him, but he looked a little puzzled.
