

## Hidden Billionaire Chapter 899 - Advice

C899 Advice

"President Wu, what happened to you?"

Loong Yun simply poured Wu Tian a cup of hot tea, hoping that he would be able to ease his mood.

Wu Tian told Loong Yun what he was worried about. He originally thought that his mood would be better after he said it out loud, but the result wasn't like that.

"Luo Huaicheng and the others are special forces, they're not like the average army."

Loong Yun held her head and thought for a moment. It was really hard to have anything to do with them.

It was impossible to mobilize them to help her fight.

For a Special Team like Luo Huaicheng's to move out, they must either follow the orders given by their superiors, or they must have found some terrorists or hostile forces outside the country.

And only under such circumstances would they dare to use their Special Team.

Otherwise, at most, it would be handled by the police.

Therefore, Wu Tian had no big issues with finding the police to work with.

"In other words, from a normal perspective, we definitely won't have that possibility."

Loong Yun nodded her head in agreement with Wu Tian's words.

"But is there anything we can do about it?"

Loong Yun looked at Wu Tian. Usually, this guy has a fast mind. He can often think of some unorthodox methods, and maybe he can also use this kind of advantage at this time.

"I really can't come up with an alternative solution to this ..."

Wu Tian frowned. After thinking for a while, he suddenly slapped his thigh.

Normally, there would not be such a flexible approach.

However, if a lot of things happened together and formed a coincidence, would that also achieve his goal?

"Do you have a way?"

Seeing Wu Tian like that, Loong Yun suddenly became excited.

"Yes, there is. It's just that the difficulty is a little too great!"

Wu Tian was a bit excited, so he quickly took the map.

"Do you remember before, didn't Luo Huaicheng say that they were about to carry out the next exercise? Although it's impossible for him to tell us where the drill site is, we can speculate for ourselves! "

Hearing Wu Tian's words, Loong Yun quickly took out her tablet and started to mobilize the satellite for the search.

Normally, there wouldn't be any ordinary people around. Otherwise, it would be very easy for them to get hurt.

So they all chose the suburbs or the mountains.

But they couldn't always choose such a location. Sometimes, a city was also a scene that would appear in the battlefield in the future, and the special forces were especially good at street fighting in the city.

"President Wu, I'm afraid there really is such a place!"

Loong Yun found a place on her tablet that looked suspicious.

This place was located close to the sea and was surrounded by a shantytown. Some contractors had already contracted this place down, as if they were planning to redevelop it.

"Why do you think it's here?"

There were no signs on it, and of course there couldn't be. How could the Special Forces train and tell others that we were going to do exercises here?

When the time comes, someone will come to watch or steal their secret.

"Previously, the developers planned to demolish this place. The excavator was already in place, but suddenly they said it would be closed for a month. "There aren't many residents around, so I think it's very suitable for training exercises here."

Loong Yun's argument was not unreasonable. She came to such a conclusion through a series of conditions.

Because the government has decreed that this area should be blown up to prevent others from entering.

In a sense, this was basically setting up a range and area for their training.

If they really fought intensely, even if the developers didn't come here to demolish the building, they could just directly make these special forces do it.

"Is there any other place in the city? If there is only one place in this state, then it should be this place!"

Wu Tian also rubbed his hands together, he now had a suitable way of thinking that was slowly becoming clearer.

Although there was no way to directly link up with the Special Forces, there were other ways.

If their battle range affected this area, then the Special Forces would have sufficient reasons to participate in this operation.

Wu Tian's calculations were very fast. At this moment, he couldn't help but pick up a cup of tea as he laughed and became intoxicated with himself.

"I'm really a genius!"

If it was in the past, Loong Yun would usually hear these words and roll her eyes at Wu Tian.

However, this time, Loong Yun couldn't help but admire Wu Tian's idea. Although it was a sword move, it was still a real possibility.

"Isn't it too eye-catching for us to have created such a huge formation this time ..."

Loong Yun was a little worried. They had always kept a relatively low profile since they were in the business world. Generally speaking, they should keep a good distance from other forces.

"I want to keep a low profile too, but my enemies won't allow me to."

Wu Tian let out a sigh. His words were sincere, during this period of time, the appearance of Tianying Sect and Tianying Sect made Wu Tian feel like the bad luck around him never stopped.

There was always someone who wanted to create trouble for him. If it wasn't for Wu Tian's strength, he would have been done for a long time ago.

"Relax, I will do my best this time around!"

Loong Yun looked at Wu Tian and promised solemnly. With the help of high-tech equipment, they might not be as passive as they used to be.

"Alright, alright. If you need to be busy, then go. Don't worry about me."

Seeing that it wasn't too early, Wu Tian decided to take a break.

He still had to go to the military district tomorrow to discuss this matter with Luo Huaicheng.

If he was willing, of course, everyone would be happy. However, if he wasn't, Wu Tian had to think of something else.

It wasn't very scientific to do this without telling him. Even if it succeeded, Wu Tian didn't want to see his business plummet when the army started to criticize him.

After a day of work, he went to bed in a hurry.

Unexpectedly, Sunn Hongsheng called him in the middle of the night.

"Let me tell you a piece of good news!"

Sunn Hongsheng's voice trembled non-stop as if he had won a big prize of five million.

"What good news? Could it be that my plan has been approved by your side?"

Wu Tian was secretly delighted in his heart. Indeed, even the police couldn't resist such a huge temptation.

## **Hidden Billionaire Chapter 900 - Action Conference**

C900 Action Conference

Wu Tian was secretly delighted in his heart. Indeed, even the police couldn't resist such a huge temptation.

Sunn Hongsheng chuckled, giving Wu Tian a very big daydream.

Exactly what kind of decision had the Police Station adopted to make this guy so happy?

"Don't delay any longer, it's the middle of the night ..."

Wu Tian was tired, he still wanted to finish this call and go back to sleep.

"Alright, I won't tease you anymore. It's like this, the bureau chief has decided to set up a new task force on this matter. He will gather the elites of our various departments to deal with this matter. "At the same time, our mission has been reported to the public security department."

Sunn Hongsheng said a lot of stuff, but Wu Tian only heard the gist of it.

In other words, the police had paid a lot of attention to this issue and had reported it to a higher level.

"Then why are you so happy?"

"Let me tell you, the main organizer and the person in charge of this operation is me! "And because your surveillance system is very high-tech, our department has decided to accept your donation."

This was within Wu Tian's expectations. He was already sure that they would want these things.

They gave up on what they could get – this was obviously a bit unrealistic.

"Don't worry, we will keep our promise. We will definitely not renege on what we have promised you."

The system wasn't really that expensive, but the only expensive thing was the satellite above.

Wu Tian had spent almost two to three hundred million to make it, so this system was just a port for the satellite.

And Wu Tian still has a lot of ports to use.

"Let me give you some information. It's very possible that the higher ups will send a special task force this time to assist us in this mission." "Moreover, it is said that all aspects of this operation must be recorded. If it is successful, it will be reported to the higher ups for analysis."

When Sunn Hongsheng said this, Wu Tian immediately became excited.

It could be seen that the higher-ups of the police force had good judgement. The biggest reason they were doing this was probably because they wanted to push forward the reform of the entire police force.

It was impossible for a country to not know of the existence of these cultivators. However, it was impossible for everyone to possess this ability. It was fated that only a few people would possess this ability.

In the past, most of these cultivators lived in seclusion and did not do much harm to the commoners. Therefore, no one complained too much about their existence.

But now it was different. These people had come out to stir up trouble, and the country should have long suppressed them. Now that there was such an opportunity, the police would definitely not let it go.

Moreover, Wu Group company represented a high-tech enterprise. If their strength was on par with these cultivators, then wouldn't that mean that ordinary people would have the strength to compete with these cultivators?

The meaning of such a thing was extraordinary.

"Special forces?" Wu Tian had a vague feeling that this special task force was just here to test out whether the technology was stronger or the warriors were stronger.

"I don't know much about the specific situation, but it's said that it's very likely that it's some of the Special Team nearby ..."

What Sunn Hongsheng heard was ambiguous. He wasn't sure.

"Alright, that's all I have to say. You should hurry up and rest, I'll come and find you tomorrow!"

Sunn Hongsheng decisively hung up the phone. However, Wu Tian was unable to fall asleep.

He was extremely excited in his heart. If this matter had a huge impact, it would be a very good opportunity for their Wu Group company.

It was finally dawn. Wu Tian didn't close his eyes for the whole night. It wasn't that he didn't want to sleep, but he wasn't sleepy after answering the phone.

He had always been very excited in his heart. He even looked forward to the start of the operation.

Sunn Hongsheng had indeed come early in the morning. Due to the news Sunn Hongsheng had given him, Wu Tian had dispelled his plans of going to find Luo Huaicheng and the others.

They were in the operations room, ready to study how to carry out the mission.

Of course, the first point was to find the location of 11 Devils.

Loong Yun had already marked a few spots on the map that she projected. If these spots were enlarged, it would be clear that they were a few small red figures.

"We can already find these people, but the rest won't be so easy. Furthermore, from what we know, most of the time, their 11 Devils are no different from an ordinary person's — we simply cannot differentiate them from the rest. "

This was also their biggest problem this time. If they couldn't find an enemy, you naturally wouldn't be able to attack them.

"Can't this system use facial recognition?"

Sun Hongsheng frowned. Towards this kind of searching that was like looking for a needle in a haystack, the police were actually at their wit's end.

There were tens of millions of people living in the S City, and under such a large range of circumstances, it was even harder than ascending to heaven to find a few people who lived in different areas.

"The satellite can only look down from above and it's hard to recognize the face. But we can judge who they are by comparing the heat on their bodies. "

Loong Yun expressed her helplessness. The identity of these people were also recorded by Wu Tian when he met them.

"Can you guys find a way to lure the remaining people out?"

Sun Hongsheng looked at Loong Yun. The police wouldn't be able to help much in this matter.

Loong Yun, on the other hand, focused her gaze on Wu Tian ...

"This matter still depends on President Wu's opinion."

Wu Tian was listening and didn't realize that they were talking about him.

"What has this got to do with me?"

"How it has nothing to do with you! Weren't they here all because of you!? "

Su Cancan interrupted. Every time she opened her mouth, her words were very vicious.

Hearing her words, Wu Tian thought for a while and felt that what she said made sense.

"You mean you want me to be the bait?"

Sunn Hongsheng laughed embarrassedly, "I didn't say that, you thought so yourself. But at this stage, I don't have any other better methods. "

Wu Tian felt speechless after hearing that. He was afraid that these people would kill him when he went out, so he called the police to arrest them.

In the end, they still had to use him as bait to lure these people over. Isn't this reversing the main and secondary relationships?

Wu Tian's strong protest didn't have any good effect.
